Proposed Exemption for Certain Transactions Involving Lovell's Profit Sharing Trust, Astoria, Oreg.

AGENCY: Department of Labor.

ACTION: Notice of proposed exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Empolyee Retirement Income Security Act of 1974 (the Act) and the Internal Revenue Code of 1954 (the Code). The proposed exemption would exempt the cash sale of two parcels of real property by Lovell's Profit Sharing Trust (the Plan) to Robert S. Lovell, the Plan Administrator, a party in interest with respect to the Plan. The proposed exemption, if granted, would affect Mr. Lovell, the Plan and its participants and beneficiaries and other persons participating in the transaction.

DATES: Written comments and requests for a public hearing must be received by the Department of Labor on or before May 5, 1981.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216, Attention: Application No. D-2083. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, NW., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT: Alan H. Levitas of the Department of Labor, telephone (202) 523-8884. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of an application for exemption from the restrictions of section 406(a) and 406(b)(1) and (b)(2) of the Act and from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code. The proposed exemption was requested in an application filed by the Plan Administrator, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Summary of Facts and Representations

The application contains representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file

with the Department for the complete representations of the applicant.

1. The employees participating in the Plan joined a labor union in 1977 and are now covered by the union pension plan. As a result, the assets of the Plan are being liquidated and distributed to participants. All of the assets except for two parcels of property (the Property), have been distributed. The Property is known as Lot 1 Block 1 and Lot 18 Block 3 of the Lock Haven Highlands Subdivision in Clatsop County, Oregon.

2. In order to complete the liquidation of the Plan it is necessary to dispose of the Property. Presently, the Property is completely surrounded by property owned by Pacific Power & Light Company (Pacific). The Property was offered to Pacific. By letter dated January 22, 1981, Pacific declined to purchase the Property.

3. The Plan acquired the Property from Astoria Auto Finance (Astoria) in 1973 in exchange for a $3,100 note receivable due from Astoria. The Property at the time it was transferred to the Plan was assessed at $3,100. The Property was held by the Plan as an investment, as there were plans for the construction of a housing development in the area.

4. The Property was appraised on December 1, 1980 by Michael J. Manion of Oregon Coast Realty as having a value of $1,800. Mr. Manion stated that because of the water, sewage disposal and access problems created by Pacific's ownership of surrounding land, and the lack of improved streets, the Property has little, if any, value. The current assessed value of the Property is $1,577.

5. In order to complete the liquidation of the Plan, Mr. Lovell has agreed to purchase the Property at the Plan's original cost of $3,100. No commissions will be paid in connection with the sale.

6. The property has been, and continues to be, a non-income producing asset of the Plan. Each year the Plan remains in existence it suffers a loss, since administrative costs exceed income. This situation will persist until a buyer is found for the property.

7. In summary, the applicant represents that the proposed transaction meets the statutory criteria of section 408(a) of the Act because (1) it is a one time transaction for cash, (2) the Plan will liquidate its remaining assets and complete a distribution of benefits to Plan participants, (3) the amount to be paid for the Property exceeds its present appraised value, and (4) the trustee has determined that the transaction is appropriate for the Plan and is in the best interests of the Plan's participants and beneficiaries.

Notice to Interested Persons

Notice will be given to all Plan participants within 15 days of the publication of the proposed exemption in the **Federal Register**. Such notice shall include a copy of the notice of pendency of the exemption as proposed in the **Federal Register** and shall inform interested persons of their right to comment and request a hearing within the time period set forth in the notice of proposed exemption. The notice will be mailed to all Plan participants at their last known address.

General Information

The attention of interested persons is directed to the following: (1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act of the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the application for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of section 406(a) and 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to the cash sale of the Property by the Plan to Mr. Robert S. Lovell for $3,100, provided that this amount is not less than the fair market value at the time of sale.

The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 12th day of March, 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

[Prohibited Transaction Exemption 81-26 Exemption Application No. D-1864]

Exemption From the Prohibitions for Certain Transactions Involving the Zorn's Poultry Farms, Inc., Retirement Plan; Bethpage, N.Y.

AGENCY: Department of Labor.

ACTION: Grant of individual exemption.

SUMMARY: This exemption would exempt a loan of $150,000 by the Zorn's

Poultry Farms, Inc. Retirement Plan (the Plan) to Zorn's Poultry Farms, Inc. (the Employer).

FOR FURTHER INFORMATION CONTACT: Alan H. Levitas of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216. (202) 523-8334. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On January 9, 1981, notice was published in the Federal Register (46 FR 2433) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of section 406(a) and 406 (b)(1) and (b)(2) of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1) (A) through (E) of the Code, for a transaction described in an application filed by the Plan Administrator. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. In addition the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented that it has complied with the requirements of the notification to interested persons as set forth in the notice of pendency. No public comments and no requests for a hearing were received by the Department.

The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemption of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plan and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plan.

Accordingly the restrictions of section 406(a) and 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to a loan of $150,000 by the Plan to the Employer, provided that the terms of the transaction are not less favorable to the Plan than those obtainable in an arm's-length transaction with an unrelated party at the time of consummation of the transaction.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to this exemption.

Signed at Washington, D.C., this 12th day of March, 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs Labor-Management Services Administration, U.S. Department of Labor.

MERIT SYSTEMS PROTECTION BOARD

Appointment of Members to the Performance Review Board

AGENCY: Merit Systems Protection Board.

ACTION: Notice of change in the membership of the Performance Review Board.

SUMMARY: Title IV of the Civil Service Reform Act (Sec. 405(a), Title IV, Pub. L. 95-454; 5 U.S.C. 4314(c)(1) through (5)) requires agencies to establish a Performance Review Board whose members make a recommendations to the Chairwoman of the Board relating to the performance of senior executives of the Merit Systems Protection Board, and to publish the membership in the Federal Register.

This Notice amends the Performance Review Board membership to delete the name of Samuel A. Chaitovitz, who has resigned, and to add the name of Harold D. Kessler, Federal Labor Relations Authority, who has been appointed to complete the unexpired term ending December 31, 1981.

EFFECTIVE DATE: March 16, 1981.

FOR FURTHER INFORMATION CONTACT: Lawrence Bembry, Director, Personnel Management Division, Merit Systems Protection Board, 1717 H Street, N.W., Room 367, Washington, D.C. 20419, (202) 653-5919.

For the Board.

Dated: March 16, 1981.

Ruth T. Prokop,

Chairwoman.

BILLING CODE 7400-01-M

MINIMUM WAGE STUDY COMMISSION

Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act, (Pub. L. 92-463), announcement is made of the following meeting.

Name: Minimum Wage Study Commission
Date: April 8, 9, and 10, 1981
Time: 10 a.m. April 8; all other days at 9 a.m.
Place: 1430 K St. NW, Suite 700, Washington DC 20005

Original notification of this meeting appeared in the **Federal Register** March 3, 1981.

Proposed Agenda

1. Pending business concerning indexation; inflation; youth subminimum; noncompliance; income distribution; demographics; agriculture; agricultural service exemptions; executive, administrative and professional exemptions; student certification.

2. New business as necessary.

All communications regarding this Commission should be addressed to: Mr. Louis E. McConnell, Executive Director, 1430 K St. NW, Suite 500, Washington, DC 20005, telephone (202) 376–2450.

Louis E. McConnell,

Executive Director.

BILLING CODE 7537-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-17632; File No. SR-Amex-81-1]

Self-Regulatory Organizations, Proposed Rule Change by American Stock Exchange, Inc.

In the matter of proposed rule change relating to implementation of a program to trade options on United States Treasury Department securities; Comments requested on or before May 19, 1981.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on March 3, 1981, the American Stock Exchange, Inc. ("Amex" or "Exchange") filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Amex's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is proposing to establish a program for the trading of standardized options on U.S. Treasury Department bills, notes and bonds ("Government security options").

The Government security options program would be conducted pursuant to the rules which now govern the trading of options on underlying stocks on the Exchange, with certain modifications to reflect the economic characteristics of, and markets for, the proposed underlying Government securities. The Exchange also anticipates that The Options Clearing Corporation ("OCC") will submit appropriate corresponding proposed rule changes to the Commission relating to the subject matter now covered by OCC rules (*e.g.*, specification of units of trading, and requirements concerning exercise and delivery).

While the terms of the proposed rules are sufficiently broad to permit the Exchange to list options on both 13-week and 26-week Treasury bills, as well as all Treasury notes and Treasury bonds which meet the criteria set forth in proposed Rule 917, the Exchange would commence the program by listing options only on 13-week Treasury bills and on "long-term" Treasury bonds (*i.e.*, Treasury bonds having terms to maturity of at least 20-¼ years during the life of any option covering them). The addition of other classes of options permitted under the proposed rules would be deferred pending the acquisition of experience with options on these two categories of underlying securities.

If the security underlying an option contract were a Treasury bond or Treasury note, the security would be identified by its coupon rate and maturity date. Each option contract would relate to $100,000 principal value of the underlying bond or note; *i.e.*, following the exercise of such an option, the holder of a put or the writer of a call would be required to deliver $100,000 principal value of the underlying security. The exercise price of an option on a bond or note would be expressed as a percentage of the principal value. For example, if an option had an exercise price of 90, the price to be paid for the underlying security following the exercise of the option would be $90,000; in addition, the call holder or put writer purchasing the underlying security pursuant to the exercise of an option would be required to pay accrued interest computed in accordance with Exchange Rule 859. (Exchange Rule 859

embodies the terms of Treasury Department Circular 300, subpart P, which requires the buyer of Government securities (other than Treasury bills) to pay the seller the accrued interest on a pro rata basis from the date of the last coupon payment.) The premium for an option contract relating to an underlying bond or note would be expressed as a percentage of $100,000; *i.e.*, a bid of "1" would represent a bid to pay a premium of $1,000. Increases or decreases in premium values would be expressed in increments of one thirty-second of one percent, each such increment representing $31.25.

If the security underlying an option contract were a Treasury bill, the security would be identified as either a 13-week or 26-week Treasury bill. Each option contract would relate to $1,000,000 principal value of the underlying security in the case of a 13-week bill, and $500,000 principal value of the underlying security in the case of a 26-week bill. Following the exercise of such an option, the holder of a put or the writer of a call would be required to deliver $1,000,000 principal value of Treasury bills having 13 weeks (plus or minus one day) to maturity on the date of delivery, or $500,000 principal value of Treasury bills having 26 weeks to maturity (plus or minus one day) on the date of delivery, depending upon the underlying security involved.

Treasury bills are purchased and sold at a discount from principal value, expressed on an annualized basis using a 360 day year. For example, if a Treasury bill were selling at a 10% discount, then, hypothetically, a purchaser of $1,000,000 principal value would pay $900,000 if he purchased it exactly 360 days before maturity. If he purchased the bill on a date when there were a lesser number of days to maturity, the $100,000 discount (which represents 360 days of interest) would have to be lowered accordingly. Thus, if the bill had 91 days to maturity on the date of purchase, the discount would be 91/360 of $100,000, or $25,277.78; and the purchase price of the Treasury bill would be $974,722.22.

Option exercise prices would reflect this method of trading. The exercise price of an option would be expressed as the complement of the annualized discount (*i.e.*, 100% minus the annualized discount) at which the underlying Treasury bill could be purchased or sold pursuant to exercise of an option. For example, suppose the exercise price of a call option contract covering a 13-week Treasury bill were 90. This would mean the underlying Treasury bill could be purchased by the option holder at an annualized dicount of 10%. Thus, if, following the exercise of the option, the option writer delivered the underlying Treasury bill on a date 91 days prior to maturity, the option holder would be required to pay $974,722.22.

The proposed Government security options plan anticipates that, regardless of the date on which an option exercise notice is delivered by an option holder, the delivery of the underlying security by the put holder or call writer will (with limited exceptions) occur on the following Thursday. Thus, if the holder of a call option to purchase a 13-week Treasury bill excercised the option on a Monday, he would probably receive delivery the following Thursday of Treasury bills having 91 days to maturity on the date of delivery.

The underlying security could sometimes be delivered on the Wednesday following exercise. If the Thursday following exercise were a holiday, the Treasury Department would issue Treasury bills on Wednesday instead, and they would have 92 days to maturity. The put holder or call writer could acquire such Treasury bills upon their issuance and deliver them immediately.

In addition, the Exchange would permit delivery on a Friday following exercise of an option, to allow for the possibility that it might sometimes be difficult, due to transfer facilities, for a put holder or call writer to obtain Treasury bills for Thursday delivery. However, the Exchange's plan anticipates that if Treasury bills are delivered on a Friday, the price to be paid by the call holder or put writer would be calculated as if delivery had occurred on Thursday.

To effectuate these procedures, the Exchange expects OCC rules to provide that if an option covering 13-week Treasury bills is exercised, the securities to be delivered must be Treasury bills having 90, 91 or 92 days to maturity on the date of delivery; and that if an option covering 26-week Treasury bills is exercised, the securities to be delivered must be Treasuru bills having 181, 182 or 183 days to maturity on the date of delivery. Unless the Thursday following the excercise date is a holiday, the earliest date on which the securities could be delivered under OCC rules would be 91 days prior to maturity in the case of an option covering 13-week Treasury bills, and 182 days prior to maturity in the case of an option covering 26-week Treasury bills.

In addition to amending its rules to establish the terms, conditions, and fundamental trading characteristics of Government security options contracts, the Exchange would apply all of its existing options rules to Government security options. The topics covered by those rules include position limits, exercise limits, customer protection requirements, obligations of specialists and registered options traders, criteria for underlying securities, exercise and delivery requirements, and margin requirements, among other things.

In some cases (*e.g.*, rules relating to confirmations and limits on uncovered short positions), the terms of existing rules are sufficiently broad to apply to Government security, as well as stock, options; or, the rules can be extended to cover Government security options by making minor revisions, such as changing the word "stock" to "security". In other cases (*e.g.*, position limits, exercise limits, and obligations of specialists and registered options traders), the Exchange has made more extensive revisions to reflect differing economic and market characteristics of common stocks and Government securities. In each case in which a rule is proposed to be revised, the purpose of the revision is to allow the current purpose of the rule to be served in connection with Government security options.

II. Amex's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Amex's Statement of the Purpose of, and statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to establish an Exchange program for the trading of standardized options on U.S. Treasury Department bills, notes and bonds.

The Exchange believes that its proposal is consistent with the requirements of the Securities Exchange Act of 1934 (the "Act") and the rules and regulations thereunder applicable to national securities exchanges.

The program as a whole would comport with the general purposes of the Act by making available new categories of securities which could

further the investment objectives of a variety of market participants.

The proposed rules would be consistent with the requirements of Section 6(b)(5) of the Act in particular by providing for a fair and orderly market in Government security options, promoting just and equitable principles of trade, and protecting public customers. The rules which would be applicable to options on Government securities are an extension of the Exchange's rules relating to options on common stocks, and the Commission has already determined that those rules, as applied to stock options, meet the requirements of the Act, including Section 6(b)(5). The Exchange's existing options rules would be adapted to apply to Government security options in a manner designed to achieve the current objectives of those rules with respect to the new categories of options.

B. Amex's Statement on Burden on Competition

The proposed rule change will not impose any burden on competition.

C. Amex's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has received written comments on the proposed rule change from a few member firms. Those firms agreed that it would be desirable for the Exchange to develop a program for trading options on Treasury Department securities, and that Treasury security options would be more suitable for the public than equivalent futures.

In general, the firms either agreed with the systems chosen by the Exchange for expressing option premiums and exercise prices, or they expressed no opinion.

The firms' opinions differed with respect to which securities, ranging from 13-week Treasury bills to 20-year and over Treasury bonds, would be the best choices as underlying securities. One commentator suggested (and others have suggested orally) that the Exchange use a "market basket" of bonds, rather than a single bond, as an underlying security. Following the receipt of these comments, the Exchange did additional research and, on that basis, decided (1) to commence its program by using 13-week Treasury bills and "long-term" Treasury bonds as underlying securities, and (2) to permit OCC to authorize, under appropriate circumstances, the delivery of bonds differing in some respects from a designated underlying bond following the exercise of an option.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted on or before May 19, 1981. For the Commission by the Division of Market Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

March 16, 1981.

BILLING CODE 8010-01-M

[Release No. 34-17625; File No. SR-MSTC-81-1]

Self-Regulatory Organizations, Proposed Rule Change; Midwest Securities Trust Co.; Price Revision to Pricing Schedule

Comments requested on or before April 10, 1981.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on March 9, 1981, the Midwest Securities Trust Company filed with the Commission the proposed rule change as described in Item I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement on the Terms of Substance of the Proposed Rule Change

Attached as Exhibit A is the proposed Price Revision Schedule effective January 1, 1981.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, the Statutory Basis for, the Proposed Rule Change

(1) The proposed rule change is a revision to the Midwest Securities Trust Company (MSTC) pricing schedule. The revised prices are necessitated by increased operational costs due to inflationary pressures and management decisions to enhance the MSTC System.

Improvements to the system include additional computer hardware to serve as a back-up to the existing system, the acquisition of two high-speed printers for report preparation, and conversion from keypunch to key-to-disc equipment to improve throughput and the accuracy of the system.

(2) The proposed rule change is consistent with the requirements of Section 17A of the Securities Exchange Act of 1934. Midwest Securities Trust Company believes the improvements to the system will ensure all participants a more efficient system for the prompt and accurate settlement and clearance of trades and the safekeeping of assets. Consequently, the resultant costs from the upgrades must be offset by

increased revenues. The proposed increases will be equitably allocated among all participants using the services.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Price Revision Schedule was adopted to reflect increased inflation and operational costs and the Midwest Securities Trust Company believes that no burdens have been placed on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Comments have neither been solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934 and subparagraph (e) of Securities Exchange Act Rule 19b–4. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted on or before April 10, 1981.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: March 13, 1981.

George A. Fitzsimmons,
Secretary.

BILLING CODE 8010-01-M

[Release No. 34-17631; File No. SR-NYSE-1981-5]

Self-Regulatory Organizations, Proposed Rule Change by New York Stock Exchange, Inc.

In the matter of proposed rule change relating to trading of Government security options; comments requested on or before May 19, 1981.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on February 5, 1981, the New York Stock Exchange, Inc. ("NYSE" or the "Exchange") filed with the Securities and Exchange Commission the proprosed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. NYSE's Statement of the Terms of Substance of the Proposed Ruled Change

The proposed rule change provides a regulatory framework for a market on the Floor in options on obligations issued or guaranteed by the U.S.Government and by quasi-governmental corporations other than the Government National Mortgage Association ("Government securities"), initially limited to securities issued by the U.S. Treasury. The proposed rule change also extends the reach of the Exchange's "upstairs" option rules (existing series 700) to cover options on Government securities and on modified pass-through mortgage-backed debt securities guaranteed as to timely payment of principal and interest by the Government National Mortgage Association ("GNMAs"). The particulars of the new rules and of the amendments to existing rules are described below. Except for Proposed Rules 701, 703, 704, 706, 709, 715, 716, 717, 750, 751, 752 and 792, the proposed rule change is identical to the proposed rule change pertaining to GNMA options that was

recently filed by the Exchange (File No. SR–NYSE–81–4).

Rule 345. Rule 345 is proposed to be amended to require a registered representative to take an appropriate examination in order to qualify as a "Registered Options Principal".

Rule 700. Existing definitions of "put", "call", "exercise price", "aggregate exercise price" and "covered" in Rule 700 are proposed to be amended to make those terms applicable to options on Government securities and GNMAs. Additional definitions of new terms are also proposed. The rule's definitions also would be alphabetized.

The definition of "aggregate exercise price" would be amended to mean, as applied to GNMA options, the exercise price of an option multiplied by the nominal principal amount of the underlying GNMAs. The definition would provide for adjustment of the aggregate exercise price in the event the remaining unpaid principal balance of a GNMA delivered upon exercise of a GNMA option varies from the nominal principal amount. The adjustment would reflect both the actual remaining unpaid principal balance of the GNMA delivered and the "appropriate differential". The term "appropriate differential" is defined as an amount calculated with reference to variations in the remaining unpaid principal balance actually delivered upon exercise of a GNMA option and the "current cash market price" of GNMAs bearing the same stated rate of interest as that borne by the GNMAs delivered. As applied to Government security options, "exercise price" would mean the exercise price of an option multiplied by the principal amount of the particular Government security underlying the option.

The definitions of "put" and "call" would be amended to provide that a holder of a GNMA option has the right to sell to or purchase from OCC, in accordance with the terms of the option, a remaining unpaid principal balance of GNMAs (referred to as the "nominal principal amount"), plus or minus the permitted principal variance. The "nominal principal amount" of a GNMA option would be fixed, in accordance with the OCC Rules, at $100,000 remaining unpaid principal balance of GNMAs. In order to apply to Government securities, the definitions of "put" and "call" would be amended to provide that the holder of a Government security option has the right to sell or to purchase from OCC, in accordance with the terms of the option, $100,000 principal amount of particular Government securities.

"Covered" would be amended to apply to GNMA options by appropriately correlating (i) short positions in GNMA call options with long positions in either the underlying GNMAs or in GNMA call options and (ii) short positions in GNMA put options with long positions in such options, based on the exercise price of the offsetting options positions or the remaining unpaid principal balance of the offsetting GNMA position. "Covered" would also be amended to apply to Government security options in an identical manner, except that the "principal amount", rather than the "remaining unpaid principal balance", is the measure of the basis of an offsetting Government securities position.

The definition of "exercise price" would be amended to apply to GNMA options and Government security options. As applied to GNMA options, the term would refer to the specified percentage of the nominal principal amount at which the underlying GNMA may be purchased or sold upon exercise of an option. The definition would provide for adjustment of that specified percentage in the event a GNMA delivered upon such exercise bears a stated rate of interest at a "qualifying rate" other than the "designated rate" of eight percent. The adjustment would cause the amount paid to provide the same yield to maturity as the amount which would have been payable if the stated rate of interest had been equal to the designated rate, assuming a 30-year term and prepayment at the end of the twelfth year of the mortgage obligations underlying GNMAs. In its application to Government security options, "exercise price" would refer to the specified percentage of the principal amount at which the particular underlying Government security may be purchased or sold upon exercise of an option.

"GNMA" would be defined to confine it to GNMAs bearing a "qualifying rate" of interest. What constitutes a qualifying rate would be subject to change from time to time on the basis of the then current "GNMA production rate", that is, a rate of interest .50 percent below the current Federal Housing Administration-Veterans Administration mortgage rate. A qualifying rate would be any rate equal to or less than the current GNMA production rate, provided that (i) in the event of a change in the GNMA production rate, already outstanding GNMAs bearing interest at the changed GNMA production rate would not be deemed to bear a qualifying rate for the periods specified and (ii) if the change is a decrease, outstanding GNMAs bearing an interest rate that was a qualifying rate immediately before the change would be deemed to continue to bear a qualifying rate for the periods specified. Finally, the definition of "GNMA" would provide that any two or more separate certificates representing GNMAs bearing the same qualifying rate delivered in accordance with the OCC Rules would be deemed to be a single GNMA (representing the aggregate of the remaining unpaid principal balances of such separate certificates).

"Government security" would be defined to include "Treasury bills", "Treasury notes" and "Treasury bonds", each of which is also proposed to be defined in Rule 700. "Government security" is defined with sufficient breadth to include the several types of securities issued or guaranteed by the U.S. Government and by quasi-governmental corporations, but GNMAs are explicitly excluded.

Supplementary material is proposed to be added to Rule 700 to make clear that the current standard form prospectus covering GNMAs is Form HUD 1717 and to establish that the time for determining the cash market price of GNMAs for purposes of calculating the appropriate differential would be immediately prior to preparation of advice by OCC concerning the precise amounts of aggregate exercise prices payable with respect to exercised GNMA options.

Rules 701, 702 and 703. Proposed Rule 701 specifies the procedures for selecting which Government security option contracts are to be traded, provides for designation of Treasury securities by reference to the coupon rate and date of maturity and permits Treasury securities to be the subject of options trading any time after initial public auction. Proposed Rule 702 establishes that the rights and obligations of holders and writers thereof are determined by the OCC Rules. Proposed Rule 703 sets forth how series of such contracts are to be fixed.

Rules 704, 705 and 706. Proposed Rules 704, 705 and 706 establish position and exercise limits of 2000 Government security option contracts and require reporting of aggregate positions of 200 or more contracts.

Rules 707, 708 and 709. Proposed Rule 707 requires liquidation of positions in excess of the 2000 contract limit of proposed Rule 704. Proposed Rule 708 empowers the Exchange to prohibit writing transactions and uncovering of covered short positions if there are outstanding an excessive number, or an excessively high percentage, of uncovered short positions. Proposed

Rule 709 authorizes the Exchange to impose other restrictions on Exchange option transactions and on the exercise of Government security option contracts.

Rules 715 and 716. Proposed Rules 715 and 716 empower the Exchange to establish minimum original public sale criteria for approving underlying Treasury securities and withdrawing its approval of underlying Government securities. In addition, proposed Rule 716 confines underlying Treasury securities to the most recently issued and actively traded issues and assures that specified minimum amounts of such securities remain outstanding.

Rule 717. Proposed Rule 717 requires trading rotations following the availability of quotations for Government securities following halts and suspensions, and at expiration. The rule also provides for halts and suspensions when trading in the Government security has been halted or suspended in the primary market or in the event current quotations are unavailable, or when, in the case of underlying Treasury securities, either the Federal Reserve is active in the primary market or a new issue is occurring.

Rule 721. Rule 721 is proposed to be amended to require special approval of customers' accounts prior to acceptance by members of orders from customers to purchase or write GNMA or Government security options.

Rule 726. Rule 726 is proposed to be amended to require delivery of a current OCC prospectus on GNMA and Government security options to customers whose accounts have been approved for GNMA and Government security transactions, respectively.

Rule 750. Proposed Rule 750 makes applicable certain existing Floor rules of the Exchange to Exchange trading of Government security options.

Rules 751 and 752. Proposed Rules 751 and 752 provide that bids and offers for Government security options shall be deemed to be for one option contract unless otherwise stated and shall be expressed in terms of a percentage of the aggregate principal amount and establish that such bids and offers shall be expressed in terms of 1/64th of one percent of the principal amount unless a different percentage is approved by the Exchange.

Rule 753. Proposed Rule 753 regulates the acceptance and precedence of bids and offers made for Government security options.

Rule 754. Proposed Rule 754 provides that the unit of trading in each series of Exchange options shall be established by OCC.

Rule 755. Proposed Rule 755 obligates the specialist to report on orders left with him.

Rule 756. Proposed Rule 756 requires a member to attempt to execute a transaction in a Government security option on an exchange before executing it in the over-the-counter market.

Rule 757. Proposed Rule 757 requires each Competitive Options Trader and specialist to report to the Exchange all orders handled and all accounts in which he trades.

Rules 758. Proposed Rule 758 prescribes qualifications for Competitive Options Traders, regulates their Floor conduct, restricts transactions in which they have an interest and specifies the manner in which they may engage in options trading.

Rules 759. Proposed Rule 759 provides for cabinet trading of Government security options at premiums of $1.00 or less.

Rules 760, 761 and 762. Proposed Rules 760, 761 and 762 require that each clearing member submit specified trade information relating to each transaction he effects and be responsible for the clearance of each such compared transaction through OCC.

Rules 763 through 766. Proposed Rules 763, 764, 765 and 766 set forth procedures for Exchange comparison of trade information and generation of lists of compared and uncompared trades. Clearing members are required by these proposed rules to reconcile uncompared trades, report such reconciliations to the Exchange and resubmit trade information for comparison by the Exchange.

Rules 767. Proposed Rule 767 directs that every clearing member maintain an office at an Exchange-approved location and that an authorized clearing member representative be present at that office for such hours as the Exchange shall determine.

Rules 770. Proposed Rule 770 prescribes the manner in which unreconciled, uncompared trades are to be resolved. The rule requires the member representing the purchaser (writer) to enter the Floor and buy (sell) the questioned option contract, unless the uncompared trade is for a firm account.

Rules 771 and 772. Proposed Rule 771 offers the writer of an Exchange option transaction the choice, upon the default of a clearing member, of canceling the transaction or entering into a new transaction and charging any loss to the defaulting clearing member. Proposed Rule 772 regulates the treatment of unsecured open positions of members who become suspended.

Rules 780. Proposed Rule 780 requires that option contracts be exercised by the clearing member according to the OCC Rules and sets a fixed cut-off time prior to the expiration date of the option contract at which a member organization will be able to accept exercise instructions.

Rules 781. The proposed amendments to Rule 781 provide that in allocating exercise notices, the member organization shall differentiate between positions of block size and smaller positions in GNMA options and Government security options. They further provide that when so directed by OCC, a member organization shall allocate a Government security or GNMA call option contract exercise notice to a customer who has made a specific deposit of the underlying Government security or GNMA.

Rules 782. The proposed amendments to Rule 782 require that payment of the aggregate exercise price by a customer be accompanied by accrued interest in the cases of GNMA option contracts and Government security option contracts. They also propose that in the case of GNMA option contracts, the customer need not pay the aggregate exercise price until the member organization informs the customer of the exact amount.

Rules 792. Proposed Rule 792 establishes the days and hours of the Exchange's option market independently of the Exchange's stock and bond markets, and provides for the trading of Government security options during the hours that Government securities ordinarily trade in the cash market.

II. NYSE's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) NYSE's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(1) *Purpose.* The purpose of the proposed rule change is to provide the regulatory framework for a market on the Floor in options on obligations issued or guaranteed by the U.S.

Government or by quasi-governmental corporations other than the Government National Mortgage Association ("Government securities"), initially to be limited to securities issued by the U.S. Treasury. The proposed rule change is also designed to extend the reach of the Exchange's "upstairs" option rules (existing series 700) to cover options on Government securities and on modified pass-through mortgage-backed securities guaranteed as to timely payment of principal and interest by the Government National Mortgage Association ("GNMAs"). More detailed explanation of the purposes of the proposed amendments to existing rules and of the proposed new rules is set forth below on a rule-by-rule basis.

Rule 700. The proposed changes to Rule 700 are intended to provide the requisite scope to the Exchange's option rules and to define necessary terms used throughout the option rules.

Rules 701, 702 and 703. Proposed Rules 701, 702 and 703 are designed to provide the mechanism for approving and designating Government security option contracts and for initiating trading therein.

Rules 704, 705 and 706. Proposed Rules 704, 705 and 706 are intended to proscribe transactions resulting in excessive positions with respect to a particular underlying Government security, to proscribe the exercise within a short period of time of an excessive number of long positions in a particular class of Government security options, and to provide the Exchange with information necessary to enforce the position and exercise limits established in proposed Rules 704 and 705.

Rules 707, 708 and 709. Proposed Rules 707, 708 and 709 are intended to empower the Exchange to enforce the Rule 704 position limits, and to impose such other restrictions on Exchange option transactions and on the exercise of option contracts as are necessary to rectify undesirable market situations.

Rules 715 and 716. Proposed Rule 715 is intended to assure that the Treasury securities chosen for options trading are widely held and actively traded. Proposed Rule 716 is intended to assure the cessation of trading in an option when the underlying Government security ceases to be a suitable subject of options trading.

Rule 717. Proposed Rule 717 is intended to authorize trading rotations, halts and suspensions in circumstances appropriate for Government securities.

Rule 750. Proposed Rule 750 is intended to apply appropriate existing Floor rules to trading on the Exchange of Government security options.

Rules 751 and 752. Proposed Rules 751 and 752 are intended to establish the manner in which bids and offers on option contracts are to be expressed and to establish a minimum fractional change for Exchange option transactions involving Government securities.

Rule 753. Proposed Rule 753 is intended to regulate the acceptance and precedence of bids and offers on options.

Rule 754. Proposed Rule 754 is intended to prescribe the manner in which units of trading are to be established.

Rule 755. Proposed Rule 755 is designed to impose on specialists a duty to report orders when requested to do so by the member supplying them.

Rule 756. Proposed Rule 756 is intended to impose market responsibility obligations on members.

Rule 757. Proposed Rule 757 is intended to impose on specialists and Competitive Options Traders an obligation to report to the Exchange accounts in which they trade and orders which they place.

Rule 758. Proposed Rule 758 is intended to regulate the option trading of Competitive Options Traders.

Rule 759. Proposed Rule 759 is intended to permit accommodation liquidations.

Rules 760 through 767, 770 and 771. These proposed rules are intended to provide for the comparison of Exchange option transactions.

Rule 772. Proposed Rule 772 is intended to prescribe the manner in which open option contracts of suspended members are to be treated.

Rule 780. Proposed Rule 780 is designed to establish procedures for the exercise of option contracts.

Rule 792. Proposed Rule 792 is intended to permit the Exchange's option market to operate, and suspend operation, independently of the Exchange's stock and bond markets, and to permit the hours of the Exchange's market in government security options to track those of the primary market in the underlying Government securities.

(2) *Statutory Basis.* The proposed rule change relates to section 6(b)(1) of the Act in that it would provide a regulatory framework for a market in government security options on the Floor. The proposed rule change would give the Exchange the capacity to carry out the purposes of the Act, to comply with the provisions of the Act, the rules and regulations thereunder and the rules of the Exchange, and to enforce compliance therewith by Exchange members and persons associated with members. Except for the changes necessary to accommodate Government security options trading on the Floor, the Exchange's existing rules, and hence the same bases and policies underlying those rules, apply to the Exchange's proposed market in Government security options. Thus, the proposed rule change contemplates the application to Exchange trading of Government security options of long-established regulatory principles and techniques which are designed to assure the fairness, orderliness and quality of the Exchange's stock and bond markets. In addition, except for changes necessitated by the particular characteristics of the underlying Government securities and the markets therein, most of the new rules contained in the 700 series are substantially identical to those of the 900 series of the rules of the American Stock Exchange, Inc. and therefore have a common basis with the AMEX option rules in the Act and the rules and regulations thereunder. Consequently, the Exchange believes the public interest will be advanced by Exchange trading of Government security options.

(B) NYSE's Statement on Burden on Competition

The Exchange believes that the proposed rule change will not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Quite to the contrary, the Exchange believes that significant benefits will flow to the U.S. economy, to market professionals and to investors from the creation of a free and open market for the trading of standardized options on Government securities. The Exchange believes that the proposed rule change will permit the creation of such a market—a market designed to prevent fraudulent and manipulative acts and practices, to permit just and equitable principles of trade, to protect investors and the public interest and to provide appropriate disciplinary procedures applicable to its members and persons associated with its members who violate the rules of the Exchange.

(C) NYSE's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No comments have been solicited or received to date. The Exchange expects to solicit comments on the proposed rule change from Exchange members and member organizations and to incorporate appropriate comments into the proposed rule change by an amendment. In addition, the Exchange is forming a users advisory committee to

assist it in designing its market in Government security options.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the filing by the NYSE of one or more appropriate amendments setting forth the completion of all action required to be taken by the NYSE under its Constitution, Certificate of Incorporation and rules or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted on or before May 19, 1981.

For the Division of Market Regulation, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

Dreyfus Service Corp.; Filing of Application

March 13, 1981.

Notice is hereby given that Dreyfus Service Corporation ("Applicant"), 767 Fifth Avenue, New York, New York 10153, a New York corporation which serves as sponsor to The Dreyfus Income Trust (First Short Term Series and Subsequent Series) ("Trust"), a unit investment trust registered under the Investment Company Act of 1940 ("Act"), filed an application on December 19, 1980, requesting an order of the Commission, pursuant to Section 6(c) of the Act, exempting Applicant from the provisions of Rule 22c-1 under the Act to the extent necessary to permit Applicant to offer Units of the Trust at a public offering price other than the price next computed after receipt of a purchase order. The exemptive relief requested by Applicant would be limited to a period of the first five business days of the initial offering period for each future Series of the Trust, or until 80% of the units of such Series are sold, whichever occurs first. All intrerested persons are referred to the applicaiton on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that as of the date of the application there had been sixteen Series of the Trust. Applicant further represents that Units representing fractional undivided interests in each Series of the Trust have been, and will be, registered as securities purusant to the Securities Act of 1933 ("1933 Act"). According to the application, each Series of the Trust has consisted, and will consist of certificates of deposit (including contracts for the purchase of certain certificates of deposit and irrevocable letters of credit) deposited by Applicant with The Bank of New York ("Trustee").

Applicant represents that, after the filing of a preliminary prospectus with the Commission in connection with a proposed public offering of Unts of a Series, it contacts dealers who have purchased Units of past Series for indications of interest from them. On the basis of the indications of interest received from such dealers, Applicant purchases the certificates of deposit which will constitute the Series on the day prior to the effectiveness of the Units of the Series under the 1933 Act. Applicant further states that at 9:00 a.m. the following day ("Closing Date") the certificates of deposits are deposited with the Trustee for which Applicant receives from the Trustee a certificate for Units representing the entire ownership of such Series, one Unit for each $1,000 principal amount of certificates of deposit deposited with the Trustee. Upon the effectiveness of such Units under the 1933 Act on the morning of the Closing Date, Applicant states that the initial offering period commences, during which it offers the Units for sale to the public.

Applicant further states that the overwhelming majority of Units are sold by the Applicant to dealers who presumably buy for, or resell to, their retail cusomters. Applicant adds, that as the indications of interest previously received from such dealers are only approximations and cannot be firm offers to purchase, the actual purchases of Units by dealers upon the effectiveness of an offering may be considerably different due to, for example, mistake, changed market conditions, or inaccurate estimations. The initial offering period continues from day to day as may be necessary until all such Units are sold, but for a maximum of 30 days. Historically the Trust Series have been sold out, on average, 7½ business days from the Closing Date.

Rule 22c-1 adopted under the Act provides, in pertinent part, that no registered investment company issuing any redeemable security, and no dealer in any such security, shall sell, redeem, or repurchase any such security except at a price on the current net asset value of such security which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security.

Applicant proposes to offer Units of each future Series of the Trust to the public at a public offering price determined as of 4:00 p.m. on the business day prior to any such offer ("backward pricing") for a period of the first five business days of the intitial offering period for each such Series, or until 80 percent of the Units are sold, whichever occurs sooner. Since the public offering price so determined will be effective for all sales of the Units during the following 24 hour period, the "forward pricing" requirement of Rule 22c-1 under the Act would not be met.

Applicant asserts that under the current forward pricing requirements of Rule 22c-1, Applicant is subject to whatever gains or losses may result due to changing market conditions: (1) between the time of purchase of the underlying certificates (approximately 11:00 a.m. on the day prior to the Closing Date) and the time the first public offering price is established (4:00 p.m. on

the Closing Date) and (2) between successive evaluations. While the market movement normally to be expected will be minor, such shifts will have a significant total impact on Applicant due to its initial position as owner of all the Units in a Series. Applicant further states that the average single day fluctuation of $.71 per $1,000 Unit, which it contends is a minimal difference to an individual investor, subjects the Applicant to substantial financial risks. Applicant further asserts that pursuant to the requested exemption, these particular risks would be reduced significantly, although not totally eliminated.

Applicant states that Rule 22c–1 has two purposes: (1) to eliminate or to reduce any dilution of the value of outstanding redeemable securities of registered investment companies which might occur through the sale, redemption or repurchase of such securities at prices other than their current net asset value; and (2) to minimize speculative trading practices in the securities of registered investment companies.

Applicant submits that the purposes of Rule 22c–1 will not be offended by the proposed backward pricing of the Units. In this regard Applicant asserts that, since it will own all the Units at the beginning of the initial offering period, the price at which it sells those Units can affect only Applicant, not the value of the underlying certificates of deposit nor the fractional undivided interest in those certificates of deposit represented by each Unit outstanding. Thus, Applicant concludes that dilution of the Trust is not a relevant concept as neither the Trustee nor the assets of the Trust are involved in the sale of the Units. Applicant further asserts that the movement of interest rates on the short-term certificates of deposit which constitute the Series is not sufficient to make speculative trading practices ordinarily profitable. Applicant states that the sales charge on a Unit is currently 0.70% of the public offering price, or $7.05 on a $1,000 Unit, and that this is the amount of price movement necessary between successive daily valuations for a potential speculator simply to break even. Applicant represents that there has never been a single day fluctuation that large during the initial offering period of any Series of the Trust, and that the average single day fluctuation during this period has been approximately 1/10 of that necessary to make speculation numerically feasible on the basis of the foregoing. Thus, Applicant argues that the possibility of speculation by an investor is so remote as to be considered a practical impossibility.

Moreover, Applicant states that a speculator who desires to take advantage of a movement in the aggregate value of the certificates of deposit composing the portfolio of a particular Series would, in addition to confronting a market in which fluctuations are limited, have to accurately assess the value of the underlying portfolio of certificates of deposit, none of which is listed on a securities exchange. To the extent that the portfolio of a Series consists of certificates of deposit issued by London branches of domestic banks, Applicant further represents that the problems of evaluation for the purpose of speculation would be increased by the necessity of considerably the different inherent risks of a foreign market, the six hour time difference from the domestic market and the costs of obtaining such data.

Applicant further represents that in a period where the market value of Units is rising there is little or no possibility that either Applicant or the dealers would be able to profit by redeeming Units with the Trustee because price changes are limited in respect to the short-term certificates of deposit which underlie such Units. In order for the Applicant or a dealer to make more profit by redeeming Units than by selling to investors, there would have to be a single day fluctuation greater than the sum of the difference between the offering and bid prices (since the redemption price for Units is forward priced and based on the aggregate bid side evaluation of the underlying certificates of deposit) and the .70% sales charge. Nonetheless, Applicant agrees that it will not tender back to the Trustee for redemption any of its unsold Units during the initial offering period of any Series. With respect to Units tendered by investors to the Trustee for redemption, and which are instead purchased by Applicant, Applicant states that it is prohibited by the terms of the Trust Indenture and Agreement from subsequently redeeming those Units at a greater price than it paid for them, plus interest. Applicant represents that, while it can not, and does not, guarantee the maintenance of a market for Units during the initial offering period of each Series, it intends to do so and to continuously offer to repurchase such Units at prices in excess of the redemption price.

According to the application, the sole risk to investors in the Trust from the adoption of daily backward pricing of the Units is that an investor whose purchase price is based on the previous day's evaluation may be paying more, because the evaluation has declined, than the price such investor would pay if the price was determined on the day of the purchase pursuant to the forward pricing requirement of Rule 22c–1. In order to reduce the risk of loss to potential investors in the Trust to what Applicant views as a *de minimis* level, Applicant proposes that pricing of the Units during the first five days of an offering, or until 80% of the Units are sold, whichever occurs sooner, be done daily on a backward pricing basis; but if the purchase price declines by more than $5.00 per Unit between two successive valuations, then the investor would receive the lower purchase price determined by forward pricing of the Units for that day. Applicant submits that under its proposal the maximum potential risk to an investor in the Trust is $5.00 per $1,000 Unit, or ½ of 1% of the total investment.

Applicant further submits that potential investors in the Trust will benefit significantly from the proposed backward pricing of the Units because it would allow investors to profit from positive market shifts without limitation, while limiting the risk of a negative market shift to a *de minimis* level, and facilitate the continued availability to the public of a desirable investment vehicle.

Finally, Applicant claims that the Trust can be readily distinguished from other unit investment trusts with portfolios of long-term debt obligations, as follows: (1) the financial risks to sponsors of long-term trusts, and therefore their need for protection, are comparatively minimal. Such other trusts utilize a much higher sales charge than the Applicant in pricing their units, and are therefore able to profitably offer series of much smaller principal amount, with less investment of capital and correspondingly less financial risk; (2) sponsors of long-term trusts normally buy the underlying instruments in the market at a price between the bid and asked price, but deposit the instruments in the trust at the asked price, thereby providing themselves an immediate margin of profit unavailable to the applicant, which purchases directly from the issuers; and (3) Units of the Trust, with an underlying portfolio of short-term instruments, are subject to minimal market shifts (to an individual investor), while units of long-term trusts are subject to much larger price fluctuations. For this reason the sponsor of such a trust would often be unable to utilize a backward pricing exemption of the type being requested here, as the ½ of 1% *de*

minimis protection of the instant application could be regularly exceeded.

Section 6(c) of the Act provides, in pertinent part, that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security or transaction, or any class or classes of persons, securities or transactions, from any provision or provisions of the Act or any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest, and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

In view of the foregoing, Applicant asserts that the exemption requested is appropriate and in the public interest, and is consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than April 7, 1981, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[File No. 2-65259 (22-10072)]

Galaxy Oil Co.; Application and Opportunity for Hearing

March 16, 1981.

Notice is hereby given that Galaxy Oil Company (the "Applicant") has filed an application pursuant to clause (ii) of Section 310(b)(1) of the Trust Indenture Act of 1939 (the "Act") for a finding by the Securities and Exchange Commission (the "Commission") that the trusteeship of Bank of the Southwest National Association, Houston, ("Trustee") under certain existing indentures of the Applicant, one of which is qualified under the Act, is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify the Trustee from continuing to act as trustee under the Applicant's indentures.

Section 310(b) of the Act provides in part that, if a trustee under an indenture qualified under the Act has or shall acquire any conflicting interest, it shall, within 90 days after ascertaining that it has such conflicting interest, either eliminate such conflicting interest or resign. Subsection (1) of such Section provides, in effect, that with certain exceptions a trustee under a qualified indenture shall be deemed to have a conflicting interest if such trustee is trustee under another indenture under which any other securities of the same issuer are outstanding. However, under clause (ii) of Subsection (1), there shall be excluded from the operation of this provision another indenture under which other securities of the issuer are outstanding if the issuer shall have sustained the burden of proving, on application to the Commission and after opportunity for hearing, that trusteeship under such qualified indenture and such other indenture is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify such trustee from acting as trustee under either of such indentures.

The Applicant alleges that:

1. The Applicant has currently issued an outstanding $9,611,000 principal amount of 9% Convertible Subordinated Debentures Due 1994 ("Registered Debentures") issued pursuant to an indenture dated as of September 15, 1979 ("Registered Indenture") entered into between the Applicant and the Trustee. The Registered Debentures were issued in a registered public offering in the United States (Registration Statement No. 2–65259) and the Registered Indenture was qualified under the Act (Registration No. 22–10072).

2. As of January 1, 1981, the Applicant has entered into a second indenture ("Unregistered Indenture") with the Trustee pursuant to which Galaxy Oil International N.V. ("International"), wholly-owned Netherlands Antilles subsidiary of the Applicant issued $12,000,000 principal amount of 8½% Convertible Subordinated Debentures Due 1996 ("Unregistered Debentures"), which Debentures are guaranteed, on a subordinated basis, by the Applicant.

3. As a result of the Applicant's guarantees ("Guarantees") of the Unregistered Debentures, the trusteeship of the Trustee under the Unregistered Indenture may be deemed to create a conflict of interest within the meaning of Section 310(b)(1) of the Act and Section 8.08 of the Registered Indenture, requiring the Trustee to resign as Trustee under either the Registered Indenture or the Unregistered Indenture within 90 days after January 1, 1981, unless such conflict of interest is otherwise eliminated.

4. The Unregistered Indenture contains provisions relating to the subordination of the Guarantees which are the same in all material respects to the subordination provisions contained in the Registered Indenture, which provisions cause the Guarantees to rank equally with the Registered Debentures as obligations of the Applicant.

5. The respective obligations of the Applicant represented by the Registered Debentures and the Guarantees are *pari passu*, and the holders of such obligations would share (on a pro rata basis with the holders of any other subordinated indebtedness of the Applicant which might exist from time to time) any assets remaining in the Applicant after the payment of all senior indebtedness of the Applicant.

6. Neither the Registered Debentures, the Unregistered Debentures nor the Guarantees are secured by any of the property or assets of the Applicant.

7. In the opinion of the Applicant, the provisions of the aforementioned indentures are not likely to involve a material conflict of interest so as to make it necessary in the public interest or for the protection of any holder of any of the debentures issued under such indentures to disqualify the Trustee from acting as trustee under both indentures.

For a more detailed account of the

matters of fact and law asserted, all persons are referred to said application, which is a public document on file in the offices of the Commission at the Public Reference Room, 1100 L Street, N.W., Washington, D.C. 20549.

Notice is further given that any interested person may, not later than April 6, 1981, submit to the Commission his views or any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 500 North Capitol Street, N.W., Washington, D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reasons for such requests, and the issues of fact and law raised by the application which he desires to controvert. Persons who request the hearing or advice as to whether the hearing is ordered will receive all notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof. At any time after such date, an order granting the application may be issued upon request or upon the Commission's own motion.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 4810-22-M

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Letters to the Acting Commissioner of Customs Concerning Implementation of the International Coffee Agreement, 1976

Executive Order No. 12297 of March 12, 1981, delegates to the United States Trade Representative the functions vested in the President by the International Coffee Agreement Act of 1980 (Pub. L. 96-599; 94 Stat. 336).

The following letters were sent to the Acting Commissioner of Customs providing for customs to carry out the obligations of the United States under the International Coffee Agreement to regulate and moniter coffee imports and exports and notifying him that the control provisions of the Agreement are now in effect.

William E. Brock,

U.S. Trade Representative.

March 16, 1981.

Mr. William T. Archey,

Acting Commissioner of Customs, U.S. Customs Service, Washington, D.C. 20229.

Dear Mr. Archey: The International Coffee Agreement Act of 1980 provides that for such period prior to October 1, 1982, as the International Coffee Agreement, 1976, (ICA) remains in effect, the President is authorized to regulate the entry of coffee for consumption, or any other form of entry or withdrawal of coffee such as transportation or exportations. When ICA quotas are in effect, the President is authorized to limit entry of coffee from non-ICA members; prohibit entry of coffee from ICA members which is not accompanied by documentation required under the ICA: require that coffee exports from the United States have documentation required by the ICA; require the keeping of records and data as he may prescribe; and take such other actions and make such rules and regulations as he considers necessary or appropriate for the United States to implement its ICA obligations.

The President, by Executive Order No. 12297 of March 12, 1981 delegated to me or my designee the authority under the International Coffee Agreement Act of 1980 (Pub. L. 96-599; 94 Stat. 3491) to take action implementing U.S. rights and obligations under the Agreement.

Accordingly, the U.S. Customs Service is directed to issue any necessary internal directives or operational procedures necessary to implement the control provisions of the International Coffee Agreement Act of 1980. It is the responsibility of the U.S. Customs Service to regulate the entry of coffee into the United States. Upon receipt of notification from USTR that quotas are in effect, the Customs Service shall limit the entry of coffee from non-ICA members; prohibit entry of coffee from ICA members which is not accompanied by required documentation; require that coffee exports from the United States have required documentation; and issue such rules and procedures that are necessary for the United States to implement and control provisions of the ICA.

The U.S. Customs Service is directed to publish any directives and procedures under which the control provisions of the Act are to be implemented.

This letter will be published in the Federal Register.

Very truly yours,

William E. Brock.

March 16, 1981.

Mr. William T. Archey,

Acting Commissioner of Customs, United States Customs Service, Washington, D.C. 20229.

Dear Mr. Archey: The International Coffee Agreement Act of 1980 provides that for such period prior to October 1, 1982, as the International Coffee Agreement (ICA), 1976, remains in effect, the President is authorized to regulate the entry of coffee for consumption, or any other form of entry or withdrawal of coffee such as transportation or exportations. When ICA quotas are in effect, the President is authorized to limit entry of coffee from non-ICA members and to prohibit entry of coffee into the United States from ICA members that is not accompanied by required certification.

The President, by Executive Order No. 12297 of March 12, 1981, delegated to me or my designee the authority under the International Coffee Agreement Act of 1980 (P. L. 96599; 96 Stat. 3491) to take action implementing U.S. rights and obligations under the Agreement.

This office has been informed by the ICO (Circulars ED-1011/80 and ED1017/81) that quotas are in effect. In accordance with our letter of March 16, 1981, you are hereby directed to: prohibit entry of coffee from ICA members that is not accompanied by the proper certification, and limit the entry of coffee from non-ICA members to 121,860 bags of coffee for coffee year 1980-81.

This letter will be published in the Federal Register.

Very truly yours,

William E. Brock.

FEDERAL DEPOSIT INSURANCE CORPORATION.

Agency Meeting

Pursuant to subsection (e)(2) of the "Government in the Sunshine Act" (5, U.S.C. 552b(e)(2)), notice is hereby given that at 4:00 p.m. on Tuesday, March 17, 1981, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session, by telephone conference call, to consider the following matters:

(a) authorization of funds for the payment of insured deposits in the Des Plaines Bank, Des Plaines, Illinois, which was closed by the Commissioner of Banks and Trust Companies of the State of Illinois on March 14, 1981, and appointment of a liquidator for the assets of the closed bank;

(b)(1) accept sealed bids for the purchase of certain assets of and the assumption of the liability to pay deposits made in Peoples Banking Company, Boston, Georgia, whose board of directors turned over possession of

[1] Agenda revised March 17 to delete two items which will be rescheduled, and to add current item 2. The matters to be rescheduled are: Briefing on Toy Enforcement Program, and an Enforcement Matter (OS #921); both will be closed to the public.

[2] This meeting was originally scheduled for Wednesday, March 18; the Commission changed the date on March 17.

the bank to the Commissioner of Banking and Finance of the State of Georgia as of the close of business on March 17, 1981; (2) accept the bid for the transaction submitted by Commercial Bank, Thomasville, Georgia, a subsidiary of CB&T Bancshares, Inc., of Columbus, Georgia; (3) approve a resulting application of Commercial Bank, Thomasville, Georgia, for consent to purchase assets and assume liabilities and establish a branch; (4) provide such financial assistance, pursuant to section 13(e) of the Federal Deposit Insurance Act (12 U.S.C. 1823(e)), as was necessary to effect the purchase and assumption transaction; and (5) appoint a liquidator for such of the assets of the closed bank as were not purchased by Commercial Bank;

(c) an application of Bankers Trust of South Carolina, Columbia, South Carolina, for consent to merge, under its charter and title, with Spartanburg Bank and Trust Company, Spartanburg, South Carolina, to establish the seven offices of Spartanburg Bank and Trust Company as branches of the resultant bank, and to purchase and retire common stock of Bankers Trust of South Carolina; and

(d) an application of Franklin Savings Bank of New York, New York (Manhattan), New York, for consent to merge, under its charter and with the title "American Savings Bank," with American Savings Bank, New York (Manhattan), New York, and Empire Savings Bank, New York (Manhattan), New York, and to establish the eight full-service offices and one public accommodation office of American Savings Bank and the eleven offices of Empire Savings Bank as nineteen full-service branches and one public accommodation office of the resultant bank.

In calling the meeting, the Board determined, on motion of Chairman Irvine H. Sprague, seconded by Director William M. Isaac (Appointive), concurred in by Director John G. Heimann (Comptroller of the Currency), that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting pursuant to subsections (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(8), (c)(9)(A)(ii), and (c)(9)(B)).

Dated: March 18, 1981.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,

Executive Secretary.

Part II

Department of Labor

Wage and Hour Division, Employment Standards Administration

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

DEPARTMENT OF LABOR

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and Supersedeas Decisions to General Wage Determination Decisions

Modifications and supersedeas decisions to general wage determination decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the modifications and supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing general wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and supersedeas decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Office of Government Contract Wage Standards, Division of Government Contract Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Determination Decision.

New General Wage Determination Decisions

None.

Department of Health and Human Services

National Institutes of Health

Recombinant DNA Advisory Committee; Meetings

> 4 6 \ 5 4 MR 20 81 UMI

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Recombinant DNA Advisory Committee; Meetings

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Large Scale Review Working Group sponsored by the Recombinant DNA Advisory Committee at the National Institutes of Health, Conference Room 7A24, Building 31A, 9000 Rockville Pike, Bethesda, Maryland 20205, on April 22, 1981, from 2 p.m. to 5 p.m.

The Working Group will hold an organizational meeting to institute working procedures.

Further information may be obtained from Dr. Elizabeth Milewski, Executive Secretary, Large Scale Review Working Group, NIAID, Building 31, Room 4A52, Bethesda, Maryland, telephone, (301) 496-8051.

The meeting will be open to the public. Attendance will be limited to space available.

In addition, notice is hereby given of a meeting of the Recombinant DNA Advisory Committee at the National Institutes of Health, Conference Room 10, Building 31C, 9000 Rockville Pike, Bethesda, Maryland 20205, on April 23, 1981, from 9 a.m. to recess to approximately 6 p.m., and, if necessary, on April 24, 1981, from 8:30 a.m. to 5 p.m. This meeting will be open to the public on April 23 from 9 a.m. to approximately 3 p.m., and on April 24 from 8:30 a.m. to adjournment to discuss:

Amendment of Guidelines
E. coli K-12 host-vector systems
Host-vector systems other than *E. coli* K-12
Risk-assessment
Review of protocols for required containment levels
Request for exception to a prohibition to clone genes of Foot and Mouth Disease Virus
Containment levels for cloning of toxins
Other matters requiring necessary action by the Committee.

Attendance by the public will be limited to space available.

In accordance with provisions set forth in Section 552b(c)(4), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public for approximately three hours for the review, discussion and evaluation of proposal(s) from a commercial concern(s) for scale-up of recombinant DNA experiments. It is anticipated that this will occur on April 23, from approximately 3 p.m. until adjournment. The proposal(s) and the discussion could reveal confidential trade secrets or commercial property such as patentable material.

Dr. William J. Gartland, Jr., Executive Secretary, Recombinant DNA Advisory Committee, National Institutes of Health, Building 31, Room 4A52, telephone (301) 496-6051, will provide materials to be discussed at the meeting, rosters of committee members and substantive program information. A summary of the meeting will be available at a later date.

Dated: March 9, 1981.

Thomas E. Malone, Ph.D.,
Deputy Director, NIH.

Note.—OMB's "Mandatory Information Requirements for Federal Assistance Program Announcements" (45 FR 39592) requires a statement concerning the official government programs contained in the *Catalog of Federal Domestic Assistance*. Normally NIH lists in its announcements the number and title of affected individual programs for the guidance of the public. Because the guidance in this notice covers not only virtually every NIH program but also essentially every Federal research program in which DNA recombinant molecule techniques could be used, it has been determined to be not cost effective or in the public interest to attempt to list these programs. Such a list would likely require several additional pages. In addition, NIH could not be certain that every Federal program would be included as many Federal agencies, as well as private organizations, both national and international, have elected to follow the NIH Guidelines. In lieu of the individual program listing, NIH invites readers to direct questions to the information address above about whether individual programs listed in the *Catalog of Federal Domestic Assistance* are affected.

NIH programs are not covered by OMB Circular A-95 because they fit the description of "programs not considered appropriate" in Section 8(b) (4) and (5) of that Circular.

Part IV

Department of Health and Human Services

National Institutes of Health

Recombinant DNA Research; Proposed Actions Under Guidelines

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Recombinant DNA Research; Proposed Actions Under Guidelines

AGENCY: National Institutes of Health, PHS, DHHS.

ACTION: Notice of actions under NIH guidelines for research involving recombinant DNA molecules.

SUMMARY: This notice sets forth proposed actions to be taken under the NIH Guidelines for Research Involving Recombinant DNA Molecules. Interested parties are invited to submit comments concerning these proposals. After consideration of these proposals and comments by the NIH Recombinant DNA Advisory Committee (RAC) at its April 23–24, 1981 meeting, the Director of the National Institutes of Health will issue decisions on these proposals in accord with the Guidelines.

DATE: Comments must be received by April 20, 1981.

ADDRESS: Written comments and recommendations should be submitted to the Director, Office of Recombinant DNA Activities, Building 31, Room 4A52, National Institutes of Health, Bethesda, Maryland 20205. All comments received in timely response to this notice will be considered and will be available for public inspection in the above office on weekdays between the hours of 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Background documentation and additional information can be obtained from Drs. Stanley Barban or Elizabeth Milewski, Office of Recombinant DNA Activities, National Institutes of Health, Bethesda, Maryland 20205, (301) 496–6051.

SUPPLEMENTARY INFORMATION: The National Institutes of Health will consider the following changes and amendments under the Guidelines for Research Involving Recombinant DNA Molecules, as well as actions under these Guidelines.

I. Proposed Revision of Guidelines for Recombinant DNA Experiments Involving E. Coli K–12 and Saccharomyces Cerevisiae Host-Vector Systems

Containment requirements and administrative procedures for the conduct of most recombinant DNA experiments involving EK1 *E. coli* K–12 and laboratory strain *Saccharomyces cerevisiae* host-vector systems are currently specified by Section III–O of the Guidelines. The chairpersons of Institutional Biosafety Committees, at a meeting in Washington, D.C. on November 24–25, 1980, passed by a large majority a resolution that experiments currently covered by Section III–O should be made exempt from the Guidelines. The chairpersons felt that the risks associated with these experiments are negligible, and that exemption of experiments currently covered by Section III–O would reduce paperwork by approximately 90%.

This proposal was discussed by the RAC at its meeting on January 8–9, 1981. In "straw votes" at the meeting, an overwhelming majority of RAC members favored doing something to reduce materially or eliminate the paperwork and reporting functions for experiments covered by Section III–O; about half the RAC members felt serious consideration should be given to exempting entirely from the Guidelines experiments currently covered by Section III–O. The RAC requested that a series of options be developed and published for comment in the Federal Register. Accordingly, the following options will be considered at the April 23–24, 1981 meeting of the RAC.

Note.—It is recognized that changes will be necessary in a number of sections of the Guidelines in order to implement whatever option is selected. Necessary editorial changes will be made by the NIH Director when a final decision on the recommendations of the RAC is promulgated.

Option A—Review by an Institutional Official of Experiments Covered by Section III–O: Under Option A, experiments currently covered under Section III–O would remain under Section III–O. However, rather than requiring IBC review of all registration documents, option A would specify that experiments covered by Section III–O could be reviewed by a designated institutional official. This official may be a member of the IBC. Large-scale experiments (e.g., more than 10 liters of culture) would continue to be reviewed by procedures specified by RAC.

Two types of experiments, currently covered under Section III–O, are treated differently from the majority of experiments under this Section. These experiments are:

(1) Experiments involving the cloning in *E. coli* K–12 of DNA from CDC Class 3 etiological agents. These experiments currently require P3 containment conditions.

(2) Experiments involving a deliberate attempt to have *E. coli* K–12 efficiently express a eukaryotic gene. This type of experiment currently requires prior review and approval by the IBC.

These cases may be handled under one of the following suboptions:

Suboption A–1–a: Under Suboption A–1–a, experiments involving DNA from CDC Class 3 etiological agents would continue to require P3 containment and continue to require review by the IBC.

Suboption A–1–b: Under Suboption A–1–b, experiments involving Class 3 agents would continue to require P3 containment, but review may be effected by a designated institutional official.

Suboption A–1–c: Under Suboption A–1–c, experiments involving Class 3 agents would require P1 containment and would be reviewed by a designated institutional official. This option would relax the requirements for these experiments to the same level as experiments with CDC Class 1 or Class 2 agents.

Suboption A–2–a: Under Suboption A–2–a, deliberate attempts to obtain expression of a eukaryotic gene in *E. coli* K–12 would continue to require prior review and approval by the IBC.

Suboption A–2–b: Under Suboption A–2–b, deliberate attempts to obtain expression of a eukaryotic gene in *E. coli* K–12 would require prior review by a designated institutional official.

Suboption A–2–c: Under Suboption A–2–c, no prior review would be required of attempts to obtain expression of a eukaryotic gene in *E. coli* K–12

Option B—Elimination of Registration Requirements for Experiments Covered by Section III–O: Under Option B, experiments currently covered under Section III–O would remain under Section III–O. However, under Option B, the current requirements for the registration and review of experiments covered by Section III–O would be eliminated. That is, under Option B, no registration or review of such experiments, by the IBC or by an institutional official, would be required. Large-scale experiments (e.g., more than 10 liters of culture) would continue to be reviewed by procedures specified by the RAC.

The following suboptions might be considered for handling the special cases of (1) cloning of DNA from CDC Class 3 agents in *E. coli* K–12, and, (2) deliberate attempts to efficiently express eukaryotic genes in *E. coli* K–12.

Suboption B–1–a: Under Suboption B–1–a, experiments involving the cloning of DNA from CDC Class 3 etiological agents in *E. coli* K–12 would continue to require P3 containment conditions and continue to require review by the IBC.

Suboption B–1–b: Under Suboption B–1–b, experiments involving the DNA of Class 3 agents would continue to require P3 containment conditions. However, no registration document would be required, nor would review by the IBC

or by any institutional official be required.

Suboption B–1–c: Under Suboption B–1–c, experiments involving Class 3 agents would require P1 containment conditions. No registration document or review by the IBC or a designated official, however, would be required. The status of these experiments would then be equivalent to experiments with CDC Class 1 or Class 2 agents.

Suboption B–2–a: Under Suboption B–2–a, deliberate attempts to obtain expression of a eukaryotic gene in *E. coli* K–12 would continue to require prior review by the IBC.

Suboption B–2–b: Under Suboption B–2–b, no prior review of experiments involving deliberate attempts to obtain expression of eukaryote gene in *E. coli* K–12 would be required.

Option C—Exemption of Experiments Currently Covered by Section III–O: Under Option C, experiments currently covered by Section III–O would be removed from Section III–O. These experiments would be exempted from the Guidelines under Section I–E–5. The exemption would apply to all nonprohibited experiments which use either laboratory strains of *Saccharomyces cerevisiae* or *E. coli* K–12 as the host-vector system.

Suboption C–1–a: Under Suboption C–1–a, the exemption would apply to all nonprohibited experiments using *E. coli* K–12 as the host.

Suboption C–1–b: Under Suboption C–1–b, the exemption would be qualified with the statement that "(a) the *E. coli* host shall not contain conjugation proficient plasmids or generalized transducing phages, and (b) lambda or lambdoid or Pf bacteriopheges or non-conjugative plasmids (49) shall be used as vectors." This qualification would then be qualified by the statement that experiments "involving the insertion into *E. coli* K–12 of DNA from prokaryotes that exchange genetic information (35) with *E. coli* may be performed with any *E. coli* K–12 vector (e.g., conjugative plasmid). When a non-conjugative vector is used, the *E. coli* K–12 host may contain conjugation-proficient plasmids either autonomous or integrated, or generalized transducing phages."

Suboption C–2–a: Under Suboption C–2–a, language would be added to the Guidelines to explicitly make Prohibition I–D–6 concerning large-scale applicable to these experiments.

Suboption C–2–b: Under Suboption C–2–b, Prohibition I–D–6 would not apply to those experiments. That is, experiments involving over, as well as under, 10 liters in volume would be exempt from the Guidelines.

Suboption C–3–a: Under Suboption C–3–a, the entry in Appendix C which would effect the exemption under Section I–E–5 would contain a statement that although exempt, for these experiments "P1 physical containment conditions are recommended."

Suboption C–3–b: Under Suboption C–3–b, no statement would be included recommending P1 physical containment conditions.

Suboption C–4–a: Under Suboption C–4–a, experiments involving the cloning in *E. Coli* K–12 of DNA from CDC Class 3 etiological agents would not be exempted. Rather they would continue to require P3 containment conditons and would continue to require review and approval by the IBC.

Suboption C–4–b: Under Suboption C–4–b, experiments involving the DNA of CDC Class 3 agents would not be exempted. However, containment might be specified at P1, P2 or P3, and some form of review by either the IBC or an institutional official would be required.

Suboption C–4–c: Under Suboption C–4–c, experiments involving the cloning of CDC Class 3 agents in *E. Coli* K–12 would be exempt.

Suboption C–5–a: Under Suboption C–5–a, attempts at deliberate expression of a eukaryotic gene in *E. coli* K–12 would continue to require prior review by the IBC.

Suboption C–5–b: Under Suboption C–5–b, no prior review of experiments involving attempts at deliberate expression of a eukaryotic gene in *E. coli* K–12 would be required.

II. Proposal To Convert the NIH Guidelines Into a Code of Standard Practice and To Reduce the Recommended Containment Levels for Some Experiments

Drs. Allan Campbell and David Baltimore, RAC members, propose to convert the NIH Guidelines into a "code of standard practice" and to reduce recommended containment levels for some experiments. They propose that the Guidelines be amended as follows:

(1) Section I–A of the Guidelines would be amended to read as follows:

I–A. *Purpose.* The purpose of these Guidelines is to specify standard practices for constructing and handling (i) recombinant DNA molecules and (ii) organisms and viruses containing recombinant DNA molecules. Adherence to these standards by all laboratories using recombinant DNA is recommended.

(2) Section I–C of the Guidelies wold be eliminated.

(3) Part III of the Guidelines would be replaced with the following:

Part III discusses experiments covered by the Guidelines. The reader must first consult Part I, where listings are given of prohibited and exempt experiments.

Where there are existing recommended physical containment levels applicable to non-recombinant DNA experiments with either the host or the vector (such as those specified by the CDC Guidelines), recombinant DNA experiments should be carried out at containment levels at least as high as those recommended for non-recombinant DNA experiments. Otherwise, all non-prohibited experiments may be carried out under conditions of P1 physical containment. As a general practice, investigators should use the highest level of biological containment (HV3 HV2 HV1) which is available and appropriate for the purposes of the experiment.

Specific exceptions to the prohibitions may be approved by the Director, NIH (see Section I–D). The Director will consider requests for exceptions from individuals, institutions or corporations regardless of whether the applicant is affiliated with or supported by NIH. Such exceptions will generally be approved for specified levels of physical and biological containment.

This will be followed by a listing of those exceptions which are presently authorized and the containment levels approved for the excepted experiments.

(4) Part IV of the Guidelines would be eliminated, with the following exceptions:

(a) Those definitions listed in Part IV–C which may be needed to clarify statements made elsewhere in the Guidelines shall be retained.

(b) Those portions of Part IV–E defining the composition of RAC and prescribing rules for RAC procedures shall be retained.

(c) The following statement shall be added:

Each institution conducting or sponsoring recombinant DNA research should take responsibility for monitoring its own activities in this area. Any unusual events that might be associated with the use of recombinant DNA molecules should be reported to the Director, NIH.

(5) Section VI of the Guidelines will be eliminated, except for those portions of section VI–F relevant to the protection of proprietary information submitted in support of requests for exceptions from the prohibiitons.

The authors provide an explanaton and justification for their proposals in a letter to ORDA.

III. Containment Levels for Recombinant DNA Experiments Involving Neurospora Crassa

Dr. David Perkins of Stanford University has proposed that entry 2 in Appendix E be amended to read as follows:

Unmodified laboratory strains of *Neurospora crassa* can be used in all

experiments for which HV1 *N. crassa* systems are approved, provided that only DNA from Class 1 agents is used. For agents other than Class 1, unmodified laboratory strains of *N. crassa* can be used in all experiments for which HV1 *N. crassa* systems are approved, provided that these are carried out at physical containment one level higher than required for HV1. However, if P3 containment is specified for HV1 *N. crassa*, this level is considered adequate for unmodified *N. crassa*. Care must be exercised to prevent aerial dispersal or macroconidia, in accordance with good laboratory practice.

Mutationally modified strains of *N. crassa* specified as HV1 in Appendix D can used in all experiments for which HV2 *N. crassa* systems are approved, provided that only DNA from Class 1 agents is used.

The rationale for the proposed changes is stated in a letter to ORDA.

IV. Request for Approval of Certain Streptomyces HV1 Host-Vector Systems

Dr. Stanley Cohen of Stanford University has requested that *Streptomyces coelicolor* and the related organisms with which *S. coelicolor* naturally exchanges genetic information (e.g., *S. lividans, S. parvulus* and *S. griseus*), using *Streptomyces* plasmids SCP2, SLP1.2, pIJ101, actinophage phiC31, and their derivatives as vectors, be approved as HV1 host-vector systems.

V. Proposed Containment for Recombinant DNA Experiments Involving the Genus Streptomyces

Dr. Stanley Cohen of Stanford University has requested that the following entry be added to Appendix E:

Experiments involving the cloning of DNA among members of the genus *Streptomyces* are permitted under P1 conditions. For these experiments, no registration document, as described in Part III, is required.

The rationale for the proposal is stated in a letter to ORDA.

VI. Containment Levels for Recombinant DNA Experiments Involving Bacillus Subtilis

Dr. Donald Dean of the Ohio State University has proposed that any *Bacillus subtilis* strain which does not revert to a sporeformer with a frequency greater than 10^{-7} can be used for cloning DNA from any nonprohibited source, using vectors indigenous to *B. subtilis*, under the same conditions specified by the RAC for *E. coli* K-12 and *Saccharomyces cerevisiae* host-vector systems.

Dr. Dean has further proposed that the following items be added to Appendix E:

Bacillus subtilis strains that do not carry an asporogenic mutation can be used with vectors indigenous to *B. subtilis* for the cloning of DNA from any CDC Class 1 organism under P2 conditions.

Bacillus subtilis strains that do not carry an asporogenic mutation can be used with vectors indigenous to *B. subtilis* under P1 conditions for the cloning of DNA from any Class 1 *Bacillus* species.

VII. Expression of Foot Mouth Disease Virus Capsid Proteins in Saccharomyces Cerevisiae, Bacillus Subtilis, and Mammalian Tissue Culture

Genetech, Inc. South San Francisco, California and the United States Department of Agriculture Plum Island Animal Disease Center, Greenport, New York request permission to extend their cooperative studies aimed at the eventual production of a viral subunit vaccine for Foot and Mouth Disease (FMD). They wish to expand studies aimed at the expression of the FMD capsid protein in host vector systems other than *E. coli* K-12. They propose to study the expression of FMD capsid proteins in *Saccharomyces cerevisiae, Bacillus subtilis*, and mammalian tissue culture systems.

VIII. Proposals Concerning Recombinant DNA Experiments With Genes Coding for Toxins

The Recombinant DNA Advisory Committee (RAC), at its September 25-26, 1980 meeting, requested that an *ad hoc* working group be formed to evaluate Section I-D-2 of the Guidelines. Section I-D-2 prohibits the "deliberate formation of recombinant DNAs containing genes for the biosynthesis of toxins potent for vertebrates (2A) (e.g., botulinum or diphtheria toxins; venons from insects, snakes, etc.)." An *ad hoc* working group on toxins composed of Drs. Werner Maas and Alan Bernheimer of New York University, Dr. John Collier of Yale University, Dr. Michael Gill of Tufts University, Dr. Myron Levine of the University of Maryland, and Dr. James Mason of the Utah State Department of Health, was subsequently convened on January 7, 1981 to recommend containment conditions for recombinant DNA experiments with genes coding for toxins. Their recommendations were discussed by the RAC at the January 8-9, 1981 meeting. The *ad hoc* working group requests that the following proposed modifications to the Guidelines be published in the **Federal Register** for thirty days of comment.

A. Section I-D-2 of Section I-D, Prohibitions, would be amended to read as follows:

I-D-2. Deliberate formation of recombinant DNAs containing genes for the biosynthesis of toxins lethal for vertebrates at an LD_{100} of less than 100 nanograms per kilogram body weight (e.g., the botulinum toxins, tetanus toxin, *Shigella dysenteriae* neurotoxin). Guidelines for the cloning of DNAs containing genes coding for the biosynthesis of toxins which are lethal to vertebrates at 100 nanograms to 100 micrograms per kilogram body weight are specified in Appendix G.

B. A new Appendix G, would be added to the Guidelines as follows:

Appendix G—Containment Conditions for Cloning of Genes Coding for the Biosynthesis of Toxins for Vertebrates.

1. General Information

Appendix G specifies the containment to be used for the cloning of genes coding for the biosynthesis of toxins for vertebrates. Cloning of genes coding for toxins for vertebrates that have an LD_{100} of less than 100 nanograms per kilogram body weight (e.g., the botulinum toxins, tetanus toxin, *Shigella dysenteriae* neurotoxin) is prohibited. No specific restrictions shall apply to the cloning of genes if the protein specified by the gene has an LD_{100} of 100 micrograms or more per kilogram of body weight. A list of toxins classified as to LD_{100} is available from ORDA. Testing procedures for determining toxicity of toxins not on the list are available from ORDA. The results of such tests shall be forwarded to ORDA, which will consult with the *ad hoc* working group on toxins prior to inclusion of the toxin on the list. (See Section IV-E-1-b-(3)-(i)).

2. Containment Conditions for Cloning of Toxin Genes in E. Coli K-12

(a) Cloning of genes coding for toxins for vertebrates that have an LD_{100} in the range of 100 nanograms to 1000 nanograms per kilogram body weight (e.g., diphtheria toxin, abrin, *Clostridium perfringens* epsilon toxin) may proceed under P2+EK2 or P3+EK1 containment conditions.

(b) Cloning of genes for the biosynthesis of toxins for vertebrates with an LD_{100} in the range of 1 microgram to 100 micrograms per kilogram body weight may proceed under Section III-O (e.g., *Staphylococcus aureus* alpha toxin, *Staphylococcus aureus* beta toxin, ricin, *Pseudomonas aeruginosa* exotoxin A, *Bordatella pertussis* toxin, the lethal factor of *Bacillus anthracis*, the *Pasteurella pestis* murine toxins, the oxygen-labile hemolysins such as streptolysin O, and certain neurotoxins present in snake venoms and other venoms).

(c) Some enterotoxins are substantially more toxic when administered enterally than parenterally. The following enterotoxins, whose effects are confined to the stimulation of intestinal secretion and whose effects can be entirely reversed by administration of electrolyte solutions, shall be subject to Section III-O. These are cholera toxin, the heat labile toxins of *E. coli, Klebsiella*, and other related proteins that may be identified by neutralization with an antiserum monospecific for cholera toxin, and the heat stable toxins of *E. coli* and of *Yersinia enterocolitica*.

3. Containment Conditions for Cloning of Toxins Genes in Organisms Other Than E. Coli K-12

Requests involving the cloning of genes coding for toxins for vertebrates in host-vector systems other than *E. coli* K-12 will be evaluated by ORDA, which will consult with the *ad hoc* working group on toxins. (See Section IV-E-1-b-(3)-(j)).

C. Section V, Footnote 2A would be modified to delete the words: " 'toxins potent for vertebrates' (Section I-D-2)"

D. A new Section IV-E-1-b-(3)-(i) would be added as follows: "IV-E-1-b-(3)-(i). Adding new entries to the list of toxins for vertebrates. (See Appendix G.)"

E. A new Section IV-E-1-b-(3)-(j) would be added as follows: "IV-E-1-b-(3)-(j). Approving the cloning of toxin genes in host-vector systems other than *E. coli* K-12. (See Appendix G.)"

IX. Cloning and Expression of DNA Coding for Diphtheria Toxin

Dr. John Murphy of Harvard University has proposed that the 3.9 kb Bam restriction fragment of *Corynephage Beta* which carries the structural gene of diphtheria toxin be cloned in *E. coli* K-12.

He advances the following arguments as to why these experiments should be permitted:

(1) Studies of diphtheria toxin-producing organisms would yield valuable data for risk assessment.

(2) To determine the localization of diphtheria toxin in *E. coli* and its possible secretion by *E. coli.*

(3) Mutagenesis of the tox gene would be used to elucidate (a) diphtheria toxin interaction with the eukaryotic cell toxin receptor, and (b) the mechanism of fragment A translocation into the eukaryotic cell cytosol.

X. Request for Permission to Clone the Vibrio Cholerae Enterotoxin Gene in E. Coli K-12.

Dr. J. J. Mekalanos of Harvard Medical School has requested an exemption from Section I-D-2 of the Guidelines. This section prohibits the "formation of recombinant DNAs containing genes for the biosynthesis of toxins potent for vertebrates."

Dr. Mekalanos requests the exemption based on the fact that naturally occurring transmissible plasmids, which encode a heat-labile enterotoxin (LT), exist in *E. coli.* LT has recently been shown to share a high degree of structural, antigenic and DNA sequence homology with cholera enterotoxin. In addition, both the LT and cholera enterotoxins are composed of two subunits (A and B) both of which are required for toxicity.

Dr. Mekalanos requests consideration and approval of the appropriate containment level for the experiments which will be performed in three stages, i.e., the cloning in *E. coli* K-12 of specific cholera DNA restriction enzyme fragments known to contain sequences homologous to: (1) The LT A subunit gene, (2) the LT B subunit gene, (3) the LT A and B subunit genes.

Since stage 3 experiments are anticipated to produce recombinant DNA molecules which might express active cholera enterotoxin in *E. coli* K-12 hosts, these experiments might be conducted at more stringent levels of containment than either stage 1 or 2.

Dr. Mekalanos also proposes to perform risk assessment experiments in appropriate animal models to evaluate the pathogenicity of *E. coli* K-12 recombinant clones constructed during the course of this work.

XI. Request To Clone the Genetic Determinant of the Toxic-Shock Syndrome Caused by Staphylococcus Aureus

Dr. Richard Novick of the Public Health Research Institute of the City of New York, Inc., requests permission to clone in *Staphylococcus aureus* the genetic determinant of the toxic-shock syndrome caused by *S. aureus.* Dr. Novick states that recombinant DNA techniques promise the most rapid and direct means of unraveling the biology of this determinant and of the disease in which it is implicated. He requests permission to conduct the experiments under P2 containment using *S. aureus* strain, RN450, which is non-hemolytic, non-pigmented, and lacking any detectable prophage.

XII. Request To Use an E. Coli Strain Containing a MU Phage Insertion

Dr. Daryl Holten of the University of California at Riverside, requests permission to utilize the *E. coli* K-10 strain DF 214 (or derivatives thereof), and EK plasmid vectors (e.g., pBR322, pBR325) to clone rat cDNA. Strain DF 214, a K-12 derivative, contains a Mu phage insertion in the phosphoglucose isomerase gene.

XIII. Request To Employ a Conjugative Plasmid To Transfer N. Crassa DNA

Dr. Norman Giles of the University of Georgia requests permission to use a conjugative plasmid to transfer the QA2 gene of *Neurospora crassa* among *E. coli* K-12 strains. The *N. crassa* QA2 gene would be ligated into a derivative of the mobilizable plasmid RSF2124.

Dated: March 13, 1981.

Donald S. Fredrickson,

Director, National Institutes of Health.

Note.—OMB's "Mandatory Information Requirements for Federal Assistance Program Announcements" (45 FR 39592) requires a statement concerning the official government programs contained in the *Catalog of Federal Domestic Assistance.*

Normally NIH lists in its announcements the number and title of affected individual programs for the guidance of the public. Because the guidance in this notice covers not only virtually every NIH program but also essentially every federal research program in which DNA recombinant molecule techniques could be used, it has been determined to be not cost effective or in the public interest to attempt to list these programs. Such a list would likely require several additional pages. In addition, NIH could not be certain that every federal program would be included as many federal agencies, as well as private organizations, both national and international, have elected to follow the NIH Guidelines. In lieu of the individual program listing, NIH invites readers to direct questions to the information address above about whether individual programs listed in the *Catalog of Federal Domestic Assistance* are affected.

NIH programs are not covered by OMB Circular A-95 because they fit the description of "programs not considered appropriate" in Section 8-(b)-(4) and (5) of that Circular.

Department of Energy

National Energy Plan; Public Hearings

DEPARTMENT OF ENERGY

Public Hearings on National Energy Plan

AGENCY: Department of Energy.

ACTION: Notice of public hearings on national energy plan.

SUMMARY: In accordance with Section 801 of the Department of Energy Organization Act (Pub. L. 95–91), the Department of Energy (DOE) is beginning to prepare the third biennial National Energy Plan (NEP–III), currently scheduled to be submitted to the Congress in June, 1981. In order to have the benefit of a broad range of public viewpoints in the development of NEP–III, DOE will hold a series of public hearings throughout the Nation. Listed below are the dates and location of the hearings, and regional contacts.

Public Hearings on NEP–III

April 13, 1981 (Monday)—Holiday Inn—Golden Gateway, 1500 Van Ness Avenue, San Francisco, California 94109: Contact Dale Crook, 415–764–7027

April 14, 1981 (Tuesday)—Hyatt Regency—Dallas, 300 Reunion, Dallas, Texas 75207: Contact Grace Morrison, 214–767–7741

April 15, 1981 (Wednesday)—Richard B. Russell Fed. Bldg. & U.S. Courthouse (L. D. Strom Auditorium) 75 Spring S.W., Atlanta, Georgia 30303: Contact David R. Alaniz 404–881–2837

April 15, 1981 (Wednesday)—Plaza Cosmopolitan, 1780 Broadway, Denver, Colorado 80202: Contact Tim Ahern, 303–234–2420

April 16, 1981 (Thursday)—Gardner Auditorium, State House, Boston, Massachusetts 02133: Contact Hugh Saussey, Jr., Deputy Regional Rep., 617–223–5207

April 17, 1981 (Friday)—U.S. Department of Energy, Forrestal Building, Room GE–086, 1000 Independence Ave. SW., Washington, D.C. 20585: Contact Liz Overstreet, 202–252–6460

April 17, 1981 (Friday)—Hyatt Regency Kansas City, 2345 McGee Street, Regency Chicago Room, Kansas City, Missouri 64108: Contact James L. Maas, 816–374–2061

Hearings will begin at 9 a.m. At each of these hearings, the opening morning session will include introductory remarks and a brief discussion by a panel of participants from the region, followed by questions by the Federal panel.

The balance of the day will be devoted to presentations by individual citizens and by representatives of groups and organizations. Persons desiring to speak should register in advance by writing or by calling the appropriate hearing contact, who will schedule the presentations. Those who register in advance will be heard first. Those present at the hearing who desire to speak but who have not preregistered will be accommodated if time permits. Verbatim transcripts will be made of all sessions.

For the purpose of stimulating and focusing discussion at these hearings, DOE staff have prepared a short working paper which is appended to this Notice. There is no requirement, however, that presentations or discussions at the meeting be limited to the subject matter of this document. Single copies of the working paper will be available on *Monday, March 23* and may be obtained free of charge from: DOE Press Room, Forrestal Building, Room 1E–218, 1000 Independence Avenue SW., Washington, D.C. 20585; Phone: 202–252–5575.

Further information and copies of the working paper also may be obtained from the DOE Regional Offices:

Deputy Regional Representative, Region I, U.S. Department of Energy, Analex Building, Room 700, 150 Causeway Street, Boston, Massachusetts 02114; Phone: 617–223–3701

Deputy Regional Representative, Region II, U.S. Department of Energy, 26 Federal Plaza, Room 3206, New York, New York 10007; Phone: 212–264–4780

Deputy Regional Representative, Region III, U.S. Department of Energy, 1421 Cherry Street, Philadelphia, Pennsylvania 19102; Phone: 215–597–3890

Deputy Regional Representative, Region IV, U.S. Department of Energy, 1655 Peachtree Street, NE, Eighth Floor, Atlanta, Georgia 30309; Phone: 404–881–2837

Deputy Regional Representative, Region V, U.S. Department of Energy, 175 West Jackson Boulevard, Room A–338, Chicago, Illinois 60604; Phone: 312–353–0540

Deputy Regional Representative, Region VI, U.S. Department of Energy, 2626 West Mockingbird Lane, P.O. Box 35228, Dallas, Texas 75235; Phone: 214–767–7741

Deputy Regional Representative, Region VII, U.S. Department of Energy, 324 East Eleventh Street, Kansas City, Missouri 64104; Phone: 816–376–2061

Deputy Regional Representative, Region VIII, U.S. Department of Energy, 1075 South Yukon Street, P.O. Box 26247, Belmar Branch, Lakewood, Colorado 80226; Phone: 303–234–2420

Deputy Regional Representative, Region IX, U.S. Department of Energy, 333 Market Street, San Francisco, California 94105; Phone: 415–764–7035

Deputy Regional Representative, Region X, U.S. Department of Energy, 1992 Federal Building, 915 Second Avenue, Seattle, Washington 98174; Phone: 206–442–7285

Copies of the working paper may also be obtained from the hearing contacts and at the hearings.

The staff working paper is not intended to constitute a draft National Energy Plan. It appears at the end of this Federal Register Notice and has been written with the intent to stimulate public comment and recommendations that can be used to shape the final NEP–III plan and report.

Procedures for Participation

Written Comment. Interested persons are invited to submit to the address below by May 8, 1981, data, views or recommendations with respect to the next National Energy Plan: Bruce B. Robinson, Associate Director for Policy Integration, Office of Policy, Planning, and Analysis, Department of Energy, 1000 Independence Avenue, SW, Washington, D.C. 20585.

"NEP–III" should be written on the outside of the envelope and on documents submitted.

Any information or data considered confidential by the person furnishing it must be so identified and submitted in writing, one copy only. DOE reserves the right to determine the confidential status of the information or data and to treat the information or data according to its determination.

Public Hearings. Any person or representative of a group of persons may make a written or oral request for an opportunity to make an oral presentation at the public hearings. Such a request should be directed to the address given above for the appropriate hearing contact and in accordance with the procedures set forth below. Requests must be received not later than three working days before the appropriate NEP–III hearing. Written requests should be labeled "NEP–III" both on the document and on the envelope.

It would be helpful if the person making the request would describe briefly the interest concerned, if applicable, state why she or he is a proper representative of the group having such an interest, and give a phone number where she or he may be contacted during working hours.

While an attempt will be made to accommodate all who wish to be heard, it may not be practical to do so, and DOE reserves the right to select the persons to be heard at these hearings, to schedule their respective presentations and to establish the procedures governing the conduct of the hearings. Time allotted to each presentation may be limited, based on the number of persons requesting to be heard.

A presiding officer will be designated to conduct the hearings. These hearings will not be judicial or evidentiary-type hearings. Questions may be asked only by those conducting the hearings. As a rule, oral presentations shall be limited to ten minutes. Any additional testimony may be submitted in writing.

Any further procedural rules needed for the proper conduct of the hearings will be announced by the presiding officer.

Transcripts

Verbatim transcripts of the hearings will be made and the entire record of the hearings, including the transcripts, will be retained by DOE and made available for inspection at DOE's Freedom of Information Office Reading Room, Room 1E–190, Forrestal Building, 1000 Independence Avenue, SW, Washington, D.C. 20585, between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter.

Issued in Washington, D.C. on March 17, 1981.

Roger W. A. LeGassie,

Acting Director, Policy, Planning, and Analysis.

I. Developing the Third National Energy Plan

The Department of Energy is in the process of preparing for the President, the third biennial National Energy Plan. That plan, required by Title VIII of the Department of Energy Organization Act (Pub. L. 95–91), currently is scheduled to be submitted to the Congress in June, 1981.

In order to have the benefit of a broad range of public viewpoints in the development of the plan, the Department will hold a series of seven public hearings throughout the Nation, during the week of April 13, 1981. The purpose of this paper is to provide background information for those hearings and to stimulate public discussion.

The balance of the paper is divided into three sections. Section II provides a very brief description of the international energy context. Section III describes recent trends and provides projections of energy supply, consumption, and imports through 1990. Developed in November, 1980, those projections are based on existing legislation and on the programs and policies of the previous Administration. The public's views are solicited on the appropriateness of the assumptions which underlie the forecasts.

Section IV lists a set of principles which will guide decisionmaking on energy issues. The public's views are solicited on the appropriateness of these guidelines for energy policy.

II. The International Context

The U.S. energy situation must be seen in the context of the world energy situation if we are to avoid the false starts and misconceptions that have characterized past energy policy. The following data on the world petroleum market set the context for domestic energy policy.

World Petroleum Market

(1979, millions of barrels per day)

	Production	Consumption	Imports (exports)
United States	10	18	8
Middle East	21	2	(19)
Other non-Communist	21	33	12
Communist countries	14	13	(1)
02Total	66	66	

The U.S. must get its domestic energy house in order but, as the data show, energy is clearly an international issue. Contrary to the conventional wisdom, the level of U.S. imports per se has only an indirect bearing on U.S. security and well-being. Given the U.S. position as a world power, we have a vital stake in the economies, and energy supplies, of other free world countries, which cannot be safeguarded simply by a policy of energy self-sufficiency. World petroleum production is, and is likely to remain for some time, concentrated in the Middle East, and so we must prepare ourselves, together with other free world countries, for disruption of supplies in that area, through petroleum stockpiling and other measures.

III. Current Prospects and Problems

Energy

Markets are finally beginning to adjust strongly to the effects of higher energy prices (figure 1).

Growth in consumption of energy in general, and of oil and motor gasoline in particular, is moderating significantly, as conservation measures, brought on by higher prices, begin to take effect (figure 2). The decline in domestic energy production has slowed (figure 3), with gains in coal production and increased drilling for both oil and gas.

BILLING CODE 6450–01–M

Figure 1. Prices of Domestically Produced Fossil Fuels

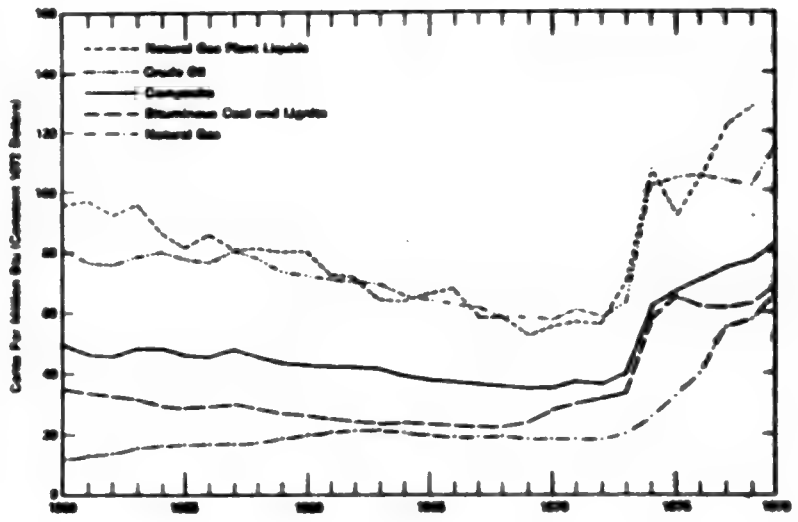

Figure 2. Consumption of Energy by End-Use Sector 1950–1990

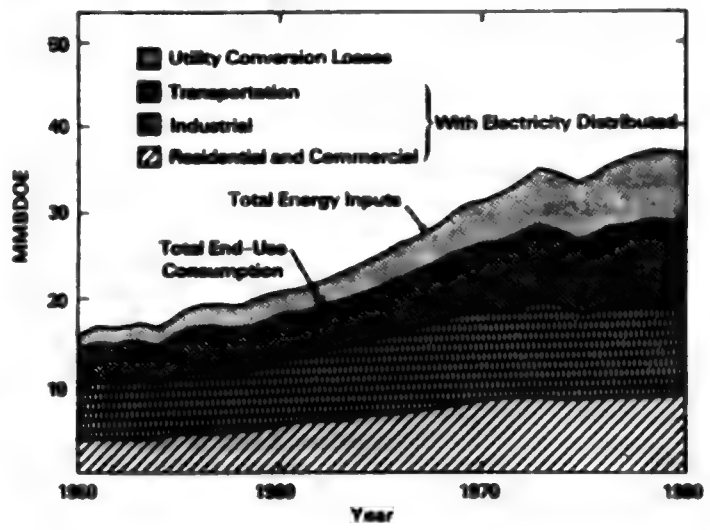

Figure 3. Production of Energy by Type

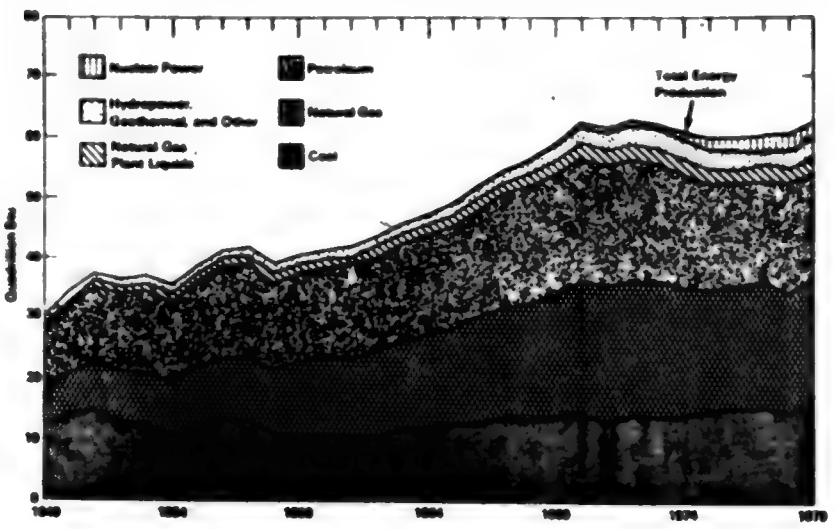


BILLING CODE 6450-01-C

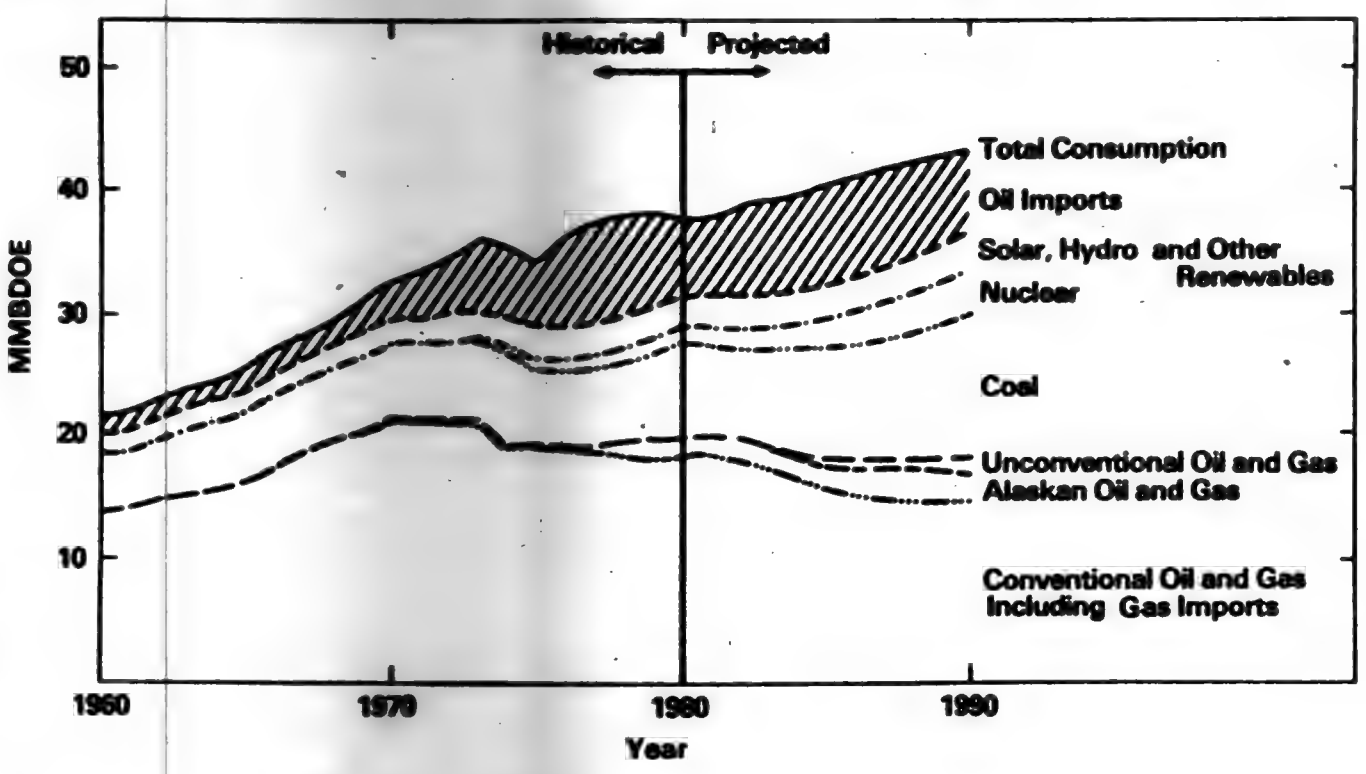
Forecasts of the future are uncertain. Future energy use will depend heavily on future economic activity, notoriously difficult to project with accuracy. And the price at which energy will be available is an important determinant of economic activity. Energy supplies will depend on future developments in geology and technology. Both will depend on, and will help determine, price. Clearly, future policies will have to deal with these uncertainties. Present policies must also recognize the uncertainties. Government policy itself both at home and abroad, will help determine the behavior of energy markets.

To provide the basis for discussion, it is useful to project future energy supply, demand, and price likely to result if government policies were to remain unchanged. Preliminary NEP–III base case projections were prepared in November, 1980. They assume existing legislation and continuation of the previous Administration's energy policies as of that date. As such, they provide a baseline for comparison. But they are *not* forecasts of the future, or even projections of what would happen under the policies of the new Administration.

In the base case, future energy growth is likely to be quite slow (even when compared to forecasts made quite recently), reflecting a variety of influences. For example, forecasts of U.S. economic growth have dropped substantially, in part because of last year's recession. Also, in the wake of the upheavals in the Middle East, prices of oil on the world market in 1990 are likely to be significantly higher than estimated earlier. The base case now assumes that world oil prices will rise to almost $45 per barrel by 1990 (in 1980 dollars), compared with the $25 per barrel assumed just two years ago.

As a result, overall energy consumption is projected to grow at slightly more than one percent per year from 1979 to 1990, well below the two percent per year forecast less than two years ago (figure 4). Total domestic energy production in 1990 also is projected to be lower than projected earlier, at least partially because of continued delays in the completion of new nuclear powerplants.

Figure 4. U.S. Energy Production and Consumption to 1990 (Best Estimate Case)



The reduction in estimates of future consumption is more than enough to offset the reduction in estimates of future production. In the base case, U.S. oil imports are likely to range from 7 to 9 million barrels per day in 1985, and 4 to 8 million barrels per day in 1990. Oil imports are expected to be higher in 1985 than in 1990 because of the long lead-times required to reduce consumption of oil and to increase production of nuclear power and alternative fuels.

Although the overall demand for energy is projected to increase slowly, the mix of sources and uses would change considerably in the next decade in the base case. Oil, which provided 43 percent of the Nation's energy needs in 1979, would provide only about 35 percent in 1990. Coal use would increase from 19 percent to 27 percent of total energy use, with smaller increases in nuclear power and renewable resources.

Conservation would permit overall energy use in the residential and commercial sectors to remain about the same. Use of energy for transportation would decline significantly, permitting significant increases in energy use—and

thus substantially increased economic activity—in the increasingly efficient industrial sector (compare figures 5, 6, and 7).

This represents some progress in de-linking economic growth from energy consumption. Prior to the oil price explosion of 1973–1974, every percent increase in gross national product (GNP, a measure of economic activity) was accompanied by a similar increase in energy use. Since 1974, that energy growth-too-GNP growth ratio has dropped to about 0.5, and is expected to remain below 0.5 throughout the forecast period. This means that the effects of price changes and of conservation measures will have reduced total energy consumption in 1990 about 20 percent below what would have been required for the same level of economic activity had the old ratio continued.

Environmental Quality

The projections of base case environmental trends (figure 8) are based on the base case energy projections.

There will be significant improvement in some areas. At the national level, emissions of total suspended particulates (approximately 40 percent of which are emitted by energy sources) are projected to decline by 33 percent between 1975 and 1990. Hydrocarbons and carbon monoxide, which are produced primarily by transportation sources, are projected to decline 28 percent and 45 percent respectively over the same time period.

(IN MILLIONS OF BARRELS PER DAY OF OIL EQUIVALENT — MMBDOE)

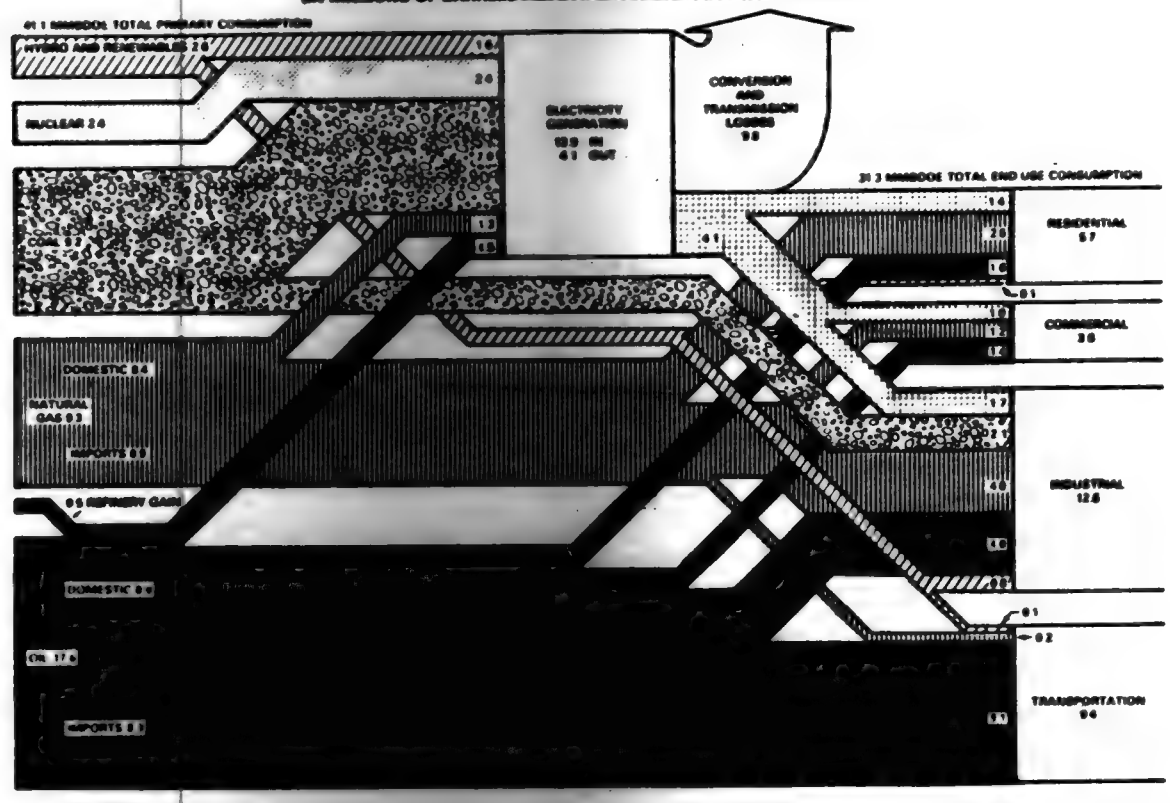

Figure 7.

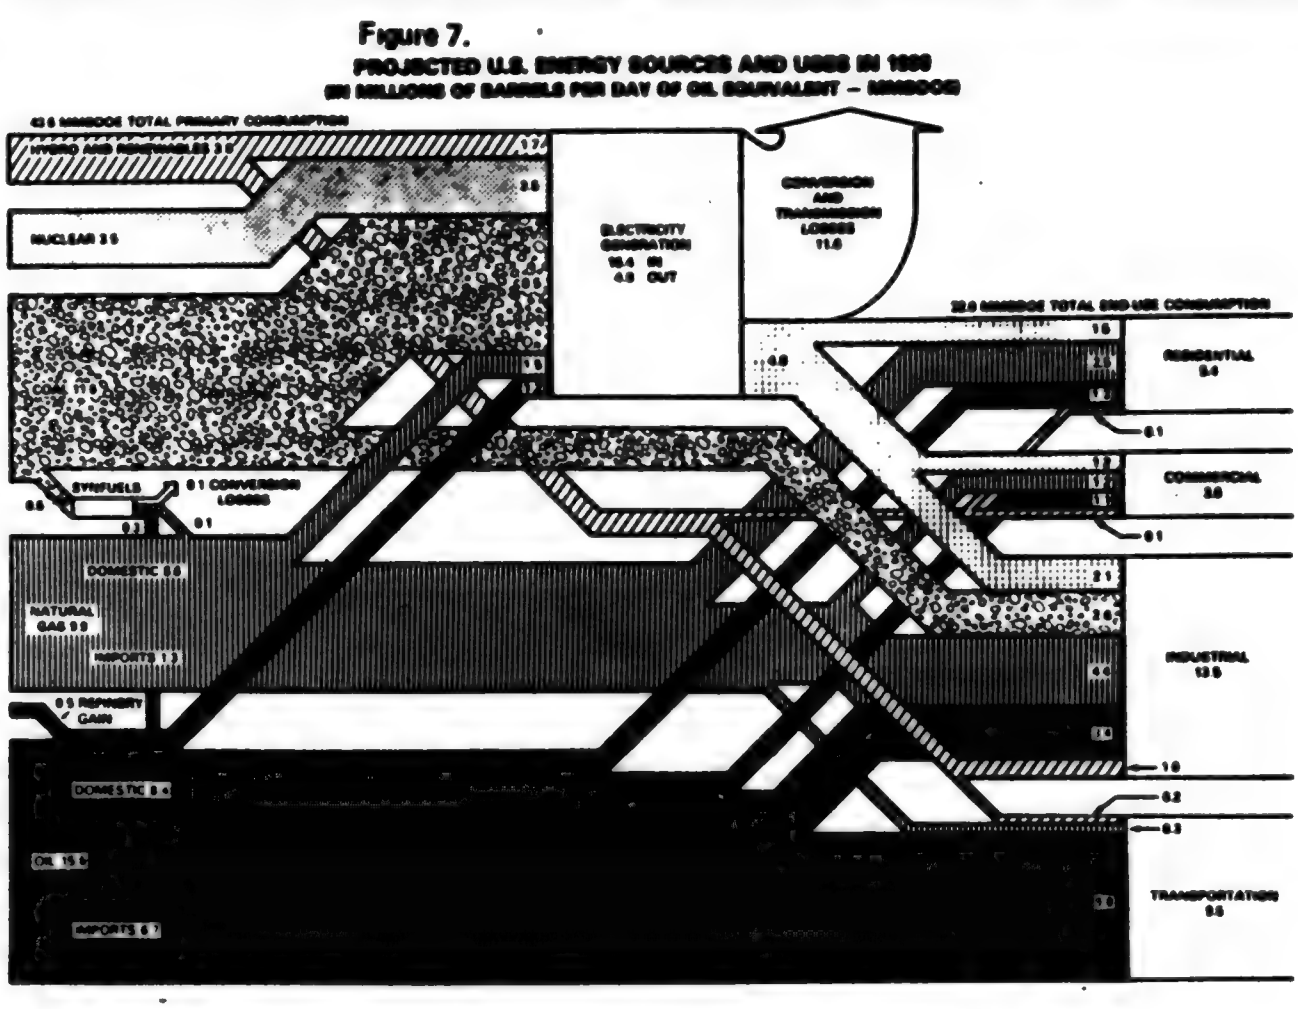

FIGURE 8. PROJECTED POLLUTANT EMISSIONS

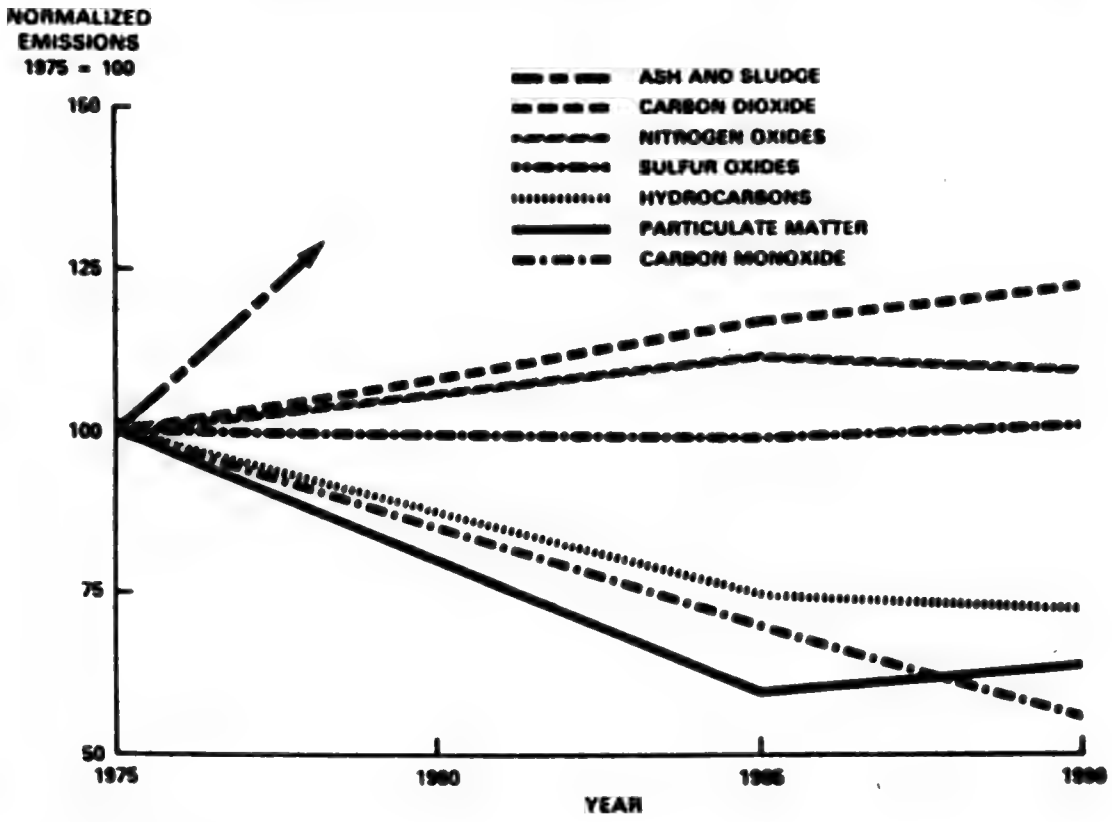

BILLING CODE 6450-01-C

Some existing problems will continue. Emissions of oxides of sulfur (primarily from coal-fired utilities and industrial boilers) are projected to remain at about today's levels because improvements in pollution control will be offset by increases in coal use; nitrogen oxide emissions (from fossil fuel combustion) are expected to increase by about 10 percent over the period.

Some problems will increase, in part because of success in controlling others. The production of bottom ash, primarily from coal combustion, is expected to double as coal use increases and as suspended particulates are better controlled (and trapped in the ash). Similarly, scrubber sludge, which results from the control of sulfur oxides emissions, is projected to increase from insignificant quantities in 1975 to 31–45 million tons per year by 1990. Discharges of dissolved solids, primarily from coal mining and coal utility operations, are also projected to increase 60 percent to 80 percent over the period.

Because of the use of advanced water pollution control equipment, biochemical oxygen demand from energy sources is expected to remain low. Local water availability problems might arise as a result of energy development, especially in the arid west.

Of concern in the long run are pollutants whose effects are more subtle. Emissions of carbon dioxide, long thought harmless, are projected to continue to increase because carbon dioxide is the final product of combustion of any fossil fuel and because there are no known control technologies. There is considerable uncertainty concerning the long-term effects of carbon dioxide on the earth's temperature and climate, but problems in this century are unlikely.

This discussion summarizes an analysis of environmental trends associated with the base case energy projections.

Uncertainty and Vulnerability

All of these projections are subject to great uncertainty. There could be large changes in world oil prices (particularly in OPEC pricing behavior), which might alter the picture for better or worse. There might be new changes in the character or rate of GNP growth. There could be unexpected technological breakthroughs in energy production or energy saving. Oil and gas resources might be more or less abundant than these projections assume.

With respect to the level of oil imports, dependence on oil imports is not synonymous with vulnerability, nor does independence mean security. Reducing oil imports to the U.S. regardless of the cost of doing so can damage the economy, interfere with efficient use of the Nation's resources, lower our standard of living, and provide little additional security. The Nation's economy and national security would remain vulnerable to some degree even if all U.S. oil imports had been eliminated, because our allies would still depend on imported oil, and because we would still be participating in a world economy that would be affected by a major disruption. Vulnerability is an international problem.

The projections presented in this section assume no major disruption in international flows of oil. That assumption is necessary because, of course, it is impossible to predict when and where a disruption might occur, or how severe it might be. However, the U.S. must be prepared for the possibility of a major disruption.

IV. New Views of Energy Policy

New approaches will have to be taken to achieve fundamental improvements in the Nation's energy picture. The Administration believes that it is important to establish a set of guiding principles:

- The Nation's energy problems will be solved primarily by the American people themselves—by consumers, workers, managers, inventors and investors in the private sector—not by the Government.
- The Government's role is to establish sound public policies, based on economic principles, national security concerns, and a due regard for environmental values, so that individuals and firms in the private sector have the incentives to produce and conserve energy efficiently, consistent with the national interest.
- The Government's role is *not* to select and promote favored sources of energy. Doing so risks wasting the Nation's resources.
- Formulation of energy policy must be sensitive to the needs of the poor. But energy policy should not be used as an income transfer program. For example, holding energy prices down for rich and poor alike is an ineffective way to help the poor.
- Federal public spending for energy purposes should be limited to those areas where the private sector is unlikely to invest sufficiently, such as in high cost, long lead time technologies with substantial prospects of high pay-off. Public spending should not be used to subsidize domestic energy production and conservation since this buys us little additional security and diverts capital, workers and initiative from more productive uses elsewhere in the economy.
- The U.S. government should also take steps necessary to deal with potential disruptions in world oil markets. These steps include increasing strategic petroleum stocks and eliminating controls on oil which discourage the private sector from dealing with disruptions effectively.
- The level of oil imports per se is only a rough indicator of the Nation's progress in solving its energy problem. The welfare of the American people is inextricably linked to that of people in other countries, so the U.S. cannot insure its own security by a reckless attempt to eliminate imports.
- Energy is an international issue and so the American people have an interest in seeing that other countries establish sound energy policies.

A first, major step has been taken. On January 28, 1981, President Reagan ended the system of controls on the price of oil which for nearly a decade had discouraged both domestic production and conservation. But there remain numerous other barriers to the timely development and efficient utilization of our energy resources. Suggestions are sought from the public on these principles for resolving energy issues.

[Docket No. RM79-21]

Alternative Fuel Price Ceilings for Incremental Pricing Under the Natural Gas Policy Act of 1978; Public Hearing

Issued: March 18, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of public hearing.

SUMMARY: On March 2, 1981, the Federal Energy Regulatory Commission (Commission) issued an Interim Rule (46 FR 15496, March 6, 1981) in Docket No. RM79-21 amending its regulations on incremental pricing under the Natural Gas Policy Act of 1978. Requests for a public hearing were required to be filed with the Commission no later than March 13, 1981. The Commission hereby gives notice that the public hearing will be held on March 23, 1981 at the time and address listed below. Members of the hearing panel will be designated by the Chairman of the Commission.

DATES: Written comments in this docket are due on or before April 13, 1981. A public hearing will be held in Washington, D.C. on March 23, 1981.

ADDRESS: The public hearing will be held at 10:00 a.m. at: (Room to be announced), Federal Energy Regulatory Commission, 825 N. Capitol Street, NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT:

Sandra Deluda, Federal Energy Regulatory Commission, 825 N. Capitol Street, NE., Washington, D.C. 20426 (202) 357-5522.

Alice Fernandez, Federal Energy Regulatory Commission, 825 N. Capitol Street, NE., Washington, D.C. 20426 (202) 357-8095.

Kenneth F. Plumb,

Secretary.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday).

This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/FSQS		DOT/FAA	USDA/FSQS
DOT/FHWA	USDA/REA		DOT/FHWA	USDA/REA
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/NHTSA	LABOR		DOT/NHTSA	LABOR
DOT/RSPA	HHS/FDA		DOT/RSPA	HHS/FDA
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.
Comments on this program are still invited.
Comments should be submitted to the

Day-of-the-Week Program Coordinator,
Office of the Federal Register,
National Archives and Records Service,
General Services Administration,
Washington, D.C. 20408.

List of Public Laws

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's List of Public Laws.

[Last Listing March 18, 1981; last cumulative listing for the 96th Congress (1980), January 7, 1981.]

V 46 / 54 MR 20 81 UMI

would you like to know

If any changes have been made in certain titles of the CODE OF FEDERAL REGULATIONS without reading the Federal Register every day? If so, you may wish to subscribe to the LSA (List of CFR Sections Affected), the "Federal Register Index," or both.

LSA (List of CFR Sections Affected)
$10.00
per year

. The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Federal Register Index $8.00
per year

Indexes covering the contents of the daily Federal Register are issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers: FR Indexes and the LSA (List of CFR Sections Affected) will continue to be mailed free of charge to regular FR subscribers.

Mail order form to:
Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402

There is enclosed $_____ for _____ subscription(s) to the publications checked below:

..... LSA (LIST OF CFR SECTIONS AFFECTED) ($10.00 a year domestic; $12.50 foreign)

..... FEDERAL REGISTER INDEX ($8.00 a year domestic; $10.00 foreign)

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

18054 **Environmental Protection** EPA seeks comments by 4–14–81 on potential approaches to regulation of combustion of hazardous wastes in boilers and other high termperature combustion processes

18026 **Environmental Protection** CEQ publishes memorandum to agencies containing answers to 40 most asked questions on National Environmental Policy Act regulations (NEPA)

18051 **Veterans** VA proposes to amend to its medical school and health manpower assistance regulations; comments by 4–22–81

18054 **Postal Service** PS proposes international express mail rates to Kuwait; comments by 4–22–81

18023 **Surface Mining** Interior/SMREO publishes notice suspending three rules pertaining to exemptions and definitions for prime farmland, initial and permanent regulatory programs; 4–22–81

18015 **Banks and Banking** FRS amends Regulation K by removing ineligible bankers' acceptances from the limitation on the total amount of bankers' acceptances that foreign branches of member banks may issue; effective 3–16–81

18045 **Nuclear Safety** NRC proposes to add to its power reactor safety regulations a set of licensing requirements, applicable only to construction permit and manufacturing license applications; comments by 4–13–81

18141 **Sunshine Act Meetings**

Title 3—

The President

Proclamation 4826 of March 19, 1981

National Day of Prayer, 1981

By the President of the United States of America

A Proclamation

Our Nation's motto—"In God We Trust"—was not chosen lightly. It reflects a basic recognition that there is a divine authority in the universe to which this Nation owes homage.

Throughout our history Americans have put their faith in God and no one can doubt that we have been blessed for it. The earliest settlers of this land came in search of religious freedom. Landing on a desolate shoreline, they established a spiritual foundation that has served us ever since.

It was the hard work of our people, the freedom they enjoyed and their faith in God that built this country and made it the envy of the world. In all of our great cities and towns evidence of the faith of our people is found: houses of worship of every denomination are among the oldest structures.

While never willing to bow to a tyrant, our forefathers were always willing to get to their knees before God. When catastrophe threatened, they turned to God for deliverance. When the harvest was bountiful the first thought was thanksgiving to God.

Prayer is today as powerful a force in our Nation as it has ever been. We as a Nation should never forget this source of strength. And while recognizing that the freedom to choose a Godly path is the essence of liberty, as a Nation we cannot but hope that more of our citizens would, through prayer, come into a closer relationship with their Maker.

Recognizing our great heritage, the Congress, by Joint Resolution approved April 17, 1952 (36 U.S.C. 169h; 66 Stat. 64), has called upon the President to set aside a suitable day each year as a National Day of Prayer.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby proclaim Thursday, May 7, 1981, National Day of Prayer. On that day I ask all who believe to join with me in giving thanks to Almighty God for the blessings He has bestowed on this land and the protection He affords us as a people. Let us as a Nation join together before God, fully aware of the trials that lie ahead and the need, yes, the necessity, for divine guidance. With unshakable faith in God and the liberty which is heritage, we as a free Nation will surely survive and prosper.

IN WITNESS WHEREOF, I have hereunto set my hand this nineteenth day of March, in the year of our Lord nineteen hundred eighty-one, and of the Independence of the United States of America the two hundred and fifth.

Ronald Reagan

Rules and Regulations

Federal Register
Vol. 46, No. 55
Monday, March 23, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 20

Change of Telephone Number for NRC Regional Office

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule; change of telephone number.

SUMMARY: The Nuclear Regulatory Commission is amending its regulations to change a telephone number officially identified in its regulation 10 CFR Part 20, "Standards for Protection Against Radiation", as the telephone number for NRC's Region IV office located in Arlington, Texas.

EFFECTIVE DATE: March 23, 1981.

FOR FURTHER INFORMATION CONTACT: John D. Philips, Chief, Rules and Procedures Branch, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC, 20555. Telephone (301) 492–7086.

SUPPLEMENTARY INFORMATION: Effective March 30, 1981, the telephone number for the Nuclear Regulatory Commission's Region IV office located in Arlington, Texas at 611 Ryan Plaza Drive, will be changed to 817–465–8100.

Since this amendment relates solely to a minor procedural matter, notice of proposed rulemaking and public procedure thereon are unnecessary, and good cause exists to make the amendments effective upon publication in the Federal Register (March 23, 1981).

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and sections 552 and 553 of Title 5 of the United States Code, the following amendment to 10 CFR Part 20 is published as a document subject to codification.

Part 20—Appendix D [Amended]

1. In Appendix D, the telephone number for NRC's Region IV Office in Arlington, Texas is revised (for both Daytime and Nights and Holidays) to read as follows:

Appendix D—United States Nuclear Regulatory Commission Inspection And Enforcement Regional Offices

* * * * *

Region IV * * *
Telephone: (817) 465–8100.

* * * * *

(Sec. 1611, Pub. L. 83–703, 68 Stat. 948, Pub. L. 93–377, 42 U.S.C. 2201(i))

Dated at Bethesda, Maryland, this 13th day of March, 1981.

For the Nuclear Regulatory Commission.
William J. Dircks,
Executive Director for Operations.

BILLING CODE 7590-01-M

FEDERAL RESERVE SYSTEM

12 CFR Part 211

[Regulation K; Docket No. R-0353]

International Banking Operations; Issuance of Ineligible Acceptances by Foreign Branches of Member Banks

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: The Board of Governors has amended Regulation K—International Banking Operations to remove ineligible bankers' acceptances from the limitation on the total amount of bankers' acceptances that foreign branches of member banks may issue. Removal of this restriction will assure that the regulatory treatment of bankers' acceptances issued by a foreign branch of a member bank is on the same basis as those issued by a member bank domestically.

EFFECTIVE DATE: March 16, 1981.

FOR FURTHER INFORMATION CONTACT: Gilbert T. Schwartz, Associate General Counsel (202/452–3625), or Paul S. Pilecki, Attorney (202/452–3281), Legal Division, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

SUPPLEMENTARY INFORMATION: Under Regulation K—International Banking Operations (12 CFR Part 211), a foreign branch of a member bank is authorized to issue acceptances of drafts or bills of exchange drawn upon it ("bankers' acceptances"); however, all such acceptances, whether eligible [1] or ineligible, are subject to the amount limitations of paragraph 7 of section 13 of the Federal Reserve Act (12 U.S.C. 372) ("Act"). That provision of the Act limits the amount of eligible acceptances that a member bank may issue to 50 percent of its paid-up and unimpaired capital stock and surplus (100 percent upon approval by the Board). The Board has amended Regulation K to provide that only eligible acceptances issued by a member bank's foreign branches will count towards the aggregate limitation on bankers' acceptances in the Act. Ineligible acceptances also will not be subject to the per customer lending limitation of paragraph 7 of section 13.

In 1963, the Board authorized the foreign branches of member banks to issue acceptances as a means of liberalizing the powers of such branches. However, all acceptances, both eligible and ineligible, were to be counted as part of the aggregate limitation on eligible acceptances of the member bank. For those member banks that are at or near the statutory maximum, the limitation restricts the issuance of ineligible acceptances by foreign branches of member banks, particularly those denominated in

[1] An "eligible" acceptance generally is one that (1) grows out of a trade transaction involving exporting, importing, or storage or domestic shipment of goods, and (2) has a maturity of not more than six months' sight to run. Acceptances created to finance the domestic shipment of goods are eligible if they have attached at the time of acceptance shipping documents conveying or securing title to the goods; acceptances financing the domestic storage transactions are eligible if secured at the time of acceptance by a warehouse receipt or other such document conveying or securing title involving readily marketable staples. In addition, certain dollar exchange transactions also may be eligible for discount (paragraph 12 of section 13 of the Act). All other acceptances are regarded as "ineligible."

foreign currencies which are readily marketable abroad. The competitive ability of foreign branches of some member banks is thereby impaired.

The Board believes that foreign branch ineligible acceptances are functionally equivalent to certificates of deposit issued by the foreign branches and therefore should be treated on the same basis. Consequently, it is appropriate to remove the restrictions on issuance of ineligible acceptances at this time. In this regard, ineligible acceptances and certificates of deposit issued by a foreign branch of a member bank or of any other depository institution are not now subject to reserve requirements if they are payable only outside the United States. However, were the Board to impose reserve requirements on any substantially similar instruments issued by foreign branches, such as Eurocurrency CDs, ineligible acceptances would likely be subject to the same reserve requirements.

The Board believes that this modification, which relieves a regulatory restriction, will enhance the competitive position of foreign branches of member banks. Consequently, the Board for good cause finds that the notice, public procedure, and deferral of effective date provisions of 5 U.S.C. 553 (b) and (d) with regard to this action are unnecessary and contrary to the public interest.

Effective March 16, 1981, pursuant to the Board's authority under section 25 of the Federal Reserve Act (12 U.S.C. 601), Regulation K (12 CFR Part 211) is amended by revising subparagraph (2) of § 211.3(b) to read as follows:

§ 211.3 Foreign branches of member banks.

* * * * *

(b) * * *

(2) accept drafts or bills of exchange drawn upon it; however, such acceptances that are of the type described in paragraph 7 of section 13 of the FRA (12 U.S.C. 372) shall be subject to the amount limitations provided therein and such acceptances that are of the type described in paragraph 12 of section 13 of the FRA shall be subject to the amount limitations provided therein;

* * * * *

By order of the Board of Governors, March 16, 1981.

James McAfee,

Assistant Secretary of the Board.

[FR Doc. 81-8705 Filed 3-20-81; 8:45 am]

BILLING CODE 6210-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 80-NW-65-AD; Amdt. 39-4072]

Airworthiness Directives: Boeing Model 737 Series Airplanes Prior to Line No. 726

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Final rule.

SUMMARY: On December 13, 1980, the FAA issued a telegraphic Airworthiness Directive, AD T80-26-51, to all known operators of Boeing Model 737 series airplanes, effective upon receipt, which required inspection of the bolt assembly installed in the inner and lower clevis of each elevator Power Control Unit (PCU) input rod on all 737 airplanes if the bolts had not previously been removed and reinstalled since manufacture. This action was necessary because bolt assemblies have been found displaced from the lower PCU input rod assembly or with stop nuts missing. Inspection will detect and result in correcting any loose or missing bolt assemblies which could cause loss of elevator control. The AD is hereby published in the **Federal Register** to make it effective to all persons.

DATES: Effective date April 1, 1981. This AD was effective earlier to all recipients of the telegraphic AD T80-26-51 dated December 13, 1980. Initial compliance is within 150 flight hours.

FOR FURTHER INFORMATION CONTACT: Mr. Harold N. Wantiez, Airframe Branch, ANW-1208, Seattle Area Aircraft Certification Office, FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington 98108, telephone (206) 767-2516.

SUPPLEMENTARY INFORMATION: During a preflight control check a pilot had difficulty in returning the control column to neutral and upon investigation a bolt assembly was found displaced from the lower PCU input rod assembly. An inspection was made of other aircraft in the operator's fleet and two stop nuts were found missing on one other airplane. Both airplanes were delivered during 1980.

The results of inspections to date indicate that the problem arose at the time of production, and therefore the inspection is not required for aircraft on which the bolts have been removed and reinstalled, or inspected in the manner specified in the AD, since manufacture. The rule affects only aircraft prior to production line number 726.

Since a situation existed that required immediate adoption of this regulation, it was found that notice and public procedure thereon were impracticable and good cause existed at the time of issuance, and still exists, for making this amendment effective in less than 30 days.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer, may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington, 98124. These documents may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington 98108.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive:

Boeing: Applies to Boeing Model 737 series airplanes, certified in all categories, prior to line number 726. To prevent control system jamming, accomplish the following within the next 150 hours time-in-service after the effective date unless already accomplished, or unless the affected bolt assemblies have been removed and reinstalled since manufacture:

1. Inspect the bolt assemblies installed at the upper and lower clevis of each elevator power control unit input rod assembly for proper installation in accordance with Boeing Alert Service Bulletin 27A1109, dated December 11, 1980, or later FAA-approved revisions. Bolt assemblies not properly installed must be reinstalled in accordance with the service bulletin.

2. Alternate methods of compliance with this Airworthiness Directive may be used when they are approved by the Chief, Seattle Area Aircraft Certification Office, FAA Northwest Region.

This amendment becomes effective April 1, 1981, and was effective earlier to those recipients of telegraphic AD T80-26-51 dated December 13, 1980.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to

follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Seattle, Wash., on March 12, 1981.

Jonathan Howe,

Deputy Director, Northwest Region.

The incorporation by reference provision in this document was approved by the Director of the Federal Register on June 19, 1967.

[FR Doc. 81-8703 Filed 3-20-81; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 81-NW-5-AD; Amdt. 39-4087]

Canadair Limited Model CL-44D4 and CL-44J Airplanes; Airworthiness Directive

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds a new Airworthiness Directive (AD) which requires inspections to detect cracks and corrosion on the nose landing gear crossbeam on Canadair CL-44D4 and CL-44J airplanes and repair and replacement of parts, when necessary. This AD is necessary because there have been reports of stress corrosion cracking along the horizontal parting plane on both the forward and aft external faces of the forging, and cracking in the pivot pin taper bores. Failure of the crossbeam could result in collapse of the nose landing gear.

DATES: Effective date March 31, 1981. Compliance schedule—as prescribed in the body of the AD.

ADDRESSES: The applicable service information may be obtained from: Canadair Limited, Post Office Box 6087, Montreal, Quebec, Canada H3C 3G9, Attention: Mr. W. Remington, Airworthiness Coordinator. Also, a copy of the service information may be reviewed at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington, 98108; or FAA Eastern Region, Federal Building, JFK International Airport, Jamaica, New York 11430.

FOR FURTHER INFORMATION CONTACT: Mr. D. C. Jacobsen, Acting Chief, Aircraft Certification Division, FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington 98108, telephone (206) 767-2565, or Lester Lipsius, Aerospace Engineer, Airframe Branch, AEA-212, Engineering and Manufacturing Branch, FAA Eastern Region, Federal Building, JFK International Airport, Jamaica, New York 11430, telephone (212) 995-2875.

SUPPLEMENTARY INFORMATION: There have been at least seven occurrences of stress corrosion cracking of the nose landing gear crossbeam, P/N 44-85082, of which five were on British Britannia aircraft and two were on CL-44 aircraft in British registry. An earlier Airworthiness Directive 74-26-03, Amdt. 39-2045, 39 FR 43295 was issued to correct the problem by requiring an external inspection of the crossbeam. Since then, additional cracks have been found in the pivot pin taper bores. This rule which supersedes AD 74-26-03, requires an inspection of the internal bore for cracks which, if allowed to progress, will result in beam failure and gear collapse. Since this condition is likely to exist or develop in other airplanes of the same type design in U.S. registry, an Airworthiness Directive is being issued which requires inspection, rework, or replacement of the affected part in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Eastern Region. Accomplishment of Canadair Service Information Circular (SIC) No. 431-CL44, dated June 11, 1980, has been FAA approved as a means of compliance with this Airworthiness Directive.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable, and good cause exists for making this Amendment effective in less than 30 days.

Adoption of Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive:

Canadair: Applies to all Canadair Models CL-44D4 and CL4J aircraft certificated in all categories with nose landing gear crossbeam, P/N 44-85082 or P/N 44-85082-2.

Compliance required as indicated.

A. To prevent failure of the nose landing gear crossbeam, accomplish the following:

1. Within the next 30 days after the effective date of this AD, unless already accomplished within the last 60 days, conduct the following inspections for cracks and corrosion:

(a) Using dye penetrant and a 10-power glass, inspect the forward and aft external faces as detailed in paragraph 3.2 and shown in Figure 1 of Canadair Service Information Circular (SIC) No. 431-CL44, dated June 11, 1980, or an approved equivalent inspection.

(b) Using eddy current procedure, inspect the pivot pin taper bore as detailed in paragraph 3.3 and shown in Figure 2 of SIC No. 431-CL44, or an approval equivalent inspection.

2. Within the next 65 hours in service or 30 days, whichever occurs first, after the initial inspection specified in paragraph A1, conduct a visual inspection of the forward and aft external faces as detailed in paragraph 3.1 as shown in Figure 1 of SIC No. 431-CL44, or an approved equivalent inspection.

3. The inspection specified in paragraph A2 shall be repeated at intervals not to exceed 65 hours in service or 30 days, whichever occurs first, from the previous visual inspection. The inspection specified in paragraph A1(a) shall be repeated at intervals not to exceed 650 hours in service or 90 days, whichever occurs first. The inspection specified in paragraph A1(b) shall be repeated at intervals not to exceed 1300 hours in service or 180 days, whichever occurs first.

B. A cracked crossbeam must be replaced prior to further flight with a part of the same number or equivalent, or repaired by an approved method. An acceptable replacement part is a Britannia crossbeam, Messier P/N 200182-302, conforming to Aviation Traders (Engineering) Limited (ATL) Modification No. 44/094 and Drawing No. 78-41-039, in accordance with paragraph 5.3 of SIC No. 431-CL44.

C. Remove any corrosion found in the inspection areas and reprotect the surface in accordance with instructions in paragraph 6.0 on SIC No. 431-CL44, or equivalent.

D. All replacement or repaired crossbeams must be inspected for cracks immediately prior to installation, in accordance with paragraphs A1(a), A1(b), and A2, and at repetitive intervals in accordance with paragraph A3.

E. The aircraft may be flown, in accordance with FAR 21.197, to a base where the inspection or repair can be performed.

F. Equivalent means of accomplishing the repairs, equivalent inspections, and parts must be approved by the Chief, Aircraft Certification Division, FAA Northwest Region.

G. Upon submission of substantiating data by an owner or operator, through an FAA Maintenance Inspector, the Chief, Engineering and Manufacturing Branch, FAA Eastern Region, may adjust the inspection intervals specified in this AD.

This AD supersedes AD 74-26-03.

The manufacturer's specification and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer, may obtain copies upon request to Canadair Limited, P.O. Box 6087, Montreal, Quebec, Canada H3C 3G9, Attention Mr. W. Remington, Airworthiness Coordinator. These documents may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington 98108.

This amendment becomes effective March 31, 1981.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in an aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT".

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Seattle, Wash., on March 11, 1981.

Jonathan Howe,

Acting Director, Northwest Region.

The incorporation by reference provision in this document was approved by the Director of the Federal Register on June 9, 1967.

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 81-NW-14-AD; Amdt. No. 39-4073]

Airworthiness Directives: Lockheed-California Co. Model L-1011 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds a new Airworthiness Directive (AD) which requires inspection of Lockheed Model L-1011 Series aircraft main landing gear wheels and the removal from service of all wheels found to have cracks. This AD is needed to insure that L-1011 main landing gear wheels are retired before cracks in the wheel bead seat radius area propagate to the extent to cause wheel flange separation in flight, resulting in structural damage and possible decompression.

DATES: Effective date April 15, 1981. Compliance schedule as prescribed in the body of the AD, unless already accomplished.

ADDRESSES: The applicable service information may be obtained from: Lockheed-California Company, P.O. Box 551, Burbank, California 91520, Attention: Commercial Support Contracts, Dept. 63-11, U-33, B-1. This information also may be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington 98108, or 15000 Aviation Boulevard, Hawthorne, California 90261.

FOR FURTHER INFORMATION CONTACT: Mr. Anthony Bonanno, Aerospace Engineer, Systems and Equipment Branch, ANW-130L, Federal Aviation Administration, Northwest Region, Los Angeles Area Aircraft Certification Office, P.O. Box 92007, World Way Postal Center, Los Angeles, California 90009, telephone (213) 536-6387.

SUPPLEMENTARY INFORMATION: An accident occurred on December 23, 1980, involving a foreign air carrier Model L-1011 aircraft main landing gear wheel rim which disintegrated in flight causing two fatalities and damaging aircraft structure and portions of hydraulic, electrical, and flight control systems. It has been determined that the cause of the wheel failure was material fatigue, which initiated from a surface corrosion pit. An eddy current inspection has been developed which will detect wheel bead seat area cracks of the size that could possibly progress to wheel failure prior to the next inspection interval.

Since this condition is likely to exist or develop on other airplances of the same type design, an airworthiness directive is being issued which requires inspections and replacement, as necessary, of Goodrich main landing gear wheels on Lockheed Model L-1011 series airplanes.

Since a situtation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive:

Lockheed-California: Applies to Model L-1011 series airplanes certificated in all categories. Compliance required as indicated. To prevent possible failures of the main landing gear wheels, accomplish the following:

Inspect Goodrich main landing gear wheel assemblies for cracks, pits and corrosion in accordance with Lockheed Service Bulletin 093-33-184 dated February 5, 1981, and Goodrich Service Bulletin 393, Revision 1, dated February 20, 1981, in accordance with the following schedule:

A. All in service Goodrich wheel assembly part numbers 3-1311-3 and 3-1365 (wheel outboard half P/N 10-1323 below change G, and wheel inboard half P/N 10-1324 and 10-1324-1 below change G) must be inspected at the next tire change on a main landing gear wheel/tire assembly after the effective date of this AD, and thereafter reinspected at each subsequent tire change.

B. All in service Goodrich wheel assembly part numbers 3-1365 (wheel outboard half P/N 10-1323 change G and up, and wheel inboard half P/N 10-1324-1 change G and up), 3-1365-1, 3-1375, and 3-1375-1 must be inspected at the fourth tire change on a main landing gear wheel assembly after the effective date of this AD, and thereafter reinspected at each subsequent fourth tire change.

C. Wheel halves found to have confirmed defects shall be replaced with an appropriate wheel-half inspected and found to be satisfactory in accordance with this AD or with a new or unused wheel half; except that if an inspected or new or unused wheel-half is not available, an uninspected wheel/tire assembly may be installed and the airplane operated to the next airport where the inspections can be accomplished, but in no event shall the uninspected wheel exceed ten landings. NOTE: Wheel half assemblies specified in paragraph B of this AD are considered new or unused until the fourth tire change.

D. If a tire change is required at a station where the inspections required by this AD cannot be accomplished, an uninspected wheel/tire assembly may be installed and the airplane may be operated to the next airport where the inspections can be accomplished, but in no event shall the uninspected wheel exceed ten landings.

E. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the inspection requirements of this AD.

F. Alternative means of compliance, or other actions which provide an equivalent level of safety, may be used when approved by the Chief, Los Angeles Area Aircraft Certification Office, FAA Northwest Region.

The manufacturer's specification and procedures identified and described in this directive and incorporated herein are made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents may obtain copies upon request to Lockheed-California Company, P.O. Box 551, Burbank, California 91520, Attention: Commercial Support Contracts. These documents may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington 98108, or 15000 Aviation Boulevard, Hawthorne, California 90261.

This amendment becomes effective April 15, 1981.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec 6(a), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impractical for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT".

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Seattle, Wash., on March 13, 1981.

Jonathan Howe,

Acting Director, Northwest Region.

The incorporation by reference provision in the document was approved by the Director of the Federal Register on June 9, 1967.

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 21522; Amdt. 39-4074]

Airworthiness Directives; Partenavia Costruzioni Aeronautiche S.p.A. Models P68 and P68B Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires an inspection, and adjustment if necessary, of the longitudinal trim tab position indicator to preclude the possibility of an incorrect trim tab position indication at the time of takeoff, and the installation of a new trim cable travel stop and keep plate and a metal indicator plate where necessary, on certain Partenavia Model P68 and P68B series airplanes. This AD is necessary to preclude inadvertent positioning of the longitudinal trim tab to an incorrect position for takeoff because of indicator error which could result in loss of control of the airplane.

DATES: Effective April 6, 1981. Compliance schedule—as prescribed in body of AD.

ADDRESSES: The applicable service bulletin may be obtained from: Partenavia Costruzioni Aeronautiche S.p.A., Via Cava, Casoria—Napoli, Italy.

A copy of the service bulletin is contained in the Rules Docket, Room 916, 800 Independence Avenue, SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: C. Christie, Chief, Aircraft Certification Staff, AEU-100, Europe, Africa and Middle East Office, Federal Aviation Administration, c/o American Embassy, Brussels, Belgium, Telephone: 513.38.30, or C. Chapman, Chief, Technical Standards Branch, AWS-110, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591, Telephone: 202-426-8374.

SUPPLEMENTARY INFORMATION: The FAA has determined that the longitudinal trim tab position indicator, located on the control pedestal in the cockpit, can be inadvertently repositioned, thereby causing an incorrect setting of the longitudinal trim tab for takeoff, on certain Partenavia Model P68 and P68B series airplanes, which could result in loss of control of the airplane during the takeoff. Since this condition is likely to exist or develop on other airplanes of the same type design, an airworthiness directive is being issued which requires an inspection before each flight, and adjustment if necessary, to ensure that the longitudinal trim tab position agrees with the cockpit indicator, until the airplane is modified by the installation of a metal indicator plate at the pedestal and, for specified serial number airplanes, a longitudinal trim tab cable guide and cable stop.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

Partenavia Costruzioni Aeronautiche S.p.A.: Applies to Model P68 and P68B series airplanes, Serial Numbers 1 to 75 inclusive which do not have Partenavia Kit P/N 68-010 installed, and Serial Numbers 76 to 159 inclusive which do not have Partenavia Kit P/N 68-009 installed, certificated in all categories.

Compliance is required as indicated, unless already accomplished.

To prevent inadvertent positioning of the longitudinal trim tab to an incorrect position for takeoff, accomplish the following:

(a) Before each flight, until the airplane is modified in accordance with paragraph (e) of this AD—

(1) Set the longitudinal trim tab position indicator to the zero position.

(2) Position the leading edge of the stabilator to the zero reference point on the left, aft side of the fuselage, as described in Partenavia Service Bulletin No. 41, dated October 5, 1978 (hereinafter referred to as the Service Bulletin), or an FAA-approved equivalent.

(3) Check that the longitudinal trim tab is streamlined with the stabilator.

(b) If, as a result of the check in paragraph (a) of this AD, the longitudinal trim tab is streamlined, the longitudinal trim tab position indicator is positioned correctly.

(c) If, as a result of the check in paragraph (a) of this AD, the longitudinal trim tab is not streamlined with the stabilator:

(1) Reposition the longitudinal trim tab position indicator to read zero when the longitudinal trim tab and stabilator are streamlined with the stabilator leading edge set to its zero reference; or

(2) Set the stabilator leading edge to the zero reference as in paragraph (a)(2) of this AD, and rotate the trim wheel until the stabilator and the longitudinal trim tab are streamlined to obtain a new zero position for the trim tab position indicator. Note the amount and direction the new zero point varies from the originally marked zero point and install, adjacent to the longitudinal trim tab position indicator, a placard which shows the amount and direction of the correction

that must be used when setting the longitudinal trim tab for takeoff.

(d) The check required by paragraph (a) of this AD and the repositioning required by paragraph (c) of this AD may be performed by the pilot and an entry made in the airplane maintenance records in accordance with Part 43 of the Federal Aviation Regulations.

(e) Within 50 hours time in service after the effective date of this AD—

(1) For airplanes with Serial Numbers 1 to 75 inclusive, install Partenavia Kit P/N 66-010 in accordance with the kit manufacturer's instructions, or an FAA-approved equivalent.

(2) For airplanes with Serial Numbers 76 to 159 inclusive install Partenavia Kit P/N 66-009 in accordance with the kit manufacturer's instructions, or an FAA-approved equivalent.

(f) If an equivalent means of compliance is used in complying with this AD, that equivalent must be approved by the Chief, Aircraft Certification Staff, AEU-100, FAA, Europe, Africa and Middle East Office, c/o American Embassy, Brussels, Belgium.

This amendment becomes effective April 6, 1981.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Partenavia Costruzioni Aeronautiche S.p.A., Via Cava, Casoria—Napoli, Italy. These documents may be examined at FAA Headquarters, Room 916, 800 Independence Avenue, SW., Washington, DC 20591.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not major under Section 8 of Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately to correct an unsafe condition in aircraft. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT".

This rule is a final order of the Administrator under the Federal Aviation Act of 1958, as amended. As such, it is subject to review only by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Washington, D.C., on March 18, 1981.

George J. Pour,

Acting Director of Airworthiness.

The incorporation by reference provision in this document was approved by the Director of the Federal Register on June 19, 1967.

BILLING CODE 4910-13-M

---

14 CFR Part 97

[Docket No. 21513; Amdt. No. 1186]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATE: An effective date for each SIAP is specified in the amendatory provisions.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591;

2. The FAA Regional Office of the region in which the affected airport is located; or

3. The Flight Inspection Field Office which originated the SIAP.

For Purchase—Individual SIAP copies may be obtained from:

1. FAA Public Information Center (APA-430), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—Copies of all SIAPs, mailed once every 2 weeks, may be ordered from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The annual subscription price is $135.00.

FOR FURTHER INFORMATION CONTACT: Donald K. Funai, Flight Procedures and Airspace Branch (AFO-730), Aircraft Programs Division, Office of Flight Operations, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426-8277.

SUPPLEMENTARY INFORMATION: This amendment to Part 97 of the Federal Aviation Regulations (14 CFR Part 97) prescribes new, amended, suspended, or revoked Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR Part 51, and § 97.20 of the Federal Aviation Regulations (FARs). The applicable FAA Forms are identified as FAA Forms 8260-3, 8260-4 and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the Federal Register expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form document is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. The amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to Part 97 is effective March 23, 1981 and contains separate SIAPs which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require

making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPs criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs is unnecessary, impracticable, or contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, Part 97 of the Federal Aviation Regulations (14 CFR Part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 G.m.t. on the dates specified, as follows:

1. By amending § 97.23 VOR–VOR/DME SIAPs identified as follows:

(Secs. 307, 313(a), 601, and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348, 1354(a), 1421, and 1510); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.49(b)(3))

Note.—The FAA has determined that this document involves a regulation which is not significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Since this regulatory action involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current and promote safe flight operations, the anticipated impact is so minimal that this action does not warrant preparation of a regulatory evaluation. The FAA has also determined that this regulation is an emergency regulation under the President's memorandum of January 29, 1981, and an emergency regulation that is not a major rule under Executive Order 12291. It is impracticable for the agency to follow the procedures of Order 12291 with respect to this rule since the rule must be issued immediately in order to coincide with aeronautical charts which have either already been published or are in the process of publication. An unsafe flying environment would result if the effective rules are not accurately reflected in the charts used by pilots.

Issued in Washington, D.C., on March 13, 1981.

John S. Kern,
Chief, Aircraft Programs Division.

Note.—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on December 31, 1980.

BILLING CODE 4910-13-M

INTERNATIONAL TRADE COMMISSION

19 CFR Part 207

Investigations To Review Outstanding Antidumping and Countervailing Duty Determinations and Outstanding Suspension Agreements

AGENCY: United States International Trade Commission.

ACTION: Final rule.

SUMMARY: Section 207.45 of the Commission's Rules of Practice and Procedure implements section 751 of the Tariff Act of 1930. This rule, as amended, sets forth procedures for the conduct of Commission investigations to review suspension agreements under sections 704 and 734 of the Tariff Act and determinations under sections 704(h)(2), 705(b), 734(h)(2), and 735(b) of the Tariff Act, under the Antidumping Act, 1921, and under the duty-free merchandise provisions of section 303(b) of the Tariff Act.

EFFECTIVE DATE: March 23, 1981.

FOR FURTHER INFORMATION CONTACT: Edward Easton, Esq., Office of the General Counsel, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202-523-0379.

SUPPLEMENTARY INFORMATION: An analysis of comments on the proposed amendments to the rule follows.

On August 14, 1980, a Notice of Proposed Rulemaking was published in the **Federal Register** (45 FR 54006) proposing to amend § 207.45 of title 19, chapter II, of the Code of Federal Regulations. The notice provided that comments concerning the proposed amendment were to be submitted on or before September 15, 1980. A submission was received from one interested person. That submission suggested that the Commission adopt procedures for publishing a notice in the **Federal Register** as soon as it receives a request to review an outstanding suspension agreement or an outstanding antidumping or countervailing duty determination and allow interested persons 30 days from the date of that publication in which to provide their views with regard to whether there are changed circumstances sufficient to warrant an investigation. This suggestion has been adopted. In the event that the Commission were to deny a petition on the basis that it failed to show sufficient changed circumstances, any subsequent petition for a review investigation would also have the burden of showing changed circumstances.

Another difference between the final rule and the proposed rule concerns the modification of outstanding antidumping and countervailing duty orders. The scope of § 207.45 as it was promulgated covered both the modification and revocation of outstanding orders. Given the possibility that an outstanding order may cover different merchandise in more than one market, the Commission can expect to receive requests for review investigations with a narrower product scope than the subject outstanding order. In such circumstances a request for modification of the coverage of the outstanding order would be more appropriate than a request to revoke it. The proposed rule published in the Federal Register of August 14, 1980, would have limited Commission action to the revocation of outstanding orders. The final rule covers both the revocation and modification situations.

The final rule contains a statement that in the case of an evenly divided vote as to whether a Commission determination should be affirmative or negative, the outstanding agreement or order shall remain unaffected. The final rule contains a reference to antidumping "orders" issued under the Antidumping Act, 1921, repealed January 1, 1980. The language in that act referred to "findings," not "orders." The term "order" is used in the antidumping provisions of title VII of the Tariff Act. The purpose of this reference to "orders" in the amended rule is to indicate that it considers these terms to be equivalent and that the Commission intends to continue to exercise review authority over the determinations issued under the Antidumping Act, 1921.

Section 207.45 is revised to read as follows:

§ 207.45 Investigation to review outstanding determination.

(a) *Purpose.* Upon the receipt of information concerning, or upon a request for a review of, a determination concerning a suspension agreement accepted under section 704 or 734 of the Act or an affirmative determination made under section 704(h)(2), 705(b), 734(h)(2), or 735(b) of the Act, or a determination which resulted in an order issued under the Antidumping Act, 1921, or section 303(b) of the Act, which shows changed circumstances sufficient to warrant a review of such determination, the Commission shall institute an investigation to determine, as the case may be, (1) whether, in light of the changed circumstances, the agreement continues to completely eliminate the injurious effect of imports

of the merchandise; or (2) whether an industry in the United States would be materially injured, or would be threatened with material injury, or the establishment of an industry in the United States would be materially retarded, by reason of imports of the merchandise covered by the countervailing duty order or the antidumping order if the order were to be modified or revoked. In the case of an evenly divided vote as to whether a Commission determination should be affirmative or negative, the outstanding agreement or order shall remain unaffected. In the absence of good cause shown, no investigation under this section shall be instituted within 24 months of the date of publication of the notice of the suspension or determination.

(b) *Procedures.* (1) *Commencement of proceedings.* (i) *Upon receipt of a request.* A proceeding is commenced upon the filing with the Commission of the original and nineteen (19) true copies of a request. Requests for a review investigation may be filed by any person. All requests shall set forth a description of changed circumstances sufficient to warrant the institution of a review investigation by the Commission under this section.

(ii) *Upon the initiative of the Commission.* Upon receipt of information concerning a suspension agreement accepted under section 704 or 734 of the Act or an affirmative determination made under 704(h)(2), 705(b), 734(h)(2), or 735(b) of the Act, or a determination which resulted in an order issued under the Antidumping Act, 1921, or section 303(b) of the Act, which shows changed circumstances sufficient to warrant a review of such determination, the Commission shall initiate an investigation to review such determination.

(2) *Notice of receipt of a request.* Upon the receipt of a properly filed request for a review investigation, the Commission shall publish a notice of having received such a request in the **Federal Register** inviting public comment on the question of whether the Commission should institute a review investigation. Interested persons shall have at least thirty (30) days from the date of publication in the **Federal Register** within which to submit comments to the Commission.

(3) *Institution of an investigation.* Within thirty (30) days after the close of the period for public comments following publication of the receipt of a request, the Commission shall determine whether the request shows changed circumstances sufficient to warrant a review and, if so, shall institute an investigation. The investigation instituted by notice published in the **Federal Register** and shall be completed within 120 days of the date of such publication. If the Commission determines that a request does not show changed circumstances sufficient to warrant a review, the request will be dismissed and a notice of the dismissal published in the **Federal Register** stating the reasons therefor.

(4) *Procedures set forth in Subpart C of Part 207.* The procedures set forth in §§ 207.21 through 207.24 and § 207.26 of this Part shall apply to all investigations instituted under this section.

(Sec. 751 of the Tariff Act of 1930)

By order of the Commission.

Issued: March 19, 1981.

Kenneth R. Mason,

Secretary.

BILLING CODE 1505-01-M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Parts 700, 716 and 785

Surface Coal Mining and Reclamation Operations; Initial and Permanent Regulatory Programs

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Department of the Interior.

ACTION: Notice of suspension of certain rules in 30 CFR Chapter VII.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSM) is suspending three final rules pending the outcome of rulemaking to modify those rules. This action is being taken as a result of preliminary review of the rules under Executive Order 12291. The specific regulations affected by this action are listed below.

EFFECTIVE DATE: March 23, 1981.

FOR FURTHER INFORMATION CONTACT: Andrew V. Bailey, Principal Deputy Director, Office of Surface Mining, U.S. Department of the Interior, Washington, D.C. 20240 (202) 343-4006.

SUPPLEMENTARY INFORMATION: On February 4, 1981, the Department of the Interior, in accordance with the President's memorandum of January 29, 1981, extended until March 30, 1981, the effective dates of three final rules which had not yet become effective. The three rules deal with exemptions and definitions for the prime farmland rules of OSM's initial and permanent regulatory programs and an exemption for operations which affect two acres or less. As a result of a preliminary review of these rules undertaken pursuant to Executive Order No. 12291, 46 FR 13193, OSM has determined that it is in the public interest to consider modifications of these rules. The three rules are therefore suspended pending the outcome of further rulemaking which OSM will initiate in the near future. All appropriate procedures under Executive Order 12291, the Surface Mining Control and Reclamation Act of 1977 (SMCRA), the Administrative Procedure Act (APA), and other applicable laws and regulations will be followed.

As a result of this notice, these rules will not become effective on March 30, 1981, as was stated in the notice published in the **Federal Register** on February 4, 1981, 46 FR 10707. Because none of the rules has ever been in effect, this suspension will allow the prior versions of each rule to remains in effect until the completion of new rulemaking proceedings.

Justification for Postponement Followed by Suspension

Many states have recently received outright or conditional approval of their regulatory programs and are beginning the difficult task of implementing those programs. If these rules were allowed to become effective on March 30, 1981, those states would be required to begin the process of amending their state programs to meet the new federal rules. State resources would be needlessly expended in this effort, however, if the result of OSM's planned future rulemaking differs from the postponed rules. Imposition of such an unnecessary burden on States which are currently facing the difficult task of implementing their regulatory programs is not justifiable. Consequently, good cause exists for immediate suspension of these

rules without notice and public procedure thereon to prevent such a wasteful exercise and allow a careful reevaluation and revision of the prime farmland and two acre exemption rules. Good cause similarly exists for this suspension to take effect immediately. Because the prior rules will remain in effect, the suspension of these versions of the rules will have no adverse effect upon achieving the purposes of SMCRA pending completion of the rulemaking process.

Notice of Suspended Regulations

The following regulations are suspended:

A. 30 CFR 716.7(a) and (b). Prime Farmland Exemption.

The regulation as published on January 22, 1981 (46 FR 7212) is suspended. The regulation which was removed by that notice remains in effect.

B. 30 CFR 716.7 (a) and (b). Prime Farmlands Exemption.

This regulation as published on January 23, 1981 (46 FR 7900) is suspended. The regulation which was revised by that notice remains in effect.

C. 30 CFR 785.17. Prime Farmland Exemption.

This regulation as published on January 23, 1981 (46 FR 7900) is suspended. The regulation which was revised by that notice remains in effect.

D. 30 CFR 700.11(b). Extraction of Coal; Two acres or less.

This regulation as published on January 23, 1981 (46 FR 7904) is suspended. The regulation which was revised by that notice remains in effect.

Dated: March 18, 1981.

Perry Pendley,

Deputy Assistant Secretary of the Interior.

[FR Doc. 81-8801 Filed 3-20-81; 8:45 am]

BILLING CODE 4310-05-M

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Part 242b

General Procedures and Delegations of the Board of Regents of the Uniformed Services University of the Health Sciences

AGENCY: Uniformed Services University of the Health Sciences.

ACTION: Final rule.

SUMMARY: This document amends the General Procedures and Delegations to realign certain functions of officers reporting to the Dean of the University (President). It revises titles and responsibilities to correspond to the realignment of functions.

EFFECTIVE DATE: March 2, 1981.

ADDRESS: Legal Counsel, Uniformed Services University of the Health Sciences, 4301 Jones Bridge Road, Bethesda, Maryland 20014.

FOR FURTHER INFORMATION CONTACT: Merel Glaubiger, Legal Counsel, 202/295-3028.

SUPPLEMENTARY INFORMATION: In FR Doc. 77-36169 published in the **Federal Register** on December 20, 1977 (42 FR 63775) the Uniformed Services University of the Health Sciences published General Procedures and Delegations of the Board of Regents of the Uniformed Services University of the Health Sciences. This was amended in FR Doc. 78-28367 published in the **Federal Register** on October 10, 1978 (43 FR 46531) to alter the number and responsibilities of officers reporting to the Dean of the University (President). The purpose of this amendment is to alter the responsibilities of these officers without changing their number and to reflect the changes in responsibility by changes in title. The rule establishes the offices of Associate Dean for Operations and Associate Dean for Academic Affairs in place of the Director of Resource Management and the Assistant Dean for Administration. The rule also makes technical changes in language.

Because these rules relate solely to matters of University organization and procedure, notice of proposed rulemaking and public participation in the rulemaking are not required by Section 553 of Title 5 of the United States Code.

Accordingly, pursuant to the Uniformed Services Health Professions Revitalization Act, Sections 552 and 553 of Title 5 of the United States Code, and Section 242b.8(a) of Title 32, Code of Federal Regulations, the Board of Regents of the Uniformed Services University of the Health Sciences, amends § 242b.7, Chapter I, Title 32, Code of Federal Regulations by revising § 242b.7(a)(7) and § 242b.7(b)(2)-(4) to read as follows:

PART 242b—GENERAL PROCEDURES AND DELEGATIONS OF THE BOARD OF REGENTS OF THE UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES

§ 242b.7 Officers of the University.

(a) * * *

(7) * * *

(iii) an Associate Dean for Operations; and

(iv) an Associate Dean for Academic Affairs.

* * * * * *

(b) * * *

(2) Associate Dean of the School of Medicine.

(i) The Associate Dean shall assist the Dean of the School of Medicine in planning, developing, and directing the activities and functions of the School of Medicine.

(ii) In the absence of the Dean, he or she shall act for the Dean.

(3) Associate Dean for Operations.

(i) The Associate Dean for Operations shall be responsible for the support of the educational and research activities of the University including but not limited to:

(A) financial management;

(B) building support and materiel acquisition;

(C) laboratory animal medicine;

(D) personnel/manpower;

(E) instructional and research support; and

(F) learning resources center.

(ii) He or she shall be responsible for preparation of the University budget estimates and program submission presentations for the approval of the Board.

(iii) He or she shall make all books, records or vouchers available for the inspection of any member of the Board and shall report at each meeting of the Administrative Affairs Committee.

(4) Associate Dean for Academic Affairs

(i) The Associate Dean for Academic Affairs shall be responsible for the overall management and supervision of the University's Basic Sciences Departments, Clinical Sciences Departments, and the Academic Sections including but not limited to:

(A) Operational and Emergency Medicine; and

(B) Medical Education.

M. S. Healy,
OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.
March 18, 1981.

BILLING CODE 3810-70-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 57

[EN-FRL 1783-3]

Primary Nonferrous Smelter Orders

AGENCY: United States Environmental Protection Agency (EPA).
ACTION: Final rule.

SUMMARY: In response to petitions for reconsideration, the Administrator, on December 24, 1980, proposed for public comment two amendments to the regulations concerning nonferrous smelter orders (NSOs). The one public comment received supported the proposal, and the Administrator is today promulgating the amendments as proposed. Their intended effect is to (1) allow an NSO to provide that certain emissions that occur during startup of an acid plant after scheduled maintenance are not excess emissions and (2) make a smelter owner's consent to liability inapplicable in criminal proceedings.

DATES: These amendments are effective April 22, 1981.

ADDRESS: Docket Number DSSE 78-1 contains all material relevant to this action and is located at the Central Docket Section, Gallery 1, West Tower, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460. The docket may be inspected between 8:00 a.m. and 4:00 p.m. on weekdays. There may be a reasonable charge for copying.

FOR FURTHER INFORMATION CONTACT: David Rochlin, Division of Stationary Source Enforcement (EN-341), U.S. Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460; telephone 202-755-2542.

SUPPLEMENTARY INFORMATION: On June 24, 1980 (45 FR 42514), the Administrator promulgated regulations that established the minimum required contents of initial primary NSOs issued under Section 119 of the Clean Air Act and the criteria and procedures EPA will use in issuing NSOs and evaluating NSOs issued by States.

In response to a petition for reconsideration from the State of Arizona, EPA on December 24, 1980 (45 FR 85084) proposed for public comment two amendments to the NSO regulations. The only public comment received supported the proposal and did not request a hearing. The reasons for these amendments, which the Administrator is today promulgating as proposed, are set out in the Administrator's response to the petitions for reconsideration of the NSO rules published December 24, 1980 (45 FR 85009, 85010-85011).

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to Section 8(b) of that Order.

(Secs. 110, 114, 119 and 301 of the Clean Air Act, 42 U.S.C. 7410, 7414, 7419 and 7601)

Dated: March 12, 1981.

Walter C. Barber,
Acting Administrator.

The Administrator hereby amends Part 57 in Title 40 of the Code of Federal Regulations as follows:

1. Subpart C—Constant Controls and Related Requirements is amended by revising the first sentence of paragraph (e) of § 57.304 to read as follows:

§ 57.304 Bypass, excess emissions and malfunctions.

* * * * *

(e) An NSO may provide that excess emissions which occur during acid plant start-up as the result of the cooling of acid plant catalyst due to the unavailability of process gas to an acid plant during a prolonged SCS curtailment or scheduled maintenance are not excess emissions. * * *

2. Subpart D—Supplementary Control System Requirements is amended by revising § 57.403 to read as follows:

§ 57.403 Written consent.

(a) *The consent.* The NSO shall include a written consent, signed by a corporate official empowered to do so, in the following form:

As a condition of receiving a Primary Nonferrous Smelter Order (NSO) under section 119 of the Clean Air Act for the smelter operated by (*name of company*) at (*location*), the undersigned official, being empowered to do so, consents for the company as follows:

(1) In any civil proceeding (judicial or administrative) to enforce the NSO, the company will not contest:

(a) Liability for any violation of the National Ambient Air Quality Standards for sulfur dioxide in the smelter's designated liability area (DLA), except on the ground that a determination under 40 CFR 57.402(c)(3) was clearly wrong; or

(b) The conclusive allocation of liability under NSO provisions satisfying 40 CFR 57.402(d)(1) between the company's smelter and any other smelter(s) for any violation of the National Ambient Air Quality Standards for sulfur dioxide in an area of overlapping DLAs.

(2) The issuing agency (as defined in 40 CFR 57.103) will be allowed unrestricted access at reasonable times to inspect, verify calibration of, and obtain data from ambient air quality monitors operated by the company under the requirements of the NSO.

(b) *Rights not waived by the consent.* This consent shall not be deemed to waive any right(s) to judicial review of any provisions of an NSO that are otherwise available to the smelter owner or operator under section 307(b) of the Clean Air Act.

Memorandum for Federal NEPA Liaisons, Federal, State, and Local Officials and Other Persons Involved in the NEPA Process

Subject: Questions and Answers About the NEPA Regulations

During June and July of 1980 the Council on Environmental Quality, with the assistance and cooperation of EPA's EIS Coordinators from the ten EPA regions, held one-day meetings with federal, state and local officials in the ten EPA regional offices around the country. In addition, on July 10, 1980, CEQ conducted a similar meeting for the Washington, D.C. NEPA liaisons and persons involved in the NEPA process. At these meetings CEQ discussed (a) the results of its 1980 review of Draft EISs issued since the July 30, 1979 effective date of the NEPA regulations, (b) agency compliance with the Record of Decision requirements in Section 1505 of the NEPA regulations, and (c) CEQ's preliminary findings on how the scoping process is working. Participants at these meetings received copies of materials prepared by CEQ summarizing its oversight and findings.

These meetings also provided NEPA liaisons and other participants with an opportunity to ask questions about NEPA and the practical application of the NEPA regulations. A number of these questions were answered by CEQ representatives at the regional meetings. In response to the many requests from the agencies and other participants, CEQ has compiled forty of the most important or most frequently asked questions and their answers and reduced them to writing. The answers were prepared by the General Counsel of CEQ in consultation with the Office of Federal Activities of EPA. These answers, of course, do not impose any additional requirements beyond those of the NEPA regulations. This document does not represent new guidance under the NEPA regulations, but rather makes generally available to concerned agencies and private individuals the answers which CEQ has already given at the 1980 regional meetings. The answers also reflect the advice which the Council has given over the past two years to aid agency staff and consultants in their day-to-day application of NEPA and the regulations.

CEQ has also received numerous inquiries regarding the scoping process. CEQ hopes to issue written guidance on scoping later this year on the basis of its special study of scoping, which is nearing completion.

Nicholas C. Yost,
General Counsel.

Questions and Answers About the NEPA Regulations (1981)

1a. Q. What is meant by "range of alternatives" as referred to in Sec. 1505.1(e)? [1]

A. The phrase "range of alternatives" refers to the alternatives discussed in environmental documents. It includes all reasonable alternatives, which must be rigorously explored and objectively evaluated, as well as those other alternatives, which are eliminated from detailed study with a brief discussion of the reasons for eliminating them. Section 1502.14. A decisionmaker must not consider alternatives beyond the range of alternatives discussed in the relevant environmental documents. Moreover, a decisionmaker must, in fact, consider all the alternatives discussed in an EIS. Section 1505.1(e).

1b. Q. How many alternatives have to be discussed when there is an infinite number of possible alternatives?

[1] References throughout the document are to the Council on Environmental Quality's Regulations For Implementing The Procedural Provisions of the National Environmental Policy Act, 40 CFR Parts 1500-1508.

A. For some proposals there may exist a very large or even an infinite number of possible reasonable alternatives. For example, a proposal to designate wilderness areas within a National Forest could be said to involve an infinite number of alternatives from 0 to 100 percent of the forest. When there are potentially a very large number of alternatives, only a reasonable number of examples, covering the *full spectrum* of alternatives, must be analyzed and compared in the EIS. An appropriate series of alternatives might include dedicating 0, 10, 30, 50, 70, 90, or 100 percent of the Forest to wilderness. What constitutes a reasonable range of alternatives depends on the nature of the proposal and the facts in each case.

2a. Q. If an EIS is prepared in connection with an application for a permit or other federal approval, must the EIS rigorously analyze and discuss alternatives that are outside the capability of the applicant or can it be limited to reasonable alternatives that can be carried out by the applicant?

A. Section 1502.14 requires the EIS to examine all reasonable alternatives to the proposal. In determining the scope of alternatives to be considered, the emphasis is on what is "reasonable" rather than on whether the proponent or applicant likes or is itself capable of carrying out a particular alternative. Reasonable alternatives include those that are *practical or feasible* from the technical and economic standpoint and using common sense, rather than simply *desirable* from the standpoint of the applicant.

2b. Q. Must the EIS analyze alternatives outside the jurisdiction or capability of the agency or beyond what Congress has authorized?

A. An alternative that is outside the legal jurisdiction of the lead agency must still be analyzed in the EIS if it is reasonable. A potential conflict with local or federal law does not necessarily render an alternative unreasonable, although such conflicts must be considered. Section 1506.2(d). Alternatives that are outside the scope of what Congress has approved or funded must still be evaluated in the EIS if they are reasonable, because the EIS may serve as the basis for modifying the Congressional approval or funding in light of NEPA's goals and policies. Section 1500.1(a).

3. Q. What does the "no action" alternative include? If an agency is under a court order or legislative command to act, must the EIS address the "no action" alternative?

A. Section 1502.14(d) requires the alternatives analysis in the EIS to "include the alternative of no action." There are two distinct interpretations of "no action" that must be considered, depending on the nature of the proposal being evaluated. The first situation might involve an action such as updating a land management plan where ongoing programs initiated under existing legislation and regulations will continue, even as new plans are developed. In these cases "no action" is "no change" from current management direction or level of management intensity. To construct an alternative that is based on no management at all would be a useless academic exercise. Therefore, the "no action" alternative may be thought of in terms of continuing with the present course of action until that action is changed. Consequently, projected impacts of alternative management schemes would be compared in the EIS to those impacts projected for the existing plan. In this case, alternatives would include management plans of both greater and lesser intensity, especially greater and lesser levels of resource development.

The second interpretation of "no action" is illustrated in instances involving federal decisions on proposals for projects. "No action" in such cases would mean the proposed activity would not take place, and the resulting environmental effects from taking no action would be compared with the effects of permitting the proposed activity or an alternative activity to go forward.

Where a choice of "no action" by the agency would result in predictable actions by others, this consequence of the "no action" alternative should be included in the analysis. For example, if denial of permission to build a railroad to a facility would lead to construction of a road and increased truck traffic, the EIS should analyze this consequence of the "no action" alternative.

In light of the above, it is difficult to think of a situation where it would *not* be appropriate to address a "no action" alternative. Accordingly, the regulations require the analysis of the no action alternative even if the agency is under a court order or legislative command to act. This analysis provides a benchmark, enabling decisionmakers to compare the magnitude of environmental effects of the action alternatives. It is also an example of a reasonable alternative outside the jurisdiction of the agency which must be analyzed. Section 1502.14(c). See Question 2 above. Inclusion of such an analysis in the EIS is necessary to inform the Congress, the public, and the President as intended by NEPA. Section 1500.1(a).

4a. Q. What is the "agency's preferred alternative"?

A. The "agency's preferred alternative" is the alternative which the agency believes would fulfill its statutory mission and responsibilities, giving consideration to economic, environmental, technical and other factors. The concept of the "agency's preferred alternative" is different from the "environmentally preferable alternative," although in some cases one alternative may be both. See Question 6 below. It is identified so that agencies and the public can understand the lead agency's orientation.

4b. Q. Does the "preferred alternative" have to be identified in the Draft EIS and the Final EIS or just in the Final EIS?

A. Section 1502.14(e) requires the section of the EIS on alternatives to "identify the agency's preferred alternative if one or more exists, in the draft statement, and identify such alternative in the final statement . . ." This means that if the agency has a preferred alternative at the Draft EIS stage, that alternative must be labeled or identified as such in the Draft EIS. If the responsible federal official in fact has no preferred alternative at the Draft EIS stage, a preferred alternative need not be identified there. By the time the Final EIS is filed, Section 1502.14(e) presumes the existence of a preferred alternative and requires its identification in the Final EIS "unless another law prohibits the expression of such a preference."

4c. Q. Who recommends or determines the "preferred alternative?"

A. The lead agency's official with line responsibility for preparing the EIS and assuring its adequacy is responsible for identifying the agency's preferred alternative(s). The NEPA regulations do not dictate which official in an agency shall be responsible for preparation of EISs, but agencies can identify this official in their implementing procedures, pursuant to Section 1507.3.

Even though the agency's preferred alternative is identified by the EIS preparer in the EIS, the statement must be objectively prepared and not slanted to support the choice of the agency's preferred alternative over the other reasonable and feasible alternatives.

5a. Q. Is the "proposed action" the same thing as the "preferred alternative"?

A. The "proposed action" may be, but is not necessarily, the agency's "preferred alternative." The proposed action may be a proposal in its initial form before undergoing analysis in the EIS process. If the proposed action is

internally generated, such as preparing a land management plan, the proposed action might end up as the agency's preferred alternative. On the other hand the proposed action may be granting an application to a non-federal entity for a permit. The agency may or may not have a "preferred alternative" at the Draft EIS stage (see Question 4 above). In that case the agency may decide at the Final EIS stage, on the basis of the Draft EIS and the public and agency comments, that an alternative other than the proposed action is the agency's "preferred alternative."

5b. Q. Is the analysis of the "proposed action" in an EIS to be treated differently from the analysis of alternatives?

A. The degree of analysis devoted to each alternative in the EIS is to be substantially similar to that devoted to the "proposed action." Section 1502.14 is titled "Alternatives including the proposed action" to reflect such comparable treatment. Section 1502.14(b) specifically requires "substantial treatment" in the EIS of each alternative including the proposed action. This regulation does not dictate an *amount* of information to be provided, but rather, prescribes a *level of treatment*, which may in turn require varying amounts of information, to enable a reviewer to evaluate and compare alternatives.

6a. Q. What is the meaning of the term "environmentally preferable alternative" as used in the regulations with reference to Records of Decision? How is the term "environment" used in the phrase?

A. Section 1505.2(b) requires that, in cases where an EIS has been prepared, the Record of Decision (ROD) must identify all alternatives that were considered, ". . . specifying the alternative or alternatives which were considered to be environmentally preferable." The environmentally preferable alternative is the alternative that will promote the national environmental policy as expressed in NEPA's Section 101. Ordinarily, this means the alternative that causes the least damage to the biological and physical environment; it also means the alternative which best protects, preserves, and enhances historic, cultural, and natural resources.

The Council recognizes that the identification of the environmentally preferable alternative may involve difficult judgments, particularly when one environmental value must be balanced against another. The public and other agencies reviewing a Draft EIS can assist the lead agency to develop and determine environmentally preferable alternatives by providing their views in comments on the Draft EIS. Through the identification of the environmentally preferable alternative, the decisionmaker is clearly faced with a choice between that alternative and others, and must consider whether the decision accords with the Congressionally declared policies of the Act.

6b. Q. Who recommends or determines what is environmentally preferable?

A. The agency EIS staff is encouraged to make recommendations of the environmentally preferable alternative(s) during EIS preparation. In any event the lead agency official responsible for the EIS is encouraged to identify the environmentally preferable alternative(s) in the EIS. In all cases, commentors from other agencies and the public are also encouraged to address this question. The agency must identify the environmentally preferable alternative in the ROD.

7. Q. What is the difference between the sections in the EIS on "alternatives" and "environmental consequences"? How do you avoid duplicating the discussion of alternatives in preparing these two sections?

A. The "alternatives" section is the heart of the EIS. This section rigorously explores and objectively evaluates all reasonable alternatives including the proposed action. Section 1502.14. It should include relevant comparisons on environmental and other grounds. The "environmental consequences" section of the EIS discusses the specific environmental impacts or effects of each of the alternatives including the proposed action. Section 1502.16. In order to avoid duplication between these two sections, most of the "alternatives" section should be devoted to describing and comparing the alternatives. Discussion of the environmental impacts of these alternatives should be limited to a concise descriptive summary of such impacts in a comparative form, including charts or tables, thus sharply defining the issues and providing a clear basis for choice among options. Section 1502.14. The "environmental consequences" section should be devoted largely to a scientific analysis of the direct and indirect environmental effects of the proposed action and of each of the alternatives. It forms the analytic basis for the concise comparison in the "alternatives" section.

8. Q. Section 1501.2(d) of the NEPA regulations requires agencies to provide for the early application of NEPA to cases where actions are planned by private applicants or non-Federal entities and are, at some stage, subject to federal approval of permits, loans, loan guarantees, insurance or other actions. What must and can agencies do to apply NEPA early in these cases?

A. Section 1501.2(d) requires federal agencies to take steps toward ensuring that private parties and state and local entities initiate environmental studies as soon as federal involvement in their proposals can be foreseen. This section is intended to ensure that environmental factors are considered at an early stage in the planning process and to avoid the situation where the applicant for a federal permit or approval has completed planning and eliminated all alternatives to the proposed action by the time the EIS process commences or before the EIS process has been completed.

Through early consultation, business applicants and approving agencies may gain better appreciation of each other's needs and foster a decisionmaking process which avoids later unexpected confrontations.

Federal agencies are required by Section 1507.3(b) to develop procedures to carry out Section 1501.2(d). The procedures should include an "outreach program", such as a means for prospective applicants to conduct pre-application consultations with the lead and cooperating agencies. Applicants need to find out, in advance of project planning, what environmental studies or other information will be required, and what mitigation requirements are likely, in connecton with the later federal NEPA process. Agencies should designate staff to advise potential applicants of the agency's NEPA information requirements and should publicize their pre-application procedures and information requirements in newsletters or other media used by potential applicants.

Complementing Section 1501.2(d), Section 1506.5(a) requires agencies to assist applicants by outlining the types of information required in those cases where the agency requires the applicant to submit environmental data for possible use by the agency in preparing an EIS.

Section 1506.5(b) allows agencies to authorize preparation of environmental assessments by applicants. Thus, the procedures should also include a means for anticipating and utilizing applicants' environmental studies or "early corporate environmental assessments" to fulfill some of the federal agency's NEPA obligations. However, in such cases the agency must still evaluate independently the environmental issues

and take responsibility for the environmental assessment.

These provisions are intended to encourage and enable private and other non-federal entities to build environmental considerations into their own planning processes in a way that facilitates the application of NEPA and avoids delay.

9. Q. To what extent must an agency inquire into whether an applicant for a federal permit, funding or other approval of a proposal will also need approval from another agency for the same proposal or some other related aspect of it?

A. Agencies must integrate the NEPA process into other planning at the earliest possible time to insure that planning and decisions reflect environmental values, to avoid delays later in the process, and to head off potential conflicts. Specifically, the agency must "provide for cases where actions are planned by . . . applicants," so that designated staff are available to advise potential applicants of studies or other information that will foreseeably be required for the later federal action; the agency shall consult with the applicant if the agency foresees its own involvement in the proposal; and it shall insure that the NEPA process commences at the earliest possible time. Section 1501.2(d). (See Question 8.)

The regulations emphasize agency cooperation early in the NEPA process. Section 1501.6. Section 1501.7 on "scoping" also provides that all affected Federal agencies are to be invited to participate in scoping the environmental issues and to identify the various environmental review and consultation requirements that may apply to the proposed action. Further, Section 1502.25(b) requires that the draft EIS list all the federal permits, licenses and other entitlements that are needed to implement the proposal.

These provisions create an affirmative obligation on federal agencies to inquire early, and to the maximum degree possible, to ascertain whether an applicant is or will be seeking other federal assistance or approval, or whether the applicant is waiting until a proposal has been substantially developed before requesting federal aid or approval.

Thus, a federal agency receiving a request for approval or assistance should determine whether the applicant has filed separate requests for federal approval or assistance with other federal agencies. Other federal agencies that are likely to become involved should then be contacted, and the NEPA process coordinated, to insure an early and comprehensive analysis of the direct and indirect effects of the proposal and any related actions. The agency should inform the applicant that action on its application may be delayed unless it submits all other federal applications (where feasible to do so), so that all the relevant agencies can work together on the scoping process and preparation of the EIS.

10a. Q. What actions by agencies and/or applicants are allowed during EIS preparation and during the 30-day review period after publication of a final EIS?

A. No federal decision on the proposed action shall be made or recorded until at least 30 days after the publication by EPA of notice that the particular EIS has been filed with EPA. Sections 1505.2 and 1506.10. Section 1505.2 requires this decision to be stated in a public Record of Decision.

Until the agency issues its Record of Decision, no action by an agency or an applicant concerning the proposal shall be taken which would have an adverse environmental impact or limit the choice of reasonable alternatives. Section 1506.1(a). But this does not preclude preliminary planning or design work which is needed *to support an application* for permits or assistance. Section 1506.1(d).

When the impact statement in question is a program EIS, no major action concerning the program may be taken which may significantly affect the quality of the human environment, unless the particular action is justified independently of the program, is accompanied by its own adequate environmental impact statement and will not prejudice the ultimate decision on the program. Section 1506.1(c).

10b. Q. Do these limitations on action (described in Question 10a) apply to state or local agencies that have statutorily delegated responsibility for preparation of environmental documents required by NEPA, for example, under the HUD Block Grant program?

A. Yes, these limitations do apply, without any variation from their application to federal agencies.

11. Q. What actions must a lead agency take during the NEPA process when it becomes aware that a non-federal applicant is about to take an action within the agency's jurisdiction that would either have an adverse environmental impact or limit the choice of reasonable alternatives (e.g., prematurely commit money or other resources towards the completion of the proposal)?

A. The federal agency must notify the applicant that the agency will take strong affirmative steps to insure that the objectives and procedures of NEPA are fulfilled. Section 1506.1(b). These steps could include seeking injunctive measures under NEPA, or the use of sanctions available under either the agency's permitting authority or statutes setting forth the agency's statutory mission. For example, the agency might advise an applicant that if it takes such action the agency will not process its application.

12a. Q. What actions are subject to the Council's new regulations, and what actions are grandfathered under the old guidelines?

A. The effective date of the Council's regulations was July 30, 1979 (except for certain HUD programs under the Housing and Community Development Act, 42 U.S.C. 5304(h), and certain state highway programs that qualify under Section 102(2)(D) of NEPA for which the regulations became effective on November 30, 1979). All the provisions of the regulations are binding as of that date, including those covering decisionmaking, public participation, referrals, limitations on actions, EIS supplements, etc. For example, a Record of Decision would be prepared even for decisions where the draft EIS was filed before July 30, 1979.

But in determining whether or not the new regulations apply to the preparation of a *particular environmental document*, the relevant factor is the date of filing of the draft of that document. Thus, the new regulations do not require the redrafting of an EIS or supplement if the draft EIS or supplement was filed before July 30, 1979. However, a supplement prepared after the effective date of the regulations for an EIS issued in final before the effective date of the regulations would be controlled by the regulations.

Even though agencies are not required to apply the regulations to an EIS or other document for which the draft was filed prior to July 30, 1979, the regulations encourage agencies to follow the regulations "to the fullest extent practicable," i.e., if it is feasible to do so, in preparing the final document. Section 1506.12(a).

12b. Q. Are projects authorized by Congress before the effective date of the Council's regulations grandfathered?

A. No. The date of Congressional authorization for a project is not determinative of whether the Council's regulations or former Guidelines apply to the particular proposal. No incomplete projects or proposals of any kind are grandfathered in whole or in part. Only certain environmental documents, for which the draft was issued before the effective date of the regulations, are grandfathered and

subject to the Council's former Guidelines.

12c. Q. Can a violation of the regulations give rise to a cause of action?

A. While a trivial violation of the regulations would not give rise to an independent cause of action, such a cause of action would arise from a substantial violation of the regulations. Section 1500.3.

13. Q. Can the scoping process be used in connection with preparation of an environmental assessment, i.e., before both the decision to proceed with an EIS and publication of a notice of intent?

A. Yes. Scoping can be a useful tool for discovering alternatives to a proposal, or significant impacts that may have been overlooked. In cases where an environmental assessment is being prepared to help an agency decide whether to prepare an EIS, useful information might result from early participation by other agencies and the public in a scoping process.

The regulations state that the scoping process is to be preceded by a Notice of Intent (NOI) to prepare an EIS. But that is only the minimum requirement. Scoping may be initiated earlier, as long as there is appropriate public notice and enough information available on the proposal so that the public and relevant agencies can participate effectively.

However, scoping that is done before the assessment, and in aid of its preparation, cannot *substitute* for the normal scoping process after publication of the NOI, unless the earlier public notice stated clearly that this possibility was under consideration, *and* the NOI expressly provides that written comments on the scope of alternatives and impacts will still be considered.

14a. Q. What are the respective rights and responsibilities of lead and cooperating agencies? What letters and memoranda must be prepared?

A. After a lead agency has been designated (Sec. 1501.5), that agency has the responsibility to solicit cooperation from other federal agencies that have jurisdiction by law or special expertise on any environmental issue that should be addressed in the EIS being prepared. Where appropriate, the lead agency should seek the cooperation of state or local agencies of similar qualifications. When the proposal may affect an Indian reservation, the agency should consult with the Indian tribe. Section 1508.5. The request for cooperation should come at the earliest possible time in the NEPA process.

After discussions with the candidate cooperating agencies, the lead agency and the cooperating agencies are to determine by letter or by memorandum which agencies will undertake cooperating responsibilities. To the extent possible at this stage, responsibilities for specific issues should be assigned. The allocation of responsibilities will be completed during scoping. Section 1501.7(a)(4).

Cooperating agencies must assume responsibility for the development of information and the preparation of environmental analyses at the request of the lead agency. Section 1501.6(b)(3). Cooperating agencies are now required by Section 1501.6 to devote staff resources that were normally primarily used to critique or comment on the Draft EIS after its preparation, much earlier in the NEPA process—primarily at the scoping and Draft EIS preparation stages. If a cooperating agency determines that its resource limitations preclude any involvement, or the degree of involvement (amount of work) requested by the lead agency, it must so inform the lead agency in writing and submit a copy of this correspondence to the Council. Section 1501.6(c).

In other words, the potential cooperating agency must decide early if it is able to devote any of its resources to a particular proposal. For this reason the regulation states that an agency may reply to a request for cooperation that "other program commitments preclude any involvement or the degree of involvement requested in the *action* that is the subject of the environmental impact statement." (Emphasis added). The regulation refers to the "action," rather than to the EIS, to clarify that the agency is taking itself out of all phases of the federal action, not just draft EIS preparation. This means that the agency has determined that it cannot be involved in the later stages of EIS review and comment, as well as decisionmaking on the proposed action. For this reason, cooperating agencies with jurisdiction by law (those which have permitting or other approval authority) cannot opt out entirely of the duty to cooperate on the EIS. See also Question 15, relating specifically to the responsibility of EPA.

14b. Q. How are disputes resolved between lead and cooperating agencies concerning the scope and level of detail of analysis and the quality of data in impact statements?

A. Such disputes are resolved by the agencies themselves. A lead agency, of course, has the ultimate responsibility for the content of an EIS. But it is supposed to use the environmental analysis and recommendations of cooperating agencies with jurisdiction by law or special expertise to the maximum extent possible, consistent with its own responsibilities as lead agency. Section 1501.6(a)(2).

If the lead agency leaves out a significant issue or ignores the advice and expertise of the cooperating agency, the EIS may be found later to be inadequate. Similarly, where cooperating agencies have their own decisions to make and they intend to adopt the environmental impact statement and base their decisions on it, one document should include all of the information necessary for the decisions by the cooperating agencies. Otherwise they may be forced to duplicate the EIS process by issuing a new, more complete EIS or Supplemental EIS, even though the original EIS could have sufficed if it had been properly done at the outset. Thus, both lead and cooperating agencies have a stake in producing a document of good quality. Cooperating agencies also have a duty to participate fully in the scoping process to ensure that the appropriate range of issues is determined early in the EIS process.

Because the EIS is not the Record of Decision, but instead constitutes the *information* and *analysis* on which to base a decision, disagreements about conclusions to be drawn from the EIS need not inhibit agencies from issuing a joint document, or adopting another agency's EIS, if the analysis is adequate. Thus, if each agency has its own "preferred alternative," both can be identified in the EIS. Similarly, a cooperating agency with jurisdiction by law may determine in its own ROD that alternative A is the environmentally preferable action, even though the lead agency has decided in its separate ROD that Alternative B is environmentally preferable.

14c. Q. What are the specific responsibilities of federal and state cooperating agencies to review draft EISs?

A. Cooperating agencies (i.e., agencies with jurisdiction by law or special expertise) and agencies that are authorized to develop or enforce environmental standards, must comment on environmental impact statements within their jurisdiction, expertise or authority. Sections 1503.2, 1508.5. If a cooperating agency is satisfied that its views are adequately reflected in the environmental impact statement, it should simply comment accordingly. Conversely, if the cooperating agency determines that a draft EIS is incomplete, inadequate or inaccurate, or it has other comments, it should promptly make such comments, conforming to the requirements of specificity in section 1503.3.

14d. Q. How is the lead agency to treat the comments of another agency with jurisdiction by law or special expertise which has failed or refused to cooperate or participate in scoping or EIS preparation?

A. A lead agency has the responsibility to respond to all substantive comments raising significant issues regarding a draft EIS. Section 1503.4. However, cooperating agencies are generally under an obligation to raise issues or otherwise participate in the EIS process during scoping and EIS preparation if they reasonably can do so. In practical terms, if a cooperating agency fails to cooperate at the outset, such as during scoping, it will find that its comments at a later stage will not be as persuasive to the lead agency.

15. Q. Are EPA's responsibilities to review and comment on the environmental effects of agency proposals under Section 309 of the Clean Air Act independent of its responsibility as a cooperating agency?

A. Yes. EPA has an obligation under Section 309 of the Clean Air Act to review and comment in writing on the environmental impact of any matter relating to the authority of the Administrator contained in proposed legislation, federal construction projects, other federal actions requiring EISs, and new regulations. 42 U.S.C. Sec. 7609. This obligation is independent of its role as a cooperating agency under the NEPA regulations.

16. Q. What is meant by the term "third party contracts" in connection with the preparation of an EIS? See Section 1506.5(c). When can "third party contracts" be used?

A. As used by EPA and other agencies, the term "third party contract" refers to the preparation of EISs by contractors paid by the applicant. In the case of an EIS for a National Pollution Discharge Elimination System (NPDES) permit, the applicant, aware in the early planning stages of the proposed project of the need for an EIS, contracts directly with a consulting firm for its preparation. See 40 C.F.R. 6.604(g). The "third party" is EPA which, under Section 1506.5(c), must select the consulting firm, even though the applicant pays for the cost of preparing the EIS. The consulting firm is responsible to EPA for preparing an EIS that meets the requirements of the NEPA regulations and EPA's NEPA procedures. It is in the applicant's interest that the EIS comply with the law so that EPA can take prompt action on the NPDES permit application. The "third party contract" method under EPA's NEPA procedures is purely voluntary, though most applicants have found it helpful in expediting compliance with NEPA.

If a federal agency uses "third party contracting," the applicant may undertake the necessary paperwork for the solicitation of a field of candidates under the agency's direction, so long as the agency complies with Section 1506.5(c). Federal procurement requirements do not apply to the agency because it incurs no obligations or costs under the contract, nor does the agency procure anything under the contract.

17a. Q. If an EIS is prepared with the assistance of a consulting firm, the firm must execute a disclosure statement. What criteria must the firm follow in determining whether it has any "financial or other interest in the outcome of the project" which would cause a conflict of interest?

A. Section 1506.5(c), which specifies that a consulting firm preparing an EIS must execute a disclosure statement, does not define "financial or other interest in the outcome of the project." The Council interprets this term broadly to cover any known benefits other than general enhancement of professional reputation. This includes any financial benefit such as a promise of future construction or design work on the project, as well as indirect benefits the consultant is aware of (e.g., if the project would aid proposals sponsored by the firm's other clients). For example, completion of a highway project may encourage construction of a shopping center or industrial park from which the consultant stands to benefit. If a consulting firm is aware that it has such an interest in the decision on the proposal, it should be disqualified from preparing the EIS, to preserve the objectivity and integrity of the NEPA process.

When a consulting firm has been involved in developing initial data and plans for the project, but does not have any financial or other interest in the outcome of the decision, it need not be disqualified from preparing the EIS. However, a disclosure statement in the draft EIS should clearly state the scope and extent of the firm's prior involvement to expose any potential conflicts of interest that may exist.

17b. Q. If the firm in fact has no promise of future work or other interest in the outcome of the proposal, may the firm later bid in competition with others for future work on the project if the proposed action is approved?

A. Yes.

18. Q. How should uncertainties about indirect effects of a proposal be addressed, for example, in cases of disposal of federal lands, when the identity or plans of future landowners is unknown?

A. The EIS must identify all the indirect effects that are known, and make a good faith effort to explain the effects that are not known but are "reasonably foreseeable." Section 1508.8(b). In the example, if there is total uncertainty about the identity of future land owners or the nature of future land uses, then of course, the agency is not required to engage in speculation or contemplation about their future plans. But, in the ordinary course of business, people do make judgments based upon reasonably foreseeable occurrences. It will often be possible to consider the likely purchasers and the development trends in that area or similar areas in recent years; or the likelihood that the land will be used for an energy project, shopping center, subdivision, farm or factory. The agency has the responsibility to make an informed judgment, and to estimate future impacts on that basis, especially if trends are ascertainable or potential purchasers have made themselves known. The agency cannot ignore these uncertain, but probable, effects of its decisions.

19a. Q. What is the scope of mitigation measures that must be discussed?

A. The mitigation measures discussed in an EIS must cover the range of impacts of the proposal. The measures must include such things as design alternatives that would decrease pollution emissions, construction impacts, esthetic intrusion, as well as relocation assistance, possible land use controls that could be enacted, and other possible efforts. Mitigation measures must be considered even for impacts that by themselves would not be considered "significant." Once the proposal itself is considered as a whole to have significant effects, all of its specific effects on the environment (whether or not "significant") must be considered, and mitigation measures must be developed where it is feasible to do so. Sections 1502.14(f), 1502.16(h), 1508.14.

19b. Q. How should an EIS treat the subject of available mitigation measures that are (1) outside the jurisdiction of the lead or cooperating agencies, or (2) unlikely to be adopted or enforced by the responsible agency?

A. All relevant, reasonable mitigation measures that could improve the project are to be identified, even if they are outside the jurisdiction of the lead agency or the cooperating agencies, and thus would not be committed as part of the RODs of these agencies. Sections 1502.16(h), 1505.2(c). This will serve to

alert agencies or officials who *can* implement these extra measures, and will encourage them to do so. Because the EIS is the most comprehensive environmental document, it is an ideal vehicle in which to lay out not only the full range of environmental impacts but also the full spectrum of appropriate mitigation.

However, to ensure that environmental effects of a proposed action are fairly assessed, the probability of the mitigation measures being implemented must also be discussed. Thus the EIS and the Record of Decision should indicate the likelihood that such measures will be adopted or enforced by the responsible agencies. Sections 1502.16(h), 1505.2. If there is a history of nonenforcement or opposition to such measures, the EIS and Record of Decision should acknowledge such opposition or nonenforcement. If the necessary mitigation measures will not be ready for a long period of time, this fact, of course, should also be recognized.

20a. Q. When must a worst case analysis be included in an EIS?

A. If there are gaps in relevant information or scientific uncertainty pertaining to an agency's evaluation of significant adverse impacts on the human environment, an agency must make clear that such information is lacking or that the uncertainty exists. An agency must include a worst case analysis of the potential impacts of the proposal and an indication of the probability or improbability of their occurence if (a) the information relevant to adverse impacts is essential to a reasoned choice among alternatives and the overall costs of obtaining the information are exorbitant, or (b) the information relevant to adverse impacts is important to the decision and the means to obtain it are not known.

NEPA requires that impact statements, at a minimum, contain information to alert the public and Congress to all known *possible* environmental consequences of agency action. Thus, one of the federal government's most important obligations is to present to the fullest extent possible the spectrum of consequences that may result from agency decisions, and the details of their potential consequences for the human environment.

20b. Q. What is the purpose of a worst case analysis? How is it formulated and what is the scope of the analysis?

A. The purpose of the analysis is to carry out NEPA's mandate for full disclosure to the public of the potential consequences of agency decisions, and to cause agencies to consider those potential consequences when acting on the basis of scientific uncertainties or gaps in available information. The analysis is formulated on the basis of available information, using reasonable projections of the worst possible consequences of a proposed action.

For example, if there are scientific uncertainty and gaps in the available information concerning the numbers of juvenile fish that would be entrained in a cooling water facility, the responsible agency must disclose and consider the possibility of the loss of the commercial or sport fishery.

In addition to an analysis of a low probability/catastrophic impact event, the worst case analysis should also include a spectrum of events of higher probability but less drastic impact.

21. Q. Where an EIS or an EA is combined with another project planning document (sometimes called "piggybacking"), to what degree may the EIS or EA refer to and rely upon information in the project document to satisfy NEPA's requirements?

A. Section 1502.25 of the regulations requires that draft EISs be prepared concurrently and integrated with environmental analyses and related surveys and studies required by other federal statutes. In addition, Section 1506.4 allows any environmental document prepared in compliance with NEPA to be combined with any other agency document to reduce duplication and paperwork. However, these provisions were not intended to authorize the preparation of a short summary or outline EIS, attached to a detailed project report or land use plan containing the required environmental impact data. In such circumstances, the reader would have to refer constantly to the detailed report to understand the environmental impacts and alternatives which should have been found in the EIS itself.

The EIS must stand on its own as an analytical document which fully informs decisionmakers and the public of the environmental effects of the proposal and those of the reasonable alternatives. Section 1502.1. But, as long as the EIS is clearly identified and is self-supporting, it can be physically included in or attached to the project report or land use plan, and may use attached report material as technical backup.

Forest Service environmental impact statements for forest management plans are handled in this manner. The EIS identifies the agency's preferred alternative, which is developed in detail as the proposed management plan. The detailed proposed plan accompanies the EIS through the review process, and the documents are appropriately cross-referenced. The proposed plan is useful for EIS readers as an example, to show how one choice of management options translates into effects on natural resources. This procedure permits initiation of the 90-day public review of proposed forest plans, which is required by the National Forest Management Act.

All the alternatives are discussed in the EIS, which can be read as an independent document. The details of the management plan are not repeated in the EIS, and vice versa. This is a reasonable functional separation of the documents: the EIS contains information relevant to the choice among alternatives; the plan is a detailed description of proposed management activities suitable for use by the land managers. This procedure provides for concurrent compliance with the public review requirements of both NEPA and the National Forest Management Act.

Under some circumstances, a project report or management plan may be totally merged with the EIS, and the one document labeled as both "EIS" and "management plan" or "project report." This may be reasonable where the documents are short, or where the EIS format and the regulations for clear, analytical EISs also satisfy the requirements for a project report.

22. Q. May state and federal agencies serve as joint lead agencies? If so, how do they resolve law, policy and resource conflicts under NEPA and the relevant state environmental policy act? How do they resolve differences in perspective where, for example, national and local needs may differ?

A. Under Section 1501.5(b), federal, state or local agencies, as long as they include at least one federal agency, may act as joint lead agencies to prepare an EIS. Section 1506.2 also strongly urges state and local agencies and the relevant federal agencies to cooperate fully with each other. This should cover joint research and studies, planning activities, public hearings, environmental assessments and the preparation of joint EISs under NEPA and the relevant "little NEPA" state laws, so that one document will satisfy both laws.

The regulations also recognize that certain inconsistencies may exist between the proposed federal action and any approved state or local plan or law. The joint document should discuss the extent to which the federal agency would reconcile its proposed action with such plan or law. Section 1506.2(d). (See Question 23).

Because there may be differences in perspective as well as conflicts among

federal, state and local goals for resources management, the Council has advised participating agencies to adopt a flexible, cooperative approach. The joint EIS should reflect all of their interests and missions, clearly identified as such. The final document would then indicate how state and local interests have been accommodated, or would identify conflicts in goals (e.g., how a hydroelectric project, which might induce second home development, would require new land use controls). The EIS must contain a complete discussion of scope and purpose of the proposal, alternatives, and impacts so that the discussion is adequate to meet the needs of local, state and federal decisionmakers.

23a. Q. How should an agency handle potential conflicts between a proposal and the objectives of Federal, state or local land use plans, policies and controls for the area concerned? See Sec. 1502.16(c).

A. The agency should first inquire of other agencies whether there are any potential conflicts. If there would be immediate conflicts, or if conflicts could arise in the future when the plans are finished (see Question 23(b) below), the EIS must acknowledge and describe the extent of those conflicts. If there are any possibilities of resolving the conflicts, these should be explained as well. The EIS should also evaluate the seriousness of the impact of the proposal on the land use plans and policies, and whether, or how much, the proposal will impair the effectiveness of land use control mechanisms for the area. Comments from officials of the affected area should be solicited early and should be carefully acknowleged and answered in the EIS.

23b. Q. What constitutes a "land use plan or policy" for purposes of this discussion?

A. The term "land use plans," includes all types of formally adopted documents for land use planning, zoning and related regulatory requirements. Local general plans are included, even though they are subject to future change. Proposed plans should also be addressed if they have been formally proposed by the appropriate government body in a written form, and are being actively pursued by officials of the jurisdiction. Staged plans, which must go through phases of development such as the Water Resources Council's Level A, B and C planning process should also be included even though they are incomplete.

The term "policies" includes formally adopted statements of land use policy as embodied in laws or regulations. It also includes proposals for action such as the initiation of a planning process, or a formally adopted policy statement of the local, regional or state executive branch, even if it has not yet been formally adopted by the local, regional or state legislative body.

23c. Q. What options are available for the decisionmaker when conflicts with such plans or policies are identified?

A. After identifying any potential land use conflicts, the decisionmaker must weigh the significance of the conflicts, among all the other environmental and non-environmental factors that must be considered in reaching a rational and balanced decision. Unless precluded by other law from causing or contributing to any inconsistency with the land use plans, policies or controls, the decisionmaker retains the authority to go forward with the proposal, despite the potential conflict. In the Record of Decision, the decisionmaker must explain what the decision was, how it was made, and what mitigation measures are being imposed to lessen adverse environmental impacts of the proposal, among the other requirements of Section 1505.2. This provision would require the decisionmaker to explain any decision to override land use plans, policies or controls for the area.

24a. Q. When are EISs required on policies, plans or programs?

A. An EIS must be prepared if an agency proposes to implement a specific policy, to adopt a plan for a group of related actions, or to implement a specific statutory program or executive directive. Section 1508.18. In addition, the adoption of official policy in the form of rules, regulations and interpretations pursuant to the Administrative Procedure Act, treaties, conventions, or other formal documents establishing governmental or agency policy which will substantially alter agency programs, could require an EIS. Section 1508.18. In all cases, the policy, plan, or program must have the potential for significantly affecting the quality of the human environment in order to require an EIS. It should be noted that a proposal "may exist in fact as well as by agency declaration that one exists." Section 1508.23.

24b. Q. When is an area-wide or overview EIS appropriate?

A. The preparation of an area-wide or overview EIS may be particularly useful when similar actions, viewed with other reasonably foreseeable or proposed agency actions, share common timing or geography. For example, when a variety of energy projects may be located in a single watershed, or when a series of new energy technologies may be developed through federal funding, the overview or area-wide EIS would serve as a valuable and necessary analysis of the affected environment and the potential cumulative impacts of the reasonably foreseeable actions under that program or within that geographical area.

24c. Q. What is the function of tiering in such cases?

A. Tiering is a procedure which allows an agency to avoid duplication of paperwork through the incorporation by reference of the general discussions and relevant specific discussions from an environmental impact statement of broader scope into one of lesser scope or vice versa. In the example given in Question 24b, this would mean that an overview EIS would be prepared for all of the energy activities reasonably foreseeable in a particular geographic area or resulting from a particular development program. This impact statement would be followed by site-specific or project-specific EISs. The tiering process would make each EIS of greater use and meaning to the public as the plan or program develops, without duplication of the analysis prepared for the previous impact statement.

25a. Q. When is it appropriate to use appendices instead of including information in the body of an EIS?

A. The body of the EIS should be a succinct statement of all the information on environmental impacts and alternatives that the decisionmaker and the public need, in order to make the decision and to ascertain that every significant factor has been examined. The EIS must explain or summarize methodologies of research and modeling, and the results of research that may have been conducted to analyze impacts and alternatives.

Lengthy technical discussions of modeling methodology, baseline studies, or other work are best reserved for the appendix. In other words, if only technically trained individuals are likely to understand a particular discussion then it should go in the appendix, and a plain language summary of the analysis and conclusions of that technical discussion should go in the text of the EIS.

The final statement must also contain the agency's responses to comments on the draft EIS. These responses will be primarily in the form of changes in the document itself, but specific answers to each significant comment should also be included. These specific responses may be placed in an appendix. If the comments are especially voluminous, summaries of the comments and responses will suffice. (See Question 29 regarding the level of detail required for responses to comments.)

25b. Q. How does an appendix differ from incorporation by reference?

A. First, if at all possible, the appendix accompanies the EIS, whereas the material which is incorporated by reference does not accompany the EIS. Thus the appendix should contain information that reviewers will be likely to want to examine. The appendix should include material that pertains to preparation of a particular EIS. Research papers directly relevant to the proposal, lists of affected species, discussion of the methodology of models used in the analysis of impacts, extremely detailed responses to comments, or other information, would be placed in the appendix.

The appendix must be complete and available at the time the EIS is filed. Five copies of the appendix must be sent to EPA with five copies of the EIS for filing. If the appendix is too bulky to be circulated, it instead must be placed in conveniently accessible locations or furnished directly to commentors upon request. If it is not circulated with the EIS, the Notice of Availability published by EPA must so state, giving a telephone number to enable potential commentors to locate or request copies of the appendix promptly.

Material that is not directly related to preparation of the EIS should be incorporated by reference. This would include other EISs, research papers in the general literature, technical background papers or other material that someone with technical training could use to evaluate the analysis of the proposal. These must be made available, either by citing the literature, furnishing copies to central locations, or sending copies directly to commentors upon request.

Care must be taken in all cases to ensure that material incorporated by reference, and the occasional appendix that does not accompany the EIS, are in fact available for the full minimum public comment period.

26a. Q. How detailed must an EIS index be?

A. The EIS index should have a level of detail sufficient to focus on areas of the EIS of reasonable interest to any reader. It cannot be restricted to the most important topics. On the other hand, it need not identify every conceivable term or phrase in the EIS. If an agency believes that the reader is reasonably likely to be interested in a topic, it should be included.

26b. Q. Is a keyword index required?

A. No. A keyword index is a relatively short list of descriptive terms that identifies the key concepts or subject areas in a document. For example it could consist of 20 terms which describe the most significant aspects of an EIS that a future researcher would need: type of proposal, type of impacts, type of environment, geographical area, sampling or modelling methodologies used. This technique permits the compilation of EIS data banks, by facilitating quick and inexpensive access to stored materials. While a keyword index is not required by the regulations, it could be a useful addition for several reasons. First, it can be useful as a quick index for reviewers of the EIS, helping to focus on areas of interest. Second, if an agency keeps a listing of the keyword indexes of the EISs it produces, the EIS preparers themselves will have quick access to similar research data and methodologies to aid their future EIS work. Third, a keyword index will be needed to make an EIS available to future researchers using EIS data banks that are being developed. Preparation of such an index now when the document is produced will save a later effort when the data banks become operational.

27a. Q. If a consultant is used in preparing an EIS, must the list of preparers identify members of the consulting firm as well as the agency NEPA staff who were primarily responsible?

A. Section 1502.17 requires identification of the names and qualifications of persons who were primarily responsible for preparing the EIS or significant background papers, including basic components of the statement. This means that members of a consulting firm preparing material that is to become part of the EIS must be identified. The EIS should identify these individuals even though the consultant's contribution may have been modified by the agency.

27b. Q. Should agency staff involved in reviewing and editing the EIS also be included in the list of preparers?

A. Agency personnel who wrote basic components of the EIS or significant background papers must, of course, be identified. The EIS should also list the technical editors who reviewed or edited the statements.

27c. Q. How much information should be included on each person listed?

A. The list of preparers should normally not exceed two pages. Therefore, agencies must determine which individuals had *primary* responsibility and need not identify individuals with minor involvement. The list of preparers should include a very brief identification of the individuals involved, their qualifications (expertise, professional disciplines) and the specific portion of the EIS for which they are responsible. This may be done in tabular form to cut down on length. A line or two for each person's qualifications should be sufficient.

28. Q. May an agency file xerox copies of an EIS with EPA pending the completion of printing the document?

A. Xerox copies of an EIS may be filed with EPA prior to printing only if the xerox copies are simultaneously made available to other agencies and the public. Section 1506.9 of the regulations, which governs EIS filing, specifically requires Federal agencies to file EISs with EPA no earlier than the EIS is distributed to the public. However, this section does not prohibit xeroxing as a form of reproduction and distribution. When an agency chooses xeroxing as the reproduction method, the EIS must be clear and legible to permit ease of reading and ultimate microfiching of the EIS. Where color graphs are important to the EIS, they should be reproduced and circulated with the xeroxed copy.

29a Q. What response must an agency provide to a comment on a draft EIS which states that the EIS's methodology is inadequate or inadequately explained? For example, what level of detail must an agency include in its response to a simple postcard comment making such an allegation?

A. Appropriate responses to comments are described in Section 1503.4. Normally the responses should result in changes in the text of the EIS, not simply a separate answer at the back of the document. But, in addition, the agency must state what its response was, and if the agency decides that no substantive response to a comment is necessary, it must explain briefly why.

An agency is not under an obligation to issue a lengthy reiteration of its methodology for any portion of an EIS if the only comment addressing the methodology is a simple complaint that the EIS methodology is inadequate. But agencies must respond to comments, however brief, which are specific in their criticism of agency methodology. For example, if a commentor on an EIS said that an agency's air quality dispersion analysis or methodology was inadequate, and the agency had included a discussion of that analysis in the EIS, little if anything need be added in response to such a comment. However, if the commentor said that the dispersion analysis was inadequate because of its use of a certain computational technique, or that a dispersion analysis was inadequately explained because computational techniques were not included or referenced, then the agency would have to respond in a substantive and meaningful way to such a comment.

If a number of comments are identical or very similar, agencies may group the comments and prepare a single answer for each group. Comments may be summarized if they are especially voluminous. The comments or summaries must be attached to the EIS regardless of whether the agency believes they merit individual discussion in the body of the final EIS.

29b. Q. How must an agency respond to a comment on a draft EIS that raises a new alternative not previously considered in the draft EIS?

A. This question might arise in several possible situations. First, a commentor on a draft EIS may indicate that there is a possible alternative which, in the agency's view, is not a reasonable alternative. Section 1502.14(a). If that is the case, the agency must explain why the comment does not warrant further agency response, citing authorities or reasons that support the agency's position and, if appropriate, indicate those circumstances which would trigger agency reappraisal or further response. Section 1503.4(a). For example, a commentor on a draft EIS on a coal fired power plant may suggest the alternative of using synthetic fuel. The agency may reject the alternative with a brief discussion (with authorities) of the unavailability of synthetic fuel within the time frame necessary to meet the need and purpose of the proposed facility.

A second possibility is that an agency may receive a comment indicating that a particular alternative, while reasonable, should be modified somewhat, for example, to achieve certain mitigation benefits, or for other reasons. If the modification is reasonable, the agency should include a discussion of it in the final EIS. For example, a commentor on a draft EIS on a proposal for a pumped storage power facility might suggest that the applicant's proposed alternative should be enhanced by the addition of certain reasonable mitigation measures, including the purchase and setaside of a wildlife preserve to substitute for the tract to be destroyed by the project. The modified alternative including the additional mitigation measures should be discussed by the agency in the final EIS.

A third slightly different possibility is that a comment on a draft EIS will raise an alternative which is a minor variation of one of the alternatives discussed in the draft EIS, but this variation was not given any consideration by the agency. In such a case, the agency should develop and evaluate the new alternative, if it is reasonable, in the final EIS. If it is qualitatively within the spectrum of alternatives that were discussed in the draft, a supplemental draft will not be needed. For example, a commentor on a draft EIS to designate a wilderness area within a National Forest might reasonably identify a specific tract of the forest, and urge that it be considered for designation. If the draft EIS considered designation of a range of alternative tracts which encompassed forest area of similar quality and quantity, no supplemental EIS would have to be prepared. The agency could fulfill its obligation by addressing that specific alternative in the final EIS.

As another example, an EIS on an urban housing project may analyze the alternatives of constructing 2,000, 4,000, or 6,000 units. A commentor on the draft EIS might urge the consideration of constructing 5,000 units utilizing a different configuration of buildings. This alternative is within the spectrum of alternatives already considered, and, therefore, could be addressed in the final EIS.

A fourth possibility is that a commentor points out an alternative which is not a variation of the proposal or of any alternative discussed in the draft impact statement, and is a reasonable alternative that warrants serious agency response. In such a case, the agency must issue a supplement to the draft EIS that discusses this new alternative. For example, a commentor on a draft EIS on a nuclear power plant might suggest that a reasonable alternative for meeting the projected need for power would be through peak load management and energy conservation programs. If the permitting agency has failed to consider that approach in the Draft EIS, and the approach cannot be dismissed by the agency as unreasonable, a supplement to the Draft EIS, which discusses that alternative, must be prepared. (If necessary, the same supplement should also discuss substantial changes in the proposed action or significant new circumstances or information, as required by Section 1502.9(c)(1) of the Council's regulations.)

If the new alternative was not raised by the commentor during scoping, but could have been, commentors may find that they are unpersuasive in their efforts to have their suggested alternative analyzed in detail by the agency. However, if the new alternative is discovered or developed later, and it could not reasonably have been raised during the scoping process, then the agency must address it in a supplemental draft EIS. The agency is, in any case, ultimately responsible for preparing an adequate EIS that considers all alternatives.

30. Q. When a cooperating agency with jurisdiction by law intends to adopt a lead agency's EIS and it is not satisfied with the adequacy of the document, may the cooperating agency adopt only the part of the EIS with which it is satisfied? If so, would a cooperating agency with jurisdiction by law have to prepare a separate EIS or EIS supplement covering the areas of disagreement with the lead agency?

A. Generally, a cooperating agency may adopt a lead agency's EIS without recirculating it if it concludes that its NEPA requirements and its comments and suggestions have been satisfied. Section 1506.3(a), (c). If necessary, a cooperating agency may adopt only a portion of the lead agency's EIS and may reject that part of the EIS with which it disagrees, stating publicly why it did so. Section 1506.3(a).

A cooperating agency with jurisidiction by law (e.g., an agency with independent legal responsibilities with respect to the proposal) has an independent legal obligation to comply with NEPA. Therefore, if the cooperating agency determines that the EIS is wrong or inadequate, it must prepare a supplement to the EIS, replacing or adding any needed information, and must circulate the supplement as a draft for public and agency review and comment. A final supplemental EIS would be required before the agency could take action. The adopted portions of the lead agency EIS should be circulated with the supplement. Section 1506.3(b). A cooperating agency with jurisdiction by law will have to prepare its own Record of Decision for its action, in which it must explain how it reached its conclusions. Each agency should explain how and why its conclusions differ, if that is the case, from those of other agencies which issued their Records of Decision earlier.

An agency that did not cooperate in preparation of an EIS may also adopt an EIS or portion thereof. But this would arise only in rare instances, because an agency adopting an EIS for use in its own decision normally would have been a cooperating agency. If the proposed action for which the EIS was prepared is substantially the same as the proposed action of the adopting agency, the EIS may be adopted as long as it is recirculated as a final EIS and the agency announces what it is doing. This would be followed by the 30-day review period and issuance of a Record of Decision by the adopting agency. If the proposed action by the adopting agency is not substantially the same as that in

the EIS (i.e., if an EIS on one action is being adapted for use in a decision on another action), the EIS would be treated as a draft and circulated for the normal public comment period and other procedures. Section 1506.3(b).

31a. Q. Do the Council's NEPA regulations apply to independent regulatory agencies like the Federal Energy Regulatory Commission (FERC) and the Nuclear Regulatory Commission?

A. The statutory requirements of NEPA's Section 102 apply to "all agencies of the federal government." The NEPA regulations implement the procedural provisions of NEPA as set forth in NEPA's Section 102(2) for all agencies of the federal government. The NEPA regulations apply to independent regulatory agencies, however, they do not direct independent regulatory agencies or other agencies to make decisions in any particular way or in a way inconsistent with an agency's statutory charter. Sections 1500.3, 1500.6, 1507.1, and 1507.3.

31b. Q. Can an Executive Branch agency like the Department of the Interior adopt an EIS prepared by an independent regulatory agency such as FERC?

A. If an independent regulatory agency such as FERC has prepared an EIS in connection with its approval of a proposed project, an Executive Branch agency (e.g., the Bureau of Land Management in the Department of the Interior) may, in accordance with Section 1506.3, adopt the EIS or a portion thereof for its use in considering the same proposal. In such a case the EIS must, to the satisfaction of the adopting agency, meet the standards for an adequate statement under the NEPA regulations (including scope and quality of analysis of alternatives) and must satisfy the adopting agency's comments and suggestions. If the independent regulatory agency fails to comply with the NEPA regulations, the cooperating or adopting agency may find that it is unable to adopt the EIS, thus forcing the preparation of a new EIS or EIS Supplement for the same action. The NEPA regulations were made applicable to all federal agencies in order to avoid this result, and to achieve uniform application and efficiency of the NEPA process.

32. Q. Under what circumstances do old EISs have to be supplemented before taking action on a proposal?

A. As a rule of thumb, if the proposal has not yet been implemented, or if the EIS concerns an ongoing program, EISs that are more than 5 years old should be carefully reexamined to determine if the criteria in Section 1502.9 compel preparation of an EIS supplement.

If an agency has made a substantial change in a proposed action that is relevant to environmental concerns, or if there are significant new circumstances or information relevant to environmental concerns and bearing on the proposed action or its impacts, a supplemental EIS must be prepared for an old EIS so that the agency has the best possible information to make any necessary substantive changes in its decisions regarding the proposal. Section 1502.9(c).

33a. Q. When must a referral of an interagency disagreement be made to the Council?

A. The Council's referral procedure is a *pre-decision* referral process for interagency disagreements. Hence, Section 1504.3 requires that a referring agency must deliver its referral to the Council not later than 25 days after publication by EPA of notice that the final EIS is available (unless the lead agency grants an extension of time under Section 1504.3(b)).

33b. Q. May a referral be made after this issuance of a Record of Decision?

A. No, except for cases where agencies provide an internal appeal procedure which permits simultaneous filing of the final EIS and the record of decision (ROD). Section 1506.10(b)(2). Otherwise, as stated above, the process is a pre-decision referral process. Referrals must be made within 25 days after the notice of availability of the final EIS, whereas the final decision (ROD) may not be made or filed until after 30 days from the notice of availability of the EIS. Sections 1504.3(b), 1506.10(b). If a lead agency has granted an extension of time for another agency to take action on a referral, the ROD may not be issued until the extension has expired.

34a. Q. Must Records of Decision (RODs) be made public? How should they be made available?

A. Under the regulations, agencies must prepare a "concise *public* record of decision," which contains the elements specified in Section 1505.2. This public record may be integrated into any other decision record prepared by the agency, or it may be separate if decision documents are not normally made public. The Record of Decision is intended by the Council to be an environmental document (even though it is not explicitly mentioned in the definition of "environmental document" in Section 1508.10). Therefore, it must be made available to the public through appropriate public notice as required by Section 1506.6(b). However, there is no specific requirement for publication of the ROD itself, either in the Federal Register or elsewhere.

34b. Q. May the summary section in the final Environmental Impact Statement substitute for or constitute an agency's Record of Decision?

A. No. An environmental impact statement is supposed to inform the decisionmaker before the decision is made. Sections 1502.1, 1505.2. The Council's regulations provide for a 30-day period after notice is published that the final EIS has been filed with EPA before the agency may take final action. During that period, in addition to the agency's own internal final review, the public and other agencies can comment on the final EIS prior to the agency's final action on the proposal. In addition, the Council's regulations make clear that the requirements for the summary in an EIS are not the same as the requirements for a ROD. Sections 1502.12 and 1505.2.

34c. Q. What provisions should Records of Decision contain pertaining to mitigation and monitoring?

A. Lead agencies "shall include appropriate conditions [including mitigation measures and monitoring and enforcement programs] in grants, permits or other approvals" and shall "condition funding of actions on mitigation." Section 1505.3. Any such measures that are adopted must be explained and committed in the ROD.

The reasonable alternative mitigation measures and monitoring programs should have been addressed in the draft and final EIS. The discussion of mitigation and monitoring in a Record of Decision must be more detailed than a general statement that mitigation is being required, but not so detailed as to duplicate discussion of mitigation in the EIS. The Record of Decision should contain a concise summary identification of the mitigation measures which the agency has committed itself to adopt.

The Record of Decision must also state whether all practicable mitigation measures have been adopted, and if not, why not. Section 1505.2(c). The Record of Decision must identify the mitigation measures and monitoring and enforcement programs that have been selected and plainly indicate that they are adopted as part of the agency's decision. If the proposed action is the issuance of a permit or other approval, the specific details of the mitigation measures shall then be included as appropriate conditions in whatever grants, permits, funding or other approvals are being made by the federal agency. Section 1505.3 (a), (b). If the proposal is to be carried out by the

federal agency itself, the Record of Decision should delineate the mitigation and monitoring measures in sufficient detail to constitute an enforceable commitment, or incorporate by reference the portions of the EIS that do so.

34d. Q. What is the enforceability of a Record of Decision?

A. Pursuant to generally recognized principles of federal administrative law, agencies will be held accountable for preparing Records of Decision that conform to the decisions actually made and for carrying out the actions set forth in the Records of Decision. This is based on the principle that an agency must comply with its own decisions and regulations once they are adopted. Thus, the terms of a Record of Decision are enforceable by agencies and private parties. A Record of Decision can be used to compel compliance with or execution of the mitigation measures identified therein.

35. Q. How long should the NEPA process take to complete?

A. When an EIS is required, the process obviously will take longer than when an EA is the only document prepared. But the Council's NEPA regulations encourage streamlined review, adoption of deadlines, elimination of duplicative work, eliciting suggested alternatives and other comments early through scoping, cooperation among agencies, and consultation with applicants during project planning. The Council has advised agencies that under the new NEPA regulations even large complex energy projects would require only about 12 months for the completion of the entire EIS process. For most major actions, this period is well within the planning time that is needed in any event, apart from NEPA.

The time required for the preparation of program EISs may be greater. The Council also recognizes that some projects will entail difficult long-term planning and/or the acquisition of certain data which of necessity will require more time for the preparation of the EIS. Indeed, some proposals should be given more time for the thoughtful preparation of an EIS and development of a decision which fulfills NEPA's substantive goals.

For cases in which only an environmental assessment will be prepared, the NEPA process should take no more than 3 months, and in many cases substantially less, as part of the normal analysis and approval process for the action.

36a. Q. How long and detailed must an environmental assessment (EA) be?

A. The environmental assessment is a concise public document which has three defined functions. (1) It briefly provides sufficient evidence and analysis for determining whether to prepare an EIS; (2) it aids an agency's compliance with NEPA when no EIS is necessary, i.e., it helps to identify better alternatives and mitigation measures; and (3) it facilitates preparation of an EIS when one is necessary. Section 1508.9(a).

Since the EA is a concise document, it should not contain long descriptions or detailed data which the agency may have gathered. Rather, it should contain a brief discussion of the need for the proposal, alternatives to the proposal, the environmental impacts of the proposed action and alternatives, and a list of agencies and persons consulted. Section 1508.9(b).

While the regulations do not contain page limits for EA's, the Council has generally advised agencies to keep the length of EAs to not more than approximately 10–15 pages. Some agencies expressly provide page guidelines (e.g., 10–15 pages in the case of the Army Corps). To avoid undue length, the EA may incorporate by reference background data to support its concise discussion of the proposal and relevant issues.

36b. Q. Under what circumstances is a lengthy EA appropriate?

A. Agencies should avoid preparing lengthy EAs except in unusual cases, where a proposal is so complex that a concise document cannot meet the goals of Section 1508.9 *and* where it is extremely difficult to determine whether the proposal could have significant environmental effects. In most cases, however, a lengthy EA indicates that an EIS is needed.

37a. Q. What is the level of detail of information that must be included in a finding of no significant impact (FONSI)?

A. The FONSI is a document in which the agency briefly explains the reasons why an action will not have a significant effect on the human environment and, therefore, why an EIS will not be prepared. Section 1508.13. The finding itself need not be detailed, but must succinctly state the reasons for deciding that the action will have no significant environmental effects, and, if relevant, must show which factors were weighted most heavily in the determination. In addition to this statement, the FONSI must include, summarize, or attach and incorporate by reference, the environmental assessment.

37b. Q. What are the criteria for deciding whether a FONSI should be made available for public review for 30 days before the agency's final determination whether to prepare an EIS?

A. Public review is necessary, for example, (a) if the proposal is a borderline case, i.e., when there is a reasonable argument for preparation of an EIS; (b) if it is an unusual case, a new kind of action, or a precedent setting case such as a first intrusion of even a minor development into a pristine area; (c) when there is either scientific or public controversy over the proposal; or (d) when it involves a proposal which is or is closely similar to one which normally requires preparation of an EIS. Sections 1501.4(e)(2), 1506.27. Agencies also must allow a period of public review of the FONSI if the proposed action would be located in a floodplain or wetland. E.O. 11988, Sec. 2(a)(4); E.O. 11990, Sec. 2(b).

38. Q. Must (EAs) and FONSIs be made public? If so, how should this be done?

A. Yes, they must be available to the public. Section 1506.6 requires agencies to involve the public in implementing their NEPA procedures, and this includes public involvement in the preparation of EAs and FONSIs. These are public "environmental documents" under Section 1506.6(b), and, therefore, agencies must give public notice of their availability. A combination of methods may be used to give notice, and the methods should be tailored to the needs of particular cases. Thus, a **Federal Register** notice of availability of the documents, coupled with notices in national publications and mailed to interested national groups might be appropriate for proposals that are national in scope. Local newspaper notices may be more appropriate for regional or site-specific proposals.

The objective, however, is to notify all interested or affected parties. If this is not being achieved, then the methods should be reevaluated and changed. Repeated failure to reach the interested or affected public would be interpreted as a violation of the regulations.

39. Q. Can an EA and FONSI be used to impose enforceable mitigation measures, monitoring programs, or other requirements, even though there is no requirement in the regulations in such cases for a formal Record of Decision?

A. Yes. In cases where an environmental assessment is the appropriate environmental document, there still may be mitigation measures or alternatives that would be desirable to consider and adopt even though the impacts of the proposal will not be "significant." In such cases, the EA should include a discussion of these measures or alternatives to "assist

agency planning and decisionmaking" and to "aid an agency's compliance with [NEPA] when no environmental impact statement is necessary." Section 1501.3(b), 1506.9(a)(2). The appropriate mitigation measures can be imposed as enforceable permit conditions, or adopted as part of the agency final decision in the same manner mitigation measures are adopted in the formal Record of Decision that is required in EIS cases.

40. Q. If an environmental assessment indicates that the environmental effects of a proposal are significant but that, with mitigation, those effects may be reduced to less than significant levels, may the agency make a finding of no significant impact rather than prepare an EIS? Is that a legitimate function of an EA and scoping?

A. Mitigation measures may be relied upon to make a finding of no significant impact only if they are imposed by statute or regulation, or submitted by an applicant or agency as part of the original proposal. As a general rule, the regulations contemplate that agencies should use a broad approach in defining significance and should not rely on the possibility of mitigation as an excuse to avoid the EIS requirement. Sections 1508.8, 1508.27.

If a proposal appears to have adverse effects which would be significant, and certain mitigation measures are then developed during the scoping or EA stages, the existence of such *possible* mitigation does not obviate the need for an EIS. Therefore, if scoping or the EA identifies certain mitigation possibilities without altering the nature of the overall proposal itself, the agency should continue the EIS process and submit the proposal, and the potential mitigation, for public and agency review and comment. This is essential to ensure that the final decision is based on all the relevant factors and that the full NEPA process will result in enforceable mitigation measures through the Record of Decision.

In some instances, where the proposal itself so integrates mitigation from the beginning that it is impossible to define the proposal without including the mitigation, the agency may then rely on the mitigation measures in determining that the overall effects would not be significant (e.g., where an application for a permit for a small hydro dam is based on a binding commitment to build fish ladders, to permit adequate down stream flow, and to replace any lost wetlands, wildlife habitat and recreational potential). In those instances, agencies should make the FONSI and EA available for 30 days of public comment before taking action. Section 1501.4(e)(2).

Similarly, scoping may result in a redefinition of the entire project, as a result of mitigation proposals. In that case, the agency may alter its previous decision to do an EIS, as long as the agency or applicant resubmits the entire proposal and the EA and FONSI are available for 30 days of review and comment. One example of this would be where the size and location of a proposed industrial park are changed to avoid affecting a nearby wetland area.

BILLING CODE 3125-01-M

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

49 CFR Part 531

[Docket No. LVM 77-05; Notice 5]

Passenger Automobile Average Fuel Economy Standards; Exemption From Average Fuel Economy Standards

AGENCY: National Highway Traffic Safety Administration, Department of Transportation.

ACTION: Final decision to grant exemption from fuel economy standards.

SUMMARY: This notice exempts Excalibur Automobile Corporation (Excalibur) from the generally applicable average fuel economy standards of 19.0 miles per gallon (mpg) and 20.0 mpg for 1979 and 1980 model year passenger automobiles, respectively, and establishes alternative standards. The alternative standards are 11.5 mpg in the 1979 model year and 16.2 mpg in the 1980 model year.

DATES: The exemptions and alternative standards set forth in this notice apply in the 1979 and 1980 model years.

FOR FURTHER INFORMATION CONTACT: Robert Mercure, Office of Automotive Fuel Economy Standards, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, D.C. 20590 (202-755-9384).

SUPPLEMENTARY INFORMATION: The National Highway Traffic Safety Administration (NHTSA) is exempting Excalibur from the generally applicable average fuel economy standards for the 1979 and 1980 model year and establishing alternative standards applicable to that company in those model years. This exemption is issued under the authority of section 502(c) of the Motor Vehicle Information and Cost Savings Act, as amended (the Act) (15 U.S.C. 2002(c)). Section 502(c) provides that a manufacturer of passenger automobiles that manufactures fewer than 10,000 passenger automobiles annually may be exempted from the generally applicable average fuel economy standard for a particular model year if that standard is greater than the low volume manufacturer's maximum feasible average fuel economy and if the NHTSA establishes an alternative standard applicable to that manufacturer at the low volume manufacturer's maximum feasible average fuel economy. Section 502(e) of the Act (15 U.S.C. 2002(e)) requires the NHTSA to consider:

(1) Technological feasibility;

(2) Economic practicability;

(3) The effect of other Federal motor vehicle standards on fuel economy; and

(4) The need of the Nation to conserve energy.

This final rule was preceded by a notice announcing the NHTSA's proposed decision to grant an exemption to Excalibur for the 1979 and 1980 model years (45 FR 50640, July 31, 1980). No comments were received during the 45-day comment period.

Based on its conclusions that it is not technologically feasible and economically practicable for Excalibur to improve the fuel economy of its 1979 and 1980 model year automobiles above an average of 11.5 and 16.2 mpg, respectively, that other Federal automobile standards did not affect achievable fuel economy beyond the extent considered in this analysis, and that the national effort to conserve energy will be negligibly affected by the granting of the requested exemptions, this agency concludes that the maximum feasible average fuel economy for Excalibur in the 1979 and 1980 model years is 11.5 mpg and 16.2 mpg, respectively. Therefore, NHTSA is exempting Excalibur from the generally applicable standards and is establishing alternative standards of 11.5 mpg for the 1979 model year and 16.2 mpg for the 1980 model year.

In consideration of the foregoing, 49 CFR Part 531 is amended by revising § 531.5(b)(5) to read as follows:

§ 531.5 Fuel economy standards.

* * * * *

(b) The following manufacturers shall comply with the fuel economy standards indicated below for the specified model years:

* * * * *

(5) Excalibur Automobile Corporation.

Model year	Average[1]
1978	11.5
1979	11.5
1980	16.2

[1] Average fuel economy standard (miles per gallon).

* * * * *

The program official and attorney principally responsible for the development of this decision are Robert Mercure and Stephen Kratzke, respectively.

Proposed Rules

Federal Register
Vol. 46, No. 56
Monday, March 23, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 982

Filberts Grown in Oregon and Washington; Decision and Referendum Order on Proposed Further Amendment of the Marketing Agreement and Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This decision proposes an amendment of the filbert marketing agreement and order program, and provides filbert producers the opportunity to vote in a referendum on the proposed amendment. The proposed amendment would change the method for adopting and implementing the marketing policy and volume regulation. Other changes include a definition of the new term "marketing year," setting new beginning and ending dates for that year which would change some marketing order operations, and renaming the Board which works with AMS in administering the program. The main purpose of the proposed amendment is to improve the operation and effectiveness of the program.

DATE: The representative period for purposes of the referendum herein ordered is August 1, 1979, through July 31, 1980.

FOR FURTHER INFORMATION CONTACT: J. S. Miller, Chief, Specialty Crops Branch, Fruit and Vegetable Division, AMS, USDA, Washington, D.C. 20250, (202) 447-5697. An impact statement relative to this action is available on request from J. S. Miller.

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding: Notice of Hearing—Issued June 18, 1980, and published June 24, 1980 (45 FR 42315).

Notice of Recommended Decision—Issued January 7, 1981, and published January 12, 1981 (46 FR 2622).

This administrative action is governed by the provisions of Sections 556 and 557 of Title 5 of the United States Code, and therefore, is excluded from the requirements of Executive Order 12291.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would result in only minimal costs being incurred by the regulated nine handlers.

Preliminary Statement. This proposed amendment was formulated on the record of a public hearing held at Portland, Oregon, July 9, 1980. Notice of the hearing was published in the June 24, 1980, issue of the **Federal Register** (45 FR 42315). The notice contained proposals submitted by the Filbert Control Board. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900).

On the basis of the evidence introduced at the hearing and the record thereof, Deputy Administrator Manley, on January 7, 1981, filed with the Hearing Clerk, U.S. Department of Agriculture, a recommended decision which contained notice of the opportunity to file by January 30, 1981, written exceptions thereto. One exception was filed by Larry L. Holden, General Manager of the Oregon Division of the Robert L. Berner Company. The Berner Company is a handler under the filbert marketing agreement and order program.

Findings and Conclusions. The material issues, findings and conclusions, rulings, general findings, and regulatory provisions of the recommended decision published in the January 12, 1981, issue of the **Federal Register** (46 FR 2622) are hereby incorporated herein and made a part hereof subject to the following modifications and corrections:

In Material Issue (1)(a), 13 new paragraphs are added after the fourth paragraph as follows:

"The exceptor was against changing the marketing policy year to May 1 through April 30, and beginning the 1981–82 marketing policy year on May 1, 1981."

"The exceptor's main objection to beginning the 1981–82 marketing policy year on May 1, 1981, was a matter of preparation. The exceptor stated that shortening the current 1980–81 marketing policy year by three months from July 31, 1981, to April 30, 1981, would not give handlers adequate notice to plan their processing, shelling, and marketing operations, and that Berner Company has been operating as if the current marketing year would end July 31, not April 30."

"The provisions of the proposed order amendment, including the proposed change in the marketing policy year, are well known to handlers of filberts grown in the production area. Considerable effort was made by the Department to bring the hearing to the attention of all handlers, producers, and others. The hearing on the proposed amendment began July 9, 1980, at Portland, Oregon. A pre-notice press release announcing the proposed order amendment and inviting public comment was released April 9, 1980. A notice of hearing was published in the **Federal Register** June 24, 1980, in accordance with the Department's Rules of Practice and Procedure Governing Proceedings to Formulate Marketing Agreements and Marketing Orders (7 CFR Part 900). A copy of this notice was mailed to all known handlers, producers, and to the Governors of the States of Oregon and Washington. Press releases concerning the proceeding were issued and made available to the media. The intent of the extensive notification process was to give all interested persons, including handlers, as much notice as possible, that the current 1980–81 marketing policy year might end April 30, not July 31, and afford them opportunity to respond."

"No opposition to changing the beginning of the marketing policy year to May 1 was presented as a result of the prenotice press release and at the hearing, and no briefs containing proposed findings and conclusions were submitted after the hearing opposing the proposed change in the marketing policy year. The result is a compilation of evidence which provides a basis to change the beginning of the marketing policy year to May 1."

"Up to the time of the exception, there appeared to be no opposition to changing the beginning of the marketing policy year from August 1 to May 1, and it appeared that all of the handlers were planning their operations accordingly.

However, as discussed in Material Issue (7), there could be some inequities as a result of this change with respect to the last date handlers can defer temporarily their 1980–81 marketing policy year withholding obligations. For the reasons discussed in that Material Issue, the last date for deferments during the current 1980–81 marketing policy year should continue to be April 30, 1981. Hence, the marketing policy year change should have no impact on handlers meeting their 1980–81 withholding obligations."

"The exceptor agreed with those findings and conclusions of the recommended decision that excessive supplies of inshell filberts carried over into the new marketing policy year have resulted in price weakness in that year but cautioned that beginning the marketing policy year May 1 would actually tend to increase the amount of inshell filberts carried over into the next year and thereby act contrary to the declared policy of the order. The purpose of the order is to establish and maintain orderly marketing conditions."

"The main cause of the excessive inshell filbert carryovers in the last few seasons has been ineffective marketing policies which caused market uncertainty. That is, buyers purchased only enough filberts to cover their immediate needs in anticipation of later price reductions. This action has been reinforced because handlers have in fact reduced prices following the peak shipping season in six of the last ten years in order to sell excessive supplies and avoid the high costs associated with carrying the supplies until August 1."

"As discussed in Material Issue (5), the recommended change in setting marketing policy is intended to provide filbert growers and handlers with a marketing policy mechanism which will reduce the risk of underestimated crops and overly optimistic trade demand estimates. In other words, a marketing policy which will contribute toward the establishment and maintenance of orderly marketing conditions and fair returns for growers, handlers, and reasonable prices to consumers."

"The change to a marketing policy year beginning May 1 is intended to reinforce the recommended change in the method of setting marketing policy. As indicated previously, the proposed marketing policy year change would encourage handlers to shell or export filberts not needed for the inshell market earlier and avoid the cost of carrying excessive inventory until August 1. It will also reduce the chances of excessive carryovers burdening the next crop."

"Under the current August 1–July 31 marketing policy year some handlers have shelled or exported inshell filberts during the months of May, June, and July. These are outlets eligible for the disposition of restricted filberts. However, as the exceptor pointed out, these dispositions generally were in excess of any withholding obligation incurred by handlers during that year. Under the proposed marketing policy year, these dispositions would occur early in the year before the peak inshell shipping season and credit for the disposition in restricted outlets would be available for use if volume regulations were established later for that marketing policy year. Thus, the chances that some handlers would lower prices during January through April would be lessened as would late year inventory buildups which burden new crop sales."

"While changing the beginning date of the marketing policy year to May 1 will reflect current industry marketing operations, the fact that changes may occur which would necessitate a different period of operation has been recognized. Authority to make such a needed change by informal rulemaking has been retained, and any needed changes in the date could be made in a timely fashion."

"Also, a marketing policy year beginning May 1 gives handlers additional time to plan their marketing strategies for the new crop. Since inshell filberts have a limited domestic market of short duration, a well formulated marketing plan is very critical."

"In view of all the foregoing, the exceptor's request to retain the August 1–July 31 marketing policy year, is denied."

The first and second sentences of the fourth paragraph of Material Issue (1)(a) are removed and replaced with the following sentence: "May 1 should be selected initially for the beginning of the marketing policy year because handlers generally have completed processing by May 1, and most have satisfied their withholding obligations by then." The deleted sentences referred to an inventory tax which has been abolished.

In Material Issue (3), two new paragraphs are added after paragraph (4) as follows:

"The exceptor pointed out that because § 982.32(e) would require nominations for Board membership to be submitted at least 60 days prior to the beginning of the marketing year, the order would have to be amended by February 28, for this deadline to be met. Because of time limitations and equity considerations, the earliest the order can be amended is May 1, 1981. Therefore, the nominations of the members and alternate members whose terms would begin May 1, 1981, should be submitted as soon as practicable following the beginning of the marketing year and paragraph (e) is revised accordingly."

"Moreover, it is not likely that the new Board will be selected and organized for some time after May 1. Therefore, § 982.32(f) should be revised so that the Board can submit its nominations for public and alternate public members for the term of office beginning May 1, 1981, as soon as practicable following the beginning of the marketing year. This change would give the newly selected Board the time it needs to find qualified persons interested in serving as public and alternate public members."

In Material Issue (7), a new paragraph is added after paragraph (2) as follows:

"The exceptor pointed out that a marketing year beginning May 1, 1981, would require handlers to meet their 1980–81 withholding obligations by February 28, 1981. For the 1980–81 marketing policy year, the deadline date should be April 30, 1981. Under the current order, handlers could have deferred temporarily their 1980–81 withholding obligations until April 30, 1981. Consequently, some handlers may have posted bonds maturing on April 30, 1981, as a surety that they will have satisfied fully their 1980–81 withholding obligations by that date. Thus, it would be inequitable to require handlers to satisfy their 1980–81 marketing policy year obligations earlier than April 30, 1981, especially since the earliest any order amendment resulting from the hearing could be effectuated would be May 1, 1981. Paragraph (a) is revised accordingly."

In addition, the following amendments correcting and clarifying the recommended decision and order are made:

Page	Column	Paragraph	Line	Correction
2622	2	9	1	Insert "in" after "specified".
2623	1	3	21	Change "revised" to "amended".
2623	2	3	10	Change "demonstrates" to "indicates".
2623	2	3	11	Change "purposes" to "purpose".
2624	3	2	21	Delete "and" and add a period after "prices".
2624	3	2	22	Change "the" to "The".
2625	2	3	10	Change "that" to "such".
2625	3	.....	16	Change "carrying" to "carryin".
2626	2	1	22	Change "handles" to "handled".
2626	1	5	1	Insert "public" before "member".
2626	2	.....	18	Change "presentation" to "representation".
2626	2	3	1	Change "any" to "no".
2626	2	3	2	Delete "not".
2626	2	3	3	Delete "direct".

Page	Column	Paragraph	Line	Correction
2628	3	3	5	Change "That" to "The"
2628	3	3	8	Delete "be" and "to"
2628	3	3	12	Insert "more representative" before "prior"
2629	1	6	4	Insert "to the Secretary" after "thereof"

Another correction is needed on page 2623, column 2, paragraph 5. That paragraph should be changed to read as follows: "So that the "public member" would be truly representative of the public and represent its views, that member should not have any financial interest in the growing or handling of filberts. A "public member" should not have any business dealing with any handler or grower and should not receive any remuneration directly from a grower or handler. For example, this would preclude a banker making loans to filbert growers or handlers from serving as a "public member", but would not disqualify University personnel receiving grants for studies of agricultural products from serving in this capacity. This qualification should be added as a new paragraph (b) in § 982.34. Paragraph (b) should provide that no person nominated to serve as a public member or alternate shall have a financial interest in any filbert growing or handling operation."

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, the exception to the recommended decision was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with the exception, such exception is hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement, as Amended, Regulating the Handling of Filberts Grown in Oregon and Washington", and "Order Amending the Order, as Amended, Regulating the Handling of Filberts Grown in Oregon and Washington", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the annexed marketing agreement, be published in the **Federal Register**. The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the annexed order which is published with this decision.

Referendum order. It is hereby directed that a referendum be conducted in accordance with the procedure for the conduct of referenda (7 CFR 900.400 *et seq.*), to determine whether the issuance of the annexed order as amended and as hereby proposed to be further amended, regulating the handling of filberts grown in Oregon and Washington, is approved or favored by producers, as defined under the terms of the order, who during the representative period were engaged in the production area in the production of the regulated commodity for market.

The representative period for the conduct of such referendum is hereby determined to be August 1, 1979, through July 31, 1980.

The agents of the Secretary to conduct such referendum are hereby designated to be Joseph C. Perrin, Dennis West, and J. S. Miller, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture.

Signed at Washington, D.C. on March 18, 1981.

C. W. McMillan,

Assistant Secretary for Marketing and Transportation Services.

ORDER [1] AMENDING THE ORDER, AS AMENDED, REGULATING THE HANDING OF FILBERTS GROWN IN OREGON AND WASHINGTON

Findings and determinations. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed amendment of the marketing agreement, as amended, and Order No. 982, as amended (7 CFR Part 982), regulating the handling of filberts grown in Oregon and Washington.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

Upon the basis of the record it is found that:

(1) The order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The order, as amended, and as hereby further amended, regulates the handling of filberts grown in the production area in the same manner as, and is applicable only to persons in the respective classes of commercial and industrial activity specified in, the marketing agreement and order upon which hearings have been held;

(3) The order, as amended, and as hereby further amended, is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) There are no differences in the production and marketing of filberts grown in the production area which make necessary different terms and provisions applicable to different parts of such area; and

(5) All handling of filberts grown in the production area is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

Order Relative to Handling

It is therefore ordered, That on and after the effective date hereof, the handling of filberts grown in Oregon and Washington shall be in conformity to and in compliance with the following terms and conditions of the order, as hereby amended.

Except for the previously noted corrections and modifications, the provisions of the proposed marketing agreement and order, amending the order, contained in the recommended decision issued by the Deputy Administrator on January 7, 1981, and published in the **Federal Register** on January 12, 1981 (46 FR 2022), shall be and are the terms and provisions of this order, amending the order, and are set forth in full herein.

1. The title of the order is revised to read as follows:

PART 982—FILBERTS/HAZELNUTS GROWN IN OREGON AND WASHINGTON

2. Section 982.17 is revised to read as follows:

§ 982.17 Marketing year.

"Marketing year" means the 12 months from May 1 to the following April 30, both inclusive, or such other period of time as may be recommended by the Board and established by the Secretary.

§§ 982.1-982.68 [Nomenclature change.]

3. The terms "marketing policy year" and "fiscal year" are changed in "marketing year" wherever they appear in §§ 982.1 through 982.68.

4. Section 982.18 is revised to read as follows:

§ 982.18 Board.

"Board" means the Filbert/Hazelnut Marketing Board established pursuant to § 982.30.

5. Section 982.19 is redesignated § 982.20 and a new § 982.19 is added to read as follows:

§ 982.19 Disappearance.

"Disappearance" means the difference between orchard-run production and the available supply of merchantable filberts and merchantable equivalent of shelled filberts.

§ 982.20 [Renumbered from § 982.19]

6. Section 982.30(g) is revised to read as follows:

§ 982.30 Establishment and membership.

* * * * *

(g) One public member who is neither a grower nor a handler.

7. Section 982.32 (e) and (f) are revised to read as follows:

§ 982.32 Nomination.

* * * * *

(e) All votes cast by cooperative handlers, independent handlers, or for cooperative growers, shall be weighted according to the tonnage of certified merchantable filberts and, when shelled filbert grade and size regulations are in effect, the inshell equivalent of certified shelled filberts (computed to the nearest whole ton) recorded by the Board as handled by each such handler or cooperative grower group during the preceding marketing year and if less than one ton is recorded for any such handler or cooperative grower group, the vote shall be weighted as one vote. All votes cast by independent growers shall be given equal weight. Nominations received in the foregoing manner by the Board shall be reported to the Secretary at least 60 days prior to the beginning of each marketing year, together with a certificate of all necessary data and other information deemed by the Board to be pertinent or requested by the Secretary: *Provided,* That the nominations of the persons who would serve for terms beginning May 1, 1981, together with such certificate and other information, shall be reported as soon as practicable after May 1. If such nominations of any group are not submitted to the Secretary by that time, the Secretary may select the representatives of that group without nomination.

(f) Nominees for the public member and alternate member positions specified in § 982.30(g) shall be chosen by the other eight members who are to serve on the Board during the ensuing marketing year. If nominations for such member or alternate are not submitted within 30 days after the beginning of the marketing year, the Secretary may select such member or alternate without nomination: *Provided,* That the nominations for such member and alternate member whose terms would begin May 1, 1981, shall be submitted as soon as practicable after May 1.

* * * * *

8. Section 982.33(b)(1) is revised to read as follows:

§ 982.33 Selection and term of office.

* * * * *

(b) *Term of office.* (1) The term of office of each member and alternate member shall be two marketing years from the beginning of the marketing year, except that (i) the terms of office of one of the grower members and the member's alternate specified in § 982.30 (a) and (b) shall expire at the end of the first even numbered marketing year following the year of selection, and the terms of office of all other members and alternate members shall expire at the end of the first odd-numbered marketing year following the year of selection; (ii) if the representation on the Board in an ensuing marketing year will, by reason of change in representation pursuant to § 982.30 (c) and (f), be different from that in the current marketing year, the terms of office of all grower and handler members and alternate members shall expire at the end of the current marketing year and successor members and alternate members shall be nominated and selected in conformance with §§ 982.30 and 982.33; (iii) if the districts for independent grower representation in an ensuing marketing year will be different from that in the current marketing year, the terms of office of all independent grower members and alternate members specified in § 982.30 (e) and (f) shall expire at the end of the current marketing year, and persons nominated to succeed them shall be nominated and selected so as to conform with such changed representation.

* * * * *

9. Section § 982.34 is revised to read as follows:

§ 982.34 Qualification.

(a) Any person selected to serve as a member or an alternate member of the Board shall qualify by filing with the Secretary a written acceptance of appointment. Any member or alternate member who at the time of selection was a member or employed by a member of the group which nominated that person shall, upon ceasing to be such a member or employee, become disqualified to serve further and that position on the Board shall be deemed vacant. In the event any member or alternate member of the Board qualified and selected, in accordance with the provisions of §§ 982.30 and 982.32, to represent independent growers should during that person's term of office handle filberts produced by other growers or become an employee of a handler, that position on the Board shall thereupon be deemed to be vacant.

(b) No person nominated to serve as a public member or alternate shall have a direct financial interest in any filbert growing or handling operation.

10. Section 982.39(f) is revised to read as follows:

§ 982.39 Duties.

* * * * *

(f) To cause the books of the Board to be audited by one or more public accountants approved by the Board at least once for each marketing year and at such other times as the Board deems necessary or as the Secretary may request, and to file with the Secretary reports of all audits made;

* * * * *

11. Section 982.40 is revised to read as follows:

§ 982.40 Marketing policy and volume regulation.

(a) *General.* As provided in this section, for each marketing year the Board may hold meetings for the purpose of computing its marketing policy for that year and shall do so for the purpose of submitting any recommendations on its policy to the Secretary. The Board may designate one of its employees to compute and announce the preliminary computed and final computed free and restricted percentages.

(b) *Trade demand.* Prior to August of a marketing year, the Board shall recommend establishment of an inshell trade demand for that year to the

Secretary. The inshell trade demand shall equal the average of the trade acquisitions of inshell filberts during the preceding three years. If the trade acquisitions during any one or all of those years was abnormally low because of crop conditions, the Board may use more representative prior year or years in determining the three-year average. If the Secretary finds, on the basis of the Board's recommendation or other information that limiting the quantity of merchantable filberts which may be handled during a marketing year through application of the free and restricted percentages to that trade demand as provided in paragraph (c) of this section would tend to effectuate the declared policy of the act, the Secretary shall establish that trade demand.

(c) *Inshell allocation*—(1) *Preliminary computed percentages.* Prior to September 20 of that marketing year, the Board shall compute and announce preliminary computed free and restricted percentages for that year, to release 70 percent of the inshell trade demand computed for that year. The preliminary computed free percentage shall be computed by multiplying that trade demand, adjusted by the declared carryin, by 70 percent and dividing by the most recent official estimate of orchard-run production less the average disappearance during the preceding three years, plus the undeclared carryin. The difference between 100 percent and the preliminary free percentage shall be the preliminary computed restricted percentage.

(2) *Final computed percentages.* The Board upon determining that a firm field price has been established for filberts for that marketing year shall compute and announce final computed free and restricted percentages for that year, to release 80 percent of the inshell trade demand computed for that year. The final computed free percentage shall be computed by multiplying that trade demand, adjusted by the declared carryin, by 80 percent and dividing by the most recent official estimate of orchard-run production less the average disappearance during the preceding three years plus the undeclared carryin. The difference between 100 percent and the final computed free percentage shall be the final computed restricted percentage.

(3) *Final percentages.* On or before November 15 the Board shall meet to recommend to the Secretary the final free and restricted percentages to release 100 percent or up to 110 percent if market conditions justify of the inshell trade demand previously established by the Secretary for the marketing year. The recommendation shall include the following:

(i) The estimated tonnage of merchantable filberts expected to be produced during the marketing year.

(ii) The estimated tonnage of inshell filberts held by handlers on the first day of the marketing year which may be available for handling as inshell filberts thereafter.

(iii) Any other pertinent factors bearing on the marketing of filberts during the marketing year.

Whenever the Secretary finds, on the basis of the recommendation of the Board or other available information that to establish the final free and restricted percentages would tend to effectuate the declared policy of the act, the Secretary shall establish such percentages.

(d) *Grade and size regulations.* Prior to September 20 the Board may consider grade and size regulations in effect and may recommend modifications thereof to the Secretary.

(e) *Revision of marketing policy.* At any time prior to February 15 of the marketing year the Board may recommend to the Secretary revisions in the marketing policy for that year: *Provided,* That in no event shall any revision result in free and restricted percentages which would release more than 110 percent of the inshell trade demand computed for that marketing year. At any time during the period December 1 through February 10 at the request of two or more handlers who during the preceding marketing year handled at least 10 percent of all filberts handled the Board shall meet to determine whether the marketing policy should be revised.

12. Section 982.41 is revised to read as follows:

982.41 Free and restricted percentages.

The free and restricted percentages computed by the Board or established by the Secretary pursuant to § 982.40, shall apply to all merchantable filberts handled during the current marketing year. Until the preliminary or final computed free and restricted percentages are computed by the Board for the current marketing year, the percentages in effect at the end of the previous marketing year shall be applicable.

§ 982.50 [Amended]

13. Sections 982.50(a)(1) and (d) are amended by adding the word "applicable" before the words "free percentage" and "reserve percentage" wherever they appear.

14. Sections 982.54(a) and (c) are revised to read as follows:

§ 982.54. Deferment of restricted obligation.

(a) *Bonding.* Compliance by any handler with the requirements of § 982.50 as to the time when restricted filberts shall be withheld shall be temporarily deferred to any date required by the handler, but not later than 60 days prior to the end of the marketing year, upon the voluntary execution and delivery by such handler to the Board before handling any merchantable filberts of such marketing year of a written undertaking secured by a bond or bonds with a surety or sureties acceptable to the Board that on or prior to such date the handler will have fully satisfied the restricted obligation required by § 982.50: *Provided,* That for the marketing period August 1, 1980, through April 30, 1981, compliance with any restricted obligation may be deferred to April 30, 1981.

* * * * *

(c) *Bonding rate.* Said bonding rate for each pack shall be an amount per pound representing the season's domestic price for such pack net to handler f.o.b. shipping point which shall be computed at the opening price for such pack announced by the handler or handlers who during the preceding marketing year handled more than 50 percent of the total volume handled. If such opening prices involve different prices announced by two or more handlers for respective packs the price so announced shall be averaged on the basis of the quantity of such packs handled during the preceding marketing year by each such handler. Until bonding rates for a marketing year are fixed the rates in effect for the preceding marketing year shall continue in effect, and when such new rates are fixed necessary adjustments should be made.

* * * * *

15. Section 982.62(a) and (b) are revised to read as follows:

§ 982.62 Accounting.

(a) *Operating reserve.* The Board with the approval of the Secretary may establish and maintain an operating monetary reserve in an amount not to exceed approximately one marketing year's operational expenses or such lower limits as the Board with the approval of the Secretary may establish.

(b) *Refunds.* At the end of a marketing year funds in excess of the marketing

year's expenses and reserve requirements shall be refunded to handlers from whom collected and each handler's share of such excess funds shall be the amount of assessments the handler paid in excess of the handler's pro rata share of expenses of the Board. However, excess funds may be maintained and used by the Board until December 1 following the end of any such marketing year: *Provided,* That the Board shall refund to each handler upon request, or credit to the handler's account with the Board, the handler's share of such excess prior to January 1.

* * * * *

16. Section 982.65 is revised to read as follows:

§ 982.65 Carryover reports.

As of January 1, May 1, and August 1, or such other dates as the Board may recommend and the Secretary approve, each handler shall report within 10 days to the Board the handler's inventory of inshell and shelled filberts. Such reports shall be certified to the Board and the Secretary as to their accuracy and completeness and shall show, among other items, the following: (a) Certified merchantable filberts on which the restricted obligation has been met; (b) merchantable filberts on which the restricted obligation has not been met; (c) the merchantable equivalent of any filberts intended for handling as inshell filberts; and (d) restricted filberts withheld.

17. Section 982.66(b)(3) is revised to read as follows:

§ 982.66 Effective time, termination or suspension.

* * * * *

(b) *Suspension or termination.* * * *

(3) The Secretary shall terminate the provisions of this subpart at the end of any marketing year whenever the Secretary finds that such termination is favored by a majority of the producers of filberts who during the preceding marketing year have been engaged in the production for marketing of filberts in the States of Oregon and Washington: *Provided,* That such majority have during such period produced for market more than 50 percent of the volume of such filberts produced for market within said States; but such termination shall be effected only if announced 30 days or more before the end of the then current marketing year.

* * * * *

BILLING CODE 3410-02-M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 50

Licensing Requirements for Pending Construction Permit and Manufacturing License Applications

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The Nuclear Regulatory Commission is proposing to add to its power reactor safety regulations a set of licensing requirements applicable only to construction permit and manufacturing license applications pending at the effective date of the rule. The requirements stem from the Commission's ongoing effort to apply the lessons learned from the accident at Three Mile Island to power plant licensing. Each applicant covered by the rule would have to meet these requirements, together with the existing regulations, in order to obtain a permit or license. Comments are particularly sought on whether the rule should be applied to the pending manufacturing license application.

DATES: Comments must be received on or before April 13, 1981.

ADDRESSES: Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

FOR FURTHER INFORMATION CONTACT: Robert A. Purple, Deputy Director, Division of Licensing, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone: 301-492-7980.

SUPPLEMENTARY INFORMATION:

Background of the Rulemaking

The events leading up to the issuance of this proposed rule were discussed in detail in the Notice of Proposed Rulemaking, which appeared in the Federal Register on October 2, 1980, at pages 65247-65248. In that notice the Commission reviewed some of the actions it had already taken in response to the accident at Three Mile Island, and outlined the options it was considering in regard to the review of construction permit and manufacturing license applications. The Commission proposed to resume licensing using pre-TMI requirements augmented as necessary by selected new requirements from the Commission's TMI Action Plan, NUREG-0660. In connection with a request for public comments on these new requirements, the Commission noted that final rules might be issued on some or all of the matters discussed in that notice.

The Commission held a series of meetings regarding this proposed rule in January, February, and March of 1981. At its March 12 meeting the Commission decided that a further brief period of public comment was desirable prior to promulgation of a final rule to ensure that all interested persons have an opportunity ot review the contents of the proposed rule and, in particular, have the opportunity to comment on the applicability of the proposed rule to the pending manufacturing license application.

Justification of 20-day Comment Period

As stated above, a Notice of Proposed Rulemaking has already been published and comments have been received and analyzed. In addition, the Commission wishes to issue a final rule at the earliest possible date. The Commission has therefore concluded that a 20-day comment period is appropriate at this time. It is not expected that extensions will be granted since the Commission intends to act on a final rule soon after close of the comment period.

Comments on Inclusion of the Manufacturing License Application

While the Commission will review all aspects of comments received in response to this notice, the Commission particularly desires comment on whether or not the pending manufacturing license application, filed by Offshore Power Systems, Inc., should be covered by the proposed rule. At issue is whether the rule's requirements for the capacity of containments to withstand the effects of accident-generated hydrogen are sufficient when applied to floating nuclear power plants. (Refer to subsection (3)(v) of the proposed rule.)

Subetance of the Rule

This rule, which has been drawn from NUREG-0718, Licensing Requirements for Pending Applications for Construction Permits and Manufacturing License, March 1981, imposes new safety requirements on pending construction permit and manufacturing license applications. The Commission has determined that these requirements must be met by all applicants for construction permits or manufacturing licenses whose applications are pending as of the effective date of the rule. It should be noted, however, that there are some elements in the TMI Action Plan (NUREG-0660), not included in NUREG-0718, that have not yet been acted upon by the Commission. These are items that

the Commission has directed be subject to further study before taking approval action. It is possible, therefore, that some of these items will be approved for implementation prior to completion of the licensing review of the pending construction permits or manufacturing license. In that event, such items might be added to this rule. The Commission is aware, however, that the applications covered by this rule have already been substantially delayed and the facility designs may be further advanced than normally expected at the construction permit and manufacturing license review stage. The Commission will take this into account as further requirements are considered. Full opportunity for public comment will be provided if additional requirements are contemplated which would apply to these applications.

While this rule contains the basic requirements set out in NUREG–0718, it does not incorporate the entirety of the document. In particular, the rule does not contain the detailed criteria contained in Appendix B to NUREG–0718, for satisfying many of the requirements. To have included such detail would have resulted in a rule that would be excessively detailed and restrictive. In addition, this rule does not identify, as does NUREG–0718, the items from the TMI–2 Action Plan, NUREG–0660, that are considered either not applicable to pending construction permit and manufacturing license applications, or to be requirements of the type customarily left for the operating license stage. However, the Commission has reviewed NUREG–0718, and has concluded that the list of TMI-related requirements contained therein can provide a baiss for responding to the TMI–2 accident. Applicants may, of course, propose to satisfy the rule's requirements by a method other than that detailed in NUREG–0718, but in such cases must provide a basis for determining that the requirements of the rule have been met.

Based upon its extensive review and consideration of the issues arising as a result of the Three Mile Island accident, the Commission has decided that pending applications for a construction permit or manufacturing license should be measured by the NRC staff and Presiding Officers in adjudicatory proceedings against the existing regulations, as augmented by this rule. It is the Commission's view that this new rule, together with the existing regulations, form a set of regulations, conformance with which meets the requirements of the Commission for issuance of a construction permit or manufacturing license.

Some of the proposed rule's provisions deal with studies to be conducted by the license applicants. The Commission intends to impose license conditions upon all permits and licenses covered by this rule which will require submittal of these studies to the NRC for review and appropriate action. The license conditions will specify due dates or may require that studies be submitted prior to hardware procurement or other construction events.

Regulatory Flexibility Statement

In accordance with the Regulatory Flexibility Act of 1980, 5 U.S.C. 605(b), the Commission hereby certifies that this rule will not, if promulgated, have a significant impact on a substantial number of small entities. This proposed rule affects six applicants for construction permits and one applicant for a manufacturing license. These applications are for permits or a license for plants that do not fall within the scope of the definition of "small entities" set forth in the Regulatory Flexibility Act in the Small Business Size Standards set out in regulations issued by the Small Business Administration at 13 CFR Part 121.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and Section 552 and 553 of Title 5 of the United States Code, the Commission proposes to amend Part 50 of Chapter 1, Title 10 of the Code of Federal Regulations as follows:

1. A new paragraph (e) is added to § 50.34 to read as follows:

§ 50.34 Contents of applications; technical information.

. . . . . .

(e) *Additional TMI-related requirements.* In addition to the requirements of paragraph (a) of this section, each applicant for a construction permit or manufacturing license whose application was pending as of (insert effective date of rule) shall meet the requirements in the following paragraphs (e) (1) through (3).

(1) To satisfy the following requirements, the application shall provide sufficient information to describe the nature of the studies, how they are to be conducted, estimated submittal dates, and a program to ensure that the results of such studies are factored into the final design:

(i) Perform a plant/site specific probabilistic risk assessment, the aim of which is to seek such improvements in the reliability of core and containment heat removal systems as are significant and practical and do not impact excessively on the plant. (II.B.8)[1]

(ii) Perform an evaluation of the proposed auxiliary feedwater system (AFWS), to include (applicable to PWR's only). (II.E.1.1)

(A) A simplified AFWS reliability analyses using event-tree and fault-tree logic techniques.

(B) A design review of AFWS.

(C) An evaluation of AFWS flow design bases and criteria.

(iii) Perform an evaluation of the potential for an impact of reactor coolant pump seal damage following small-break LOCA with loss of offsite power. If damage cannot be precluded, provide an analysis of the limiting small-break loss-of-coolant accident with subsequent reactor coolant pump seal damage. (II.K.2.16 and II.K.3.25)

(iv) Perform an analysis of the probability of a small-break loss-of-coolant accident (LOCA) caused by a stuck-open power-operated relief valve (PORV). If this probability is a significant contributor to small-break LOCA's from all causes, provide an evaluation of the effect of an automatic PORV isolation system that would operate when the reactor coolant system pressure falls after the PORV has opened (Applicable to PWR's only.) (II.K.3.2)

(v) Perform an evaluation of the safety effectiveness of providing for separation of high pressure coolant injection (HPCI) and reactor core isolation cooling (RCIC) system initiation levels so that the RCIC system initiates at a higher water level than the HPCI system, and of providing that both systems restart on low water level. (Applicable to BWR's only.) (II.K.3.13)

(vi) Perform a study to identify practicable system modifications that would reduce challenges and failures of relief valves, without compromising the performance of the valves or other systems. (Applicable to BWR's only.) (II.K.3.16)

(vii) Perform a feasibility and risk assessment study to determine the optimum automatic depressurization system (ADS) modifications that would eliminate the need for manual activation to ensure adequate core cooling. (Applicable to BWR's only.) (II.K.3.18)

(viii) Perform a study of the effect of designing the core spray and low pressure coolant injection systems so that they will automatically restart on loss of water level, after having been

[1] Alphanumeric designations correspond to the related action plan items in NUREG 0718 and NUREG 0660, "NRC Action Plan Developed as a Result of the TMI–2 Accident." They are provided herein for information only.

manually stopped, if an initiation signal is still present. (Applicable to BWR's only.) (II.K.3.21)

(ix) Perform a study to determine the need for space cooling for the long-term operation of the reactor core isolation cooling (RCIC) and high-pressure coolant injection (HPCI) systems, to verify the acceptability of the consequences on these systems of a loss of alternating current power, and to demonstrate that the RCIC and HPCI systems can withstand a loss of off-site power to their support systems, including coolers, for at least two hours. (Applicable to BWR's only.) (II.K.3.24)

(x) Perform a study to ensure that the Automatic Depressurization System, valves, accumulators, and associated equipment and instrumentation will be capable of performing their intended functions during and following an accident situation, taking no credit for non-safety related equipment or instrumentation, and accounting for normal expected air (or nitrogen) leakage through valves. (Applicable to BWR's only.) (II.K.3.28)

(xi) Perform a study to demonstrate that, for anticipated transients combined with the worst single failure, and assuming proper operator actions, the core remains covered or no significant fuel damage results from core uncovery. (Applicable to BWR's only.) (II.K.3.44)

(xii) Provide an evaluation of depressurization methods, other than by full actuation of the automatic depressurization system, that would reduce the possibility of exceeding vessel integrity limits during rapid cooldown. (Applicable to BWR's only.) (II.K.3.45)

(2) To satisfy the following requirements, the application shall provide sufficient information to demonstrate that the required actions will be satisfactorily completed by the operating license stage. This information is of the type customarily required to satisfy 10 CFR 50.35(a)(2) or to address unresolved generic safety issues.

(i) Provide simulator capability that correctly models the control room and includes the capability to simulate small-break LOCA's. (Applicable to construction permit applicants only.) (I.A.4.2)

(ii) Establish a program, to begin during construction and follow into operation, for integrating and expanding current efforts to improve plant procedures. The scope of the program shall include emergency procedures, reliability analyses, human factors engineering, crisis management, operator training, and coordination with INPO and other industry efforts. (I.C.9)

(iii) Provide, for Commission approval, a control room design that applies state-of-the-art human factor principles prior to committing to fabrication or revision of fabricated control room panels and layouts. (I.D.1)

(iv) Provide a plant safety parameter display console that will display to operators a minimum set of parameters defining the safety status of the plant, capable of displaying a full range of important plant parameters and data trends on demand, and capable of indicating when process limits are being approached or exceeded. (I.D.2)

(v) Provide for automatic indication of the bypassed and operable status of safety systems. (I.D.3)

(vi) Provide the capability of venting noncondensible gases from the reactor coolant system, and other systems that may be required to maintain adequate core cooling. Systems to achieve this capability shall be capable of being operated from the control room and their operation shall not lead to an unacceptable increase in the probability of loss-of-coolant accident or an unacceptable challenge to containment integrity. (II.B.1)

(vii) Perform radiation and shielding design reviews of spaces around systems that may, as a result of an accident, contain highly radioactive fluids, and design as necessary to permit adequate access to important areas and to protect safety equipment from the radiation environment. (II.B.2)

(viii) Provide a capability to promptly obtain and analyze reactor coolant and containment atmosphere samples, without radiation exposures to any individual exceeding 5 rem to the whole-body or 75 rem to the extremities. Materials to be analyzed and quantified include certain radionuclides that are indicators of the degree of core damage (e.g., noble gases, iodines and cesiums, and non-volatile isotopes), hydrogen in the containment atmosphere, dissolved gases, chloride, and boron concentrations. (II.B.3)

(ix) Provide a system for hydrogen control capable of handling hydrogen generated by the equivalent of a 100% fuel-clad metal water reactor. (II.B.8)

(x) Provide a test program, and associated model development to qualify reactor coolant system relief and safety valves and, for PWR's, block valves, under expected operating conditions for design-basis transients and accidents, including anticipated-transient-without-scram conditions. (II.D.1)

(xi) Provide direct indication of relief and safety valve position (open or closed) in the control room. (II.D.3)

(xii) Provide automatically and manually initiated safety-grade auxiliary feedwater (AFW) system initiation, provide for safety-grade auxiliary feedwater system flow indication in the control room, and provide an analysis of the effect on containment integrity and return to reactor power of automatic AFW system initiation with a postulated main steam line leak inside containment. (Applicable to PWR's only) (II.E.1.2)

(xiii) Provide pressurizer heater power supply and associated motive and control power interfaces sufficient to establish and maintain natural circulation in hot standby conditions with only onsite power available. (Applicable to PWR's only) (II.E.3.1)

(xiv) Provide containment isolation systems that: (II.E.4.2)

(A) Ensure all non-essential systems are isolated automatically by the containment isolation system,

(B) For each non-essential penetration (except instrument lines), have two isolation barriers in series,

(C) Do not result in reopening of the containment isolation valves on resetting of the isolation signal.

(D) Utilize a containment set point pressure for initiating containment isolation as low as is compatible with normal operation.

(E) Include automatic closing on a safety–grade high radiation signal for all systems that provide an open path to the environs.

(xv) Provide a capability for containment purging/venting designed to minimize purging time consistent with ALARA principles for occupational exposure. Provide and demonstrate high assurance that the purge system will reliably isolate under accident conditions. (II.E.4.4)

(xvi) Establish a design criterion for the allowable number of actuation cycles of the emergency core cooling system and reactor protection system consistent with the expected occurrence rates of severe overcooling events (considering both anticipated transients and accidents). (Applicable to B&W designs only) (II.E.5.1)

(xvii) Design systems so as to reduce primary system sensitivity to transients. (Applicable to B&W designs only). (II.E.5.2)

(xviii) Provide instrumentation to measure: (A) containment pressure, (B) containment water level, (C) containment hydrogen concentration, (D) containment radiation intensity (high level), and (E) noble gas effluents. Provide for continuous sampling of plant gaseous effluents for post-accident releases of radioactive iodines and

particulates, and for onsite capability to analyze and measure these samples. (II.F.1)

(xix) Provide instruments that provide an unambiguous indication of inadequate core cooling, such as primary coolant saturation meters in PWR's, coolant level in the reactor vessel, core exit thermocouples, and core coolant flow rate. (II.F.2)

(xx) Provide instrumentation adequate for monitoring plant conditions following an accident that includes core damage. (II.F.3)

(xxi) Provide power supplies for pressurizer relief valves, block valves, and level indicators such that: (A) level indicators are powered from vital buses; (B) motive and control components are designed to safety-grade criteria; and (C) electric power is provided from emergency power sources. (Applicable to PWR's only) (II.G.1)

(xxii) Design auxiliary heat removal systems such that necessary automatic and manual actions can be taken to ensure proper functioning when the main feedwater system is not operable. (Applicable to BWR's only) (II.K.1.2)

(xxiii) Perform a failure modes and effects analysis of the integrated control system (ICS) to include consideration of failures and effects of input and output signals to the ICS. (Applicable to B&W-designed plants only) (II.K.2.9)

(xxiv) Provide a hard-wired safety grade reactor trip that would be actuated on loss of main feedwater and/or on turbine trip. (Applicable to B&W-designed plants only) (II.K.2.10)

(xxv) Provide complete justification for the use of the type of pressure-operated relief valve (supplied by Control Components, Inc.) that failed during hot functional testing at the McGuire plant, if such use is planned. (Applicable to PWR's only) (II.K.3.11)

(xxvi) Provide capability to record, in one location, on recorders that meet normal post-accident recording requirements, reactor vessel water level over the range from the top of the vessel dome to the lowest pressure tap. (Applicable to BWR's only) (II.K.3.23)

(xxvii) Provide a Technical Support Center, an onsite Operational Support Center, and an Emergency Operations Facility. (III.A.1.2)

(xxviii) Design systems outside containment that contain (or might contain radioactive material either during normal operations or following an accident so that exposure to workers and the public is maintained as low as reasonably achievable. (III.D.1.1)

(xxix) Provide for monitoring of inplant radiation and airborne radioactivity as appropriate for a broad range of routine and emergency conditions. (III.D.3.3)

(xxx) Evaluate potential pathways for radioactivity and radiation that may lead to control room habitability problems, and make necessary design provisions to preclude such problems. (III.D.3.4)

(3) To satisfy the following requirements, the application shall provide sufficient information to demonstrate that the requirement has been met. This information is of the type customarily required to satisfy 10 CFR 50.34(a)(1) or to address the applicant's technical qualifications and management structure and competence.

(i) Provide administrative procedures for evaluating operating, design and construction experience and for ensuring that applicable important industry experiences will be provided in a timely manner to those designing and constructing the plant. (I.C.5)

(ii) Ensure that the quality assurance (QA) list required by Criterion II, App. B, 10 CFR Part 50 includes all structures, systems, and components important to safety. (I.F.1)

(iii) Establish a quality assurance (QA) program based on consideration of: (A) ensuring independence of the organization performing checking functions from the organization responsible for performing the functions; (B) performing the entire quality assurance/quality control function at construction sites; (C) including QA personnel in quality-related procedures associated with design, construction, and installation; (D) establishing criteria for determining QA requirements for specific classes of equipment; (E) establishing minimum qualification requirements for QA and QC personnel; (F) sizing the QA staff commensurate with its duties, responsibilities, and importance to safety; (G) establishing procedures for maintenance of "as-built" documentation; and (H) providing a QA role in design and analysis activities. (I.F.2)

(iv) Provide one or more dedicated containment penetrations, equivalent in size to a single 3-foot diameter opening, in order not to preclude future installation of systems to prevent containment failure, such as a filtered vented containment system. (II.B.8)

(v) Provide preliminary design information at a level of detail consistent with that normally required at the construction permit stage of review sufficient to demonstrate that: (II.B.8)

(A) Containment integrity will be maintained (i.e., for steel containments by meeting the requirements of the ASME Boiler and Pressure Vessel Code, Section III, Division 1, Subsubarticle NE-3220, Service Level C Limits, except that evaluation of instability is not required, considering pressure and dead load alone. For concrete containments by meeting the requirements of the ASME Boiler and Pressure Vessel Code, Section III, Division 2, Subsubarticle CC-3720, Factored Load Category, considering pressure and dead load alone)[2] during an accident that releases hydrogen generated from 100% fuel clad metal-water reaction accompanied by either hydrogen burning or the added pressure from post-accident inerting assuming carbon dioxide is the inerting agent, depending upon which option is chose for control of hydrogen. As a minimum, the specific code requirements set forth above appropriate for each type of containment will be met for a combination of dead load and an internal pressure of 45 psig. Modest deviations from these criteria will be considered by the staff, if good cause is shown by an applicant. Systems necessary to ensure containment integrity shall also be demonstrated to perform their function under these conditions.

(B) The containment and associated systems will provide reasonable assurance that uniformly-distributed hydrogen concentrations do not exceed 10% during and following an accident that releases an equivalent amount of hydrogen as would be generated from a 100% fuel clad metal-water reaction, or that the post-accident atmosphere will not support hydrogen combustion.

(C) The facility design will provide reasonable assurance that, based on a 100% fuel clad metal-water reaction, combustible concentrations of hydrogen will not collect in areas where unintended combustion or detonation could cause loss of containment integrity or less of appropriate mitigating features.

(D) If the option chosen for hydrogen control is post-accident inerting: (*1*) Containment structure loadings produced by an inadvertent full inerting (assuming carbon dioxide), but not including seismic or design basis accident loadings will not produce stresses in steel containments in excess of the limits set forth in the ASME Boiler and Pressure Vessel Code, Section III, Division 1, Subsubarticle NE-3220, Service Level A Limits, except that evaluation of instability is not required (for concrete containments the loadings

[2] Approval for the incorporation by reference provisions in Division 2 is being sought from the Director of the Federal Register.

specified above will not produce strains in the containment liner in excess of the limits set forth in the ASME Boiler and Pressure Vessel Code, Section III, Division 2, Subsubarticle CC-3720, Service Load Category).[3] (J) A pressure test, which is required, of the containments, at 1.10 and 1.15 times (for steel and concrete containments, respectively) the pressure calculated to result from carbon dioxide inerting can be safely conducted. (J) Inadvertent full inerting of the containment can be safely accommodated during plant operation.

(E) If the option chosen for hydrogen control is a distributed ignition system, equipment necessary for achieving and maintaining safe shutdown of the plant shall be designed to perform its function during and after being exposed to the environmental conditions created by activation of the distributed ignition system.

(vi) For plant designs with external hydrogen recombiners, provide redundant dedicated containment penetrations so that the recombiner systems can be connected to the containment atmosphere without violating single-failure criteria. (II.E.4.1)

(vii) Provide a description of the management plan for design and construction activities, to include: (A) the organizational and management structure singularly responsible for direction of design and construction of the proposed plant; (B) technical resources directed by the applicant; (C) details of the interaction of design and construction within the applicant's organization and the manner by which the applicant will ensure close integration of the architect engineer and the nuclear steam supply vendor; (D) proposed procedures for handling the transition to operation; (E) the dedgree of top level management oversight and technical control to be exercised by the applicant during design and construction, including the preparation and implementation of procedures necessary to guide the effort. (II.J.3.1)

(Secs. 161b, 161i, Pub. L. 83-703, 68 Stat. 948, 42 U.S.C. 2201; Secs. 201, 204(b)(1), Pub. L. 93-438, 88 Stat. 1242, 1243, 1245, 42 U.S.C. 5841, 5844)

Dated at Washington, D.C., this 18th day of March 1981.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 81-SO-8]

Proposed Alteration of Transition Area, Greenville, South Carolina

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule will alter the Greenville, South Carolina, Transition Area by lowering the base of controlled airspace in the vicinity of the Donaldson Center Airport from 1200 to 700 feet AGL. A standard instrument approach procedure has been developed for the airport, and additional controlled airspace is required to protect aircraft Instrument Flight Rule (IFR) operations.

DATES: Comments must be received on or before: April 22, 1981.

ADDRESS: Send comments on the proposal to: Federal Aviation Administration, Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Georgia 30320.

FOR FURTHER INFORMATION CONTACT: Harlan D. Phillips, Airspace and Procedures Branch, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone: 404-763-7646

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Federal Aviation Administration, Attention: Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Georgia 30320. All communications received on or before April 17, 1981, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each public contact with FAA personnel concerned with this rulemaking will be filed in the public, regulatory docket.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling (202) 426-8056. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the Greenville, South Carolina, Transition Area. This Action will provide controlled airspace protection of IFR operations at the Donaldson Center Airport. The existing Donaldson Center Non-Directional Radio Beacon (non-federal) would support the NDB RWY 4 instrument approach procedure. The operating status of the NDB is being changed from VFR to IFR, and the airport is being changed from private use to public use.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend Subpart G, § 71.181 (46 FR 540), of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by adding the following:

Greenville, South Carolina

"* * * within an 8.5-mile radius of Donaldson Center Airport (lat. 34°45'29" N., long. 82°22'35" W.); within 3 miles each side of the 210° bearing from Donaldson Center RBN (lat. 34°44'35" N., long. 82°23'31" W.), extending from the 8.5-mile radius area to 8.5 miles south of the RBN * * *".

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Note.—The Federal Aviation Administration has determined that this document involves a proposed regulation which is not significant under Executive Order 12044, as implemented by DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). Since this regulatory action involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current and promote safe flight operations, the anticipated impact is so minimal that this action does not warrant preparation of a regulatory evaluation, and a comment period of less than 45 days is appropriate.

The FAA has also determined that this proposed regulation is *not* a major rule under Executive Order 12291 since the action only involves an established body of technical requirements for which frequent and routine

amendments are necessary to keep them operationally current.

Note.—It has been determined under the criteria of the Regulatory Flexibility Act that this proposed rule, at promulgation, will not have a significant impact on a substantial number of small entities.

Issued in East Point, Georgia, on February 20, 1981.

George R. LaCaille,

Acting Director, Southern Region.

[FR Doc. 81-8708 Filed 3-20-81; 8:45 am]

BILLING Code 4910-13-M

14 CFR Part 71

[Airspace Docket No. 81-AWE-6]

Proposed Establishment of 700 Foot Transition Area, Twentynine Palms, California

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rule making.

SUMMARY: This notice proposes to add a 700 foot transition area for the Twentynine Palms Airport, Twentynine Palms, California, to provide controlled airspace for aircraft executing an instrument approach procedure to the Twentynine Palms Airport utilizing the Twentynine Palms, California VORTAC. The need for the transition area will be created when VOR instrument approach procedure is established for the airport.

DATES: Comments must be received on or before April 22, 1981.

ADDRESSES: Send comments on the proposal in triplicate to Director, Federal Aviation Administration, Attn: Chief, Airspace and Procedures Branch, AWE-530, 15000 Aviation Boulevard, Lawndale, California, 90261. A public docket will be available for examination in the Office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California, 90261: telephone (213) 536-6270.

FOR FURTHER INFORMATION: Thomas W. Binczak, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California, 90261: telephone: (213) 536-6182.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the Airspace Docket Number and be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California, 90261. All communications received on or before March 26, 1981, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments received will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons.

Availability of NPRM

Any person may obtain a copy of this notice of proposed rule making (NPRM) by submitting a request to the Federal Aviation Administration, Chief, Airspace and Procedures Branch, AWE-530, 15000 Aviation Boulvard, Lawndale, California, 90261, of by calling (213) 536-6180. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NURMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

The Proposal

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish a 700-foot transition area. This action will provide controlled airspace protection for IFR operations at the Twentynine Palms Airport.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend Subpart G, § 71.181 (46 FR 540) of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by adding the following:

§ 71.181 Twentynine Palms, California [Amended]

Preceding "That airspace extending upward from 1200 feet . . ." insert "That airspace extending upward from 700 feet above the surface within a 4-mile radius of Twentynine Palms Airport (latitude 34°07'46"N, longitude 115°56'22"W) and within 4 miles each side of the Twentynine Palms VORTAC 279°T (265°M) radials extending from the 4-mile radius area to the VORTAC, and * * *"

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65)

Note.—The FAA has determined that this document involves a proposed regulation which is not significant under Executive Order 12044, as implemented by DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Since this regulatory action involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current and promote safe flight operations, the anticipated impact is so minimal that this action does not warrant preparation of a regulatory evaluation and a comment period of less than 45 days is appropriate. The FAA has also determined that this proposed regulation is *not* a major rule under Executive Order 12291 and under the criteria of the Regulatory Flexibility act that this rule, at promulgation, will not have a significant impact on a substantial number of small entities since the action only involves an established body of technical requirements for which frequent and routine amendments are necessary to keep them operationally current.

Issued in Los Angeles, California on February 9, 1981.

H. C. McClure,

Acting Director, Western Region.

[FR Doc. 81-8707 Filed 3-20-81; 8:45 am]

BILLING CODE 4910-13-M

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of the Army

33 CFR Part 204

Danger Zone, Isle of Oahu, Hawaii

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Proposed rule.

SUMMARY: The Department of the Army is establishing danger zone regulations in navigable waters of the United States at the Marine Corps Air Station (MCAS) Kaneohe Bay, Island of Oahu, Hawaii. The danger zone is needed to outline the affected area and provide formal notice of potential hazards due to ricochet rounds and accidental firing from the existing Ulupau Crater Weapons Training Range at the MCAS.

DATE: Comments must be received on or before 30 April 1981.

ADDRESS: HQDA, DAEN-CWO-N, Washington, D.C. 20314.

FOR FURTHER INFORMATION CONTACT: Mr. Stanley T. Arakaki at (808) 438-9258 or Mr. Ralph T. Eppard at (202) 272-0199.

SUPPLEMENTARY INFORMATION: The Commanding Officer, Marine Corps Air Station Kaneohe Bay, Hawaii has requested that danger zone regulations be established to designate an area considered unsafe for boaters when firing is in progress and provide formal notice of potential hazards associated with the existing tactical weapons training range in Ulupau Crater. Tactical

military weapons are fired at fixed targets within Ulupau Crater; however, ricochet rounds and accidental firings have occasionally impacted in the adjacent waters. There have never been any injuries or damages, but two near misses have been reported in the past 18 months. Both incidents occurred within the existing 500 yard wide prohibited area contiguous to the shoreline of Mokapu Peninsula, but it is considered to be in the best interest of the general public and the Marine Corps to provide formal notice of these potential hazards.

These danger zone regulations allow unrestricted use of the area, except during hazardous weapons (machine guns) firing which would occur about two times a month, on non-consecutive weekdays for about 8 hours per day. Specific dates and hours for weapons firing and information on onshore warning signals will be published in the Coast Guard's Local Notice to Mariners and can also be obtained by calling the MCAS Officer in Charge of the Range Training Facility (telephone no. 257–2067).

For the reasons stated above, the Corps of Engineers proposes to add 33 CFR 204.224c as set forth below.

§ 204.224c Marine Corps Air Station, (MCAS) Kaneohe Bay, Island of Oahu, Hawaii—Ulupau Crater Weapons Training Range Danger Zone.

(a) *The Danger Zone.* The waters within a section extending seaward a distance of 3,900 yards between radial lines bearing 350° true and 61° true, respectively, from a point on Mokapu Peninsula at latitude 21°27'17"N, longitude 157°43'51"W, exclusive of the existing 500 yard wide prohibited area. The interface between the existing 500 yard prohibited area and this danger zone is defined by three points having the following coordinates:

Point A: Latitude 21°27'50"N Longitude 157°43'56"W
Point B: Latitude 21°27'52"N Longitude 157°43'02"W
Point C: Latitude 21°27'38"N Longitude 157°43'12"W

(b) *The Regulations.* (1) Weapons firing at the Ulupau Crater Weapons Training Range may occur at any time betwen 6:00 a.m. and 11:00 p.m., Monday through Friday, and between 6:00 a.m. and 6:00 p.m., Saturday and/or Sunday, when required. Specific dates and hours for weapons firing, along with information regarding onshore warning signals, will be promulgated by the U.S. Coast Guard's Local Notice to Mariners. Information on weapons firing schedules may also be obtained by calling the Officer in Charge of the Range Training Facility, Headquarters and Headquarters Squadron MCAS (telephone no. 257–2067).

(2) Whenever hazardous weapons (machine guns) firing is scheduled and in progress during daylight hours, two large red triangular warning pennants will be flown at each of two highly visible and widely separated locations on the shore at Ulupau Crater.

(3) Whenever tactical weapons (exclusive of machine guns) firing is scheduled and in progress during daylight hours, a single large red rectangular warning flag will be flown at the two separate locations on the shore.

(4) Whenever any weapons firing is scheduled and in progress during periods of darkness, flashing red warning beacons will be displayed on the shore at Ulupau Crater.

(5) Boaters will have complete access to the proposed danger zone whenever there is no weapons firing scheduled, which will be indicated by the absence of any warning flags, pennants, or beacons displayed ashore.

(6) The danger zone is not considered safe for boaters whenever hazardous weapons (machine guns) firing is in progress. Hazardous weapons firing will usually be scheduled approximately twice per month, on non-consecutive weekdays, for about eight hours on each occasion. Boaters shall expeditiously vacate the danger zone at best speed and by the most direct route whenever hazardous weapons firing is scheduled. Passage of vessels through the danger zone when hazardous weapons firing is in progress will be permitted, but boaters shall proceed directly through the area at best speed. Hazardous weapons firing will be suspended as long as there is a vessel in the danger zone. Whenever a boater disregards the publicized warning signals that hazardous weapons firing is scheduled, the boater will be personally requested to expeditiously vacate the danger zone by MCAS Kaneohe Bay military personnel utilizing a bull-horn from either a Marine helicopter or Navy crash boat.

(7) The danger zone may be occupied for extended periods and with caution at individual risk whenever tactical weapons (exclusive of machine guns) firing is scheduled and in progress because of the remote possibility of a rifle round from an accidental discharge impacting outside the limits of the existing prohibited ares.

(8) Observation posts will be manned whenever any weapons firing is scheduled and in progress. Visibility will be sufficient to maintain visual surveillance of the entire danger zone and for an additional distance of 5 miles in all directions whenever weapons firing is in progress.

(c) *The Enforcing Agency.* The foregoing regulations shall be enforced by the Commanding Officer, MCAS Kaneohe Bay and such agencies as he/she may designate.

(33 U.S.C. 1a3)

Note.—The Chief of Engineers has determined that this proposed rule is exempt from the general requirements of EO 12291 in accordance with the exception provided military functions. The Chief of Engineers has also determined that these regulations would not have a significant economic impact on a substantial number of small entities, as required by Pub. L. 96–354.

Dated: March 5, 1981.

John J. Quinn, Jr.,

Deputy Executive Director, Engineer Staff.

[FR Doc. 81-8715 Filed 3-20-81; 8:45 am]
BILLING CODE 3710-08-M

VETERANS ADMINISTRATION

38 CFR Part 17

Medical School and Health Manpower Assistance

AGENCY: Veterans Administration.

ACTION: Proposed rules.

SUMMARY: The Veterans Administration is proposing to amend its Medical School and Health Manpower Assistance regulations to implement two laws, the Veterans Health Programs Extension and Improvement Act of 1979, and the Veterans Administration Health Care Amendments of 1980. These laws (1) remove authority of the Administrator to enter into agreements supporting new State Medical Schools, (2) delete the requirement for enrollment increases in Medical School and Other Health Manpower Training Institution classes, and (3) extend the appropriations authorization to Fiscal Year 1982. In addition, the Veterans Administration proposes to remove the 7-year limitation for program periods of grants to Medical Schools and Other Health Manpower Training Institutions. This action would provide an easier terminal transition period for the grantee institution, and permit a smoother shift from Federal funding cycles to academic year funding cycles, particularly in this time of severe inflationary impact on higher education budgets.

DATE: Comments must be received on or before April 22, 1981. It is proposed to make these changes effective the date of final approval.

ADDRESS: Interested persons are invited to submit written comments, suggestions, or objections regarding this proposal to: Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue, NW, Washington, DC 20420. All written comments received will be available for public inspection only at the Veterans Administration Central Office, Veterans Services Unit in room 132 of the above address between the hours of 8 am and 4:30 pm Monday through Friday (except holidays) until May 5, 1981.

FOR FURTHER INFORMATION CONTACT: Dr. Chester W. DeLong, (202) 389-3072.

SUPPLEMENTARY INFORMATION: The Agency Head has determined that this proposed revision to VA regulations is non-major in accordance with the requirements of Executive Order 12291 on Federal Regulation. It has also been determined, as required by the Regulatory Flexibility Act (Pub. L. 96-354), that this revision poses no compliance costs or reporting burdens upon the public and has no effect on businesses or State and local government.

Approved: March 9, 1981.

Rufus H. Wilson,

Acting Administrator.

38 CFR Part 17 is amended as follows:

Grants and Assistance for Development, Expansion and Improvement of Medical and Allied Health Education

1. Section 17.400 is amended by adding four new citations after "Veterans' Administration Medical School Assistance and Health Manpower Training Act of 1972" so that the revised section reads as follows:

§ 17.400 Purpose and scope of the program.

The provisions of §§ 17.400 through 17.416 are applicable to a program of grants and other forms of assistance under the "Veterans' Administration Medical School Assistance and Health Manpower Training Act of 1972" as amended by the Veterans Omnibus Health Care Act of 1976 (Pub. L. 94-581), the Veterans Administration Programs Extension Act of 1978 (Pub. L. 95-520), the Veterans Health Programs Extension and Improvement Act of 1979 (Pub. L. 96-151), and the Veterans Administration Health Care Amendments of 1980 (Pub. L. 96-330) (38 U.S.C. Chapter 82). This Act authorizes the Administrator of Veterans' Affairs to provide certain assistance in the establishment of new State medical schools and the improvement of existing medical schools affiliated with the Veterans Administration; to develop cooperative arrangements between institutions of higher education, hospitals, and other nonprofit health service institutions affiliated with the Veterans Administration to coordinate, improve, and expand the training of professional and allied health and paramedical personnel; to develop and evaluate new health careers, interdisciplinary approaches and career advancement opportunities; to improve and expand allied and other health manpower utilization; and for other purposes.

2. In § 17.402, paragraph (c), paragraphs (f) (1), (2), and (3), and (g)(1) are revised to read as follows:

§ 17.402 Definitions.

For the purpose of §§ 17.400 through 17.416 the term:

* * * * *

(c) "Program period" means the time for which the grant assistance has been approved as specified in the agreement or grant document.

* * * * *

(f) For the purposes of 38 U.S.C. 5071-5074: (1) "Colleges" means nonprofit institutions of higher learning, which are primarily supported by the State, and are authorized to offer, and are offering, a formal program of college level studies leading to the baccalaureate degree and are accredited or approved by an accrediting body or bodies recognized for such purposes by the Secretary of the Department of Education.

(2) "Universities" means educational institutions, which are primarily supported by the State; which are comprised of one or more undergraduate colleges or professional schools, each appropriately accredited or approved by an accrediting body or bodies recognized for such purposes by the Secretary of the Department of Education; and which are authorized to confer degrees.

(3) "Medical school" means a nonprofit school of medicine or osteopathy which provides a complete course of study which culminates in a degree of doctor of medicine or doctor of osteopathy; and with regard to which there has been a finding made of reasonable assurance that such a school can proceed to full accreditation as determined by the body or bodies recognized for such purposes by the Secretary of the Department of Education.

* * * * *

(g) For the purposes of 38 U.S.C. 5081-5083: (1) "Medical school" means a nonprofit school of medicine or osteopathy which provides a course of study of not less than 2 years, which forms a part or whole of the necessary requirements leading to a degree of doctor of medicine or doctor of osteopathy, and which has been reviewed and accredited for its stage of development by an appropriate accrediting agency recognized for such purpose by the Secretary of the Department of Education.

* * * * *

3. In § 17.403, paragraph (a)(3) is amended by changing the words "he may require" to read "as may be required" so the revised material reads as follows:

§ 17.403 Eligibility.

(a) To be eligible to receive assistance under 38 U.S.C. 5071-5074, the applicant must:

* * * * *

(3) Furnish the Administrator with such evidence as may be required that the college or university has prepared and presented a plan for the proposed new school of medicine or osteopathy; and that in a letter dated not earlier than October 24, 1972, has received reasonable assurance of accreditation of the new school as defined in § 17.402(f)(3).

* * * * *

4. In § 17.405, the introductory portions of (a)(1), (b)(1) and (c)(1) and paragraphs (a)(2) (ii) and (iii), (b)(2) and (c)(2) have been amended by changing the word "his" to "the Administrator's" wherever it appears and new paragraph (a)(4) has been added. In paragraph (b)(1)(iii) the words "including the accomplishment of the increased enrollment of full-time students" have been removed. In paragraph (c)(1)(iii) the words "including the increase in enrollment of students," have been removed and the title of the Commissioner of Education for the Department of Health, Education and Welfare has been revised. In paragraph (d)(1) the words "(not to exceed 7 years.)" have been removed. The revised and added material reads as follows:

§ 17.405 Agreements and grant awards.

(a) For the purposes of 38 U.S.C. 5071-5074: (1) Within the limits of funds available each year for such purposes, the Administrator, upon recommendation of the Chief Medical Director and after consultation with the Special Medical Advisory Group, may enter into, or continue with, agreements to provide assistance to a total of not more than eight applicants whose proposals in the Administrator's

judgment best achieve the purposes of 38 U.S.C. 5071, taking into consideration:

* * * * *

(2) The terms of any agreement and the amount of any funds to be awarded shall be determined by the Administrator on the basis of:

* * * * *

(ii) The Administrator's estimate of the sums necessary to accomplish the adequate extension, alteration, remodeling, improvement, or repair of the building or structures to be leased; and to adequately equip such buildings or structures for the purposes proposed; and

(iii) The Administrator's estimate to the amounts necessary to assist in the payment of the cost of the salaries of faculty, the proportion will not exceed 90 percent of the salaries for the first year of operation, and a like percentage for the second and third years; 80 percent for the fourth year; 70 percent for the fifth year; 60 percent for the sixth year; and 50 percent for the seventh year.

* * * * *

(4) Notwithstanding any other provision concerning this program set forth in §§ 17.400 through 17.416, the Administrator may not enter into any agreement under Subchapter I of Chapter 82, Title 38, United States Code, after September 30, 1979. This is not to be interpreted as interfering with the continued administration of existing agreements under Subchapter I.

(b) For the purposes of 38 U.S.C. 5081–5083: (1) Within the limits of funds available for such purposes, the Administrator, upon recommendation of the Chief Medical Director and after consultation with the Special Medical Advisory Group, may award grants and other assistance to those applicants whose projects or programs will in the Administrator's judgment best promote the purposes of 38 U.S.C. 5061, taking into consideration:

* * * * *

(iii) The capability of the applicant to carry out the proposed program or project, without threat to its accreditation as required in § 17.402(g)(1);

* * * * *

(2) The amount of any award shall be determined by the Administrator on the basis of the Administrator's estimate of the sum necessary for the cost of the applicant's approved program or project.

(c) For the purposes of 38 U.S.C. 5091–5093: (1) Within the limits of funds available for such purpose, the Administrator, upon recommendation of the Chief Medical Director and after consultation with the Special Medical Advisory Group, may award grants to those applicants whose projects or programs will in the Administrator's judgment best promote the purposes of 38 U.S.C. 5091, taking into consideration:

* * * * *

(iii) The capability of the applicant to carry out the proposed program or project under circumstances which will not compromise the quality of education at the institution nor jeopardize the accreditation of the training program by the appropriate body or bodies recognized for such purposes by the Secretary of the Department of Education.

* * * * *

(2) The amount of any award shall be determined by the Administrator on the basis of the Administrator's estimate of the sum necessary for the cost of the applicant's approved program or project.

(d) For the purposes of any grant program of 38 U.S.C. Chapter 82: (1) All grant awards shall be in writing, shall set forth the total amount of assistance awarded and the total period for which it will be available for obligation by the grantee.

* * * * *

5. In § 17.407, paragraph (b) is amended by changing the word "and" which appears after the word "expansion" to "or", and by replacing the words "to increase the production" with "in the training" so that the revised paragraph reads as follows:

§ 17.407 Expenditure of grant funds.

* * * * *

(b) For the purposes of 38 U.S.C. 5081–5083, any funds granted shall be expended solely for the expansion or improvement of the training capacities of medical schools affiliated with the Veterans Administration and to permit such schools to cooperate with other public and nonprofit institutions of higher learning, hospitals and other health manpower institutions affiliated with the Veterans Administration in the training of professional and other health personnel in accordance with the applicable provisions of 38 U.S.C. Chapter 82, §§ 17.400 through 17.416, and the terms and conditions of the grant award.

* * * * *

6. In § 17.408, paragraph (a) is amended by updating the title of the Department of Health, Education and Welfare so that the revised paragraph reads as follows:

§ 17.408 Nondiscrimination.

(a) Grants made under 38 U.S.C. Chapter 82 shall be subject to Title IX of the "Education Amendments Act of 1972" (effective July 1, 1972) and regulations promulgated by the Department of Education. Such title prohibits sex discrimination in all federally assisted education programs.

* * * * *

7. In § 17.410, paragraph (c) is amended by adding the word "revised," after the words "No. A–87" so that the revised paragraph reads as follows:

§ 17.410 Accountability.

* * * * *

(c) For the purposes of 38 U.S.C. 5061–5083 and 5091–5093, indirect costs may be computed on a percentage basis or on the basis of a negotiated lump-sum allowance in accordance with the principles set forth in the Office of Management and Budget Circulars No. A–88, No. A–87 revised, and No. A–21. In the method of computation used, only indirect costs shall be included which bear a reasonable relationship to the program funded by the grant and shall not exceed a percentage greater than the total institutional indirect cost is of the total direct salaries and wages paid by the institution.

8. Sections 17.412, 17.413, and paragraph (a) of § 17.414 are amended by replacing the word "his" with the words "the Administrator's" wherever it appears. The revised sections read as follows:

§ 17.412 Additional conditions.

The Administrator may with respect to any grant award impose additional conditions prior to or at the time of any award when in the Administrator's judgment such conditions are necessary to assure or protect advancement of the grant purposes, the interest of the Veterans Adminstration or the conservation of grant funds. All construction, and alterations of buildings and structures, related to the award of a grant or other assistance will be subject to section 102(2)(C) of the National Environmental Policy Act.

§ 17.413 Early termination and withholding of payments.

Whenever the Administrator finds that a grantee has failed in a material respect to comply with the applicable provisions of 38 U.S.C. Chapter 82, §§ 17.400 through 17.416, or the terms of the grant, the Administrator may, on reasonable notice to the grantee withhold further payments and take such other action, including the termination of the grant, as he finds appropriate to carry out the purposes of 38 U.S.C. Chapter 82 and §§ 17.400 through 17.416. Non-cancellable obligations of the grantee properly

incurred prior to the receipt of the notice of termination will be honored. The grantee shall be promptly notified of such termination in writing and given the reasons therefor.

§ 17.414 Recapture provision.

(a) If the Administrator determines that any school established with assistance under §§ 17.400 through 17.416

(1) Is not accredited and fails to gain appropriate accreditation within a reasonable period of time;

(2) Is accredited but fails substantially to carry out the terms of the agreement entered into under 38 U.S.C. Chapter 82; or

(3) Is no longer operated for the purpose for which such assistance was granted,

the Administrator shall be entitled to recover from the recipient of assistance the facilities of such school which were established with assistance under §§ 17.400 through 17.416. In order to recover such facilities the Administrator may bring an action in the district court of the United States for the district in which such facilities are situated.

(38 U.S.C. 210(c))

BILLING CODE 8220-01-M

POSTAL SERVICE

39 CFR Part 10

International Express Mail Rates; Rates to Kuwait

AGENCY: Postal Service.

ACTION: Proposed international express mail rates to Kuwait.

SUMMARY: Pursuant to its authority under 39 U.S.C. 407, the Postal Service proposes to begin International Express Mail Service with Kuwait at rates indicated in the table below. The proposed rates are scheduled to become effective on May 1, 1981.

DATE: Comments must be received on or before April 22, 1981.

ADDRESS: Written comments should be directed to the General Manager, Rate Resource Division, Rates and Classification Department, U.S. Postal Service, Washington, DC 20260. Copies of all written comments will be available for public inspection and photocopying between 9 a.m. and 4 p.m. Monday through Friday in Room 8606, 475 L'Enfant Plaza, West, SW, Washington, DC 20260.

FOR FURTHER INFORMATION CONTACT: Martin R. Anker (202) 245-4418.

SUPPLEMENTARY INFORMATION: Although 39 U.S.C. 407 does not require advance notice and opportunity for submission of comments and the Postal Service is exempted by 39 U.S.C. 410(a) from the Administrative Procedure Act regarding proposed rulemaking (5 U.S.C. 533), the Postal Service invites interested persons to submit written data, views, or arguments concerning the proposed rates of postage for International Express Mail set out in the following table (designated Table 18 for inclusion as a separate country entry in the International Mail Manual, incorporated by reference 39 CFR 10.1).

In consideration of the foregoing, the Postal Service proposes to add Table 18 to the International Mail Manual to read as follows:

(39 U.S.C. 401, 403, 404(2), 407, 410(a), Universal Postal Convention, Lausanne, 1974, TIAS No. 8231, Art. 6)

W. Allen Sanders,

Associate General Counsel, Office of General Law and Administration.

BILLING CODE 7710-12-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 264

[SWH-FRL 1764-5]

Incinerator Standards for Owners and Operators of Hazardous Waste Management Facilities; Seminar Discussion

AGENCY: Environmental Protection Agency.

ACTION: Notice of technical panel discussion.

SUMMARY: This notice announces a meeting to obtain comments and advice from knowledgeable experts on the proposed additions to Regulations under RCRA, 40 CFR Part 264 Subpart O Incineration, proposed in the Federal Register January 23, 1981 [46 FR 7664]. Also, EPA is seeking comments on the potential approaches to regulation of the combustion of hazardous wastes in boilers and other high temperature combustion processes.

DATES: The discussion panels are scheduled for April 21, 1981, and April 22, 1981.

ADDRESS: Environmental Protection Agency, Industrial Environmental Research Laboratory, Auditorium, 26 West St. Clair Street, Cincinnati, Ohio.

FOR FURTHER INFORMATION CONTACT: Robert Olexsey, Incineration Research Branch, 26 West St. Clair Street, Cincinnati, Ohio, 45268, (513) 684-4417.

SUPPLEMENTARY INFORMATION: This meeting will be a series of group discussions and group work shops designed to obtain the technical community's reactions to the January 23, 1981 proposed incinerator performance standards. This meeting will encourage interchange and discussion between knowledgeable members of the scientific and technical community and EPA officials beyond that possible in the formal public hearing process.

The panels will also discuss the desirability of developing regulations for the burning of hazardous wastes in power boilers and industrial processes under either RCRA or the Clean Air Act. This practice is currently not regulated under the hazardous waste provisions of RCRA. The Agency is concerned that this practice, while being encouraged in order to recover energy resources, may also have an adverse impact on human health and the environment.

EPA is inviting selected technical experts and others known to be interested in these regulations. Other parties wishing to participate on these

panels should send a written summary of their proposed contributions to Robert Olexsey (address above). These descriptions should be received before April 14, 1981. The Agency may limit the participation in the work shop sessions to allow for meaningful interchange in small groups.

Dated: March 17, 1981.

Alfred W. Lindsey,

Acting Director, Hazardous and Industrial Waste Division.

[FR Doc. 81-8782 Filed 3-20-81; 8:45 am]

BILLING CODE 6560-20-M

---

40 CFR Parts 408

[WH-FRL 1784-3]

Canned and Preserved Seafood Processing Point; Source Category

AGENCY: Environmental Protection Agency (EPA).

ACTION: Extention of comment period and notice of availability of additional supporting information.

SUMMARY: On January 9, 1981, EPA published in the Federal Register a proposed response to a petition for modification and amendment of regulations governing wastewater discharges from certain seafood processors located in Alaska (46 FR 2544). The comment period was scheduled to expire March 10, 1981. The purpose of this notice is to extend until May 11, 1981, the period for comment on all aspects of the proposed response to petition for modification and amendment of regulations.

DATE: Comments on the proposed response to petition and amendments to BPT regulations for the "non-remote" Alaskan subcategories of the seafood processing industry must be submitted to EPA by May 11, 1981.

ADDRESS: Send comments in triplicate to: Mr. Daniel S. Lent, Effluent Guidelines Division, (WH-552), Environmental Protection Agency, 401 M St., S.W. Washington, D.C. 20460, Attention: EGD Docket Clerk—Seafood Processing Industry.

The supporting information and all public comments submitted in response to this proposal will be available for inspection and copying at the EPA Public Information Reference Unit, Room 2404 (rear) PM-213 (EPA Library), 401 M St. S.W., Washington, D.C. 20460; EPA Region X, 1200 6th Avenue, Seattle, Washington 98101; and the EPA Alaska Operations Office, 701 "E" Street, Anchorage, Alaska. The EPA information regulation (40 CFR Part 2) provides that a reasonable fee may be charged for copying.

FOR FURTHER INFORMATION CONTACT: Mr. Daniel S. Lent at (202) 426-2707.

SUPPLEMENTARY INFORMATION: On January 9, 1981, EPA proposed a response to a petition for modification and amendment of regulations for portions of the Canned and Preserved Seafood Processing Industry (46 FR 2544). More specifically, the proposed regulation amended effluent limitations based on the best practicable control technology currently available (BPT) for the "non-remote" Alaskan subcategories of the seafood industry. Comments on the proposal were to be submitted on or before March 10, 1981. Attorneys for the industry have requested a 60 day extension of the comment period, until May 11, 1981. EPA has decided to extend the period for comment on all technical and economic aspects of the proposed response to petition and amendment of BPT regulations until May 11, 1981. Interested persons should be aware that subsequent to January 9, 1981, the Agency placed additional supporting information in the EPA Public Information Reference Unit, Washington, D.C., EPA Region X, and the EPA Alaska Operations Office. This information and the dates made available are listed below:

(1) *Market Feasibility Study of Seafood Waste Reduction in Alaska,* July 1980—3/2/81

(2) *Market Feasibility Study of Seafood Waste Reduction in Alaska,* November 1980—3/2/81

(3) Telephone Memo on Fish Hatchery Program dated 2/25/81—3/2/81

(4) Memo on Current Seafood Waste Recovery Systems Planned or Under Review in Alaska dated 12/11/80—3/2/81

(5) Telephone Memo on Waste Trucking Costs dated 5/14/80—3/13/81

In view of industry's familiarity with the pertinent issues from prior contacts with EPA, we believe that these actions will provide the petitioning seafood processors and other interested parties with sufficient opportunity to comment on the proposed response to petition and amendment of regulations.

Dated: March 17, 1981.

James N. Smith,

Acting Assistant Administrator for Water and Waste Management.

[FR Doc. 81-8784 Filed 3-20-81; 8:45 am]

BILLING CODE 6560-20-M

LEGAL SERVICES CORPORATION

45 CFR Part 1624

Comprehensive Civil Rights Regulations

AGENCY: Legal Services Corporation.

ACTION: Proposed rules.

SUMMARY: This regulation is intended to be a comprehensive statement of all grant and contract related civil rights obligations of Corporation recipients in both the delivery of services and in their employment practices. The present Part 1624 would be incorporated into the proposed civil rights regulation. This regulation would now include the Corporation's 504 regulations, present part 1624, as well as all of the other civil rights obligations of Corporation fund recipients.

DATE: Comments due April 22, 1981.

ADDRESS: Legal Services Corporation, 733 Fifteenth Street NW., Washington, D.C. 20005.

FOR FURTHER INFORMATION CONTACT: Linda Hanten, 202-272-4010.

SUPPLEMENTARY INFORMATION: While the proposed regulation seeks to guarantee the civil rights of a number of groups distinctions are made among the protected groups in the treatment required. For example, recipents are required to take affirmative action as to the employment of women and minorities and not as to the employment of members of other groups protected by the regulation. The regulation requires affirmative action to be taken only as to women and minorities because they are the groups traditionally given such protection. These groups have been afforded such protection because they, unlike the other groups protected by this part, historically have been unable to remedy discrimination against them through the political process.

An additional distinction made among the protected groups by the regulation is the provision of "special" services to persons with communication problems, e.g., language minorities, the hearing impaired and the blind. These services are provided because without them legal services would not be available to members of these groups. Additionally, Section 1006(b)(6) of the Act requires the Corporation to provide that the language of non-English speakers be used in the provision of services where they constitute a signficant number of the client population.

As used in this part, minority language groups are defined as Asians, Native Americans, Alaskan Natives and persons of Spanish origin. This is the definition used in the Voting Rights Act, 42 U.S.C. 1973aa, which requires elections to be conducted in the appropriate minority language(s) as well as in English in political jurisdictions where members of a minority language group make up five or more percent of the population. This definition is used here, as it was in the Voting Rights Act,

because these groups and their number can be determined from census data. There is presently no nation or region-wide data base which can be used to identify persons who do not speak English or persons from other linguistic groups not listed in this definition. The use of this definition is not intended to preclude programs from offering services in other minority languages when the program has the desire to do so or the ability to make a reasonable determination that more than five percent of the residents of its service area belong to another linguistic group.

The Civil Rights Regulation, in particular the provisions governing anti-discrimination, is not intended to prevent the adoption of priorities which by their nature would have the effect of foreclosing services to one or more of the protected classes. The statute, 42 U.S.C. 2996f, clearly requires that there be priority-setting at the local level. The Civil Rights Regulation merely defines what purpose (discrimination against one of the protected classes) may not serve as a basis for establishing priorities.

For example, if a program picks Supplemental Security Income but not Aid to Families with Dependent Children practice as a priority, the fact that a particular age group, young adults, is not represented in connection with AFDC claims or that the program services primarily seniors does not itself create a prima facie case of discrimination. It merely reflects that the program has established priorities which, when complied with, result in the program serving clients in a particular age group. However, a program may not use the priority-setting process as a justification for failing to serve a particular protected group. The Corporation will monitor those programs having the greatest disparity in the delivery of legal services on any prohibited basis.

It is proposed to revise Part 1624 to read as follows:

PART 1624—COMPREHENSIVE CIVIL RIGHTS REGULATIONS

Subpart A—General

Sec.
1624.1 Purpose.
1624.2 Applicability.
1624.3 Definitions.

Subpart B—Discrimination

1624.4 General.
1624.5 Discrimination prohibited—in the provision of legal services.
1624.6 Discrimination prohibited—employment practices.

Subpart C—Required Recipient Civil Rights Program

1624.7 Assurance.
1624.8 Data and information requirements.
1624.9 Required recipient civil rights program—delivery of services.
1624.10 Required recipient civil rights program—employment.

Subpart D—Conduct of Investigation and Review

1624.11 Monitoring.
1624.12 Complaint process.

Subpart E—Procedure for Effecting Compliance

1624.12 Remedies.

Authority: Secs. 1005(b)(2), 1006(a), (b)(1)(A) and (b)(6) of the Legal Services Corporation Act, (42 U.S.C. 2996d(b)(2), 2996e(a), (b)(1)(A) and (b)(6)).

The proposed Regulation is as follows:

Subpart A—General

§ 1624.1 Purpose.

The purpose of this part is to prevent discrimination by legal services programs supported in whole or in part by Legal Services Corporation funds in the delivery of services or in employment on the basis of race, religion, color, sex, age, marital status, national origin, handicap, political affiliation or sexual orientation. Further, it is the purpose of this part to assist such programs in establishing policies and procedures to ensure equal opportunity in the delivery of services and employment and affirmative action in employment to end the underutilization of certain protected groups in their work forces. This part is adopted in accordance with Secs. 1005(b)(2), 1006(a), 1006(b)(1)(A), 1006(b)(6) of the Legal Services Corporation Act; 42 U.S.C. 2996d(b)(2), 2996e(a), 2996e(b)(1)(A), 2996e(b)(6).

§ 1624.2 Applicability.

This part applies to all recipients of Legal Services Corporation funds.

§ 1624.3 Definitions.

As used in this part, the term:

(a) "Protected Groups" means those groups which have been historically subjected to discrimination on the basis of race, color, national origin, sex, religion, or sexual orientation;

(b) "Affirmative Action" means specific steps, in recruiting, hiring, promotion and other areas, which are taken for the specific purpose of eliminating the present effects of past discrimination;

(C) "Goals" means projected levels of achievement arrived at through analysis of employment utilization patterns and consideration of what may reasonably be done to remedy any apparent underutilization given labor force participation and unemployment rates of minorities and women in the labor market area and the expected rate of turnover and the projected number of new positions in the employer's work force;

(d) "Underutilization" means having fewer minorities and/or women in the particular job category than would reasonably be expected given their availability in the relevant labor market area, or employing persons in jobs that do not adequately use their skills, training or capabilities;

(e) "Relevant labor market area" means the area from which an employer can reasonably expect to recruit or draw applicants for positions in a given job category;

(f) "Delivery of services" means providing or making legal services available to eligible clients of a recipient's service area;

(g) "Facility" means all or any portion of buildings, structures, equipment, roads, walks, parking lots, or other real property or interest in such property;

(h)(1) "Handicapped person" means any person who (i) has a physical or mental impairment which substantially limits one or more major life activities, (ii) has a record of such an impairment, or (iii) is regarded as having such an impairment;

(2) As used in subparagraph (1) the phrase:

(i) "Physical or mental impairment" means (A) any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; digestive; genitourinary, hemic and lymphatic; skin; and endocrine; or (B) any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. The phrase includes, but is not limited to, such diseases and conditions as orthopedic, visual, speech and hearing impairments, cerebal palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, and drug addiction and alcoholism;

(ii) "Major life activities" means functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working;

(iii) "Has record of such impairment" means has a history of, or has been misclassified as having a mental or physical impairment that substantially limits one or more major life activities;

(iv) "Is regarded as having an impairment" means (A) has a physical or mental impairment that does not substantially limit major life activities but is treated by a legal services

program as constituting such a limitation; (B) has a physical or mental impairment that substantially limits major life activities only as a result of the attitudes of others toward such impairments; or (C) has none of the impairments defined in paragraph (c)(2)(i) of this section but is treated by a recipient as having such an impairment;

(i) "Qualified handicapped person" means: (1) With respect to employment, a handicapped person who, with reasonable accommodation, can perform the essential functions of the job in question; (2) with respect to other services, a handicapped person who meets the eligibility requirements for the receipt of such services from the recipient;

(j) "Employment test or criteria" means any performance measure used as a basis for an employment decision including all formal, scored, quantified or standardized techniques used to assess the suitability of an applicant for a particular job;

(k) "Minority language group" means persons who are American Indian, Asian American, Alaskan Native or of Spanish heritage;

(l) "Labor force characteristics" means the demographic, racial, ethnic, sex and educational characteristics of the population of an employer's relevant labor market area or areas; and

(m) "Terms, conditions and privileges of employment" means all aspects of the employment relationship including compensation, fringe benefits, physical environment, work-related rules, work assignments, training and education and opportunities to serve on committees and decision making bodies.

Subpart B—Discrimination

§ 1624.1 General.

No person shall be subjected by a recipient to discrimination in the provision of services, treatment, or employment practices on the basis of race, religion, color, sex, age, marital status, national origin, handicap, political affiliation or sexual orientation.

§ 1624.5 Discrimination prohibited—in the provision of legal services.

(a) No recipient to which this part applies shall directly or through contractual or other arrangements discriminate against an individual in the provision of services on the grounds of race, religion, color, sex, age, marital status, national origin, handicap, political affiliation or sexual orientation.

(b)(1) A recipient, in determining the type of services, aid or benefits which will be provided, or the manner in which such services, aid or benefits shall be offered, may not directly or through contractual or other arrangements, utilize criteria or methods of administration with the purpose of subjecting individuals to discrimination on the basis of race, religion, color, sex, age, marital status, national origin, handicap, political affiliation or sexual orientation or which have the effect of substantially impairing accomplishment of the objectives of the program with respect to individuals on one of the bases outlined above.

(2)(i) An individual shall not be deemed subjected to discrimination if refused services by a recipient because his/her legal problem does not come within the recipient's priorities established pursuant to § 1620. Further, an individual shall not be deemed subject to discrimination by reasons of his/her exclusion from the benefits of a program limited by Federal law to individuals with a handicap or race, color, sex, national origin, or age group, not his/her own or from the benefits of a program specifically designed to address legal issues concerning a particular status not shared by the individual.

(ii) A recipient shall not be deemed to have discriminated in determining the site or location of facilities, unless selection was made with the purpose of excluding individuals from, denying them the benefits of, or subjecting them to discrimination under any program on the grounds of race, color, sex, religion, national origin, political affiliation, sexual orientation, age or handicap or with the purpose of substantially impairing the accomplishment of the objectives of this part.

(c) A recipient shall conduct its programs and activities so that, when viewed in their entirety, they are readily accessible to and usable by handicapped persons. This paragraph does not necessarily require a recipient to make each of its existing facilities or every part of an existing facility accessible to and usable by handicapped persons, or require a recipient to make structural changes in existing facilities when other methods are effective in achieving compliance. In choosing among available methods for meeting the requirements of this paragraph, a recipient shall give priority to those methods that offer legal services to handicapped persons in the most integrated setting appropriate.

(d) A recipient shall, to the maximum extent feasible, insure that new facilities it rents or purchases are accessible to handicapped persons. Prior to entering into any lease or contract for the purchase of a building, a recipient shall submit a statement to the regional office or other appropriate Corporation official certifying that the facilities covered by the lease or contract will be accessible to handicapped persons, or if the facilities will not be accessible, a detailed description of the efforts the program made to obtain accessible space, the reasons why the inaccessible facility was nevertheless selected, and the specific steps that will be taken by the recipient to insure that its services are accessible to handicapped persons who would otherwise use that facility. After a statement certifying facility accessibility has been submitted, additional statements need not be resubmitted with respect to the same facility, unless substantial changes have been made in the facility that affect its accessibility.

(e) A recipient shall ensure that new facilities designed or constructed for it are readily accessible to and usable by handicapped persons. Alterations to existing facilities shall, to the maximum extent feasible, be designed and constructed to make the altered facilities readily accessible to and usable by handicapped persons.

§ 1624.6 Discrimination prohibited—employment practices.

(a) No recipient to which this part applies shall directly or through contractual or other arrangements subject any person to discrimination in employment on the grounds of race, religion, color, sex, age, marital status, national origin, handicap, political affiliation or sexual orientation.

(b) A recipient shall make all decisions concerning employment in a manner insuring that discrimination on the basis of race, religion, color, sex, age, marital status, national origin, handicap, political affiliation or sexual orientation does not occur in the terms, conditions or privileges of employment.

(c) A recipient may not participate in any contractual or other relationship with persons, agencies, organizations or other entities, such as, but not limited to, employment and referral agencies, labor unions, organizations providing or administering fringe benefits to employees of the recipient, and organizations providing training and apprenticeship programs, if the practices of such person, agency, organization or other entity have the effect of subjecting qualified applicants or employees to discrimination on any of the bases enumerated in this subpart.

(d) A recipient program shall make reasonable accommodation to the known physical or mental limitations of an otherwise qualified handicapped applicant or employee unless the

accommodation would impose an undue hardship on the operation of the program.

(1) For purposes of this paragraph (d), reasonable accommodation may include (i) making facilities used by employees readily accessible to and usable by handicapped persons, and (ii) job restructuring, part-time or modified work schedules, acquisition or modification of equipment or devices, the provision of readers or interpreters, and other similar actions.

(2) In determining whether an accommodation would impose an undue hardship on the operation of a recipient, factors to be considered include, but are not limited to, the overall size of the recipient's program with respect to number of employees, number and type of facilities, and size of budget, and the nature and costs of the accommodation needed.

(3) A recipient may not deny any employment opportunity to a qualified handicapped employee or applicant if the basis for the denial is a need to make reasonable accommodation to the physical or mental limitations of the employee or applicant.

(e) A recipient may not use employment tests or criteria that discriminate against handicapped persons, and shall insure that employment tests are adapted for use by persons who have handicaps that impair sensory, manual or speaking skills.

(f) A recipient may not conduct a pre-employment medical examination or make a pre-employment inquiry as to whether an applicant is a handicapped person or as to the nature or severity of a handicap except where the examination or inquiry is related to an essential job function.

(g) A recipient shall post a notice in a prominent place in each of its offices stating that it does not discriminate on any of the bases enumerated in this subpart.

(h) Any recruitment materials published or used by a recipient shall include a statement that the recipient does not discriminate.

Subpart C—Required Recipient Civil Rights Program

§ 1624.7 Assurance.

(a) Every application for financial assistance submitted under the Legal Services Corporation Act shall contain the assurance that the program will comply with this part.

§ 1624.8 Data and information requirements.

(a) Each recipient shall collect, maintain and, upon request of the Corporation, submit the information set forth in this subpart. All information set forth in this subpart shall be collected unless the Director of the Corporation's Office of Equal Opportunity or his/her designee grants a written exemption to any information requirement for good cause shown by the recipient.

(b) Each recipient shall collect and maintain the following information:

(1) All information required by the Corporation in its instructions to recipients titled Application for Refunding;

(2) Data regarding employment including: (i) the number, race, sex and national origin of applicants for employment; (ii) relevant work force availability data by race, sex and national origin; (iii) staff composition by race, sex and national origin; (iv) the use or planned use of bilingual staff to provide equal access to legal services for members of minority language groups and (v) documentation of all recruitment efforts made in filling program vacancies; and

(3) A log of complaints under this part identifying the nature of the complaint, the date the complaint was filed, the date the recipient's investigation was completed and the disposition and date of the disposition.

(c) Each recipient shall permit access by the Corporation during normal business hours to its books, records, accounts, and other sources of information as may be pertinent to ascertain compliance with this part, except where such information would violate client confidentiality.

§ 1624.9 Required recipient civil rights program—delivery of services.

(a) Recipients shall provide equal access to legal services to eligible clients regardless of race, religion, color, sex, age, national origin, handicap, political affiliation or sexual orientation and shall adopt:

(1) a written policy of equal access to services and equal employment opportunity and

(2) a written procedure for the uniform handling of complaints of discrimination approved by the Regional Office or Research Institute.

(b) A recipient shall designate a person to be responsible for monitoring each aspect of its civil rights program and an employee to assist persons alleging discrimination who shall be someone not responsible for the recipient's personnel decisions.

(1) This employee shall (i) be available to provide aggrieved persons with assistance in processing claims of discrimination, (ii) have the authority to review the underlying facts of such complaints and (iii) when requested by the complainant, shall seek to conciliate the complaint. This employee shall not be deemed to represent the complainant.

(2) In cases of claims of discrimination in the delivery of services where conciliation is not possible, the complainant shall be afforded all rights under the recipient's client grievance procedure adopted pursuant to § 1621.

(c) To insure that language minority persons have equal access to legal services, in any area where five percent of the eligible population are members of a minority language group, a recipient shall take the following steps:

(1) Employ persons who are bilingual in English and in the appropriate minority language in public contact positions in numbers sufficient to accommodate the needs of the client community;

(2) Place bilingual employees in job categories where necessary to promote equal access to legal services including but not limited to clerical positions where it is necessary to translate materials into a minority language, attorney positions, paralegal positions, investigator positions and other positions which involve client contact and the direct provision of services;

(3) Provide informational literature, forms, notices, letters and other materials available to English-speaking clients in appropriate minority language(s).

(4) Conspicuously post signs in the appropriate minority language(s) stating that clients may request and receive services in those languages.

(d) Where a receipt serves an area where members of minority language groups comprise less than five percent of the eligible population, the recipient shall take all steps necessary to develop an appropriate capability for communicating with minority language clients or potential clients and shall make reasonable effort to comply with (c)(1)–(4) of this subpart.

(e)(1) A recipient that employs a total of 15 or more persons, regardless of whether such persons are employed at one or more locations, shall provide, when necessary, appropriate auxiliary aids to persons with impaired sensory, manual or speaking skills, in order to afford such persons an equal opportunity to benefit from the recipient's services. A recipient is not required to maintain such aids at all times, provided they can be obtained on reasonable notice.

(2) The Corporation may require a recipient with fewer than 15 employees to provide auxiliary aids where the provision of such aids would not

significantly impair the ability of the recipient to provide its services.

(3) Auxiliary aids include, but are not limited to, brailled and taped material, interpreters, telecommunications equipment for the deaf, and other aids for persons with impaired hearing, speech or vision.

(f) A recipient shall take reasonable steps to insure that communications with its applicants, employees, and beneficiaries are available to persons with impaired vision and hearing.

§ 1624.10 Required recipient civil rights program—employment.

(a) Recipients shall use the structure set out in § 1624.9(a) (1) and (2) and (b)(1) to ensure equal opportunity in employment regardless of race, religion, color, sex, age, marital status, national origin, handicap, political affiliation or sexual orientation.

(b) Recipients with 50 or more employees must implement an affirmative action plan approved by the Corporation's Director of Office of Equal Opportunity or his/her designee. All other recipients must develop an Equal Opportunity program in accordance with § 1624.9(a) (1) and (2) and (b)(1).

(c) Before developing an affirmative action plan or equal opportunity policy statement, a recipient shall determine if underutilization on the basis of race, national origin or sex occurs in any job category or unit of its work force by using an underutilization formula approved by the Corporation's Director of Office of Equal Opportunity or his/her designee.

(d) Written affirmative action plans required by this subpart must include at least the following elements:

(1) An Equal Opportunity policy statement;

(2) Specific data by race, national origin and sex concerning the recipient's current work force, applicant flow, hirings, promotions, training attendance, terminations and disciplinary actions;

(3) Appropriate labor force characteristics, including a breakdown by race, national origin and sex;

(4) A program of remedial or preventive action to correct employment disparities based on race, sex, or national origin;

(5) Goals and timetables to correct underutilization of women and minorities;

(6) A procedure for publicizing and disseminating the plan to all employees, applicants and the general public;

(7) A procedure for prompt and uniform handling of complaints of employment discrimination.

(e) The enumeration of specific requirements for an affirmative action plan does not limit the authority of the Corporation to require other elements in Recipient's Affirmative Action Plans in the presence of a past history of noncompliance with this part.

Subpart D—Conduct of Investigation and Review

§ 1624.11 Monitoring.

(a) The Corporation shall monitor those recipients having the greatest disparity in the delivery of legal services on any basis prohibited by this part or appearing to have the most serious systematic employment problems.

(b) If the monitoring process finds noncompliance with this Part, the Corporation shall notify the recipient in writing of:

(1) Preliminary findings;

(2) Recommendations for achieving voluntary compliance, where appropriate; and

(3) The opportunity to engage in voluntary compliance negotiations, where appropriate.

(c) If voluntary compliance has not been secured within 30 days of the Corporation's recommendations, the Corporation shall make a formal written determination of noncompliance and the Corporation shall undertake the imposition of such sanctions as may be appropriate.

(d) All agreements to come into voluntary compliance shall be in writing, shall set forth the specific steps the recipient has agreed to take, and shall be signed by the Corporation's Director of Office of Equal Opportunity and an official of the recipient with authority to legally bind the recipient.

§ 1624.12 Complaint process.

(a) In addition to or in lieu of using the recipient's complaint process, a complainant may file a complaint directly with the Corporation's Office of Equal Opportunity alleging a pattern and practice of discrimination by the recipient in the delivery of services or employment.

(b) If a complainant files an allegation of a pattern and practice of discrimination with the Corporation prior to availing itself of the recipient's grievance procedure, the recipient shall immediately be advised of the complaint and given 30 days in which to investigate, hear and attempt to resolve the complaint. Upon completion of the grievance process, the recipient shall submit written findings to the appropriate Regional Office or the Research Institute and the Corporation's Office of Equal Opportunity.

(c) No recipient shall intimidate, threaten, coerce, retaliate or discriminate against a person in order to interfere with any right secured by this part or applicable Federal or State law, or because he/she has made a complaint, testified, assisted or participated in any manner in any investigation, proceeding or hearing under this part.

Subpart E—Procedure for Effecting Compliance

§ 1624.13 Remedies.

(a) Failure to comply with this part shall be regarded by the Corporation in the same manner as the Corporation regards a recipient's failure to comply with any other section of the Act or implementing regulations. Accordingly, the procedures described in Part 1606 may be pursued in the presence of violation of this part by a recipient.

(b) A recipient found to have discriminated in the delivery of services on the basis of race, color, sex, national origin, age, or handicap may be required to take affirmative action to overcome the effects of prior discrimination. Even in the absence of such prior discrimination, a recipient, in administering a program, may take affirmative action to overcome effects or conditions which result in limiting participation by persons on the grounds of race, color, sex, national origin, age or handicap.

(c) Where a recipient is found to have a work force or segment of the work force not on parity with the relevant labor market, the Regional Office or Research Institute may require its approval prior to the filling of all vacancies in such segment(s) of the recipient's work force in order to assure maximum efforts of affirmative action.

Mario Lewis,

General Counsel, Legal Services Corporation.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

49 CFR Part 583

[Docket No. 79-17; Notice 2]

Crashworthiness Ratings; Correction

AGENCY: National Highway Traffic Safety Administration.

ACTION: Notice of proposed rulemaking; correction.

SUMMARY: This notice corrects inadvertent errors in the text of the National Highway Traffic Safety

Administration's (NHTSA) notice of proposed rulemaking proposing establishment of a new car crashworthiness performance ratings program.

FOR FURTHER INFORMATION CONTACT:
Mr. Steve Zaidman, Office of Automotive Ratings, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590, 202–426–1740.

SUPPLEMENTARY INFORMATION: In FR Doc. 81–2257, appearing on page 7025, in the issue of Thursday, January 22, 1981, make the following corrections:

1. On page 7025, under the heading "FOR FURTHER INFORMATION CONTACT:" the telephone number should read "202–426–1740".

§ 583.6 [Corrected]

2. On page 7030, in § 583.6(d)(2) the words "S4 of" should be deleted in the second place they appear.

3. On page 7030, in § 583.6(d)(4) the designation reading "S6" should read "S5.6".

§ 583.7 [Corrected]

4. On page 7030, in § 583.7 the final designation reading "§ 583.6(a)" should read "§ 583.5(a)".

(Secs. 201, 203; Pub. L. 92–513, 80 Stat. 947 (15 U.S.C. 1941, 1944); secs. 112, 119, Pub. L. 89–563, 80 Stat. 718 (15 U.S.C. 1401, 1407), delegations of authority at 49 CFR 1.50 and 501.8)

Issued on March 16, 1981.

Michael M. Finkelstein,
Associate Administrator for Rulemaking.

Notices

Federal Register
Vol. 46, No. 55
Monday, March 23, 1981

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

OFFICE OF THE FEDERAL INSPECTOR FOR THE ALASKA NATURAL GAS TRANSPORTATION SYSTEM

Final Design Cost Estimate

AGENCY: Office of the Federal Inspector for the Alaska Natural Gas Transportation System..

ACTION: Notice of Tentative Decision, and Request for Public Comments, on the Final Design Cost Estimate of the Eastern Leg "Prebuild" Segment of the Alaska Natural Gas Transportation System.

Take notice that on March 20, 1981, the Office of the Federal Inspector (OFI) made a tentative decision on the Final Design Cost Estimate (FDCE) submitted by the Northern Border Pipeline Company for the "prebuild" section of the Eastern Leg of the Alaska Natural Gas Transportation System. Copies of this tentative decision are available by writing or telephoning: Mr. Richard Berman, director, Audit and Cost Analysis, Office of the Federal Inspector, ANGTS, Room 2413, Post Office Building, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20044 (202) 275–1153.

Public comments on this tentative decision should be submitted in writing to the OFI, at the same address, by April 6, 1981.

As a first step to implement the Incentive Rate of Return (IROR) for the Eastern Leg "prebuild," the Federal Energy Regulatory Commission on April 28, 1980, set the Certification Cost and Schedule Estimate (CCSE) at $1,061,581,000 (1979 dollars). Subsequently, Northern Border applied to the OFI for approval of changes to its certificated design. These engineering and schedule matters have already been analyzed and approved, where appropriate, by the OFI. As a related matter, Northern Border seeks OFI approval of an increase of about $180 million from its CCSE to yield its FDCE, upon which the IROR will operate during construction.

It is solely this $180 million portion of the FDCE to which the OFI's tentative decision is, and public comments should be, addressed. How do these designs changes comport with Condition 9 of the FERC's Order Nos. 31 and 31–B?

Dated: March 18, 1981.

John T. Rhett,
Federal Inspector.

BILLING CODE 6320-AW-M

CIVIL AERONAUTICS BOARD

[Docket 38230; Order 81-3-63]

Southern Air Transport, Inc.; Petition; Order

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 13th day of March, 1981.

By Order 80–7–147, July 24, 1980, the Director, Bureau of Domestic Aviation, acting under delegated authority, dismissed as moot the application of Southern Air Transport [1] for an emergency exemption from section 401 of the Federal Aviation Act to permit it to operate, during the period June 10–August 31, 1980, cargo charter flights on behalf of Bering Pacific between various points, all of which are within the State of Alaska.[2]

On August 7, 1980, Southern filed a petition for reconsideration and request for formal investigation of the staff's handling of the application.[3]

Southern also stated that, although the 1980 salmon season in Alaska was coming to a close, the issues raised by its exemption application are not moot and should be resolved. Therefore, it urged us to review the action of the staff and grant its application on its merits.

We will deny Southern's request for a special investigation of the staff's handling of its application. This matter is now moot and no purpose would be served by a further consideration of it.

We have decided to grant all air carriers an exemption from the provisions of the Act and our own regulations to the extent necessary to permit them to engage in air transportation between any two points in Alaska, *subject to the condition that the carrier also hold authority from the Alaska Transportation Commission for all intra-Alaska operations.*

This decision, which essentially confers upon the State of Alaska the authority to decide whether to grant or deny requests for authority to operate by exemption between points in Alaska, is consistent both with the law, which reserves to the State of Alaska a unique position in the federal regulatory system, and with our intention to simplify and reduce the burdens of joint State and Federal economic regulation of air service within Alaska to the extent that we are able to do so.

The threshold issue raised by an application like Southern's in Docket 38230 is whether we have jurisdiction at all over transportation between two points that lie wholly within Alaska. Although some persons have suggested that there are provisions of the Deregulation Act which foreclose, or limit, our jurisdiction over air transportation between points in Alaska, we do not agree.[4] In fact, we have consistently exercised control over air transportation between points that lie wholly within the same state if the carrier transports more than a *de minimis* volume of traffic moving as part of a continuous journey in interstate

[1] Southern holds authority as a charter air carrier under section 401 for operations in interstate and overseas air transportation (Order 79–12–31) and foreign air transportation (Order 80–1–67) and as an all-cargo air carrier under section 418 (Order 78–5–129). These certificates do not, however, include authority to engage in interstate air transportation between points wholly within Alaska.

[2] King Salmon-Anchorage, King Salmon-Kenai, King Salmon-Homer, Bethel-Anchorage, Egegik-Anchorage, Egegik-King Salmon, Egegik-Homer, and Egegik-Kenai. Southern's application was acted on concurrently with a similar application filed by Rosenbalm Aviation, Inc. (Docket 38228). Wien Air Alaska, Inc. and Northern Air Cargo, Inc. filed an answer in opposition to Southern's application. Alaska International Air, Inc. and Great Northern Airlines, Inc. filed answers stating that all of these operations, except the Alaska-Canada flights and those flights within Alaska on which the cargo was shortly transshipped for carriage to Canada, were intrastate and, that we should dismiss them as beyond our jurisdiction and moot the balance of the pending applications. They also claimed that Rosenbalm and Southern concur in this "analysis and that their applications for exemption authority to operate intrastate movement were filed out of an abundance of caution."

[3] Southern's petition is, in fact, a petition for Board review of staff action and, therefore, will be treated as such.

[4] See answer of Alaska International Airlines, Inc. and Great Northern Airlines, Inc., June 3, 1980, in Docket 38230.

commerce.[6] We conclude that no provision of the Airline Deregulation Act reduced our jurisdiction with respect to interstate air transportation between two points in the same state in a manner relevant here.[6]

We have also decided that it is in the public interest and consistent with efficient administration of both Alaskan and Federal regulatory policy to exempt all air carriers from the Federal laws and regulations that would otherwise prevent them from providing service between two points in Alaska but to condition this exemption so that it is ineffective unless the carrier also holds state authority for the intra-Alaska service.

Alaska is the one state not totally pre-empted by the Airline Deregulation Act from regulating carriers that hold federal authority. *See* Section 105(a)(2). Congress recognized the absolute dependence of some areas of the State on air transportation and in a number of provisions included specific limitations on our power to grant authority to serve intra-Alaska markets. For example, section 401(n)(3) specifically forbids us from issuing charter certificates between two points in Alaska unless we specifically authorize such charter air transportation after determining that it is *required* by the public convenience and necessity. Section 418(b)(3) prohibits us from including authority to engage in all-cargo air service between points located within Alaska or Hawaii in certificates issued under section 418.[7] Section 416(b)(5) states:

> The exemption from section 401 of this title or any other requirement of this Act shall not apply to any air transportation by any carrier between points both of which are in the State of Alaska, or one of which is in the State of Alaska and the other in Canada, unless such air carrier also holds authority to provide such air transportation from the State of Alaska.

See also sections 401(d)(5) (A) and (D) 419(f)(2).

A blanket Federal exemption of the kind that we propose here permits the State to determine, by its standards, whether a praticular service within Alaska is needed and whether an applicant should be permitted to provide it. It avoids the necessity for any class of carriers to deal with both Federal and State authorities in order to receive an intra-Alaskan exemption. Air service between many Alaskan communities is the only convenient form of transportation available, and its reliability is monitored closely by the State.[8]

Although we are granting the exemption as described above, we will accept comments on our action. Comments are due in 30 days; replies are due 15 days after that. Upon receipt of any comments, we will decide whether any modification to this decision is necessary.

Accordingly, 1. We grant Southern's petition for review of staff action in Docket 38230, and deny its request for an investigation of staff action;

2. We grant a blanket exemption to all U.S. certificated air carriers to engage in air transportation between any two points in Alaska provided that the carrier holds authority to operate from the Alaska Transportation Commission for its intra-Alaska service;

3. We direct interested persons to file comments no later than April 15, 1981;

4. Reply comments are due no later than April 30, 1981; and

5. We will serve a copy of this order on all parties in the attached service list.[9]

. We will publish this order in the Federal Register.

By the Civil Aeronautics Board.

Phyllis T. Kaylor,

Secretary.

[FR Doc. 81-8781 Filed 3-20-81; 8:45 am]

BILLING CODE 6320-01-M

[6] *C.A.B.* v. *Friedkin Aviation*, 246 F.2d 173 (1957); *People of the State of Cal.* v. *C.A.B.*, 501 F.2d 954 (D.C. Cir. 1978); *People of the State of Cal., et. al.* v. *C.A.B.* 567 F.2d 1 (D.C. Cir. 1977), aff'd Orders 78-5-77, May 12, 1978, 75-9-78, September 22, 1975, and 75-6-135, June 27, 1975. *See also* Orders 80-3-9, March 3, 1980, 79-6-167, June 26, 1979, 79-4-85, April 12, 1979, 78-11-62, November 16, 1978, 78-7-162, July 28, 1978; and 78-5-77, May 12, 1978.

[6] Pub. L. 95-504, October 24, 1978.

[7] There is a question of whether this section applies to all exemptions or only to air taxis. We need not decide that question here in view of our action here.

[8] Under the present statutory scheme, carriers that hold a 401 certificate for scheduled service between any two Alaskan points are beyond the reach of the Alaska Transportation Commission since, as to these licensees, Alaska has been pre-empted. See section 105 of the Act. Therefore, this group of certificated carriers can operate between Alaskan points on their certificates without obtaining additional State approval. Carriers that seek intra-Alaska authority for service that is predominantly interstate in character, e.g., for direct service operated on a Fairbanks-Anchorage-Seattle routing, may apply for a specific exemption that does not require ATC approval.

[9] Service List filed as part of the original document.

CIVIL RIGHTS COMMISSION

Illinois Advisory Committee; Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a meeting of the Illinois Advisory Committee to the Commission will convene at 10:00 a.m. and will end at 5:00 p.m., on April 10, 1981, at 230 South Dearborn Street, Chicago, Illinois 60604. The purpose of this meeting is for the Housing Subcommittee to develop project concept for FY 81–82; and organize Subcommittee for follow up on Chicago desegregation monitoring.

Persons desiring additional information or planning a presentation to the Committee, should contact the Chairperson, Miss Theresa F. Cummings, 2836 West Lawrence Avenue, Springfield, Illinois 62704, (217) 788–0751; or the Midwestern Regional Office, 230 South Dearborn Street, Chicago, Illinois 60604, (8) 353–7371.

The meeting will be conducted pursuant to the provisions of the rules and Regulations of the Commission.

Dated at Washington, D.C., March 16, 1981.

John I. Binkley,

Advisory Committee Management Officer.

BILLING CODE 6335-01-M

Maryland Advisory Committee; Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a meeting of the Maryland Advisory Committee to the Commission will convene at 3:30 to 5:30 p.m. (Business Session), and 7:00 to 9:30 p.m. (Forum), on April 22, 1981, at the Government Office Building, Council Chambers, North Division Street and Route 50, Salisbury, Maryland 21801. The purpose of this meeting is—Business Session: release the Maryland Conference Report, discuss followup on Baltimore Police Complaint Evaluation Procedure Report, monitoring of hate groups, State Government's role in Federal antipoverty funding, and other new business; Eastern Shore Forum: equal opportunities in Somerset County educational systems and Wicomico County government, and police practices in the City of Salisbury.

Persons desiring additional information or planning a presentation to the Committee, should contact the Chairperson, Mr. Newton I. Steers, Jr., 6801 River Road, Bethesda, Maryland 20034, (301) 320–5820; or the Mid-Atlantic Regional Office, 2120 L Street, N.W., Room 510, Washington, D.C. 20037, (202) 254–6717.

The meeting will be conducted pursuant to the provisions of the Rules and Regulations of the Commission.

Dated at Washington, D.C., March 18, 1981.

John I. Binkley,

Advisory Committee Management Officer.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 172]

Approval for Expansion of Foreign-Trade Zone No. 33, Allegheny County, Pennsylvania, Within the Pittsburgh Customs Port of Entry

Pursuant to its authority under the Foreign-Trade Zone Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), and the Foreign-Trade Zones Board Regulations (15 CFR Part 400), the Foreign-Trade Zones Board (the Board) adopts the following order:

Whereas, the Regional Industrial Development Corporation of Southwestern Pennsylvania (RIDC), Grantee of Foreign-Trade Zone No. 33, has applied to the Board for authority to expand its general-purpose zone located at RIDC's Park West facility, to include three additional sites within the facility in Allegheny County, near the Greater Pittsburgh International Airport and within the Pittsburgh Customs port of entry;

Whereas, the application was accepted for filing on October 14, 1980, and notice inviting public comment was given in the Federal Register on October 21, 1980 (45 FR 69525);

Whereas, an examiners committee has investigated the application in accordance with the Board's regulations and recommends approval;

Whereas, the expansion is necessary to provide zone services to new tenants whose operations cannot be accommodated within existing zone space; and

Whereas, the Board has found that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's Regulations are satisfied, and that approval of the application is in the public interest;

Now, therefore, the Board hereby orders:

That the Grantee is authorized to expand its zone in accordance with the application filed October 14, 1980. The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any manufacturing operations not mentioned in the application. The authority given in this Order is subject to settlement locally by the District Director of Customs and the District Army Engineer regarding compliance with their respective requirements relating to foreign-trade zones.

Signed at Washington, D.C. this 16th day of March 1981.

Malcolm Baldrige,

Secretary of Commerce, Chairman and Executive Officer, Foreign-Trade Zones Board.

Attest:

John J. Da Ponte, Jr.,

Executive Secretary.

BILLING CODE 3510-25-M

[Order No. 173]

Approval for Relocation of Foreign-Trade Zone No. 20, From Portsmouth to Suffolk, Va., Adjacent to the Norfolk-Newport News Customs Port of Entry

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), and the Foreign-Trade Zones Board Regulations (15 CFR Part 400), the Foreign-Trade Zones Board (the Board) adopts the following order:

Whereas, the Virginia Port Authority, Grantee of Foreign-Trade Zone No. 20, has applied to the Board for authority to relocate its general-purpose zone from Portsmouth to nearby Suffolk, Virginia, adjacent to the Norfolk-Newport News Customs port of entry;

Whereas, the application was accepted for filing on November 25, 1980, and notice inviting public comment was given in the Federal Register on December 2, 1980 (45 FR 79660);

Whereas, as examiners committee has investigated the application in accordance with the Board's regulations and recommends approval;

Whereas, the proposed relocation is necessary for effective and efficient zone operations in the area; and

Whereas, the Board has found that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's Regulations are satisfied, and that approval of the application is in the public interest;

Now, therefore, the Board hereby orders:

That the Grantee is authorized to relocate its zone from Portsmouth to Suffolk, Virginia, in accordance with the application filed November 25, 1980. The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any manufacturing operation within the new site. The authority given in this Order is subject to settlement locally by the District Director of Customs and the District Army Engineer regarding compliance with their respective requirements relating to foreign-trade zones.

Signed at Washington, D.C. this 16th day of March 1981.

Malcolm Baldrige,

Secretary of Commerce, Chairman and Executive Officer, Foreign-Trade Zones Board.

Attest:

John J. Da Ponte, Jr.,

Executive Secretary.

BILLING CODE 3510-25-M

Maritime Administration

[Docket No. S-680]

Seabulk Transmarine I, Inc.; Seabulk Transmarine II, Inc.; and Seabulk Transmarine III, Inc.; Application for Written Permission Under Section 805(a) of the Merchant Marine Act, 1936, as Amended (Act)

Notice is hereby given that Seabulk Transmarine I, Inc. (STM I); Seabulk Transmarine II, Inc. (STM II) and Seabulk Transmarine III, Inc. (STM III), following approval of their application of September 23, 1980, as amended by

letter of February 6, 1981, have requested by letter of March 17, 1981, further writtten permission under section 805(a) of the Act. The following subsidiaries of Occidental Petroleum Corporation (OXY) hold Operating-Differential Subsidy (ODS) contracts to aid in the operation of three CATUG integrated tug and barge units (vessels), and the subject applicants anticipate assignment of the ODS contracts to them as follows:

ODS Contract Holders and Anticipated Assignees

Suwannee River Finance, Inc.—STM I
Suwannee River SPA Finance, Inc.—STM II
Suwannee River Phosphate Finance, Inc.—STM III

STM I, STM II, and STM III are Florida corporations organized to operate the vessels and are wholly-owned subsidiaries of Hvide Marine International, Inc., which is principally owned by Hans J. Hvide, as Trustee.

The applicants advise that under the presently contemplated structure, the following OXY subsidiaries will bareboat charter the vessels and the applicants will sub-bareboat charter the vessels from those OXY subsidiaries as follows:

Contemplated Bareboat Charterers and Contemplated Sub-bareboat Charterers

Suwannee River Lines, Inc.—STM I
Suwannee River SPA Lines, Inc.—STM II
Suwannee River Phosphate Lines, Inc.—STM III

The applicants further advised that pursuant to a management agreement to be arranged, Hvide Shipping, Incorporated (HSI) will manage the operations of the vessels on behalf of STM IM, STM II, nad STM III. HSI is, also, a Florida corporation wholly-owned by Hans J. Hvide.

On March 17, 1981 the Maritime Subsidy Board (Board) took the following action with respect to the September 23, 1980 applications as amended by letter of February 6, 1981:

I. Found and determined that the grant of written permission to the applicants, pursuant to section 805(a) of the Merchant Marine Act, 1936, as amended (Act), will not result in unfair competition to any person, firm or corporation operating exclusively in the coastwise or intercoastal service nor be prejudicial to the objects and policy of the Act, with respect to the following operations of their associated companies: (1) for Hvide Shipping, Incorporated (HSI), an affiliate of the applicants, to have time chartered the *Seabulk Magnachem* and SCC 3902 to Diamond Shamrock Corporation for a period of 20 years with a five-year renewal option, which vessel is engaged in the carriage of liquid chemicals, petroleum or petroleum products in the domestic intercoastal and coastwise service; (2) for Seabulk Tankers, Ltd., a subsidiary of HSI, to have time chartered the *Seabulk Challenger* and *STL 3901* to Shell Oil Company for 10 years with three five year renewal options, which vessel is engaged in the carriage of liquid chemicals, petroleum or petroleum products in the domestic intercoastal and coastwise service; (3) for HSI to own the harbor tugs *Fort Lauderdale, Capt. Nelson* and *Everglades* which are operated exclusively at Port Everglades, Florida; and (4) for HSI to own the harbor tugs *Capt. Brinn* and *Hollywood* which are operated exclusively at Port Canaveral, Florida.

II. Granted written permission, pursuant to section 805(a) of the Act, for the above described domestic operation, subject to actual assignment of operating-differential subsidy contracts to the subject applicants.

III. Authorized amendment of Article I-12 of Operating-Differential Subsidy Agreement, Contract Nos. MA/MSB-440, MA/MSB-441 and MA/MSB-442 to reflect the above actions.

By letter of March 17, 1981, the applicants advised that the harbor tugs *Capt. Brinn* and *Hollywood* are bareboat chartered by Hvide Shipping, Incorporated (HSI) to Port Everglades Towing, Inc. (PET), a Florida corporation which is an affiliate of Seabulk Transmarine I, Inc., Seabulk Transmarine II, Inc. and Seabulk Transmarine III, Inc. through the common stock ownership in Hvide Marine International, Inc. and PET by J. Erik Hvide and Hans J. Hvide, as trustee.

PET has an operating agreement with HSI pursuant to which HSI operates and manages *Capt. Brinn* and *Hollywood*. PET has no employees or operating capability of its own. Its role in regard to *Capt. Brinn* and *Holywood* is entirely passive and relates only to internal financial considerations.

At the time the application was filed, the applicants did not deem it necessary to request permission in regard to PET because it is not involved in the ownership or operation of *Capt. Brinn* and *Hollywood* or indeed, any other vessels and hence is not in a position to divert subsidy, which section 805(a) is intended to prevent. However, such permission is now requested.

The letter of February 6, 1981 also stated, in reference to the five harbor tugs, that "the aforesaid vessels are operated exclusively in the two respective ports." By letter of March 17, 1981, the applicants advised that this language was intended to indicate that all of the tugs were operated from time to time in both ports and no where else. In the written permission pursuant to section 805(a) it is stated that the tugs *Fort Lauderdale, Capt. Nelson* and *Everglades* are operated exclusively at Port Everglades, Florida, and the tugs *Capt. Brinn* and *Hollywood* are operated exclusively at Port Canaveral, Florida. The applicants request that this language be modified to reflect their intention.

The approval of the subject requests for written permission under section 805(a) would be subject to actual assignment of the ODS contracts to the applicants in accordance with section 606 of the Act.

Any person, firm, or corporation having any interest in such application (within the meaning of section 805(a)) and desiring to submit comments concerning the application must file written comments in triplicate with the Secretary, maritime Administration, by close of business on March 20, 1981, together with petition for leave to intervene. The petition shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing will be held, the purpose of which will be to receive evidence under section 805(a) relative to whether the proposed operations (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal service, or (b) would be prejudicial to the objects and policy of the Act relative to domestic trade operations.

(Catalog of Federal Domestic Assistance Program No. 11.504 Operating-Differential Subsidies (ODS))

By Order of the Assistant Secretary for Maritime Affairs/Maritime Subsidy Board.

Dated: March 18, 1981.

Robert J. Patton, Jr.,

Secretary.

BILLING CODE 3810-15-M

National Oceanic and Atmospheric Administration

Receipt of Application for Marine Mammal Permit; National Museum of Natural History

Notice is hereby given that an Applicant has applied in due form for a permit to take marine mammals as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216), the Endangered Species Act of 1973 (16 U.S.C. 1531–1543), and the National Marine Fisheries Service regulations governing endangered fish and wildlife permits (50 CFR Parts 217–222).

1. Applicant:

a. Name: National Museum of Natural History (P6E).

b. Address: Smithsonian Institution, Washington, D.C. 20560.

2. Type of Permit: Scientific research and scientific purposes.

3. Name and Number of Animals: Unspecified cetaceans, undetermined. Dugong (Dugong dugon), undetermined.

4. Type of Take: The applicant wishes to import scientific materials from opportunistically collected cetaceans and dugongs from beach cast and subsistence specimens in Indonesia.

5. Location of Activity: Indonesia.

6. Period of Activity: 1 year.

Concurrent with the publication of this notice in the Federal Register the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Assistant Administrator for Fisheries, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, on or before April 22, 1981. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries.

All statements and opinions contained in this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Documents submitted in connection with the above application are available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, D.C.; Director, Wildlife Permit Office, Fish and Wildlife Service, Federal Wildlife Office, U.S. Department of the Interior, Washington, D.C. 20240; and Director, National Marine Fisheries Service, Northeast Region, 14 Elm Street, Federal Building, Gloucester, Massachusetts 01930.

Dated: March 13, 1981.

Richard B. Roe,

Acting Director, Office of Marine Mammals and Endangered Species, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Modification of Marine Mammal Permit; Washington State, Department of Game

Notice is hereby given that pursuant to the provisions of § 216.33 (d) and (e) of the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216), Permit No. 305 issued to the State of Washington, Department of Game, 53 Portway Street, Astoria, Oregon 97103 on October 10, 1980 (45 FR 69533) is modified as follows:

Section B–3 is modified by changing the allowable loss rate during the 1981 and 1982 field seasons from 10% to 33⅓%. This makes Condition B–3 consistent with Condition A–1 which allows the striking of 150 animals in the attempt to collect 100 specimens.

Dated: March 16, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

BILLING CODE 3910-01-M

ENVIRONMENTAL PROTECTION AGENCY

[ER–FRL 1783–6]

Region IV, Atlanta, Ga.; Intent To Prepare an Environmental Impact Statement

AGENCY: U.S. Environmental Protection Agency, Region IV, Atlanta, Georgia.

ACTION: Preparation of Environmental Impact Statement (EIS).

PURPOSE: In accordance with Section 102(2)(C) of the Environmental Policy Act, the EPA has identified a need to prepare an EIS and therefore publish this Notice of Intent pursuant to 40 CFR 1501.7.

FOR FURTHER INFORMATION CONTACT: Mr. Ted Bisterfeld, EIS Branch Environmental Protection Agency, 345 Courtland Street NE., Atlanta, Georgia 30365, Telephone (404) 881–7458.

SUMMARY:

1. Description of Proposed Action.—The EPA action is a decision on issuance of a new source NPDES permit for a 1200 MW coal-fired electric generating station at Jacksonville, Florida. Jacksonville, Electric Authority and Florida Power and Light Company propose joint ownership of the project. Applicant's preferred site is adjacent to the existing Northside Generating Station on the St. Johns River. Extensive additions to the transmission line network are now also proposed.

All feasible alternatives available to the Applicant will be considered in the EIS and all regulatory alternatives available to the Agency in its decision-making will be explored.

Major emphasis of the EIS is expected to be on the assessment of alternatives for reducing JEA dependence on foreign oil, plant siting alternatives, impacts to air quality, impacts from disposal of solid and liquid wastes and impacts to estuarine wetlands.

2. Public Participation Program.—Participation in the EIS process is invited from individuals, organizations, and government agencies.

3. Significant Issues.—Extent to which the proposed coal-fired plant will help the JEA reduce present electric rates.

—Siting of the power plant.

—Impacts to Jacksonville area air quality.

—Power plant wastes management.

—Construction and operational impacts to estuarine wetlands.

4. Scoping.—The EPA, Region IV and the Florida Department of Enviornmental Regulation will hold a joint public scoping meeting in Jacksonville on April 9, 1981. Local notice has been given for this meeting to be held at 7:30 p.m. in the Jacksonville City Health Department, First Floor Auditorium 515 West Sixth Street. EPA will request public comment in the meeting to help the Agency identify major issues which should be addressed in the EIS.

Input to the EIS may also be given by writing the Regional EPA Office.

5. Timing.—The EIS schedule has not been set; but EPA expects to have a draft EIS available in November or December of this year.

6. Requests for Copies of Draft EIS.—Persons wishing to be included on the EIS List should write to the Regional contact named above.

William N. Hedeman, Jr.,

Director, Office of Federal Activities.

March 17, 1981.

BILLING CODE 6720-01-M

FEDERAL RESERVE SYSTEM

Midland Bank Limited; Formation of Bank Holding Company

Midland Bank Limited, London, England, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 50 per cent or more of the voting shares of Crocker National Corporation, San Francisco, California, a bank holding company which owns Crocker National Bank, San Francisco, California. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Midland Bank Limited, London, England, has also applied to do business under section 25(a) of the Federal Reserve Act by acquiring indirectly the shares of three Edge Corporation subsidiaries owned by Crocker National Bank, Crocker Bank International (Chicago), Chicago, Illinois, Crocker Bank International (New York), New York, New York, and Crocker International Investment Corporation, San Francisco, California. The factors that are considered in acting on these applications are set forth in § 211.4(a) of the Board's Regulation K (12 CFR 211.4(a)).

Midland Bank Limited has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire indirectly voting shares of the following subsidiaries of Crocker National Corporation: (1) Bishop Building Co., Inc., Honolulu, Hawaii, which owns and operates the Bishop Trust Building in Honolulu and leases it to subsidiaries of Crocker National Corporation and other tenants; (2) Bishop Trust Company, Ltd., Honolulu, Hawaii, which conducts a full-service trust business and provides limited data processing services to other Crocker National Corporation subsidiaries from an office in Honolulu, Hawaii, serving the State of Hawaii, and an office in Hilo, Hawaii, serving the Commonwealth of Guam; (3) Hawaii Finance Company Ltd., Honolulu, Hawaii which operates as an industrial loan company making secured and unsecured loans to individuals from offices in Honolulu and Hilo, Hawaii, serving the State of Hawaii; (4) Miles Crossing Ltd., Honolulu, Hawaii, which owns real estate mortgages and other real estate receivables, and serves the State of Hawaii from an office in Honolulu, Hawaii; (5) CNC Insurance Agency Inc., San Francisco, California, which engages in the activity of acting as agent for credit life and credit accident and health insurance directly related to extensions of credit by Crocker National Corporation's subsidiaries, and serves the State of California from its office in San Francisco, California; (6) Crocker Investment Management Corp., San Francisco, California, which engages in the activity of providing portfolio investment advice and general economic and financial information and advice, and serves customers throughout the United States from its offices in Los Angeles and San Francisco, California; (7) Crocker Mortgage Investment Company Inc., Los Angeles, California, which engages in the activities of originating, purchasing and servicing loans secured by real estate and servicing loans and other extensions of credit for any person throughout the United States from offices in Los Angeles, San Francisco, Century City, and Orange County, California; Phoenix, Arizona; Salt Lake City, Utah; Atlanta, Georgia; Indianapolis, Indiana; and

Chicago, Illinois; (8) Western Bradford Trust Company, San Francisco, California, a trust company which furnishes services to security holders, brokers, dealers and issuers; provides data processing services to Crocker National Corporation and its subsidiaries; and provides computer software services to Crocker National Corporation and its subsidiaries, throughout the western part of the United States from offices in San Francisco and Los Angeles, California; and (9) Crocker Holdings, Inc., Germantown, Tennessee, which holds real estate related assets of Crocker National Corporation that are in the process of liquidation, serves the southeastern part of the United States from its office in Germantown, Tennessee.

In addition, Midland Bank Limited, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act and § 225.4(b)(2) of the Board's Regulation Y, for permission to retain the following indirect subsidiaries: (1) Samuel Montagu (Metals), Inc., New York, New York, which engages in the activity of dealing in precious metals by buying and selling gold and silver on the spot and futures market for its own account, and deals with other precious metals dealers throughout the world from its New York, New York office; (2) Thomas Cook, Inc., New York, New York, a company that engages in the issuance and sale of travelers cheques and serves the United States from offices throughout the country; and (3) London American Finance Corporation, New York, New York, a holding company for Export Credit Corporation, New York, New York, a commercial finance company specializing in overseas trade financing of products manufactured in the United States from its New York office, and LAFCO (Western Hemisphere), Ltd., New York, New York, which markets in the western hemisphere the services of certain financing affiliates and extends credit to Latin American importers of United States products.

In addition, Midland Bank Limited, has applied, pursuant to section 4(c)(8) of the Banking Holding Company Act and § 225.4(b)(2) of the Board's Regulation Y, for permission to retain indirect investments in the following subsidaries of European American Bank, New York, New York, held by that company under the authority of section 4(c)(8): (1) European American Banking Corporation, New York, New York, a New York investment company that primarily provides wholesale financial services from its New York offices to European corporations doing business in the United States; (2) Euram Realty Corporation, Jersey City, New Jersey, which engages in the activity of leasing real property; (3) Euramcor Realty Corporation, Jersey City, which also engages in the activity of leasing real property; and (4) Disk Pack Leasing Corporation, New York, New York, which engages in the activity of leasing personal property.

It appears that the activities applied for have either been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b) or have been authorized by order under section 4(c)(8) in particular cases.

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweight possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any comment on these applications that requests a hearing must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than April 11, 1981.

Board of Governors of the Federal Reserve System, March 12, 1981.

Jefferson A. Walker,

Assistant Secretary of the Board.

Notice Requesting Comment on the Acquisition of Thrift Institutions by Banks and Bank Holding Companies

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Request for comment.

SUMMARY: Congress has asked the Board to undertake a study of the potential effects of the acquisition of thrift institutions by banks and bank holding companies. The Board is soliciting comment from the public on this issue to assist the Board in completing its study.

DATE: Comments must be received by April 30, 1981.

ADDRESS: Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551

FOR FURTHER INFORMATION CONTACT: Michael E. Bleier, Assistant General Counsel (202-452-3721), Carl V. Howard, Senior Attorney (202-452-3786), Legal Division; or Joe M. Cleaver, Assistant Director (202-452-3905), Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

Section 4(c)(8) of the Bank Holding Company Act, 12 U.S.C. 1843(c)(8), provides that bank holding companies may acquire

> • • • [S]hares of any company the activities of which the Board after due notice and opportunity for hearing has determined (by order or regulation) to be so closely related to banking or managing or controlling banks as to be a proper incident thereto. In determining whether a particular activity is a proper incident to banking or managing or controlling banks the Board shall consider whether its performance by an affiliate of a holding company can reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices.

The Board has previously found the operation of a savings and loan association to be "closely related" to banking, but has not determined this activity to be a "proper incident" to banking.[1] Accordingly, interested persons are invited to express their views on the "proper incident" question. The Board's study of the affiliation of banks and bank holding companies and thrift institutions is not limited to this issue, however, and interested persons are also invited to express their views on any potential effects of such affiliation.

The Board has advised the Senate Committee that the Board intends to complete this study by the early summer

---

[1] *D. H. Baldwin Company*, 63 Federal Reserve Bulletin 280 (1977). The Board recently received an application from National Detroit Corporation, Detroit, Michigan, to acquire Landmark Savings and Loan Association, Saginaw, Michigan. The Board has dismissed the application without prejudice to its resubmission following completion of the study.

of 1981. Accordingly, persons wishing to comment on the issues described above should submit their views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received by April 30, 1981.

Board of Governors of the Federal Reserve System, March 16, 1981.

James McAfee,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Consumer Advisory Council; Meeting of Consumer Advisory Council

The Consumer Advisory Council will meet on Wednesday, April 15, and Thursday, April 16. The meeting, which will be open to public observation, will take place in Terrace Room E of the Martin Building. The April 15 session is expected to begin at 1 p.m. and to continue until 5 p.m. The April 16 session is expected to begin at 9 a.m. and to conclude at 3 p.m. The Martin Building is located on C Street, Northwest, between 20th and 21st Streets in Washington, D.C.

The Council's function is to advise the Board on the exercise of the Board's responsibilities with regard to consumer credit legislation and regulation. Time permitting, the Council will consider the following topics:

1. *Revision of Regulation C (Home Mortgage Disclosure).* A discussion of (1) the Board proposed revision of Regulation C to implement recent statutory amendments to the Home Mortgage Disclosure Act and Certain simplifying regulatory changes, and (2) the impact of the Regulatory Flexibility Act on consumer regulations, considered in the context of the Board's current efforts to simplify Regulation C.

2. *Regulation B Enforcement Guidelines.* A discussion of issues raised in the proposed uniform guidelines for the administrative enforcement of Regulation B (Equal Credit Opportunity) and the Fair Housing Act. (The board and four other financial regulatory agencies published proposed guidelines in the summer of 1978. The Federal Financial Institutions Examination Council is currently considering the matter.)

Interstate Banking Activities. A discussion of the impact on consumer markets of current multi-state banking activities made possible by loan production offices, unmanned automated teller machines, and holding company and credit card subsidiaries.

4. *Costs and Benefits of Credit Scoring Proposals.* A general discussion of the costs and benefits to creditors and consumers if the Board adopts two proposed interpretations of Regulation B (Equal Credit Opportunity) regarding a creditor's consideration of applicant income and disclosure of reasons for adverse action.

5. *Truth in Lending Simplification and Reform.* A discussion of certain aspects of the Board's revised Regulation Z, such as (1) transition procedures, model forms, and the official staff commentary, and (2) implementation of the Truth in Lending preemption provisions, as well as (3) the implication of section 18 of the Federal Trade Commission Improvements Act of 1980 under which creditors subject to the FTC's enforcement jurisdiction may request Board interpretations.

6. *Consumer Leasing Act: Considerations for Simplification.* A discussion of the need for statutory changes to the Consumer Leasing Act, as a continuation of regulatory simplification.

7. *Relationship Between Truth in Lending and Electronic Fund Transfer Acts.* Status report on draft statutory amendments to integrate provisions of these two acts relating to error resolution and consumer liability for unauthorized use.

Other matters previously considered by the Council or initiated by Council members also may be discussed.

Persons wishing to submit to the Council their views regarding any of the above topics may do so by sending written statements to Ms. Kay Oliver, Secretary, Consumer Advisory Council, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. Comments must be received no later than close of business Friday, April 10, and must be of a quality suitable for reproduction.

Information with regard to this meeting may be obtained from Mr. Joseph R. Coyne, Assistant to the Board, at (202) 452-3204.

Board of Governors of the Federal Reserve System, March 18, 1981.

James McAfee,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

JCT Trust Co. Limited, Otzar Hityashvuth Hayehudim B.M., Trust Created by Otzar Hityashvuth Hayehudim Jewish Colonial Trust Limited and JCT Trust Company Limited, and Bank Leumi Le-Israel B.M.; Proposal To Engage in Securities-Related Activities and in Dealing in Gold and Silver

JCT Trust Company Limited, Otzar Hityashvuth Hayehudim B.M., the Trust Created by Otzar Hityashvuth Hayehudim Jewish Colonial Trust Limited and JCT Trust Company Limited, and Bank Leumi le-Israel B.M., all located in Tel Aviv, Israel, have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to engage, through their subsidiary, Leumi Securities Corporation, in the activity of acting as managing agent for customers' securities. Such activity has been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Applicants have also applied to engage through their subsidiary in the activities of executing unsolicited purchases and sales of securities as agent solely upon the order and for the accout of customers, acting as custodian for securities, and buying and selling gold and silver coin and bullion for the subsidiary's own account and for the account of others. These activities have not been specified by the Board as being permissible, in general, for bank holding companies, although all are carried on to some degree by commercial banks and their trust departments. Interested persons may express their views on the question of whether these activities are "so closely related to banking or managing or controlling banks as to be a proper incident thereto," or are incidental to "closely related" activities.

All of the proposed activities would be performed from offices of Applicant's subsidiary in New York, New York, and the geographic areas to be served are the entire United States and foreign countries.

Interested persons may also express their views on the question of whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater

convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of New York.

Any views or requests for hearing should be submited in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than April 20, 1981.

Board of Governors of the Federal Reserve System, March 17, 1981.

Jefferson A. Walker,

Assistant Secretary of the Board.

BILLING CODE 4110-08-M

National Institutes of Health Study of the Mandatory Retirement Age for Commercial Airline Pilots; Open Meetings

AGENCY: National Institutes of Health.

ACTION: Notice of meetings.

SUMMARY: In April, May and June 1981, the National Institutes of Health (NIH) will hold three meetings to examine the key isues in Pub. L. 96-171, An act to require a study of the desirability of mandatory age retirement for certain pilots and for other purposes, to discuss the forthcoming report prepared by the Institute of Medicine (IOM) of the National Academy of Sciences (NAS) on the medical and scientific questions relevant to the mandatory retirement of commercial airline pilots at age 60 and to consider written technical comments of responsible parties on the report. Attendancy by the public will be limited to the space available.

DATES: These meetings are scheduled to be held on April 27-28, 1981, May 27-29, 1981 and June 22-23, 1981, beginning at 9:00 a.m.

ADDRESS: These three meetings will all be held at the National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland. The meeting of April 27-28, 1981 will be in Conference Room 6 of Building 31; the meeting of May 27-29, 1981 will be in Conference Room 9 of Building 31 and the meeting of June 22-23, 1981 will be in Conference Room 10 of Building 31.

FOR FURTHER INFORMATION CONTACT: Ms. Lily O. Engstrom, Office of the Deputy Director, National Institute on Aging, Building 31, Room 2C-06, Bethesda, Maryland 20205, (301) 496-5808.

SUPPLEMENTARY INFORMATION: Pub. L. 96-171, enacted on December 29, 1979, requires the Director of the NIH, in consultation with the Secretary of Transportation, to conduct a study to determine—

(1) whether an age limitation which prohibits all individuals who are sixty years of age or older from serving as pilots is medically warranted;

(2) whether an age limitation which prohibits all individuals who are older than a particular age from serving as pilots is medically warranted;

(3) whether rules governing eligibility for first- and second-class medical certification, as set forth in part 67 of title 14 of the Code of Federal Regulations (as in effect on the date of enactment of this Act), are adequate to determine an individual's physical condition in light of existing medical technology;

(4) whether rules governing the frequency of first- and second-class medical examinations, as set forth in part 67 of title 14 of the Code of Federal Regulations, are adequate to assure that an individual's physical condition is being satisfactorily monitored; and

(5) the effect of aging on the ability of individuals to perform the duties of pilots with the highest level of safety.

The Director of NIH shall complete this study and submit a report on its results to Congress.

The NIH, with the National Institute on Aging (NIA) serving as the lead agency, awarded a contract to the Institute of Medicine to provide an objective examination, summary and assessment of existing scientific knowledge that is relevant to the five points in P.L. 96-171.

It is anticipated that the report from the IOM will be completed by March 31, 1981. As previously announced in the **Federal Register** on February 24, 1981, page 13816, copies of the IOM report can be obtained by writing the Office of the Deputy Director, National Institute on Aging, National Institutes of Health, Bethesda, Maryland 20205. Technical comments on this report from responsible persons are welcomed and should be submitted to NIA at the above address by May 4, 1981.

Dated: March 5, 1981.

Thomas E. Malone,

Deputy Director, National Institutes of Health.

BILLING CODE 4110-08-M

Board of Scientific Counselors; Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Board of Scientific Counselors, National Institute of Allergy and Infectious Diseases, on May 6, 7, and 8, 1981. On May 6 and 7 the meeting will be held at the Laboratory of Infectious Diseases, Building 5, Conference Room 216, Bethesda, Maryland 20205. On may 8, 1981 the meeting will be held at the National Institutes of Health, Building 31, Conference Room 7A24, Bethesda, Maryland 20205. This meeting will be open to the public on May 6 and 7 from 8:30 a.m. until adjournment. During this open session, the permanent staff of the Laboratory of Microbial Immunity and the Laboratory of Immunogenetics will present and discuss their immediate past, and present research activities.

In accordance with the provisions set forth in Section 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting of the Board will be closed to the public on May 8 from 8:30 a.m. until adjournment for the review, discussion, and evaluation of individual intramural programs and projects conducted by the National Institute of Allergy and Infectious Diseases, including consideration of personal qualifications and performance, and the competence of individual investigators, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Mr. Robert L. Schreiber, Chief, Office of Research Reporting and Public Response, National Institute of Allergy and Infectious Diseases, Building 31, Room 7A-32, National Institutes of Health, Bethesda, Maryland 20205, telephone (301) 496-5717, will provide summaries of the meeting and rosters of the Board members.

Dr. Kenneth W. Sell, Executive Secretary, Board of Scientific Counselors, NIAID, National Institutes of Health, Building 5, Room 137, telephone (301) 496-2144, will provide substantive program information.

BILLING CODE 4310-02-M

[(INT DEIS —)81-12]

Crow-Shell Coal Lease; DEIS Availability

AGENCY: Bureau of Indian Affairs.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a Draft Environmental Statement for the proposed coal lease on the Crow Indian Reservation, Big Horn County, Montana.

The proposed action is the approval by the Department of the Interior of a lease of Crow Tribal lands for the purpose of mining coal. The lease area is located entirely on the Crow Indian Reservation. The proposed project contemplates the strip-mining of approximately 2,560 acres of land, referred to as the Youngs Creek Area Lease, for the removal of approximately 190 million tons over a period of 26 years. The agreement also includes options for mining coal in the Upper and Lower Tanner Creek areas and for the Crow Tribe to enter into a joint venture with Shell to Mine the Entire Tanner Creek area rather than lease each area independently. If the joint venture is selected, approximately 660 million tons of coal would be mined from all three areas in 45 years.

In addition to the mining and coal processing facilities, Shell proposes to construct an access road, a railroad spur to transport the coal, and an electric power transmission line to the mine.

Copies of the Environmental Statement are available for inspection at the following locations:

Office of Communications, Room 7200, Interior Building, Washington, D.C. 20245, Telephone: (202) 343-3171

Billings Area Office, Bureau of Indian Affairs, Rights Protection, 316 North 26th Street, Billings, Montana 59101, Telephone: (406) 636-2671

Office of the Superintendent, Bureau of Indian Affairs, Crow Agency, Montana 59022, Telephone: (406) 638-2671

Bureau of Indian Affairs, Department of the Interior, Environmental Quality Services, Room 4552, Washington, D.C. 20245, Telephone: (202) 343-6248

Parmley Billings Public Library, 510 North Broadway, Billings, Montana 59103

Sheridan County Fulmer Public Library, 320 North Brooks, Sheridan, Wyoming 82103

Big Horn County Public Library, 419 North Custer Avenue, Hardin, Montana 59034

The Rosebud County Library, 201 North 9th Avenue, Forsyth, Montana 59327.

Single copies of the Draft Environmental Impact Statement may be obtained from the Billings Area Office, Bureau of Indian Affairs, Rights Protection, 316 North 26th Street, Billings, Montana 59101.

Oral and/or written comments are invited and will be received at a public hearing to be held at 7:00 p.m., April 22, 1981, at the Tribal Administration Building, Crow Agency, Montana. Oral statements by any party will be limited to no more than ten minutes. Written statements can be entered into the record by filing a copy with the presiding officer.

Comment on the Draft Environmental Impact Statement are invited from all interested parties and should be forwarded to the following official no later than two months from the date of this notice:

David W. Pennington, Natural Resource Specialist, Billings Area Office, Rights Protection, 316 North 26th Street, Billings, Montana 59101, Telephone: (406) 657-6145.

Dated: March 13, 1981.

Cecil S. Hoffmann,

Special Assistant to the Assistant Secretary of the Interior.

BILLING CODE 4310-84-M

Bureau of Land Management

Montana; Prairie Potholes Vegetation Allocation Draft Environmental Impact Statement: Availability and Notice of Hearings

AGENCY: Bureau of Land Management, Interior.

ACTION: Prairie Potholes Vegetation Allocation Draft Environmental Impact Statement Availability and Notice of Public Hearings.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Bureau of Land Management has prepared a draft environmental impact statement (DEIS) for north-central Montana. The DEIS details six alternative vegetation allocations on nearly 1.75 million acres of public land within BLM's Lewistown District.

DATES: Comments will be accepted until May 22, 1981. Hearings will be held: April 22, 7:30 p.m. at the Valley County Courthouse in Glasgow, Montana; April 23, 7:30 p.m. at the Blaine County Library in Chinook, Montana; April 24, 7:30 p.m. at the Phillips County Courthouse in Malta, Montana; April 27, 7:30 p.m. at the Colonial Inn in Helena, Montana.

ADDRESSES: Comments and requests for further information should be addressed to: Glenn W. Freeman, District Manager, Bureau of Land Management, Lewistown District, Drawer 1160, Lewistown, Montana 59457.

SUPPLEMENTARY INFORMATION: The Draft EIS describes and analyzes environmental consequences for six alternative courses of action. The six alternatives are: (A) Enhanced Combined Vegetation Uses; (B) Continuation of Present Management (BLM's Preferred Alternative); (C) Enhanced Livestock Forage; (D) Enhanced Watershed Value and Wildlife Habitat; (E) No Grazing; and (F) No Action. Comments upon the Draft EIS analysis will be considered and used to prepare a final EIS. The final EIS will be used to develop a Rangeland Management Program for the area included in the EIS.

A limited number of copies of the Draft are available for review at the following locations:

California Desert Conservation Area Advisory Committee; Meeting

Notice is hereby given in accordance with Pub. L. 92-463 and 94-579 that the California Desert Conservation Area Advisory Committee to the Bureau of Land Management, U.S. Department of the Interior, will meet April 24, 1981, in Riverside, California. The purpose of the meeting is to discuss progress of implementation of the California Desert Plan. The meeting will begin at 9:00 a.m., Friday, April 24, and is scheduled to adjourn by 5:00 p.m. Location is the Board Room, Raincross Square, 3443 Orange St., Riverside, California. The meeting is open to the public and interested persons may attend and file statements with the Advisory Committee.

Further information may be obtained from Mr. Clayton A. Record, Jr., Chairman, California Desert Conservation Area Advisory Committee, c/o California Desert District Office, Bureau of Land Management, 1695 Spruce Street, Riverside, California 92507.

Dated: March 9, 1981.

Bruce Ottenfeld,

District Manager.

[F-14899-A and F-14899-A2]

Alaska Native Claims Selections

This decision rejects improperly filed Sec. 14(h)(1) selection applications, approves lands selected pursuant to Sec. 12(a) in the area of Mountain Village for conveyance to Azachorok Incorporated, and rejects a Sec. 12(b) selection to the extent that it conflicts with lands herein approved for conveyance under Sec. 12(a).

I. Section 14(h)(1) Applications Rejected in Entirety

Calista Corporation filed selection applications pursuant to Sec. 14(h)(1) of the Alaska Native Claims Settlement Act (ANCSA) of December 18, 1971 (85 Stat. 688, 704; 43 U.S.C. 1601, 1613(h)(1976)). Section 14(h) and Departmental regulations issued thereunder authorize the Secretary of the Interior to withdraw and convey only unreserved and unappropriated public lands. Since the lands encompassed in the subject Sec. 14(h)(1) applications had been properly selected by Azachorok Incorporated under Sec. 12 of ANCSA, these lands were not unreserved or unappropriated at the time of selection by Calista Corporation. Therefore, the following applications must be and are hereby rejected in their entirety.

Seward Meridian, Alaska (Unsurveyed)

Date of Application, Serial No. and Land Description

10/20/1975, AA-10045, T. 23 N., R. 78 W., S.M., Fractional W½SW¼NE¼, Sec. 13., Fractional E½SE¼NW¼, Sec. 13.
10/23/1975, AA-10087, T. 23 N., R. 78 W., S.M., N½NW¼NE¼, Sec. 15.
10/23/1975, AA-10088, T. 23 N., R. 77 W., S.M., Fractional W½NW¼SE¼, Sec. 18.
06/02/1976, AA-11464, T. 23 N., R. 78 W., S.M., Fractional SW¼NE¼NW¼, Sec. 18.
06/02/1976, AA-11465, T. 23 N., R. 78 W., S.M., N½NW¼NW¼, Sec. 17.
06/02/1976, AA-11466, T. 23 N., R. 78 W., S.M., Fractional SE¼NW¼NE¼, Sec. 16.
06/02/1976, AA-11468, T. 23 N., R. 80 W., S.M., Fractional N½SE¼NE¼, Sec. 4.
06/02/1976, AA-11469, T. 23 N., R. 80 W., S.M., Fractional NW¼SE¼NE¼, Sec. 14.

When this decision becomes final, these applications will be closed of record.

II. Section 12(b) Application Rejected in Part; Lands Proper for Village Selection, Approved for Interim Conveyance

On November 13, 1974, Azachorok Incorporated for the Native village of Mountain Village filed selection application F-14899-A, under the provisions of sec. 12(a) of ANCSA (85 Stat. 688, 701; 43 U.S.C. 1601, 1611, (1976)), for the surface estate of certain lands in the vicinity of Mountain Village.

Azachorok Incorporated, in its November 13, 1974 application excluded several bodies of water. Because certain

of those water bodies have been determined to be nonnavigable, they are considered to be public lands withdrawn under Sec. 11(a)(1) and available for selection by the village pursuant to Sec 12(a) of the Alaska Native Claims Settlement Act. Section 12(a) and 43 CFR 2651.4(b) and (c) provide that a village corporation must, to the extent necessary to obtain its entitlement, select all available lands within the township or townships within which the village is located, and that additional lands selected shall be compact and in whole sections. The regulations also provide that the area selected will not be considered to be reasonably compact if it excluded other lands available for selection within its exterior boundaries. For these reasons, the water bodies which were improperly excluded in the November 13, 1974 application are considered selected by Azachorok Incorporated.

Azachorok Incorporated, in its November 13, 1974 application, excluded all Native allotment applications in its selection. Some of the Native allotment applications were improperly plotted on the master title plats. The plats have been corrected to more accurately depict the location of the Native allotment applications. This decision excludes Native allotment applications in the selection area as shown on the corrected plats.

On December 15, 1975, Azachorok Incorporated filed selection application F-14896-A2 pursuant to Sec. 12(b) of ANCSA, for certain lands previously selected pursuant to Sec. 12(a) with the statement that its Sec. 12(a) selection overrides the Sec. 12(b) selection. Therefore, application F-14896-A2 is hereby rejected as to lands herein approved for conveyance.

As to the lands described below, the Sec. 12(a) application is properly filed and meets the requirements of the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to Sec. 12(a), aggregating approximately 123,918 acres, is considered proper for acquisition by Azachorok Incorporated and is hereby approved for conveyance pursuant to Sec. 14(a) of ANCSA:

Seward Meridian, Alaska (Unsurveyed)

T. 23 N., R. 77 W.
Sec. 6, all;
Sec. 7, excluding Native allotment F-16582 Parcel B;
Sec. 18, excluding Native allotments F-18291, F-18573 Parcel B and unnamed interconnecting slough of the Yukon River
Containing approximately 1,540 acres.

T. 24 N., R. 77 W.
Sec. 31, all.
Containing approximately 607 acres.

T. 23 N., R. 78 W.
Secs. 1 to 6, inclusive, all;
Sec. 7, excluding Native allotments F-16540 Parcel B, F-16541 Parcel B, and F-18390 Parcel B;
Sec. 8, excluding Native allotments F-16541 Parcel B, F-17311 Parcel D, F-18336 Parcel B, and F-18390 Parcel C;
Sec. 9, excluding Native allotments F-16555 Parcel A, F-17311 Parcel D, F-16547 Parcel B, and F-16556 Parcel A;
Sec. 10, excluding Native allotments F-17313 Parcel B, F-17314 Parcel D, and F-18555 Parcel A;
Sec. 11, excluding Native allotments F-17313 Parcel B, F-17314 Parcel D, and F-18540;
Sec. 12, excluding Native allotments F-16545 Parcel A, F-16556 Parcel C, and F-16765 Parcel B;
Sec. 13, excluding Native allotments F-16555 Parcel C, F-16765 Parcel B, F-17309 Parcel A, Yukon River, and unnamed interconnecting slough of the Yukon River;
Sec. 14, excluding Native allotments F-17309 Parcel A, F-18295, F-17315 Parcel B, and Yukon River;
Sec. 15, excluding Native allotments F-16709 Parcel A, F-18295, F-18438 Parcel B, F-16555 Parcel A, and Yukon River;
Sec. 16, excluding Native allotments F-18387 Parcel C, F-16555 Parcel A, F-18389 Parcel D, and Yukon River;
Sec. 17, excluding Native allotments F-18389 Parcel C, F-18302 Parcel A, F-16550 Parcel A, F-16545 Parcel B, and Yukon River;
Sec. 18, excluding Native allotments F-16550 Parcel A, F-18391 Parcel B, P18354 Parcel D, F-18497 Parcel B, and Yukon River.
Containing approximately 7,125 acres.

T. 24 N., R. 78 W.
Secs. 7 to 18, inclusive, all;
Secs. 19 and 20, excluding east fork of Archuelinguk River;
Secs. 21 to 27, inclusive all;
Sec. 28, excluding Native allotments F-16552 and F-16553;
Sec. 29, excluding Native allotment F-16552 and east fork of Archuelinguk River;
Sec. 30, excluding Native allotment F-16550 Parcel B and east fork of Archuelinguk River;
Secs. 31 and 32, all;
Sec. 33, excluding Native allotment F-16553;
Sec. 34, 35 and 36, all.
Containing approximately 18,540 acres.

T. 22 N., R. 79 W.
Secs. 4 and 5, excluding Black River;
Sec. 6, all;
Secs. 7, 8, and 9, excluding Black River;
Sec. 16, all;
Secs. 17 to 21, inclusive, excluding Black River;
Sec. 28, all;
Secs. 29 and 30, excluding Black River;
Secs. 31, 32 and 33, all.
Containing approximately 11,422 acres.

T. 23 N., R. 79 W.
Secs. 1 and 2, all;
Sec. 3, excluding Native allotments F-16557, F-18293 Parcels A and B, and Azacharum Slough;
Sec. 4, excluding Native allotment F-16549 Parcel B, Azacharum Slough and Patsy's Slough;
Sec. 5, excluding Native allotments F-16549 Parcel B, F-16595 Parcel B, F-17300 Parcel A, Patsy's Slough, and unnamed interconnecting slough of the Yukon River;
Sec. 6, excluding Native allotments F-17312 Parcel C, F-16595 Parcel B, F-17300 Parcel A, Patsy's Slough, and unnamed interconnecting sloughs of the Yukon River;
Sec. 7, excluding Native allotment F-17300 Parcel A, Yukon River, and unnamed interconnecting slough of the Yukon River;
Sec. 8, excluding Native allotment F-17300 Parcel A, Yukon River, Patsy's Slough, and unnamed interconnecting slough of the Yukon River;
Sec. 9, excluding F-17314 Parcel C, Azacharum Slough, Patsy's Slough, and unnamed interconnecting slough of the Yukon River;
Sec. 10, excluding Native allotments F-16544 Parcel B, F-16545 Parcel C, F-16547 Parcel A, F-17314 Parcel C, F-18293 Parcel C, and Azachaum Slough;
Sec. 11, excluding Native allotments F-17311 Parcel C, F-17315 Parcel C, and F-18386 Parcel A;
Sec. 12, all;
Sec. 13, excluding Native allotments F-16606 Parcel A, F-17394, F-16384 Parcel D, and Yukon River;
Sec. 14, excluding Native allotments F-16386 Parcel A, F-17394, lot 1 of U.S. Survey 4055 (ANCSA Sec. 3(e) application AA-16145), ANCSA Sec. 3(e) application AA-41433, U.S. Survey 4412, U.S. Survey 4010, and Yukon River;
Sec. 15, excluding U.S. Survey 4412, lot 1 of U.S. Survey 4055 (ANCSA Sec. 3(e) application AA-16145), lots 2 and 3 of U.S. Survey 4055, and Yukon River;
Sec. 16, excluding Yukon River;
Secs. 17 and 18, excluding Yukon River and unnamed interconnecting slough of the Yukon River;
Sec. 19, all;
Sec. 20, excluding Yukon River and unnamed interconnecting slough of the Yukon River;
Sec. 21, excluding Native allotments F-17313 Parcel D, F-16294 Parcel A, and Yukon River;
Sec. 22, excluding Native allotment F-17306 Parcel A and Yukon River;
Sec. 23, excluding Native allotments F-17306 Parcel A, F-17386 Parcel B, F-17315 Parcel D, F-16390 Parcel D, Yukon River, and Black River;
Sec. 24, excluding Native allotment F-17389 Parcel B, Yukon River, and Black River;
Secs. 25 and 26, excluding Black River;

Sec. 27, all;
Sec. 28, excluding Native allotments F-18294 Parcel A and F-16544 Parcel C;
Secs. 29 to 34, inclusive, all;
Sec. 35, excluding Black River;
Sec. 36, all.
Containing approximately 16,564 acres.

T. 24 N., R. 79 W.
Sec. 10, all;
Sec. 11, excluding Archuelinguk River;
Sec. 12, excluding Native allotment F-19595 Parcel A, and Archuelinguk River;
Sec. 13, all;
Sec. 14, excluding Native allotments F-18292 Parcel A, F-16558 Parcel B, and Archuelinguk River;
Sec. 15, excluding Native allotments F-18705 Parcel A, F-18292 Parcel A, and F-16558 Parcel B;
Sec. 22, excluding Native allotments F-16544 Parcel D, F-16547 Parcel D, F-18294 Parcel C, F-16386 Parcel C, F-17314 Parcel B, F-16558 Parcel B, F-17388 Parcel B, and Archuelinguk River;
Sec. 23, excluding Native allotments F-16558 Parcel B, F-17389 Parcel B, and Archuelinguk River;
Sec. 24, excluding Native allotments F-16542, F-17512 Parcel B, and east fork of Archuelinguk River;
Sec. 25, excluding Native allotments F-16542 Parcel B, F-17310 Parcel A, F-17512 Parcel B, F-17312 Parcel B, F-16550 Parcel B, and east fork of Archuelinguk River;
Sec. 26, excluding Native allotments F-16540 Parcel A, F-16541 Parcel A, F-17310 Parcel A, F-17313 Parcel C, Archuelinguk River, and east fork of Archuelinguk River;
Sec. 27, excluding Native allotments F-17311 Parcel B, F-19268, and Archuelinguk River;
Sec. 31, excluding unnamed interconnecting slough of the Yukon River and Patsy's Slough;
Sec. 32, excluding Azacharum Slough;
Sec. 33, excluding Native allotment F-16549 Parcel A, Azacharum Slough, and Archuelinguk River;
Sec. 34, excluding Native allotments F-18293 Parcel A, F-16557, F-16558 Parcel B, and Archuelinguk River;
Sec. 35, excluding Native allotments F-16556 Parcel B, F-17313 Parcel C, and Archuelinguk River;
Sec. 36, all.
Containing approximately 8,530 acres.

T. 21 N., R. 80 W.
Secs. 1, 2 and 3, all;
Secs. 10 to 14, inclusive, all.
Containing approximately 5,120 acres.

T. 22 N., R. 80 W.
Secs. 1 to 5, inclusive, all;
Secs. 6 and 7, excluding Black River;
Secs. 8 to 16, inclusive, all;
Secs. 17, 18, and 19, excluding Black River;
Sec. 20, excluding Native allotment F-18921 Parcel A and Black River;
Sec. 21, all;
Secs. 22 and 23, excluding Native allotment F-18174 Parcel A and Black River;
Secs. 24 to 28, excluding Black River;
Sec. 29, excluding Native allotment F-18921 Parcel A, and Black River;
Secs. 30, 31, and 32, all;
Sec. 33, excluding Black River;
Sec. 34, excluding Native allotment F-17389 Parcel D, and Black River;
Sec. 35, excluding Native allotment F-17392 Parcel C and Black River;
Sec. 36, all.
Containing approximately 22,702 acres.

T. 23 N., R. 80 W.
Sec. 1, excluding Native allotment F-17392 Parcel B, Yukon River, and unnamed interconnecting slough of the Yukon River;
Sec. 2, excluding Yukon River and unnamed interconnecting slough of the Yukon River;
Sec. 3, excluding Native allotments F-16543 Parcel A, F-17537 Parcel C, and Yukon River;
Sec. 4, excluding Yukon River;
Secs. 5 to 9, exclusive, excluding Petukang River;
Secs. 10, 11 and 12, excluding Yukon River;
Sec. 13, excluding Native allotment F-18921 Parcel B, Yukon River, and unnamed interconnecting slough of the Yukon River;
Sec. 14, excluding Yukon River and Petukang River;
Secs. 15, 16, and 17, inclusive, excluding Petukang River;
Secs. 18 and 19, all;
Secs. 20 to 23, inclusive, excluding Petukang River;
Secs. 24, 25 and 26, all;
Sec. 27, excluding Petukang River;
Secs. 28 to 36, inclusive, all.
Containing approximately 20,366 acres.

T. 22 N., R. 81 W.
Sec. 1, excluding Native allotment F-17390 Parcel B and Black River;
Sec. 2, excluding Black River;
Sec. 3, all;
Secs. 10, 11, and 12, excluding Black River;
Secs. 13 and 14, excluding Black River;
Sec. 15, all;
Secs. 22 to 27, inclusive, all;
Secs. 34, 35 and 36, all.
Containing approximately 11,400 acres.
Aggregating appoximately 123,918 acres.

The lands excluded in the above description are not being approved for conveyance at this time and have been excluded for one or more of the following reasons: Lands are no longer under Federal jurisdiction; lands are under application pending further adjudication; lands are underlying water bodies determined to be navigable and/or tidally influenced; lands are pending a determination under Section 3(e) of ANCSA, or lands were previously rejected by decision. Lands within U.S. Surveys which are excluded are described separately in this decision if they are available for conveyance. These exclusions *do not* constitute a rejection of the selection application, unless specifically so stated.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. The subsurface estate therein, and all rights, privileges, immunities and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 704; 43 U.S.C. 1601,1613(f)); and

2. Pursuant to Sec. 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 708; 43 U.S.C. 1601, 1616(b)), the following public easements referenced by easement identification number (EIN) on the easement maps attached to this document, copies of which will be found in case file F-14809-EE, are reserved to the United States. All easements are subject to applicable Federal, State, or municipal corporation regulation. The following is a listing of uses allowed for each type of easement identified. Any uses which are not specifically listed are prohibited.

60 Foot Road—The uses allowed on a sixty (60) foot wide road easement are: travel by foot, dogsled, animals, snowmobiles, two- and three-wheel vehicles, small and large all-terrain vehicles, track vehicles, four-wheel drive vehicles, automobiles, and trucks.

a. (EIN 9 C9) An easement forty (40) feet in width, for an existing road located entirely within Sec. 14, T. 23 N., R. 79 W., Seward Meridian, from the end of the granted road right-of-way to St. Mary's (AA-12922) southeasterly to the Mountain Village airstrip, thence southwesterly to the Mountain Village townsite. The uses allowed are those listed above for a sixty (60) foot wide road easement.

b. (EIN 9b C9) An easement forty (40) feet in width for an existing road located entirely within Sec. 14, T. 23 N., R. 79 W., Seward Meridian, from the end of the granted road right-of-way to St. Mary's (AA-12922) westerly to the Lower Yukon School District Complex. The uses allowed are those listed above for a sixty (60) foot wide road easement.

The grant of lands shall be subject to:

1. Issuance of a patent confirming the boundary description of the lands hereinabove granted after approval and filing by the Bureau of Land Management of the official plat of survey covering such lands;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under Sec. 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339, 341; 48 U.S.C. Ch. 2, Sec. 6(g))), contract, permit, right-of-way or easement, and the right of the lessee, contractee, permittee or grantee to the complete enjoyment of all rights, privileges and benefits thereby granted to him. Further, pursuant to Sec. 17(b)(2)

of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)(2)) (ANCSA), any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law;

3. Airport lease AA–6632, containing 99.5 acres, lying within Secs. 11 and 14, T. 23 N., R. 79 W., Seward Meridian, issued to the State of Alaska, Department of Transportation and Public Facilities, under the provisions of the act of May 24, 1928 (45 Stat. 728–729; 49 U.S.C. 211–214);

4. A right-of-way, AA–12822, portions of which are 100 feet and portions 200 feet in width, in Secs. 6 and 7, T. 23 N., R. 77 W., Seward Meridian; Secs. 1, 7, 8, 9, 10, 11 and 12, T. 23 N., R. 78 W., Seward Meridian; Secs. 11, 12 and 14, T. 23 N., R. 79 W., Seward Meridian, for a Federal Aid Highway. Act of August 27, 1958, as amended, 23 U.S.C. 317;

5. A right-of-way, AA–12952, in Secs. 9 and 16, T. 23 N., R. 78 W., Seward Meridan and Sec. 14, T. 23 N., R. 79 W., Seward Meridian, Alaska, (unsurveyed) for two Federal Aid Material sites and one access haul road. Act of August 27, 1958, 23 U.S.C. 317; and

6. Requirements of Sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 703; 43 U.S.C. 1601, 1613(c)), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section.

Azachorok Incorporated is entitled to conveyance of 138,240 acres of land selected pursuant to Sec. 12(a) of the Alaska Native Claims Settlement Act. To date, approximately 123,918 acres of this entitlement have been approved for conveyance. The remaining entitlement of approximately 14,322 acres will be conveyed at a later date.

Pursuant to Sec. 14(f) of the Alaska Native Claims Settlement Act, conveyance of the subsurface estate of the lands described above shall be issued to Calista Corporation when the surface estate is conveyed to Azachorok Incorporated and shall be subject to the same conditions as the surface conveyance.

Within the above-described lands, only the following inland water bodies are considered to be navigable:

The Yukon River and its interconnecting sloughs, Patsy's Slough, and Azacharum Slough.

The Kashunuk River is navigable from the Yukon River to its outlet in the Bering Sea.

The Archuelinguk River is navigable from its mouth through the selection, and the east fork of the Archuelinguk River is navigable to the east boundary of Sec. 29, T. 24 N., R. 78 W., Seward Meridan.

The Petukang River is navigable from its mouth through the selection to the Kusilvak Mountains.

The Black River is navigable from its confluence with the Yukon River in Sec. 19, T. 23 N., R. 78 W., Seward Meridian, southwesterly through the selection.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the Federal Register and once a week, for four (4) consecutive weeks, in The Tundra Drums.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Alaska Native Claims Appeal Board, provided, however, pursuant to Public Law 96–487, this decision constitutes the final administrative determination of the Department of the Interior concerning navigability of water bodies.

Appeals should be filed with Alaska Native Claims Appeal Board, P.O. Box 2433, Anchorage, Alaska 99510, with a copy served upon both the Bureau of Land Management, Alaska State Office, 701 C Street, Box 13, Anchorage, Alaska 99513, and the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501. The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return receipt shall have until April 22, 1981, to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Alaska Native Claims Appeal Board.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, Alaska State Office 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the parties to be served with a copy of the notice of appeal are:

Azachorok Incorporated, Mt. Village, Alaska 99632;

Calista Corporation, 516 Denali Street, Anchorage, Alaska 99501.

Ann Johnson,
Chief, Branch of Adjudication.

National Park Service

Appalachian Trail Route Changed

Nineteen proposed relocations of the Appalachian Trail right-of-way, and Trail routes within those rights-of-way, were published on January 23, 1981 (46 FR 7464) to provide an opportunity for public review and comment. No substantive comments were received on the proposals. Environmental assessments have been prepared on those relocations where the National Park Service is acquiring land, and a Finding of No Significant Impact for each of these relocations is on file with the Appalachian Trail Project Office, National Park Service, Harpers Ferry, West Virginia 25425. This notice confirms these right-of-way relocations as the official route of the Appalachian Trail.

David A. Richie,
Project Manager.
March 13, 1981.

BILLING CODE 4310-70-M

Intention To Negotiate Concession Contract

Pursuant to the provisions of Section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that on or before April 22, 1981, the Department of the Interior, through the Director of the National Park Service, proposes to negotiate a concession contract with The Acadia Corporation, authorizing it to continue to provide concession facilities and services for the public at Acadia National Park for a period of approximately ten (10) years from January 1, 1981, through December 31, 1990.

An assessment of the environmental impact of this proposed action has been made and it has been determined that it will not significantly affect the quality of the environment, and that it is not a major Federal action having a significant impact on the environment under the National Environmental Policy Act of 1969. The environmental assessment may be reviewed in the North Atlantic Regional Office, National Park Service, 15 State Street, Boston, MA 02109.

The foregoing concessioner has performed its obligations to the satisfaction of the Secretary under a prior contract which expired by limitation of time on December 31, 1974. It has continued to conduct satisfactory operations, at the request of the National Park Service, under the terms and conditions of this expired contract. Therefore, pursuant to the Act of October 9, 1965, as cited above, the foregoing concessioner is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. This provision in effect, grants The Acadia Corporation, as the present satisfactory concessioner, the right to meet the terms of responsive proposals for the proposed new contract and a preference in the award of the contract, if, thereafter, the proposal of The Acadia Corporation is substantially equal to others received. In the event a responsive proposal superior to that of The Acadia Corporation, (as determined by the Secretary) is submitted, The Acadia Corporation will be given the opportunity to meet the terms and conditions of the superior proposal the Secretary considers desirable, and, if it does so, the new contract will be negotiated with The Acadia Corporation. The Secretary will consider and evaluate all proposals received as a result of this notice. Any proposal, including that of the existing concessioner, must be post marked or hand delivered on or before the thirtieth (30th) day following publication of this notice to be considered and evaluated.

Interested parties should contact the Regional Director, North Atlantic Region, National Park Service, 15 State Street, Boston, MA 02109, for information as to the requirements of the proposed contract.

Dated: March 4, 1981.

Steven H. Lewis,

Acting Regional Director, North Atlantic Region, National Park Service.

BILLING CODE 4310-70-M

Intention To Negotiate Concession Contract; Correction

In FR Vol 46, No. 46, Doc. 81-7443 appearing at pages 15955 and 15956 in the issue for Tuesday, March 10, 1981, make the following corrections:

On page 15955, in the third column, first paragraph of subject notice, the line that reads "given that sixty (60) days after the date" should read "given that thirty (30) days after the date."

On page 15956, column 1, first paragraph, the line that reads "May 11, 1981." should read "April 9, 1981."

Dated: March 16, 1981.

Stanley T. Albright,

Acting Director, National Park Service.

BILLING CODE 4310-70-M

Ozark National Scenic Riverways Advisory Commission; Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act, 86 Stat. 770, 5 U.S.C. App. 1, as amended by the Act of September 13, 1976, 90 Stat. 1247, that meeting of the Ozark National Scenic Riverways Advisory Commission will be held on Friday, April 10, 1981, at 10:00 a.m. (CST), at the Riverways' Headquarters on U.S. Highway 60 in Van Buren, Missouri.

The Commission was established by the Act of August 27, 1964, 78 Stat. 608, 16 U.S.C. 460m-6, to meet and consult with the Secretary of the Interior on matters related to the administration and development of the Ozark National Scenic Riverways.

The members of the Commission are as follows:

Dr. Oscar Hawksley, Warrensburg, Missouri (Chairman)
Mr. H. C. Daniel, Van Buren, Missouri
Mr. Carlton E. Bay, Salem, Missouri
Mr. Cecil J. Brallier, Houston, Missouri
Mr. Henry F. Luepke, Jr., St. Louis, Missouri
Mr. Edward Hodge, Eminence, Missouri

The purpose of this meeting is to review with the Commission progress on the General Management Plan, in particular the selection of alternatives following the public response period for the Environmental Assessment of Alternatives. Other review topics will include a research update and recent developments regarding concession operations, land acquisition, and youth programs.

The meeting will be open to the public. Any member of the public may file with the Commission, prior to the meeting, a written statement concerning the matters to be discussed. Persons wishing further information concerning the meeting or who wish to submit written statements, may contact Arthur L. Sullivan, Superintendent, Ozark National Scenic Riverways, P.O. Box 490, Van Buren, Missouri 63965, telephone 314-323-4236.

Minutes of the meeting will be available for public inspection 4 weeks after the meeting at Ozark National Scenic Riverways' Headquarters in Van Buren, Missouri.

Dated: March 10, 1981.

Randall R. Pope,

Acting Regional Director, Midwest Region.

BILLING CODE 4310-70-M

Pictured Rocks National Lakeshore Advisory Commission; Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act, 86 Stat. 770, 5 U.S.C. App. 1, as amended by the Act of September 13, 1976, 90 Stat. 1247, that a meeting of the Pictured Rocks National Lakeshore Advisory Commission will be held on Friday, April 10, 1981, at 2:00 p.m. (EST), at the Grand Marais Community Center, Grand Marais, Michigan.

The Commission was established by the Act of October 15, 1966, 80 Stat. 922, 16 U.S.C. 460-s, to meet and consult with the Secretary of the Interior on matters related to the administration and development of the Pictured Rocks National Lakeshore.

The members of the Commission are as follows:

Mr. Glenn C. Gregg (Chairman)
Mr. James Mueller
Mr. James Becker
Mr. Leo R. Gariepy
Mr. Lawrence L. Lemanski

Matters to be discussed at this meeting include:

1. Activity review by the Superintendent.
2. Discussion of the draft General Management Plan.
3. Review of public comment on the General Management Plan.
4. Discussion of Lakeshore improvement being considered during the 1981-1982 period.

The meeting will be open to the public. Any member of the public may file with the Commission prior to the meeting a written statement concerning the matters to be discussed. Persons wishing further information concerning the meeting, or who wish to submit written statements, may contact Donald F. Gillespie, Superintendent, Pictured Rocks National Lakeshore, P.O. Box 40, Munising, Michigan 49862, telephone 906-387-2607.

Minutes of the meeting will be available for public inspection 4 weeks after the meeting at the Pictured Rock National Lakeshore Headquarters at Sand Point, 4 miles east of Minising, Michigan.

Dated: March 13, 1981.

J. L. Dunning,

Regional Director, Midwest Region.

BILLING CODE 4310-70-M

Santa Monica Mountains National Recreation Area Advisory Commission; Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Santa Monica Mountains National Recreation Area Advisory Commission will be held on Tuesday, April 14, 1981 at 2:30 p.m. at the Park Ranger Visitor Center at Griffith Park, 4730 Crystal Springs Drive, Los Angeles, CA.

The Advisory Commission was established by Pub. L. 95-625 to provide for free exchange of ideas between the National Park Service and the public to facilitate the solicitation of advice or other counsel from members of the public on problems pertinent to the National Park Service in Los Angeles and Ventura Counties.

Members of the Commission are as follows:
Dr. Norman P. Miller, Chairperson
Honorable Marvin Braude
Ms. Sarah Dixon
Ms. Margot Feuer
Dr. Henry David Gray
Mr. Edward Heidig
Mr. Frank Hendler
Ms. Mary C. Hernandez
Mr. Bob Hollman
Ms. Susan Barr Nelson
Mr. Carey Peck
Mr. Donald Wallace
Ms. Marilyn Wheley Winters

The major agenda items include the Superintendent's status report and recommendations by the Commission on the General Management Plan. There will be a designated period for public comment on the General Management Plan.

The meeting is open to the public. Any member of the public may file with the Commission a written statement concerning issues to be discussed.

Persons wishing to receive further information on this meeting or who wish to submit written statements may contact the Superintendent, Santa Monica Mountains National Recreation Area, 22900 Ventura Boulevard, Suite 140, Woodland Hills, California 91364.

Minutes of the meeting will be available for public inspection by May 15, 1981, at the above address.

Dated: March 9, 1981.

Robert S. Chandler,

Superintendent, Santa Monica Mountains National Recreation Area.

BILLING CODE 4310-70-M

INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 311]

Expedited Procedures for Recovery of Fuel Costs

Decided: March 17, 1981.

In our decisions of February 25, March 3, and March 9, 1981, a 19.0-percent surcharge was authorized on all owner-operator traffic, and on all truckload traffic whether or not owner-operators were employed. We ordered that all owner-operators were to receive compensation at this level.

The weekly figure set forth in the appendix for transportation performed by owner-operators and for truckload is 19.0-percent. Accordingly, we are authorizing that the surcharge for this traffic remain at 19.0-percent. All owner-operators are to receive compensation at this level.

No change is authorized on the 3.3-percent surcharge on less-than-truckload (LTL) traffic performed by carriers not utilizing owner-operators, nor the 7.1-percent surcharge for the bus carriers, nor the 2.2-percent surcharge for United Parcel Service.

Notice shall be given to the general public by mailing a copy of this decision to the Governor of each State and to the Public Utilities Commission or Boards of each State having jurisdiction over transportation, by depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection and by delivering a copy to the Director, Office of the Federal Register for publication therein.

It is ordered:

This decision shall become effective Friday 12:01 a.m. March 20, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam. Acting Chairman Alexis, Commissioners Gresham concurred with separate expressions.

Agatha L. Mergenovich,

Secretary.

Ex Parte No. 311

Acting Chairman Alexis, concurring:

Commissioner Gresham believes that there should be public comment on the issue of the relationship between Ex Parte No. 311 (Sub-No. 4) and Ex Parte No. MC-122 (Sub-No. 2). However, the entire Commission considered this issue and rejected it by a 4-1 vote and concluded instead that such an invitation for additional comments would be unnecessary. The public has had ample opportunity to comment on these proceedings. The comment period in both proceedings is closed. In my view, therefore, the majority decision means that no unsolicited comments will be received or considered by the Commission in these proceedings.

Commissioner Gresham, concurring:

I join today's decision, but I am distressed at the lack of progress in reviewing the fuel surcharge program over the past ten months. Accordingly, I would have requested public comment as to whether our resolution of Ex Parte No. 311 (Sub-No. 4) should or should not be further delayed until we reach a final decision in Ex Parte No. MC-122 (Sub-No. 2), *Lease of Equipment and Drivers to Private Carriers*, 132 MCC 361 (1980). I would also have invited comment as to whether the substantive result in either proceeding should or should not influence the resolution of the other proceeding.

Appendix—*Fuel Surcharge*

Base date and price per gallon (including tax)

January 1, 1979 ..... 63.5¢

Date of current price measurement and price per gallon (including tax)

March 16, 1981 ..... 135.0¢

	Transportation performed by—			
	Owner operator[1]	Other[2]	Bus carrier	UPS
	(1)	(2)	(3)	(4)
Average percent fuel expenses (including taxes) of total revenue	16.9	2.9	6.3	3.3
Percent surcharge developed	19.0	3.3	7.1	[3]3.0
Percent surcharge allowed	19.0	3.3	7.1	[4]2.2

[1] Apply to all truckload rated traffic.
[2] Including less-than-truckload traffic.
[3] The percentage surcharge developed for UPS is calculated by applying 61 percent of the percentage increase in the current price per gallon over the base price per gallon to UPS average percent of fuel expense to revenue figure as of January 1, 1979 (3.3 percent).
[4] The developed surcharge is reduced 0.8 percent to reflect fuel-related increases already included in UPS rates.

[FR Doc. 81-8751 Filed 3-20-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be

protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later become unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 2, Members.

Agatha L. Mergenovich,
Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY-3-814

Decided: March 12, 1981.

By the Commission, Review Board No. 2, Members Carleton, Fisher, and Williams.

MC 135524 (Sub-163), filed February 18, 1981. Applicant: G. F. TRUCKING COMPANY, 1028 W. Rayen Ave., P.O. Box 229, Youngstown, OH 44501. Representative: George Fedorisin, 914 Salt Springs Rd., Youngstown, OH 44509, (216) 747-4401. Transporting *general commodities*, between Lanare, Hub, and Mentone, CA, Roseville and Youngstown, IL, Commerce, OK, DeSoto and Nashville, NE, Jordan, KY, and Spelter and Farnum, WV, on the one hand, and, on the other, points in the U.S.

Note.—The purpose of this application is to substitute motor service for abandoned rail service.

MC 147585 (Sub-11), filed March 2, 1981. Applicant: DICK WELLER, INC., Shoham Rd., Warehouse Point, CT 06088. Representative: Patrick A. Doyle, 60 Robbins Rd., Springfield, MA 01104, (413) 737-1476. As a *broker*, transporting *general commodities* (except household goods), between points in the U.S.

MC 152315 (Sub-1), filed February 24, 1981. Applicant: MARYLAND MESSENGER SERVICE, INC., 16 Albemarle St., Baltimore, MD 21202. Representative: Theodore H. Cromer (same address as applicant), (302) 837-5550. Transporting (1) *shipments weighing 100 pounds or less* if transported in a motor vehicle in which no one package exceeds 100 pounds, and (2) for or on behalf of the United States Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons or ammunitions), between points in the U.S.

MC 154254, filed February 20, 1981. Applicant: JOHN L. MOYER, d.b.a. MOYER'S KWIK SERVICE, 1414 Cathy's Lane, North Wales, PA 19454. Representative: Theodore Polydoroff, Suite 301, 1307 Dolley Madison Blvd., McLean, VA. Transporting *shipments weighing 100 pounds or less* if transported in a motor vehicle in which no one package exceeds 100 pounds, between points in the U.S.

MC 154545, filed March 2, 1981. Applicant: LOUIS E. BURRISS, d.b.a. L & M EXPRESS, 3224 Toone St., Baltimore, MD 21224. Representative: Dixie C. Newhouse, 1329 Pennsylvania Ave., P.O. Box 1417, Hagerstown, MD 21740, (301) 797-6060. Transporting for or on behalf of the U.S. Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), between points in the U.S.

Volume No. OPY-4-29

Decided: March 18, 1981.

By the Commission Review Board No. 2, Members Carleton, Fisher, and Williams.

MC 153256 (Sub-1), filed March 6, 1981. Applicant: JACK BENTLEY, d.b.a. JACK BENTLEY TRUCKING, 36505 Wilson Hwy., Tillamook, OR 97141. Representative: Lex F. Page, One Southwest Columbia, Suite 800, Portland, OR 97258, (503) 222-4422. Transporting *food and other edible products and by-products intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizers, and other soil conditioners* by the owner of the motor vehicle in such vehicle, between points in the U.S.

Agatha L. Mergenovich,
Secretary.

operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY-4-30

Decided: March 17, 1981.

By the Commission, Review Board No. 2, members Carleton, Fisher, and Williams.

MC 59686 (Sub-9), filed March 6, 1981. Applicant: TRAFIK SERVICES, INC., 25 Esten Ave., Pawtucket, RI 02860. Representative: Robert A. Mega, 510 Turks Head Bldg., Providence, RI 02903, (401) 272-4040. Secretary.

[FR Doc. 81-8746 Filed 3-23-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after March 1, 1979, are governed by Special Rule 247 of the Commission's *Rules of Practice* (49 CFR 1100.247). These rules provide, among other things, that a petition of intervention, either in support of or in opposition to the granting of an application, must be filed with the Commission within 30 days after the date notice of the application is published in the Federal Register. Protests (such as were allowed to filings prior to March 1, 1979) *will be rejected.* A petition for intervention without leave must comply with Rule 247(k) which requires petitioner to demonstate that it (1) holds operating authority permitting performance of any of the service which the applicant seeks authority to perform, (2) has the necessary equipment and facilities for performing that service, and (3) has performed service within the scope of the application either (a) for those supporting the application, or, (b) where the service is not limited to the facilities of particular shippers, from and to, or between, any of the involved points.

Persons unable to intervene under Rule 247(k) may file a petition for leave to intervene under Rule 247(l) setting forth the specific grounds upon which it is made, including a detailed statement of petitioner's interest, the particular facts, matters, and things relied upon, including the extent, if any, to which petitioner (a) has solicited the traffic or business of those supporting the application, or, (b) where the identity of those supporting the application is not included in the published application notice, has solicited traffic or business identical to any part of that sought by applicant within the affected marketplace. The Commission will also consider (a) the nature and extent of the property, financial, or other interest of the petitioner, (b) the effect of the decision which may be rendered upon petitioner's interest, (c) the availability of other means by which the petitioner's interest might be protected, (d) the extent to which petitioner's interest will be represented by other parties, (e) the extent to which petitioner's participation may reasonably be expected to assist in the development of a sound record, and (f) the extent to which participation by the petitioner would broaden the issues or delay the proceeding.

Petitions not in reasonable compliance with the requirements of the rule may be rejected. An original and one copy of the petition to intervene shall be filed with the Commission indicating the specific rule under which the petition to intervene is being filed, and a copy shall be served concurrently upon applicant's representative, or upon applicant if no representative is named.

Section 247(f) provides, in part, that an applicant which does not intend to timely prosecute its applications shall promptly request that it be dismissed, and that failure to prosecute an application under the procedures of the Commission will result in its dismissal.

If an applicant has introduced rates as an issue it is noted. Upon request, an applicant must provide a copy of the tentative rate schedule to any protestant.

Further processing steps will be by Commission notice, decision, or letter which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication.*

Any authority granted may reflect administrative acceptable restrictive amendments to the service proposed below. Some of the applications may have been modified to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each common carrier applicant has demonstrated that its proposed service is required by the present and future public convenience and necessity, and that each contract carrier applicant qualifies as a contract carrier and its proposed contract carrier service will be consistent with the public interest and the transportation policy of 49 U.S.C. 10101. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where specifically noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In those proceedings containing a statement or note that dual operations are or may be involved we find, preliminarily and in the absence of the issue being raised by a petitioner, that the proposed dual operations are consistent with the public interest and the transportation policy of 49 U.S.C. 10101 subject to the right of the Commission, which is expressly reserved, to impose such terms, conditions or limitations as it finds necessary to insure that applicant's operations shall conform to the provisions of 49 U.S.C. 10930(a) [formerly section 210 of the Interstate Commerce Act].

In the absence of legally sufficient petitions for intervention, filed within 30

days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of the decision-notice. To the extent that the authority sought below may duplicate an applicant's other authority, such duplication shall be construed as conferrig only a single operating right.

Applicants must comply with all specific conditions set forth in the following decision-notices within 30 days after publication, or the application shall stand denied.

Note.—All applications are for authority to operate as a common carrier, by motor vehicle, in interstate or foreign commerce over irregular routes, except as otherwise noted.

Volume No. OP1-060

Decided: March 13, 1981.

By the Commission Review Board No. 1, Members Parker, Chandler, and Taylor.

MC 119710 (Sub-32), filed June 6, 1980. Applicant: SHUPE BROS. CO., a Corporation, P.O. Box 929, Greeley, CO 80631. Representative: Paul F. Sullivan, 711 Washington Bldg. Washington, DC 20005. Transporting (1) *salt and salt products*, and (2) *materials and supplies* used in the agriculture, water treatment, food processing, wholesale grocery and institutional supply industries in mixed loads with salt and salt products, between the facilities of Great Salt Lake Minerals & Chemicals Corporation, at or near Little Mountain, UT, on the one hand, and, on the other, points in CO, NE, KS, SD, WY, MT, NM, OK, IA, MO, TX, and MN, under continuing contract(s) with Great Salt Lake Minerals & Chemicals Corp., of Ogden, UT.

MC 150311 (Sub-14F), filed March 31, 1980. Applicant: P & L MOTOR LINES, INC., P.O. Box 4616, Forth Worth, TX 76106. Representative: Billy R. Reid, 1721 Carl St., Fort Worth, TX 76103. Transporting *meats, meat products, and meat byproducts, and articles distributed by meat-packing houses*, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), from Dodge City, KS, to points in the U.S. (except AK and HI).

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special rule 247 was published in the Federal Register of July 3, 1980, at 45 FR 45539.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests in the form of verified statements filed within 45 days of publication of this decision-notice (or, if the application later becomes unopposed) appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notice that the decision-notice is effective. Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregaular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract."

Volume No. 284

Decided: January 28, 1981.

By the Commission Review Board No. 3, Parker, Fortier and Hill. (Member Hill not participating.)

MC 118224 (Sub-7), filed January 13, 1981. Applicant: STANDARD FRUIT & VEGETABLE CO., INC, 2111 Taylor Street, Dallas, TX 75201. Representative: Lawrence A. Winkle, P.O. Box 45538, Dallas, TX 75245. General commodities (except Classes A and B explosives) between points in TX, LA, MS, AR, TN, OK, AL, MO, NM, AR, and CA.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decision; Decision-Notice

The following operating rights applications, filed on or after July 3, 1980, are filed in connection with pending finance applications under 49 U.S.C. 10926, 11343 or 11344. The applications are governed by Special Rule 252 of the Commission's General Rules of Practice (49 CFR 1100.252).

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Persons submitting protests to applications filed in connection with pending finance applications are requested to indicate accross the front page of all documents and letters submitted that the involved proceeding is directly related to a finance application and the finance docket number should be provided. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. However, the Commission may have modified the application to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exceptions of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each applicant has demonstrated that its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each

applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except here specifically noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legaly sufficient protests in the form of verified statements as to the finance application *or* to the following operating rights applications directly related thereto filed within 45 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except where the application involves duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Volume No. OP1-084

Decided: March 17, 1981.

By the Commission, Review Board No. 1, Members Parker, Chandler and Taylor.

MC 151190 (Sub-1), filed February 6, 1981. Applicant: QUICK-WAY CARRIERS, INC., P.O. Box 8, Lascassas, TN 37130. Representative: Henry E. Seaton, 929 Pennsylvania Bldg., 425 13th St., N.W., Washington, DC 20004. Transporting *general commodities* (except classes A and B explosives) between points in Rutherford County, TN, on the one hand, and, on the other, points in the U.S.

Note.—This application is directly related to MC-F-14572, published in this same Federal Register issue.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Volume No. 43]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: March 18, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the Federal Register of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 2368 (Sub-104)X, filed March 2, 1981. Applicant: BRALLEY-WILLETT TANK LINES, INC., P.O. Box 495, 2212 Deepwater Terminal Road, Richmond, VA 23405. Representative: Steven L. Weiman, 4 Professional Drive, Suite 145, Gaithersburg, MD 20760. Applicant seeks to remove restrictions in its Sub-Nos. 7, 13, 14, 16, 17, 19, 20, 21, 22, 23, 24, 25, 26, 29, 30, 31, 34, 38, 44, 45, 47, 49, 51, 52, 53, 56, 59, 60, 62, 64, 66, 67, 69, 70, 72, 75, 76, 77, 78, 84, 85, 87, 89, 91, 92, 94, 95, and 102 certificates and E-1 through 81, and 87 letter notices (1) by broadening the commodity descriptions from named commodities, in bulk, such as petroleum and petroleum products, plastic materials, edible and inedible vegetable and animal oils, dry adipic acid, fertilizer and fertilizer materials, to "commodities in bulk"; (2) by eliminating equipment restrictions, such as "in tank or dump vehicles" wherever they appear in the above-numbered authorities; (3) by replacing specific point or named facilities authority with city or county-wide authority as follows: In Sub-No 7, Friendship with Gilford County, NC, Cabin Creek, with Kanawha County, WV, East Lexington with Rockbridge County, VA, Middletown with Frederick County, VA; Charleston with Kanawha County, WV, Boomer with Fayette County, WV; Sub-No. 13, Montvale with Bedford County, VA; Sub-No. 14, facilities at Perryville with Cecil County, MD; Sub-No. 20, Smithfield with Isle of Wight County, VA, Crozet with Albemarle County, VA; Sub-No. 24, Smithfield with Isle of Wight County, VA; Sub-No. 29, Natrium with Marshall County, WV; Sub-No. 30, Smithfield with Isle of Wight County, VA; Sub-No. 31, Linville with Rockbridge County, VA; Sub-No. 34, Buffalo with Erie County, NY; Vandenberg Air Force Base with Santa Barbara County, CA, Santa Cruz with Santa Cruz County, CA, Sunnyvale with Santa Clara County, CA, Edwards Air Force Base with Kern County, CA, Santa Susana with Ventura County, CA, San Juan Capistrano and Huntington Beach with Orange County, CA, Holloman Air Force Base with Otero County, NM, Eglin Air Force Base with Okaloosa County, FL and Cape Kennedy with Brevard County, FL; Sub-No. 38, Chestertown, MD with Kent County, MD; Sub-No. 51, facilities at Fayetteville with Cumberland County, NC, and Gainesville with Hall County, GA; Sub-No. 53, facilities at Fayetteville with Cumberland County, NC; Sub-No. 56, facilities at South Plainfield with Middlesex County, NJ; Sub-No. 62, Greensboro with Guilford County, NC; Sub-No. 66, Dover with Tuscarawas County, OH; Sub-No. 67, facilities at Dover, OH with Tuscarawas County; Sub-No. 69, facilities at Gainesville with Hall County, GA; Sub-No. 70, facilities at Wilmington with Wilmington, NC; Sub-No. 72, Muncie with Delaware County, IN; Sub-No. 78, Sidney with Shelby County, TN; Sub-No. 85, terminals of the Plantation pipeline Roanoke with Roanoke, VA and terminals of Colonial Pipeline at Montvale with Bedford County, VA; Sub-No. 94F, Camden with Kershaw County, SC and Seaford with Sussex County, DE; Sub-No. 95F, Piaquemine and Taft with St. Charles and Iberville Parishes, LA, Moncure with Chatham County, NC; and Bayport with Harris County, TX and Institute with Kanawha County, WV; facilities at Williamsburg with Williamsburg, VA, Manheim with

Lancaster County, PA, Buffalo with Erie County, NY, East Brunswick with Middlesex County, NJ; Linnville with Rockbridghe County, VA; Sub-E2, Vandenburg Air Force Base with Santa Barbara County, CA, Sunnyvale with Santa Clara County, CA, Santa Cruz with Santa Cruz County, CA, Edwards Air Force Base with Kern County, CA, Santa Susana with Ventura County, CA, San Juan Capistrano and Huntington Beach with Orange County, CA and Holloman Air Force Base with Otero County, NM; Sub-E3, Natrium with Marshall County WV, Perth Amboy with Middlesex County, NJ, and Chestertown with Kent County, MD; Sub-E21, E-25, and E26, and E87; Crozet with Albemarle County, VA; Sub-E24 and 27, Smithfield with Isle of Wight County, VA; (4) by removing alll exceptions to the commodity descriptions such as liquid cocoa butter, hydroilized or stabilized animal oils, petroleum chemicals, petrochemicals, flour, fly ash, sirups wherever they appear in the above numbered authorities; (5) by removing restrictions against the transportation of named commodities to or from specified points in Sub-Nos. 20, 21, 52, and 60; (6) by removing the restriction that limits traffic destined to points in VA, in Sub-No. 23; (7) by expanding its one-way authority to radial authority over various combinations of routes between points primarily in VA, and AL, AK, DE, IL, IN, IA, KS, KY, LA, MD, MN, MS, MO, NE, NC, OH, OK, SC, TN, TX, FL, NJ, NY, and PA, and points in the U.S.; (8) by removing "originating at and destined to" restrictions in Sub-Nos. 14, 22, and 67; and (9) remove the exceptions AK and HI wherever they appear in the above-numbered authorities.

MC 4024 (Sub-14)X, filed February 2, 1981. Applicant: HORN TRUCKING CO., 300 Schmetter Road, Highland, IL 62249. Representative: Leslieann G. Maxey, 907 South Fourth Street, Springfield, IL 62703. Applicant seeks to remove restrictions in its Sub-No. 6F certificate to broaden the commodity description to "iron and steel articles, and metal and metal articles "from iron and steel articles, and metal in Sub-No. 6F, part (1).

MC 10173 (Sub-21)X, filed March 3, 1981. Applicant: MARVIN HAYES LINES, INC., P.O. Box 468, Clarksville, TN 37040. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Applicant is authorized in its lead certificate to transport general commodities, with the usual exceptions, machinery, machine parts, tobacco, seed, fruit, farm products, printing machinery, malt beverages and empty containers between points in TN, OH and IN over regular routes. Applicant seeks to broaden the commodity descriptions to: General Commodities (except Classes A and B explosives), machinery, food or related products, tobacco products and farm products. In sub-Nos. 11, 17F and 18F, applicant is authorized to transport general commodities, with the usual exceptions, between points in TN and KY over regualr routes, with the following restriction: Sub 11 is restricted against the transportation of traffic originating at, destined to, or interchanged at Louisville, KY, and Clarksville and Nashville, TN and points in their respective commercial zones, and at the plantsite of the Trane Company at or near Clarksville, TN. Applicant seeks to serve all intermediate points between Dover and Memphis, TN in Sub-No. 11, between named KY and TN points in Sub-No. 17, and between Louisville, KY and Nashville and Memphis, TN in Sub No. 18F; to remove the restriction stated; and to remove all exceptions except Classes A and B explosives, from its general commodities authorities.

MC 25869 (Sub-179)X, filed February 5, 1981, previously noticed in the Federal Register of February 24, 1981, republished as corrected this issue. Applicant: C.O.D.E., INC., 4600 N. Colorado Blvd., Denver, CO 80216. Representative: Donald L. Stern, Suite 610, 7171 Mercy Road, Omaha, NE 68106. Applicant seeks to remove restrictions in its Sub-Nos. 150F and 151F certificates by (A) broadening the commodity description in Sub-No. 150F from general commodities, with the usual exceptions, to "general commodities (except classes A and B explosives)", and in Sub-No. 151F, part (2), from iron and steel articles to "such commodities as are dealt in or used by manufacturers and distributors of iron and steel articles"; (B) removing in Sub-No. 150F, the plantsite limitation at or near Chicago, IL and the facilities restriction for traffic destined to Kansas City, MO, and Albuquergue, NM; (C) replacing one-way authority with radial authority: in Sub-No. 150F between Chicago, IL and points in IA, Kansas City, MO, Albuquerque, NM, and; in Sub-No. 151F, part (1)(a), between points in Philadelphia, PA and points in OH, and points in CO, KS, MN, NE, IL and IA; (b) between Omaha, NE and Denver, CO; and (c) between Chicago, IL and points in NE, CO and IA (with exceptions); and in part (2) between Chicago, IL and points in CO; and (D) changing the restriction in Sub-No. 151F part (a) to traffic originating at or destined to the facilities of a named shipper in OH. The purpose of this republication is to add "and the facilities restriction for traffic destined to Kansas City, MO, and Albuquergue, NM" to (B) of the caption summary.

MC 29328 (Sub-8)X, filed February 13, 1981, previously noticed in the Federal Register of March 2, 1981, republished as corrected in this issue. Applicant: SCHIEK MOTOR EXPRESS, INC., 90 Casseday Avenue, Joliet, IL 60432. Representative: Anthony E. Young, 29 South La Salle Street, Chicago, IL 60603. Applicant seeks to remove restrictions in its Sub-No. 6F certificate to (1) broaden the commodity description (a) from plastic pipe and fittings, and materials used in the installation of plastic pipe to "rubber and plastic products," (b) building materials and cement pipe to "building materials, clay, concrete, glass or stone products" (c) insulation board to "pulp, paper, and related products," (2) replace plantsite facilities with county-wide authority: Muscatine County for Wilton, IA, Lake County for Waukegan, IL, and Will County for Rockdale, IL, and (3) provide radial service in lieu of existing one-way authority between those counties and points in several midwestern States. The purpose of this republication is to correct the omission of building materials in the commodity description, and to note the substitution of Will County, IL for Rockdale, IL.

MC 41406 (Sub-166)X, filed March 3, 1981. Applicant: ARTIM TRANSPORTATION SYSTEM, INC. P.O. Box 6414, Merrillville, IN 46410. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh Street NW., Washington, D.C. 20001. Applicant seeks to remove restrictions in its Sub-Nos. 66, 71F 75F, 106, and 139F certificates to (1) broaden its commodity descriptions (a) in Sub-Nos. 66, and 139F, from automobile parts, and materials, supplies, and equipment used in the manufacture and production thereof, to "transportation equipment", (b) in Sub-No. 71F, from window glass and flat glass, to "clay, concrete, glass or stone products", (c) in Sub-No. 75F, from general commodities (with exceptions), to "general commodities (except classes A and B explosives), and (d) in Sub-Nos. 106, parts (1) and (2) from automoblie transmissions, automobile transmission parts, metal containers, metal racks, and such commodities as are used in the manufacture and distribution thereof, to "transportation equipment and metal products", and in part (3), iron and steel scrap, to "waste or scrap materials not

identified by industry producing". (2) replace its cities and/or plantsite facilities with county-wide authority (a) in Sub-No. 71F, Dearborn and Wixom, MI, with Wayne and Oakland Counties, MI, (b) in Sub-75, named facilities at Milan, MI, with Washtenaw County, MI, and (c) Batavia Township, OH, with Clermont County, OH; (3) change its one-way authority to radial authority (a) in Sub-No. 68 between MI, Lucas, Wood, Erie and Sandusky Counties OH, and points in 13 northeastern States, (b) in Sub-No. 71F, between Wayne and Wixom Counties, MI, and points in 11 northeastern States, and (c) in Sub-No. 75F, between Washtenaw County, MI, and points in 7 northeastern States; (4) in Sub-Nos. 75F and 108, remove the originating at and destined to restrictions; and (5) in Sub-Nos. 108 and 139F, remove the AK and HI exceptions.

MC 59570 (Sub-47)X, filed March 2, 1981. Applicant: HECHT BROTHERS, INC., 2075 Lakwood Road, Toms River, NJ 08753. Representative: Harry C. Maxwell, P.O. Box 827, Cherry Hill, NJ 08003. Applicant seeks to remove restrictions in its lead and Sub-Nos. 13 and 17 certificates to (1) broaden the commodity description from (a) general commodities (with exceptions) to "general commodities" (except household goods as defined by the Commission and classes A and B explosives) in the regular and irregular portion of the lead, (b) from commodities in bulk, except liquids, and except fly ash in bulk, in hopper vehicles to "commodities in bulk", in Sub-No. 13, (2) remove the in bulk and in bag restrictions in Sub-No. 13, (3) remove restrictions to "shipments having an immediately prior or subsequent movement by rail or water from or to points beyond New Jersey", in Sub-No. 13, (4) remove restriction to traffic having an immediately prior rail movement, in Sub-No. 17, (5) authorize radial authority in place of one-way authority, between named points and states in the east in Sub-Nos. 13 and 17, (6) remove restriction "against the transportation of building and insulating materials and gypsum and gypsum products between Newark, NJ and points within 15 miles thereof, on the one hand, and, on the other, points in New Jersey", in Sub-No. 13, (7) to reflect the state redesignation of former NJ Hwy 528 to "NJ Hwy 18" and former NJ Hwy 40 to "NJ Hwy 70" in the regular routing of its lead, and replace the tacking restriction in Sub-No. 17 with "the carrier's ability to tack will be governed by 49 CFR 1042".

MC 60117 (Sub-4)X, filed March 2, 1981. Applicant: WILSON TRANSFER COMPANY, 600 East Main Street, Quinton, OK 74561. Representative: Don A. Smith, P.O. Box 43, 510 North Greenwood Avenue, Fort Smith, AR 72902. Applicant seeks to remove restrictions in its lead and Sub-No. 2 certificates (1) broaden its commodity descriptions from general commodities (except those of unusual value, livestock, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading) to "general commodities (except those of unusual value, livestock, classes A and B explosives, commodities requiring special equipment, and those injurious or contaminating to other lading)" and (2) authorize service at all intermediate points along described regular routes between Quinton, OK, and Ft. Smith, AR in the lead; and between Kinta, OK, and Spiro, OK, and between Quinton, OK and Eufaula Dam, OK, in Sub-No. 2.

MC 64048 (Sub-10)X, filed March 12, 1981. Applicant: CAPITAL CITY TRANSFER CO., 1295 Johnson St. NE., Salem, OR 97303. Representative: Lawrence V. Smart, jr., 419 NW 23rd Avenue, Portland, OR 97210. Applicant seeks to remove restrictions from its Sub-Nos. 4 and 8 certificates to (1) broaden the commodity description of (a) newsprint in rolls to "pulp, paper and related products", in Sub-No. 4, (b) liquid sweeteners to "food and related products", in Sub-No. 8, (2) by broadening Salem, OR to Marion and Polk Counties, OR, in Sub-No. 8 and Port Angeles, WA to Clallam County, WA, in Sub-No. 4, (3) remove a bulk and in tank restriction in Sub-No. 8; and (4) by changing one-way to radial authority between Salem, OR and points in WA and between Clallam County, WA and Seattle, WA and Salem, OR.

MC 66247 (Sub-30)X, filed: March 2, 1981. Applicant: INTERNATIONAL CARRIERS LIMITED, 1333 College Avenue, Windsor, Ontario, Canada. Representative: Martin J. Leavitt, 22375 Haggerty Road, P.O. Box 400, Northville, MI 48167. Applicant seeks to remove restrictions in its lead and Sub-Nos. 3, 4, 8, 10, 12F, 15F and 23F certificates to (1) change the commodity description from general commodities (with exceptions) to "general commodities (except classes A and B explosives)" in its lead, Sub-Nos. 3 and 4; from sand, in dump vehicles in Sub-No. 8, and magnesite in bulk, in dump vehicles in Sub-Nos. 12F and 15F to "ores and minerals"; from nepheline syenite, in bulk, in dump or hopper bottom vehicles in Sub-No. 10 to "chemicals and related products"; from high temperature bonding material, in bulk, in dump vehicles in Sub-Nos. 12F and 15F to "building materials"; and from iron and steel in Sub-No. 23F to "metal products" (2) remove facilities limitations at Romeo, MI, in Sub-No. 4, at Rockwood, MI, in Sub-No. 8, at Manistee, MI, in Sub-No. 12F, and at Ludington, MI, in Sub-No. 15F, (3) substitute Macomb County, MI, for Romeo, MI in Sub-No. 4, Wayne County, MI, for Rockwood, MI, in Sub-No. 8, Lucas County, OH, for Toledo, OH, Manistee County, MI, for Manistee, MI, in Sub-No. 12F, and Mason County, MI for Ludington, MI, in Sub-No. 15F; (4) replace specified ports of entry with ports of entry on the international boundary line between the U.S. and Canada in MI in its lead and Sub-Nos. 3, 4, 8, 10, 12F, 15F, and 23F; (5) replace one-way with radial authority between (a) Wayne County, MI and ports of entry in MI in Sub-No. 8, (b) between Lucas County, OH and ports of entry in MI in Sub-No. 10F, (c) Manistee County, MI, and ports of entry in MI in Sub-No. 12F and (d) Mason County, MI, and ports of entry in MI in Sub-No. 15F; and (6) remove originating at or destined to restrictions in its lead and Sub-No. 8.

MC 87546 (Sub-4)X, filed March 10, 1981. Applicant: KRAMER'S MOTOR SERVICE AND STORAGE, INC., 402 N. Queen St., York, PA 17403. Representative: Gerald K. Gimmel, 4 Professional Drive, Suite 145, Gaithersburg, MD 20760. Applicant seeks to remove restrictions in its lead certificate to (1) broaden the commodity description from (a) general commodities" (with exceptions) to "general commodities (except classes A and B explosives) (b) empty trailers to "transportation equipment" (c) new furniture to "furniture and fixtures" (d) paper, paper, products, to "pulp, paper, and related products", (e) playground equipment, sleds, hobby-horses, wagons, wagon wheels to "miscellaneous products to manufacturing"; (2) remove restriction limiting service to shipments originating at or destined to named points; (3) authorize countywide for city authority: Hanover, York, and Orrtanna, PA, with York and Adams County, PA; and (4) remove the restriction requiring service on trailers moving in TOFC service from and to Hanover and York, PA.

MC 103480 (Sub-87)X, filed March 4, 1981. Applicant: PROVAN TRANSPORT CORP., 210 Mill Street, Newburgh, NY 12550. Representative: Morton E. Kiel, Two World Trade Center, Suite 1632, New York, NY 10048. Applicant seeks to remove restrictions in its Sub-Nos. 36,

55, 57, 60, 62, 64, 68G, 69, 71, 72F, 73F, 74F, 75F, 76F, 77F, 78F, 79F, 81F, 82F, 83F, 85F, certificates, and E1, E2, letter notices to (1) broaden the commodity description from (a) petroleum products, aviation gasoline, petroleum wax, to "petroleum, natural gas and their products" in Sub-Nos. 36, 68G, 69, 72, 73, 76, 78, 79, 81, E2 (b) alcohols, esters, Ketones, naphtha, coating material solvents, thinners, zinc fumes, dry ammonium nitrate, disobutylene, to "chemicals and related products" in Sub-Nos. 35, 36, 64, 72, 75 77, 79, 81, 82, 85, E1(c) coal tar products to "coal and coal products" in Sub-No. 36; (d) Stone, processed aggregates, sand, gravel, fill, paving materials, bituminous concrete, dry cement, concrete pipe fittings, materials, supplies and equipment to "clay, concrete, glass, or Stone products "in Sub-Nos. 36, 57, 60, 62, 71; (e) liquid condensed fish solubles, vegetable oil to "flood and related products" in Sub-Nos. 74 and 82; (f) ores and aggregates to "ores and minerals" in Sub-Nos. 62 and 82; (2) delete the commodity restrictions in Sub-Nos. 36, 55, 57, 62, 64, 68, 69, 71, 72, 73, 74, 75, 76, 77, 78, 79, 81, 82, 85, E1 E2, (3) remove the exceptions of AK and HI in Sub-Nos. 75, 77, 82, 83, (4) eliminate an originating at and/or destined to restriction in Sub-Nos. 74, 81; (5) authorize radial service betwen specified origins and points in the U.S. in lieu of existing one-way authority in Sub-Nos. 36, 55, 57, 60, 62, 64, 68, 69, 72, 73, 74, 75, 76, 78, 79, 81, E1 and E2' (6) authorize county-wide service for city authority: Fairfield County for Stanford and E. Porchester, CT; Westchester and Putnam Counties for Bedford, Poundridge, Lewisboro, Somers, North Salem, Carmel, Mount Vernon, White Plains, New Castle, Scarsdale, North Castle and Bedford, NY; Gloucester County for Paulsboro, NJ; Cattaraugurs and Ulster Counties for Olean, and MT Pleasant, NY; York County for York, PA; Broome County for Vestal, NY; Dutchess County for Poughkeepsie; NY; Allegany County for Wellsville, NY; New Castle County for Delaware City, DE, in Sub-No. 36; Staten Island County for Tottenville, NY; Middlesex County for Carteret, NJ, in Sub-No. 55; Fairfield County for Brookfield, CT, in Sub-No. 57; Ulster County for Rosendale, NY, in Sub-No. 60; Rockland County for Haverstraw, NY in Sub-No. 62; Schuylkill County for Reynolds, PA, in Sub-No. 64; Gloucester County for Paulsboro, NJ and Camden County for Pettys Island, NJ in Sub-No. 68; Rockland County for Haverstraw, NY, in Sub-No. 71; Gloucester County for Westville, NJ, in Sub-No. 73; Essex County for Gloucester, MA, in Sub-No. 74; Rockland County for Stony Point, NY, in Sub-No. 75; Middlesex County for Sewaren, NJ, in Sub-No. 76; Mobile County for Theodore, AL, in Sub-No. 77; Butler County for Petrolia, PA, and Passaic County for Passaic, NJ, in Sub-No. 78; Haverhill County for Groveland, MA; Northfield County for Macedonia, OH; New Haven County for Milford, CT; Warren County for Warren, PA, and Middlesex County for Woburn, MA, in Sub-No. 79; Fairfield County for Brookfield, CT, in Sub-No. 81; Newcomb County for Tahawas, NY; Middlesex County for Sayreville, NJ, in Sub-No. 82; Gloucester County for Paulsboro, NJ and Camden County for Pettys Island, NJ, in E1; Bristol County for Fall River, MA; Hartford, New Haven and Middlesex Counties for Hartford, New Haven and Middletown, CT; Plymouth, Hampden, Middlesex, Bristol, Essex, Hampshire, Worcester Counties for Brockton, Chicopee Falls, Chelmsford, Lawrence, Salem, Marlboro, Northampton, Springfield, Worcester, and New Bedford, MA; Litchfield, Windham, Middlesex, and New Haven Counties for Canaan, Middletown, Putnam and Torrington, CT; and (7) remove the exceptions of service to Marcy and Utica, NY in Sub-No. 36, sheet 2.

MC 107376 (Sub-18)X, filed March 2, 1981. Applicant: UNITED STATES EXPRESS, INC., 1209 Triplett Blvd., Akron, OH 44306. Representative: John P. McMahon, 100 East Broad St., Columbus, OH 43215. Applicant seeks to remove restrictions in its lead and Sub-Nos. 6, 11, and 16F certificates to broaden the commodity descriptions to: lead certificate, "machinery, metal products, rubber and plastic products, and clay, concrete, glass or stone products" from pipe and pipelaying equipment and machinery; Sub-No. 6, "clay, concrete, glass or stone products, rubber and plastic products, chemicals and related products, and machinery" from high pressure concrete water pipe and equipment, materials and supplies used in connection with the installation, construction, maintenance, or repair of high pressure concrete water pipelines; Sub-No. 11, "clay, concrete, glass or stone products, and those commodities which because of their size or weight require the use of special handling or equipment" from precast concrete slabs and beams of such size and weight as to require the use of special equipment, and accessories, supplies and materials incidental to their manufacture and installation; Sub-No. 16F, "metal products" from wrought steel pipe and pipe coupling. Applicant also seeks to broaden the territorial descriptions by substituting county-wide authority in place of specified cities or plantsite, and change from one-way service to radial service: Sub-No. 6 between Wayne County, MI (plantsite at Dearborn, MI), and points in NY and PA; Sub-No. 11 between Wayne County, MI (Livonia, MI), and points in OH, IN, PA and KY, and between Portage County, OH (Kent, OH), and points in MI, KY, IN, and PA; Sub-No. 16F between Beaver County, PA (Aliquippa, PA), and points in IL, IN, OH, KY and MI.

MC 109449 (Sub-55)X, filed March 5, 1981. Applicant: KUJAK TRANSPORT, INC., P.O. Box 799, Winona, MN 55987. Representative: Jack H. Blanshan, 205 W. Touhy Avenue, Suite 200, Park Ridge, IL 60068. Applicant seeks to remove restrictions in its Sub-No. 36F to (1) broaden the commodity description from foodstuffs to "food and related products", (2) remove the facilities limitation, and replace Hudson, IA with Blackhawk County, IA, (3) replace one-way with radial authority between points in MN, WI, and Blackhawk County, IA, and, points in IN, MI and OH.

MC 111231 (Sub-344)X, filed March 5, 1981. Applicant: JONES TRUCK LINES, INC., 610 East Emma Avenue, Springdale, AR 72764. Representative: James H. Berry (same address as applicant). Applicant seeks to remove restrictions in its Sub-Nos. 67, 285F and 287F certificates to (1) broaden the commodity description from general commodities, with usual exceptions (and with the size or weight limitation in Sub-No. 67), to "general commodities, except classes A and B explosives"; (2) remove the restriction which limits service to specified or no intermediate points, to authorize service to all intermediate points in connection with its regular-route operations in OK, TX, AR, AL, and TN; and (3) eliminate the restriction prohibiting the transportation of shipments moving between Atlanta, GA and Birmingham, AL, and points in their commercial zones, in Sub-No. 67:

MC 111231 (Sub-345)X, filed March 5, 1981. Applicant: JONES TRUCK LINES, INC., 610 East Emma Avenue, Springdale, AR 72764. Representative: James H. Berry (same as above). Applicant seeks to remove restrictions from its Sub-No. 238F certificate to (1) eliminate all exceptions to its general commodity authority, except classes A and B explosives; (2) delete the limitation on service for purpose of joinder only; (3) remove the restriction against radial service between Atlanta, GA and Dallas and Ft. Worth, TX and points in their respective commercial zones; and (4) allow service at all

intermediate points between Atlanta, GA and Denver, CO.

MC 111231 (Sub-347)X, filed March 6, 1981. Applicant: JONES TRUCK LINES, INC., 610 East Emma Avenue, Springdale, AR 72764. Representative: James H. Berry (same as applicant). Applicant seeks to remove restrictions in its Sub-Nos. 222 and 223 certificates to (1) broaden the commodity description in both certificates by removing all restrictions in its general commodities authority "except classes A and B explosives," (2) remove limitations on services to specified or no intermediate points between points in AL, GA, LA, and MS, and remove limitations on service at Montgomery, AL and a highway intersection near Cuba, AL for purpose of joinder only, and remove restrictions against the radial transportation of traffic moving between Atlanta, GA and Birmingham, AL and points in their respective commercial zones, and points in Chicago, IL, Dallas and Fort Worth, TX and points in their Commercial zones in Sub-No. 222.

MC 111231 (Sub-351)X, filed March 9, 1981. Applicant: JONES TRUCK LINES, INC., 610 East Emma Avenue, Springdale, AR 72764. Representative: James H. Berry (same as applicant). Applicant seeks to remove restrictions in its Sub-No. 207 certificate to (1) delete from the general commodity description, all exceptions, except classes A and B explosives; (2) eliminate the directional pickup and delivery restrictions on specified commodities; and (3) authorize service at all intermediate points between Washington, KS and Kansas City, MO; between Washington, KS and Omaha, NE; between Republic, KS and Kansas City, MO; between Kansas City, MO and Haddam, KS; between Kansas City, MO and Belleville, KS; between Morrowville, KS and Kansas City, MO; between Morrowville, KS and Omaha, NE; between Morrowville, KS and Grand Island, NE; between Republic, KS and Omaha, NE; between Superior, NE and Wichita, KS; and between Belleville, KS and Holdrege, NE.

MC 111231 (Sub-352)X, filed March 6, 1981. Applicant: JONES TRUCK LINES, INC., 610 East Emma Avenue, Springdale, AR 72764. Representative: James H. Berry (same as applicant). Applicant seeks to remove restrictions in its Sub-Nos. 269F and 282F certificates to (1) broaden the commodity descriptions from general commodities, with exceptions, to "general commodities (except classes A and B explosives)," in both authorities; and (2) broaden the territorial scope by removing restrictions in portions of each certificate which limit service for purposes of joinder only, and which limit service to specified or no intermediate points, in order to authorize service at all intermediate points in connection with its regular route operations as follows: (a) between Springfield, MO and Conway, AR; (b) between Gateway and Hoxie, AR; (c) between Springdale and a junction near Alpena, AR; (d) between South Haven, MS and a junction near Ash Flat, AR; (e) between Texarkana, TX and Conway, AR, in Sub-No. 269F; and (a) between Baton Rouge, LA and Texarkana, AR; (b) between a junction near Alexandria, LA and a junction near Shreveport, LA; and (c) between a junction near Shreveport, LA and Dallas, TX, in Sub-No. 282F.

MC 111231 (Sub-353)X, filed March 6, 1981. Applicant: JONES TRUCK LINES, INC., 610 East Emma Avenue, Springdale, AR 72764. Representative: James H. Berry (same as applicant). Applicant seeks to remove restrictions in its certificate acquired in Nos. MC-F-12453 (portion of MC-11207), in which issuance of a certificate is pending, to (1) in the regular and irregular route authorities broaden its commodity descriptions from general commodities (with exceptions), to "general commodities, except classes A and B explosives; (2) authorize service at all intermediate points where service is limited to specified intermediate points or no intermediate point service in the regular route portion of authority, in part (16), between Atlanta, GA, and Oxford, AL; (3) remove the restrictions limiting service for the purpose of joinder only, in the regular-route portion, part (10) and (16), and in the irregular route portion of authority; and (4) eliminate (a) the originating at and destined to restriction (regular route portion), and (b) tacking restrictions prohibiting the transportation of shipments to provide a through service between points in MS.

Note.—Applicant's ability to tack existing authorities will be governed by rules set forth 49 CFR Part 1042.

MC 111274 (Sub-69)X, filed March 3, 1981. Applicant: SCHMIDGALL TRANSFER, INC., P.O. Box 351, Morton, IL 61550. Representative: Frederick C. Schmidgall (same as above). Applicant seeks to remove restrictions in its Sub-No. 59 permit, which authorizes the transportation of metal buildings, and, materials and components used or useful in the manufacture and erection of metal buildings to expand its territorial description to "between points in the U.S.," under continuing contract(s) with a named shipper.

MC 111729 (Sub-770)X, filed March 3, 1981. Applicant: PUROLATOR COURIER CORP, 3333 New, New Hyde Park, NY 11042. Representative: Peter A. Greene, 1920 N St., N.W., Suite 700, Washington, D.C. 20036. Applicant seeks to remove restrictions in its (Sub-250, 494, 497, 502, 519, 520, 535, 536, 542, 543, 547, 555, 557, 565, 571, 595, 622, 693, 695, 707, 743F, 744F, 746F, 748F, 749F, 755F, 758F and 765F) certificates to (1) remove all exceptions to general commodities authorities except class A and B explosives in (Sub-250, 494 part (b), 497, 502, 519, 520, 535, 536, 542, 543, 547, 555 part (l), 557, 565, 571, 595, 622, 693, 695, 707, 743F, 744F, 746F, 748F, 749F, 755F, 758F and 765F), (2) eliminate size and/or weight moving from one consignor to one consignee on any one day restrictions in (Sub-250, 494, 497, 502, 519, 520, 535, 536, 542, 543, 547, 555, 557, 565, 571, 595, 622, 693, 695, 707, 743F, 744F, 746F, 748F, 749F, 755F, 758F and 765F), (3) remove restriction in (Sub-250) which precludes service between any two points within IN or from Cincinnati, OH to points in IN on its irregular route radially between a described portion of KY, and specified points in 2 states; between a described portion of KY, and, 2 points in IN and Cincinnati; between Louisville, KY, and, a described portion of IN, (4) replace city with county-wide authority (a) Cincinnati and Portsmouth, OH, with Hamilton and Scioto Counties, OH; Evansville and New Albany, IN with Vanderburgh and Floyd Counties, IN; Louisville, KY with Jefferson County, KY in (Sub-250); (b) Seattle and Tacoma, WA with King and Pierce Counties, WA, Denver and Colorado Springs, CO, with Denver and El Paso Counties, CO; and Phoenix, AZ with Maricopa County, AZ in (Sub-494), (c) Portland, OR, with Multnomoh County, OR in (Sub-502 and 693) (d) Wichita, KS with Sedgwick County, KS in (Sub-555) and (e) Spokane County, WA in (Sub-695 and 707), (5) eliminate restriction requiring that traffic have a prior or subsequent movement by any mode of transportation or type of carriers in (Sub-494, 543, 693 and 707), and (6) change one-way to radial authority between King County, WA, and, points in King, Pierce, Snohomish, Skagit, Thurston, and Mason Counties, WA in (Sub-494).

MC 111837 (Sub-3)X, filed March 9, 1981. Applicant: SEMCA MOTOR LINES, INC., 77-15 19th Rd., Jackson Heights, NY 11370. Representative: Edward L. Nehez, P.O. Box 1409, Fairfield, NJ 07006. Applicant seeks to remove restrictions in its lead certificate to broaden the commodity description from (a) airplanes, seaplanes, and parts

thereof, and (b) commodities requiring special equipment and handling because of size and weight, and building and road construction material and machinery to "transportation equipment, machinery, building materials, and commodities which because of size of weight require the use of speical handling or equipment."

MC 115273 (Sub-17)X, filed March 9, 1981. Applicant: ACME CARRIERS, INC., 216 Third Street, Brooklyn, NY 11215. Representative: George A. Olsen, P.O. Box 357, Gladstone, NJ 07934. Applicant seeks to remove restrictions in its (Sub-2 and 14) certificates to (1) broaden the commodity description from general commodities, with exceptions to "general commodities (except classes A and B explosives)"; and (2) broaden the territorial scope by replacing one-way authority with radial to serve between points in New York, NY, and points in Chicago, IL in (Sub-2).

MC 116519 (Sub-93)X, filed March 6, 1981. Applicant: FREDERICK TRANSPORT LIMITED, Rural Route No. 6, Chatham, Ontario, Canada N7M 5J6. Representative: Jeremy Kahn, Suite 733 Investment Building, 1511 K Street, N.W., Washington, D.C. 20005. Applicant seeks to remove retrictions in its (Sub-52F) certificate to (1) broaden the commodity description to "metal products" from steel tubing, steel pipe and steel piling; (2) authorize radial authority, in lieu of existing one-way service, between ports of entry on the U.S.-Canada international boundary line in MI and NY and points in 37 states in the U.S. (except AZ, CA, CO, ID, MT, NV, NM, OR, UT, WA and WY), and (3) remove the AK and HI exception.

MC 116519 (Sub-94)X, filed March 6, 1981. Applicant: FREDERICK TRANSPORT LIMITED, Rural Route No. 6, Chatham, Ontario, Canada, N7M 5J6. Representative: Jeremy Kahn, Suite 733 Investment Bldg., 1511 K St., N.W., Washington, DC 20005. Applicant seeks to remove restrictions in its (Sub-13) certificate to (1) broaden the commodity description from agricultural machinery and agricultural implements (except hand implements and tractors) to "machinery", (2) remove the restriction on service to parts of entry on the United States-Canada Boundary line in the Upper Peninsula of Michigan, (3) remove facilities limitation in part (2) and replace city with county-wide authority: New Holland, Mountville, and Belleville, PA with Lancaster and Mifflin Counties, PA; Grand Island, NE with Hall County, NE; and Vinton, IA with Benton County, IA (4) remove the restriction that traffic originate and be destined to named facilities in both parts of the authority, and (5) change one-way to radial authority between Lancaster and Mifflin Counties, PA, Hall County, NE and Benton County, IA, and, ports of entry on the US-Canada Boundary Line located in NY and MI.

MC 116519 (Sub-95)X, filed March 6, 1981. Applicant: FREDERICK TRANSPORT LIMITED, Rural Route No. 6, Chatham, Ontario, Canada, N7M 5J6. Representative: Jeremy Kahn, Suite 733 Investment Building, 1511 K Street, N.W., Washington, D.C. 20005. Applicant seeks to remove restrictions its (Sub-45) certificate to (1) allow the transportation of "lumber and wood products" where lumber is presently authorized; (2) allow radial service for existing one-way authority: between ports of entry on the US-CN Boundary line located in MI and NY and points in the U.S. (with exceptions), (3) eliminate a restriction limiting traffic to that originating at named facilities in the province of Ontario, Canada, and (4) remove the exceptions of AK and HI.

MC 116519 (Sub-96)X, filed March 12, 1981. Applicant: FREDERICK TRANSPORT LIMITED, Rural Route No. 6, Chatham, Ontario, Canada. Representative: Jeremy Kahn, 1511 K Street, NW, Washington, DC 20005. Applicant seeks to remove restrictions from its (Sub 87F) certificate to (1) change the commodity description from glass containers to "clay, concrete, glass or stone products"; (2) authorize radial service between ports of entry on the International boundary line between the U.S. and Canda at points in MI, NY, VT, NH, and ME, and points in the U.S. (except certain States); (3) remove the exception to AK and HI from the territorial description; and (4) delete the restriction to traffic moving in foreign commerce.

MC 117883 (Sub-277)X, filed March 3, 1981. Applicant: SUBLER TRANSFER, INC., 1 Vista Drive, P.O. Box 62, versailles, OH 45380. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 11th Street, N.W. Washington, DC 20001. Applicant seeks to remove restrictions in its (Sub 93 and 247) certificates to: (1) broaden the commodity descriptions (a) to "food and related products" from groceries in Paragraph 3, and meats in Paragraphs 22 and 24, of (Sub-93); (b) "pulp, paper and related products" from paper products in Paragraph 1, paper, paper products, and pulpboard, in Paragraph 2, paper and paper products in Paragraph 13, and paper, paper products, pulpboard, and pulpboard products in Paragraphs 15 and 16, of (Sub-93) (c) "clay, concrete, glass or stone products" from tile and refractory products in Paragraph 20 and brick, tile, and other refactory products in Paragraph 21 of (Sub-93); (d) "metal products" from "stell strapping" in Paragraph 1 of (Sub-93); (e) "such commodities as are dealt in by food business houses" from cleaning compounds, washing compounds, soap, soap products, concentrated lye, chlorinated lime, shortening, oleomargarine, and glycerine, in Paragraph 17 of (Sub-93); (f) "metal products, transportation equiupment, machinery, clay, concrete, glass or stone products, and pulp, paper and related products," from wire, iron, brass, and steel products, automobile parts and appliances, electrical automobile equipment, electrical household appliances, refrigerators, cooling machinery supplies, and equipment, pottery insulators, and printing paper, paper product, in Paragraph 6 of (Sub-93); and (g) "general commodities (except class A and B explosives)" for general commodities (with certain exceptions) in (Sub-247); and (2) expand authority to serve specified points or plant sites with authority to served city or county-wide authority as follows: (a) Champaign, Hamilton, and Montgomery Counties, OH, for Dayton, Lockland, and Urbana, OH, in Paragraph 2 of (Sub-93); (b) Hancock, Richland, and Seneca Counties, OH, for findlay, Fostoria, Mansfield, and Tiffin, OH, in Paragraph 3 of (Sub-93); (c) Butler, Montgomery, Seneda, Warren, and Wyandot Counties, OH, for Carey, Fostoria, Franklin, Middletown, and Moraine, OH, in Paragraph 6 of (Sub-93); (d) Butler County, OH, for Hamilton, OH in Paragraph 13 of (Sub-93); (e) clark County, OH, for Springfield, OH, in Paragraph 15 of (Sub-93); (f) Champaign County, OH, for Urbana, OH in Paragraph 16 of (Sub-93); (g) Carroll County, OH, for Minerva, OH and Perry County, OH for Shawnee, OH, in Paragraph 20 of (Sub-93); (h) Beaver County, PA for Beaver Falls, Darlington, West Darlington, and Eastvale, PA, in Paragraph 21 of (Sub-93); (i) Nobles County, MN for a facility near Worthington, Minnesota, in Paragraph 22 of (Sub-93); (j) Cherokee County, IA for facility at Cherokee, IA in Paragraph 24 of (Sub-93); and (k) Louisville, KY for a facility at Louisville, KY, in (Sub-247); (3) expand its "from and to" regular route authority to two-way authority and authorize service to all intermediate points between Hamilton, OH and Chicago, IL, in Paragraph 1, (Sub-93); (4) in (Sub-93), broaden its one-way authority to radial authority between Hamilton, Montgomery and Champaign Counties, OH, and, Chicago, IL, in Paragraph 2; between Chicago, IL, and

Hancock, Seneca, and Richland Counties, OH, in Paragraph 3; between Wyandot, Seneca, Warren, Butler, and Montgomery Counties, OH and Toledo, OH, and, Chicago, IL, in Paragraph 6; between Butler County, OH, and, St. Louis, MO, and a part of IN (except Hammond, Munica, and Richmond, IN), part of IL (except Chicago, Dekalb, LaSalle, and Peoria, IL, and points within 30 miles of Chicago), in Paragraph 13; between Chicago, IL, and, points in a described portion of OH, in Paragraph 17; between Carroll, Perry, Hocking and Wyandot Counties, OH and that part of Franklin County, OH east of US Hwy 23 (except Columbus, OH), and, points in IL, in Paragraph 20; between Beaver and Lawrence Counties, PA, and, points in IL, in Paragraph 21; between Nobles County, MN, and, points in IL, IN, and OH, in Paragrapah 22; between Cherokee County, IA, and, points in IN and OH, in Paragraph 24; and (5) remove the "originating at or destined to" restrictions in Paragraphs 22 and 24, and in (Sub-2477).

MC 119750 (Sub-6)X, filed March 2, 1981. Applicant: PERKINS MOTOR TRANSPORT, INC., P.O. Box 218, Savage, MN 55378. Representative: Jack McGraw (same as applicant). Applicant seeks to remove restrictions in its lead certificate to broaden part (1) of the commodity description from commodities, the transportation of which because of size or weight requires the use of special equipment to "such commodities which because of their size or weight require the use of special equipment" and part (2) from building contractors' tools and supplies to "building and construction materials and related articles."

MC 119777 (Sub-520)X, filed March 2, 1981. Applicant: LIGON SPECIALIZED HAULER, INC., Highway 85-East, Madisonville, KY 42431. Representative: Carl U. Hurst, P.O. Drawer "L", Madisonville, KY 42431. Applicant seeks to remove restrictions in its (Sub-9, 48, 61, 155, 168 and 202) certificates to (1) broaden the commodity description from general commodities (with usual exceptions, and those injurious or contaminating to other lading) to "general commodities (except classes A and B explosives)," in (Sub-168); (2) eliminate the restriction limiting or prohibiting the transportation of commodities which (a) do not require the use of special equipment, in (Sub-48), and (b) because of size or weight require the use of special handling or equipment, in (Sub-155); (3) remove the restriction which limits service to specified intermediate points, to authorize service to all intermediate points between Clarksville, MO and East St. Louis, IL, in (Sub-168); and (4) replace one-way service with radial authority between points in specified counties in 3 eastern States and points (with one exception) in numerous specified eastern and central States, in (Sub-9, 48, 61, 155 and 202).

MC 120737 (Sub-80)X, filed March 2, 1981. Applicant: STAR DELIVERY & TRANSFER, INC., P.O. Box 39, Canton, IL 61520. Representative: James C. Hardman, 33 N. LaSalle St., Chicago, IL 60602. Applicant seeks to remove restrictions in its (Sub-7, 8, 10, 16, 27, 35, 39, 45, 67F, and 69F) certificates to (1) broaden its commodity descriptions from various machinery items such as agricultural implement parts, tractor parts, non-agricultural tractor parts, tractor attachments and equipment, and irrigation systems, and parts and attachments, thereof, to "machinery", in each certificate; (2) replace its cities with county-wide authority (a) in (Sub-35 and 67F), Havana, IL, with Mason County, IL, and (b) in (Sub-69F), Litchfield, MN, with Meeker County, MN; (3) in (Sub-39), replace the facilities located at East Moline, Moline, and Rock Island, IL, with East Moline, Moline and Rock Island, IL; (4) change its one-way authority to radial authority (a) in (Sub-7), between Louisville, KY, and points in Fulton and Rock Island Counties, IL, (b) in (Sub-16), between Eau Claire, WI, and points in 16 several specified eastern States, (c) in (Sub-27), between Louisville, KY, and points in the U.S., (d) in (Sub-35), between Mason County, and points in the U.S. (with exceptions), (e) in (Sub-39), between East Moline, Moline, and Rock Island, IL, and points in the U.S. (with exceptions), (f) in (Sub-45), between Harrison County, MS and points in the U.S., (g) in (Sub-67F), between Mason County, IL, and points in FL, GA, and OK, and (h) in (Sub-69F), between Meeker County, MN, and points in MI, IA, and NC, (5) in (Sub-16, 35, 39, and 45), eliminate the originating at and destined to restrictions; (6) in (Sub-8, 16, and 35), eliminate the size and weight restrictions; and (7) remove the exceptions in (Sub-27, 35, 39, and 45), against service to AK and HI.

MC 121496 (Sub-66)X, filed March 6, 1981. Applicant: CANGO CORPORATION, 2727 North Loop West, Houston, TX 77008. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 11th St. NW., Washington, D.C. 20001. Applicant seeks to remove restrictions in its (Sub-16F) certificate to (1) broaden the commodity description from petroleum products, vehicle body sealers, sound deadening compounds, and accoustical control products, in bulk, in tank vehicles to "commodities in bulk", (2) remove the facilities limitation in Warren County, MS, (3) replace one-way authority with radial authority between Warren County, MS and points in the U.S., (4) remove restriction to the transportation of traffic originating at the named facilities and (5) remove the AK and HI exception.

MC 121496 (Sub-67)X, filed March 6, 1981. Applicant: CANGO CORPORATION, 2727 North Loop West, Houston, TX 77008. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 11th St. NW., Washington, D.C. 20001. Applicant seeks to remove restrictions in its (Sub-8) certificate to (1) broaden its commodity description from petroleum and petroleum products, in bulk, in tank vehicles, to "commodities in bulk"; (2) replace the city of Cotton Valley, LA, with parish-wide authority in Webster Parish, LA; and (3) change its one-way authority to radial authority between Webster Parish and Shreveport, LA, and points in TX.

MC 121496 (Sub-68)X, filed March 11, 1981. Applicant: CANGO CORPORATION, 2727 North Loop West, Houston, TX 77008. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street NW., Washington, D.C. 20001. Applicant seeks to remove restrictions in its (Sub-14F) certificate, to (1) broaden the commodity description from diethylene glycol, dipropylene glycol and recovered glycols, in bulk, in tank vehicles, to "commodities in bulk," and (2) broaden the territorial description by (a) changing the town designation to the appropriate Parish designation of Madison parish, LA; (b) eliminating the "except Alaska and Hawaii restriction, and (c) replacing one-way authority with radial authority between Madison Parish, LA, and points in the U.S. (except points in St. Louis, MO–East St. Louis, IL commercial zone).

MC 121496 (Sub-70)X, filed March 10, 1981. Applicant: CANGO CORPORATION, 2727 North Loop West, Houston, TX 77008. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh Street NW., Washington, D.C. 20001. Applicant seeks to remove restrictions in its (Sub-37F) certificate to (1) broaden the commodity description from acids, chemicals and petroleum products, in bulk, in tank vehicles to "commodities in bulk" and (2) remove the facilities limitation at North Seadrift, TX and expand the one-way authority to radial authority between Calhoun County, TX and points

in the U.S.; and (3) remove the "except Alaska and Hawaii" restriction.

MC 123189 (Sub-4)X, filed March 9, 1981. Applicant: FRANKLIN EXPRESS INCORPORATED, U.S. 31 W. North, Franklin, KY 42134. Representative: Roland M. Lowell, 618 United American Bank Building, Nashville, TN 37219. Applicant seeks to remove restrictions in its (Sub-3F) certificate to (1) remove all exceptions, except "classes A & B explosives," from its general commodities authority; (2) remove the restriction limiting shipments to those having a prior or subsequent movement by rail; and (3) broaden the territorial description by substituting Warren County, KY, for Bowling Green, KY.

Note.—Carrier's authority to tack will be governed by 49 CFR 1042.

MC 123376 (Sub-2)X, filed March 2, 1981. Applicant: SODAK TRANSPORT, INC., 2380 Wycliff, St. Paul, MN 55114. Representative: Samuel Rubenstein, P.O. Box 5, Minneapolis, MN 55440. Applicant seeks to remove restrictions in its lead certificate to (1) replace city-wide authority with county-wide authority: Mitchell, Huron, Flandreau, Kimball, Pierre Brookings, Watertown, Sioux Falls and Madison with Davidson, Beadle, Moody, Brule, Hughes, Brookings, Codington, Minnehaha, and Lake Counties, SD; and Hopkins and Chaska with Hennepin and Carver Counties, MN; (2) change its one-way authorities to radial authorities between Minneapolis, MN, Hennepin and Chaska Counties, MN and named counties in SD, and, points in portions of IA and SD (with exceptions); and (3) remove the restriction limiting service to the transportation of the specified commodities moving from, to, or between warehouses, stores, or other facilities of retail grocery and retail food business houses.

MC 124128 (Sub-4)X, filed March 9, 1981. Applicant: NORTH CENTRAL TRUCK LINES, INC., Hotel Bothwell, 4th and Ohio, Sedalia, MO 65301. Representative: Arthur J. Cerra, 2100 Charter Bank Center, P.O. Box 19251, Kansas City, MO 64141. Applicant seeks to remove restrictions in its lead certificate to broaden the commodity description from stock in trade of drug stores to "such commodities as are dealt in, sold, or used by drug stores".

MC 124170 (Sub-161)X, filed March 5, 1981. Applicant: FROSTWAYS, INC., 3000 Chrysler Service Drive, Detroit, MI 48207. Representative: William J. Boyd, Suite 205, 2021 Midwest Road, Oak Brook, IL 60521. Applicant seeks to remove restrictions in its Sub-No. 151F certificate to (1) broaden the commodity description by removing all restrictions in tis general commodities authority "except classes A and B explosives," and (2) broaden the territorial description by removing the restriction limiting service to traffic originating at or destined tot he facilities of a named shipper at or near Chicago, IL, and removing the exception to service being performed in AK and HI, to authorize service between points in the United States.

MC 127303 (Sub-85)X, filed March 4, 1981. Applicant: ZELLMER TRUCK LINES, INC., P.O. Box 343, Granville, IL 61326. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh St., N.W., Washington, DC 20001. Applicant seeks to remove restrictions in its Sub-No. 76F certificate to (1) broaden the commodity description by removing the restriction against transportation of commodities in bulk, and (2) broaden the territorial description by removing the names of three facilities located in eight named NJ counties, and remove the exception to service being performed in AK and HI, to authorize radial service between point in Cumberland, Ocean, Atlantic, Gloucester, Mercer, Salem, Camden, and Cape May Counties, NJ, and points in the United States.

MC 127303 (Sub-86)X, filed March 4, 1981. Applicant: ZELLMER TRUCK LINES, INC., P.O. Box 343, Granville, IL 63126. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street, Washington, DC 20001. Applicant seeks to remove restrictions in its Sub-No. 75F certificate to (1) remove the restriction against the transportation of "commodities in bulk, in tank vehicles," and (2) broaden the territorial description: (a) eliminate the "except AK and HI" restriction, and (b) replace the plantsite limitation at Des Plaines, IL, with Cook County, IL.

MC 127840 (Sub-172)X, filed March 2, 1981. Applicant: MONTGOMERY TANK LINES, INC., 7745 West 59th Street, Summit, IL 60501. Representative: William H. Towle, 180 North LaSalle Street, Chicago, IL 60601. Applicant seeks to remove resrictions from its Sub-Nos. 39, 80, 84F, 90F, 96F, 99F, 108F, 133F, 142F, 154F, and 158F certificates to (1) broaden the commodity description from (a) animal fats, animal oils, vegetable oils, blends and products of animal fats, animal oils, and vegetable oils, to "food and related products and chemicals and related products" in Sub-Nos. 39 and 90F; (b) cleaning compounds, liquid chemcials, and chemicals to "chemicals and related products" in Sub-Nos. 80, 84F, 99F, 133F, 142F and 158F; (c) petroleum, petroleum products, and chemicals to "petroleum, natural gas and their products and chemicals and related products" in Sub-No. 96F; and (d) petroleum and petroleum products to "petroleum, natural gas and their products" in Sub-Nos. 108F and 154F; (2) remove the restriction "in bulk, in tank vehicles" from the commodity description in Sub-Nos. 39, 80, 84F, 90F, 99F, 108F, 133F, 142F, 154F, and 158F; (3) eliminate the facilities limitations in Sub-Nos. 39, 96F, 99F, 108F, 142F, 154F, and 154F; (4) change city-wide to county-wide authority from: Denison to Grayson County, TX in Sub-No. 39; Pasadena to Harris County, TX in Sub-No. 96F; Austin to Travis County, TX, Youens to Montgomery County, TX, and Port Neches to Jefferson County, TX in Sub-No. 99F; Port Arthur to Jefferson County, TX in Sub-No. 108F; garyville to St. John the Baptist Parish, LA in Sub-No. 133F; Chocolate Bayou to Brazoria County, TX and Texas City to Galveston County, TX in Sub-No. 142F; and Orange to Orange County, TX, Dowling to Jefferson County, TX, and Victoria to Victoria County, TX in Sub-No. 158F; (5) expand one-way authority to radial auhtority between Fort Worth, TX and points in AR, CO, IL, KS, LA, MO, OK, IA, and NE in Sub-No. 39; Jersey City and Hoboken, NJ and points in CA, IA, IN, IA, KY, MI, and OH in Sub-No. 80; Travis, Montgomery and Jefferson Counties, TX and points in IL, KY, MO, OH, IN, IA, NE, ND, SD, WI, MN, OK, KS, and CO in Sub-No. 99F; Jefferson County, TX and points in AZ, AR, CA, CO, FL, GA, IL, IN, IA, KS, KY, LA, MI, MN, MS, MO, NE, NV, NM, NC, ND, OH, OK, SC, SD, TN, UT, and WI in Sub-No. 108 F; St. John the Baptist Parish, LA and points in the US in Sub-No. 133F; Brazoria and Galveston Counties, TX and points in the US in and east of LA, AR, MO, IA, and MN in Sub-No. 142F; Texas City, TX and points in IA, IL, IN, MN, OH, PA, and WI in Sub-No. 154F; and Orange, Jefferson and Victoria Counties, TX and points in the US in Sub-No. 158F; and (6) remove the restrictions (a) originating at or destined to a named facility in Sub-Nos. 39, 90F, 99F, 108F, 142F, 154F, and 154F; (b) against service to AK and HI in Sub-Nos. 84F, 90F, 133F, and 158F; (c) against service to AK, HI and TX in Sub-No. 96F; (d) "originating at or destined to" in Sub-No. 90F; and (e) "except points in their respective commercial zones" in Sub-No. 80.

MC 129387 (Sub-120)X, filed March 10, 1981. Applicant: PAYNE TRANSPORTATION, INC., P.O. Box 1271, Huron, SD 57350. Representative: Charles E. Dye, P.O. Box 971, West Bend, WI 53095. Applicant seeks to

remove the restriction in its Sub-No. 116F certificate to (a) broaden the commodity description from frozen food to *"food and related products"* and (b) broaden the territorial authority from one way authority to radial authority between points in WA, OR, ID, UT, and points in IA, IL, NE.

MC 135231 (Sub-55)X, filed March 9, 1981. Applicant: NORTH STAR TRANSPORT, INC., Rt. 1, Hwy 1 & 59 West, Thief River Falls, MN 56701. Representative: Robert P. Sack, P.O. Box 6010, West St. Paul, MN 55118. Applicant seeks to remove restrictions from its Sub-No. 46F certificate to (1) broaden the commodity description from paper forms to "pulp, paper and related products"; (2) remove the "except commodities in bulk" restriction; (3) change city-wide to county-wide authority from Arlington to Tarrant County, TX; Merced to Merced County, CA; and Manchester to Hartford County, CT to authorize radial authority between those Counties and points in the U.S.; and (4) eliminate the "except AK and HI" restriction.

MC 135592 (Sub-7)X, filed March 2, 1981. Applicant: U & R EXPRESS, INC., P.O. Box 2369, White City, OR 97501. Representative: Lawrence V. Smart, Jr., 419 N.W. 23rd Avenue, Portland, OR 97210. Applicant seeks to remove restrictions in its Sub-Nos. 5 and 6 certificates, and in MC-138789 and Sub-Nos. 4, 5, and 7 permits to (1) broaden the commodity description in each to "lumber and wood products" from wood residuals, and (2) broaden the territorial description in all four permits to between points in the U.S., under continuing contract(s) with named shippers.

MC 136663 (Sub-3)X, filed March 2, 1981. Applicant: DEALERS AUTO TRANSPORT, INC., 1902 West North Grand Ave., Porterville, CA 93257. Representative: Miles L. Kavaller, Suite 315, 315 South Beverly Drive, Beverly Hills, CA 90212. Applicant seeks to remove restrictions in its lead certificate to (1) change the commodity descriptions to "transportation equipment" from used motor vehicles which have been repossessed, embezzled, stolen or damaged, in secondary movements, in truckaway service, and to "transportation equipment, by tow-away or drive-away under the vehicles' own power" from wrecked, embezzled or stolen automobiles by tow-away or drive-away under the vehicles' own power, (2) change the territorial descriptions from one-way service to radial service: between points in 22 States, and points in CA; between points in TX, and points in AZ and MO; between points in AZ and WA, and points in NV; between points in UT, and points in AZ; and between points in the United States, and points in Los Angeles, CA, and (3) remove the exception to service being performed in AK and HI in its nationwide authority.

MC 139016(Sub-10)X, filed March 9, 1981. Applicant: THE UNIVERSE COMPANY, INC., 3523 "L" Street, Omaha, NE 68107. Representative: Arlyn L. Westergren, Suite 201, 9202 West Dodge Road, Omaha, NE 68114. Applicant seeks to remove restrictions in its lead and Sub-Nos. 1, 3, 6, 7F, 8F, and 9F certificates, to (1) broaden the commodity descriptions from packinghouse products, packinghouse supplies, dressed poultry, and dairy products, meats, meat products, meat by-products and articles distributed by meat packinghouses, to "food and related products" in each certificate; (2) remove the restrictions "except commodities in bulk and hides" in Sub-Nos. 1, 3, 6, 8F and 9F; and "except hides and skins and commodities in bulk" in Sub-No. 7F; (3) replace city-wide with county-wide authority from Crete to Saline County, NE in Sub-No. 3; Oakland to Pottawattamie County, IA in Sub-No. 7F; and Pontiac to Oakland Conty, MI in Sub-No. 9F; (4) expand one-way authority to radial authority between (a) Omaha, NE and points in IN, OH and that part of Pennsylvania on and west of U.S. Hwy 219 in Sub-No. 1; (b) Saline County, NE and points in IL, IN, LA, KY, MI, MO, and OH in Sub-No. 3; Omaha, NE and Detroit, MI and points in IN, NJ, NY, OH, and PA in Sub-No. 6; Pottawattamie County, IA and points in IN, MI, OH, NJ, NY, and PA in Sub-No. 7F; and Omaha, NE and Detroit, MI and points in NJ, NY, and PA in Sub-No. 8F; and (5) remove the facilities limitations in Sub-Nos. 1, 3, 6, and 7F; and the "originating at and destined to" restrictions in Sub-Nos. 1, 3, 6, 7F and 8F.

MC 138741 (Sub-125)X, filed March 6, 1981.Applicant: AMERICAN CENTRAL TRANSPORT, INC., 2005 North Broadway, Joliet, IL 60435. Representative: Tom B. Kretsinger, P.O. Box 258, Liberty, MO 64068. Applicant seeks to remove restrictions in its Sub-No. 42 certificate to (1) change the commodity description to "metal products and construction materials" from iron, steel, zinc, lead, and articles or products thereof (except in bulk), springs, and construction materials, supplies and equipment (except in bulk), (2) broaden the territorial description by removing the restriction limiting service to transportation of traffic originating at and destined to the named origins and named destinations, except traffic moving in foreign commerce, and (3) substitute county-wide authority for the specified plantsites and cities, and change from one-way service to radial service between points in Cook and Will Counties, IL (plantsites at or near Blue Island and Joliet, IL), Kent and Ingham Counties, MI (Grand Rapids and Lansing, MI), Toledo and Columbus, OH, Appanoose County, IA (Centerville, IA), Allen, Howard, Elkhart, and Hamilton Counties, IN (Fort Wayne, Kokomo, Elkhart and Cicero, IN), and Hinds County, MA (Jackson, MS) and points in 23 States.

MC 140033 (Sub-66)X, filed March 9, 1981. Applicant: COX REFRIGERATED EXPRESS, INC., 10606 Goodnight Lane, Dallas, TX 75220. Representative: Edwin M. Snyder, P.O. Box 45538, Dallas, TX 75235. Applicant seeks to remove restrictions in its Sub-Nos. 6, 43F, 70F, 89F, and 90F certificates to (1) broaden its commodity descriptions (a) in Sub-Nos. 6 and 90F, from empty cans, and iron and steel pipe fittings, to "metal products", (b) in Sub-No. 70F, from artificial kidneys, dialysate solution, dialysis treatment machines, and equipment, materials, supplies used or useful in the performance thereof, to "instruments and photographic goods, and chemicals and related products", and (c) in Sub-No. 89F, from chemicals and plastic pellets, in containers, to "chemicals and related products"; (2) replace its cities with county-wide authority (a) in Sub-No. 43F, Trenton and Salem, NJ, with Mercer and Salem Counties, NJ, Norwood, MA, with Norfolk County, MA, Whitehall, and Lancaster, PA, with Allegheny and Lancaster Counties, PA, (b) in Sub-No. 70F, McAllen, TX, with Hidalgo County, TX, and Cinnaminson, NJ, with Burlington County, NJ, and (c) in Sub-No. 89F, Clinton, IA, with Clinton County, IA; (3) change its one-way authority to radial authority (a) in Sub-No. 6, between Philadelphia, PA, and Dallas, TX, (b) in Sub-No. 43F, between Mercer and Salem Counties, NJ, Norfolk County, MA, Vailsgate, NY, Allegheny and Lancaster Counties, PA, and Lehigh, Marietta and Marcus Hook, PA, and points in TX, Denver, CO, Kansas City, KS, and Kansas City, MO, and (c) in Sub-No. 70F, part (1) between Hildalgo County, TX, and Toledo, OH, and Burlington County, NJ, and in part (2), between Burlington County, NJ, and Toledo, OH, Atlanta, GA, Miami and Tampa, FL, New Orleans, Houston and Dallas, TX, and Costa Mesa, CA; and (4) in Sub-No. 6, remove the restriction prohibiting transportation of traffic from

those points in the Philadelphia, PA, commercial zone located in New Jersey to Dallas, TX.

MC 140033 (Sub-99)X, filed March 2, 1981. Applicant: COX REFRIGERATED EXPRESS, INC., 10000 Goodnight Lane, Dallas, TX 75220. Representative: Edwin M. Snyder, P.O. Box 45538, Dallas, TX 75235. Applicant seeks to remove restrictions in its Sub-Nos. 3, 13, 30, 63F, 78F, 79F, 80F and 84F certificates to (1) broaden the commodity descriptions to "food and related products" from meats, meat products, meat by-products, and articles distributed by meat packing houses (except hides and commodities in bulk, in tank vehicles) in Sub-Nos. 3 and 30; from ice cream, in Sub-No. 13; from confectionery products, in Sub-No. 63F; from canned goods, in Sub-No. 78F; from foodstuffs (in vehicles equipped with mechanical refrigeration, except in bulk), in part 1 of Sub-No. 79F; from confectionery, in Sub-No. 80F; and from sugar (in bags), in Sub-No. 84F, (2) in all Subs expand its one-way authority to radial authority, between the points specified below and various combinations of states; (3) replace authority to serve specified facilities at named points and authority to serve specified points with county-wide authority; in Sub-No. 3, Cactus, TX with Moore County, TX; in Sub-No. 13, McKinney, TX with Collin County, TX; in Sub-No. 30, Brownwood, TX to Brown County, TX; in Sub-No. 63F, Covington, TN to Tipton County, TN; in Sub-No. 78F, City of Industry, CA to Los Angeles County, CA; in Sub-No. 80F, Chicago, IL and in Sub-No. 84F Marietta, OK to Love County, OK and (4) remove restriction "to transportation of shipments originating at or destined to named origins and destinations", in Sub-Nos. 3 and 63F.

MC 140125 (Sub-2)X, filed March 2, 1981. Applicant: SCHUSTER GRAIN COMPANY, INC., P.O. Box 616, LeMars, IA 51031. Representative: Bradford E. Kistler, P.O. Box 82028, Lincoln, NE 68501. Applicant seeks to remove restrictions in its lead and Sub-No. 2 certificates to (1) broaden the commodity descriptions: (a) from soybean meal, soybean meal run, soybean hulls, animal and poultry feeds and ingredients, animals health products and alfalfa products to "food and related products" in the lead and Sub-No. 2; (b) from insecticides, mineral block, rodent exterminators and pesticides to "chemicals and related products" in the lead and (c) from minerals to "ores and minerals" in the lead; (2) remove the "dry, in bags and in bulk", "liquids in bulk" and "commodities in bulk" restrictions in the lead and Sub-No. 2; (3) broaden the territorial scope by: replacing named facility limitations with city-wide or county-wide authority and replacing one-way with radial to serve as follows: in the lead, between Woodbury County (Sergeant Bluff), IA and points in IL, KS, MN, MO, NE, ND, SD, WI and WY; between Plymouth County (LeMars), IA and points in MN, SD and NE; between Sioux City, IA and points in MN, NE and SD; between Des Moines, IA and points in NE, SD and MN; between Clay County (Vermillion and Meckling), SD and points in NE, IA, MN, WI and IL; between Plymouth County (LeMars), IA and points in AR, IL, IN, KS, KY, MN, MO, NE, SD, WI and WY; and in Sub-No. 2, between Woodbury County (Sergeant Bluff), IA and points in CO.

MC 140389 (Sub-96)X; filed March 5, 1981. Applicant: OSBORN TRANSPORTATION, INC., P.O. Box 1830, Gadsden, AL 35902. Representative: Clayton R. Byrd, P.O. Box 304, Conley, GA 30027. Applicant seeks to remove restrictions in MC-140389 and Sub-Nos. 10, 14, 16, 17, 29, 35, 36, 39, 41, 43, 44, 47, 52, 56, 58, 61, 62, 64, 70, 79, 80, 82, 83, 84, 87, 89, 91 and MC-20783 Sub-No. 98 certificates to (1) broaden the commodity description from canned goods, meats, frozen foods & various other items to (a) "food and related products" in MC-140389 and Sub-Nos. 10, 14, 16, 47, 58, 61, 62, 70, 79, 80, 87, and MC-20783 Sub-No. 98, (b) carpeting, rugs, & carpet padding to "textile mill products" in MC-140389 and Sub-Nos. 17, 39, 82, 89, (c) household appliances & hot water heaters to "machinery" in MC-140389 and Sub-No. 84; (d) liquid cleaning compounds to "chemicals" in MC-140389 Sub-No. 43; (e) glass beads, spheres to "clay, concrete, glass, or stone products" in MC-140389 Sub-No. 44; (f) petroleum, vehicle body sealer to "petroleum, natural gas, and their products" in MC-140389 Sub-No. 52; (g) "general commodities (except Classes A&B explosives) in MC-140389 Sub-Nos. 35 and 36, (h) scrap paper to "pulp, paper, and related products" in Sub-No. 83, (i) thermoplastic marking materials "rubber and plastic products" in Sub-No. 44; (2) eliminate originating at and/or destined to plantsite facilities of named shippers in MC-140389 and Sub-Nos. 10, 14, 16, 29, 39, 41, 43, 51, 52, 56, 58, 61, 64, 70, 79, 80, 83, 84, 87, 91 and MC-20783 Sub-No. 98; (3) broaden the territorial description by substituting county-wide for city-wide authority: Dalton, Archer, Calhoun, Rossville, La Grange, Summerville, Athens, Ringgold, Columbus, Cartersville, La Fayette, and Chamblee, GA, with Whitfield, Washington, Calhoun, Walker, Troup, Floyd, Chattanooga, Oconee, Catoosa, Chattahoochee, Bartow, and DeKalb Counties, GA, and Memphis, Chattanooga, Knoxville, Sweetwater, Rockwood, with Shelby, Hamilton, Davidson, Knox, Monroe & Roane Counties, TN, for named cities within in MC-140389; Storey County for Sparks, NV, in Sub-No. 35; Pierce County for Tacoma, WA, in Sub-No. 36; Lee and Lowndes Counties for Tupelo and Columbia, MS, in Sub-No. 39; Hillsborough County for Lakeland, FL, in Sub-No. 41; Rankin County for Jackson, MS, in Sub-No. 44; Scott County for Forest, MS, in Sub-No. 58; Shelby County for Arlington, TN, in Sub-No. 79; Jefferson County for Louisville, KY, in Sub-No. 80; Shelby County for Arlington, TN, in Sub-No. 87; Jefferson County for Birmingham, AL, in Sub-No. 89; (4) authorize radial in lieu of existing one-way authority between the above counties and named points throughout the U.S. in MC-140389 and Sub-Nos. 10, 14, 16, 29, 35, 39, 41, 43, 44, 47, 51, 52, 56, 61, 62, 70, 79, 80, 82, 87, 89 and MC-20783 Sub-No. 98; (5) remove equipment restrictions in MC-140389 and Sub-Nos. 29, 41, 64, and MC-20783 Sub-No. 98; (6) eliminate the restriction limiting service to the transportation of shipments having a prior or subsequent movement by water in MC-140389 Sub-Nos. 35, and 36; (7) remove the exceptions of AK and HI in MC-140389 Sub-Nos. 70, 83, 87, and MC-20783 Sub-No. 98; and (8) remove the commodity restrictions in MC-140389 and Sub-Nos. 14, 16, 29, 41, 43, 47, 52, 61, 62, 64, 80, and MC-20783 Sub-No. 98.

MC 141064 (Sub-22)X; filed March 2, 1981. Applicant: NATIONAL FREIGHT LINES, INC., P.O. Box 1031, San Fernando, CA 91341. Representative: Bill D. Gardner (same as above). Applicant seeks to remove restrictions in its Sub-No. 5, 10F, 14F and 15F permits to (1) broaden the territorial description in all subs to between points in the U.S. under continuing contract(s) with named shippers, (2) eliminate the "in bulk" restriction from Sub-Nos. 5, 10F, and 14F, (3) broaden the commodity descriptions from canned goods, pet foods, and sugar, in Sub-No. 5 and from sugar in Sub-No. 10F to "such commodities as are dealt in by retail grocery stores."

BILLING CODE 7035-01-M

Motor Carrier Temporary Authority Application

The following are notices of filing of applications for temporary authority under Section 10928 of the Interstate Commerce Act and in accordance with the provisions of 49 CFR 1131.3. These rules provide that an original and two (2) copies of protests to an application may be filed with the Regional Office named in the **Federal Register** publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the **Federal Register**. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the ICC Regional Office to which protests are to be transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

Motor Carriers of Property

Notice No. F-104

The following applications were filed in Region I. Send protests to: Interstate Commerce Commission, Regional Authority Center, 150 Causeway Street, Room 501, Boston, MA 02114.

MC 45721 (Sub-1-1TA), filed March 6, 1981. Applicant: WHITE BUS COMPANY, INC., 807 South Orange Avenue, East Orange, NJ 07018. Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-8771 Filed 3-20-81; 8:45 am]

BILLING CODE 7035-01-M

[Finance Docket No. 29596]

Oregon Trunk Railway—Merge—Oregon Electric Railway Co.; Exemption

Pursuant to 49 CFR 1111.4(g) and 1111.5(c)(3) as amended by *Railroad Consolidation Procedures,* 363 I.C.C. 200, 224 and 226 (1980), Oregon Trunk Railway (OT) and Oregon Electric Railway Company (OE), both wholly owned subsidiary companies of Burlington Northern Inc. (BN) notify the Commission of their intention to participate in transactions considered exempt under 49 U.S.C. 10505.

The transaction is a statutory merger where OT shall merge into OE. OE, the surviving corporation, will continue to be a wholly owned subsidiary of BN, and OT will cease to exist as a separate corporation. Because OT and OE are operated by BN employees as an integral part of BN, the merger of OT into OE will involve no changes in operations and will have no impact on employees, shippers, or rail service. Likewise, because BN is responsible for maintenance, capital expenditures and all expenses and obligations relative to both OT and OE business and property, no increased financial obligations will accrue to BN. Benefits achieved by the OT into OE merger is limited to administrative and incidental savings resulting from corporate simplification, elimination of separate record keeping, intercompany billing and accounting, and administrative burden of maintaining separate corporate existence of OT.

The transaction is within a corporate family that will not result in adverse changes in service levels, significant operational changes, or a change in the competitive balances with carriers outside BN corporate family. For this reason, the transaction is eligible for exemption under 49 CFR 1111.5(c)(3). Consummation may occur upon publication of this notice.

In granting this exemption we may not relieve a carrier of its obligation to protect the interests of employees. See 49 U.S.C. 10505(g)(2) as amended by the Staggers Rail Act of 1980 (Pub. L. No. 96-448, October 14, 1980). Therefore, we will require, as a condition to use of this exemption, the same level of labor protection as is usually required in the type of transactions proposed here. We have determined that the employee protective provisions set forth in *New York Dock Ry.—Control—Brooklyn Eastern Dist.,* 360 I.C.C. 60 (1979), satisfy the statutory requirements of 49 U.S.C. 11347 for protection of employees involved in these transactions, which normally would require approval under 49 U.S.C. 11343. The exemption, therefore, will be subject to those protective provisions.

OT and OE's failure to comply with these requirements may be grounds to revoke the exemption.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Decision Volume No. 418]

Republications of Grants of Operating Rights; Authority Prior to Certification

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the **Federal Register.**

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission within 30 days after the date of this **Federal Register** notice. Such pleading shall comply with Special Rule 247(c) of the Commission's *General Rules of Practice* (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

MC 150445 (republication), filed October 6, 1980, published in the **Federal Register** issue of October 23, 1980. Applicant: ALFONSO V. MANGIONE, 510 S. Main St., Pittson, PA 18640. Representative: Joseph A. Keating, Jr., 121 S. Main St., Taylor, PA 18517. A Decision of the Commission, Review Board Number 1, decided January 28, 1981, and served February 18, 1981, finds that the performance by applicant of the service will serve a useful purpose, responsive to a public demand to operate as a *common carrier* by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting *coal,* from points in Luzerne and Schuylkill Counties, PA, to points in NH, VT, NY, DE, and OH; that applicant is fit, willing and able properly to perform the granted service and to conform to the requirements of Title 49, Subtitle IV, U.S. Code, and the Commission's regulations. Note: The purpose of this republication is to reflect service to points in New York in lieu of Nebraska as previously published.

By the Commission.

Agath L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Docket No. AB-3 (Sub-24)F]

Missouri Pacific Railroad Co.; Abandonment Between Montrose and Crossett, AR; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that by a certificate and decision decided March 13, 1981, a finding was made by the Commission Review Board Number 3, stating that the present and future public convenience and necessity permit the abandonment by Missouri Pacific Railroad Company of a portion of its line of railroad known as Hamburg Subdivision from milepost 443.4 at Montrose, to milepost 475.2 at Crossett, all in Ashley County, AR, a total distance of 31.8 miles, subject to the conditions for the protection of employees discussed in *Oregon Short Line R. Co.—Abandonment—Goshen,* 360 I.C.C. 91 (1979).

A certificate of public convenience and necessity will be issued to Missouri Pacific Railroad Company based on the above-described finding of abandonment within 15 days after the decision became final, unless postponed by the Commission. However, issuance will be delayed if: (1) an appeal is filed and considered; and (2) within 15 days from the date of publication the Commission further finds that:

(a) A financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued. The offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice; and

(b) it is likely that such proffered assistance would:

(i) cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(ii) cover the acquisition cost of all or any portion of such line of railroad.

An offer may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made on the Commission to set conditions or amount of compensation, a certificate of abandonment will be issued no later than 50 days after notice is published. Upon notification to the Commission of the execution of an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. L. 96-448, effective October 1, 1980). All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced decision.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-8770 Filed 3-20-81; 8:45 am]

BILLING CODE 7035-01-M

[Docket No. 37822]

Petition for Declaratory Order—Existing Railroad Rates

AGENCY: Interstate Commerce Commission.

ACTION: Notice of decision interpreting statutory provisions.

SUMMARY: The Staggers Rail Act of 1980 provides that existing railroad rates are base rates and may be challenged as unreasonably high only within 180 days from the effective date of the Act (October 1, 1980). In response to a petition, the Commission has issued a decision answering certain interpretive questions concerning the statutory provisions.

DATES: The interpretive decision was effective on its date of service.

ADDRESS: Copies of the decision are available from: Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT: Richard Felder or Jane Mackall (202) 275-7693.

SUPPLEMENTARY INFORMATION: A railroad rate in effect on October 1, 1980 is a base rate under the rate freedom provisions of section 203 of the Staggers Rail Act of 1980, Pub. L. 96-448. Unless such a rate is challenged during a 180 day period from October 1, 1980, it is deemed reasonable under section 229 of the Staggers Act. In response to a petition and certain supporting comments, the Commission has issued a decision interpreting the "existing rate" provisions of these sections.

The primary conclusions of the decision are as follows:

1. The 180-day period ends on March 30, 1981.

2. In complaints filed within the 180-day period, the burden of proof is on the complainant.

3. A particular type of rate, such as a class rate, single-car rate or unit-train rate is an existing rate only with respect to new rates of the same type.

4. An existing rate may be challenged after the expiration of the 180-day period if it meets the following conditions: (a) the volume of traffic moved during the 12-month period preceding the effective date of the Act did not exceed 500 tons, and (b) the volume increased tenfold during the 3-year period before the rate was challenged. The 500 ton/tenfold conditions refer to the aggregate of the traffic of all shippers under the rate.

5. To qualify as an existing rate, a rate must apply between the points at issue in the later rate challenge.

6. For any rate that was the subject of a Commission proceeding or on judicial appeal on October 1, 1980, a shipper need not file an additional complaint during the 180-day period if the issue in the proceeding was one of unreasonableness.

(Pub. L. 96-448, sections 203 and 229)

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam.

Decided: March 18, 1981.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. 80-30]

Alan D. Fields, D.O.; Detroit, Mich.; Hearing

Notice is hereby given that on September 15, 1980, the Drug Enforcement Administration, Department of Justice, issued to Alan D. Fields, D.O., Detroit, Michigan, an Order To Show Cause and Immediate Suspension Of Registration. Respondent was afforded an opportunity to show cause as to why his DEA Certificate of Registration, AD6338215, should not be revoked.

Thirty days having elapsed since the said Order To Show Cause was received by Respondent, and written request for a hearing having been filed with the Drug Enforcement Administration, notice is hereby given that a hearing in this matter will be held commencing at 10:00 a.m. on Tuesday, April 14, 1981, in Courtroom No. 2, Room 306, U.S. Court of Claims, 717 Madison Place, N.W., Washington, D.C.

Dated: March 17, 1981.

Frederick A. Rody, Jr.,

Acting Administrator, Drug Enforcement Administration.

BILLING CODE 4410-09-M

Manufacturer of Controlled Substances; Application

Pursuant to Section 1301.43(a) of Title 21 of the Code of Federal Regulations (CFR), this is notice that on January 9, 1981, Stepan Chemical Co. Natural Prod., 100 W. Hunter Avenue, Maywood, N.J. 07607 made application to the Drug Enforcement Administration (DEA) for registration as a bulk manufacturer of

the basic class of controlled substances listed below:

Drug	Schedule
Cocaine (9041)	II.
Ecgonine (9180)	II.

Any other such applicant, and any person who is presently registered with DEA to manufacture such substances, may file comments or objections to the issuance of the above application and may also file a written request for hearing thereon in accordance with 21 CFR 1301.54 and in the form prescribed by 21 CFR 1316.47.

Any such comments, objections or requests for a hearing may be addressed to the Administrator, Drug Enforcement Administration, United States Department of Justice, 1405 I Street, N.W., Washington, D.C. 20537, Attention: DEA Federal Register Representative (Room 1203), and must be filed no later than April 23, 1981.

Dated: March 17, 1981.

Frederick A. Rody, Jr.,

Acting Administrator, Drug Enforcement Administration.

BILLING CODE 4410-09-M

NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

Meeting; Amended Agenda

March 17, 1981.

The agenda for the meeting of the National Advisory Committee on Oceans and Atmosphere (NACOA) scheduled for March 26–27, 1981, published in the Federal Register of March 13, 1981 (Page 16701), has been changed. The amended agenda is as follows for March 26–27, 1981.

Thursday, March 26, 1981

9 a.m.–9:30 a.m.—Plenary
- Announcements
- Introduction and Swear in of New NACOA Member

9:30 a.m.–12 noon—U.S. Coast Guard
- VADM Robert Scarborough, Vice Commandant
- An Overview of U.S. Coast Guard Needs

12 noon–1 p.m.—Lunch

1 p.m.–4 p.m.—Plenary
- Review of National Oceanic and Atmospheric Programs (Continued)

1 p.m.–3 p.m.—U.S. Navy Ocean Programs
- Capt. Ron Hughes, Office of the Chief of Naval Operations

3 p.m.–4 p.m.—National Science Foundation
- Dr. Eugene W. Bierly, Director, Division of Atmospheric Sciences
- Dr. M. Grant Gross, Director, Division of Ocean Sciences
- Dr. Peter E. Wilkniss, Director, Division of Ocean Drilling Programs

4 p.m.–5 p.m. Steering Committee Meeting

5 p.m.—Adjourn

March 27, 1981

8:30 a.m.–10 a.m.—Panel Meeting
- Atmospheric Science Research, Facilities Panel—Louis Battan
- Discussion of Draft Report

10 a.m.–12 noon—Plenary
- Review of National Oceanic and Atmospheric Programs (Continued)
- National Oceanic and Atmospheric Administration
- Martin Belsky, Assistant Administrator for Policy Planning

12 noon–1 p.m.—Lunch

1 p.m.–2 p.m.—Plenary
- Review of National Oceanic Programs
- Maritime Administration (Speaker to be Announced)

2 p.m.–3:30 p.m.—Panel Reports

3:30 p.m.—Adjourn

Persons desiring to attend will be admitted to the extent seating is available. Persons wishing to make formal statements should notify the Chairman in advance of the meeting. The Chairman retains the prerogative to impose limits on the duration of oral statements and discussions. Written statements may be submitted before or after each session.

Additional information concerning this meeting may be obtained through the Committee's Executive Director, Steven N. Anastasion, whose mailing address is: National Advisory Committee on Oceans and Atmosphere, 3300 Whitehaven Street, NW., (Room 438, Page Building #1), Washington, DC 20235. The telephone number is (202) 653–7818.

Steven N. Anastasion,

Executive Director.

BILLING CODE 3510-12-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (81-26)]

NASA Advisory Council; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council.

DATE AND TIME: April 7, 1981, 1 p.m. to 5 p.m.; April 8, 1981, 9 a.m. to 4 p.m.

ADDRESS: NASA Kennedy Space Center, Room 3201, Headquarters Building, Kennedy Space Center, FL 32899.

FOR FURTHER INFORMATION CONTACT: Mr. Nathaniel B. Cohen, Code LB–4, National Aeronautics and Space Administration, Washington, D.C. 20546 (202/755–8383).

SUPPLEMENTARY INFORMATION: The NASA Advisory Council was established as an interdisciplinary group to advise senior management on the full range of NASA's programs, policies, and plans. The Council is chaired by Dr. William A. Nierenberg and is composed of twenty-five members. Standing committees containing additional members report to the Council and provide advice in the substantive areas of aeronautics, life sciences, space and terrestrial applications, space science, space systems and technology, and history, as they relate to NASA's activities.

Type of Meeting: Open. Visitors will be admitted to the meeting room up to its seating capacity, which is about 50 persons including Council members and other participants. However, potential visitors should note that, because of the character of operations at the Kennedy Space Center, access to the installation is strictly controlled. Visitors will be granted access only in accordance with normal installation policy.

Agenda

April 7, 1981

1 p.m.—Introduction.
1:15 p.m.—Fiscal year 1982 Amended Budget.
2:30 p.m.—Aeronautics.
4:00 p.m.—Space and Life Science.
5:30—Adjourn.

April 8, 1981

9 a.m.—Space and Terrestrial Applications.
10 a.m.—Space Transportation System.
1 p.m.—Computer Technology and Automation.
2 p.m.—NASA: History and Social Science.
3 p.m.—New Business and General Discussion.
4 p.m.—Adjourn.

Gerald D. Griffin,

Acting Associate Administrator for External Relations.

March 18, 1981.

BILLING CODE 7510-01-M

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards; Subcommittee on Procedures and Administration; Meeting

The ACRS Subcommittee on Procedures and Administration will hold a meeting on April 7, 1981 in Room 1010, 1717 H St., NW, Washington, DC.

In accordance with the procedures outlined in the **Federal Register** on October 7, 1980 (45 FR 66535), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The entire meeting will be open to public attendance except for those sessions during which the Subcommittee finds it necessary to discuss information of a personal nature. One or more closed sessions may be necessary to discuss such information. (SUNSHINE ACT EXEMPTION 6). To the extent practicable, these closed sessions will be held so as to minimize inconvenience to members of the public in attendance.

The agenda for subject meeting shall be as follows: *Tuesday, April 7, 1981: 8:30 a.m. until the conclusion of business.*

The Subcommittee will hold discussions regarding ACRS activities including the following topics:

(1) Discuss employment arrangements for ACRS members.

(2) Discuss the use of telecommunications equipment in support of ACRS activities.

(3) Discuss the format and content of Committee Reports.

I have determined, in accordance with Subsection 10(d) Public Law 92–463 that it may be necessary to close some portions of this meeting to discuss information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. The authority for such closure is Exemption (6) to the Sunshine Act, 5 U.S.C. 552b(c)(6).

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Mr. Raymond F. Fraley (telephone 202/634–3265) between 8:15 a.m. and 5:00 p.m., est.

Dated: March 17, 1981.

John C. Hoyle,

Advisory Committee Management Officer.

[FR Doc. 81-8786 Filed 3-20-81; 8:45 am]

BILLING CODE 7590-01-M

Advisory Committee on Reactor Safeguards; Subcommittee on Regulatory Activities; Notice of Meeting

The ACRS Subcommittee on Regulatory Activities will hold a meeting on April 7, 1981 in Room 1046, 1717 H Street, N.W., Washington, DC.

In accordance with the procedures outlined in the **Federal Register** on October 7, 1980, (45 FR 66535), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arragements can be made to allow the necessary time during the meeting for such statements.

The entire meeting will be open to public attendance.

The agenda for subject meeting shall be as follows: *Tuesday, April 7, 1981; the meeting will commence at 1:00 p.m.*

The Subcommittee will hear presentations from the NRC Staff and will hold discussions with this group pertinent to the following:

(1) Regulatory Guide 1.142, Revision 1, "Safety-Related Concrete Structures For Nuclear Power Plants" (Post Comment).

(2) Regulatory Guide 1.68.3 (Formerly Regulatory Guide 1.80), "Preoperational Testing of Instrument and Control Air Systems" (Post Comment).

Other matters which may be of a predecisional nature relevant to reactor operation or licensing activities may be discussed following this session.

Persons wishing to submit written statements regarding Regulatory Guides 1.142, Revision 1 and 1.68.3, may do so by providing a readily reproducible copy to the Subcommittee at the beginning of the meeting. However, to insure that adequate time is available for full consideration of these comments at the meeting, it is desirable to send a readily reproducible copy of the comments as far in advance of the meeting as practicable to Mr. Sam Duraiswamy, the Designated Federal Employee for the meeting, in care of ACRS, Nuclear Regulatory Commission, Washington, DC 20555 or telecopy them to the Designated Federal Employee (202/634–3319) as far in advance of the meeting as practicable. Such comments shall be based upon documents on file and available for public inspection at the NRC Public Document Room, 1717 H St., N.W., Washington, DC 20555.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the Designated Federal Employee for this meeting, Mr. Sam Duraiswamy, (telephone 202/634–3267) between 8:15 a.m. and 5:00 p.m., Eastern time.

Dated: March 17, 1981.

John C. Hoyle,

Advisory Committee Management Officer.

BILLING CODE 7590-01-M

[Docket No. 50-245]

Connecticut Light & Power Co. et al.; Issuance of Amendment to Provisional Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 73 to Provisional Operating License No. DPR–21, issued to the Connecticut Light and Power Company, The Hartford Electric Company, Western Massachusetts Electric Company, and Northeast Nuclear Energy Company (the licensees), which revised the Technical Specifications for operation of the Millstone Nuclear Power Station, Unit No. 1, located in the Town of Waterford, Connecticut. This amendment is effective as of its date of issuance.

This amendment approves Appendix A Technical Specifications to allow return to full power operation following the seventh refueling outage.

The application for amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated September 9, 1980, as supplemented, September 10, 1980, September 30, 1980, November 6, 1980, and February 25, 1981, (2) Amendment No. 73 to License No. DPR–21, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room 1717 H Street, N.W., Washington, D.C.

20555, and at the Waterford Public Library, Roper Ferry Road, Route 156, Waterford, Connecticut. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this March 11, 1981.

For the Nuclear Regulatory Commission.

Dennis M. Crutchfield,

Chief, Operating Reactors Branch No. 5, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-409]

Dairyland Power Cooperative; Issuance of Amendment to Provisional Operating License

The Nuclear Regulatory Commission (the Commission) has issued Amendment No. 24 to Provisional Operating License No. DPR-45 issued to Dairyland Power Cooperative (the Licensee) which revised Technical Specifications for operation of the La Crosse Boiling Water Reactor (LACBWR), located in Vernon County, Wisconsin. The amendment is effective as of its date of issuance.

The amendment adds new requirements to the LACBWR Technical Specifications to specify limiting conditions for operation and surveillance requirements for the (1) Emergency Service Water Supply System and (2) Primary Coolant System Pressure Isolation Valves.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Prior public notice of this action was not required since it does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the Safety Evaluation by the Office of Nuclear Reactor Regulation Relating to Liquefaction Potential at the LaCrosse Site, dated August 29, 1980, (2) the application for amendment dated February 18, 1981, and letters dated October 14, 1980, November 26, 1980, and February 2, 1981, (3) Amendment No. 24 to License No. DPR-45 and (4) the Commission's related Safety Evaluation.

All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the LaCrosse Public Library, 800 Main Street, LaCrosse, Wisconsin. A copy of items (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 25th day of February 1981.

For the Nuclear Regulatory Commission.

BILLING CODE 7590-01-M

[Docket Nos. 50-259, 50-260, and 50-296]

Tennessee Valley Authority; Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 69 to Facility Operating License No. DPR-33, Amendment No. 65 to Facility Operating License No. DPR-52 and Amendment No. 41 to Facility Operating License No. DPR-68 issued to Tennessee Valley Authority (the licensee), which revised Technical Specifications for operation of

the Browns Ferry Nuclear Plant, Unit Nos. 1, 2 and 3, (the facility) located in Limestone County, Alabama. The amendments are effective as of the date of issuance.

These amendments revise the Environmental Technical Specifications to (1) delete water quality and aquatic monitoring and reporting requirements which duplicate those conditions regulated by the Browns Ferry Nuclear Plant's NPDES Permit No. AL0022060 issued to TVA on June 30, 1977 and (2) change the titles in Section 5.0 (Administrative Controls) for the offices within TVA responsible for environmental activities to reflect recent organizational changes.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of these amendments.

For further details with respect to this action, see (1) the application for amendments dated August 29, 1979, (2) Amendment No. 69 to License No. DPR-33, Amendment No. 65 to License No. DPR-52, and Amendment No. 41 to License No. DPR-68, and (3) the Commission's letter to the licensee dated March 6, 1981. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Athens Public Library, South and Forrest, Athens, Alabama 35611. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Md., this 6th day of March 1981.

For the Nuclear Regulatory Commission.
Thomas A. Ippolito,
Chief, Operating Reactors Branch No. 2, Division of Licensing

BILLING CODE 7590-01-M

[Docket No. 50-271]

Vermont Yankee Nuclear Power Corp.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 64 to Facility Operating License No. DPR-28 issued to Vermont Yankee Nuclear Power Corporation which revises the Technical Specifications for operation of the Vermont Yankee Nuclear Power Station located in Windham County, Vermont. The amendment is effective as of the date of its issuance.

This amendment changes the Technical Specifications to permit the performance of stability and recirculation pump trip tests.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated February 12, 1981, (2) Amendment No. 64 to License No. DPR-28, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Brooks Memorial Library, 224 Main Street, Brattleboro, Vermont 05301. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Md., this 11th day of March 1981.

For the Nuclear Regulatory Commission.
Thomas A. Ippolito,
Chief, Operating Reactors Branch No. 2, Division of Licensing.

[NUREG-0487 Supplement 2]

Mark II Containment Lead Plant Program Load Evaluation and Acceptance Criteria; Issuance and Availability

The Nuclear Regulatory Commission (NRC) staff has prepared a report entitled "Mark II Containment Lead Plant Program Load Evaluation and Acceptance Criteria" (NUREG-0487 Supplement 2), dated February 1981. This Report provides the staff's partial resolution of the NRC's Generic Technical Activity A-8, "Mark II Containment Pool Dynamic Loads". This is an "Unresolved Safety Issue" pursuant to section 210 of the Energy Reorganization Act of 1974.

The suppression tool hydrodynamic loads associated with a postulated loss-of-coolant accident (LOCA) were first identified during large scale testing of the Mark III containment system design in the period 1972 through 1974. These newly identified loads, that had not been explicitly considered in the original design of the Mark II containment, result from the dynamic effects of drywell air and steam being rapidly forced into the suppression pool, during a postulated LOCA.

As a result of these concerns, the Mark II owners formed a group to develop a program consisting of both analytical and experimental tasks to support their pool dynamic loads application methods. In May 1977, Mark II owners divided the overall program into two parts: a Lead Plant Program (LPP) and a Long Term Program (LTP). The LPP was developed to establish a conservative design basis appropriate for the anticipated 40 year life of each Mark II BWR facility.

The United States Nuclear Regulatory Commission reviewed the LPP and issued the Mark II Containment Lead Plant Program Load Evaluation and Acceptance Criteria Report (NUREG-0487) in October 1978. That report included an evaluation of the Mark II Owners' proposed methodology for establishing pool dynamic loads for the lead Mark II plants and a description of the bases for load methodologies that we find acceptable for use in the individual plant-unique assessments. Since that report was issued, the Mark II owners submitted additional reports in

which they proposed alternative load methodologies for use in the evaluation of Mark II plants. Supplement 1 to NUREG–0487 issued in September 1980 included an evaluation of these alternative load specifications. Supplement 2 addresses interim condensation oscillation and chugging loads proposed by the lead Mark II plants in consideration of observations in full scale Mark II tests conducted in 1979. This report concludes the staff's generic review of the lead Mark II pool dynamic LOCA loads. We plan to issue an additional report in June 1981 to include an evaluation of the Mark II Long Term Program.

In implementing the criteria described in NUREG–0487 and Supplements 1 and 2, all applicants are required to document conformance with the staff's criteria, deviations from the criteria and bases for the deviations in their Design Assessment Report during the FSAR review.

Copies of the NUREG–0487 Supplement 2 report will be available after February 1981. Copies will be sent directly to utilities, utility industry groups and associations and environmental public interest groups. Other copies will be available for review at the NRC Public Document Room, 1717 H Street, N.W., Washington, D.C.; and the Commission's local public document rooms located in the vicinity of existing nuclear power plants. Addresses of these local public document rooms can be obtained by contacting the Chief, Local Public Document Rooms Branch, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, telephone (301) 492–7536. A single copy of NUREG–0487, Supplement 2, will be provided free of charge, while the supply lasts, upon written request of a full participant in an ongoing NRC proceeding. This request must identify the requester as a participant and should be addressed to Director, Division of Technical Information and Document Control, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

Dated at Bethesda, Md., this 16th day of March 1981.

For the Nuclear Regulatory Commission.

Thomas E. Murley,

Director, Division of Safety Technology, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

[Docket Nos. 50-250-SP and 50-251-SP]

Florida Power & Light Co. (Turkey Point Nuclear Generating, Units 3 and 4); Proposed Amendments to Facility Operating License To Permit Steam Generator Repairs; Change of Location for Prehearing Conference

March 17, 1981.

The Notice of Prehearing Conferences issued by this Board on March 10, 1981, indicated that the Prehearing Conference scheduled for March 24–25, 1981, would be held at the Council Chambers in Homestead, Florida. Subsequent to that order, the Council Chambers became unavailable for that purpose. Consequently, the location of such prehearing conference has been changed to the following:

March 24–25, 1981—Commencing at 10:00 a.m., local time, in the Homestead Branch Court, 715 N.E. First Road, Homestead, Florida.

It is so ordered.

Dated at Bethesda, Md., this 17th day of March 1981.

For the Atomic Safety & Licensing Board.

Marshall E. Miller,

Administrative Judge.

OFFICE OF MANAGEMENT AND BUDGET

Agency Forms Under Review

March 18, 1981.

Background

When executive departments and agencies propose public use forms, reporting, or recordkeeping requirements, the Office of Management and Budget (OMB) reviews and acts on those requirements under the Federal Reports Act (44 USC, Chapter 35). Departments and agencies use a number of techniques including public hearings to consult with the public on significant reporting requirements before seeking OMB approval. OMB in carrying out its responsibility under the Act also considers comments on the forms and recordkeeping requirements that will affect the public.

List of Forms Under Review

Every Monday and Thursday OMB publishes a list of the agency forms received for review since the last list was published. The list has all the entries for one agency together and grouped into new forms, revisions, extensions (burden change), extensions (no change), or reinstatements. The agency clearance officer can tell you the nature of any particular revision you are interested in. Each entry contains the following information:

The name and telephone number of the agency clearance officer (from whom a copy of the form and supporting documents is available);

The office of the agency issuing this form;

The title of the form;

The agency form number, if applicable;

How often the form must be filled out;

Who will be required or asked to report;

The Standard Industrial Classification (SIC) codes, referring to specific respondent groups that are affected;

Whether small businesses or organizations are affected;

A description of the Federal budget functional category that covers the information collection;

An estimate of the number of responses;

An estimate of the total number of hours needed to fill out the form;

An estimate of the cost to the Federal Government;

The number of forms in the request for approval;

The name and telephone number of the person or office responsible for OMB review; and

An abstract describing the need for and uses of the information collection.

Reporting or recordkeeping requirements that appear to raise no significant issues are approved promptly. Our usual practice is not to take any action on proposed reporting requirements until at least ten working days after notice in the **Federal Register**, but occasionally the public interest requires more rapid action.

Comments and Questions

Copies of the proposed forms and supporting documents may be obtained from the agency clearance officer whose name and telephone number appear under the agency name. The agency clearance officer will send you a copy of the proposed form, the request for clearance (SF83), supporting statement, instructions, transmittal letters, and other documents that are submitted to OMB for review. If you experience difficulty in obtaining the information you need in reasonable time, please advise the OMB reviewer to whom the report is assigned. Comments and questions about the items on this list should be directed to the OMB reviewer or office listed at the end of each entry.

If you anticiate commenting on a form but find that time to prepare will prevent you from submitting comments

promptly, you should advise the reviewer of your intent as early as possible.

The timing and format of this notice have been changed to make the publication of the notice predictable and to give a clearer explanation of this process to the public. If you have comments and suggestions for further improvements to this notice, please send them to Jim J. Tozzi, Assistant Director for Regulatory and Information Policy, Office of Management and Budget, 726 Jackson Place, Northwest, Washington, D.C. 20503.

DEPARTMENT OF AGRICULTURE

Agency Clearance Officer—Richard J. Schrimper—202-447-6201.

New

• Forest Service
Supplemental Qualifications Statement—Forestry Aid/Technician Positions, GS-2/7
On occasion
Individuals or households
Applicants for employment
Conservation and Land Management, 9,000 responses, 9,000 hours; $72,000 Federal cost, 1 form
Charles A. Ellett, 202-395-7340

The form is a supplement to the basic application form for Federal employment (SF-171) and has been designed as a rating tool to be used in conjunction with the examining plan and rating schedule for determining applicants' qualifications for various grade levels.

• Agricultural Cooperatives Service
Farmer Perceptions of Cooperative Fertilzer Outlets in Iowa

PRESIDENT'S COMMISSION FOR THE STUDY OF ETHICAL PROBLEMS IN MEDICINE AND BIOMEDICAL AND BEHAVIORAL RESEARCH

Notice is hereby given, pursuant to Section 10(a)(2) of the Federal Advisory Committees Act, that the eighth meeting of the President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research will be held in Room 924, Federal Building, 51 S.W. First Avenue, Miami, Florida, from 9:00 a.m. to 5:30 p.m. on Thursday, April 9, 1981 and from 9:00 a.m. to 4:00 p.m. on Friday, April 10, 1981.

The meeting will be open to the public, subject to limitations of available space. The agenda of this Commission meeting will include, among other things, (a) testimony on ethical and legal implications of decisions to prolong life and terminate treatment, and (b) discussion of a draft report on the provision of compensation for research injuries.

During the afternoon of April 9, 1981, one-half hour will be devoted to comments from the floor on the subject of any of the agenda items, limited to three minutes per comment. Written suggestions and comments will be accepted for the record from those who are unable to speak because of the constraints of time or those unable to attend the meeting.

Records shall be kept of all Commission proceedings and will be available for public inspection at the Commission's office, located in Suite 555, 2000 K Street, N.W., Washington, D.C. 20006. For further information, contact Andrew Burness, Public Information Officer, at (202) 653-8051.

Alexander M. Capron,

Executive Director.

BILLING CODE 6820-AV-M

SMALL BUSINESS ADMINISTRATION

[License No. 02/02-0413]

Holding Capital Management Co.; Application for a License To Operate as a Small Business Investment Company

Notice is hereby given of the filing of an application with the Small Business Administration (SBA) pursuant to Section 107.102 of the Regulations governing small business investment companies (13 CFR 107.102 (1980)), by Holding Capital Management Company (Applicant), 711 Fifth Avenue, 12th Floor, New York, New York 10022, for a license to operate as a limited partnership small business investment company (SBIC) under the provisions of the Small Business Investment Act of 1958, as amended (the Act) (15 U.S.C. 661 *et seq.*), and the Rules and Regulations promulgated thereunder.

The formation and licensing of a limited partnership SBIC is subject to the provisions of Section 107.4 of the Regulations. The application provides for a corporate general partner which must be a corporation, organized under State law solely for the purpose of managing the functions and activities of the limited partnership SBIC. There will be five limited partners.

The initial investors and their percent of ownership of the Applicant are as follows:

Holding Development Corp., general partner, 11.28 pct [1]
*Bobemond Corp., limited partner, 18.80 pct [1]
Mary M. Spencer, limited partner, 15.04 pct
Arie Gener, limited partner, 24.80 pct
Arnold Broser, limited partner, 15.04 pct
Alvin S. Trank, limited partner, 15.04 pct

The Applicant proposes to commence operations with a maximum partnership capital of $1,000,000 and a minimum of $655,000. The Applicant anticipates it will primarily provide venture capital in the form of equity financing and long-term debt. It will have a broad financing policy. The Applicant intends to provide advisory and management services on a contractual basis to client small concerns.

The corporate general partner (Holding Development Corporation) will consist of the following officers, directors and shareholders:

Sash A. Spencer, president and director, 811 Ocean Drive, Town House 21, Key Biscayne, FL 33139, 100 pct
James W. Donaghy, vice president and director, 218 West Rocks Road, Norwalk, CT 06851
Alan P. Raines, director, 31 W. 70th Street, Apt. No. 5, New York, New York 10023

Matters involved in SBA's consideration of the application include the general business reputation and character of the proposed officers, directors, and shareholders of the corporate general partner, as well as the limited partners of the Applicant, and the probability of successful operation of the Applicant, in accordance with the Act and Regulations.

Notice is further given that any person may, not later than 15 days from the date of publication of this notice, submit to SBA, in writing, comments on the proposed licensing of this company. Any such communication should be

[1] Owned 100% by S. A. Spencer, husband of Mary M. Spencer.

addressed to: Acting Associate Administrator for Investment, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416.

A copy of this notice shall be published by the Applicant in a newspaper of general circulation in New York, New York.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies)

Dated: March 17, 1981.

Peter F. McNeish,

Acting Associate Administrator for Investment.

BILLING CODE 8025-01-M

[License No. 02/02-5367 et al.]

Japanese American Capital Corporation (Japanese) et al.; Application for Approval of a Conflict of Interest Transaction

Notice is hereby given that Japanese, 02/02-5367, 120 Broadway, New York, New York 10005, Pan Pac, 02/02-5368, 195 Hudson Street, New York, New York 10013, and Taroco, 02/02-5318, 120 Broadway, New York, New York 10005, Federal Licensees under the Small Business Investment Act of 1958, as amended (Act), (15 U.S.C. 661 *et seq.*), have filed an application with the Small Business Administration, pursuant to Section 312 of the Act and covered by Sections 107.1004(3)(g) and 107.1004(b)(1) of the Regulations governing small business investment companies (SBICs/Licensees) (13 FR 107.1004 (1980)), for approval of a conflict of interest transaction falling within the scope of the above Sections of the Act and Regulations.

The Licensees propose to provide the following financing to: Taroco Food Corporation, 189 Hudson Street, New York, New York 10013.

The participants in the joint financing are:

Japanese—$100,000 equity; $50,000 debt commitment

Pan Pac—$100,000 equity; $50,000 debt commitment

Taroco—$100,000 equity; $50,000 debt commitment

The names of the persons and the nature of the affiliation are:

No Associate of Japanese is an officer, director, or controlling shareholder of Taroco Food Corporation.

David R. C. Chang—Shareholder, Director and President of Taroco is a Shareholder and Director of Taroco Food Corporation, the small concern.

Jack Lee—Shareholder, Director and President of Pan Pac is a Shareholder, Director and President of Taroco Food Corporation.

Need for financing:

(a) Taroco Food Corporation is unable to seek additional financing from traditional sources as it has already received a line of credit from a community bank and is unable to borrow additional funds.

(b) The ability of this Asian American business to raise additional capital, especially equity, is hampered by the size and nature of its capital structure.

(c) Taroco Food Corporation, which sells food products to the Asian American community cannot effectively compete with larger well financed companies unless it receives more equity capital.

(d) Taroco Food Corporation's share of the market is very small and the funds will be used to expand production and sales and to enlarge market share.

In light of the foregoing, the Section 301(d) companies will provide $300,000 to Taroco Food Corporation through the purchase of 49% of its common stock. Each of the Section 301(d) companies will also commit to lend up to $50,000 for straight debt financing at an agreed interest rate in light of market conditions and payable in three to five years. The funds will be used for working capital purposes and to expand its existing production.

Notice is hereby given that any interested person may, not later than ten (10) days from the date of this notice, submit written comments on the proposed transaction to the Acting Associate Administrator for Investment, Small Business Administration, 1441 "L" Street, N.W., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in New York, New York.

BILLING CODE 8025-01-M

[Proposed License No. 09/09-0287]

Bay Venture Group; Application for a License To Operate as a Small Business Investment Company

An application for a license to operate as a limited partnership small business investment company (SBIC) under the provisions of the Small Business Investment Act of 1958, as amended (the Act) (15 U.S.C. 661 *et seq.*), has been filed by Bay Venture Group (Applicant) with the Small Business Administration (SBA), pursuant to 13 CFR 107.102 (1981).

The formation and licensing of a limited partnership SBIC is subject to the provisions of § 107.4 of the Regulations. The Regulations and the application provide for an individual general partner, and a corporate general partner, organized under State law solely for the purpose of managing the functions and activities of the limited partnership SBIC. There may be any number of limited partners.

The initial investors and their percent of ownership of the Applicant are as follows:

Bay Venture Management, Inc., 601 Montgomery Street, Suite 1125, San Francisco, California 94111, Corporate General Partner; 1 percent

William R. Chandler, 160 Mt. Lassen Drive, San Rafael, California 94903, Individual General Partner; Beneficial owner of one-half of 1 percent

Frederick B. Henderson, 3541 Elmwood Avenue, Rochester, New York 14610, Limited Partner; 10 percent

Russell R. Klein, M.D., One Cloud View Circle, Sausalito, California 94965, Limited Partner; 10 percent

There are 30 additional proposed limited partners, each owning less than 10 percent of the partnership interest (based on $500,000 beginning Capital)

The Applicant, with its principal place of business at 601 Montgomery Street, San Francisco, California 94111, proposes to commence operations with a maximum partnership capital of $990,101 and a minimum of $500,000. The Applicant intends to primarily provide venture capital in the form of equity investments and long-term debt. Also, the Applicant intends to invest in start-up companies desiring to develop and exploit scientific and technological inventions.

Bay Venture Management, Inc., the corporate general partner, will consist of the following officers, directors and shareholders:

William R. Chandler, 160 Mt. Lassen Drive, Rafael, California 94903; Board Chairman, President, Chief Financial Officer, 50 percent Shareholder

Peter M. Sturtevant, 49 Montecito Drive, Corona del Mar, California 92625; Vice President, Director, 20 percent Shareholder

Charles H. Slutzkin, 10 Mesa Avenue, Piedmont, California 94611; Secretary, Director, 20 percent Shareholder

William E. Horwich, 1129 Shattuck Avenue, Berkeley, California 94707; Assistant Secretary

Horwich & Warner, Attorneys at Law, 601 Montgomery Street, San Francisco, California 94111; 10 percent shareholder

There will be only one class of common stock of which approximately $500 of the initial paid-in capital and paid-in surplus will be contributed to the capital of the partnership for a general partner's interest in the partnership.

Matters involved in SBA's consideration of the application include the general business reputation and character of the proposed officers, directors, and shareholders of the corporate general partner, as well as the limited partners of the Applicant, and the probability of a successful operation of the Applicant in accordance with the Act and Regulations.

Notice is further given that any person may not later than April 7, 1981, submit to SBA, in writing, comments on the proposed licensing of this company.

Any such communication should be addressed to the Acting Associate Administrator for Investment, Small Business Administration, 1441 "L" Street NW., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in San Francisco, California.

[License No. 06/06-0242]

Commerce Southwest Capital, Inc.; Issuance of License To Operate as a Small Business Investment Company

On February 10, 1981, a notice was published in the **Federal Register** (46 FR 11749), stating that an application had been filed by Commerce Southwest Capital, Inc., Room 202, 1525 Elm Street, Dallas, Texas 75201, with the Small Business Administration (SBA), pursuant to § 107.102 of the Regulations governing small business investment companies (13 CFR 107.102 (1980)), for a license to operate as a small business investment company (SBIC).

Interested parties were given until the close of business February 25, 1981, to submit their written comments to SBA. No comments were received.

Notice is hereby given that, pursuant to Section 301(c) of the Small Business Investment Act of 1958, as amended, and after having considered the application and all other information, SBA issued License No. 06/06-0242, on February 27, 1981, to Commerce Southwest Capital, Inc. to operate as an SBIC.

BILLING CODE 8025-01-M

[License No. 02/02-0350]

Quidnet Capital Corp.; Filing of Application for Approval of Conflict of Interest Transaction Between Associates

Notice is hereby given that Quidnet Capital Corporation (Quidnet), 909 State Street, Princeton, New Jersey 08540, a Federal Licensee under the Small Business Investment Act of 1958, as amended, has filed an application pursuant to § 107.1004 of the Regulations governing small business investment companies (13 CFR 107.1004 (1981)), for approval of a conflict of interest transaction.

Quidnet desires to invest an additional $252,000 in Fox-Vliet Holding Corporation (FVHC), 4529 Enterprise Place, Oklahoma City, Oklahoma 73124. This amount includes Quidnet's pro-rata share of $154,000 plus the pro-rata shares of two associates, Commercial Union Life Insurance Company ($73,000) and Quidnet Company ($25,000). The investment represented by this transaction, or $252,000 would increase Quidnet's total investment in FVHC to $384,000.

FVHC is considered an associate of Quidnet because Quidnet's associates own over ten percent of the stock of FVHC and Mr. Stephen W. Fillo, President of Quidnet, is a Director of FVHC. Consequently, the proposed transaction falls within the purview of Section 107.1004 of the Regulations and requires a written exemption granted by the SBA. SBA granted an exemption to Quidnet on February 14, 1980, for its initial investment in FVHC.

Notice is hereby given that any person may, not later than April 7, 1981 submit written comments on the proposed transaction. Any such comments should be addressed to the Associate Administrator for Investment, Small Business Administration, 1441 "L" Street, N.W., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Princeton, New Jersey and Oklahoma City, Oklahoma.

BILLING CODE 8025-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Amendment of Type Certificate; McDonnell Douglas Model DC-10-30F (KC-10A)

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Announcement of design approval and notice of availability of documents.

SUMMARY: This Notice announces the certification of a major derivative model of the DC-10-30F (freighter) aircraft and the public availability of the "Type Certification Decision Document" for this action.

SUPPLEMENTARY INFORMATION: On January 15, 1976, the McDonnell Douglas Corporation proposed design changes to the DC-10-30 freighter aircraft in response to the U.S. Air Force's Advanced Capability Tanker Program. The resulting aircraft has been designated KC-10A by the Air Force. Although purely military in nature, the Air Force has asked that the aircraft be certificated by the FAA in an effort to eliminate duplication of the certification activities already accomplished by the FAA and to allow the aircraft to be highly compatible with the commercial fleet.

The KC-10A has successfully demonstrated compliance with a set of regulations which have been upgraded from a safety standpoint in comparison to those standards originally applied to the basic DC-10-30F airplane. In addition, the Director of the FAA's, Northwest Region, the region having responsibility for the certification of all heavy transport category airplanes, has reviewed the major issues involved in the design approval of the KC-10A and has discussed with his staff a certification summary document entitled "Summary of Decision Basis for Type Certification of the McDonnell Douglas DC-10-30F (KC-10A)." Based on this review the Director approved issuance of the KC-10A design approval, and the type certificate of the DC-10-30F has been amended to include approval of the KC-10A configuration.

A copy of the "Summary of Decision Basis for Type Certification of the McDonnell Douglas Model DC-10-30F (KC-10A)" is on file in the FAA Rules Docket. The bulk of this report is devoted to summarizing the tests and analysis required of McDonnell Douglas to demonstrate compliance with FAA certification requirements. Detailed appendices include a summary of the method by which compliance was established for each rule and a bibliography of the reports documenting that compliance. This report is available for examination and copying at the FAA Rules Docket, Room 918, 800 Independence Avenue, S.W., Washington, D.C. Copies of the report may be obtained by contacting the Los Angeles Area Aircraft Certification Office, ANW-108L, P.O. Box 92007 Worldway Postal Center, Los Angeles, California 90009.

Issued in Seattle, Washington, on March 12, 1981.

Jonathan Howe,

Acting Director, Northwest Region.

BILLING CODE 4910-13-M

Radio Technical Commission for Aeronautics (RTCA); Special Committee 135; Environmental Conditions and Test Procedures for Airborne Equipment; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I) notice is hereby given of a meeting of RTCA Special Committee 135 on Environmental Conditions and Test Procedures for Airborne Equipment to be held on April 16-17, 1981 in RTCA Conference Room 267, 1717 H Street, NW., Washington, D.C. commencing at 9:30 a.m.

The Agenda for this meeting is as follows: (1) Chairman's Introductory Remarks; (2) Review of Revised Committee Terms of Reference; (3) Consideration of United Kingdom Draft Proposal on Explosion Testing; (4) Assignment of Tasks for Drafting Changes to Explosion Test Procedures of RTCA Document No. DO-160A, "Environmental Conditions and Test Procedures for Airborne Equipment"; and (5) Other Business.

Attendance is open to the interested public but limited to space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the RTCA Secretariat, 1717 H Street, NW., Washington, D.C. 20006, (202) 296-0484. Any member of the public may present a written statement to the committee at any time.

Issued in Washington, D.C. on March 16, 1981.

Karl F. Bierach,

Designated Officer.

BILLING CODE 4910-13-M

Federal Railroad Administration

[FRA Waiver Petition Docket HS-81-2]

Auto-Train Corporation; Petition for Exemption From the Hours of Service Act

In accordance with 49 CFR Section 211.41 and Section 211.9, notice is hereby given that the Auto-Train Corporation (Auto-Train) has petitioned the Federal Railroad Administration (FRA) for an exemption from the Hours of Service Act (83 Stat. 464, Pub. L. 91-169, 45 U.S.C. 64a(e)). That petition requests that Auto-Train be granted authority to permit certain employees to continuously remain on duty for in excess of twelve hours.

The Hours of Service Act currently makes it unlawful for a railroad to require or permit specified employees to continuously remain on duty for a period in excess of twelve hours. However, the Hours of Service Act contains a provision that permits a railroad, which employs no more than fifteen employees who are subject to the statute, to seek an exemption from this twelve hour limitation.

Auto-Train seeks this exemption so that it can permit certain employees to remain continuously on duty for periods not to exceed sixteen hours. The petitioner indicates that granting this exemption is in the public interest and will not adversely affect safety. Additionally, the petitioner asserts that it employs no more than fifteen employees and has demonstrated good cause for granting this exemption.

Interested persons are invited to participate in this proceeding by submitting written views or comments. FRA has not scheduled an opportunity for oral comment since the facts do not

appear to warrant it. Communications concerning this proceeding should identify the Docket Number, Docket Number HS–81–2, and must be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590. Communications received before April 30, 1981, will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All comments received will be available for examination both before and after the closing date for comments, during regular business hours in Room 8211, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590.

(Section 5 of the Hours of Service Act of 1969 (45 U.S.C. 64a), 1.49(d) of the regulations of the Office of the Secretary, 49 CFR 1.49(d))

Issued in Washington, D.C. on March 10, 1981.

Joseph W. Walsh,

Chairman, Railroad Safety Board.

[FR Doc. 81-8701 Filed 3-20-81; 8:45 am]

BILLING CODE 4910-06-M

[Petition Docket Nos. RSGM–80–45 Through RSGM–81–4]

Requests for Waivers of Compliance With the Safety Glazing Standards

Notice is hereby given that seven petitioners have submitted requests for temporary or permanent waivers of compliance with the Safety Glazing Standards (49 CFR Part 223). The Federal Railroad Administration (FRA) published a final rule on December 31, 1979, that requires that all newly built and most existing railroad equipment have improved safety glazing materials installed in order to reduce the risk of death or serious injury resulting from flying objects, including bullets. The regulation provides for equipping the affected locomotives, passenger cars, and cabooses with certified glazing in all windows prior to June 30, 1983.

The individual petitions for a waiver of compliance with this regulation are described below. The description indicates the nature and extent of the relief requested as well as any information that has been submitted in support of the request for the waiver of compliance.

Interested persons are invited to participate in these proceedings by submitting written data, views, or comments. FRA does not anticipate scheduling an opportunity for oral comment since the facts do not appear to warrant it. All communications concerning these petitions must identify the appropriate Docket Number (e.g., FRA Waiver Petition Docket Number RSGM–80–21) and should be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Nassif Building, Federal Railroad Administration, 400 Seventh Street, SW., Washington, D.C. 20590. Communications received before April 30, 1981, will be considered by the FRA before the date final action is taken. All comments will be available for examination both before and after the closing date for comments, during regular business hours (9 a.m.–5 p.m.), in Room 8211, Nassif Building, Federal Railroad Administration, 400 Seventh Street, SW., Washington, D.C. 20590.

Bangor and Aroostook Railroad

(FRA Waiver Petition Docket No. RSGM–80–45)

The Bangor and Aroostook Railroad (BAR) seeks this waiver for a fleet of forty-two locomotives and nineteen cabooses that are currently in operation.

The BAR states that it operates through rural areas and, in the last five years, has experienced only one incident of rock throwing by vandals. That single incident resulted in a minor injury to a train crew member when the rock entered the open caboose window. The BAR states that the glazing materials currently installed conform to standard motor vehicle requirements and are sufficient to protect crew members from a virtually non-existant hazard.

Seaboard Coastline Railroad

(FRA Waiver Petition Docket No. RSGM–80–52)

The Seaboard Coast Line Railroad (SCL) seeks both a temporary and permanent waiver of compliance with Part 223 for approximately 340 locomotives that are part of its present fleet of 1,240 locomotives.

The temporary waiver sought by SCL would apply to a group of approximately 100 locomotives that are currently scheduled for rebuilding. This rebuilding program is scheduled for completion in June of 1986 and currently completes one locomotive each week. The rebuilding program includes the installation of certified glazing and SCL desires to delay the installation of certified glazing until the rebuilding effort in order to avoid duplicative efforts. The temporary waiver would also apply to an additional group of 110 locomotives that will be retired by June 30, 1988. The short term use of these locomotives does not in SCL's judgment warrant the cost of installing the certified glazing.

Peoria and Pekin Union Railway

(FRA Waiver Petition Docket No. RSGM–80–58)

The Peoria and Pekin Union Railway (P&PU) seeks a permanent waiver of compliance with Part 223 for its present fleet of 13 locomotives and 10 cabooses. The P&PU notes that it basically provides switching service in a limited area that has a very minimal vandalism problem. The railroad has no record that indicate it has experienced any incident where trains were shot at or rocks thrown at locomotives or cabooses. Consequently, the installation of the required glazing materials would impose significant costs to protect against a nonexistent hazard.

Elgin, Joliet and Eastern Railway

(FRA Waiver Petition Docket No. RSGM–80–60)

The Elgin, Joliet and Eastern Railway (EJ&E) seeks a permanent waiver of compliance with Part 223 for a locomotive fleet that presently includes 103 units. The EJ&E indicates that it performs primarily switching and terminal type operations and has less than 60 miles of main track.

The EJ&E has experienced some limited incidents of vandalism between 1977 and 1979. The records maintained by the railroad indicate that in this period there were 15 incidents that resulted in damage to the windows on only five locomotives. None of these incidents caused a personal injury. The low incident rate is best reflected, according to EJ&E, by the fact that it has experienced roughly one incident for every 100,000 hours of locomotive operation.

Duluth, Missabee & Iron Range Railroad

(FRA Waiver Petition Docket No. RSGM–80–77)

The Duluth, Missabee & Iron Range Railroad (DM&IR) seeks a permanent waiver of compliance with Part 223 for its present fleet of locomotives and cabooses. That fleet currently includes 66 locomotives and 39 cabooses.

The DM&IR notes that it primarily operates in rural areas which are sparsely populated. This operating environment has produced a good record in terms of vandalism. The available records for a ten year period indicate that there have only been 19 instances of vandal damage to equipment and only one of these resulted in a minor personal injury. Based on this record the DM&IR seeks to avoid the cost of installing the improved glazing.

Oregon, California and Eastern Railway

(FRA Waiver Petition Docket No. RSGM–81–3)

The Oregon, California and Eastern Railway (OC&E) seeks a permanent waiver of compliance for its present fleet of 14 locomotives and one caboose. The OC&E notes that it commenced operation in 1975 in basically open rural countryside. It currently operates approximately 70 miles of main track.

The OC&E states that there are no records to indicate any vandalism problems during the five years it has been operating. The installation of the improved glazing would not provide any needed safety benefit in the opinion of the OC&E.

Southern Railway System

(FRA Waiver Petition Docket No. RSGM–81–4)

The Southern Railway System (Southern) seeks both a permanent and temporary waiver of compliance with Part 223. The permanent waiver would apply to approximately 555 cabooses currently operated by Southern and the temporary waiver would apply to 143 locomotives currently in service.

The waiver sought by Southern for its cabooses would apply only to a single end facing window located near the door on each caboose. This window is a small porthole type window that is primarily designed to allow light to enter the caboose. It is not located in a position where crew members would normally be in close proximity to the window. Additionally, the window is mounted fairly close to the roof overhang so that is is partially protected. Southern indicates that all other windows on these cabooses will meet the regulation.

The Southern also seeks a temporary waiver for a group of locomotives that are scheduled for retirement. These locomotives are all approximately 30 years old and most should be removed from service prior to the June 30, 1983, deadline for the installation of certified glazing. The waiver sought by Southern would permit some of these locomotives to ramain in service for period not to exceed five years so that its orderly retirement program can be completed.

This notice is issued under the authority of Section 202 of the Federal Railroad Safety Act of 1970, 84 Stat. 97 (45 U.S.C. 431) and Sec. 1.49(n) of the regulations of the Office of the Secretary of Transportation 49 CFR 1.49(n).

Issued in Washington, D.C. on March 10, 1981.

J. W. Walsh,
Chairman, Railroad Safety Board.

[FR Doc. 81-8705 Filed 3-20-81; 8:45 am]
BILLING CODE 4910-06-M

[FRA Waiver Petition Docket HS–81–3]

City of Prineville Railway Co.; Petition for Exemption From the Hours of Service Act

In accordance with 49 CFR 211.41 and 211.9, notice is hereby given that the City of Prineville (COP) has petitioned the Federal Railroad Administration (FRA) for an exemption from the Hours of Service Act (83 Stat. 464, Pub. L. 91–169, 45 U.S.C. 64a(e)). That petition requests that the COP be granted authority to permit certain employees to continuously remain on duty for in excess of twelve hours.

The Hours of Service Act currently makes it unlawful for a railroad to require or permit specified employees to continuously remain on duty for a period in excess of twelve hours. However, the Hours of Service Act contains a provision that permits a railroad, which employs no more than fifteen employees who are subject to the statute, to seek an exemption from this twelve hour limitation.

The COP seeks this exemption so that it can permit certain employees to remain continuously on duty for periods not to exceed sixteen hours. The petitioner indicates that granting this exemption is in the public interest and will not adversely affect safety. Additionally, the petitioner asserts that it employs no more than fifteen employees and has demonstrated good cause for granting this exemption.

Interested persons are invited to participate in this proceeding by submitting written views or comments. FRA has not scheduled an opportunity for oral comment since the facts do not appear to warrant it. Communications concerning this proceeding should identify the Docket Number, Docket Number HS–81–3, and must be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590. Communications received before April 10, 1981, will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All comments received will be available for examination both before and after the closing date for comments, during regular business hours in Room 821, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590.

[FRA Waiver Petition Docket HS–81–1]

Duluth & Northeastern Railroad Co.; Petition for Exemption From the Hours of Service Act

In accordance with 49 CFR 211.41 and 211.9, notice is hereby given that the Duluth & Northeastern Railroad (D&NE) has petitioned the Federal Railroad Administration (FRA) for an exemption from the Hours of Service Act (83 Stat. 464, Pub. L. 91–169, 45 U.S.C. 64a(e)). That petition requests that the D&NE be granted authority to permit certain employees to continuously remain on duty for in excess of twelve hours.

The Hours of Service Act currently makes it unlawful for a railroad to require or permit specified employees to continuously remain on duty for a period in excess of twelve hours. However, the Hours of Service Act contains a provision that permits a railroad, which employs no more than fifteen employees who are subject to the statute, to seek an exemption from this twelve hour limitation.

The D&NE seeks this exemption so that it can permit certain employees to remain continuously on duty for periods not to exceed sixteen hours. The petitioner indicates that granting this exemption is in the public interest and will not adversely affect safety. Additionally, the petitioner asserts that it employs no more than fifteen employees and has demonstrated good cause for granting this exemption.

Interested persons are invited to participate in this proceeding by submitting written views or comments. FRA has not scheduled an opportunity for oral comment since the facts do not appear to warrant it. Communications concerning this proceeding should identify the Docket Number, Docket Number HS–81–1, and must be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590. Communications received before April 30, 1981, will be considered by the FRA before final action is taken. Comments

received after that date will be considered as far as practicable. All comments received will be available for examination both before and after the closing date for comments, during regular business hours in Room 8211, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590.

(Section 5 of the Hours of Service Act of 1969 (45 U.S.C. 64a), 1.49(d) of the regulations of the Office of the Secretary, 49 CFR 1.49 (d))

Issued in Washington, D.C. on March 10, 1981

Joseph W. Walsh,

Chairman, Railroad Safety Board.

BILLING CODE 4910-06-M

[Waiver Petition Docket Nos. RSGM-80-44 through RSGM-81-14]

Petitions for Waiver of Safety Glazing Standards

Notice is hereby given that nineteen railroads have submitted requests for permanent waivers of compliance with the Safety Glazing Standards (49 CFR Part 223). The Federal Railroad Administration (FRA) published a final rule on December 31, 1979, that requires that all newly built and most existing railroad equipment have improved safety glazing materials installed in order to reduce the risk of death or serious injury resulting from flying objects, including bullets. The regulations provide for the affected locomotives, passengers cars, and cabooses to be equipped with certified glazing in all windows after June 30, 1983.

The individual railroads seeking a waiver of compliance with this regulation are listed below. In this listing FRA has identified the railroad, the specific docket designation and the number of locomotives or cabooses that are involved in each request. Each of the petitions are similar in most respects. The railroad operates ten or less locomotives and has experienced no vandal related damage to the windows of its equipment. Most of these railroads operate in rural surroundings and the others provide service in very compact industrial areas. The petitioners generally indicate that the cost of retrofitting would be very costly in terms of their limited operating budget.

The railroads seeking the waivers are as follows:

1. Georgetown Railroad (Docket No. RSGM-80-44) which operates ten locomotives.

2. Arcade and Attica Railroad (Docket No. RSGM-80-57) which operates two locomotives.

3. East Erie Commercial Railroad (Docket No. RSGM-80-59) which operates five locomotives.

4. Goodwin Railroad (Docket No. RSGM-80-68) which operates two locomotives.

5. Detroit Shore Line Railroad (Docket No. RSGM-80-69) which operates three locomotives.

6. Octoraro Railway (Docket No. RSGM-80-80) which operates three locomotives.

7. Lamoille Valley Railroad (Docket No. RSGM-80-81) which operates five locomotives.

8. Fore River Railroad (Docket No. RSGM-81-1) which operates two locomotives.

9. East Camden and Highland Railroad (Docket No. RSGM-81-2) which operates four locomotives.

10. Lenawee County Railroad (Docket No. RSGM-81-5) which operates two locomotives.

11. Madison Railroad (Docket No. RSGM-81-6) which operates one locomotive.

12. Grafton and Upton Railroad (Docket No. RSGM-81-7) which operates two locomotives.

13. Lackawaxen and Stourbridge Railroad (Docket No. RSGM-81-1) which operates one locomotive.

14. Cooperstown & Charlotte Valley Railway (Docket No. RSGM-81-9) which operates one locomotive

15. Fonda Johnston & Gloversville Railroad (Docket No. RSGM-81-10) which operates two locomotives.

16. Central New York Railroad (Docket No. RSGM-81-11) which operates one locomotive

17. Arkansas & Louisana, Missouri (Docket No. RSGM-81-12) which operates four locomotives and two cabooses.

18. Little Rock Port Railroad (Docket No. RSGM-81-13) which operates one locomotive

19. Lancaster & Chester Railway (Docket No. RSGM-81-14) which operates two locomotives.

Interested persons are invited to participate in these proceedings by submitting written data, views, or comments. FRA does not anticipate scheduling an opportunity for oral comment since the facts do not appear to warrant it. All communications concerning these petitions must identify the appropriate Docket Number (e.g., FRA Waiver Petition Docket Number RSGM-80-44) and should be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration (FRA), 400 Seventh Street, S.W, Washington, DC 20590. Communications received before April 30, 1981, will be considered by the Federal Railroad Administration before the date final action is taken. All comments will be available for examination both before and after the closing date for comments during regular business hours (9 a.m.–5 p.m.), in Room 8211, Nassif Building, 400 Seventh Street, S.W., Washington, DC 20590.

(Sec. 202 of the Federal Railroad Safety Act of 1970, 84 Stat. 97 (45 U.S.C. 431) and Section 1.49(n) of the regulations of the Office of the Secretary of Transportation 49 CFR 1.49(n))

Issued in Washington, DC on March 10, 1981.

J. W. Walsh,

Chairman, Railroad Safety Board.

BILLING CODE 4910-06-M

National Highway Traffic Safety Administration

[Docket No. EX81-2; Notice 1]

Vintage Reproductions, Inc.; Petition for Temporary Exemption From Federal Motor Vehicle Safety Standards

Vintage Reproductions, Inc. of Fort Lauderdale, Florida, has applied for temporary exemption for its 1900 Series Horseless Carriages from certain safety standards on grounds of substantial economic hardship.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

The company produces replicas of turn-of-the-century vehicles. It appears to produce about 100 such each year. Petitioner's 1900 Series Horseless Carriages have received NHTSA exemptions twice previously (EX74-6, EX76-1). While its latest exemptions, which expired March 1, 1981, were in effect, it states that it has achieved conformance with Safety Standards Nos. 101, 102, 105, 106, 109, 110, 124, 207, 210, 212 and 301. The company now requests exemption from the following standards for the reasons indicated:

Standard No. 103, *Windshield Defrosting/Defogging Systems*
Standard No. 104, *Windshield Wiping and Washing Systems*

The vehicles are open, and not likely to be used in adverse weather. An electric wiping system is nonetheless supplied.

Standard No. 114, *Theft Protection*
Standard No. 115, *Vehicle Identification Number*

Due to its unique configuration, this vehicle would be readily identifiable if stolen. It has a VIN attached to the dash and number stamped into the frame.

Standard No. 201, *Occupant Protection in Interior Impact*

Standard No. 203, *Impact Protection for the Driver From the Steering Control System*

Standard No. 204, *Steering Control Rearward Displacement*

The steering column is mounted vertically from the floor rather than having "the conventional wheel which is aimed directly at driver's chest."

Standard No. 202, *Head Restraints*

The vehicle's maximum speed of 35 mph and use "for non-conventional purposes (parades, sales/marketing)" make it unlikely to be involved in accidents. Further, head restraints "would absolutely destroy the reproduction value."

Standard No. 208, *Occupant Crash Protection*

Petitioner's basis for its request is unclear; however, under its previous exemption it was required to provide a Type 1 seat belt assembly at each designated seating position, though relieved of compliance with the remainder of the standard.

Standard No. 302, *Flammability of Interior Materials*

The vehicle is open and occupants can easily jump free of it in the event of an accident.

A 3-year exemption is requested from each of the above standards.

In support of its petition the company argues that it is not likely that its replica vehicles will present a significant hazard to traffic safety. It believes the overall concept is such that the vehicles' appeal primarily is for occasional, limited use (e.g., auto shows, resort use) rather than extensive daily use on the public roads. The company has over 25 full-time employees. In its last 6 fiscal years (May 1, 1974–April 30, 1980) it had a cumulative net loss of about $80,000. Therefore, compliance with any of the standards for which its requests exemption would cause it substantial economic hardship.

Interested persons are invited to submit comments on the petition of Vintage Reproductions, Inc. described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. Notice of final action on the petition will be published in the Federal Register pursuant to the authority indicated below.

Comment closing date: April 22, 1981.

(Sec. 3, Pub. L. 92–548, 86 Stat. 1159 (15 U.S.C. 1410); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on March 16, 1981.

Michael M. Finkelstein,

Associate Administrator for Rulemaking.

BILLING CODE 4910-59-M

DEPARTMENT OF THE TREASURY

Office of the Secretary

Comprehensive Review of Advisory Committees

The Department of the Treasury is conducting a comprehensive review of its advisory committees in accordance with the requirements of Pub. L. 92–463 and implementing regulations. This review is to determine if each committee is carrying out its purpose, whether responsibilities assigned to each committee should be revised and whether committees should be merged or abolished.

Treasury advisory committees under review include:

(1) Advisory Committee on Explosive Tagging—recommends and evaluates R&D of explosive detection and identification systems.

(2) Advisory Committee on the International Monetary System—advises on issues concerning the effective functioning of the international monetary system

(3) Advisory Group to the Commissioner of Internal Revenue—provides an organized forum for discussions of relevant tax administration issues.

(4) Foreign Portfolio Investment Survey Advisory Committee—furnishes expertise on international securities markets and technical advice to assist in meeting the requirements of the Foreign Investment Survey Act of 1976.

(5) Government Borrowing Committee of the American Bankers Association—provides financial information and advice for Treasury debt management operations.

(6) Government and Federal Agencies Securities Committee of the Public Securities Association—provides financial information and advice for Treasury debt management operations.

(7) The Art Advisory Panel of the Commissioner of Internal Revenue—reviews and advises on the acceptability of property appraisals submitted by taxpayers.

(8) The Art Print Panel of the Commissioner of Internal Revenue—reviews and advises on the acceptability of art print appraisals submitted by taxpayers.

(9) Treasury Small Business Advisory Committee—provides information and advice on a broad range of economic issues that affect the small business community.

Interested persons or organizations are invited to comment. All queries and comments should be sent to William Coffman, Department of the Treasury, Room 4406, Main Treasury Building, 15th and Pennsylvania Avenues, N.W., Washington, D.C. 20220. Comments must be received no later than April 3 if they are to be considered in this review.

Arthur D. Kallen,

Acting Deputy Assistant Secretary (Administration).

March 19, 1981.

BILLING CODE 4810-25-M

VETERANS ADMINISTRATION

Career Development Committee; Meeting

The Veterans Administration gives notice under the provisions of Pub. L. 92–463 that a meeting of the Career Development Committee, authorized by 38 U.S.C. 4101, will be held in the Conference Room 1104 of the Park Central Hotel, 705 18th Street, N.W., Washington, DC 20006, April 15 through 17, 1981 at 8:30 a.m. The meeting will be for the purpose of scientific review of applications for appointment to the Career Development Program in the Veterans Administration. The committee advises the Director, Medical Research Service on selection and appointment of Associate Investigators, Research Associates, Clincial Investigators, Medical Investigators, Senior Medical Investigators and William S. Middleton Award Nominees.

The meeting will be open to the public up to the seating capacity of the room from 8:30 a.m. to 9 a.m. to discuss the general status of the program. Because

of the limited seating capacity of the room, those who plan to attend should contact Mr. David D. Thomas, Executive Secretary of the Career Development Committee (151J), Veterans Administration Central Office, Washington, DC 20420 (Phone 202–389–2317) prior to April 6, 1981.

The meeting will be closed from 9 a.m. to 5 p.m. on April 15 through 17 for consideration of individual applications for positions in the Career Development Program. This necessarily requires examination of personnel files and discussion and evaluation of the qualifications, competence, and potential of the several candidates, disclosure of which would constitute a clearly unwarranted invasion of personal privacy. In addition, decisions recommended by the committee are strictly advisory in nature; other factors are considered in final decisions. Premature disclosure of committee recommendations as well as the disclosure of research information would be likely to significantly frustrate implementation of final proposed agency actions. Accordingly, closure of this portion of the meeting is permitted by section 10(d) of the Federal Advisory Committee Act, Public Law 92–463 as amended, in accordance with subsections (c)(6) and (c)(9)(B), 5 U.S.C. 552b.

Minutes of the meeting and rosters of the committee members may be obtained from Mr. David D. Thomas, Chief, Career Development Program, Medical Research Service (151J), Veterans Administration, Washington, DC 20420 (Phone 202–389–2317).

Dated: March 17, 1981

Rufus H. Wilson,

Acting Administrator.

BILLING CODE 8320-01-M

Purchase of Land for Parking; Veterans Administration Medical Center, Oklahoma City, Okla.; Finding of No Significant Impact

The Veterans Administration (VA) has assessed the potential environmental impacts that may occur as a result of the Purchase of Land for Parking at the Veterans Administration Medical Center (VAMC) Oklahoma City, Oklahoma.

The VAMC is presently short of parking and some existing parking will be temporarily lost to future construction. Future parking needs are projected to increase. To help reduce the parking problems, the Veterans Administration proposes to acquire 11 parcels totaling about 2 acres adjoining the hospital to the north. This land would be converted from residential to surface parking with the potential for future parking garage construction. Land acquisition and construction of surface parking is estimated at $635,000. An additional $3,300,000 would construct a 400 car parking structure.

In conjunction with this project proposal, a parking analysis will be conducted in accordance with the requirements of OMB Circular A–116. This will more clearly delineate the magnitude of parking requirements. The information will help in the decision among the alternatives of no action, surface parking or a parking structure.

In the past the VA investigated construction of a parking garage on other sites near the VAMC, but these proposals have not received favorable comment from the Capitol Medical Center Zoning Commission.

Attempts have been made to increase the efficiency and utilization of public transportation systems. The extremely spread out nature of Oklahoma City makes travel by public transportation impractical from many areas.

Carpooling and vanpooling is encouraged at the VAMC but does not eliminate the problem. Current alternatives are acquisition and construction of surface parking, acquistion and construction of a parking garage, and no action. No action would allow the lack of parking to continue. As the needs of VAMC increase, additional hardships will be placed on the patients and staff.

Development of this project would have impacts on the natural and human environments as it affects local residents through relocation; real property through acquisition and change in land use; neighborhood character by change in land use; and it will reduce land on the tax rolls.

Additional impacts from construction include increased surface runoff, potential erosion and sedimentation of stormwater, temporary increase in particulate emissions in air quality, temporary construction noise, generation of solid waste from demolition, and removal of some local vegetation.

Acquisition and relocation would be accomplished in accordance with the provisions of the Uniform Relocation Assistance and Real Property Acquistion Policies Act of 1970 (Public Law 91–646) dated January 2, 1971. Efforts should be made to accomplish relocation through a local agency and keep residents in the local neighborhood if they so desire. Sensitive handling will reduce any potential for controversy.

Design of the parking facility should be as aesthetically pleasing as possible to be compatible with the residences across the street. Landscaping will replace some of the removed vegetation.

Construction impacts should be mitigated by normal measures to control erosion, generation of dust and fumes and screening of visual impacts and implementation of noise control measures. All local and federal environmental regulations will be adhered to.

The significance of the identified impacts has been evaluated relative to the considerations of both context and intensity, as defined by the Council on Environmental Quality (40 CFR 1508.27).

This Environmental Assessment has been performed in accordance with the requirements of the National Environmental Policy Act Regulations, §§ 1501.3 and 1508.9, Title 40, Code of Federal Regulations. A "Finding of No Significant Impact" has been reached based on the information presented in this assessment.

The assessment is being placed for public examination at the Veterans Administration, Washington, D.C. Persons wishing to examine a copy of the document may do so at the following office: Mr. Willard Sitler, P.E., Director, Office of Environmental Affairs (003A), Room 950, Veterans Administration, 1425 K Street, N.W., Washington, D.C. 20420, (202–389–2526). Questions or requests for single copies of the Environmental Assessment may be addressed to: Director, Environmental Affairs Office (003A), 810 Vermont Avenue, N.W., Washington, D.C. 20420.

Dated: March 13, 1981.

Rufus H. Wilson,

Acting Administrator.

DEPOSITORY INSTITUTIONS DEREGULATION COMMITTEE.

TIME AND DATE: 3 p.m., Thursday, March 26, 1981.

PLACE: Officers of the Board of Governors of the Federal Reserve System, Board Building, C Street entrance between 20th and 21st Streets, N.W., Washington, D.C. 20551.

STATUS: Open.

MATTERS TO BE CONSIDERED:

1. Effective date for new ceiling rates on money market certificates (MMCs) and small saver certificates (SSCs).
2. Consideration of penalty-free early withdrawals of time deposit funds in the event of bankruptcy of the depositor.
3. Reconsideration of rule permitting a phaseout of finders fees for qualifying institutions.
4. Ceiling rates on regular savings accounts and on interest-bearing transaction accounts.
5. Discussion of strategies for deregulation and consideration of petitions for ceiling rate adjustments.
6. Election of Chairman and Vice Chairman.

Note.—This meeting will be recorded for the benefit of those unable to attend. Cassettes will be available for listening in the Board of Governors of the Federal Reserve System's Freedom of Information Office, and copies may be ordered for $5 per cassette by calling (202) 452-3684 or by writing to: Freedom of Information Office, Board of Governors fo the Federal Reserve System, Washington, D.C. 20551.

CONTACT PERSON FOR MORE INFORMATION: Mr. Joseph R. Coyne, Public Information Officer (202) 652-3204.

Dated: March 19, 1981.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION.

TIME AND DATE: 9:30 a.m. (eastern time), Tuesday, March 24, 1981.

PLACE: Commission conference room 5240, fifth floor, Columbia Plaza Office Building, 2401 E Street NW., Washington, D.C. 20506.

STATUS: Part will be open to the public and part will be closed to the public.

MATTERS TO BE DISCUSSED:

1. Freedom of Information Act Appeal No. 81-2-FOIA-4-AT, concerning material in a Commissioner's charge.
2. Freedom of Information Act Appeal No. 81-1-FOIA-5-SL, concerning an Investigator's Memorandum and Notes in a charge file.
3. Freedom of Information Act Appeal No. 81-1-FOIA-013-IN, concerning aggregate EEO-1 statistics for the 386 Standard Industrial Classification for Marshall and St. Joseph counties in Indiana.
4. Freedom of Information Act Appeal No. 80-12-FOIA-09-IN, concerning materials from charge file and data on EEOC Personnel.
5. Freedom of Information Act Appeal No. 81-1-FOIA-30-CH, concerning materials in a charge file.
6. Privacy Act Record System EEOC-1, Age and Equal Pay Act Discrimination Case Files.
7. Proposed Contract for Computer Programming Services.
8. Report on Commission Operations by the Executive Director.

Closed to the Public:

1. Litigation Authorization: General Counsel Recommendations.

Note.—Any matter not discussed or concluded may be carried over to a later meeting.

CONTACT PERSON FOR MORE INFORMATION: Treva I. McCall, Executive Officer, Executive Secretariat, at (202) 634-6748.

NATIONAL CREDIT UNION ADMINISTRATION.

Change in Subject of Meeting.

The National Credit Union Adminstration Board has determined that its business required that the

previously announced open meeting on March 12, 1981 include an additional item, which was open to public observation:

Waiver of Reserve for first quarter 1981.

Earlier announcement of this change was not possible.

The Previously announced items were:

1. Review of Central Liquidity Facility Lending Rate.
2. Federal Credit Union Insurance and Group Purchasing Activities.
3. Revised Long-Range Plan for Fiscal Years 1981–1983.
4. Consideration of revised procedures and instructions for processing standard bylaw amendments.
5. Proposed amendment to Part 701.11 of the NCUA Rules and Regulations regarding filing of Annual Report of Officials.
6. Proposed amendment to Part 749 of the NCUA Rules and Regulations, Records Preservation Program.
7. Final Rule—Deregulation of the real estate lending regulation, Section 701, which prohibits FCUs with assets of less than $2,000,000 from granting long-term real estate loans and removal of regulatory restraints which limit the amount of loan origination fees that can be assessed.
8. Report of actions taken under delegations of authority.
9. Applications for charters, amendments to charters, bylaw amendments, mergers as may be pending at that time.

The meeting was held at 9:30 a.m., in the 7th Floor Board Room 1776 G Street, NW., Washington, D.C.

Part II

Department of Energy

Defense Programs; Criteria and Procedures for Determining Eligibility for Access to Classified Matter or Significant Quantities of Special Nuclear Material; Correction of Nomenclature

DEPARTMENT OF ENERGY

10 CFR Part 710

Defense Programs; Criteria and Procedures for Determining Eligibility for Access to Classified Matter or Significant Quantities of Special Nuclear Material; Correction of Nomenclature

AGENCY: Department of Energy.

ACTION: Final rule.

SUMMARY: The Department of Energy is amending 10 CFR Part 710 to reflect better its present character as a DOE Regulation. This Part previously published as an Energy Research and Development Administration (ERDA) Regulation and was revised as of May 31, 1979, to reflect its new status as a DOE Regulation. DOE is amending Part 710 and is correcting nomenclature throughout Part 710 to remove certain inaccuracies contained in the May 31, 1979 verion. DOE is also amending the administrative review procedures used for granting, denying, or revoking an individual's access authorization. Such an authorization allows an individual access to national security information, Restricted Data, and special nuclear material. DOE is also requiring access authorization for individuals handling lesser amounts of special nuclear material than has previously been the case.

EFFECTIVE DATE: April 22, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Martin J. Dowd, Director, Division of Security, Office of Safeguards and Security, U.S. Department of Energy, Washington, DC 20545, 301/353–3652.

SUPPLEMENTARY INFORMATION:

A. Background

The DOE published its proposed rule in the **Federal Register** on September 24, 1980, 45 FR 63292. Public comments were invited on or before October 24, 1980. No public comments have been received.

B. Minor Changes

To clarify Definitions the phrase in § 710.5, "Manager of Operations", has been expanded to include the Manager of the Pittsburgh Naval Reactors Office and the Manager of the Schenectady Naval Reactors Office.

Issued in Washington, DC, on March 12, 1981.

Robert L. Morgan,

Acting Assistant Secretary for Defense Programs.

For the reasons set out in the preamble, Part 710 of Chapter III of Title 10 of the Code of Federal Regulations is amended as set forth below.

PART 710—CRITERIA AND PROCEDURES FOR DETERMINING ELIGIBILITY FOR ACCESS TO CLASSIFIED MATTER OR SIGNIFICANT QUANTITIES OF SPECIAL NUCLEAR MATERIAL

1. Part 710 is amended by deleting the words "Assistant Administrator for National Security", "Administrator", "Personnel Security Review Board" (or "Board"), and "Personnel Security Board" (or "Board") wherever they appear, and substituting the words, "Assistant Secretary for Defense Programs", "Secretary", "Personnel Security Review Examiner", and "Hearing Officer", respectively.

2. Section 710.5 is revised to read as follows:

§ 710.5 Definitions.

As used in this part:

(a) "Access Authorization" means an administrative determination that an individual (including a consultant) who is employed by, or is an applicant for employment with DOE contractors, agents, and access permittees of DOE is eligible for access to Restricted Data or national security information or is eligible for access to, or control over, significant quantities of special nuclear material; and an individual (including a consultant) who is a DOE employee or applicant for DOE employment or otherwise designated by the Secretary of DOE is eligible for security clearance.

(b) For the purposes of this Regulation, "significant quantities of special nuclear material" means unclassified special nuclear material, not subject to a Nuclear Regulatory Commission (NRC) license, in one facility or one shipment in the following quantities:

(1) Uranium 235 (contained in uranium enriched 20 percent or more in the Uranium 235 isotope) alone, or in combination with Plutonium and/or Uranium 233 when (multiplying the Plutonium and/or Uranium 233 content by 2½) the total is 1,000 grams or more.

(2) Plutonium and/or Uranium 233 when the Plutonium and/or Uranium 233 content is 400 grams or more.

(3) Special nuclear material in lesser quantities but which is located in the same area or shipment with other special nuclear material with which it could be selectively combined to produce the equivalent quantities in paragraph (b)(1) or (2) of this section.

(c) "DOE Personnel Security Review Examination" means a review process as described in § 710.31, in which the designated DOE Personnel Security Review Examiners individually and independently review questions concerning the eligibility or continued eligibility of those individuals described in § 710.2, and offer findings and recommendations to the DOE Assistant Secretary for Defense Programs.

(d) "DOE Personnel Security Review Examiners" are persons appointed by the DOE Assistant Secretary for Defense Programs who are designated to review questions concerning the eligibility or continued eligibility of those individuals described in § 710.2. Examiners shall be U.S. citizens and have a DOE "Q" clearance and shall not otherwise be in the employ of the DOE.

(e) "Hearing Counsel" means a DOE attorney assigned to prepare and conduct hearings as provided in §§ 710.26 and 710.27.

(f) "Manager of Operations" means the Manager of a DOE Operations Office, the Manager of Pittsburgh Naval Reactors Office, the Manager of Schenectady Naval Reactors Office (and at Headquarters, the Director, Office of Safeguards and Security—see § 710.38).

(g) "Hearing Officer" is an individual appointed by the Manager of Operations who, upon considering the evidence at a hearing, makes specific findings as to the truth of the derogatory information, and determines whether to recommend to the Manager of Operations the granting, denial, or revocation of an individual's access authorization. Hearing Officers shall be U.S. citizens and have a DOE "Q" clearance.

(h) "Secretary" means the head of the Department of Energy as provided by section 201 of the Department of Energy Organization Act.

§ 710.20 [Amended]

3. § 710.20 is amended by deleting the words "Personnel Security Board" where they appear.

4. § 710.22 is amended by revising paragraphs (c), (e), and (f) to read as follows:

§ 710.22 Notice to individual.

* * * * *

(c) That in the event the individual desires a hearing the individual must, within twenty days of the date of receipt of the notification letter, indicate in writing to the Manager of Operations from whom the letter was received that the individual wishes a hearing before a Hearing Officer.

* * * * *

(e) That, if the individual so requests, a hearing will be scheduled before a Hearing Officer, with due regard for the convenience and necessity of the parties or their representatives, for the purpose of affording the individual an

opportunity of supporting his eligibility for access authorization.

(f) That, if the individual requests a hearing, the individual will be notified in writing of the Hearing Officer's identity when the Hearing Officer is appointed by the Manager of Operations.

* * * * *

5. § 710.25 is amended by revising paragraph (b) to read as follows:

§ 710.25 Selection of DOE hearing counsel.

* * * * *

(b) Hearing Counsel shall, prior to the scheduling of the hearings, review the information in the case and shall request the presence of witnesses and the production of physical evidence in accordance with the provisions of paragraphs (m), (n), (o), and (p) of § 710.27. When the presence of a witness is deemed by the Hearing Counsel to be necessary or desirable to a proper determination of the issues before the Hearing Officer, the Manager of Operations shall make arrangements by subpoena or otherwise for such witnesses to appear, be confronted by the individual, and be subject to examination and cross-examination.

(6) Section 710.26 is revised to read as follows:

§ 710.26 Appointment of hearing officers.

(a) Upon notification from the Hearing Counsel that arrangements for an expeditious hearing have been completed, the Manager of Operations shall appoint a Hearing Officer.

(b) No person shall serve as a Hearing Officer who has prejudged the case to be heard; who possesses information that would impair his ability to render impartial recommendations or advice; or who for bias or prejudice generated for any reason would be unable to render fair and impartial recommendations or advice.

(c) Immediately upon the appointment of a Hearing Officer, the Manager of Operations will notify the individual of the identity of the Hearing Officer and of the individual's right to challenge the Hearing Officer for cause. Such challenge, accompanied by the reasons therefor, must be submitted to the Manager of Operations within seventy-two hours of the receipt of the notice of the identity of the Hearing Officer.

(d) In the event the individual challenges the Hearing Officer, the Manager of Operations will rule on the challenge. Where the challenge of the individual is sustained, the Manager of Operations shall appoint a new Hearing Officer and notify the individual. The individual shall have the right to challenge the new Hearing Officer for cause and such challenge shall be dealt with in the same manner as an original challenge. The Manager of Operations shall also notify the individual of the rejection of any challenge. The Hearing Officer shall convene a hearing as soon as is reasonably practicable.

(e) The Manager of Operations shall notify the individual in writing, at least one week in advance of the date, hour, and place the hearing will convene. In the event the individual fails to appear at the time and place specified, a recommendation as to the final action to be taken shall be made by the Manager of Operations to the Assistant Secretary for Defense Programs on the basis of the record in the case. At the request of the individual, however, the Manager of Operations may permit a hearing at a newly scheduled date, hour, and place for good cause shown.

7. In § 710.27, paragraphs (a), (c)(2), (e), (f) and (j) are revised to read as follows:

§ 710.27 Conduct of proceedings.

(a) The proceedings shall be conducted by the Hearing Officer in an orderly, impartial, and decorous manner with every effort made to protect the interest of the Government and of the individual in determining the truth of the allegations. In no case will undue delay be tolerated or will the individual be hampered by unduly restricting the time necessary for proper preparation and presentation. In performing duties, the Hearing Officer shall always bear in mind and make clear to all concerned that the proceeding is an administrative hearing and not a trial.

* * * * *

(c) * * *

(2) Hearing Counsel shall express no opinion to the Hearing Officer concerning the merits of the case. Hearing Counsel shall advise the individual of the individual's rights under these procedures when the individual is not represented by counsel of the individual's own choosing.

* * * * *

(e) During the course of the hearing the Hearing Officer shall rule on all questions presented to the Hearing Officer for the Hearing Officer's determination.

(f) In the event it appears in the course of the hearing that Restricted Data or national security information may be disclosed, it shall be the duty of the Hearing Officer to assure that disclosure is not made to persons who are not authorized to receive it.

* * * * *

(j) The Hearing Officer shall endeavor to obtain all the facts that are reasonably available in order to arrive at recommendations. If, prior to or during the proceedings, in the opinion of the Hearing Officer the allegations in the notification letter are not sufficient to cover all matters into which inquiry should be directed, the Hearing Officer shall recommend to the Manager of Operations concerned that, in order to give more adequate notice to the individual, the notification letter should be amended. Any amendment shall be made with the concurrence of the Director, Division of Safeguards and Security, DOE, and the Office of the General Counsel. If, in the opinion of the Hearing Officer, the circumstances of such an amendment may involve an undue hardship to the individual because of limited time to answer the new allegations in the notification letter, an appropriate adjournment shall be granted upon the request of the individual.

* * * * *

8. Section 710.28 is amended by revising paragraphs (c) and (d) to read as follows:

§ 710.28 Recommendation of the Hearing Officer.

* * * * *

(c) The Hearing Officer's recommendation shall be predicated upon the Hearing Officer's findings. If, after considering all the factors in light of the criteria set forth in this part, the Hearing Officer is of the opinion that it will not endanger the common defense and security and will be clearly consistent with the national interest to grant access authorization to the individual, the Hearing Officer shall make a favorable recommendation; otherwise the Hearing Officer shall make an adverse recommendation.

(d) The Hearing Officer's recommendation shall be submitted to the Manager of Operations accompanied by a statement of the findings and reasons supporting the Hearing's Officer's conclusions.

10. Section 710.29 is amended by revising paragraph (b)(1) to read as follows:

§ 710.29 New evidence.

* * * * *

(b) * * *

(1) Refer the matter to the Hearing Officer who had been appointed in the individual's case when the Manager of Operations has not yet transmitted the record to the Assistant Secretary for Defense Programs. The Hearing Officer receiving the application for the presentation of the new evidence shall determine the form in which it shall be

received, whether by testimony before the Hearing Officer, by deposition, or by affidavit.

* * * * *

11. Section 710.30 is amended by revising paragraph (a) to read as follows:

§ 710.30 Actions on the recommendations.

(a) The recommendations of the Hearing Officer shall be signed by the Hearing Officer, and together with the record of the case, shall be transmitted with the least practicable delay to the Manager of Operations concerned.

* * * * *

11. Section 710.31 is revised to read as follows:

§ 710.31 Recommendation of the DOE Personnel Security Review Examiners.

(a) The Assistant Secretary for Defense Programs shall designate three DOE Personnel Security Review Examiners to conduct a DOE Personnel Security Review Examination of the record of the case. The designated Examiners shall individually and independently, without consulting or otherwise communicating with one another, consider the matter under review based upon the record supplemented by such brief as the individual submits. Examiners may request such additional briefs as any of them deems appropriate, which will be obtained by the Assistant Secretary for Defense Programs and provided to each Examiner. In any case where an Examiner determines that additional evidence or further proceedings are necessary, the record may be returned to the Assistant Secretary for Defense Programs with a recommendation that the case be remanded to the Manager of Operations for appropriate action, which may include returning the case to the Hearing Officer and reconvening the hearing to obtain additional testimony.

(b) In the Examiner's consideration, each shall make individual findings and recommendations on the record supplemented by additional testimony or briefs as have previously been determined by an Examiner(s) as appropriate. When additional testimony is taken by the Hearing Officer, a verbatim transcript of such testimony shall be made part of the record.

(c) The Examiners shall not consider the possible impact of the loss of the individual's services upon the DOE program.

(d) After consideration, each Examiner shall individually prepare a report of findings and recommendations and submit the report in writing to the Assistant Secretary for Defense Programs. These findings and recommendations shall be fully supported by stated reasons supporting their conclusions.

Office of Management and Budget

Proposed Budget Rescissions and Deferral

OFFICE OF MANAGEMENT AND BUDGET

Proposed Budget Rescissions and Deferral

To the Congress of the United States

In accordance with the Impoundment Control Act of 1974, I herewith report 81 proposals to rescind a total of $11.1 billion in budget authority previously provided by the Congress. In addition, I am proposing to reduce authority to incur obligations for direct loans by a total of $751.8 million and I am reporting one new deferral of $3.4 million. These proposals are an integral part of my plan to reduce government spending.

The details of the rescission proposals and the deferral are contained in the attached reports.

Ronald Reagan

THE WHITE HOUSE,
March 17, 1981.

Rescission Proposal No: R81-38

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Executive Office of the President	New budget authority (P.L. 96-526): $ 3,250,000
Bureau:	Other budgetary resources: 242,000
Appropriation title & symbol: Council on Environmental Quality and Office of Environmental Quality 1111-53	Total budgetary resources: 3,492,000
	Amount proposed for rescission: $ 708,000
OMB identification code: 11-1453-0-1-802	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program: ☐ Yes ☒ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year _____ (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The Council on Environmental Quality (CEQ) performs studies and analyses related to current environmental issues, as well as other activities related to the National Environmental Policy Act (NEPA).

This rescission proposal is an integral component of President Reagan's plan for reducing Federal spending and eliminating duplicative regulatory activities.

In compliance with NEPA Section 205(2), CEQ's activities will be reduced to those statutoril mandated which do not unnecessarily overlap or conflict with established agency activities.

Estimated Effect: The duplication of activities among established agencies and CEQ will be eliminated. Responsibility for various activities will be formally recognized in established agencies.

Outlay Effect: (in millions of dollars)

Rescission Proposal No: R81-19

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Executive Office of the President	New budget authority (P.L. 96-526) -- $ 2,658,000
Bureau Office of Science and Technology Policy	Other budgetary resources ---- --
Appropriation title & symbol	Total budgetary resources 2,658,000
Salaries and Expenses 1112600	Amount proposed for rescission $ 595,000
OMB identification code: 11-2600-0-1-802	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification:

This appropriation funds the activities of the Office of Science and Technology Policy, within the Executive Office of the President, to provide analysis and advice to the President and other agencies in the Executive Office. The proposed reductions would result in a reduced permanent staff and a decrease in the number of external researchers and advisors. Sufficient resources will remain available to meet the major goals and objectives of the office.

Estimated effect:

The permanent staff of the office will be reduced from 24 to 12 and positions for consultant appointees reduced from 30 to 10.

Outlay effect: (in millions of dollars)

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Funds Appropriated to the President	New budget authority (P.L. 96-367) --$339,300,000
Bureau Appalachian Regional Development Programs	Other budgetary resources ---- 50,233,279
Appropriation title & symbol	Total budgetary resources 389,533,279
Appalachian Regional Development Programs 11X0090	Amount proposed for rescission $110,000,000
OMB identification code: 11-0090-0-1-452	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other _____
Type of account or fund: ☐ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other _____

Justification: The Appalachian Regional Commission's mission is assisting the Appalachian region in promoting and managing growth through planning, research, technical assistance, administration, direct and supplemental funding of Federal grant-in-aid programs, and through construction of the Appalachian Development Highway System to improve access to Appalachia.

The remaining non-highway 1981 appropriations are proposed for rescission because Federal involvement is not required in general purpose, multi-state coordinating bodi There are other means that States have for working together on mutual concerns. In addition, economic expansion and job creation in Appalachia will be stimulated through general tax, fiscal and regulatory reductions.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effect: No new projects will be funded for area development, local development district support, or Commission research. The highway program will be transferred to the Department of Transportation and funded out of the Highway Trust Fund beginning in 1982.

Outlay Effect: (In millions of dollars)

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Funds Appropriated to the President	New budget authority (P.L. 96-526) $ 366,449,000
Bureau	Other budgetary resources 234,192,000
Appropriation title & symbol Disaster Relief 11X0039	Total budgetary resources 600,641,000
	Amount proposed for rescission $ 8,000,000
OMB identification code: 11-0039-0-1-453	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other _____
Type of account or fund: ☐ Annual ☐ Multiple-year: _____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other _____

Justification: The Disaster Relief Act of 1974 (P.L. 93-288) authorizes a comprehensive program of disaster relief, response, and recovery. Supplemental assistance is provided to individuals and State and local governments in the event of a Presidentially-declared emergency or disaster.

Several cost-saving measures will be applied to tighten the administration of this program. These include:

-- Placing Federal financial contributions on a 75% Federal/25% State-local basis as a way of insuring that Federal public assistance be supplemental in nature.

-- Placing the administration of the temporary housing program with the States instead of the Federal Government.

-- Eliminating the present year-long period during which the Federal Government provides rent-free temporary housing.

-- Tightening disaster declaration criteria.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effect: These actions will contribute to a more efficient, cost-effective method of responding to disasters. They will not affect the provision of essential disaster relief activities.

Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The funds proposed for rescission were provided for the African Development Foundation as stipulated in Section 101b of P.L. 96-536. The Administration proposes that the Foundation not be funded, because the types of programs it would support will be carried out by the Agency for International Development without creating a new government entity.

This rescission proposal is a component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effects: The African Development Foundation board will not be appointed and the Foundation will not begin operation.

Outlay Effect: (in millions of dollars for African Development Foundation)

Of the funds provided for "Inter-American Foundation" for fiscal year 1981 in P.L. 96-536, $138,000 are rescinded.

Rescission Proposal No: RSI-44

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Agriculture Bureau: Agricultural Stabilization and Conservation Service	New budget authority (P.L. 96-528) $ 1,700,000 Other budgetary resources Total budgetary resources 1,700,000
Appropriation title & symbol Dairy and Beekeeper Indemnity Programs 1213314	Amount proposed for rescission $ 1,500,000
OMB identification code: 12-3314-0-1-351 Grant program ☐ Yes ☒ No	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This rescission proposal is for beekeeper indemnity payments and is part of the Administration's effort to reduce Federal spending.

This discretionary program provides payments to beekeepers who suffer losses of honey bees as a result of the use of insecticides near or adjacent to property on which the beehives of such beekeepers are located. Payments have been made to cover such losses incurred each year since 1967.

The program is difficult to administer in a way that is fair to both the intended beneficiaries and to taxpayers because:

-- Recording and monitoring the movement of colonies is difficult because of the necessity of moving bees from one location to another either to provide pollination services or to escape pesticide contamination.

-- Hard data on specific bee kills in the field is extremely difficult to develop, and scientific accuracy in determining the exact cause of bee deaths through a testing protocc is generally difficult.

-- Available tests for determining pesticide residues in dead bees are expensive to run and many times inconclusive.

-- Continuation of the program has not been demonstrated as necessary to a viable beekeeping industry. However, in areas of high risk of pesticide contamination, upward adjustments of pollination fees would probably be necessary in the absence of a program.

Estimated Effects: This rescission proposal will eliminate indemnity payments to beekeepers in FY 1981.

Outlay Effect: (in millions of dollars)

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Agriculture	New budget authority (P.L. 96-528) $ 34,000,000
Bureau. Rural Electrification Administration	Other budgetary resources
Appropriation title & symbol	Total budgetary resources 34,000,000
Rural Communication Development Fund 12X4142	Amount proposed for rescission $ 16,341,000
OMB identification code: 12-4142-0-3-452	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☐ Appropriation ☐ Contract authority ☒ Other Authority to Borrow

Justification: This fund is used to make or guarantee loans for community antenna television services or facilities. The Administration believes that it is more appropriate for the private sector to fund this activity. This rescission proposal is part of the Administration's effort to combat inflation. It has been determined that this reduction can be made without adversely affecting human health and safety or other critical needs. Also, it is believed that sufficient capital will be available from the private investors to fund this activity.

Estimated Effects: The proposed rescission would reduce the amount of insrued Community Antenna Television Facility loans from $31.4 million to $15.1 million.

Outlay Effect: (in millions of dollars)

OMB identification code: 12-2068-0-1-452	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other ____
Type of account or fund: ☒ Annual ☐ Multiple-year ____ (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: Under this program, grants are made to public bodies or such other agencies as the Secretary may select to prepare comprehensive plans for rural development.

The proposed rescission is part of the Administration's effort to reduce the inflationary impact of Federal spending on the economy. It has been determined that this program is of low priority and reductions can be made without adversely affecting human health and safety or other critical needs and that the benefits provided must be foregone in order to combat the high rate of inflation existing today. Furthermore, some funding for this activity may be obtained through other Federal programs such as HUD's Community Development Block Grant program.

Estimated Effects: The proposed rescission would reduce the number of grants estimated to be made in 1981 to 80 or 53 less than indicated in the January Budget.

Estimated Effects: (in millions of dollars)

Rescission Proposal No: R81-47

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Agriculture	New budget authority (P.L. 96-528) $ 3,500,000
Bureau Farmers Home Administration	Other budgetary resources 3,500,000
Appropriation title & symbol — Rural Community Fire Protection Grants 1212067	Total budgetary resources
	Amount proposed for rescission $ 1,500,000
OMB identification code: 12-2067-0-1-452	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification:

The Rural Community Fire Protection Grant program provides fire-fighting equipment and funds for organizing and training personnel in rural communities. Adequate credit assistance to provide equipment is available at reasonable interest rates and terms through the Community Facility Loan Program under the Rural Development Insurance Fund. Surplus government equipmen which can be used for fire fighting is also available from the Forest Service. This rescissio proposal is part of the Administration's effort to combat inflation. It has been determined that this reduction can be made without adversely affecting human health and safety or other critical needs.

Estimated Effects: The proposed rescission would reduce the number of grants to be made in 1981. Adequate credit assistance to provide equipment is available through the Community Facility Loan Program under the Rural Development Insurance Fund.

Outlay Effect: (in millions of dollars)

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Agriculture	New budget authority (P.L. 96-528) $ 1,500,000
Bureau Farmers Home Administration	Other budgetary resources ---
Appropriation title & symbol	Total budgetary resources 1,500,000
Rural Housing Supervisory Assistance Grants	Amount proposed for rescission $ 500,000
1212062	
OMB identification code: 12-2062-0-1-371	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification:
This program provides grants to local groups which aid low income families in obtaining assistance under the various FmHA housing programs. These groups also provide counseling to such families after they occupy FmHA assisted housing. Reduced FmHA lending workload under the revised 1982 budget should enable FmHA county office staff to perform these functions at equivalent levels to that provided under this program.

Estimated Effects: The proposed rescission would reduce the number of grants estimated to be made in 1981 to 11 or 6 less than indicated in the January Budget.

Outlay Effect: (in millions of dollars)

Rescission Proposal No: R81-49

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Commerce	New budget authority (P.L. 96-536) $624,650,000
Bureau Economic Development Administration	Other budgetary resources 6,900,000
Appropriation title & symbol: Economic Development Assistance Programs 1312050	Total budgetary resources 631,550,000
	Amount proposed for rescission $342,350,000
CMB identification code: 13-2050-0-1-452	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program ☒ Yes ☐ No	
Type of account or fund: ☒ Annual ☐ Multiple-year _____ (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The objectives of the Economic Development Administration (EDA) are to reduce substantial and persistent unemployment in economically distressed areas and to deal with problems of economic adjustment. Aid provided includes grants, loans and loan guarantees.

There is no convincing evidence that these economic development programs have been effective in creating new jobs or capital investment, or are actually needed to promote local or regional economic development. Economic expansion and job creation in distressed areas will be stimulated through the Administration's general tax, fiscal and regulatory reduction measures, and more flexible community development support assistance. Development assistance to rural areas will be provided by the Farmers Home Administration.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens. FY 1981 funding available for Trade Adjustment Assistance and loan guarantee payments will not be proposed for rescission.

Estimated Effect: The EDA programs will be curtailed in an orderly fashion. No projects which have been approved to date will be cancelled. In addition, EDA will maintain sufficient funding authority to cover costs of collateral protection and to provide coverage for possible defaults on loan guarantees. EDA's current funding from direct appropriations for FY 1981 is $624.6 million. The proposed revisions would reduce the FY 1981 funding level to $282.3 million, which includes funds for Trade Adjustment Assistance, care and preservation of collateral, and defaults on guarantees, and would reduc the FY 1981 loan guarantee authority to $163 million.

This reduction will eliminate the rest of the eligible projects that would have been funded this year. The effect on job losses will be minimal in 1981 and will be more than offset in 1982 and beyond once the President's overall economic program is in effect.

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Commerce	New budget authority (P.L. 96-536) $ 43,838.00
Bureau: Regional Development Program	Other budgetary resources 12,554.75
Appropriation title & symbol: Regional Development Programs 13X2100	Total budgetary resources 56,392.75
	Amount proposed for rescission $ 21,000,00
OMB identification code: 13-2100-0-1-452	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The Title V Regional Commissions' primary mission is to assist regions in promoting and managing growth through planning, research, technical assistance, administration programs, and direct and supplemental funding of Federal grant-in-aid programs.

The appropriations remaining for the second half of 1981 are proposed for rescission becau Federal involvement is not required in general purpose, multi-state coordinating bodies. There are other means that States have for working together on mutual concerns and the Regional Commissions are, in fact, not advancing regional objectives.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effect: Upon approval of this proposed rescission, no new projects will be funded, all staff except those needed to process ongoing projects will be released, and the eight Regional Development Commissions and the Office of Regional Development will be closed no later than September 30,1981. Funds will be reprogrammed among the Commissions in order to accommodate the rescission and to insure that funds will be available to pay termination costs.

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Commerce	New budget authority (P.L. ____): $ ____
Bureau: National Oceanic and Atmospheric Administration	Other budgetary resources: 50,411,741
Appropriation title & symbol: Coastal Energy Impact Fund 13x4315	Total budgetary resources: 50,411,741
	Amount proposed for rescission: $ 40,000,000
OMB identification code: 13-4315-0-3-452	Legal authority (in addition to sec. 1012): ☒ Antideficiency Act ☐ Other ____
Grant program: ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions.

This program provides for Federal loan assistance to States and localities for the costs of planning for and meeting energy development impacts and front-end financing of public facilities. The local impacts from oil and gas development have proven to be far less than originally anticipated and well within the capability of States and localities to handle.

Estimated Effect: The rescission of these funds would reduce Federal spending for FY 1981 and 1982, without hampering the carrying out of NOAA's overall mission. No additional projects would receive Federal loan assistance from this program. The anticipated energy impacts are not that significant in eligible areas, and States/localities should be able to absorb them.

Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The Cooperative Generic Technology Centers (COGENT's), the major program administered by the Department of Commerce's Office of Productivity, Technology, and Innovation (OPTI) have as their purpose under the Stevenson-Wydler Technology Innovation Act of 1980 (P.L. 96-480) the development and demonstration of new technologies with generic commercial applications as a means of enhancing public and private sector productivity.

Appropriations for 1981 are proposed for rescission because Federal involvement in COGENT's is not required as a means for enhancing productivity. The rate of increase in productivity will be stimulated through general tax, fiscal and regulatory reduction measures included in the President's Economic Recovery Program.

This rescission is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effects: Upon approval of this rescission, the three planned COGENT's would not be funded. OPTI would be phased out in an orderly manner. Some generic technology development may be delayed in specific areas, but the Administration's economic program will encourage private sector investment in the more promising technology development areas.

Rescission Proposal No: R81-55

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Commerce Bureau: National Telecommunications and Information Administration	New budget authority (P.L. 96-536) $ 17,409,000 Other budgetary resources 2,652,000 Total budgetary resources 20,052,000
Appropriation title & symbol Salaries and Expenses 13x0550	Amount proposed for rescission $ 313,000
OMB identification code: 13-0550-0-1-376 Grant program ☐ Yes ☒ No	Legal authority (in addition to sec. 1012): ☒ Antideficiency Act ☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☐ Appropriation ☐ Contract authority ☐ Other

Justification- This rescission proposal is an integral part of President Reagan's comprehensive economic package designed to reduce the tax burden on the American people by reducing and eliminating low priority programs. This rescission reflects decreases in the following areas considered, by the President, to fall under this low priority category: Public Telecommunications Facilities Program (administrative costs), $100,000; Satellite Applications, $15,000; Travel and transportation of persons, $55,000; Equipment purchases and rentals, $86,000; Consultant expenses, $56,000 and other personnel costs, $1,000.

Estimated Effects- The administration of Public Telecommunications Facilities grants would be substantially reduced (elimination of this program has been proposed in FY1981). This rescission reflects the lower level of funding required to effectively administer grants to projects already approved or under construction. In the Satellite Applications program, work performed on both the international and technical support missions assigned under the Civil Space Policy Presidential Directive (PD-42) would be phased out in FY1981. Encouragement of U.S. private industry and professional organizations to pursue these initiatives has already begun and will continue in FY1981 and thereafter.

Rescission Proposal No: R81-57

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Education	New budget authority (P.L. 96-536) $292,008,000
Bureau Office of Elementary & Secondary Education	Other budgetary resources
Appropriation title & symbol Equal Educational Opportunities 9110103	Total budgetary resources 292,008,000 Amount proposed for rescission $73,253,000
OMB identification code: 91-0103-1-1-501	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program ☒ Yes ☐ No	
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification:

Programs funded under the Equal Educational Opportunities appropriation include Emergency School Aid, Training and Advisory Services, and Women's Educational Equity. The purpose of the Emergency School Aid and Training and Advisory Services programs is to aid school districts engaged in desegregation in the areas of race, sex, or national origin. The Women's Educational Equity program supports development, demonstration, and dissemination projects that promote educational equity for women and girls at all levels of education.

As part of the President's overall budget reform plan, funding for all programs and agencies will be reduced on an equitable basis. The purpose of the rescission proposed here is to reduce government spending and thereby control one source of inflationary pressure.

Estimated Effect:

Emergency School Aid Act: The rescission proposal will decrease average awards for new and continuation proposals under Basic Grants (-$26,950,000), and will reduce the number of new awards for Special Programs and Projects (-$20,896,000), Magnet Schools, Neutral Sites, and Pairing (-$7,500,000), Grants to Non-Profit Organizations (-$1,875,000), Educational Television and Radio(-$1,613,000), and Evaluation (-$500,000).

Training and Advisory Services: The rescission proposal will decrease average awards for desegregation assistance centers, training institutes, and State and local educational agency projects (-$11,419,000).

Women's Educational Equity: The rescission proposal will reduce the number of new awards for general and small grants and for contracts (-$2,500,000).

Outlay Effect: (In millions of dollars)

Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☒ Annual 9/30/81 (593,627,268) ☒ Multiple-year 9/30/82 (947,000,000) (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This program provides funds to assure a free appropriate public education for handicapped children. In addition, funds are provided for deaf-blind centers, special projects for early childhood education and the severely handicapped, media resource services as well as for regional, vocational adult and postsecondary programs. Funds are also included for innovation and development, and training of special education personnel.

As part of the President's overall economic program to reduce federal spending, funding for these programs would be reduced. Obligated and unobligated balances currently available will minimize the impact of the proposed reduction.

Estimated Effect:

State Grant Program

A rescission is requested of $230,500,000 from the $922,000,000 projected to be available for the Handicapped State Grant program funded under Part B of the Education of the Handicapped Act. The average Federal share per child will be $180 compared to an average Federal share of $239 under the amounts presently available.

Preschool Incentive Grants

A rescission is requested of $6,250,000 from the $25,000,000 projected to be available for Preschool Incentive Grants. The Federal contribution will be $76 per child under the revised estimate as compared to a Federal contribution of $102 per child under the amounts presently projected to be available.

Severely Handicapped Projects

A rescission is requested of $1,250,000 from the $5,000,000 available. It is estimate. that, in addition to supporting $1,750,000 in continuation projects, $2,000,000 would be available for new Severely Handicapped Projects.

Early Childhood Education

A rescission is requested of $5,000,000 from the $20,000,000 available. It is estimated that, in addition to supporting $10,000,000 in continuation projects, an additional $5,000,000 would be available for new projects.

Media Services and Captioned Films

A rescission is requested of $2,000,000 from the $19,000,000 projected to be available for Media Services and Captioned Films. It is estimated that no new demonstration and development projects would be funded.

Regional Resource Centers

A rescission is requested of $2,438,000 from the $9,750,000 projected to be available for Regional Resource Centers. It is estimated that continuation projects will be reduced by this amount in 1981.

Regional Vocational, Adult, and Postsecondary Programs

A rescission of $1,000,000 is requested from the $4,000,000 available for Regional Vocational, Adult and Postsecondary programs. It is estimated that, in additional to supporting $1,800,000 in continuation projects for vocational technical schools for the deaf, $1,200,000 would be available for new demonstration projects.

Innovation and Development

A rescission of $5,000,000 is requested from the $20,000,000 available for Innovation and Development. Remaining funds would provide $12,250,000 for new and continuation projects for research and development, as well as student research. Model demonstration projects and technical assistance would be funded at a level of $2,750,000.

Special Education Personnel Development

A rescission of $14,500,000 is requested from the $58,000,000 available for Special Education Personnel Development. It is estimated that funding of continuation projects will be reduced by $1,000,000 to $43,500,000 and no new projects would be funded.

Rescission Proposal No: R81-59

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Education	New budget authority (P.L. 96-536) $ 965,875,000
Bureau: Office of Special Education and Rehabilitative Services	Other budgetary resources 1,795,170
Appropriation title & symbol: Rehabilitation Services and Handicapped Research 911030[illegible] 91X0301	Total budgetary resources 967,670,170
	Amount proposed for rescission $ 22,323,000
OMB identification code: 91-0301-0-1-506	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This program supports a wide variety of services aimed at maximizing the potential for employment and independent living of handicapped individuals.

Under Rehabilitation Services, basic State grants provide funding to State vocational rehabilitation agencies. This proposal does not affect basic State grants. Also funded are service projects, independent living projects, and professional training.

The National Institute of Handicapped Research (NIHR) was established to help promote the coordination of research with respect to handicapped persons, in collaboration with other Federal agencies. The National Council on the Handicapped establishes general policies for NIHR and reviews the operation of the Rehabilitation Service Administration and NIHR.

As part of the President's overall economic program to reduce Federal spending rescissions are proposed for most of the lower priority discretionary activities included in this account.

Estimated Effect:

Service Projects

A rescission of $6,572,000 is requested from the $32,860,000 available for Service Projects. Priority will be placed on continuing projects initiated in prior years.

Independent Living

A rescission of $3,600,000 is requested from the $18,000,000 available for Independent Living Centers. It is estimated that this will allow for the continuation of 59 existing projects.

Training

A rescission of $5,100,000 is requested from the $25,500,000 available for training. The revised estimate will allow $14,728,000 to complete the funding for the 1980-1981 academic year, and $5,672,000 to provide initial funding for academic year 1981-1982.

National Institute of Handicapped Research

A rescission of $7,000,000 is requested from the $35,000,000 available for the National Institute of Handicapped Research. This level of funding will provide for the continuation of ongoing projects.

National Council on the Handicapped

A rescission of $51,000 is requested from the $256,000 available for the National Council on the Handicapped. The reduction will not affect the ability of the Council to properly function.

Outlay Effect: (in millions of dollars)

Rehabilitation Services and Handicapped Research

Of the funds provided for "Rehabilitation Services and Handicapped Research" for fiscal year 1981 in P.L. 96-536, $22,323,000 are rescinded: Provided, That notwithstanding other provisions of law, the appropriation for section 112 of the Rehabilitation Act of 1973 shall be $2,800,000.

Rescission Proposal No: R81-60

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Education	New budget authority $ 14,271,000
Bureau Office of Postsecondary Education	(P.L. 96-536)
Appropriation title & symbol	Other budgetary resources 356,935,713
College Housing Loans	Permanent Indefinite Accounts 279,000
91X4250	Total budgetary resources 371,485,713
OMB identification code: 91-4250-0-3-502	Amount proposed for rescission $ 14,550,000
Grant program ☐ Yes ☒ No	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification:

This appropriation is used to pay insufficiencies resulting from the sale of participation certificates. The insufficiency is the difference between the interest revenue received on the loans to institutions and the cost of interest paid on the participation certificate. It is proposed that budget authority no longer be used to pay for the insufficiencies but rather the expense be paid for out of the unobligated balance of the College Housing Loan revolving account.

Estimated Effect:

This action will eliminate the need for budget authority for this program. If new loan activity is authorized for the program, the revolving funds available for lending will decrease by an amount identical to the formerly required appropriation. This will reduce program activity by an estimated 10-15 projects.

Outlay Effect: (In millions of dollars)

College Housing Loans

Of the funds appropriated for participation sales insufficiencies for fiscal year 1981 in Public Law 96-536, $14,550,000 are rescinded. Payments of insufficiencies in fiscal year 1981 as may be required by the Government National Mortgage Association, as trustee, on account of outstanding beneficial interests or participations issued pursuant to section 302(c) of the Federal National Mortgage Association Charter Act, as amended (12 U.S.C. 1717), shall be made from the fund established pursuant to title IV of the Housing Act of 1950, as amended (12 U.S.C. 1749), using loan repayments and other income available during fiscal year 1981. The excess of total loan repayments and other income available during fiscal year 1981, less operating costs including costs for participation insufficiencies, shall be used to reduce the balance of direct loans outstanding from the Department of the Treasury.

Rescission Proposal No: R81-61

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Education	New budget authority (P.L. 96-536) $263,655,000
Bureau: Office of Educational Research and Improvement	Other budgetary resources 898,214
Appropriation title & symbol: Libraries and Learning Resources 9110104,911/20104 and 910/10104	Total budgetary resources 264,553,214
	Amount proposed for rescission $42,750,000
OMB identification code: 91-0104-0-1-503	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program: ☒ Yes ☐ No	☐ Other
Type of account or fund: ☒ Annual; ☒ Multiple-year 9/30/81 ($898,214) 9/30/82 ($171,000,000) (expiration date); ☐ No-year	Type of budget authority: ☒ Appropriation; ☐ Contract authority; ☐ Other

Justification: The Administration is proposing to include the School Libraries and Instructio Resources program as part of the Education State Block Grant program in 1982. This rescission proposes to reduce the 1981 level for this program by $42.8 million. This reduction is proposed as a part of the Administration's overall effort to reduce federal spending.

Estimated Effect: The School Libraries and Instructional Resources program would be continued in its present form, but with a reduced funding level of $128,250,000. The revised estimate would provide for a per-pupil expenditure of $2.94, compared with the previous estimate of $3.92.

Outlay Effect: (in millions of dollars)

Of the funds provided for "Libraries and Learning Resources" for fiscal year 1981 in P.L. 96-536, $42,750,000 of the amount provided for title IV, part B of the Elementary and Secondary Education Act are rescinded, and the remaining funds provided for fiscal year 1981 may be expended without regard to the provisions of section 402(a)(2)(A)(i) of title IV, part A of the Elementary and Secondary Education Act.

Rescission Proposal No: R81-62

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Education	New budget authority (P.L. 96-514): $12,857,000
Bureau: Office of Educational Research and Improvement	Other budgetary resources: --
Appropriation title & symbol: Institute of Museum Services 9110801	Total budgetary resources: 12,857,000
	Amount proposed for rescission: $12,357,000
OMB identification code: 91-0801-0-1-503	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program: ☒ Yes ☐ No	
Type of account or fund: ☒ Annual ☐ Multiple-year ____ (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification. The Institute of Museum Services provides grants to aquaria zoos, and botanical gardens to maintain, increase, and improve their services. Most grants are for general operating support, although some provide funds for emergency assistance and innovative projects.

This rescission proposal is a part of the Administration's effort to reduce Federal spending for low priority programs and activities.

Estimated Effects. The rescission would eliminate almost all funding for grants to museums. The remaining $500,000 in the program will allow the staff of the Institute to begin the orderly phase-out of the program. The termination of the Institute is part of an overall Administration effort to reduce Federal involvement in cultural activities.

Outlay Effect: (in millions of dollars)

Of the funds appropriated under this head in Public Law 96-514 for fiscal year 1981, $12,357,000 of the amount appropriated for carrying out title II of the Arts, Humanities, and Cultural Affairs Act of 1976 are rescinded.

Recission Proposal No: R81-63

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Education	New budget authority (P.L. 96-536) $166,973,000
Bureau Office of Educational Research & Improvement	Other budgetary resources
Appropriation title & symbol	Total budgetary resources 166,973,000
School improvement programs 9110502	Amount proposed for rescission $36,606,000
OMB identification code: 91-0502-0-1-501	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

This appropriation consists of a large number of relatively small discretionary grant programs. Many of these programs overlap services or offer "micro categorical" grants. A rescission of $36,606,000 is proposed in 1981 covering 12 programs.

Estimated Effect: Since this rescission covers a large number of programs at relatively low dollar reduction levels, the general effect of the rescission is for most programs either to (1) reduce the number of awards made in individual program categories, or (2) to fund the same number of projects at lower dollar levels.

Outlay Effect: (in millions of dollars)

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Energy	New budget authority (P.L. 96-514) $423,300,000
Bureau Energy Programs	Other budgetary resources [illegible]
Appropriation title & symbol: Fossil Energy Construction 89X0212	Total budgetary resources [illegible]
	Amount proposed for rescission $246,900,000
OMB identification code: 39-32-0-1-276	Legal authority (in addition to sec. 1012): ☒ Antideficiency Act
Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification:

SRC I Demonstration Plant (78-2-d). A rescission is proposed for this project in FY 1981 totalling $197,300,000. The nature of the demonstration and the technical risks are such that it could qualify for support from the Synthetic Fuels Corporation (SFC). An orderly closeout is possible by using the design work to date to provide a definitive mechanical configuration. This along with a definitive cost estimate to be completed by July 1981 will be made available to industry to pursue commercialization of this technology. It would also be sufficient to merit consideration for financial assistance by the SFC.

High Btu Pipeline Gas Demonstration Plants (76-1-b and 77-1-b). Projects 76-1-b and 77-1-b are proposed for rescission in FY 1981 for the amounts of $2,000,000 and $42,000,000 respectively. An evaluation of the competitive ICGG and CONOCO design efforts was scheduled in FY 1981. The nature of these demonstrations and the technical risks are such that both projects may qualify for financial assistance under the provisions of the SFC.

Low/Medium-Btu Demonstration Plant (76-1-c). Project 76-1-c is proposed for rescission in FY 1981 in the amount of $45,400,000. It is the Administration's position that industry should develop and commercialize near term technologies to convert coal to synthetic fuels. By capturing the design work to date and finalizing the Environmental Impact Statement by use of prior year unobligated balances, industry would be able to continue the project. The technical risks and size of the Memphis Project may qualify it for financial assistance under the provisions of the SFC.

Estimated Effects: The Department is redirecting its research and development (R&D) funds to primarily long range and high risk activity. Near term R&D will continue only where the government has a unique resource or facility which is necessary to the development and commercialization of first-of-a-kind technologies by the private sector. Therefore, government support for SRC-I, the two high Btu pipeline projects and Memphis will be withdrawn. These plants may qualify as candidates to be supported by the SFC and will be recommended to the SFC by the Department.

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Energy	New budget authority (P.L. 96-514) $ 226,062,000
Bureau: Energy Programs	Other budgetary resources
Appropriation title & symbol: Energy Production, Demonstration, and Distribution 89X0219	Total budgetary resources 226,062,000
	Amount proposed for rescission $ 12,649,000
OMB identification code: 89-0219-0-1-271	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification

This rescission is proposed to phase down near term energy supply and commercialization activities. These activities cover a broad range of energy programs primarily aimed at subsidizing adoption and studying commercialization of energy technologies. Many of these activities were based upon a desire to assist the private sector in adopting new technologies in the synfuels, oil and gas and coal combustion areas. These relatively small programs have not been effective primarily because the economic incentives to adopt newer technologies were not sufficient. With the creation of the SFC and the decontrol of energy prices it is expected that private market forces will be sufficient to overcome commercialization obstacles without the need for continued Federal assistance in these areas.

DOE's Federal leasing activities would be phased down in FY 1981 except for the establishment of production goals pending the proposed consolidation of these activities to the Department of Interior. There will no longer be a need for continued DOE activity in this area in the future.

The Solar rescission for FY 1981 is predicated on the new healthier environment for commercial solar technologies, brought about by the establishment of sound energy pricing policies, primarily through the decontrol of crude oil prices, and extensive solar tax credits. The inequities and inefficiencies built into previous energy pricing policies have prevented solar energy from achieving its true potential. It is now possible to shift the focus of the Department's solar activities away from costly near-term development, demonstration, and commercialization efforts into longer-range research and development projects that are too risky for private firms to undertake. Therefore, a rescission is proposed for solar market development efforts since the private sector can pursue these activities on their own in response to market forces.

Estimated Effects:

The estimated effects of this rescission are:

- Reduction in Coal resource of $.5 million for monitoring projects funded under the Alternative Fuels Act because of the planned transfer of these responsibilities to the Synthetic Fuels Corporation.
- Reduction of Oil and Gas resources of $.9 million for municipal grants for demonstrations of unconventional gas sources.
- Terminate the coal loan guarantee reserve program which was established in FY 1978 and to date has not been utilized ($6.0 million).
- Terminate initiation of oil shale production goals ($120,000) given the creation of the SFC.
- Terminate oil shale and tar sands alternative bidding systems studies ($90,000). These activities will be pursued by the DOI.
- Terminate new onshore oil and gas leasing initiatives given the Administration's policy to consolidate all Federal leasing activities in DOI ($190,000).
- Reduction of solar market analysis activities ($5.5 million).

Rescission Proposal No: R81-66

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Energy	New budget authority (P.L. 96-514) $ 104,117,000
Bureau Energy Programs	Other budgetary resources
Appropriation title & symbol	Total budgetary resources 104,117,000
Energy Information Administration 8910216	Amount proposed for rescission $ 13,443,000
OMB identification code: 89-0216-0-1-276	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The proposed rescission would reduce funds presently available to the Energy Information Administration. State level energy forecasts required by the Emergency Energy Conservation Act and conservation activities will be curtailed. Model updates, documentatio verification, quick response analytical reports, schedules analyses reports, international analysis, long term forecasts and quarterly reports on policy issues will be scaled down. The OGIS will scale down collection of information at the field level of detail. The Emergency Energy Management Information System function will be sharply curtailed. The curtailment of these activities is consistent with the Administration's goal to rely primari on the private sector to meet energy needs.

Estimated Effects: The proposed rescission will require the scaling down of analytical, data collecting systems, development and validation activities currently underway.

Rescission Proposal No: 281-47

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Energy	New budget authority (P.L. 96-514): ~~$176,867,000~~
Bureau: Energy Programs	Other budgetary resources:
Appropriation title & symbol: Economic Regulation 8910217	Total budgetary resources: 176,867,000
	Amount proposed for rescission: $ 33,155,000
OMB identification code: 89-0217-0-1-270	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☒ Annual ☐ Multiple-year _____ (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification

The proposed rescission of $33,155,000 represents the net effect of savings realized by a reduction in funding requirements for gasoline rationing less absorption of the costs of the FY 1981 pay raise by the agency. The detail of these savings is as follows:

Savings from Gasoline Rationing Appropriation	$39,167,000
Less: Agency Absorption of Pay Raise Costs for Other Programs 1/	6,012,000
Net Rescission	$33,155,000

As shown below, all but $3.5 million of the amounts in the January budget for gasoline rationing are proposed for rescission. 2/ ($ in millions)

	January Budget	Changes	Proposed Budget
Appropriation	$42.7	$-39.2	$3.5
Proposed Supplemental	72.0	-72.0	-0-
Rationing Portion of Pay Supplemental	0.3	-0.3	-0-
Total	115.0	-111.5	3.5

1/ The total pay supplemental for this account was $6,312,000. Of this amount, $300,000 for gasoline rationing is being deleted by other action and $6,012,000 is being absorbed by the agency.

2/ An additional $7,433,000 was made available by Congressional direction from the Energy Policy and Conservation (EPCA) State grants appropriation. $2,108,000 of this amount has been awarded. EPCA funds are not included in this account or the rescission figure.

The $3.5 million remainder reflects cost incurred through February 1981, and estimated termination costs.

The program under development is being terminated because it is not expected to be a viable response to an energy emergency and because there are more efficient ways of dealing with energy emergencies. Work completed to date has shown that the program's effectiveness would be severely limited by the program's complexity and vulnerability to fraud. The program would also have resulted in an extraordinary regulatory burden imposed on gasoline consumers and suppliers. In lieu of this cumbersome coupon rationing system, the Department plans to pursue alternate programs relying on market forces.

Effects of the Rescission:

The direct effect of the rescission on budget outlays is shown below. In addition, termination of the rationing program reduces outlays over $78 million in FY 1982 and $42 million per year from FY 1983 through 1986.

Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The purpose of the program is to accelerate the commercial development and utilization of geothermal energy by providing loan guarantee commitments. The guarantee reserve fund was established to provide for a fund in the event of loan defaults. Also, a fund for interest differential payments for loans to municipalities is provided. The progr: has developed sufficient interest in the private sector to the point that private capital will be available to continue development of hydrothermal/geothermal resources. This will then allow market forces to determine the appropriate allocation of financial resources. Therefore, this rescission of $22,066,000 is proposed to eliminate the reserve fund. The interest differential reserve would be continued.

Estimated Effects: The guarantee reserve fund does not contain sufficient resources to cover all possible defaults. If an existing loan guarantee defaults, a budget supplemental will be requested.

Outlay Effects: (In millions of dollars)

No outlays are associated with the guarantee reserve fund.

Rescission Proposal No: R81-69

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Energy	New budget authority (P.L. 96-304) $ 3,310,000,000
Bureau: Energy Programs	Other budgetary resources 2,208,000,000
Appropriation title & symbol: Alternative Fuels Production 89X5180	Total budgetary resources 5,518,000,000
	Amount proposed for rescission $ 300,000,000
OMB identification code: 89-5180-0-2-271	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This rescission is proposed for $300 million in the Alternative Fuels program to phase out funding for additional feasibility studies and cooperative agreements. The Federal Governments has already obligated $200 million for such studies. Committing an additional $300 million will do little to expand synfuel production capacity and will not be cost effective. Since these funds would be used primarily to subsidize private sector studies of the viability of potential synfuel projects, rescinding these funds will effect only those projects where there is not sufficient private sector interest or funds to proceed with such evaluations. Furthermore, because the cost of such studies is a minor percentage of the total costs of the typical project and because, for synfuels, funds will be available from the Synthetic Fuels Corporation to finance plant construction, there is a substantial incentive for private firms to continue with their project evaluations.

Estimated Effects: This rescission proposal will eliminate $270.0 million in funding for additional feasibility studies and cooperative agreement awards and $30.0 million for synthetic fuel facilities and direct coal combustion projects. No effect on the economic viability of these technologies is expected and the total number of projects ultimately funded by the SFC will not be reduced.

Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☐ Annual	Type of budget authority: ☒ Appropriation
☐ Multiple-year (expiration date)	☐ Contract authority
☒ No-year	☐ Other

Justification: This program funds energy conservation retrofit projects, energy conservation surveys of DOE facilities, the acquisition and construction of real property and capital equipment and other related and administrative activities.

In accordance with President Reagan's comprehensive economic plan to reduce Government spending, $11.5 million is proposed for rescission for plant and capital equipment. The funding levels of lower priority projects are being reduced.

Estimated Effect: This rescission will defer one fuel conversion project start until 1982 and reduce the funding levels of several other energy conversion retrofit projects in the In-House Energy Management Program. The rescission complements programmatic spending reductions in other parts of the agency by reducing the number of advanced Architect-Engineering (A-E) designs in the Plant Engineering and Design program.

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Health and Human Services	New budget authority (P.L. 96-514) $ 84,469,000
Bureau Health Services Administration	Other budgetary resources 22,459,629
Appropriation title & symbol Indian Health Facilities 75X0391	Total budgetary resources 106,928,629
	Amount proposed for rescission $ 8,871,000
OMB identification code: 75-0391-0-1-551	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The Indian Health Facilities appropriation has as its primary purpose the construction of health facilities, the provision of sanitation facilities for Indian homes, and the construction of personnel quarters for employees of the health facilities. As part of an overall effort to reduce the level of Federal spending, a rescission is proposed to reduce new FY 1981 budget authority to the level originally requested for FY 1981.

Estimated Effects:

Hospitals--New and Replacement. A rescission of $3.6 million is proposed for the New and Replacement program. The funds appropriated for this activity would have been used to plan and design replacement hospitals at Crownpoint, New Mexico, Kanakanak, Alaska, and Browning, Montana. As a result of the reduction these projects will not be undertaken. The remaining $25,358,000 will fund second stage costs of construction for the replacement hospital at Tahlequah, Oklahoma, completion of the Chinle, Arizona hospital, and major modernization of hospitals at Sells, Arizona and Winnebago, Nebraska.

Outpatient Care Facilities. A rescission of $4.5 million is proposed for the Outpatient Care Facilities activity. The funds appropriated for this activity would have been used to complete the first phase of construction of new health centers at Anadarko, Oklahoma, Tsaile, Arizona and Huerfano, New Mexico. As a result of the reduction these projects will not be undertaken.

Personnel Quarters. A rescission of $0.8 million is proposed for this activity. The funds appropriated for this activity would have been used to construct 12 units of personnel quarters at Lodge Grass, Montana. These units would have been used to house the personnel needed to operate the health clinic under construction at this location. As a result of the reduction, this project will not be undertaken.

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Health and Human Services	New budget authority (P.L. 96-536) $ 167,296,0
Bureau: National Institutes of Health	Other budgetary resources 80,0
Appropriation title & symbol: National Institute of Allergy and Infectious Diseases 7510885	Total budgetary resources 167,376,0
	Amount proposed for rescission $ 1,088,0
CFS identification code: 75-0885-0-1-550	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program: ☒ Yes ☐ No	☐ Other _____
Type of account or fund: ☒ Annual ☐ Multiple-year _____ (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other _____

Justification:

The Administration is committed to Federal support of biomedical research activities, but as part of a general effort to achieve economies and reduce lower priority activities, a rescission of $1,088,000 is proposed for this appropriation from the 1981 Continuing Resolution through June 5, 1981. If the Continuing Resolution is extended for the full fiscal year, an additional $2,796,000 will be proposed for rescission.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effects:

Research Training: The Administration is proposing to eliminate the indirect costs and institutional allowances paid under the National Research Service Awards program. This would reduce research training by $588,000.

Research Grants: The number of competing research project grants awarded would be reduced from 235 to 230, a saving of about $500,000, yielding a revised level of $ 73,177,000 for total research project grants under the continuing resolution. The reduction would reflect a decrease of one competing research project in the immunology, allergic and immunologic diseases program and a decrease of four competing projects in microbiology and infectious diseases.

Outlay Effects: (in millions of dollars)

Justification:

The administration is committed to Federal support of biomedical research activities, but as part of a general effort to achieve economies and reduce lower priority activities, a rescission of $18,682,000 is proposed for this appropriation from the 1981 Continuing Resolution through June 5, 1981. If the Continuing Resolution is extended for the full fiscal year, an additional $2,368,000 will be proposed for rescission.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effect:

Research Training: The Administration is proposing to eliminate the indirect costs and institutional allowances paid under the National Research Service Awards program. This would reduce research and training by $15,545,000. Additionally, the proposal would reduce the number of trainees planned under the Continuing Resolution by 292 for a revised level of 3,765 trainees or a reduction of $3,137,000.

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Health and Human Services	New budget authority (P.L. 96-536) $ 1,020,000
Bureau: Alcohol, Drug Abuse, and Mental Health Administration	Other budgetary resources 46,727,231
Appropriation title & symbol: Construction and Renovation, Saint Elizabeths Hospital 75X1312	Total budgetary resources 47,747,261
	Amount proposed for rescission $ 1,020,000
OMB identification code: 75-1312-0-1-550	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification:

This rescission proposal of $1,020,000 is requested because large unobligated balances remain available in this account for high priority construction and renovation at Saint Elizabeths Hospital. An additional $480,000 is planned to be proposed for rescission if additional 1981 funding is provided after the present Continuing Resolution expires on June 5, 1981.

Estimated Effects:

More than $45 million in funds carried over from prior appropriations would be used to support repairs deemed to be most critical for both the proper operation of the hospital and for assuring the health and safety of hospital employees and patients.

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Health and Human Services	New budget authority (P.L. 96-536) $ 127,333,400
Bureau Office of the Assistant Secretary for Health	Other budgetary resources 14,815,000
Appropriation title & symbol	Total budgetary resources 142,148,400
Salaries and Expenses 7511101	Amount proposed for rescission $ 30,724,000
OMB identification code: 75-1101-0-550	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☐ Appropriation ☐ Contract authority ☐ Other

Justification:

As a result of the President's efforts to reduce Federal spending, a rescission is proposed for the low priority activities within the following programs: health services research ($728,000); smoking and health ($933,000); and health promotion ($969,000).

In addition, the HMO program is proposed for phase-out by the end of 1982. This rescission, which includes $28,094,000 for HMO grants, marks the first stage of this phase-out. The HMO concept has been adequately demonstrated through 215 HMOs with over 9 million members located in every major city in the nation. Further assistance for HMO development should come from the private sector--particularly insurance companies and employers with large workforces--who have provided substantial amounts of HMO development capital in recent years. The Federal Government is now facing substantial losses in the HMO loan program in future years due to anticipated loan defaults. The HMOs that the Federal Government funds through this grant program are those least likely to become viable--since they could not obtain funding in private markets--and are most likely to need loan support following their grant cycle, thus aggravating the anticipated bankrupt status of the loan program.

Estimated Effects:

Health services research - $728,000. The proposed rescission will eliminate low priority grant and contract activities.

Health maintenance organizations - $28,094,000. This rescission will eliminate feasibility and planning grants in fiscal year 1981. Only initial development grants will be funded so that current, viable grantees can achieve Federal qualification status.

Health promotion - $969,000. This rescission will reduce funding for low priority health promotion activities. The current program to produce and distribute health promotion films will be eliminated and the National Health Information Clearinghouse will reduce its capacity to respond to public inquiries.

Smoking and health - $933,000. This rescission will eliminate low priority public and technical information activities. The scope of the annual report to Congress will also be reduced.

Outlay Effect: (in millions of dollars)

Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This appropriation provides for payments from Federal funds to the health care trust funds for certain types of benefits and related administrative costs not financed by contributions from workers and employers. As part of the general effort to contain health care costs by stimulating competition in the health care industry, the Administration is proposing to phase out the professional standards review organizations (PSROs). Consistent with this phase-out, a rescission of $8,693,000 is proposed for the Payments to Health Care Trust Funds for PSRO activities.

Estimated Effects: The proposal will reduce reimbursement to the Health Care Trust Funds by $8,693,000. PSRO activity (for which the Trust funds were being reimbursed) is being phased out.

Rescission Proposal No: R81-77

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Health and Human Services Bureau Health Care Financing Administration	New budget authority (P.L. 96-536) $703,034,600 Other budgetary resources 659,723,252 Total budgetary resources 762,715,852
Appropriation title & symbol Program Management 7510511	Amount proposed for rescission $ 6,992,000
OMB identification code: 75-0511-0-1-550	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program ☐ Yes ☒ No	
Type of account or fund: ☒ Annual ☐ Multiple-year _____ (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification:

PSROs. As part of the general effort to contain health care costs by stimulating competition in the health care industry, the Administration is proposing to phase-out the professional standards review organizations (PSROs). This program, which is administered through 185 relatively autonomous PSROs of widely varying effectiveness, regulates health care services for Medicare and Medicaid beneficiaries. The program is planned to be phased out over the 1981-1983 period, consistent with the 2-year Administration timetable to develop and carry out health financing reforms that encourage competition in the health sector. To begin the phase-out, contracts will be renewed with only those PSROs judged most effective in controlling health care costs. To initiate this phase-out (scheduled to begin in April, 1981), $5,992,000 is being proposed for rescission.1/

State certification. Consistent with other proposals to reduce regulatory burdens upon American society, the Administration is revising current policies that call for annual provider surveys for Medicare and Medicaid certification. This reduction is consistent with efforts to reduce Federal expenditures and includes a reduction of $1,560,000 from amounts which otherwise would be transferred from the Medicare trust funds pursuant to P.L. 96-536. 1/

1/ An additional $11,083,000 reduction from amounts which would otherwise be transferred from the health care trust funds is planned to be proposed if additional 1981 funding is provided for State certification ($4,440,000) and PSROs ($6,643,000) after the Present continuing resolution expires on June 5, 1981.

Research. For 1981, the Administration is proposing a rescission of $1,000,000 and a reduction of $3,000,000 from amounts which would otherwise be transferred from the health care trust funds. These reductions are for low priority activities that are not essential to accomplishment of the Administration's goals.

Estimated Effects:

Based on this rescission proposal, 40 PSROs would be phased out beginning April 1, 1981. This would reduce the number of PSROs from 185 to 145 in FY 1981. The reduction in the health care trust funds transfer authorizations for State certification would cause a retargeting of planned annual surveys of all providers to specific problem areas. HCFA research would remain focused on high priority activites to fulfill the Administration's responsibilities for Medicare and Medicaid.

Outlay Effects: (in millions of dollars)

Rescission Proposal No: R81-78

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Health and Human Services	New budget authority (P.L. 96-536) $ 467,000,000
Bureau Social Security Administration	Other budgetary resources ____
Appropriation title & symbol Refugee Assistance 7510473	Total budgetary resources 467,000,000
	Amount proposed for rescission $ 25,100,000 1/
OMB identification code: 75-0473-0-1-609	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other ____
Type of account or fund: ☒ Annual ☐ Multiple-year ____ (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: Funds totalling $18 million for cash payments and medical assistance to Indochinese refugees and voluntary agency grants for Soviet Jewish refugee resettlement are proposed for rescission. This proposal reflects savings realized because actual refugee admissions to the U.S. during the first quarter of FY 1981 were 40% lower than expected.

In addition, a reduction of $5 million is proposed for an earlier phase-out than previously planned of the Cuban program which reimburses States for cash and medical assistance to pre-1978 arrivals. These funds are no longer needed due to the successful economic resettlement of the pre-1978 arrivals and lower State reestimates of anticipated costs.

Reductions totalling $2,100,000 are also proposed for low priority, non-State administered, non-direct social service projects ($2,000,000), and for a reduction of four full-time permanent positions in Federal Administration ($100,000).

Estimated Effects: This rescission proposal will not affect the Refugee Assistance Program due to the lower than anticipated refugee admissions in the first quarter of 1981.

The proposed rescission of grant funds for the Voluntary Agency Program would reduce Federal aid in FY 1981 for Soviet Jewish and other refugees served by the voluntary agencies.

The reduction proposed for the Cuban program will have no effect on the program since the current estimated level of need can be met with the lower 1981 amount.

1/ An additional $24,705,000 for cash and medical assistance and State administration ($4,000,000), Services for Asylum Applicants ($7,000,000), Social Services/non-State programs ($2,000,000), Cuban Program Phasedown ($3,000,000), Voluntary Agency grants ($8,400,000), and Federal Administration ($305,000) are planned to be proposed for rescission if additional 1981 funding is provided for these programs after the present Continuing Resolution expires on June 5, 1981.

The $2,000,000 rescission for Social Services would affect Federal low priority non-direct social services.

Grant program ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☐ Appropriation ☒ Contract authority ☐ Other

Justification:

This account provides budget authority to enter into contracts for the Lower Income Housing Assistance Payments program (Section 8), the Public Housing program and the Public Housing Modernization program. These programs are executed in part through grants to State and local housing authorities.

Budget Authority totalling $5,099,104,150 is proposed for rescission in FY 1981. The rescission has two components: (1) $4,799,104,150 is a reduction in the planned number of additional subsidized housing (Section 8 and public housing) units in 1981 from 254,550 to 210,000 units; (2) $300 million is a reduction in the 1981 Public Housing Modernization program level.

A reduction of 44,550 additional subsidized housing units in 1981 is being taken as part of President Reagan's comprehensive economic plan. As a result of examining the current demand for subsidized housing, the resources available, and HUD's ability to provide housing units given delays in 1981 processing, it has been determined that the 1981 level of subsidized housing should be reduced. A 1981 program level of 210,000 units is now believed to be both realistic and consistent with the goals of this program.

The Public Housing Modernization rescission relates to delays in the start-up of the new Comprehensive Improvement Assistance Program authorized by the Housing and Community Development Act of 1980. Although the 1981 appropriation for Annual Contributions for Assisted Housing calls for $2 billion in budget authority to be set aside for Public Housing Modernization, a more feasible program level is now projected at $1.7 billion in light of the timing considerations involved in getting final regulations issued, staff trained, and funding applications received from Public Housing agencies and approved by HUD.

Estimated Effects:

This rescission action will reduce the number of households to be assisted under the subsidized housing programs by approximately 44,550. The rescission will not affect the over 3 million families already receiving rental assistance in HUD subsidized housing projects. The 210,000 units which will still be provided in 1981 will assist an estimated additional 532,000 persons. There is no estimate available at this time on the number of Public Housing Modernization projects which will not be approved in 1981 as a result of the rescission in Public Housing Modernization funding.

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Housing and Urban Development	New budget authority (P.L. 96-526) $121,250,00
Bureau: Solar Energy and Energy Conservation Bank	Other budgetary resources
Appropriation title & symbol: Assistance for Solar and Conservation Improvements 861/20179	Total budgetary resources 121,250,00
	Amount proposed for rescission $121,000,00
OMB identification code: 86-0179-0-1-272	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☒ Multiple-year September 30, 1982 (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification:

The Reagan Administration does not intend to start-up this new program, which is designed to subsidize investments in energy conservation measures and solar technologies. Instead, existing tax credits and rising energy prices will be relied upon to provide incentives for these types of investments in residences and agricultural and commercial buildings.

Estimated Effects:

Had this program been implemented, it was expected that the 1981 appropriation would have supported loan subsidies or grants to about 75,000 lower income households making energy conservation investments 11,000 households would have received payments to reduce their mortgage costs on purchases of new homes with passive solar design features. These loan subsidies, grants and payments will not be made.

Rescission Proposal No: R81-81

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Housing and Urban Development	New budget authority (P.L. 96-526): $ 33,750,000
Bureau: Community Planning and Development	Other budgetary resources: 1,425,709
Appropriation title & symbol: Planning Assistance 86X0104	Total budgetary resources: 35,175,709
	Amount proposed for rescission: $ 34,975,709
OMB identification code: 86-0104-0-1-451	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program: ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The Planning Assistance program provides discretionary grants to States, area-wide organizations, and localities to support, in part, planning and management activities. This program was established in 1954 to develop local planning capabilities and help finance local planning activities.

All available budgetary resources are being proposed for rescission because: (1) the program has already accomplished its primary purpose of developing local planning capabilities; (2) it is a low-priority program; and (3) other Federal and non-Federal funds are available to promote planning activities at the discretion of localities.

Estimated Effect: It is estimated that no States, areawide organizations, or localities will receive Planning Assistance funds as a result of this rescission. However, other sources of planning assistance funds, such as block grant or general revenue sharing funds, are available to these entities.

Outlay Effect: (in millions of dollars)

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Housing and Urban Development	New budget authority (P.L. 96-526): $ 129,980,000
Bureau: Community Planning and Development	Other budgetary resources: 87,149,954
Appropriation title & symbol: Rehabilitation Loan Fund 86X4036	Total budgetary resources: 217,129,954
	Amount proposed for rescission: $ 110,856,954 a/
OMB identification code: 86-4036-0-3-451	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program: ☐ Yes ☒ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The Rehabilitation Loan Fund provides low-interest loans for single-family and multifamily, as well as some commercial, rehabilitation in order to promote the revitalization of selected distressed areas.

All unreserved funds from 1981 appropriations and prior years currently available, and all recoveries of prior reservations, will be rescinded except for balances which may be necessary for operating expenses to service loans and provide for property acquisition and property management and for funds needed to capitalize delinquent interest. In addition, the authority to make further commitments for the principal amounts of direct loans will be terminated. This program is being terminated because it unnecessarily duplicates the rehabilitation efforts eligible under the Community Development Block Grant program.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effect: It is estimated that this rescission will result in approximately 9,150 units not being rehabilitated which otherwise would have been rehabilitated through this program. However, should localities use more of their own funds or more of their Block Grant funds for rehabilitation, this estimate can be reduced.

Outlay Effect: (in millions of dollars)

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Housing and Urban Development	New budget authority (P.L. 96-526): $ 10,000,000
Bureau: Neighborhoods, Voluntary Associations, and Consumer Protection	Other budgetary resources:
Appropriation title & symbol: Housing Counseling Assistance 8610156	Total budgetary resources: 10,000,000
	Amount proposed for rescission: $ 6,000,000
OMB identification code: 86-0156-0-1-506	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program: ☒ Yes ☐ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The Housing Counseling Assistance program provides grants and technical assistance to HUD-approved private and public non-profit housing counseling agencies. In turn, these agencies provide information and advice to current and prospective tenants and homeowners of HUD-assisted or HUD-insured housing.

$6,000,000 in budgetary resources are being proposed for rescission because: (1) the effectiveness of most types of counseling has never been proven; (2) it is a low-priority program; and (3) other Federal funds are available to provide housing counseling at the discretion of localities. The remaining $4,000,000 in budgetary resources will be used solely for homeowner default counseling, which studies indicate to be an effective Federal expenditure.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effect: It is estimated that about 70 counseling agencies will not receive funding in 1981 as a result of this proposal. However, other Federal and non-Federal funds could be used for housing counseling at the discretion of localities.

Type of account or fund: ☐ Annual ☒ Multiple-year September 30, 1981 / September 30, 1982 (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The Neighborhood Self-Help Development Program provides grants and technical assistance to neighborhood organizations to undertake neighborhood preservation and revitalization activities in lower-income areas.

All available budgetary resources are being proposed for rescission because (1) the program unnecessarily duplicates the neighborhood efforts of the Neighborhood Reinvestment Corporation and the Community Development Block Grant program, (2) it is a low-priority program, and (3) other Federal funds are available to promote neighborhood efforts at the discretion of localities.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effect: As a result of this rescission, it is estimated that sixty neighborhood organizations will not receive neighborhood self-help grants. However, localities may use more of their own funds or more of their Block Grant funds for neighborhood activities.

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of the Interior	New budget authority (P.L. 96-514) $ 30,485,000
Bureau: Office of Water Research & Technology	Other budgetary resources 3,914,570
Appropriation title & symbol: Salaries and Expenses 141/20115 1410115	Total budgetary resources 34,399,570
	Amount proposed for rescission $ 11,800,000
OMB identification code: 14-0115-0-1-301	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☒ Multiple-year September 30, 1982 (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The programs carried out by the Office of Water Research & Technology include support of State water institutes, grants for basic research and development, and grants for water desalting research and development.

This rescission will reduce the carryover into 1982 of funding appropriated for 1981 and prior years. Together with withdrawal of the request for 1982 appropriations, this will result in termination of the agency's activities early in 1982. These activities are more appropriately conducted by private industry.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effect: This rescission will allow speedy termination of all activities of the agency. It will terminate Federal support for State water institutes, as well as ending basic R&D assistance.

Outlay Effect: (In millions of dollars)

Bureau U.S. Fish and Wildlife Service	Other budgetary resources 29,530,967
Appropriation title & symbol Construction and Anadromous Fish 14X1612	Total budgetary resources 67,427,967
	Amount proposed for rescission $ 2,500,000
OMB identification code: 14-1612-0-1-303	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☒ Other P.L. 93-344
Grant program ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification

Funds proposed for rescission were appropriated for the first phase of contruction for an additional national fishery research laboratory. Seventeen fish and wildlife research laboratories are already operated by the Fish and Wildlife Service, as well as over ninety national fish hatcheries and development centers. Given the present climate of fiscal restraint, it is not appropriate to begin construction on an additional laboratory at this time.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effects

This proposal will rescind all construction funds for the Gainesville National Fishery Research Laboratory, Florida.

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of the Interior	New budget authority (P.L. 96-514) $ 20,000,000
Bureau National Park Service	Other budgetary resources 69,647,665
Appropriation title & symbol Urban Park and Recreation Grants 14X0720	Total budgetary resources 89,647,665
	Amount proposed for rescission $ 35,000,000
OMB identification code: 14-0720-0-1-303	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☒ Other 93-344
Type of account or fund: ☐ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other _____

Justification: To bring the budget under control and refocus the Department's conservation and preservation programs, this grant program is proposed for elimination. The Urban Park and Recreation Fund provides grants to aid the rehabilitation of local recreation systems and to encourage planning for and demonstration of innovative approaches to park and recreation management.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effects: The rescission would reduce available funds by $35 million. It will halt grant approvals for the remainder of fiscal year 1981. Approximately $4 million is now estimated to be available to fund grants previously announced but not yet obligated. Local efforts to improve planning and management of local recreation programs, begun in response to this Urban Park program, are expected to continue at a somewhat diminished level.

Outlay Effects: (in millions of dollars)

Rescission Proposal No: R81-88

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of the Interior	New budget authority (P.L. 96-514) $ 378,593,000
Bureau National Park Service	Other budgetary resources 251,786,852
Appropriation title & symbol Land and Water Conservation Fund 14X5005	Total budgetary resources 630,379,852
	Amount proposed for rescission $ 250,000,000
OMB identification code: 14-5005-0-2-303	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program 1/ ☒ Yes ☐ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The Land and Water Conservation Fund provides support for Federal land acquisition and State recreation grants. In order to refocus Interior's conservation and preservation programs, a moratorium on Federal land purchases is proposed. This will allow for a thorough policy review of existing park and recreation legislation, as well as making additional funds available for restoration and improvement of existing national park lands. An aggressive land exchange program will be initiated to round out the Federal conservation estate.

In addition, assistance to States for low priority recreation grants is proposed for rescission as part of President Reagan's comprehensive plan for reducing Federal spending.

Estimated Effects: The rescission would reduce available funds by $250 million. Rescission of $105 million for Federal purchases for parks, recreation, trails, wild and scenic rivers, and other purchases would halt all land acquisition activities for the remainder of FY 1981, and may require the Federal acquisition agencies to reduce staff. Rescission of $145 million for recreation project grants to States would essentially end the program. Many local projects will continue to completion in the next two fiscal years due to large unliquidated balances available to many States.

The rescission would require redistribution of any unobligated balances of the FY 1981 appropriation in a manner which will result in total apportionments differing from the formula established by section 6 of the Land and Water Conservation Fund Act, as amended (16 U.S.C. 4601). Therefore it is proposed that the Secretary be given the discretion to allocate the funds in a manner which will assure that the purposes of the Land and Water Conservation Fund Act are achieved.

1/ These funds support both grant and non-grant programs.

Grant program ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☒ Multiple-year September 30, 1981 September 30, 1982 (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: To bring the budget under control and refocus the Department's conservation and preservation programs, a moratorium on providing grants to States under this Fund is proposed. No changes are proposed for grants to the National Trust for Historic Preservation or for the current tax incentives for historic preservation. This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effects: The proposed rescission of $8 million in State grants will reduce funding for State operations and acquisition and development by $7.4 million and would eliminate $.6 million for the Secretary's Discretionary Fund. Most of these funds are for specific State projects which can be deferred or completed with State or private funds.

Outlay Effects: (in millions of dollars)

Agency: Department of the Interior	New budget authority (P.L. 96-514): $ 92,933,000
Bureau: Office of Surface Mining Reclamation and Enforcement	Other budgetary resources: --
Appropriation title & symbol: Regulation and Technology 1411801	Total budgetary resources: 92,833,000
	Amount proposed for rescission: $ 1,954,000
OMB identification code: 14-1801-0-1-302	Legal authority (in addition to sec. 1012): ☒ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The regulatory programs funded under this appropriation include inspection of coal mining operations under the provisions of the interim surface mining regulatory program and monitoring of states with approved permanent regulatory programs. Other activities include provision of technical assistance to Federal and State surface mining regulatory staffs, review of mine plans on Federal lands, and processing of petitions to designate lands unsuitable for mining.

The funds being proposed for rescission include savings resulting from hiring limitations and reductions in travel and consulting services.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effect: Inspection and enforcement activities, evaluation of state programs and technical assistance will be curtailed slightly through this $1.9 million reduction. These curtailments will reduce the regulatory burden imposed on states and mine operators.

Outlay Effect: (in millions of dollars)

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Labor	New budget authority (P.L. 96-536) $ 729,000,000
Bureau Employment and Training Administration	Other budgetary resources 54,252,350
Appropriation title & symbol	Total budgetary resources 783,252,350
Temporary Employment Assistance 161/20173	Amount proposed for rescission $ 234,475,000
OMB identification code: 16-0173-0-1-504	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☐ Annual ☒ Multiple-year September 30, 1982 (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This appropriation provides resources for the CETA Title VI program of temporary public service employment (PSE) for low-income individuals in times of high unemployment. Evidence suggests that the program has been an ineffective counter-cyclical tool and indicates that net job creation has been relatively small in the long term. Therefore, it is proposed to phase out the Title VI PSE program by the end of 1981. The phase out will be accomplished by not hiring individuals to fill vacancies as they occur, by placing people in unsubsidized jobs, or, if necessary to achieve the phase-out by the end of the fiscal year, by layoffs.

Estimated Effects: 1981 enrollment in the program would average 85,600 instead of the 100,000 financed by Continuing Resolution, P.L. 96-536. All participants would be out of the program before October 1, 1981.

Rescission Proposal No: R81-93

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of State	New budget authority (P.L. 96-536) $ 328,494,000
Bureau Bureau of Refugee Programs	Other budgetary resources
Appropriation title & symbol	Total budgetary resources 328,494,000
Migration and Refugee Assistance 1911143	Amount proposed for rescission $ 22,500,000
OMB identification code: 19-1143-0-1-151	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The Continuing Resolution (P.L. 96-536) in effect through June 5, 1981, provides $328.5 million for State Department's refugee assistance activities. For FY 1981, $40 million was originally planned as the appropriate U.S. share of the international famine relief program in Kampuchea and $25 million for special assistance to Soviet refugees resettling in Israel.

Improved conditions in Kampuchea, due primarily to the large amounts of relief aid provided over the last year, have reduced food and other emergency relief requirements below the level originally anticipated. As a result, the United States will contribute $30 million for Kampuchean relief in 1981. The amount of assistance to Soviet refugees resettling in Israel is halved because of the sizable and continued decline in the number of refugees allowed to emigrate from the Soviet Union and lower percentage of those refugees electing to go to Israel.

This rescission proposal, totalling $22.5 million, is an integral part of the President's comprehensive economic plan for spending and tax reductions and regulatory reform.

Estimated Effect:

This proposal will capture budget savings due to diminished requirements while maintaining an appropriate level of U.S. support for these activities.

In addition, this proposal is consistent with the U.S. position of responding to emergency relief needs in Kampuchea rather than to longer-term rehabilitation activities.

Outlay Effect:

(in millions of dollars)

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of State	New budget authority (P.L. 96-536): $ 35,106,000
Bureau: Bureau for International Narcotics Matters	Other budgetary resources: —
Appropriation title & symbol: International Narcotics Control 1111022	Total budgetary resources: 35,106,000
	Amount proposed for rescission: $ 3,100,000
OMB identification code: 11-1022-0-1-151	Legal authority (in addition to sec. 1012): ☒ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☒ Annual ☐ Multiple-year: (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The Continuing Resolution (P.L. 96-536) in effect through June 5, 1981, provides $35.1 million for State Department's international narcotics control activities. Funds totalling $3.3 million were planned in FY 1981 for U.S. narcotics control assistance to Bolivia to enhance enforcement and customs capability and support alternative agricultural projects in that country.

Current circumstances in Bolivia preclude continuing effective narcotics control activities as originally planned. Therefore, $3.1 million is proposed for rescission.

This rescission proposal is an integral part of the President's comprehensive economic plan for spending and tax reductions and regulatory reform. This proposal is made in accordance with the Antideficiency Act (31 U.S.C. 665).

Estimated Effect: This proposal will effect savings due to eliminated requirements without damaging overall U.S. international narcotics control efforts.

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Transportation	New budget authority (P.L. 96-400): $4,615,200,000
Bureau: Urban Mass Transportation Administration	Other budgetary resources: 705,955,115
Appropriation title & symbol: Urban Mass Transportation Fund (Waterborne Transportation Demonstration Project) 69X1119 699/11119 690/11119	Total budgetary resources: 5,321,155,115
	Amount proposed for rescission: $24,700,000
OMB identification code: 69-1119-0-1-401	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program: ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☒ Multiple-year September 30, 1981 (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

JUSTIFICATION: The Waterborne Transportation Demonstration grant program was authorized by the Urban Mass Transportation Act of 1964, as amended by Title III of the Surface Transportation Assistance Act of 1978. It provides Federal financing to carry out a demonstration project using high-speed waterborne transportation equipment and facilities, and operating in the vicinity of New York, New York. The purpose of the project is to determine the feasibility of utilizing this technology in providing certain public mass transportation service.

A 1981 program level of $13 million was planned, consisting of 1979 and 1980 carryover appropriations. A 1982 program level of $12 million was planned, consisting of 1981 carryover appropriations. At this time, only $300 thousand has been obligated, with a balance of $24.7 million available for rescission.

This rescission is intended to eliminate this low priority program as part of the President's plan for economic recovery.

Estimated Effect: This rescission action will terminate the program.

Outlay Effect (in millions of dollars):

Rescission Proposal No: R81-96

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Transportation	New budget authority (P.L. 96-400): $ 12,000,000
Bureau: Research and Special Program Administration	Other budgetary resources:
Appropriation title & symbol: Cooperative Automotive Research 69X0107	Total budgetary resources: 12,000,000
	Amount proposed for rescission: $ 11,500,000
OMB identification code: 69-0107-0-1-401	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program: ☐ Yes ☒ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification:

The Cooperative Automotive Research Program was developed in cooperation with the domestic automobile industry, to provide a substantial body of basic research aimed at fundamentally improving U.S. automotive technology for development of advanced, fuel-efficient automobiles during and beyond the 1990's. The Administration has decided, that financing long term research to benefit a particular industry is not an appropriate Federal role and that the auto industry is in a better position to decide what research to undertake. This lower priority item is being proposed for rescission as part of the Administration's overall plan to reduce Federal spending.

Estimated Effects:

There are no programmatic impacts upon the current RSPA mission or activities that result from this rescission action. The impact upon the industry's support of basic research is not precisely known. In the short run, the current financial condition of the industry will probably defer any changes in the levels of support provided to basic research in auto-related disciplines. In the long run, increases should be expected through tax incentives and other Federal actions.

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of the Treasury	New budget authority (P.L. _____) $ _____
Bureau: Bureau of Government Financial Operations	Other budgetary resources 1,270,000,000
Appropriation title & symbol: Biomass Energy Development 20X0114	Total budgetary resources 1,270,000,000
	Amount proposed for rescission $ 1,245,500,000
OMB identification code: 20-0114-0-1-271	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: Funds totalling $1,245,500,000 for financial incentive programs for alcohol fuels, biomass and energy from municipal waste are proposed for rescission. This action woul terminate the feasibility study, cooperative agreement, loan and loan guarantee programs for alcohol fuels and biomass in the Departments of Energy and Agriculture (proposed rescission amounts of $521.6M and $505.0M respectively), and would terminate feasibility studies, cooperative agreements, loan guarantees and price support loans for the energy from municipal waste program of the Department of Energy (proposed rescission of $218.9M).

These financial incentive programs owuld be terminated as part of the general effort to adopt market principles to achieve national energy goals. Additional direct government spending programs are not needed in light of the following incentives for the development of alcohol fuels, biomass and urban waste energy:

- The 4¢ per gallon exctse tax exemption for gasohol (a mixture of 10% alcohol and 90% unleaded gasoline) results in a subsidy of $16.80 per barrel of alcohol. This subsidy reduces the cost of gasohol to the point where it is competitive with gasoline. In addition, approximately 30 States provide tax credits for gasohol. The federal excise tax exemption will result in an estimated tax expenditure of approximately $2 billion over the next 5 years.

- Captial investment in alcohol fuels, biomass and urban waste projects are made more attractive because certain types of plant and equipment are eligible for an investment tax credit of 20%. In 1982, these costs will result in tax expenditures of over $200 million.

- The removal of price controls from domestic crude oil will restore market forces in the energy field and make alternative energy sources more competitive with petroleum.

- The President's program for economic recovery is designed to result in a significant increase in the amount of capital formation in the private sector for all types of investment projects. This should increase capital availability for alcohol fuels, biomass and urban waste projects without the need for government intervention through loan guarantees and other financial incentives. Also, unlike other forms of alternative fuels, alcohol fuels, biomass and urban waste projects are a less risky investment because the technology is proven and the economic feasibility can be estimated relatively accurately.

These incentives will ensure that alcohol fuels, biomass and energy from municipal waste will be able to compete effectively with conventional energy alternatives without the need for additional government subsidies through loan guarantees, feasibility studies and cooperative agreements.

Estimated Effect: As a result of this rescission, alcohol fuels, biomass and urban waste energy development projects selected by the Departments of Energy and Agriculture for feasibility studies, cooperative agreements, loan guarantee awards and price support loans will not be funded. The responsibility for financing these activities will shift to the private sector. While there may be instances of delays while alternative sources of funding are secured for individual projects, it is not anticipated that there will be any significant effect on the overall rate of development of these alternative energy soruces.

Grant program ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification

A total of $1,700,000,000 of unobligated wastewater treatment construction grant funds are proposed for rescission by the President. These funds were appropriated in 1981, 1980, and under the Public Works Employment Appropriation Act of 1977. The reductions are an integral part of the President's overall Economic Recovery Program which includes lower near term levels of Federal funding for capital investment. In addition to these reductions, the President is also proposing major legislative reforms which will ensure the long term viability of this program. The combination of lower funding levels and program reforms will relieve the burden on the Federal government for financing projects that improve the environment marginally or not at all.

Estimated effects

The proposed reductions will primarily impact new, yet to be initiated projects or segments of projects, and will fall more heavily on those States with relatively large unobligated balances. An estimated $14 billion in appropriated but unspent funds remain for continuing or completing ongoing projects.

Outlay Effect: (in millions of dollars)

Construction Grants

Of the funds appropriated under this head, $586,382,091 in the Department of Housing and Urban Development - Independent Agencies Appropriation Act, 1980, and $1,000,000,000 in the Department of Housing and Urban Development - Independent Agencies Appropriation Act, 1981, are rescinded. The reduction in each appropriation will be distributed among the States according to the allotment formula specified in Sec. 205(c) of P.L. 92-500 as amended by P.L. 95-217. However, whenever a State's share of the reduction from an appropriation, as determined by the formula, is greater than its March 4, 1981 unobligated balance for that appropriation, the shortfall will be distributed according to the allotment formula among all the States which still have funds remaining from that appropriation. This process of distributing the shortfall will continue until the amount of the reduction has been allocated among the States.

In addition, all remaining funds, in the amount of $113,617,909, appropriated under this head in the Public Works Employment Appropriation Act, 1977, are rescinded.

Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☐ Annual ☒ Multiple-year Sept. 30, 1982 (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This rescission is the net effect of required 1981 adjustments to the NASA research and development programs as part of the President's Budget Reform Plan. Because of the urgent need for fiscal restraint, reductions are proposed for numerous relatively lower priority research and development programs. Included as part of the adjustment is an upward reestimate in funding required to maintain progress in the highest priority space shuttle program to meet civilian and critical defense needs.

Estimated Effect: The orderly development and procurement of an operational fleet of space shuttle orbiters will continue as currently planned. As noted above, some lower priority research and development programs will be reduced; however, core programs will be continued in space science, space applications, aeronautical technology, and advanced space technology.

Justification: Volunteers in Service to America (VISTA) supports full-time volunteers who work with community groups to solve poverty problems. The Senior Companion Program supports poor or near poor volunteers age 60 and over. These volunteers help other older people, who have moderate impairments and inadequate family support, achieve and maintain the highest possible degree of independent living.

Reductions are proposed for these two programs as a part of the Administration's overall plan to reduce spending throughout the Federal Government. A revised 1982 request eliminates the expansion of these programs that was proposed in the January Budget. This rescission will prevent 1981 expansion toward 1982 levels that are no longer planned. The proposed reductions represent a 2.7 percent decrease in the total budgetary resources available for domestic program operations.

Estimated Effect:

Volunteers in Service to American (VISTA): A savings of $1,727,000 will be realized through the reduction of 1,800 trainees and 273 volunteer service years from the planned level in FY 1981.

Senior Companion Program: Thirteen new projects with 819 volunteers serving the needs of the homebound or potentially institutionalized elderly will not be funded as originally planned in FY 1981. The savings will be $1,480,000.

Rescission Proposal No: R81-104

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency: Arms Control and Disarmament Agency	New budget authority (P.L. 96-536): $18,500,000
Bureau:	Other budgetary resources: 550,000
Appropriation title & symbol: Arms Control and Disarmament Activities 9410100	Total budgetary resources: 19,050,000
	Amount proposed for rescission: $1,500,000
OMB identification code: 94-0100-0-1-153	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program: ☐ Yes ☒ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: Reduced activity for arms control negotiations, slow obligation of research funds, realignment of agency staffing and responsibilities, and general administrative savings have allowed reductions of $300,000 in program operations and $1,700,000 in research.

These savings will be achieved by withdrawal of the pending $500,000 pay supplemental and by proposing this rescission of $1,500,000.

Estimated Effects: This will reduce the agency's operating margin and would slow reprogramming of lower-priority research funds into operational support of negotiations, should negotiating opportunities arise. Revival of an active international arms control agency would require supplemental appropriations to allow agency participation.

Outlay Effect: (in millions of dollars)

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency Corporation for Public Broadcasting	New budget authority (1982) $172,000,00 (P.L. 95-205,96-38)
Bureau	Other budgetary resources (1983) $172,000.
Appropriation title & symbol: Public Broadcasting Fund	Total budgetary resources $344,000,000
2020151 / 2030151	Amount proposed for rescission $ 95,000,00
OMB identification code: 20-0151-0-1-503	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☒ Annual; ☐ Multiple-year _____ (expiration date); ☐ No-year	Type of budget authority: ☒ Appropriation; ☐ Contract authority; ☐ Other

Justification

CPB is the primary vehicle for providing Federal financial assistance to the 217 radio and 170 television stations that currently compose the non-commercial broadcasting system.

Because non-commercial stations should determine the need for and type of programs they require and finance their own productions funds for CPB's national program production and administrative activities should be cut. This pattern of reductions will provide an opportunity for private and corporate donations to play a greater role in financing local public radio and television productions.

Estimated Effects

The reductions will be primarily directed at CPB's administrative costs and national program production while CPB support for local stations will be maintained at as high a level as possible.

A proposed distribution of funds for 1982 could allow for $82 million for Community service grants for radio and television, $30 million for national radio and television program productions and $11.5 million for Administration, Research and Training.

A proposed distribution of funds for 1983 would allow for $77 million for Community Service Grants to local radio and television stations, $27 million for national radio and television productions and $10 million for Administration, Research and Training.

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency Federal Mediation and Conciliation Service	New budget authority (P.L. 96-536) $ 18,942,000
Bureau	Other budgetary resources
Appropriation title & symbol: Salaries and Expenses 9310100	Total budgetary resources 18,342,000
	Amount proposed for rescission $ 687,000
OMB identification code: 93-0100-0-1-505	Legal authority (in addition to sec. 1012): ☒ Antideficiency Act ☐ Other
Grant program: ☒ Yes ☐ No	
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification

This appropriation provides for mediation, technical assistance, and arbitration services to aid parties to collective bargaining disputes to settle their disputes. Funds are also provided for a new program of grants to support the establishment of labor-management committees. The grant program is a low priority program which cannot be afforded in a truly austere budget, and this rescission eliminates funds rendered excess by the decision not to implement the program. Remaining grant funds of $313 thousand are being reprogrammed to cover the increased cost of civilian pay.

The supplemental request for civilian pay increases for this account is being withdrawn due to this decision as well as to reductions in Federal employment and in spending on items like travel and equipment.

Estimated Effects:

Approximately 10 to 12 grants would not be awarded for the establishment and operation of plant, area, and industry committees. The effect of not awarding these grants on the number of committees which will or will not be formed is not known.

Outlay Effects: (in millions of dollars)

Rescission Proposal No: R31-107

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency: Federal Trade Commission	New budget authority (P.L. 96-536) $ 71,000,000
Bureau:	Other budgetary resources: -
Appropriation title & symbol: Salaries and Expenses 2910100	Total budgetary resources: 71,000,000
	Amount proposed for rescission: $ 226,000
CMB identification code: 29-0100-0-1-376	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This appropriation finances expenses necessary for antitrust enforcement, consumer protection, and economic reporting. In support of these activities, the Commission operates ten regional offices in the United States. This rescission in conjunction with the withdrawal of the pay supplemental now pending before the Congress would initiate the phase-out of these offices and a reduction in the Washington headquarters office. The Administration believes that this action would allow the Commission to focus more on problems of a nationwide scope, reduce multigovernmental regulatory burdens, and permit State and local agencies, as well as private business on its own, to reduce antitrust problems. This action is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effects: The phasing out of the regional offices would allow the Federal Trade Commission to focus on issues of national importance and would shift activities to State and local governments. The reductions described would result in an overall agency savings of 30% by 1986.

Outlay Effect (in millions of dollars)

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency Merit Systems Protection Board Bureau	New budget authority (P.L. 96-536) $ 10,905,000 Other budgetary resources 432,000 Total budgetary resources 11,337,000
Appropriation title & symbol Salaries and Expenses 4110100	Amount proposed for rescission $ 210,000
OMB identification code: 41-0100-0-1-805	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program ☐ Yes ☒ No	
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The Merit Systems Protection Board was created in 1978 to assume the adjudicatory functions of the former Civil Service Commission. The Board processes employee appeals and conducts studies of merit system abuse. This proposal would reduce the funds available for these activities by $210,000.

This rescission is proposed as a part of the Administration's overall effort to reduce Federal spending.

Estimated Effect: It is anticipated that this rescission will cause the Board to target studies at potential merit abuse patterns, rather than general Civil Service evaluation, as well as to reduce administrative support functions. A temporary case backlog is also expected to result.

Report Pursuant to Section 1012 of P.L. 93-344

Agency National Science Foundation	New budget authority (P.L. 96-526) $ 987,900,000
Bureau	Other budgetary resources 25,000,000
Appropriation title & symbol: Research and Related Activities 491/20100	Total budgetary resources 1,012,900,000
	Amount proposed for rescission $ 66,000,000
OMB identification code: 49-0100-0-1-251	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☐ Annual ☒ Multiple-year September 30, 1982 (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification

Programs funded from this appropriation support basic and applied research in all scientific disciplines, engineering and related activities. Support is also provided for the U.S. Antarctic Program, International Cooperative Science, and Science Policy Activities.

Programs which are substantially affected by the proposed reductions are those which are narrowly focused or of less immediate priority in meeting the National Science Foundation's major goals and objectives. Less severe reductions are proposed in core programs. However, the adjusted funding levels will not impair the foundation's ability to maintain its support of critical research or its ability to meet statutory responsibilities for the advancement of science.

These reductions are proposed in order to reduce Federal spending.

Estimated Effect

Research support in the behavioral and neural sciences will be reduced by approximately 13 percent from the planned FY 1981 level; social and economic science programs by 31 percent; industry/university cooperative research projects by 45 percent; the Small Business Innovation Program by 36 percent; University-Based Innovation Centers by 29 percent; 2/4 year college instrumentation support by 42 percent; minority research initiation projects by 6 percent; international science programs by 28 percent; and the Experimental Program to Stimulate Competitive Research by 27 percent. Programs for which all FY 1981 appropriation funding is eliminated are: intergovernmental science programs, the Appropriate Technology Program, Visiting Professorships for Women, National Research Opportunity Grants, and Research Improvement in Minority Institutions.

Programs supporting research in the basic sciences and engineering will be reduced by a total of $20 million or approximately 2.5 percent.

Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification:

This appropriation funds the National Science Foundation's programs to strengthen science education at all academic levels. It includes the programs for scientific personnel improvement, science education resources improvement, science education development and research, and a science education communications program.

Specific reductions in these areas are proposed for programs which are less critical to meeting the major goals and objectives of the Foundation and are being made in order to reduce Federal spending.

Estimated Effect:

The proposed reductions will reduce funding from the planned FY 1981 level by the following percentages: Comprehensive Assistance to Undergraduate Education, 38 percent; Development in Science Education, 56 percent; Research in Science Education, 33 percent; Public Understanding of Science, 25 percent; and the Science for Citizens program, 35 percent. Funding for the Information Dissemination in Science Education program would be eliminated.

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency: Occupational Safety and Health Review Commission	New budget authority (P.L. 96-536): $5,659,200
Bureau:	Other budgetary resources: --
Appropriation title & symbol: Salaries and Expenses 9512100	Total budgetary resources: $5,659,200
	Amount proposed for rescission: $39,000
OMB identification code: 95-2100-0-1-554	Legal authority (in addition to sec. 1012): ☒ Antideficiency Act
Grant program: ☐ Yes ☒ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification:

The Occupational Safety and Health Review Commission adjudicates contested enforcement actions of the Department of Labor.

This rescission proposal reflects reductions in obligations for personnel, travel, and equipment procurement and is a component of President Reagan's comprehensive economic plan.

Estimated Effects:

Reductions in personnel and travel may cause some delays in hearings and decisions. However, the Commission's workload in the first part of 1981 has fallen below the estimates on which the budget was based. Moreover, the workload is determined in large part by enforcement activity in the Occupational Safety and Health Administration. Since this activity is expected to decrease, the decline in the Commission's workload is expected to continue and to counteract much of the effects of reduced personnel and travel resources.

Outlay Effects: (in thousands of dollars)

Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: Funds for the pre-mobilization procurement of area office telecommunicat equipment are proposed for rescission. These funds would be used to equip each of the approximately 400 area offices with an on-line computer terminal to transmit data directly to the headquarter's computer system. This low priority item is proposed for reduction as part of President Reagan's plan to reduce Federal spending. Upon mobilization, data would be transmitted via mail service until adequate telecommunicatior gear could be installed.

Estimated Effect: Pre-mobilization procurement of area-office terminals will not be funded as planned in 1981. Several area offices would have demonstration terminals. Installation of the complete system would be delayed one to two months after mobilization.

Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: This account funds several special purpose management and technical assistance programs, as well as salaries and administrative expenses of the Small Business Administration (SBA). To constrain Federal spending, the Administration proposes to integrate, wherever possible, special interest group assistance programs with on-going SBA management and technical assistance programs. Moreover, enhancements to special purpose programs will be eliminated, particularly in those cases where SBA's efforts are being supplemented by those of other Federal agencies. These efforts to achieve program economies and to reduce administrative overhead costs will result fn savings of $1.4 million fn 1981, which are now proposed for rescission.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effect: The activities of the Women's Business Enterprise program will be performed through on-going SBA programs, and the 1981 budget enhancement for the 7(j) Development Assistance program will be eliminated. This rescission will also reduce the level of consulting service, travel, and procurement obligations originally planned for 1981.

Outlay Effect (in millions of dollars):

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Tennessee Valley Authority Bureau:	New budget authority (P.L. 96-367): $287,563,000 Other budgetary resources: 87,394,000 Total budgetary resources: 374,957,000
Appropriation title & symbol Tennessee Valley Authority Fund 64X4110	Amount proposed for rescission: $ 500,000
OMB identification code: 64-4110-0-3-999 Grant program: ☐ Yes ☒ No	Legal authority (in addition to sec. 1012): ☒ Antideficiency Act ☐ Other:
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other:

Justification: This rescission proposal provides a $300,000 decrease in travel and a $200,000 decrease in procurements in support of President Reagan's comprehensive economic plan for spending reductions. These selected lower priority activities will be curtailed or postponed to reduce Federal spending. In addition, TVA also proposes to administratively reduce travel and procurement by another $2.5 million in its power program.

Estimated Effect: The effect of the rescission proposal is to reduce TVA travel and procurement activities by a total of $0.5 million in 1981.

Outlay Effect:

Of the funds appropriated under this head in P.L. 96-367 making appropriations for Energy and Water Development $500,000 are rescinded.

Rescission Proposal No: R81-118

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Water Resources Council Bureau: Appropriation title & symbol: Water Resources Planning 85X0100	New budget authority (P.L. 96-367) $ 24,777,000 Other budgetary resources — Total budgetary resources 24,777,000 Amount proposed for rescission $ 5,000,000
OMB identification code: 85-0103-0-1-301 Grant program: ☒ Yes ☐ No	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The programs carried out by the Water Resources Council have as their primary purpose the improvement of Federal, State, and regional water resource planning, and the coordination of Federal water resource policy.

This rescission will reduce the carryover into 1982 of funds appropriated for fiscal year 1981. Together with withdrawal of the request for 1982 appropriations, this will terminate the activities of the Water Resources Council, because high priority activities have been completed, and remaining programs are carried out ineffectively.

This rescission proposal is an integral component of President Reagan's comprehensive economic plan for spending reductions, tax reductions, and actions to remove unnecessary regulatory burdens.

Estimated Effect: This rescission will allow speedy termination of all Water Resources Council activities. Elimination of all funding for the Water Resources Council in 1982 will allow redirection of Federal policy to develop a more effective process for coordination of water resource programs. The proposal will terminate Federal participation in six river basin commissions and will also eliminate the $10 million program of cost shared grants to states for water planning and management.

Outlay Effect: (In millions of dollars)

Of the funds provided for "Water Resources Planning" in P.L. 96-367, $5,000,000 are rescinded.

Rescission Proposal No: R81-112

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Agriculture	Current direct loan limitation (P.L. 96-528) $4,099,600,00(
Bureau Farmers Home Administration	Other budgetary resources --
Appropriation title & symbol Rural Housing Insurance Fund 12X4141	Total loan limitation 4,099,600,00(
	Amount proposed for rescission $ 316,000,00(
OMB identification code: 12-4141-0-3-371	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year	Type of budget authority: ☐ Appropriation ☐ Contract authority ☒ Other Authority to incur obligations for direct loans.

Justification:

The Rural Housing Insurance Fund program finances a variety of loans to purchase, develop, improve, repair and rehabilitate housing in rural areas. This proposal reduces the authority to incur obligations for direct loans under the moderate income homeownership loan program by $316,000,000. This proposal is part of the Administration's effort to combat inflation, reduce subsidies and limit Federal involvement in the credit market.

Estimated Effects:

The proposed $316 million reduction of authority to incur obligations for moderate income housing direct loans (from $825 million to $509 million) would reduce the number of estimated housing units assisted in 1981 to 14,700 (7,700 less than in the January budget).

Outlay Effects: (in millions of dollars)

R81-119

Farmers Home Administration

Rural Housing Insurance Fund

The fiscal year 1981 appropriations language for the above account is amended as follows:

Loans and related advances pursuant to section 517(m) of the Housing Act of 1949, as amended, $24,000,000 shall be available from funds in the rural housing insurance fund, and for insured loans as authorized by title V of the Housing Act of 1949, as amended, $3,759,600,000, of which $3,195,600,000 shall be available for subsidized interest loans to low-income borrowers as determined by the Secretary; and not to exceed $5,000,000 for advances as authorized by section 501(e) of such Act and not to exceed $2,000,000 for compensation of construction defects as authorized by section 509(c) of such Act: Provided, That unsubsidized interest guaranteed loans of not to exceed $25,000,000 shall be in addition to these amounts.

Rescission Proposal No: R81-120

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Agriculture	Current direct loan limitation $ 7,973,600,00 (P.L. 96-529)
Bureau Farmers Home Administration	Other budgetary resources
Appropriation title & symbol: Agricultural Credit Insurance Fund 12X4140	Total loan limitation 7,973,600,00
	Amount proposed for rescission $ 88,950,00
OMB identification code: 12-4140-0-3-351	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☐ Appropriation ☐ Contract authority ☒ Other Authority to incur obligations for direct loans.

Justification:

The Agricultural Credit Insurance Fund finances a number of Agricultural Credit Programs. This rescission proposes to reduce the authority to incur obligations for direct loans by $80.0 million for the Farm Ownership Program, $5.0 million for the Soil and Water Conservation Program, and $3.8 million for the Resource Conservation and Development program. These activities can be financed through private sources of credit. The $3,850,000 reduction in the Resource Conservation and Development Loans is consistent with the phase down of the Resource Conservation and Development program. This proposal is part of the Administration's effort to combat inflation and reduce the role of the Federal government in the credit market. It has been determined that this reduction can be made without adversely affecting human health and safety or other critical needs.

Estimated Effects:

The proposed reduction of $80 million of authority to incur obligations for direct loans under the farm ownership program (from $870 million to $790 million) would reduce the number of loans estimated to be made in 1981 to 10,700 (470 less than indicated in the January budget). A $5 million reduction of authority to incur loan obligations under the soil and water loan program would reduce the number of loans to 2,050 in 1981 (210 less than indicated in the January budget).

Outlay Effect: (in millions of dollars)

Farmers Home Administration

Agriculturual Credit Insurance Fund

The fiscal year 1981 aporopriations language for the above account is amended as follows:

Loans may be insured, or made to be sold and insured, ~~under this fund in accordance with and subject to the provisions of 7 U.S.C. 1928-1929,~~ or guaranteed, as follows: real estate loans, $914,600,000, ~~including $840,000,000 for farm ownership loans of which $50,000,000 shall be~~ guaranteed loans; and $55,500,000 for water development use, and ~~conservation~~ loans of which $6,000,000 shall be guaranteed ~~loans; operating~~ loans, $875,000,000 of which $25,000,000 shall be guaranteed loans; and emergency insured and guaranteed loans ~~in amounts necessary to~~ meet the needs resulting from natural disasters.

DEPARTMENT OF AGRICULTURE

Soil Conservation Service
Resource Conservation and Development

The loan level authorized under this head in Public Law ~~96-528~~, making appropriations for fiscal year 1981 is reduced to $150,000.

Rescission Proposal No: R81-121

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Agriculture	Current direct loan limitation (P.L. 96-528): $1,010,000,000
Bureau: Farmers Home Administration	Other budgetary resources: --
Appropriation title & symbol: Rural Development Insurance Fund 12X4155	Total loan limitation: 1,010,000,000
	Amount proposed for rescission: $ 160,000,000
OMB identification code: 12-4155-0-3-452	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program: ☐ Yes ☒ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☐ Appropriation ☐ Contract authority ☒ Other: Authority to incur obligations for direct loans.

Justification:

The Rural Development Insurance Fund finances three loan programs: Water and Waste Disposal Loans, Community Facility Loans, and Business and Industry Loans. This proposal, which reduces the authority to incur obligations for direct loans under the Water and Waste Disposal Loan Program, is part of the Administration's effort to combat inflation and reduce Federal involvement in the credit market.

Estimated Effects:

The proposal to reduce by $160 million authority to incur obligations for direct loans under the water and sewer program (from $750 million to $590 million) would reduce the number of loans estimated to be made in 1981 to 1,398 (379 less than indicated in the January budget).

Outlay Effect: (in millions of dollars)

Rural Development Insurance Fund

The fiscal year 1981 appropriations language for the above account is amended as follows:

Loans to be insured, or made to be sold and insured, under this fund in accordance with and subject to the provisions of 7 U.S.C. 1928 and 86 Stat. 661-664, as follows: insured water and sewer facility loans, $590,000,000; guaranteed industrial development loans, $741,000,000; and insured community facility loans, $260,000,000.

Rescission Proposal No: R81-122

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Agriculture	Current direct loan limitation $1,100,000,000 (P.L. 96-528)
Bureau Rural Electrification Administration	Other budgetary resources ---
Appropriation title & symbol: Rural Electrification and Telephone Revolving Fund 12X4230	Total loan limitation 1,100,000,000
	Amount proposed for rescission $ 187,000,000
OMB identification code: 72-4230-0-3-271	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☐ Yes ☒ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☐ Appropriation ☐ Contract authority ☒ Other Authority to incur obligations for direct loans

Justification:

These proposed actions are based on the fact that REA has largely accomplished its purpose to provide the basic investment capital necessary to provide electric and telephone service in rural areas. More than 99% of all farms and rural establishments now have electric service, and more than 90% have telephone service. The bulk of borrowing is now for power generation and system improvements, costs that could be born by system users.

Estimated Effects:

The rescission would reduce direct lending to rural telephone systems ($125 million) and direct lending to rural electric systems for power generation and transmission facilities ($62 million).

The major reason that these systems have not already converted to using the private sector as a major capital source is the highly favorable term structure--for both the direct and guaranteed lending--offered by REA. As a consequence, the availability of these subsidies reduces the necessity for recipients to improve their financial positions in order to attract private capital.

Taking these actions will result in a dramatic reduction in direct Federal lending. At the same time, rural electric and telephone consumers served by these systems will continue to receive adequate service at rates comparable to those charged to customers of non-REA-financed utilities.

Outlay Effect: (in millions of dollars)

1981 Outlay Estimate		Outlay Savings			
Without Rescission	With Rescission	1981	1982	1983	1984

R81-122

DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

Rural Electrification and Telephone Revolving Fund

Loan authorizations provided for the Rural Electrification and Telephone Revolving Fund for fiscal year 1981 in P.L. 96-528, for Section 305 of the Rural Electrification Act of 1936, as amended, are reduced as follows: a reduction of $62,000,000 in rural electrification loans; and $125,000,000 in rural telephone loans to provide for a total level of $788,000,000 for rural electrification loans; and a reduction of $125,000,000 for rural telephone loans: Provided, That loans made pursuant to section 306 of that Act are in addition to these amounts, but during 1981, total commitments to guarantee loans pursuant to section 306, shall not exceed $5,145,000,000 of contingent liability for loan principal.

Deferral No: 081-103

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Commerce	New budget authority (P.L. 96-536) $ 44,400,000
Bureau: Minority Business Development Agency	Other budgetary resources 4,586,291
Appropriation title & symbol: Minority Business Development 13X0201	Total budgetary resources 48,986,291
	Amount to be deferred: Part of year $ ____ Entire year 3,400,000
OMB identification code: 13-0201-0-1-376	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other ____
Grant program: ☐ Yes ☐ No	
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification: This appropriation provides for the delivery of management and technical assistance to minority businesses through private business consulting firms. While this deferral will reduce the number of locations where services can be provided, it will still enable the Minority Business Development Agency (MBDA) to offer management assistance in 65 out of the 100 metropolitan areas with the highest concentration of minority businesses.

This deferral action is taken as a part of the Administration's effort to reduce Federal spending.

Estimated Effects: By deferring resources in the three components of the Enterprise Development program, the effect of reduction on any client group, particularly those benefitting from the General Business Service Centers, will be minimized.

Outlay Effect: This deferral action will reduce 1981 outlays by $3.4 million and will reduce the need for budget authority in 1982.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday).

This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/FSQS		DOT/FAA	USDA/FSQS
DOT/FHWA	USDA/REA		DOT/FHWA	USDA/REA
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/NHTSA	LABOR		DOT/NHTSA	LABOR
DOT/RSPA	HHS/FDA		DOT/RSPA	HHS/FDA
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.
Comments on this program are still invited.
Comments should be submitted to the

Day-of-the-Week Program Coordinator,
Office of the Federal Register,
National Archives and Records Service,
General Services Administration,
Washington, D.C. 20408.

List of Public Laws

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's **List of Public Laws.**

[Last Listing March 18, 1981; last cumulative listing for the 96th Congress (1980), January 7, 1981.]

THE FEDERAL REGISTER: WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 2½ hours) to present:

1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between Federal Register and the Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them, as part of the General Services Administration's efforts to encourage public participation in Government actions. There will be no discussion of specific agency regulations.

WHEN: April 10 and 24; at 9 a.m. (identical sessions).

WHERE: Office of the Federal Register, Room 9409, 1100 L Street NW., Washington, D.C.

RESERVATIONS: Call King Banks, Workshop Coordinator, 202-523-5235.

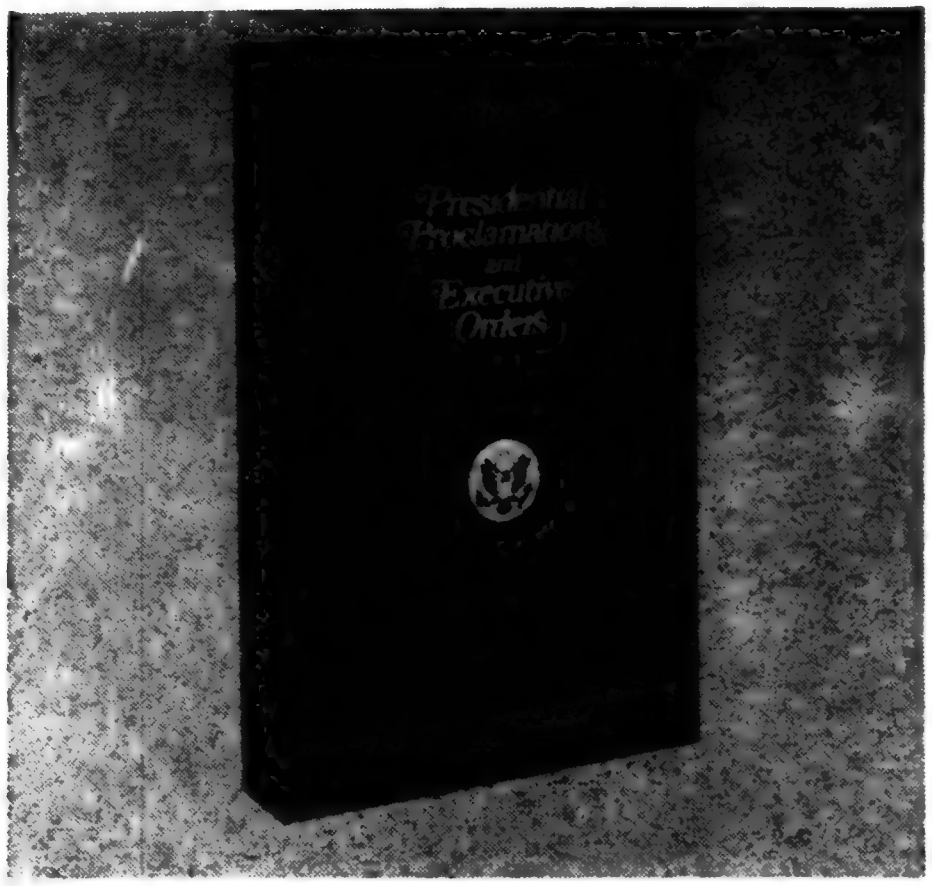
NEW PUBLICATION NOW AVAILABLE



For those of you who must keep informed about Presidential proclamations and Executive orders, there is now a convenient reference source that will make researching certain of these documents much easier.

Arranged by subject matter, this first edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period January 20, 1961, through January 20, 1977, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1961–1977 period, along with any amendments, an indication of its current status, and, where applicable, its location in this volume.

Published by the Office of the Federal Register,
National Archives and Records Service,
General Services Administration

Highlights

Cumulative List of Public Laws—The fourth and final cumulative list of public laws for the second session of the 96th Congress can be found in the **Reader Aids** section of the issue of January 7, 1981.

18478 **Budget** OMB reports 33 proposals to rescind $2.6 billion in budget authority previously provided by Congress, and one new deferral of $8 million (Part III of this issue)

18430 **Government Securities** Treasury/Sec'y invites tenders for $1,750,000,000 of U.S. securities, designated Treasury Bonds of 2001

18312 **Pensions** PBGC provides interest rates and factors for valuation of benefits in non-multiemployer plans; effective 4-1-81

18401 **Juvenile Delinquency** Justice/OJJDP cancels proposed guideline entitled "Prevention of Juvenile Delinquency Through Capacity Building-Cycle II"

18329 **Elementary and Secondary Education** ED intends to waive applicability of certain Title I, Elementary and Secondary Education Act requirements for the Trust Territory of the Pacific Islands; comments by 4-23-81

CONTINUED INSIDE

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Highlights

18331 **Electric Utilities** DOE/BPA clarifies role of public in negotiation of initial long-term power sales and certain other contracts; effective 3-24-81

18448 **Deep Seabed Mining** Commerce/NOAA proposes procedures and requirements for exploration licenses; comments by 5-29-81; hearings on 4-24, 4-28 and 5-6-81 (Part II of this issue)

18322 **Pesticides** EPA proposes exemptions from regulation for certain organisms which are used as biological control agents and therefore are considered pesticides; comments by 5-26-81

18427 **Coffee** Treasury/Customs issues guidelines and instructions for administration of import and export quotas; effective 3-24-81

18326 **Antidumping** Commerce/ITA issues preliminary results of administrative review of duty order on sugar and syrups from Canada; effective 3-24-81

18309 **Large Cigars** Treasury/BATF eliminates requirements for wholesale price package markings; effective 4-23-81

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

FEDERAL TRADE COMMISSION

16 CFR Part 460

Trade Regulation Rule: Labeling and Advertising of Home Insulation; Partial Exemption for Cellulose Insulation

AGENCY: Federal Trade Commission.

ACTION: Invitation to comment on tentative partial exemption and notice of conditional stay.

SUMMARY: The Federal Trade Commission has tentatively decided to grant an exemption to manufacturers of certain types of cellulose insulation from the requirement in § 460.5(a)(2) of its Trade Regulation Rule on labeling and advertising of home insulation [16 CFR Part 460]. Section 460.5(a)(2) requires that tests to determine R-value of cellulose insulation be conducted at settled density, as determined by the General Services Administration's (GSA) Federal Specification HH–I–515D (June 15, 1978). This partial exemption would be conditioned upon the use of an alternative procedure to determine settled density which is incorporated as Method B, Specification 51–GP–60M (April 1, 1979) of the Canadian Government Specifications Board (CGSB). The Canadian specification permits the calculation of settled density by adjusting a blown density result by a factor of 1.27. The Commission also has issued a conditional stay of the requirement that those cellulose manufacturers use the settled density test procedure which was required by GSA Specification HH–I–515D (June 15, 1978), pending a final Commission decision on the exemption petition. The stay is conditioned on the use of Method B in the CGSB Specification 51–GP–60M.

DATES: Effective date of conditional stay: March 24, 1981. Written comments regarding the Commission's tentative decision to grant the conditional exemption will be accepted until April 23, 1981.

ADDRESSES: Written comments should be addressed to the Secretary, Federal Trade Commission, 6th and Pennsylvania Ave., N.W., Washington, D.C. 20580. All comments should be captioned: "Comment on Proposed Partial Exemption for Cellulose Manufacturers—Home Insulation Rule, FTC File No. 215–59."

FOR FURTHER INFORMATION CONTACT: Kent C. Howerton, 202–724–1515, Attorney, Division of Energy and Product Information, Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580.

SUPPLEMENTARY INFORMATION: On August 31, 1979, the Commission promulgated a Trade Regulation Rule concerning the labeling and advertising of home insulation (44 FR 50218). On August 15, 1980, the Commission announced that the effective date of the rule would be September 29, 1980 (45 FR 54702).

Monotherm Industries, Inc., and ConServ, a Division of Bay State Gas Company, filed a Petition for a partial exemption from the Rule.[1] The Petition seeks a partial exemption from Section 460.5(a)(2) of the Rule, which requires that the R-value of cellulose insulation be determined at its settled density, according to the test procedure set out in General Services Administration (GSA) Federal Specification HH–I–515D. By an advisory opinion issued September 25, 1980, the Commission interpreted this provision to require the use of the test procedure set out in the GSA Specification which was in effect at the time the Rule was promulgated in August, 1979.[2]

This test procedure is generally known as the Canadian drop box test method for determining the settled density of cellulose. At the same time, the Commission stated that it would accept use of the results of the settled density test procedure required by the current version of the GSA specification [3] as compliance with § 460.5(a)(2) of the Rule.[4] That test procedure is generally known as the cyclone shaker test method.

In support of their Petition for a partial exemption, Monotherm and ConServ argue that the Canadian drop box test method is presently impossible to conduct because of the lack of qualified laboratories; that the Canadian authorities have concluded that a portion of the original drop box test is unnecessary; and that the Canadian authorities have developed a simple, inexpensive, and efficient procedure for determining settled density which provides test results substantially comparable to the full Canadian drop box test. They also assert that the cyclone shaker test is unacceptable to them because it allegedly overstates cellulose settled density. Therefore, Petitioners urge that they, and other manufacturers of cellulose, be exempted from the test procedure required by § 460.5(a)(2), conditioned on their use of the simpler procedure developed by the Canadian authorities.

Section 18(g) of the Federal Trade Commission Act permits the Commission to grant exemptions from Trade Regulation Rules where the "application of a rule * * * to any person or class of persons is not necessary to prevent the unfair or deceptive act or practice to which the rule relates * * *."[5] The unfair or deceptive act or practice which § 460.5(a)(2) is intended to prevent is the overstatement of the R-value and

---

[1] Copies of the Petitioners' cover letter dated December 18, 1980, and the petition are available for public inspection as documents X–13 and X–14, respectively, in F.T.C. File No. 215–59. Copies of Petitioners' cover letter dated January 16, 1981, and an enclosed exhibit supplementing the Petition are available for public inspection as documents X–15 and X–16, respectively, in F.T.C. File No. 215–59.

[2] GSA Federal Specification HH–I–515D (June 15, 1978).

[3] GSA Federal Specification HH–I–515D, Amendment–1 (October 11, 1979).

[4] In the advisory opinion issued September 25, 1980, the Commission noted that it would permit (but not require) the use of an alternative test procedure known as the cyclone shaker test. The Commission took this action in view of the fact that the GSA specification referenced by the Rule was amended shortly after the Rule was promulgated to require that R-values be determined at the settled density determined by the cyclone shaker test, rather than by the Canadian drop box test. Consequently, there was significant confusion in the industry as to which test procedure was required under the Rule, compounded by erroneous staff advice. In addition, the Commission recognized that both the Consumer Product Safety Commission (CPSC) and GSA currently required cellulose manufacturers to conduct the cyclone shaker test for purposes of conducting flammability tests. To avoid unnecessary compliance costs imposed by a different test, and taking into account its required use by the two federal agencies, the Commission decided to permit its use.

[5] 15 U.S.C. § 57a(g)(2).

coverage area of cellulose insulation which is due to the failure to account for the effect of settling on its R-value and coverage area. A specific test procedure was prescribed to ensure, to the extent technically feasible, that a uniform and accurate method is used to eliminate this overstatement of R-value. The test requirement ensures that consumers will not only get accurate information about the R-value they will receive, but also uniform information which can be used to compare competing brands of cellulose. To the extent that the proposed alternative procedure produces results comparable to the drop box test, while reducing compliance costs, the Rule's purposes and the public interest would be served by permitting the alternative method of compliance. The most important question is therefore whether the proposed alternative procedure does yield substantially equivalent results.

The Canadian drop box test was developed by National Research Council of Canada (NRCC), an organization roughly comparable to the National Bureau of Standards, based on research it had conducted. The test consists of blowing cellulose at a prescribed application rate and angle into standardized containers to determine a "blown" density. The containers next are dropped six times from a specified height, and then exposed to controlled temperature and humidity cycling for at least twenty-eight days. The settled density of the product is then determined by measurement.

NRRC researchers conducted a series of tests to determine if a numerical correlation could be drawn between simple "blown" density and the settled density results of the full drop box procedure.[6] The researchers took 82 samples of 56 cellulose insulation materials and determined blown and settled density according to the full Canadian drop box test. Based on the results of these tests,[7] the researchers concluded that the average product settled 21.5%. More importantly, they also found that most products "behave as the hypothetical average product." [8] Therefore, the researchers concluded that settled density could be determined accurately and simply by multiplying the blown density by the factor of 1.27, which is equivalent to a 21.5% settling effect.[9] Subsequently, the Canadian government's specification was changed to permit the use of this factor in determining settled density for coverage charts.[10]

Having reviewed the NRCC reports, the Commission has tentatively determined that this "factor" procedure adequately reproduces the results that would be achieved by the full drop-box test for those types of cellulose insulation studied. The Commission believes, however, that interested parties should have an opportunity to comment on the "factor" procedure's accuracy and correlation with the full drop box test. Therefore, the Commission will accept public comment on this issue for a period of 30 days.

In addition to considering whether the "factor" procedure is accurate and correlates with the drop box test, the Commission must also weigh the effects of granting the relief sought. Clearly, the major benefits from permitting the use of the factor procedure in lieu of the full drop box test are the lower cost of the factor method and the increased speed with which it can be conducted. No special humidity-temperature chambers are needed; no lengthy cycling period is required. Especially since most cellulose manufacturers are small businesses, minimizing compliance costs is an important goal.

However, the Commission solicits public comment on any adverse effects that might result from adopting the "factor" procedure. For example, to the extent that some cellulose products settle more or less than the average 21.5%, the use of the factor will lead to labeled R-values which are different than those actually obtained by consumers who buy the non-average product. This may be particularly of concern with respect to cellulose materials which may settle significantly more than average. In that instance, the consumer will be getting less R-value than that represented on the label and fact sheet. While the Canadian research data indicates that only a few products fall into this category, and that the resulting distortion is not great,[11] the Commission is interested in receiving public comment on this issue.

In addition, the factor of 1.27 was derived only from certain types of cellulose products.[12] Thus, while the majority of cellulose manufacturers should be able to use the factor procedure, some might not.[13] Those whose products are different from those upon which the Canadian factor was based would not be able to use the alternative factor method. Thus, while it appears that allowing the alternative use of the Canadian factor method will overcome the alleged burdensomeness involved in the full "drop box" test procedure for some products, the fact that the factor method may not be appropriate for all cellulose products could have some adverse impact on the ability of these other cellulose manufacturers to compete. The Commission believes that public comment can indicate whether such an effect is likely to occur.

Weighing the benefits and potential adverse effects, the Commission has tentatively decided to grant a partial exemption from the testing requirements of § 460.5(a)(2) based on use of the proposed factor procedure.

The question also arises whether interim relief should be granted, pending the completion of the exemption proceeding. The Canadian data, and the action of the Canadian government in incorporating the factor procedure into its specification, present a strong *prima facie* case for the accuracy of the factor procedure. Since this is the same organization responsible for the development of the test upon which the Commission presently relies, it is appropriate for the Commission to give serious weight to the improvements or simplifications it has created. Further, there is no question but that the drop box test is expensive and time-consuming. In view of these facts, the Commission sees no compelling reason to require manufacturers of the types of cellulose materials tested by NRCC to use the drop box test pending the conclusion of the exemption proceeding. Therefore, the Commission has granted a temporary partial stay of § 460.5(a)(2) for those cellulose manufacturers, if they use the factor procedure, including the initial determination of blown density, which is embodied in method B in the Canadian specification.

---

[6] M. Bomberg and C. J. Shirtliffe, Comments on Standardization of Density and Thermal Resistance Testing of Cellulose Fiber Insulation for Horizontal Applications, Building Research Note #147, National Research Council of Canada (May, 1979). A copy is available for public inspection as document Y-1 in F.T.C. File No. 215-80.

[7] *Id.*, at Table. 1.

[8] *Id.*, at p.2. The standard deviation was only 1.9%. Ninety-three percent of the measurements of total settlement varied within only a ±3.5% spread.

[9] *Id.*, at Appendix A.

[10] *See* CGSB standard 51-GP-80M. A copy is available for public inspection as document number X-10 in F.T.C. File No. 215-80.

[11] *Supra* note 6, at Table 1. Only 2 of the 82 samples tested settled more than 3.5% more than the average, and both were under 4%.

[12] *Supra* note 6, at p.2. The data apply only to newsprint-based cellulose treated with borax and boric acid, or with boric acid, or with borax, boric acid and aluminum sulphate based chemical compositions.

[13] The proposed conditional exemption to allow the alternative use of the Canadian factor procedure to determine settled density is limited at this time to those cellulose products which are substantially the same as those which are included in the Canadian data. *Id.*

Following the comment period, the Commission will review the comments received and will determine whether to make permanent its decision to grant a partial exemption conditioned upon use of the factor, or to rescind its tentative decision and its conditional stay, or to take other action.

By direction of the Commission.

Carol M. Thomas,

Secretary.

BILLING CODE 6750-01-M

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

27 CFR Parts 270, 275, 290, and 295

[TD ATF-80]

Large Cigars; Deletion of Wholesale Price Marks on Packages

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF).

ACTION: Final rule (Treasury decision).

SUMMARY: This rule deletes regulations in 27 CFR Parts 270, 275, 290, and 295 for wholesale price markings on packages of large cigars. The marking requirements were originally added by a Treasury decision published January 26, 1977, but were temporarily suspended pending further study by the Bureau. This study has been completed, and ATF has decided not to require manufacturers and importers to show wholesale price information on packages of large cigars. Consequently, the present Treasury decision eliminates all regulatory requirements for wholesale price package markings.

EFFECTIVE DATE: April 23, 1981.

FOR FURTHER INFORMATION CONTACT: Steve Simon, Research and Regulations Branch (202-566-7626), or Melvin T. Bruce, Tobacco Advisor (202-566-7566), Bureau of Alcohol, Tobacco and Firearms, Washington, DC 20226.

SUPPLEMENTARY INFORMATION: On December 3, 1976, ATF published a notice of proposed rulemaking (Notice No. 305, 41 FR 53055). The notice dealt with changes in the basis for taxation of large cigars as required by Public Law 94-455. One of the provisions of that notice proposed that manufacturers and importers mark packages of large cigars with the suggested delivered price to retailers (wholesale price), which is the tax base under the new taxing system. It was explained that this wholesale price information was similar in nature to the previously required tax class information and was pertinent for—

(1) Determination of the tax at the time of removal;

(2) Any subsequent refunds or credits to the manufacturer or importer;

(3) Entries in the manufacturer's records of tax-determined products returned to the factory;

(4) Payments made to wholesale and retail dealers in connection with disaster claims; and

(5) Tax liabilities incurred and satisfied by proprietors of export warehouses.

Numerous comments were received from the industry objecting to the package marking proposal. The commenters said that this would be an extremely costly requirement for the industry, while affording very little benefit to either the Government or industry. The cigar manufacturers agreed that if this requirement were dropped they would be willing to accept refund of large cigar taxes based on the minimum tax applicable during a specified period preceding the date of the claim.

The Bureau felt that with built in regulatory safeguards protecting the Government in case of withdrawals from the market, and with similar provisions requiring payment of the maximum tax for losses and shortages at export warehouses, wholesale price information on packages might not be essential. Consequently, the regulations as adopted in Treasury Decision ATF-40 (42 FR 4998, January 26, 1977) suspended the provisions relating to wholesale price information pending a study of the need for such information, and solicited additional public comment that would be relevant to this study.

The study consisted of on-site inspections of export warehouses and tobacco products factories. Information was sought regarding known problems associated with the absence of wholesale price package markings, as a result of the suspension of regulatory requirements already discussed. The results of the study showed that since industry had offered (in response to the notice of proposed rulemaking) to give the Government maximum tax except where industry furnished evidence to show that a lesser amount was due, package price markings were not very important. Furthermore, it was shown that, in those cases where wholesale price markings would have been useful, other records were generally available to supply the same information. This left only a few isolated instances where the lack of specific information regarding wholesale price would require the Bureau to collect the maximum tax or refund the minimum amount applicable to that brand and front mark recorded during the record retention period (about three years). It is clear, from the industry comments received, that it would be far preferable to the cigar industry to accept these adjustments than to be required to mark packages of large cigars with the wholesale price information.

A records simplification that is made by this Treasury decision provides an option in 27 CFR 270.183 for all large cigars with a wholesale price of more than $235.294 per thousand to be combined for record purposes. This is one of the possible changes for which public comment was requested in the preamble to Treasury Decision ATF-40. In accordance with ATF's program for improving the clarity of regulations, occasional non-substantive stylistic changes are also made.

Drafting Information

The principal authors of this document were Dorene F. Erhard and Steve Simon of the Research and Regulations Branch, Bureau of Alcohol, Tobacco and Firearms. However, other personnel from offices of the Bureau of Alcohol, Tobacco and Firearms and from the Department of the Treasury participated in developing these regulations, in matters affecting both substance and style.

Authority and Issuance

This Treasury Decision is issued pursuant to Notice No. 305 (41 FR 53055) and Treasury Decision AFT-40 (42 FR 4998).

This Treasury decision is issued under the authority found in 26 U.S.C. 7805 (68A Stat. 917).

Accordingly, the regulations in 27 CFR Parts 270, 275, 290, and 295 are amended as follows:

PART 270—MANUFACTURE OF CIGARS AND CIGARETTES

Paragraph A. The following amendments are made to 27 CFR Part 270:

1. Paragraph (b) of § 270.21, listing large cigar tax rates that were in effect prior to February 1, 1977, is deleted because it is obsolete. Paragraph (a) is divided into two paragraphs. As amended, § 270.21 is revised to read as follows:

§ 270.21 Cigar tax rates.

(a) On cigars, manufactured in or imported into the United States, the following taxes are imposed by law:

(1) *Small cigars.* Seventy-five cents per thousand.

(2) *Large cigars.* Eight and one-half percent of the wholesale price, but not more than $20 per thousand.

(b) Cigars not exempt from tax under 26 U.S.C. Chapter 52 and the provisions of this part which are removed but not intended for sale are taxed at the same rate as similar cigars removed for sale.

(Sec. 202, Pub. L. 85-859, 72 Stat. 1414, as amended by sec. 2128, Pub. L. 94-455, 90 Stat. 1921 (26 U.S.C. 5701))

2. In § 270.183, material relating to suspension of wholesale price markings is deleted; the requirement for recording wholesale prices of tax-determined large cigars is deleted; and an option is added which will allow the record of large cigars removed subject to tax with a wholesale price at or above the highest tax category ($20 per thousand) to be shown as if the wholesale price were $236 per thousand. As amended, § 270.183 is revised to read as follows:

§ 270.183 Record of cigars and cigarettes.

The record of a manufacturer of tobacco products shall show the date and total quantities of all cigars and cigarettes, by kind (small cigars—large cigars; small cigarettes—large cigarettes):

(a) Manufactured;

(b) Received in bond by—

(1) Transfer from other factories,

(2) Release from customs custody, and

(3) Transfer from export warehouses;

(c) Received by return to bond;

(d) Disclosed as an overage by inventory;

(e) Removed subject to tax (by wholesale price for large cigars, except that those over $235.294 per thousand may optionally be shown as if the wholesale price were $236 per thousand;

(f) Removed, in bond, for—

(1) Export,

(2) Transfer to export warehouses,

(3) Transfer to other factories,

(4) Use of the United States, and

(5) Experimental purposes off factory premises;

(g) Otherwise disposed of, without determination of tax, by—

(1) Consumption by employees on factory premises,

(2) Consumption by employees off factory premises, together with the number of employees to whom furnished,

(3) Use for experimental purposes on factory premises,

(4) Loss,

(5) Destruction, and

(6) Reduction to tobacco;

(h) Disclosed as a shortage by inventory; and

(i) On which the tax has been determined and which are—

(1) Received, and

(2) Disposed of.

(Sec. 2128(c), Pub. L. 94-455, 90 Stat. 1921 (26 U.S.C. 5741))

3. Paragraphs (b), (c), and (d) of § 270.214, relating to expression of wholesale price on packages of large cigars, are deleted. Paragraph (a) of that section is rephrased for improved clarity. As amended, § 270.214 is revised to read as follows:

§ 270.214 Notice for cigars.

Before removal subject to tax, every package of cigars shall have adequately imprinted on it, or on a label securely affixed to it—

(a) The designation "cigars";

(b) The quantity of cigars contained in the package; and

(c) For small cigars, the classification of the product for tax purposes (i.e., either "small" or "little").

(Sec. 202, Pub. L. 85-859, 72 Stat. 1422 (26 U.S.C. 5723))

4. Material in § 270.311 relating to the suspension of wholesale price package markings is deleted. Other material in this section is redrafted for improved clarity. As amended, § 270.311 is revised to read as follows:

§ 270.311 Action by claimant.

(a) *General.* Where cigars and cigarettes are withdrawn from the market and the manufacturer desires to file claim under the provisions of § 270.282 or § 270.283, he shall assemble the products in or adjacent to a factory if they are to be returned to bond or at any suitable place if they are to be destroyed or reduced to tobacco. The manufacturer shall group the products according to the rates of tax applicable to the products, and shall prepare a schedule of the products, on ATF Form 3069 (5200.7), in triplicate. All copies of the schedule shall be forwarded to the regional regulatory administrator for the region in which the products are assembled.

(b) *Large cigars.* Refund or credit of tax on large cigars withdrawn from the market is limited to the minimum amount applicable to that brand and size of cigar during the required record retention period (see § 270.185), except where the manufacturer establishes that a greater amount was actually paid. For each claim involving large cigars withdrawn from the market the manufacturer shall include a certification on either ATF Form 3069 (5200.7), ATF Form 2635 (5620.8), or IRS Form 843, to read as follows: "The amounts claimed relating to large cigars are based on the lowest wholesale prices applicable to the cigars during the required record retention period, except where specific documentation is submitted with the claim to establish that any greater amount of tax claimed was actually paid."

(Sec. 202, Pub. L. 85-859, 72 Stat. 1419, as amended (26 U.S.C. 5705))

PART 275—IMPORTATION OF CIGARS, CIGARETTES, AND CIGARETTE PAPERS AND TUBES

Par. B. The following amendments are made to the regulations in 27 CFR Part 275:

1. Paragraph (b) of § 275.31, listing tax rates that were in effect prior to February 1, 1977, is deleted because it is obsolete. Paragraph (a) is divided into two paragraphs. As amended, § 275.31 is revised to read as follows:

§ 275.31 Cigars.

(a) On cigars imported or brought into the United States, the following internal revenue taxes are imposed by law:

(1) *Small cigars.* Seventy-five cents per thousand.

(2) *Large cigars.* Eight and one-half percent of the wholesale price, but not more than $20 per thousand.

(b) Cigars not exempt from tax under this part which are removed but not intended for sale are taxed at the same rate as similar cigars removed for sale.

(68A Stat. 907, as amended (26 U.S.C. 7652); sec. 202, Pub. L. 85-859, 72 Stat. 1414, as amended by sec. 2128, Pub. L. 94-455, 90 Stat. 1921 (26 U.S.C. 5701))

2. Paragraphs (b), (c), and (d) of § 275.73, relating to expression of wholesale price on packages of large cigars, are deleted. Paragraph (a) is rephrased for greater clarity. As amended, § 275.73 is revised to read as follows:

§ 275.73 Notice for cigars.

Before removal subject to internal revenue tax, every package of cigars, except as provided in § 275.75, shall have adequately imprinted on it, or on a label securely affixed to it—

(a) The designation "cigars";

(b) The quantity of cigars contained in the package; and

(c) For small cigars, the classification of the product for tax purposes (i.e., either "small" or "little").

(Sec. 202, Pub. L. 85-859, 72 Stat. 1422 (26 U.S.C. 5723))

3. A reference in § 275.139 to the temporary suspension of wholesale price markings is deleted. Other material in § 275.139 is rephrased for

improved clarity. As amended, § 275.139 is revised to read as follows:

§ 275.139 Records.

Every manufacturer of tobacco products and cigarette papers and tubes in the United States who receives cigars, cigarettes, or cigarette papers or tubes or Puerto Rican manufacture, without payment of internal revenue tax, under his bond, shall keep separate records of all items received, removed subject to tax, removed for tax-exempt purposes, and otherwise disposed of, showing the following information:

(a) Date, quantity, and kind of cigars and cigarettes (small cigars—large cigars; small cigarettes—large cigarettes).

(b) The wholesale price of large cigars removed subject to tax, except that if the wholesale price is more than $235.294 per thousand, it may be shown as if it were $236 per thousand.

(c) The date and number of books or sets of cigarette papers of each different numerical content.

(d) The date and number of cigarette tubes.

(Sec. 2128(c), Pub. L. 94-455, 90 Stat. 1921 (26 U.S.C. 5741))

4. Material in § 275.170, relating to the temporary suspension of wholesale price package markings, is deleted. Other minor changes are made in this section to improve its readability. As amended, § 275.170 is revised to read as follows:

§ 275.170 Destruction or reduction to tobacco, action by taxpayer.

(a) *General.* Where cigars, cigarettes, and cigarette papers and tubes which have been imported or brought into the United States are withdrawn from the market and the taxpayer desires to file claim for refund of the tax on the articles, he shall, in addition to the requirements of § 275.163, assemble the articles at any suitable place, if they are to be destroyed or reduced to tobacco. The taxpayer shall group the articles according to the rates of tax applicable to the articles, and shall prepare a schedule of the articles on ATF Form 3069 (5200.7), in triplicate. All copies of the schedule shall be forwarded to the regional regulatory administrator for the region in which the cigars, cigarettes, and cigarette papers and tubes are assembled.

(b) *Large cigars.* Refund or credit of tax on large cigars withdrawn from the market is limited to the minimum amount applicable to that brand and size of cigar during the required record retention period (see § 275.22) except where the importer establishes that a greater amount was actually paid. For each claim involving large cigars withdrawn from the market the importer shall include a certification on either ATF Form 3069 (5200.7), ATF Form 2635 (5620.8), or IRS Form 843, to read as follows: "The amounts claimed relating to large cigars are based on the lowest wholesale prices applicable to the cigars during the required record retention period except where specific documentation is submitted with the claim to establish that any greater amount of tax claimed was actually paid."

(Sec. 202, Pub. L. 85-859, 72 Stat. 1419, as amended (26 U.S.C. 5705))

5. Material in § 275.172, relating to the temporary suspension of wholesale price package marking requirements, is deleted. Other minor changes are made in this section to improve its readability. As amended, § 275.172 is revised to read as follows:

§ 275.172 Return to nontaxpaid status, action by taxpayer.

(a) *General.* Where cigars, cigarettes, and cigarette papers and tubes which have been imported or brought into the United States are withdrawn from the market and the taxpayer desires to file a claim for refund of the tax on the articles and return them to a nontaxpaid status, he shall, in addition to the requirements of § 275.163, assemble the articles in or adjacent to the factory in which the articles are to be retained or received in a nontaxpaid status. The taxpayer shall group the articles according to the rates of tax applicable to the articles, and shall prepare a schedule of the articles, on ATF Form 3069 (5200.7), in triplicate. All copies of the schedule shall be forwarded to the regional regulatory administrator for the region in which the cigars, cigarettes, and cigarette papers and tubes are assembled.

(b) *Large cigars.* Refund or credit of tax on large cigars withdrawn from the market is limited to the minimum amount applicable to that brand and size of cigar during the required record retention period (see § 275.22) except where the importer establishes that a greater amount was actually paid. For each claim involving large cigars withdrawn from the market the importer shall include a certification on either ATF Form 3069 (5200.7), ATF Form 2635 (5620.8), or IRS Form 843, to read as follows: "The amounts claimed relating to large cigars are based on the lowest wholesale prices applicable to the cigars during the required record retention period, except where specific documentation is submitted with the claim to establish that any greater amount of tax claimed was actually paid."

(Sec. 202, Pub. L. 85-859, 72 Stat. 1419, as amended (26 U.S.C. 5705))

PART 290—EXPORTATION OF CIGARS, CIGARETTES, AND CIGARETTE PAPERS AND TUBES, WITHOUT PAYMENT OF TAX, OR WITH DRAWBACK OF TAX

Par. C. The following amendments are made to the regulations in 27 CFR Part 290:

1. Material in § 290.67, relating to the temporary suspension of wholesale price marking requirements, is deleted. As amended, § 290.67 is revised to read as follows:

§ 290.67 Payment of tax.

(a) *General.* The taxes on cigars, cigarettes, and cigarette papers and tubes with respect to which the evidence described in § 290.66 is not timely furnished shall become immediately due and payable. The taxes shall be paid to the district director of internal revenue, for the district in which the factory or export warehouse is located, with sufficient information to identify the taxpayer, the nature and purpose of the payment, and the articles covered by the payment. (ATF Form 4640 (5600.5) may be used for this purpose.)

(b) *Large cigars.* The amount of tax liability on large cigars shall be based on the maximum tax rate of $20 per thousand unless the person liable for the tax establishes that a lower tax rate is applicable.

2. In § 290.143, the requirement for separate inventories of large cigars with wholesale prices above and below $235.294 per thousand is eliminated. Also, the reference to suspension of package marking requirements is deleted. As amended, § 290.143 is revised to read as follows:

§ 290.143 General.

(a) Every export warehouse proprietor shall make a true and accurate inventory on ATF Form 3373 (5220.3) to the regional regulatory administrator, of the numbers of (1) small cigars, (2) large cigars, (3) small cigarettes, (4) large cigarettes, (5) cigarette papers and (6) cigarette tubes, held by him at the times specified in this subpart.

(b) This inventory shall be subject to verification by an ATF officer. A copy of each inventory shall be retained by the export warehouse proprietor for 2 years following the close of the calendar year in which the inventory is made and shall be made available for inspection by any ATF officer upon his request.

(Sec. 202, Pub. L. 85-859, 72 Stat. 1422 (26 U.S.C. 5721))

3. The regulations in § 290.186 are amended to remove the requirement for wholesale price package markings on packages of large cigars. Paragraphs (b), (c), and (d) are deleted, and the other material in the section is redrafted for improved clarity. As amended, § 295.186 is revised to read as follows:

§ 290.186 Tax classification for cigars.

Before removal from a factory under this subpart, every package of cigars shall have adequately imprinted on it, or on a label securely affixed to it—

(a) The designation "cigars";

(b) The quantity of cigars contained in the package; and

(c) For small cigars, the classification of the product for tax purposes; (i.e., either "small" or "little").

(Sec. 202, Pub. L. 85-859, 72 Stat. 1422 (26 U.S.C. 5723))

4. The requirement for wholesale price package markings is removed from § 290.253 by deleting paragraphs (b), (c), and (d). Also, the other material in the section is redrafted for improved clarity. As amended, § 290.253 is revised to read as follows:

§ 290.253 Tax classification for cigars.

Before withdrawal of cigars from a customs warehouse under this subpart, every package of cigars shall have adequately imprinted on it, or on a label securely affixed to it—

(a) The designation "cigars";

(b) The quantity of cigars contained in the package; and

(c) For small cigars, the classification of the product for tax purposes (i.e., either "small" or "little").

(Sec. 202, Pub. L. 85-859, 72 Stat. 1422 (26 U.S.C. 5723))

PART 295—REMOVAL OF CIGARS, CIGARETTES, AND CIGARETTE PAPERS AND TUBES, WITHOUT PAYMENT OF TAX, FOR USE OF THE UNITED STATES

Par. D. The regulations in 27 CFR 295.44 are amended to remove the requirement for wholesale price package markings. Paragraphs (b), (c), and (d) are deleted, and the other material in the section is redrafted for more clarity. As amended, § 295.44 is revised to read as follows:

§ 295.44 Notice for cigars.

Before removal under this part, every package of cigars shall have adequately imprinted on it, or on a label securely affixed to it—

(a) The designation "cigars";

(b) The quantity of cigars contained in the package; and

(c) For small cigars, the classification of the product for tax purposes (i.e., either "small" or "little").

(Sec. 202, Pub. L. 85-859, 72 Stat. 1422 (26 U.S.C. 5723))

Signed: December 4, 1980.

G. R. Dickerson,

Director.

Approved: February 3, 1981.

John P. Simpson,

Acting Assistant Secretary (Enforcement and Operations).

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Part 2610

Valuation of Plan Benefits in Non-Multiemployer Plans; Amendment Adopting Additional PBGC Rates

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule; technical amendment.

SUMMARY: This amendment to the regulation on Valuation of Plan Benefits in Non-Multiemployer Plans contains the interest rates and factors for the period beginning April 1, 1981. The interest rates and factors are to be used to value benefits provided under terminating non-multiemployer pension plans covered by Title IV of the Employee Retirement Income Security Act of 1974, 29 U.S.C. 1001 *et seq.* (1976), *as amended by* the Multiemployer Pension Plan Amendments Act of 1980, Pub. L. No. 96-364, 94 Stat. 1208, (the "Act").

This amendment is necessary to provide rates for the period beginning April 1, 1981 to be used with the formulas under the Valuation of Plan Benefits in Non-Multiemployer Plans regulation which becomes effective April 1, 1981. This amendment adopts the same rates as those adopted in the amendment to the Interim regulation on Valuation of Plan Benefits which was published March 13, 1981 (46 FR 16085). These rates and factors will remain in effect until PBGC publishes a notice revising them.

EFFECTIVE DATE: April 1, 1981.

FOR FURTHER INFORMATION CONTACT: Ms. Nina R. Hawes, Staff Attorney, Office of the General Counsel, Pension Benefit Guaranty Corporation, 2020 K Street NW., Washington, D.C. 20006, 202-254-3010.

SUPPLEMENTARY INFORMATION: On January 28, 1981, the Pension Benefit Guaranty Corporation (the "PBGC") issued a final regulation establishing the methods for valuing plan benefits of terminating non-multiemployer plans covered under Title IV of the Employee Retirement Income Security Act of 1974, as amended, (46 FR 9602 *et seq.*). On March 13, 1981, the PBGC published an amendment to the Interim regulation on Valuation of Plan Benefits containing rates for plans that terminate on or after April 1, 1981 (46 FR 16085). This notice is a technical amendment which conforms the interest rates and factors in the final rule to the rates published on March 13.

Accordingly, Appendix B of the Final Rule on Valuation of Plan Benefits in Non-Multiemployer Plans is amended by this document to add a set of interest rates and factors for plans that terminate on or after April 1, 1981. These rates and factors will remain in effect until such time as PBGC publishes another notice which changes the rates.

Because the Multiemployer Pension Plan Amendments Act of 1980 established a new insurance program for multiemployer plans, we note that the rates and factors added by this publication are applicable to non-multiemployer plans only.

The PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This determination is based on the need to determine and issue new interest rates and factors promptly, so that the rates can reflect, as accurately as possible, current market conditions. The PBGC has found that the public interest is best served by issuing the rates and factors on a prospective basis so that plans may be able to calculate the value of plan benefits before submitting a notice of intent to terminate. Also, plans will be able to predict employer liability more accurately prior to plan termination. Moreover, because of the need to provide immediate guidance for the valuation of benefits under plans that will terminate on or after April 1, 1981, and because no adjustment by ongoing plans is required by this amendment, the PBGC finds that good cause exists for making the rates set forth in this amendment to the final regulation effective less than 30 days after publication.

The PBGC has determined that this is not a "major rule" under the criteria set forth in Executive Order 12291 of February 17, 1981, (46 FR 13193) because it will not result in an annual effect on the economy of $100 million or more, a major increase in costs for consumers or

individual industries, or significant adverse effects on competition, employment, investment, productivity, innovation or competition.

In consideration of the foregoing, Part 2610 of Chapter XXVI, Title 29, Code of Federal Regulations, is hereby amended by revising the heading of Table XXIII and by adding a new Table XXIV to Appendix B, as follows:

Appendix B—Interest Rates and Quantities Used To Value Immediate and Deferred Annuities

* * * * *

XXIII. *The following interest rates and quantities used to value benefits shall be effective for plans that terminate on or after February 1, 1981 and before April 1, 1981.*

* * * * *

XXIV. *The following interest rates and quantities used to value benefits shall be effective for plans that terminate on or after April 1, 1981.*

I. *Interest rate for valuing immediate annuities.*

An interest rate of 10 percent shall be used to value immediate annuities, to compute the quantity "G," for deferred annuities and to value both portions of a cash refund annuity.

II. *Interest rate for valuing death benefits.*

An interest rate of 5 percent shall be used to value death benefits other than the decreasing term insurance portion of a cash refund annuity.

III. *Interest rates and quantities used for valuing deferred annuities.*

The following factors shall be used to value deferred annuities:

(1) $k_1 = 1.0025$
(2) $k_2 = 1.06$
(3) $k_3 = 1.04$
(4) $n_1 = 7$
(5) $n_2 = 8$

(Secs. 4002(b)(3), 4041(b), 4044, 4062(b)(1)(A), Pub. L. 93-406, 88 Stat. 1004, 1020, 1025-27, 1029, (1974), as amended by Secs. 403(1), 403(d) and 402(a)(7), Pub. L. 96-364, 94 Stat. 1302, 1301, 1299, (1980))

Issued at Washington, D.C., on this 19th day of March, 1981.

Robert E. Nagle,

Executive Director, Pension Benefit Guaranty Corporation.

BILLING CODE 7708-01-M

DEPARTMENT OF DEFENSE

Department of the Navy

32 CFR Part 762

Midway Islands Code

AGENCY: Department of the Navy, Department of Defense.

ACTION: Final rule.

SUMMARY: The Department of the Navy is amending the Midway Islands Code, codified in 32 CFR Part 762, to reflect certain recent administrative and organizational changes. Specifically, U.S. Naval Station, Midway Island, has been disestablished, and the functions once performed by the Naval Station relating to the administration of the Midway Islands have been transferred to the U.S. Naval Air Facility, Midway Island. In addition, the Fourteenth Naval District has been disestablished, and area coordination responsibilities formerly assigned to the Commandant, Fourteenth Naval District, have been reassigned to Commander, Naval Base Pearl Harbor. Therefore, the Midway Islands Code is being amended by substituting the words "U.S. Naval Air Facility" wherever the words "U.S. Naval Station" now appear, and by substituting the words "Commander, Naval Base Pearl Harbor" for the words "Commandant, Fourteenth Naval District."

EFFECTIVE DATE: March 24, 1981.

FOR FURTHER INFORMATION CONTACT: Staff Judge Advocate, Commander Naval Base, Pearl Harbor, HI 96860 (808) 471-0291.

Accordingly, 32 CFR Part 762 is amended as follows:

§§ 762.4, 762.8, 762.28, 762.34, 762.42, 762.50, 762.55, 762.58, 762.80, 762.92 [Amended]

1. In the sections and subsections of Part 762 listed immediately below, remove the words "U.S. Naval Station" and substitute therefor the words "U.S. Naval Air Facility":

762.4(b)
762.8, lines 4, 10–11 and 16
762.28(b), lines 3 and 5
762.34(a)
762.42
762.50(a)
762.55
762.58(b)
762.80(a)(2)
762.92

§§ 762.52 and 762.72 [Amended]

2. In the following sections and subsections of Part 762, remove the words "Commandant, Fourteenth Naval District" and substitute therefor the words "Commander, U.S. Naval Base, Pearl Harbor":

762.52
762.72(a)
762.72(c)
762.72(d)
762.72(e), lines 1–2 and 5–6

(Sec. 48, 74 Stat. 424; 3 U.S.C. 301, E.O. 11048, 3 CFR, 1959–1963 Comp., p. 632, (1962))

Dated: March 17, 1981.

P. B. Walker,

Captain, JAGC, U.S. Navy Alternate Federal Register Liaison Officer.

39 CFR Part 10

International Express Mail Rates

Correction

In FR Doc. 81-8042, appearing at page 17016, in the issue of Tuesday, March 17, 1981, make the following change:

On Page 17019, third column, Table 17, the rate for two pounds, reading "29.00" should be changed to read "29.90".

BILLING CODE 1505-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[PP 9E2194/R304; PH-FRL 1786-1]

Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities; Methidathion

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for the residues of the insecticide methidathion (*O,O*-dimethylphosphorodithioate, *S*-ester with 4-(mercaptomethyl)-2-methoxy-Δ²-1,3,4-thiadiazolin-5-one) and its metabolite in or on the raw agricultural commodity mangos at 0.05 part per million (ppm). This regulation was requested by the Interregional Project No. 4 (IR-4). This regulation establishes the maximum permissible level for residues of the subject insecticide in or on mangos.

EFFECTIVE DATE: March 24, 1981.

ADDRESSES: Written objections may be submitted to the: Hearing Clerk, Environmental Protection Agency, Rm. M-3708 (A-110), 401 M St. SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Clinton Fletcher, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 509C, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7123).

SUPPLEMENTARY INFORMATION: EPA issued a notice that was published in the Federal Register of December 24, 1980 (45 FR 85103) that the Interregional Research Project No. 4 (IR–4), New Jersey Agricultural Experiment Station, PO Box 231, Rutgers University, New Brunswick, NJ 08903, had submitted pesticide petition number 9E2194 to EPA on behalf of the IR–4 Technical Committee and the Agricultural Experiment Station of Florida.

This petition requested that the Administrator, pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act, establish a tolerance for residues of the insecticide methidathion (*O,O*-dimethylphosphorodithioate, *S*-ester with 4-(mercaptomethyl)-2-methoxy-$\Delta^2$1,3,4,-thiadiazolin-5-one) and its methabolites in or on the raw agricultural commodity mangos at 0.05 part per million.

No comments or requests for referral to an advisory committee were received in response to this proposed regulation.

The data submitted in the petition and all other relevant material have been evaluated. The pesticide is considered useful for the purpose for which the tolerance is sought. It is concluded that the tolerance will protect the public health. Therefore, 40 CFR Part 180 is amended as set forth below.

Any person adversely affected by this regulation may, on or before April 23, 1981, file written objections with the Hearing Clerk, EPA, Rm. M–3708 (A–110), 401 M St. SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to section 8(b) of that Order.

Effective Date: March 24, 1981.

(Sec. 408(e), 68 Stat. 514 (21 U.S.C. 346a(e)))

Dated: March 9, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

Therefore, Subpart C of 40 CFR Part 180 is amended by alphabetically inserting the raw agricultural commodity "mangos" in the table under § 180.298 to read as follows:

§ 180.298 Methidathion; tolerances for residues.

* * * * *

Commodities	Parts per million
* * * * *	
Mangos	0.05
* * * * *	

[FR Doc. 81-8888 Filed 3-23-81; 8:45 am]

BILLING CODE 6560-32-M

40 CFR Part 180

[OPP-300038A; PH-FRL 1785-8]

Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities; 2,4-D Isopropyl Ester

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a regulation revising 40 CFR 180.142(a) by allowing the postharvest use of 2,4-*D* isopropyl ester in or on the raw agricultural commodity citrus fruits at 5 parts per million. This regulation was requested by the Interregional Research Project No. 4 (IR–4). This regulation establishes the maximum permissible level of 2,4-*D* isopropyl ester in or on the citrus fruits at 5 parts per million resulting from postharvest application.

DATE: Effective on March 24, 1981.

ADDRESS: Written objections may be submitted to the Hearing Clerk, Environmental Protection Agency, Rm. M–3708 (A–110), 401 M St. SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Clinton Fletcher, Registration Division (TS–767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 509C, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (202–557–7123).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the Federal Register of December 24, 1980 (45 FR 85105) that the Interregional Research Project No. 4 (IR–4), New Jersey Agricultural Experimental Station, PO Box 231, Rutgers University, New Brunswick, NJ 08903, had submitted a pesticide petition (6E1797) to the EPA on behalf of the IR–4 Technical Committee and the Agricultural Experimental Station of California. The petition proposed that 40 CFR 180.142(a) be amended to allow the postharvest use of the 2,4-*D* isopropyl ester in or on citrus fruits under the established 5 ppm tolerance for citrus.

No comments or requests for referral to an advisory committee were received in response to this proposed regulation. Therefore, it is concluded that the tolerance will protect the public health and is established as set forth below.

Any person adversely affected by this regulation may, on or before April 23, 1981, file written objections with the Hearing Clerk, EPA, Rm. M–3708 (A–110), 401 M St. SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this regulation from OMB review requirements of Executive Order 12291 pursuant to section 8(b) of that Order.

Effective date: March 24, 1981.

(Sec. 408(e), 68 Stat. 514, (21 U.S.C. 346a(e)))

Dated: March 9, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

Therefore, Subpart C of 40 CFR Part 180 is amended by revising paragraph (a) under § 180.142 to read as follows:

§ 180.142 2,4-D; tolerances for residues.

(a) Tolerances are established for residues of the herbicide, plant growth regulator, and fungicide 2,4-*D* (2,4-dichlorophenoxyacetic acid) in or on the raw agricultural commodities as follows: 5 parts per million in or on apples, citrus fruits, pears, and quinces. The tolerance on citrus fruits also includes residues of 2,4-*D* (2,4-dichlorophenoxyacetic acid) from the preharvest application of 2,4-*D* isopropyl ester and 2,4-*D* butoxyethyl ester and from the postharvest application of 2,4-*D* alkanolamine salts and 2,4-*D* isopropyl ester to citrus fruits.

* * * * *

BILLING CODE 6560-32-M

40 CFR Part 180

[PH-FRL 1786-3; PP 4E1454/R362]

Diphenamid; Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for the herbicide diphenamid including its desmethyl metabolite on raspberries at 1.0 part per million (ppm). This regulation was requested by the Interregional Project No. 4 (IR-4). This regulation establishes the maximum permissible level for residues of the subject herbicide on raspberries.

EFFECTIVE DATE: Effective on March 24, 1981.

ADDRESS: Written objections may be submitted to the: Hearing Clerk, Environmental Protection Agency, Rm. M-3708 (A-110), 401 M St. SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Clinton Fletcher, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 509C, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7123).

SUPPLEMENTARY INFORMATION: EPA issued a notice that was published in the Federal Register of December 24, 1980 (45 FR 85101) that the Interregional Research Project No. 4 (IR-4), New Jersey Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, NJ 08903, had submitted pesticide petition number 4E1454 to EPA on behalf of the IR-4 Technical Committee and the Agricultural Experiment Station of Maryland.

This petition requested that the Administrator, pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act establish a tolerance for residues of the herbicide diphenamid (*N,N*-dimethyl-2,2-diphenylacetamide) including its desmethyl metabolite (*N*-methyl-2,2-diphenylacetamide) in or on the raw agricultural commodity raspberries at 1.0 ppm.

No comments or requests for referral to an advisory committee were received in response to this proposed regulation.

The data submitted in the petition and all other relevant material have been evaluated. The pesticide is considered useful for the purpose for which the tolerance is sought. It is concluded that the tolerance will protect the public health. Therefore, 40 CFR Part 180 is amended as set forth below.

Any person adversely affected by this regulation may, on or before April 23, 1981, file written objections with the Hearing Clerk, EPA, Rm. M-3708 (A-110), 401 M St. SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to section 8(b) of that Order.

Effective date: March 24, 1981.

(Sec. 408(e), 68 Stat. 514 (21 U.S.C. 346a(e)))

Dated: March 9, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

Therefore, Subpart C of 40 CFR Part 180 is amended by alphabetically adding the raw agricultural commodity "raspberries" under § 180.230 to read as follows:

§ 180.230 Diphenamid; tolerance for residues.

* * * * *

1.0 part per million in or on raspberries.

* * * * *

[PH-FRL 1785-5, OPP-300043A]

Lecithin; Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes an exemption from the requirement of a tolerance for lecithin when used as an inert (or occasionally active) ingredient in pesticide formulations applied to growing crops or to raw agricultural commodities after harvest. This regulation was requested by Decco Tiltbelt Agricultural Technology.

EFFECTIVE DATE: Effective on March 24, 1981.

ADDRESS: Written objections may be submitted to the Hearing Clerk, Environmental Protection Agency, Rm. M-3708 (A-110), 401 M St. SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: John A. Shaughnessy, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 514D, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7110).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the Federal Register of January 19, 1981 (46 FR 5003) that Decco Tiltbelt Agricultural Division, Box 120, 1713 S. California Ave., Monrovia, CA 91016, had submitted a request to the EPA to establish an exemption from the requirement of a tolerance for lecithin under 40 CFR 180.1001(c). No comments or requests for referral to an advisory committee were received in response to this proposal. It has been concluded that the amendment will protect the public health, and therefore, the amendment to the regulation should be adopted as set forth below.

Any person adversely affected by this regulation may, on or before April 23, 1981, file written objections with the Hearing Clerk, EPA, Rm. M-3708 (A-110), 401 M St. SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this regulation from the OMB review requirements of Executive Order 12291 pursuant to section 8(b) of that Order.

For information on the Regulatory Flexibility Act requirements, see the Appendix to this regulation.

Effective date: March 24, 1981.

(Sec. 408(e), 68 Stat. 514, (21 U.S.C. 346a(e)))

Dated: March 13, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

Therefore, Subpart D of 40 CFR Part 180 is to be amended by alphabetically inserting "lecithin" in the list under § 180.1001(c) to read as follows:

§ 180.1001 Exemptions from the requirement of a tolerance.

* * * * *

(c) * * *

Inert ingredient	Limits	Uses
Lecithin	Meeting Food Chemicals Codex specification.	Emulsifier.

Appendix to [OPP-380043A], Lecithin Exemption From Tolerance

Certification Under Regulatory Flexibility Act:

Pursuant to the Regulatory Flexibility Act (Pub. L. 96-343, 94 Stat. 1164, 5 U.S.C. 601-612), all "notice-and-comment" rulemaking which is proposed after January 1, 1981, must be accompanied by a regulatory flexibility analysis, or by a certification by the Administrator that no such analysis is necessary because the regulation will not have a significant economic impact on a substantial number of small entities.

Under secs. 408 and 409 of the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended (21 U.S.C. 346a, 348), the Agency is authorized to establish by regulation tolerance levels, exemptions from the requirements for a tolerance, or food additive levels, for pesticides whose use results in residues on food or feed. The establishment of a tolerance or an exemption or an additive level allows a pesticide product to be registered for a particular use resulting in residues on food or feed. This generally has some beneficial economic impact on the producer, distributor, and professional applicator of the pesticide, as well as on the ultimate user of the pesticide, usually a grower or food processor, who would otherwise not be able to sell crops containing residues of that pesticide. Adverse impacts are usually non-existent or insignificant.

This regulation will allow the use of lecithin in pesticide products applied to food crops. Any costs resulting from this rule would almost certainly be outweighed by the benefits to the registrants of being able to register this additional use.

Accordingly, I hereby certify that this proposed regulation would not, if promulgated, have a significant economic impact on a substantial number of small entities. Therefore, this regulation does not require a regulatory flexibility analysis.

Dated: March 11, 1981.

Walter C. Barber, Jr.,

Acting Administrator.

[FR Doc. 81-8679 Filed 3-23-81; 8:45 am]

BILLING CODE 6560-32-M

40 CFR Part 180

[PH-FRL 1786-2; PP OE2371/R305]

Terbacil; Tolerances and Exemptions From Tolerances for Pesticide Chemicals in or on Raw Agricultural Commodities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This rule establishes a tolerance for the herbicide terbacil and its metabolites on asparagus at 0.2 part per million (ppm). This regulation was requested by the Interregional Project No. 4 (IR-4). This regulation establishes the maximum permissible level for residues of the subject herbicide on asparagus.

EFFECTIVE DATE: Effective on March 24, 1981.

ADDRESSES: Written objections may be filed with the: Hearing Clerk, Environmental Protection Agency, Rm. M-3708 (A-110), 401 M St. SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Clinton Fletcher, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 509C, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7123).

SUPPLEMENTARY INFORMATION: EPA issued a notice that was published in the **Federal Register** of December 24, 1980 (45 FR 85104) that the Interregional Research Project No. 4 (IR-4), New Jersey Agricultural Experiment Station, PO Box 231, Rutgers University, New Brunswick, NJ 08903, had submitted pesticide petition number OE2371 to EPA on behalf of the IR-4 Technical Committee and the Agricultural Experiment Stations of Michigan and Washington.

This petition requested that the Administrator, pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act establish a tolerance for residues of the herbicide terbacil (3-tert-butyl-5-chloro-6-methyluracil) and its metabolites 3-tert-butyl-5-chloro-6-hydroxymethyluracil (A), 6-chloro-2,3-dihydro-7-hydroxymethyl-3,3-dimethyl-5*H*-oxazolo (3,2-a) pyrimidin-5-one (B), and 6-chloro-2,3-dihydro-3,3,7-trimethyl-5*H*-oxazolo (3,2-a) pyrimidin-5-one (C) at 0.2 ppm in or on asparagus.

The data submitted in the petition and all other relevant material have been evaluated. The pesticide is considered useful for the purpose for which the tolerance is sought. It is concluded that the tolerance will protect the public health. Therefore, 40 CFR Part 180 is amended as set forth below.

Any person adversely affected by this regulation may, on or before April 23, 1981, file written objections with the Hearing Clerk, EPA, Rm. M-3708 (A-110), 401 M St. SW., Washington, D.C. 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

The Office of Management and Budget has exempted this regulation from OMB review requirements of Executive Order 12291 pursuant to section 8(b) of that Order.

Effective date: March 24, 1981.

(Sec. 408(e), 68 Stat. 514 (21 U.S.C. 346a(e)))

Dated: March 9, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

Therefore, Subpart C of 40 CFR Part 180 is amended by alphabetically adding the raw agricultural commodity "asparagus" in the table under § 180.209(b) to read as follows:

§ 180.209 Terbacil; tolerances for residues.

(b) * * *

Commodities	Parts per million
Asparagus	0.2

BILLING CODE 6560-32-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 80-203; RM-3422]

FM Broadcast Station in Corning, California; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action assigns Class B FM Channel 264 to Corning, California, as that community's first FM assignment, in response to a petition for rule making filed by Valley FM Radio.

DATE: Effective April 20, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

(Proceeding terminated).

Adopted: February 20, 1981.

Released: February 25, 1981.

In the matter of amendment of § 73.202(b), Table of Assignments, FM broadcast stations (Corning, California); report and order.

1. Before the Commission is a *Notice of Proposed Rule Making*, 45 FR 32029, published May 15, 1980, proposing the assignment of Class B FM Channel 284 or alternate Channel 221A to Corning, California. The *Notice* was issued in response to a petition filed by Valley FM Radio ("petitioner"). Supporting comments were filed by the petitioner, stating its intent to apply for authority to construct and operate on the Class B channel, if assigned. No oppositions to the proposal were received.

2. Petitioner requested the assignment of Channel 284 to Corning, however, noting the size of the community, we proposed alternate Channel 221A. Petitioner was requested to provide a showing of need for the Class B facility, including a *Roanoke Rapids* and *Anamosa* study, and to indicate whether it would be interested in a Class A facility for Corning. In response, petitioner contends that a Class A facility could neither provide service to the sparsely populated communities nor attract the revenue through advertising needed to operate. Therefore, it urges the Commission to assign the Class B channel to Corning instead of the proposed Class A assignment.

3. Corning (pop. 3,573),[1] in Tehama County (pop. 29,512), is located approximately 160 kilometers (100 miles) north of Sacramento, California. It has no local aural broadcast service.

4. Petitioner incorporated by reference the information contained in the *Notice* which demonstrated the need for a first FM assignment to Corning. In response to the *Notice*, petitioner claims that a wide area coverage Class B facility would provide a first FM service to 1,550 square kilometers (607 square miles) for 2,185 persons and a second FM service to 2,232 square kilometers (872 square miles) for 5,837 persons. It would also provide a first nighttime service to 3,932 square kilometers (1,536 square miles) for 8,245 persons and a second nighttime service to 2,066 square kilometers (816 square miles) for 49,994 persons. However, petitioner's *Roanoke Rapids* study failed to consider several assignments which would substantially reduce the first and second FM service figures and petitioner's nighttime service figures were based on AM stations, but did not include FM assignments.

5. As a result of the proposed Channel 284 assignment to Corning, nine communities with populations greater than 1,000 would be precluded from assignments on Channels 284 and 285A. Of these, two communities [Willits and Orland, California) have no AM stations or FM assignments. Petitioner submitted a listing of alternate channels available to the communities precluded by the Class B assignment, as requested in the *Notice*.[2]

6. We have given careful consideration to the proposal and believe Channel 284 should be assigned to Corning, California. Although a community of this size is not normally assigned a Class B channel, from the information submitted by the petitioner it does appear that the Class B assignment would nevertheless provide some first and second FM and aural services to persons in sparsely populated areas. Additionally, there has been no expression of interest in operating a Class A facility in this area. Since alternate channels are available to the precluded areas, we believe that the preclusion impact is insignificant. Thus, in view of the insignificant preclusion impact by virtue of the availability of alternate channels and the apparent need for a wide coverage area station, we find the proposal justified.

7. Accordingly, it is ordered, That effective April 20, 1981, the FM Table of Assignments (§ 73.202(b) of the Commission's Rules) is amended with respect to the community listed below:

City	Channel No.
Corning, California	284

8. Authority for the action taken herein is contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules.

9. It is further ordered, That this proceeding is terminated.

10. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau.

[FR Doc. 81-8863 Filed 3-23-81; 8:45 am]

BILLING CODE 6712-01-M

[1] Population figures are taken from the 1970 U.S. Census.

[2] Alternative channel assignments listed for Orland consist of Channels 221A, 257A and 285A and for Willits—221A, 244A, 249A, 257A and 281A.

47 CFR Part 73

[BC Docket No. 80-527; RM-3509]

Radio Broadcast Services, FM Broadcast Stations in Columbia and Monroe City, Miss.; Changes Made in Table of Assignments; Correction

AGENCY: Federal Communications Commission.

ACTION: Final rule; correction.

SUMMARY: This action corrects erroneous statement that Channel 269A in Monroe City, Missouri (BC Docket No. 80-527), remained unapplied for. In fact, an application for the channel, filed by Lynlee Broadcasting Co., Inc. (BPH 800606AB) is pending.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Kathy A. Grant, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Columbia and Monroe City, Missouri).

Released: March 3, 1981.

1. On February 10, 1981, the Commission adopted a *Report and Order* (46 FR 13515) assigning Channel 269A to Columbia, Missouri, and substituting Channel 292A for Channel 269A at Monroe City, Missouri. In paragraph 3 of the *Report and Order*, we erroneously stated that Channel 269A, while recently assigned to Monroe City, remained unoccupied and unapplied for. An application for the channel, filed by Lynnlee Broadcasting Co., Inc. (BPH 800606AB) is pending.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau.

[FR Doc. 81-8862 Filed 3-23-81; 8:45 am]

47 CFR Part 73

[BC Docket No. 80-169; RM-3371]

FM Broadcast Stations in Lewisburg and Ronceverte, West Virginia; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule (report and order).

SUMMARY: This action assigns FM Channel 249A to Ronceverte, West Virginia, in response to a petition filed by Radio Greenbrier, Inc. The assigned channel could provide Ronceverte with its first local aural broadcast service. In addition, Channel 288A is reassigned from Ronceverte to Lewisburg, West Virginia, to reflect its use there.

DATE: Effective: March 24, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-9660.

SUPPLEMENTARY INFORMATION:

Adopted: February 2, 1981.

Released: February 10, 1981.

In the matter of Amendment of § 73.202(b), Table of Assignments, FM broadcast stations (Lewisburg and Ronceverte, West Virginia); *report and order.*

(proceeding terminated).

1. The Commission has under consideration, the *Notice of Proposed Rule Making,* 45 FR 28768, published April 30, 1980, proposing the assignment of FM Channel 249A to Ronceverte, West Virginia, as that community's first FM assignment; and the reassignment of FM Channel 288A from Ronceverte to Lewisburg, West Virginia, to reflect its actual use there.[1] The *Notice* was issued in response to a petition filed by Radio Greenbrier, Inc. (petitioner). The petitioner filed supporting comments and expressed its intent to apply for the channel, if assigned. In addition, the National Radio Astronomy Observatory (NRAO) and the Naval Research Laboratory (NRL) filed comments reminding potential applicants that the *Notice* provisions of § 73.1030 of the Commission's Rules are applicable here because Ronceverte is located within the radio "quiet zone."

2. Ronceverte (pop. 1,982),[2] in Greenbrier County (pop. 32,000) is located approximately 126 kilometers (78 miles) southeast of Charleston, West Virginia. It is served locally for fulltime AM Station WRON.

3. As stated in the *Notice,* Ronceverte is the agricultural supply center for eastern Greenbrier County, and the site for several small factories. Sufficient information was submitted to demonstrate the need for an FM assignment.

4. We believe that the public interest would be served by assigning Channel 249A to Ronceverte, West Virginia, since it would provide that community with an opportunity for its first local aural broadcast service. We shall also reassign Channel 288A from Ronceverte to Lewisburg, West Virginia, to reflect its current use in that community.

5. Petitioner expressed its concern that since Channel 288A was authorized for use in Lewisburg, although assigned to Ronceverte, pursuant to the 10-mile rule (see *In Re Radio Greenbrier, Inc.,* Docket Nos. 78-333 and 78-334, 80 FCC 2d. 125 (1980)), that Channel 249A may also be authorized for use at another community. Thus petitioner requests that we stipulate that the 10-mile rule shall not be applied to Channel 249A. However petitioner should note that by the terms of § 73.203(b), the 10-mile rule may not be invoked against the same community more than once.

6. Because the assignment is located in the radio "quiet zone" all applicants for Channel 249A in Ronceverte, should be aware of the Commission's notice requirements to the NRAO and NRL as set forth in § 73.1030 of the Commission's Rules.

7. Pursuant to authority contained in Sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules, it is ordered, That effective March 24, 1981, the FM Table of Assignments (§ 73.202(b) of the Commission's Rules) is amended with regard to the communities listed below:

City	Channel No.
Ronceverte, West Virginia	249A
Lewisburg, West Virginia	288A

8. It is further ordered, That this proceeding is terminated.

9. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632-9660.

Federal Communications Commission.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau.

BILLING CODE 6712-01-M

[1] Channel 288A is assigned to Ronceverte, West Virginia, however, under the 10-mile rule (§ 73.203(b)), a construction permit was granted to operate on Channel 288A at Lewisburg, West Virginia.

[2] Population figures are taken from the 1970 U.S. Census.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 671

Commercial Tanner Crab Fishery off the Coast of Alaska

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Final rule.

SUMMARY: The Director, Alaska Region, (Regional Director), National Marine Fisheries Service (NMFS), closes by field order part of the South Peninsula District in Registration Area J to fishing for Tanner crab (*Chionoecetes* spp) by vessels of the United States. The action is necessary because the desired harvest level in the western part of the South Peninsula District has been reached. The action will prevent overfishing on localized stocks of Tanner crab.

EFFECTIVE DATE: 12:00 noon Alaska Standard Time, March 20, 1981 until 12:00 noon Alaska Daylight Time, May 15, 1981. Public comments must be received on or before April 6, 1981.

ADDRESS: Comments may be sent to Robert W. McVey, Director, Alaska Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, Alaska 99802.

FOR FURTHER INFORMATION CONTACT: Robert McVey (address above). Telephone (907) 586-7221.

SUPPLEMENTARY INFORMATION:

The Fishery Management Plan for the Commercial Tanner Crab Fishery off the Coast of Alaska (FMP) provides for in-season adjustments to fishing seasons and areas. Implementing rules in 50 CFR Part 671 specify in § 671.27(b) that these decisions shall be made by the Regional Director under the criteria set out in that section. On June 17, 1980, the Assistant Administrator for Fisheries, NOAA, delegated to the Regional Director authority to promulgate field orders making in-season adjustments.

50 CFR 671.26(f) creates four districts within Registration Area J. One of these is the South Peninsula District which is managed by the Alaska Department of Fish and Game (ADF&G) as two separate districts, the South Peninsula

district in the west ("new South Peninsula district") and the Chignik district in the east. Amendment 6 to the FMP will subdivide the South Peninsula district into two districts to be consistent with the State's management regime; final rules to this effect have not yet been promulgated.

The districts were created, in part, to prevent overfishing of individual Tanner crab stocks by allowing closure of a particular district when the desired harvest level in that district is reached. Although an optimum yield of six million pounds has been proposed by the North Pacific Fishery Management Council for the new South Peninsula district, a guideline harvest level of 3–6 million pounds was adopted by the Alaska Board of Fisheries in December 1980. This harvest level was based on the 1980 indexing survey conducted by ADF&G. The survey indicated a 50 percent reduction in numbers of harvestable crab over the previous seasons.

The 1980–81 season opened December 1 and, as of February 22, about 2.5 million pounds of crab have been harvested within the new South Peninsula district. Catch per unit of effort has been 21 crabs per pot, a decline from the 1979–80 season of 27 crabs per pot. Average width and weight of crabs being landed are less this season than they were last season, indicating that the average overall size of the crabs in the population is smaller. This is undesirable for the commercial fishery.

Evaluation of the above data indicates the harvest within the new South Peninsula district should be held to about 3.2 million pounds. This amount will be harvested by March 13, 1981.

In light of this information, the Regional Director has found that the number of harvestable Tanner crab in the western portion of the South Peninsula District is substantially different from the number anticipated at the beginning of the fishing year, and that this circumstance reasonably supports the closing of the western portion of the South Peninsula District for the rest of the 1980–81 fishing year at 12:00 noon, Alaska Standard Time, on March 13, 1981, rather than at 12:00 noon, Alaska Daylight Time, on May 15.

Because the information upon which the Regional Director based his finding has only recently become available, it would be impracticable to provide a meaningful opportunity for prior public notice and comment on this field order and still impose the March 13, 1981 closure which sound conservation of the resource and the prevention of overfishing appear at this point to demand. The Regional Director therefore finds, under 5 USC § 553(b) and (d)(3) and under 50 CFR 671.27(b)(4)(i), that there is good cause for not providing opportunity for advance notice and public comment on this field order prior to its promulgation, and for not allowing the passage of the normal 30-day period before it goes into effect. Therefore, under 50 CFR 671.27(a)(2), this field order shall become effective at 12:00 noon, Alaska Standard time, on March 13, 1981, following its filing for publication in the Federal Register and publication for 48 hours through ADF&G procedures. Under 50 CFR § 671.27(b)(4)(iii), public comments on this field order may be submitted to the Regional Director at the address stated above for 15 days ending April 8, 1981. During the 15-day comment period, the data upon which this field order is based will be available for public inspection during business hours (8:00 a.m.–4:30 p.m.) at the NMFS Kodiak field office, ADF&G Building, at Kashevaroff and Mission Roads, Kodiak, Alaska. The Regional Director will reconsider the necessity of this field order in light of the comments received, and subsequently publish in the Federal Register a notice either extending, modifying, or rescinding this field order.

A final environmental impact statement was prepared on approval and implementation of the FMP under section 102(2)(c) of the National Environmental Policy Act, and is on file with the Environmental Protection Agency.

The Acting Administrator, NOAA, has determined that this field order is not a "major rule" requiring a regulatory impact analysis under Executive Order 12291, because: (1) it will not result in an annual effect on the economy of $100 million or more; (2) it will not result in a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and (3) it will not result in significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. By enhancing the long-term productivity of the Tanner crab fishery resource and thus increasing the long-term availability of Tanner crab to domestic fishermen and consumers, this field order can be expected to enhance investment in and the productivity of the United States fishing industry, to lower Tanner crab prices to consumer, and to enhance the ability of the United States fishing industry to compete in foreign shellfish markets. The short-term restrictions imposed by this field order are not expected to result in countervailing short-term decreases in investment, productivity, and competitiveness or in significant increases in consumer prices, because: (1) the total amount of crab involved in the closure is relatively small; (2) the anticipated harvest of 3.2 million pounds is well within reasonable expectations for yield from the fishery in 1981; and (3) alternative fishing grounds are available to participants in the fishery adjacent to the area to be closed. This field order implements existing regulations under the FMP. For these same reasons, the Acting Administrator, NOAA, determines that this field order will not have a significant economic impact on a substantial number of small entities, and thus does not require the preparation of a regulatory flexibility analysis under 5 USC §§ 603 and 604. Finally, this action does not increase the Federal paperwork burden for individuals, small businesses, and other persons (Paperwork Reduction Act of 1980).

Because of the need outlined above for prompt action to protect the Tanner crab resource from overfishing, this field order responds to an emergency situation within the meaning of section 8 of Executive Order 12291, "Federal Regulation," and is thus exempt from the requirement of section 3(c)(3) of that Order that it be submitted to the Director of the Office of Management and Budget 10 days prior to publication. This field order is being transmitted to the Director simultaneously with its filing in the Federal Register.

Signed on behalf of the Regional Director in Washington, D.C. this 19th day of March, 1981.

(16 USC 1801 et seq. 50 CFR § 671.27)

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

PART 671—TANNER CRAB OFF ALASKA

50 CFR § 671.26 is amended by adding paragraph (f)(4) as follows:

§ 671.26 Season and gear restrictions.

* * * * *

(f) Registration Area J.

* * * * *

(4) *Early Closure of 1980–81 Fishing Year in Part of South Peninsula District.* Notwithstanding paragraph (f)(2)(ii) of this section, the taking of Tanner crab in the following portion of the South Peninsula District is prohibited after 12:00 noon, Alaska Standard Time, on March 20, 1981: from east of the

longitude of Scotch Cap Light (164°44'06" W. longitude) to west of a line connecting the following points:

(i) Kupreanof Point (55°34' N., 159°36' W.)

(ii) the easternmost point of Castle Rock (55°16'48" N., 159°29' W.)

(iii) the intersection of a line extending southeast (135°T) from point (2) to (157°35' W. longitude).

This paragraph shall expire at 12:00 noon, Alaska Daylight Time, on May 15, 1981.

Proposed Rules

Federal Register
Vol. 46, No. 56
Tuesday, March 24, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF EDUCATION

34 CFR Part 104

Nondiscrimination on the Basis of Handicap in Programs and Activities Receiving or Benefiting From Federal Financial Assistance

AGENCY: Department of Education.

ACTION: Correction of the notice of intent to develop regulations and extended comment period.

SUMMARY: The Secretary corrects the notice of intent to develop regulations under section 504 of the Rehabilitation Act of 1973 regarding access rights of hearing-impaired persons to television programs. That notice of intent was published in the Federal Register on January 19, 1981, pages 4955–4956. Also, the period for public comment is extended.

DATE: All comments in response to the corrected Notice must be received on or before May 8, 1981.

ADDRESS: Comments should be addressed to Mr. Edward A. Stutman, Office for Civil Rights, Department of Education, 400 Maryland Avenue S.W., Washington, D.C. 20202.

FOR FURTHER INFORMATION CONTACT: Mr. Edward A. Stutman, telephone (202) 245–0781 (Voice or TTY).

SUPPLEMENTARY INFORMATION: On January 19, 1981, at 46 FR 4955, the Secretary of Education published a notice stating that the Department intends to amend regulations under Section 504 of the Rehabilitation Act of 1973, as amended, to define the rights of hearing-impaired persons to access to television programs. Included in the notice was a series of questions on issues which the proposed regulations might address, and on which the public was invited to comment. Two lines were inadvertently omitted from question #4. For the convenience of the reader, the entire list of questions is restated below.

1. Should the Department pursue its intention to issue detailed regulations on the Section 504 obligations of television broadcasters and systems of broadcasters? Are there other means of defining and ensuring compliance with these obligations?

2. What is the nature and extent of the benefit derived by broadcasters from the availability of television programs produced with Department of Education funds?

3. What is the nature and extent of the benefit derived by systems of broadcasters, such as the Public Broadcasting Service (PBS) and regional networks, from the availability of these programs?

4. Which activities carried out by broadcasters and systems of broadcasters are subject to the requirements of Section 504 by reason of the benefits referred to above? For example, would broadcasters and systems of broadcasters be required to make some or all programs that they broadcast or distribute accessible to persons with impaired hearing by reason of the availability of programs produced with Department funds? By what regulatory standard should any obligation to make programs accessible be determined?

5. What differences, if any, should there be in the Department's treatment of commercial and non-commercial broadcasters and systems of broadcasters? Why?

6. What are the advantages and disadvantages of using the various available methods of making television programs accessible to persons with impaired hearing? Currently available methods include open captioning, closed captioning, and sign language interpreting. Commenters are invited to consider, with regard to these and other possible methods, such factors as effectiveness in making programs accessible to the greatest possible number of hearing-impaired persons, the extent to which the method adversely affects the video portion of programs, cost, availability of resources (such as captioning capacity or qualified interpreters), and anticipated technological developments. Are particular methods better suited for some programs than others?

7. Should the Department limit the methods which may be used? If so, which method or methods should the Department select, and why?

8. Should the Department differentiate between various types of programs in setting standards for program accessibility? Examples of such programs include live programs, programs broadcast shortly after being recorded, programs intended only for local use, and programs recorded before a certain date. If so, what should be the basis for distinctions? Commenters are invited to consider such factors as technological feasibility, cost, availability of resources to provide access, and size of potential audience.

9. How soon after publication should any requirements for program accessibility take effect?

Dated: March 13, 1981.

T. H. Bell,
Secretary of Education.

BILLING CODE 4000-01-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 62

[A-2-FRL 1780-1]

Approval and Promulgation of State Plans for Designated Facilities and Pollutants; New Jersey and Virgin Islands

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: Regulations promulgated under the provisions of Section 111(d) of the Clean Air Act require States to submit to the Environmental Protection Agency (EPA) plans to control fluoride emissions from existing primary aluminum plants. Alternatively, a State may submit to EPA a "negative declaration" which certifies that no primary aluminum plants exist within the State's boundaries. The purpose of this Federal Register notice is to propose approval of such negative declarations which have been submitted to EPA by the State of New Jersey and the Territory of the Virgin Islands.

DATE: Comments must be received on or before April 23, 1981.

ADDRESSES: All comments should be addressed to: Charles S. Warren,

Regional Administrator, Environmental Protection Agency, Region II Office, 26 Federal Plaza, New York, New York 10278.

Copies of the letters received from New Jersey and the Virgin Islands are available for public inspection during normal business hours at:

Environmental Protection Agency, Air Programs Branch, Room 1005, Region II Office, 26 Federal Plaza, New York, New York 10278;

Environmental Protection Agency, Public Information Reference Unit, 401 M Street SW., Washington, D.C. 20460;

Virgin Islands Department of Conservation and Cultural Affairs, Division of Natural Resources Management, Charlotte Amalie, St. Thomas, Virgin Islands 00801;

New Jersey Department of Environmental Protection, Division of Environmental Quality, John Fitch Plaza, Trenton, New Jersey 08625.

FOR FURTHER INFORMATION CONTACT: William S. Baker, Chief, Air Programs Branch, Environmental Protection Agency, Region II Office, 26 Federal Plaza, New York, New York 10278 (212) 264–2517.

SUPPLEMENTARY INFORMATION: Section 111(d) of the Clean Air Act requires states to submit to the Environmental Protection Agency (EPA) plans to control emissions of designated pollutants from designated facilities. "Designated pollutants" are pollutants which are not included on a list published under the provisions of Section 108(a) of the Clean Air Act (criteria pollutants), or are not regulated under the provisions of Section 112(b)(1)(A) of the Clean Air Act (hazardous air pollutants), but which are pollutants for which standards of performance for new sources have been established under Section 111(b) of the Clean Air Act (New Source Performance Standards). A "designated facility" is an existing facility which emits a designated pollutant and which would be subject to a new source performance standard for that pollutant if the facility were new.

Emission guidelines for fluoride emissions from existing primary aluminum plants were discussed in an April 17, 1980 **Federal Register** notice at 45 FR 26294. The states were directed to submit to EPA a control plan by January 19, 1981, nine months after the date that the emission guidelines were issued. Alternatively, where a state does not contain a designated facility (such as primary aluminum plant) within its borders, the state may, instead, submit a letter to EPA certifying the nonexistence of any such designated facility, as provided by Subpart A of 40 CFR Part 62. This letter is termed a "negative declaration."

The State of New Jersey and the Territory of the Virgin Islands have submitted "negative declarations" to EPA with regard to primary aluminum plants. These were submitted on September 29, 1980 and July 21, 1980, respectively. This fulfills their responsibility for submitting state control plans as required by Section 111(d) of the Clean Air Act, and Subpart A of 40 CFR Part 62. A more detailed discussion of 111(d) control plans is contained in the October 18, 1977, July 10, 1978 and November 3, 1978 issues of the **Federal Register** (42 FR 55796, 43 FR 29585, and 43 FR 51383, respectively).

Under Executive Order 12291, EPA must judge whether a regulation is "Major" and therefore subject to the requirement of a Regulatory Impact Analysis. This regulation is not major because it identifies where State plans are not needed, thereby reducing further regulatory requirements.

This regulation was submitted to the Office of Management and Budget for review as required by Executive Order 12291. Any Comments from OMB to EPA and any EPA response to those comments are available for public inspection from: Air Programs, Environmental Protection Agency, Region II Office, 26 Federal Plaza, New York, New York 10278.

This notice of proposed rulemaking is issued under the authority of Sections 111(d) and 301(a) of the Clean Air Act, as amended, to advise the public that comments may be submitted within 30 days of publication of this notice on whether the proposed action is appropriate.

Pursuant to the provisions of 5 U.S.C. 605(b) I hereby certify that the attached rule will not, if promulgated, have a significance economic impact on a substantial number of small entities. This action imposes no new requirements.

(Sections 111 and 301 of the Clean Air Act, as amended (42 U.S.C. 7413 and 7601))

Dated: March 5, 1981.

Charles S. Warren,

Regional Administrator, Environmental Protection Agency.

[FR Doc. 81-8872 Filed 3-23-81; 8:45 am]

BILLING CODE 6560-38-M

40 CFR Part 162

[PH-FRL 1714-8; OPP-250023]

Certain Biological Control Agents; Proposed Exemption From Regulation

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed Rule.

SUMMARY: This rule proposes exemptions from regulation under section 25(b) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, for certain organisms which are used as biological control agents and which are therefore considered "pesticides" under the definition set forth in FIFRA secion 2(u). This exemption is proposed by the Administrator under the authority of FIFRA section 25(b)(1), on the grounds that such biological control organisms are "adequately regulated by another Federal agency." The proposed rule sets forth the regulatory roles of the Federal agencies involved, the categories of organisms exempted, and procedures for determining if a specific organism is or should be covered by this exemption.

DATE: Comments must be received on or before May 26, 1981.

ADDRESS: Written comments should bear the document control number OPP–250023 and should be submitted to: Document Control Officer, Management Support Division (TS–793), Office of Pesticides and Toxic Substances, Room E–107, Environmental Protection Agency, 401 M Street, SW, Washington, D.C. 20460.

Comments received will be available for public inspection in Room 447 East Tower, at the above address from 8:00 a.m. to 4:00 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: Fred S. Betz, Section 25(b) Working Group Coordinator, Hazard Evaluation Division (TS–769), Office of Pesticide Programs, Evironmental Protection Agency, Rm. 800A, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703–557–0267).

SUPPLEMENTARY INFORMATION: This rule is being proposed under section 25(b)(1) of FIFRA and will be designated as 40 CFR 162.5–1. It is being proposed as part of EPA's General Policy for the Regulation of Biorational Pesticides, as described in the **Federal Register** on May 14, 1979 (44 FR 28093). Additional exemptions may be made at a later date

under section 25(b)(1) or 25(b)(2) of FIFRA.

Background

When a living organism is intended for use as a biological control agent to prevent, repel, destroy or mitigate a pest, or is intended for use as a plant growth regulator, defoliant or desiccant, it is considered to be a pesticide under FIFRA, section 2(u), and is therefore regulated under that Act. In general, FIFRA requires that pesticides intended for use for other than research purposes be registered by EPA prior to distribution or sale. Such registration can only be issued by EPA if, on evaluation of information submitted prior to registration, EPA concludes that the pesticide can be used without unreasonable adverse effects on man or the environment.

Prior to 1979, EPA had no formal policy defining the scope of its responsibilities for registration of biological control agents. Instead, the Agency considered registration of such organisms on an *ad hoc* basis, and only a few registrations, for certain microorganisms (e.g., *Bacillus thuringiensis*), were issued.

On May 14, 1979, the Agency proposed in the Federal Register a General Statement of Policy for regulation by EPA of such microorganisms. The policy defined the microorganisms it would regulate as including viruses, bacteria, fungi, protozoa and algae. The proposed policy also stated the Agency's intent to formalize this position by exempting from regulation under FIFRA certain living organisms, other than microorganisms, used as biological control agents. EPA is authorized by FIFRA section 25(b) to exempt from the provisions of the Act, by regulation, any pesticide which the Administrator "determines either (1) to be adequately regulated by another Federal agency, or (2) to be of a character which is unnecessary to be subject to * * * (the) Act * * *"

Section 25(b)(2) cannot be used to exempt biological control agents in general from FIFRA, because such living organisms may have a substantial potential for direct adverse effects on humans, or on the environment, through alteration of the ecosystems into which they are introduced. Pesticides with these characteristics ordinarily require regulation under FIFRA.

Similarly, a broad exemption under section 25(b)(1) ("* * * adequate regulation by another Federal agency * * *") cannot be made for all biological control agents, since only EPA currently has adequate mechanisms for regulating all such organisms to prevent unreasonable adverse effects on humans or the environment. However, both the U.S. Department of Agriculture (USDA) and the Department of the Interior (USDI) have mechanisms to adequately regulate many macroorganisms, and some microorganisms, which may have adverse ecological effects, but no known significant adverse effects on humans. Therefore, it is possible to exempt many biological control agent from regulation under section 25(b)(1) of FIFRA.

Program implementation of USDA's regulatory authority is mainly within the Animal and Plant Health Inspection Service (APHIS). Under the Plant Pest Act (7 U.S.C. 150 aa–ii) and the Plant Quarantine Act (7 U.S.C. 151–167), APHIS is responsible for regulating—by inspection, quarantine, and permit requirements—the importation and interstate movement of plants, plant pests, and articles capable of disseminating plant pests and diseases. This includes *invertebrate* organisms considered pesticides under FIFRA which may, directly or indirectly, be pests of nontarget organisms. Pursuant to the Plant Pest Act and rules thereunder, the importation and interstate movement of such pests requires a permit from USDA, which may impose conditions necessary to prevent unregulated dissemination of such organisms. This often involves quarantine of the organisms to ensure that organisms, including hyperparasites, which could be detrimental to plant or animal life are not released into the environment.

In addition, USDA maintains a similar, but voluntary, quarantine and permit program for importation and release of non-pest biological control organisms. These biological control organisms are aslo checked for the presence of hyperparasites prior to issuance of a permit for release from quarantine.

Extensive research and development activities related to biological control agents and assessment of their impacts are also carried on in USDA's Science and Education Administration, Forest Service, and APHIS.

This general regulatory responsibility for plant pests combined with the voluntary program for regulation of biological control organisms and various USDA research and development activities, provides the framework for adequate regulation by USDA of many biological control agents.

With some minor exceptions, USDI has regulatory authority over *vertebrate* life forms which may be injurious to humans or the environment, or are otherwise within the Department's jurisdiction, and which may be considered pesticides under FIFRA.

Specifically, the Fish and Wildlife Service has broad authorities and responsibilities associated with the conservation of fish and wildlife resources. The Migratory Bird Treaty Act of 1918, as amended, establishes a Federal responsibility for the protection of international migratory bird resources, while the Endangered Species Act of 1973, as amended, provides for the conservation and protection of threatened and endangered species of fish, wildlife, and plants.

Other USDI authorities deal indirectly with biological control agents, including the Animal Damage Control Act of March 2, 1931, which provides for investigations, demonstrations, and control of mammalian predators, rodents, and birds. Also, the Lacey Act of May 25, 1900, as amended, provides authority to prohibit importation and transportation in interstate commerce of wild vertebrates and other animals declared by the Secretary of the Interior to be injurious to humans, agriculture, or wildlife resources, except under certain circumstances and pursuant to regulations promulgated by the Department.

These authorities under the Animal Damage Control and Lacey Acts allow the regulation of a vertebrate biological control agent when it is also considered a pest or problem. Those Acts do not provide authority to regulate an organism which only has beneficial effects as a biological control agent and which is not a pest or problem, unless the agent is an animal which is itself protected under some statute. However, vertebrates which may be used as pesticides are relatively few, and the potential for further development of such organisms as pesticides is lower than it is for invertebrates and microorganisms.

Therefore, EPA has concluded that biological control agents, with the exception of those described in § 162.5–12(d)(1) of this proposed rule, are adequately regulated and monitored by other agencies. If future events demonstrate that certain biological control agents exempted under this rule are not being adequately regulated by other agencies, those organisms would be referred to the attention of the appropriate agency, or would be added to this section by amendment. In the latter case, those organisms would no longer be considered exempt from the provisions of FIFRA.

Procedures for Determining Exemption Status

EPA expects that questions will arise in the future as to whether or not

specific biological control organisms should be classified as exempt or non-exempt under this rule—i.e., whether or not living organisms or questionable taxonomic class fit into the categories of non-exempt organisms described in § 162.5–1(d)(1). There may also be questions concerning the need to establish new non-exempt categories for biological control agents which are no longer "adequately" regulated by another agency or to establish an exception to existing non-exempt categories for specific biological control agents which are adequately regulated by another agency.

Paragraph (c) of this proposed rule authorizes the Administrator to resolve such questions. To aid the Administrator, paragraph (c) provides a detailed procedure for determining whether or not a specific living organism should be exempt under this rule. Basically, this paragraph requires the Administrator to answer six questions: (1) Is the material a "pesticide"?; (2) Is it a living organism?; (3) Is the organism of the same general type as those described in § 162.5–1(d)(1)?; (4) Is the organism currently regulated by another agency?; (5) Does the organism have a potential for human health effects?; (6) If the organism is not clearly covered by § 162.5–1(d)(1), should it specifically be made a non-exempt organism by amendment of that paragraph?

Depending on the answers to these questions, the Administrator will determine whether or not the living organism is a biological control agent exempt under the existing rule, and whether or not its status should be changed by amendment of the rule. Of course, in questionable cases the Administrator may need technical or scientific advice on several of these questions. To this end, EPA intends to enter into an understanding with other concerned agencies, including USDA, USDI, and the Food and Drug Administration, authorizing the Administrator to call on an interagency panel for such assistance on the *ad hoc* basis.

Exemptions

Section 162.5–1(d) of the proposed rule is intended to exempt all living organisms, with certain specific exceptions (e.g., bacteria, viruses, fungi, algae, and protozoa) from regulation under FIFRA.

Although this rule potentially exempts thousands of species of biota, its practical application at this time would affect only a very few. It would affect only those living organisms that currently have a specific combination of characteristics which allows their use as pesticides.

The major types of living organisms currently used as biological control agents which this rule would exempt from regulation are the parasitic and predaceous arthropods used to control populations of their insect hosts and prey. Their most intensive use has historically been under the auspices of USDA and State research and development activities.

Individual species, and occasionally genera, of any of the living organisms described as not exempted under § 162.5–1(d)(1)–(v) may be specifically exempted by amendment of this rule should circumstances warrant such an exemption in the future. Conversely, specific species which would be exempted by this proposed rule may be classified as non-exempt by amendment of the rule for reasons of the public health or environmental quality. Paragraph (d) of this proposed rule has been structured for the addition of amendments.

Regulatory Flexibility Analysis

Pursuant to section 3(a) of the Regulatory Flexibility Act of 1980 (Pub. L. 96–354; 94 Stat. 1165; 5 U.S.C. 60 et seq.), this proposed regulation has been reviewed and it has been determined that a regulatory flexibility analysis is not required since the final regulation will not have a significant adverse impact on a substantial number of small businesses, small organizations, or small governments.

The final rule will have no known adverse effect on small organizations or small governments. Only a very few small businesses will be affected by the rule (i.e., those producing biological control agents for use as pesticides) since the technology involved is still relatively new and since the market for biological control agents is still relatively small in relation to that for chemical pesticide products. In addition, the rule will have no adverse impact on these businesses since its effect will be to eliminate the burdens, or potential burdens, imposed by FIFRA on the pesticide producers. Those producers who are not exempt from FIFRA by this rule will be subject only to existing requirements under FIFRA and other regulations written under sec. 3 of FIFRA. This proposed rule would not create any new burdens for producers of non-exempt organisms.

Under E.O. 12291, E.P.A. must judge whether a regulation is "Major" and therefore subject to the requirement of a Regulatory Impact Analysis. This regulation is not Major because it exempts manufacturers and distributors of biological control agents from regulations under section 25(b) of FIFRA and therefore decreases the costs they would have incurred if not exempt.

This regulation was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

Any comments from OMB to EPA and any EPA response to those comments are available for public inspection at: Document Control Officer, Management Support Division (TS–793), Office of Pesticides and Toxic Substances, Room 447, East Tower, EPA, 401 M Street SW., Washington, D.C. 20460.

Statutory Review

The Secretary of Agriculture has reviewed the proposed regulation in accordance with section 25(a) of FIFRA and has concurred in its publication with only a minor drafting suggestion for the preamble. The minor change suggested by the Secretary has been made.

The FIFRA Scientific Advisory Panel (SAP) also received a copy of the proposed rule for review in accordance with section 25(d) of FIFRA and in a memorandum dated December 17, 1980, the SAP concurred without comment.

(Sec. 25(b) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended by sec. 23, Pub. L. 95–396, 92 Stat. 819; (7 U.S.C. 136 *et seq.*))

Dated: February 9, 1981.

Walter C. Barber, Jr.,

Acting Administrator.

It is proposed to amend 40 CFR Part 162 by adding a new § 162.5–1, to read as follows:

§ 162.5–1 Exemption of certain pesticides from further regulation under FIFRA.

(a) *General.* (1) This regulation exempts certain biological control agents from the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, (Pub. L. 95–396; 92 Stat. 819; 7 U.S.C. 136 *et seq.*), under the authority of section 25(b) of FIFRA. It does not exempt such organisms from any other applicable Federal or State law or regulation.

Paragraph (d)(1) of this rule exempts all living organisms which are considered pesticides by definition under FIFRA section 2(u), and which are defined as biological control agents by paragraph (b) of this rule, except those organisms specifically described in paragraph (d)(1)(i)–(v). The exemption made by paragraph (d)(1) is based on the fact that the exempted organisms are adequately regulated by the U.S. Departments of Agriculture or of the Interior, or by other Federal agencies, under express statutory grants of authority or under other programs administered by those agencies. Should

any exempted organism cease to be adequately regulated by another agency, it will be listed as an exception to the exemption by amendment of this rule.

(2) This regulation also sets forth procedures which the Administrator will follow in making future determinations as to whether or not certain organisms are, or should be, exempt from regulation under FIFRA.

(b) *Definitions.* Unless otherwise indicated, terms used in this section have the meanings set forth in section 2 of FIFRA and in § 162.3. In addition, as used in this section, "biological control agent" means any living organism applied to or introduced into the environment to control the population or biological activities of another life form which is considered a pest under section 2(t) of FIFRA.

(c) *Procedures for Determining Exemptions.* In deciding whether a substance is an organism covered by an exemption in paragraph (d)(1):

(1) The Administrator will determine whether the substance is a pesticide as defined by section 2(u) of FIFRA. If it is not, then it is not within the scope of section 25(b) of FIFRA or paragraph (d)(1) of this section.

(2) If the substance is a pesticide, then the Administrator will determine if it is a biological control agent. If it is not, then paragraph (d)(1) of this section does not apply.

(3) If the substance is a biological control agent, then the Administrator will determine whether it belongs to one of the classes specifically excluded from exemption under paragraph (d)(1) of this section.

(i) If the biological control agent is exempt from regulation, the Administrator may consider whether it should be made non-exempt by amendment of paragraph (d)(1) of this section.

(ii) If the biological control agent is excluded from exemption under paragraph (d)(1) of this section, the Administrator may determine how it is to be regulated under FIFRA, or whether it should be specifically exempted under either section 25(b)(1) or 25(b)(2) of FIFRA.

(4) If the Administrator is considering whether to specifically grant an exception for a biological control agent as described in paragraph (c)(3)(ii)(B) of this section, the Administrator shall determine:

(i) Whether the biological control agent has a potential for adverse effects on human health or the environment. If it has no such potential, the biological control agent may be exempted by amendment of this regulation on the grounds that it is of a nature which does not require regulation.

(ii) Whether the biological control agent is adequately regulated by another Federal agency. If the agent is adequately regulated, it shall be exempted by amendment of this section.

(5) When the Administrator is considering whether to withdraw an exemption for a biological control agent as described in paragraph (c)(3)(i) of this section, the Administrator shall determine whether the agent is being adequately regulated by another Federal agency. If the biological control agent is not being adequately regulated, the Administrator may specifically withdraw its exemption by amendment of this regulation and shall thereafter exercise appropriate regulatory authority over the organism under FIFRA.

(d) *Exemptions.* (1) As authorized by section 25(b)(2) of FIFRA, all biological control agents are hereby exempted from the provisions of FIFRA, except the following:

(i) Living organisms taxonomically defined as viruses.

(ii) Living organisms taxonomically defined as bacteria, rickettsia, mycoplasmas, or 1-form of bacteria.

(iii) Living organisms classified as members of the animal subkingdom *Protozoa.*

(iv) Organisms classified as fungi of lower taxonomic order than the Sub-Division *Basidiomycotina*, or as members of the Class *Teliomycetes*, or the Sub-Class *Phragmobasidiomycetidae* of the *Basidiomycotina*, as defined in Ainsworth's and Bisby's *Dictionary of the Fungi* (6th ed., 1971), which is incorporated by reference. This document is available at most university libraries and bookstores. It is also available for inspection at the U.S. Department of Agriculture, Science and Education Administration, National Agricultural Library, Lending Division, Beltsville, MD 20705. These materials are incorporated as they exist on the date of approval and a notice of any change in these materials will be published in the Federal Register.

(v) Organisms classified as members of Class I, *Schizophyceae*, of Division I of the Plant Kingdom, *Protophyta*, including blue-green algae, as described in *Bergey's Manual of Determinative Bacteriology* (8th ed., 1974) which is incorporated by reference. This document is available at most university libraries and bookstores. It is also available for inspection at the main library of the U.S. Environmental Protection Agency, Room 2404 WSM, 401 M St., S.W., Washington, D.C. 20460. These materials are incorporated as they exist on the date of approval and a notice of any change in these materials will be published in the Federal Register.

DEPARTMENT OF COMMERCE

International Trade Administration

Sugar and Syrups From Canada; Preliminary Results of Administrative Review of Antidumping Duty Order

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of Preliminary Results of Administrative Review of Antidumping Duty Order.

SUMMARY: This notice is to advise the public that the Department of Commerce has conducted an administrative review of the antidumping duty order on sugar and syrups from Canada. The review covers the five known exporters of this merchandise to the United States. Since this is the initial review of this order, the time period covered for all exporters is from the date liquidation was suspended, November 8, 1979 through March 31, 1980. The review indicates the existence of a dumping margin for one exporter. Two other exporters did not ship to the United States, an additional exporter did not supply any information, and the fifth furnished an inadequate response. As a result of this review, the Department has preliminarily determined to assess dumping duties, for the one shipping exporter that provided adequate information, equal to the calculated difference between foreign market value and purchase price. For the two firms which supplied inadequate or no information, the Department has used the best information available. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: March 24, 1981.

FOR FURTHER INFORMATION CONTACT: Betty L. Hood, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C., 20230 (202-377-5222).

SUPPLEMENTARY INFORMATION:

Procedural Background

On April 9, 1980, an antidumping duty order with respect to sugar and syrups from Canada was published in the **Federal Register** (45 FR 24120-7). The Department of Commerce ("the Department") published in the **Federal Register** of March 10, 1981 (45 FR 16921) a notice of intent to conduct administrative reviews of certain antidumping findings and orders. As required under section 751 of the Tariff Act of 1930 ("the Tariff Act"), the Department has conducted an administrative review of the antidumping duty order on sugar and syrups from Canada. On January 1, 1980, the provisions of title I of the Trade Agreements Act of 1979 became effective. Title I replaced the provisions of the Antidumping Act of 1921 ("the 1921 Act") with a new title VII to the Tariff Act. The substantive provisions of the 1921 Act apply to all unliquidated entries made prior to January 1, 1980.

Scope of the Review

Imports covered by this review are shipments of sugar and syrups produced from raw sugar derived from sugar cane and sugar beets. The sugar is refined into granulated or powdered sugar, icing, or liquid sugar. The subject merchandise is currently classifiable under items 155.2025, 155.2045, and 155.3000 of the Tariff Schedules of the United States Annotated (TSUSA).

The Department knows of a total of five exporters to the United States of Canadian sugar and syrups. This review covers all five of the exporters from the date liquidation was suspended, November 8, 1979, through March 31, 1980. This is the initial administrative review of this order.

The Department found that one responding exporter, Redpath Sugars Ltd., exported sugar to the United States in the period under review. Two companies stated that they did not export sugar and syrups during this time period. The estimated deposit rate for these exporters is their fair value rate, since this is the most recent information available. Two exporters failed to respond or provided inadequate responses to the Department's questionnaire. For these non-responsive exporters we proceeded to use the best information available. The best information here is the amount for the one responding exporting firm in the current period, as it is higher than the fair value rates.

Purchase Price

The Department used purchase price, as defined in section 203 of the 1921 Act, since the one known sale was made to an unrelated U.S. purchaser and entry was made prior to January 1, 1980.

In this case purchase price was calculated on the basis of the F.O.B.

plant price to an unrelated purchaser in the United States, with deductions for duty, fees and brokerage. An addition was made for Customs duty paid upon importation into Canada of raw material used to produce the exported product, which duty was rebated upon exportation of the merchandise to the United States. No other adjustments were claimed or allowed.

Foreign Market Value

In calculating foreign market value the Department used home market price as defined in Section 205 of the 1921 Act, since sufficient quantities of such or similar merchandise were sold in the home market to provide a basis for comparison. The foreign market value is based on the F.O.B. factory price, with adjustments for a competitive discount, cash discount, and rebates. No other adjustments were claimed or allowed.

Preliminary Results of the Review

As a result of comparing purchase price to foreign market value, we preliminary determine that the following margins exist for the period November 6, 1979 through March 31, 1980:

Canadian exporter	Margin (U.S. dollars per pound)
Atlantic Sugar, Ltd.	[1] $0.0000
B. C. Sugar	[1] .010166
F. W. Jones & Son, Ltd.	.0046
Redpath Sugars, Ltd.	.0046
St. Lawrence Sugar, Ltd.	.0046

[1] No shipments during current period.

Interested parties may submit written comments on these preliminary results on or before April 23, 1981, and may request disclosure and/or a hearing on or before April 8, 1981. The Department will publish the final results of the administrative review including the results of its analysis of any such comments or hearing.

The Department shall determine, and the U.S. Customs Service shall assess duties on all entries made during the time period involved. The Department will issue appraisement instructions separately on each exporter directly to the Customs Service.

Further, as required by § 353.48(b) of the Commerce Regulations, a cash deposit based upon the margins calculated above shall be required on all shipments entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results. This requirement shall remain in effect until publication of the final results of the next administrative review.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 353.53 of the Commerce Regulations (19 CFR 353.53).

John D. Greenwald,

Deputy Assistant Secretary for Import Administration.

March 17, 1981.

BILLING CODE 3510-25-M

Office of the Secretary

Privacy Act of 1974; Proposed New System of Records

The purpose of this notice is to propose a new Privacy Act System of Records entitled: Descriptive Data Questionnaire—Commerce/MBDA–1.

James H. Lowry and Associates is conducting a study to determine the critical long- and short-term business management development needs of minorities. The Minority Business Development Agency (MBDA) has awarded a contract to James H. Lowry and Associates under which approximately 6,000 reasonably successful minority business managers/entrepreneurs, and 1,000 minority students currently enrolled in graduate schools of management or business administration will be surveyed on a voluntary basis. The survey is designed to allow in-depth exploration of the participants' personal experiences in order to develop programs to meet the needs of the target audience.

The purpose of this proposed system COMMERCE/MBDA–1 is to safeguard the collection and maintenance of personal data during and after the survey. James H. Lowry and Associates will submit a comprehensive report of the findings of this survey with specific policy and program recommendations for the development of MBDA-sponsored initiatives. The report will not contain individually identifiable data. The survey information will be destroyed by September 30, 1982.

A complete description of the system is set forth below.

As required by the Privacy Act, the Commerce Department submitted a New System Report dated March 18, 1981, to the Congress and to the Office of Management and Budget.

Although the Act requires the opportunity for public comment only on the proposed new routine uses, comments regarding any portion of this notice will be given due consideration before final publication. Any interested person may submit written data, views, or arguments to the Assistant Secretary for Administration (Attention: Information Policy Division, Room 5319) U.S. Department of Commerce, 14th & E Streets, N.W., Washington, D.C. 20230, any time on or before April 24, 1981. The comments will be available, as received, for public inspection at the above address between the hours of 9 a.m. and 4 p.m., Monday through Friday (except holidays).

This system of records will become effective 30 days from the date of publication (Apr. 24, 1981), provided the Department's request for a waiver of the 60-day advance notice requirement is granted by the Office of Management and Budget, or unless the Department notices to the contrary.

(5 U.S.C. 552a(e) (4) and (11), Sec. 3 of the Privacy Act of 1974 (Pub. L. 93–579, 88 Stat. 1896))

Dated: March 18, 1981.

Clifford J. Parker,

Acting Assistant Secretary for Administration.

Commerce/MBDA–1

SYSTEM NAME:

Descriptive Data Questionnaire—COMMERCE/MBDA–1

SYSTEM LOCATION:

James H. Lowry and Associates, Suite 1340, 303 East Wacker Drive, Chicago, Illinois 60601.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Students and business managers and entreprenuers surveyed on a voluntary basis as part of the study of business management development needs of minorities.

CATEGORIES OF RECORDS IN THE SYSTEM:

Age, sex, ethnic origin, education, company data, assessment of career and goals, organizational affiliation(s), personal performance evaluation, opinions of career opportunities/impediments.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 11625.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The James H. Lowry Associates, specifically the Project Manager and an administrative staffer, will use this information to identify those areas which MBDA's business management development program should address.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper copy in file folders for 60 days; then converted to magnetic tape.

RETRIEVABILITY:

By site code, cross-referenced with individuals' names on master list until September 30, 1982.

SAFEGUARDS:

Records are located in company vault with access limited to those whose official duties require access. Only two James H. Lowry and Associates employees will have access.

RETENTION AND DISPOSAL:

Survey information will be destroyed September 30, 1982.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Director for Planning, Budget and Evaluation, MBDA, U.S. Department of Commerce, Washington, D.C. 20230.

NOTIFICATION PROCEDURE:

Information may be obtained from Deputy Chief Counsel, MBDA, U.S. Department of Commerce, Washington, D.C. 20230.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to same address as stated in the Notification section above.

CONTESTING RECORD PROCEDURES:

The Department's rules for access, for contesting contents, and appealing initial determinations by the individual concerned appear in 15 CFR Part 4b. Use above address.

RECORD SOURCE CATEGORIES:

Subject individual and those authorized by the individual to furnish information.

BILLING CODE 3510-21-M

DEPARTMENT OF DEFENSE

[DOD 4500.34-R]

Carrier Representation by Agent

AGENCY: Office of the Secretary of Defense.

ACTION: Notice; request for comments.

SUMMARY: The Commander, Military Traffic Management Command, has received a suggestion to eliminate certain paragraphs of the Personal Property Traffic Management Regulation, entitled "Carrier Representation by Agent." The purpose of this document is to seek public guidance before a final decision is made.

DATE: Interested persons may submit written data, views and arguments on or before June 1, 1981.

ADDRESS: Commander, Military Traffic Management Command (ATTN: MT-PPQ), Washington, D.C. 20315.

FOR FURTHER INFORMATION CONTACT: LTC Joseph Jurjevich, USAF, Telephone 202-756-1682.

SUPLEMENTARY INFORMATION: The material to be eliminated under Chapter 6, 6002, subparagraph d.(8), "Carrier Representation by Agents," (page 6-9) reads as follows:

(a) For households goods originating and destined for delivery within CONUS, only four carriers to a single destination state and the DC may be represented in an origin area by the same local agent. Of the four carriers, not more than two motor carriers may hold operating authority in all of CONUS, or not more than two may be regulated freight forwarders. The combined total of 48-state motor carriers and regulated freight forwarders may not exceed three. If an agent also acts as a carrier to service a specified destination State and the DC, such agent may represent only three other carriers serving that State and the DC.

(b) For household goods, originating in the US and destined overseas, only four carriers may be represented in an origin area by the same local agent. If an agent represents himself as a carrier, such agent may represent only three other carriers. Carriers under the CF/AC of other carriers, not competing in the same code of service, are considered one carrier for carrier/agent representative purposes. The same applies for the purpose of imposing penalties providing in paragraph 6005.

(c) For household goods and unaccompanied baggage originating overseas and destined to a point in CONUS or another point overseas, the Commander, MTMC, with the advice of the field or designated representative in overseas areas, will take steps to assure that the number of carriers represented by any single oversea agent does not exceed the capability of that agent during any period.

(d) For household goods originating at, and destined to points within a given state (intrastate), an agent may represent only one carrier offering service to, from, or between points within that state. When an agent represents himself as a carrier performing such intrastate service, he may represent no other carriers performing the same service.

(e) The Commander, MTMC, may, in (a) and (b) of the above grant an exception to those numerical limitations when such an exemption would be consistent with the program's effective management and when the agent has the capability to represent a greater number of carriers during any period. Upon receipt of a written request from an agent for an exception to the numerical limitations, the ITO will add written recommendations, specifically addressing such aspects as impact on the Program's effective management at the installation, the capability of the agent to represent a greater number of carriers during all periods, and past performance of the agent in providing service during all periods. The agent's request, together with the ITO's recommendation, will be forwarded to the appropriate MTMC area commander concerned for review. Recommendations/comments will be forwarded to the Commander, MTMC. The case will be reviewed by the Commander, MTMC, considering all data submitted along with the recommendations of the military services. If the agent so elects, a hearing may be given. Otherwise, if the agent's request is not favorably considered, the entire case, together with the reasons for proposed disapproval, will be returned to the agent directly for additional comment and rebuttal. Such additional data will be returned to the Commander, MTMC, for further consideration and final decision. A complete record of the proceedings will be furnished to the agent in the event the request is finally disapproved. Final notification of approval/disapproval will be through the area commander and the ITO concerned with information to military service headquarters concerned.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

March 18, 1981.

BILLING CODE 3810-70-M

Defense Science Board Task Force on Mapping, Charting, and Geodesy; Advisory Committee Meeting

The Defense Science Board Task Force on Mapping, Charting and Geodesy (MC&G) will meet in closed session on 21-22 April 1981 at the DMA Aerospace Center, St. Louis, Missouri.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary for Research and Engineering on scientific and technical matters as they affect the

perceived needs of the Department of Defense.

At its meeting on 21–22 April 1981 the Defense Science Board Task Force on MC&G will review the Defense Department's plans and programs concerning generation, derivation, collection and transmission of MC&G data which is critical to the guidance of cruise missiles and other future weapons systems.

In accordance with 5 U.S.C. App. 1 § 10(d) (1976), it has been determined that this Defense Science Board Task Force meeting concerns matters listed in 5 U.S.C. § 552b(c)(1)(1976), and that accordingly, this meeting will be closed to the public.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

BILLING CODE 3810-70-M

DEPARTMENT OF EDUCATION

Office of Elementary and Secondary Education

Title I, Elementary and Secondary Education Act; Notice of Intent To Waive Certain Title I, ESEA, Requirements for Trust Territory of the Pacific Islands

AGENCY: Department of Education.

ACTION: Notice of intent.

SUMMARY: Notice is given that, under section 1003(a) of the Elementary and Secondary Education Act of 1965 (as amended by the Education Amendments of 1978 and renumbered by Pub. L. 96-46), the Secretary of Education intends to waive the applicability of certain Title I, ESEA, requirements to the Bureau of Education for the Trust Territory of the Pacific Islands (TTPI). In addition to identifying the Title I requirements that the Secretary intends to waive, this notice sets forth the terms and conditions upon which the Secretary intends to grant the waiver.

EFFECTIVE DATE: The proposed waiver will not be granted until at least 30 days after publication of this notice. All comments must be received on or before April 23, 1981.

ADDRESSES: All comments should be sent to Dr. Gene C. Fusco, Office of Compensatory Education, 400 Maryland Avenue, SW. (Room 3642, ROB-3), Washington, D.C. 20202.

FOR FURTHER INFORMATION CONTACT: Dr. Gene C. Fusco, Telephone: (202) 245-2506.

SUPPLEMENTARY INFORMATION:

A. Authority for Granting a Waiver

The Elementary and Secondary Education Act of 1965 was amended by the Education Amendments of 1978 (Pub. L. 95-561) to authorize the Secretary to waive certain Title I, ESEA, requirements for the TTPI. In particular, Section 1003(a)(1) of the Act states that "[i]f the [Secretary] determines that compliance with any of the requirements of this Act * * * Trust Territory of the Pacific Islands is impractical or inappropriate because of conditions or circumstances particular to * * * such jurisdiction(s), he may waive any of those requirements upon the request of the State educational agency for such jurisdiction."

B. Waiver Request

In a document dated July 15, 1980, the TTPI Bureau of Education formally asked the Secretary to waive the applicability of certain Title I requirements to all Title I funds obligated by the Bureau. This waiver request identifies the requirements contained in, or based upon, the following sections of Title I as those for which it is seeking a waiver:

Section 123(a)
Section 124 (a) and (b)
Section 125(a)(1) (A), (B), and (C)
Section 125(a)(2)(A) (i) and (ii)

The July 15, 1980, waiver request clearly describes why the Title I requirements listed above are impractical or inappropriate in light of conditions in the TTPI. In general, the request is based upon the fact that virtually all students are educationally deprived and it is impractical to serve those most in need. By seeking a waiver for these requirements, the TTPI Bureau of Education hopes to be permitted to use Title I funds for upgrading the general educational program to a level where it becomes appropriate to serve the most educationally deprived. The waiver also requests relief from certain parent advisory council requirements because they are inappropriate to the culture.

C. Management Plan

Section 1003(a)(2) of the Elementary and Secondary Education Act of 1965 provides that any waiver of Title I requirements for the TTPI must "* * * be subject to such terms and conditions as the [Secretary] deems necessary to carry out the purposes of this Act," including the submission of a plan for the management of the funds provided under the Act, in order to insure that they are used in a manner designed to achieve the purposes of the Act.

In accordance with section 1003(a)(2), the TTPI Bureau of Education submitted a management plan in conjunction with its July 15, 1980, waiver request. The management plan points out that the major goal of the Title I program in TTPI is to raise the level of reading achievement of all students in the Trust Territory by improving the quality of instruction in the classroom. Competent instruction, emphasizing all aspects of reading in the classroom, is the prime focus. There is a need for inservice training for all personnel involved in the program. Support of the focus to improve the reading skills of all children requires strong administrative support and a more thorough involvement of parents and community members in the program.

D. Notice of the Secretary's Intent To Grant a Waiver

Section 1003(a)(1) of the Elementary and Secondary Education Act of 1965 requires that at least 30 days prior to approving any such request for a waiver, the Secretary shall "* * * publish in the **Federal Register** a notice of his intent to grant such a waiver and the terms and conditions upon which such a waiver will be granted."

In accordance with the above requirement, notice is hereby given that, subject to the terms and conditions described below, the Secretary intends to waive the requirements contained in the following sections of the Title I statute: 123(a), 124 (a) and (b), 125(a)(1) (A), (B), and (C), and 125(a)(2)(A) (i) and (ii). Unless the Secretary publishes further notice in the **Federal Register**, approval of the TTPI July 15, 1980, waiver request will be granted 30 days after publication of this notice of intent to waive.

E. Terms and Conditions Upon Which the Secretary Intends To Grant a Waiver

The Secretary intends to approve the request for a waiver only if the TTPI Bureau of Education formally agrees to comply with the following terms and conditions:

(1) All Title I funds that are obligated by the TTPI Bureau of Education during the period covered by the waiver must be spent in accordance with—

(a) All applicable statutory and regulatory requirements, except those Title I requirements that are specifically identified in the waiver; and

(b) The management plan that was submitted in conjunction with the July 15, 1980, waiver request, or amendments to the plan that have been approved by the Secretary.

(2) During the period covered by the waiver, the TTPI Bureau of Education must, on or before September 30 of each year, submit a report to the Secretary which describes the results and effectiveness of the Title I program in TTPI and progress that has been made in developing appropriate evaluation tools.

F. Opportunity for Public Comment

The Secretary invites public comments on this notice of intent to waive certain Title I requirements for the TTPI. Interested persons may send written comments to Dr. Gene C. Fusco, at the address given at the beginning of this notice. All comments must be received on or before April 23, 1981.

(Catalog of Federal Domestic Assistance No. 84009 Educationally Deprived Children Local Educational Agencies) Part I of OMB Circular A-95 does not apply to this program.

Dated: March 18, 1981.

T. H. Bell,

Secretary of Education.

BILLING CODE 4000-01-M

National Advisory Council on Indian Education

Meeting

AGENCY: National Advisory Council on Indian Education.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the Search Committee of the National Advisory Council on Indian Education and, also describes the functions of the Council. Notice of the meeting is required under Section 10(a)(2) of the Federal Advisory Committee Act. The meeting is closed to the public. This announcement does not meet the required 15 days advance notice to the public due to scheduling problems.

DATES: Search Committee Meeting: April 6, 1981, 8:00 a.m. to 7:00 p.m.

ADDRESS: National Advisory Council on Indian Education, 425 13th Street, N.W., Suite 326, Washington, D.C. 20004.

FOR FURTHER INFORMATION CONTACT: Dr. Michael P. Doss, Executive Director, National Advisory Council on Indian Education, 425 13th Street, N.W., Suite 326, Washington, D.C. 20004 202/376-8882.

SUPPLEMENTARY INFORMATION: The National Advisory Council on Indian Education is established under Section 442 of the Indian Education Act, Title IV of Pub. L. 92-318, (20 U.S.C. 1221g). The Council is established to:

(1) Submit to the Secretary of Education a list of nominees for the position of Deputy Assistant Secretary for Indian Education;

(2) Advise the Secretary of Education with respect to the administration (including the development of regulations and of administrative practices and policies) of any program in which Indian children or adults participate from which they can benefit, including Title III of the Act of September 30, 1950 (Pub. L. 81-874) and Section 810, Title VIII of the Elementary and Secondary Education Act of 1965 (as added by Title IV of Pub. L. 92-318 and amended by Pub. L. 93-380), and with respect to adequate funding thereof;

(3) Review applications for assistance under Title III of the Act of September 30, 1950 (Pub. L. 81-874), Section 810 of Title VIII of the Elementary and Secondary Education Act of 1965 as amended and Section 314 of the Adult Education Act (as added by Title IV of Pub. L. 92-318), and make recommendations to the Secretary with respect to their approval;

(4) Evaluate programs and projects carried out under any program of the Department of Education in which Indian children or adults can participate or from which they can benefit and, disseminate the results of such evaluations;

(5) Provide technical assistance to local educational agencies and to Indian educational agencies, institutions and organizations to assist them in improving the education of Indian children;

(6) Assist the Secretary of Education in developing criteria and regulations for the administration and evaluation of grants made under Section 303(b) of the Act of September 30, 1950 (Pub. L. 81-874) as added by Title IV, Part A, of Pub. L. 92-318;

(7) Submit to the Congress not later than March 31 of each year a report of its activities, which shall include any recommendation it may deem necessary for the improvement of Federal education programs in which Indican children and adults participate, or from which they can benefit, which report shall include a statement of the Council's recommendations to the Secretary with respect to the funding of any such programs; and,

(8) Be consulted by the Secretary of Education regarding the definition of term "Indian," as follows:

Sec. 453 [Title IV, Pub. L. 92-318]. For the purpose of this title, the term "Indian" means any individual who (1) is a member of a tribe, band or other organized group of Indians, including those tribes, bands or groups terminated since 1940 and those recognized now or in the future by the State in which they reside or, who is a descendant, in the first or second degree, of any such member; or, (2) is considered by the Secretary of the Interior to be an Indian for any purpose; or, (3) is an Eskimo or Aleut or other Alaska Native; or, (4) is determined to be an Indian under regulations promulgated by the Secretary, after consultation with the National Advisory Council on Indian Education which regulations shall further define the term "Indian."

The Search Committee meeting will be closed to the public from 8:00 a.m. to 7:00 p.m. on April 6, 1981, to conduct interviews for the position of Deputy Assistant Secretary for the Office of Indian Education. The meeting will be closed under the authority of Section 10(d) of the Federal Advisory Committee Act [Pub. L. 92-463; 5 U.S.C. Appendix I] and under exemptions (2) and (6) contained in the Government in the Sunshine Act (Pub. L. 94-409; 5 U.S.C. 552b (c) (2) and (6)]. The interviews of each candidate will include discussions of their qualifications and fitnes for the position and will touch upon matters which would constitute a serious invasion of privacy if conducted in open session.

A summary of the activities at the closed session and related matters which are informative to the public consistent with the policy of Title 5 U.S.C. 552b (c) will be available to the public within fourteen days of the meeting.

The proposed agenda includes: (1) Interviewing candidates.

Dated: March 19, 1981.

Dr. Michael P. Doss,

Executive Director, National Advisory Council on Indian Education.

National Advisory Council on Indian Education; Meeting

AGENCY: National Advisory Council on Indian Education.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the Executive Committee of the National Advisory Council on Indian Education and, also describes the functions of the Council. Notice of the meeting is required under Section 10(a)(2) of the Federal Advisory Committee Act. The meeting is closed to the public. This announcement does not meet the required 15 days advance notice to the public due to scheduling problems.

DATES: Executive Committee Meeting: April 7, 1981, 9:00 a.m. to 5:00 p.m.

ADDRESS: National Advisory Council on Indian Education, 425 13th Street, N.W., Suite 326, Washington, D.C. 20004.

FOR FURTHER INFORMATION CONTACT: Dr. Michael P. Doss, Executive Director, National Advisory Council on Indian Education, 425 13th Street, N.W., Suite 326, Washington, D.C. 20004 202/376-8882.

SUPPLEMENTARY INFORMATION: The National Advisory Council on Indian

Education is established under Section 442 of the Indian Education Act, Title IV of Pub. L. 92-318, (20 U.S.C. 1221g). The Council is established to:

(1) submit to the Secretary of Education a list of nominees for the position of Deputy Assistant Secretary for Indian Education;

(2) advise the Secretary of Education with respect to the administration (including the development of regulations and of administrative practices and policies) of any program in which Indian children or adults participate from which they can benefit, including Title III of the Act of September 30, 1950 (Pub. L. 81-874) and Section 810, Title VIII of the Elementary and Secondary Education Act of 1965 (as added by Title IV of Pub. L. 92-318 and amended by Pub. L. 93-380), and with respect to adequate funding thereof;

(3) review applications for assistance under Title III of the Act of September 30, 1950 (Pub. L. 81-874), Section 810 of Title VIII of the Elementary and Secondary Education Act of 1965 as amended and Section 314 of the Adult Education Act (as added by Title IV of Pub. L. 92-318), and make recommendations to the Secretary with respect to their approvals;

(4) evaluate programs and projects carried out under any program of the Department of Education in which Indian children or adults can participate or from which they can benefit and, disseminate the results of such evaluations;

(5) provide technical assistance to local educational agencies and to Indian educational agencies, institutions and organizations to assist them in improving the education of Indian children;

(6) assist the Secretary of Education in developing criteria and regulations for the administration and evaluation of grants made under Section 303(b) of the Act of September 30, 1950 (Pub. L. 81-874) as added by Title IV, Part A, of Pub. L. 92-318;

(7) submit to the Congress not later than June 30 of each year a report of its activities, which shall include any recommendation it may deem necessary for the improvement of Federal education programs in which Indian children and adults participate, or from which they can benefit, which report shall include a statement of the Council's recommendations to the Secretary with respect to the funding of any such programs; and,

(8) be consulted by the Secretary of Education regarding the definition of term "Indian," as follows:

Sec. 453 [Title IV, Pub. L. 92-318]. For the purpose of this title, the term "Indian" means any individual who (1) is a member of a tribe, band or other organized group of Indians, including those tribes, bands or groups terminated since 1940 and those recognized now or in the future by the State in which they reside or, who is a descendant, in the first or second degree, of any such member; or, (2) is considered by the Secretary of the Interior to be an Indian for any purpose; or, (3) is an Eskimo or aleut or other Alaska Native; or, (4) is determined to be an Indian under regulations promulgated by the Secretary, after consultation with the National Advisory Council on Indian Education which regulations shall further define the term "Indian."

The Executive Committee meeting will be closed to the public from 9:00 a.m. to 5:00 p.m. on April 7, 1981, to review proposals based on the provisions of the Indian Education Act, Title IV, Pub. L. 92-318, Section 442(b)(2) and, make recommendations to the Secretary with respect to their approval. The meeting will be closed under the authority of Section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C., Appendix 1) and under exemptions (4) and (6)) contained in the Government in the Sunshine Act (Pub. L. 94-409; 5 U.S.C. 552b (c) (4) and (6)]. The reviewing of proposals must be held in the highest confidence until the announcement is released by the proper authorities as to which projects will be funded. Financial, privileged and confidential information in and related to these proposals will be discussed at the review session. Personal information, the disclosure of which would constitute a clearly unwarranted invasion of privacy, will also be discussed. Such matters are protected by exemptions (4) and (6) of Section 552b (c), Title 5 U.S.C.

A summary of the activities at the closed session and related matters which are informative to the public consistent with the policy of Title 5 U.S.C. 552b (c) will be available to the public within fourteen days of the meeting.

The proposed agenda includes: (1) Review of proposals.

Dated: March 19, 1981.

Dr. Michael P. Does,

Executive Director, National Advisory Council on Indian Education.

BILLING CODE 4000-01-M

DEPARTMENT OF ENERGY

Bonneville Power Administration

Public Participation in Negotiation of Initial Long-Term Power Sales and Certain Other Contracts

AGENCY: Bonneville Power Administration (Bonneville), Department of Energy.

ACTION: Notice of negotiation of initial long-term power sales and certain other contracts/public participation.

SUMMARY: The Pacific Northwest Electric Power Planning and Conservation Act (Regional Act) requires that Bonneville simultaneously offer, within 9 months of the date of enactment, long-term power sales contracts to: (1) existing public body and cooperative customers and investor-owned utility customers; (2) Federal agency customers; (3) electric utility customers participating in the residential exchange; and (4) the direct-service industrial customers. Bonneville has recently begun the development and negotiation of prototype contract provisions which will be included in individual contracts offered to each customer. Each customer's contract will contain the applicable prototype contract provisions as well as provisions uniquely tailored to the services provided by Bonneville to such customer. By this Notice, Bonneville clarifies the role of the public in this negotiation process.

Bonneville recognizes that the contract negotiations must take place between the entities that the Regional Act directs will be parties to the contracts. Bonneville believes that the parties, both Bonneville and its customers, are responsible for representing the interest of electric consumers, including members of the general public. Contract negotiations have historically taken place between Bonneville and its customers without a specific public process, and contracts are exempted from Bonneville's published public participation procedure (45 FR 73531, November 5, 1980).

However, the negotiations occurring as the result of the Regional Act are unusual in that they involve the simultaneous negotiation and offering of several types of long-term power sales and other contracts with some 150 customers. These contracts will implement certain power supply obligations of the Regional Act.

Because of these unusual circumstances, Bonneville has opened the negotiation process to public observation and is accepting public comment for Bonneville to consider in the negotiations.

In addition, Bonneville makes public each week a list of the scheduled contract negotiation meetings. The schedule is offered as a convenience to those interested in the negotiations and includes each meeting for which a time and place have been established. The schedule may not include meetings which are planned and conducted after the weekly schedule becomes available.

Bonneville considers this an appropriate form of public participation in keeping with its obligation to keep the region informed of major power issues. Bonneville will continue to offer the opportunity for public observation of the negotiation sessions, with an opportunity for oral public comment at

the conclusion of each negotiating session, and to offer the opportunity to those who are not parties to the contracts to make written comments to Bonneville. Bonneville will make available the papers previously distributed at negotiation sessions to any person who makes a written request for the material. Written requests should be sent to the Bonneville Public Involvement Coordinator. The prototype contracts will be available for inspection at the office of the Public Involvement Coordinator.

EFFECTIVE DATE: March 24, 1981.

FOR FURTHER INFORMATION CONTACT: Ms. Donna L. Geiger, Public Involvement Coordinator, P.O. Box 12999, Portland, Oregon 97212, 503–234–3361, extension 4261. Oregon callers outside of Portland may use the toll-free number 1–800–452–8429; callers in California, Idaho, Montana, Nevada, Utah, Wyoming, and Washington may use 1–800–574–6048. Information on contracts is also available from Bonneville's Area and District Managers: Ronald H. Wilkerson, Spokane Area Manager, Room 561, U.S. Court House, East 920 Riverside Avenue, Spokane, Washington 99201, (509) 456–2518; John H. Jones, Portland Area Manager, Suite 288, 1500 Plaza Building, 1500 NE. Irving Street, Portland, Oregon 97208, (503) 234–3361, ext. 4551; Randall W. Hardy, Seattle Area Manager, 415 First Avenue North, Room 250, Seattle, Washington 98109, (206) 442–4130; Roy Nishi, Walla Walla Area Manager, West 101 Poplar, Walla Walla, Washington 99362, (509) 525–5500, ext. 701; Gordon H. Brandenburger, Kalispell District Manager, P.O. Box 758, Kalispell, Montana 59901, (406) 775–6202; Ronald K. Rodewald, Wenatchee District Manager, Suite 117, Morris Building, 23 South Wenatchee, Wenatchee, Washington 98801, (509) 662–4379; Ladd Sutton, Eugene District Manager, Room 206, U.S. Federal Building, 211 East 7th Street, Eugene, Oregon 97401, (503) 345–0311; Robert N. Laffel, Idaho Falls District Manager, 531, Lomax Street, Idaho Falls, Idaho 83401, (208) 523–2706.

SUPPLEMENTARY INFORMATION: The Regional Act directs Bonneville to commence negotiations and offer initial long-term power sales contracts simultaneously to "existing public body and cooperative customers and investors-owned utility customers." Federal agency customers, electric utility customers under the exchange provisions of the Act, and the existing direct-service industrial (DSI) customers. Bonneville opened the process with an organizational meeting on January 23, 1981, preceding the start of actual negotiations. The meeting allowed Bonneville and the other negotiating parties to establish a framework within which the negotiations could take place. A decision was also made at the meeting to develop prototype contracts, negotiated by task teams composed of Bonneville negotiators and representatives of the parties. Each prototype contract corresponds to a category of customer or a category of interest. The categories are: (1) Power Sales Contracts for Nonscheduling Customers and Scheduling Customers (Computed Demand); (2) Residential Load Purchase/Sale Contracts (Exchange contracts); (3) Direct-Service Industrial Power Sales Contracts; (4) Conservation Contracts; (5) Purchase of Resource Capability and Resource Plus Preconstruction Investigation Contracts; (6) Purchase of Output, Including Short-Term Power Purchase; (7) Service and Exchange; and (8) Resource Option.

The power sales contracts must be offered by Bonneville to the customers on or before September 8, 1981, the date which meets the requirement of Section 5(g) of the Regional Act to offer contracts "within nine months after the effective date of [the] Act." The power sales contracts may be offered by an earlier date if negotiations can be completed in time to make such an offer. Each customer offered a power sales contract will have 1 year from the date of the offer to accept service. While the prototype contracts will address issues of interest to the affected customers, final adjustments to specific contracts will be negotiated with the individual customers as necessary before the contracts are offered. Other contracts will be offered when negotiations are completed and the program which is the subject of the contract is ready to be developed (i.e., power purchase contracts will be offered when the standards and criteria of the Act have been met).

Bonneville announced in the December 1980 technical meetings with customers and other interested persons on the Regional Act, that the contract negotiation sessions would be open to the public. This is in keeping with Bonneville's policy that, as a public agency, it transacts its business in public.

Bonneville will continue to open the negotiating sessions to public observation. In addition, members of the public who wish to comment at the conclusion of individual negotiating sessions, may do so. Bonneville will also accept written comments.

Bonneville will also continue to post, and otherwise make available, a weekly notice giving the times and places of the negotiating sessions. However, due to the ongoing nature of the negotiations and the short time in which to accomplish the process, the sessions are held at the convenience of the parties and are directed toward the accomplishment of the negotiations. Bonneville cannot guarantee that notice will ber given in every instance, although a reasonable effort will be made to note changes in the schedule.

Bonneville will make available the papers distributed at the negotiation sessions. The papers may be inspected at the office of the Bonneville Public Involvment Coordinator. In addition, persons who wish to receive the documents on a regular basis may request that their names be added to a mailing list established for this purpose. The request should be made in writing to the Bonneville Public Involvement Coordinator. The prototype contracts will be available for inspection at the office of the Public Involvement Coordinator.

Bonneville believes that this approach will allow the public the opportunity to express views in the formative portion of the negotiating process while honoring the legal relationship between Bonneville and its customers and will allow Bonneville to meet its statutory obligations to offer the contracts by September 8, 1981.

Dated: March 17, 1981.

Earl Gjelde,

Acting Administrator.

BILLING CODE 6450-01-M

Economic Regulatory Administration

[ERA Docket No. 81-CERT-006]

Public Service Electric & Gas Co.; Application for Certification of the Use of Natural Gas To Displace Fuel Oil

Public Service Electric and Gas Company (Public Service), 80 Park Place, Newark, New Jersey 07101, filed an application on March 6, 1981, with the Economic Regulatory Administration (ERA) for certification of an eligible use of natural gas to displace fuel oil at eight of its electric generating stations located in New Jersey: Bergen in Ridgefield; Essex in Newark; Hudson in Jersey City; Kearney in Kearney; Linden in Linden; Sewaren in Sewaren; Edison in Edison; and Mercer in Trenton, pursuant to 10 CFR Part 595 (44 FR 47920, August 16, 1979). More detailed information is contained in the application on file and available for public inspection at the ERA, Division of Natural Gas Docket

Room, Room 7108, RG–55, 2000 M Street, N.W., Washington, D.C. 20461, from 8:30 a.m.–4:30 p.m., Monday through Friday, except Federal holidays.

In its application, Public Service states that the volume of natural gas for which it requests certification is approximately two billion cubic feet. This volume is estimated to displace the use of approximately 292,000 barrels of No. 6 fuel oil (0.3 percent sulfur) and approximately 8,000 barrels of No. 2 fuel oil (0.2 percent sulfur) or kerosene (0.1 percent sulfur) per year.

The quantities at each location are subject to considerable variation with changes in demand and availability of the various generating units, but estimated gas usage and resulting oil displacement volumes are listed below:

Location	Estimated volume (MMCF)[1]	Estimated oil displacement (in thousands of barrels)	
		0.3 pct sulfur No. 6 oil	0.2 pct sulfur No. 2 oil or 0.1 pct sulfur kerosene
1. Bergen Generating Station, Ridgefield, N.J.	868	134	
2. Essex Generating Station, Newark, N.J.	25		4
3. Hudson Generating Station, Jersey City, N.J.	772	115	
4. Kearny Generating Station, Kearny, N.J.			
5. Linden Generating Station, Linden, N.J.			
6. Sewaren Generating Station, Sewaren, N.J.	280	43	
7. Edison Generating Station, Edison, N.J.	25		4
8. Mercer Generating Station, Trenton, N.J.			
Total	2,000	292	8

[1] MMFC is million cubic feet.

The eligible seller is the Alabama Tennessee Natural Gas Company, P.O. Box 918, Florence, Alabama 35637. The gas would be transported by the Texas Eastern Transmission Corporation, P.O. Box 2521, Houston, Texas 77001; and the North Alabama Gas District, 1100 Woodward Avenue, Muscle Shoals, Alabama 35660.

Public Service has previously been issued certification by the ERA allowing purchases of natural gas from various eligible sellers for use at the same eight electric generating stations named in this certification as follows:

ERA Docket No.	Amount	Remarks
79-CERT-020	24.1 Bcf per year.	Expired June 24, 1980, and recertified as 80-CERT-020.
80-CERT-014	5 Bcf per year	Effective May 5, 1980.
80-CERT-017	4 Bcf per year	Effective June 25, 1980.
80-CERT-020	17.5 Bcf per year.	Recertification of 79-CERT-020 and Effective June 25, 1980.
80-CERT-028	1 Bcf per year	Effective Sept. 17, 1980.
80-CERT-032	16 MMcf per year.	Effective Sept. 30, 1980, and expired Oct. 31, 1980.
80-CERT-044	8 Bcf per year	Effective Jan. 19, 1982.

In order to provide the public with as much opportunity to participate in this proceeding as is practicable under the circumstances, we are inviting any person wishing to comment concerning this application to submit comments in writing to the Economic Regulatory Administration, Room 7108, RG–55, 2000 M Street, N.W., Washington, D.C. 20461, Attention: Mr. Albert F. Bass, within ten (10) calendar days of the date of publication of this notice in the Federal Register.

An opportunity to make an oral presentation of data, views, and arguments either against or in support of this application may be requested by any interested person in writing within the ten (10) day comment period. The request should state the person's interest, and, if appropriate, why the person is a proper representative of a group or class of persons that has such an interest. The request should include a summary of the proposed oral presentation and a statement as to why an oral presentation is necessary. If ERA determines that an oral presentation is necessary, further notice will be given to Public Service and any persons filing comments and will be published in the Federal Register.

Issued in Washington, D.C., on March 18, 1981.

Burton R. House,

Acting Administrator, Economic Regulatory Administration.

[FR Doc. 81-8812 Filed 3-23-81; 8:45 am]

BILLING CODE 6450-01-M

Applications for Entitlement Benefits for Petroleum Substitutes

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of Applications for Entitlement Benefits for Petroleum Substitutes.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) hereby gives notice of additional applications submitted to the ERA for designation as eligible recipients of entitlements under the domestic crude oil allocation program (10 CFR, Part 211, § 211.67). The first list of pending applications was published September 10, 1980, 45 FR 59613, and a second list of pending applications was published February 17, 1981, 46 FR 9320.

Under amendments to the Mandatory Petroleum Allocation Regulations, the ERA may grant entitlements to the producer, marketer, or consumer of a petroleum substitute made from domestically renewable sources of biomass, coal, solid waste or tar sands which is used as fuel in a refinery or which is used outside a refinery as a boiler fuel or elsewhere as fuel. The appendix contains a list of additional firms which have applied prior to December 31, 1980, for designation of their eligibility to receive entitlement benefits on a case-by-case basis as provided under Section 211.67. Those applications are now being reviewed by the ERA and a public disclosure copy of each application is available for public inspection.

FOR FURTHER INFORMATION CONTACT:

T. Wendell Butler, Acting Assistant Administrator, Office of Petroleum Operations, Economic Regulatory Administration, 2000 M Street, N.W., Room 6128, Washington, D.C. 20461, (202) 653–3372

William Funk (Office of General Counsel), Department of Energy, Forrestal Building, 1000 Independence Avenue, S.W., Room 6A–127, Washington, D.C. 20585 (202) 252–6739.

SUPPLEMENTARY INFORMATION: Section 211.67(a)(5) of the Mandatory Petroleum Allocation Regulations provides for the automatic inclusion in the crude oil entitlements program of shale oil produced from domestic sources, ethyl alcohol derived from domestic biomass and blended into gasohol, solid municipal waste and derivatives thereof used as fuel, and methane derived from municipal sewage or landfills.

Section 211.67(a)(5) also provides for the issuance of entitlements to other petroleum substitutes which the ERA determines on a case-by-case basis to be eligible for participation in the entitlements program. Those petroleum substitutes which are eligible only on a

case-by-case basis include solid, liquid, or gaseous fuels derived from domestically found solid waste sources, and fuel in a liquid form which is derived from domestic biomass, coal, or tar sands.

On September 10, 1980, the ERA published a list of 63 applications pending as of June 23, 1980 (September 10, 1980, 45 FR 59613). On February 17, 1981, the ERA published a list of 13 applications received by ERA as of June 23, 1980, which had inadvertently been omitted from this list (February 17, 1981, 46 FR 5326). Ninety-nine additional applications have been received by ERA as of December 31, 1980. These additional applicants are identified in the appendix to this notice. The appendix also provides the date on which the firm's application was filed and indicates the type of petroleum substitute for which each applicant is seeking entitlements.

Non-confidential copies of all applications filed by the firms listed in the appendix, including supporting documentation, may be examined at the ERA Office of Public Information, Room B-110, 2000 M Street, N.W., Washington, D.C. 20461, between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday, except Federal holidays.

Any person may file with the ERA a submission relevant to any application. Any submission which is received within thirty days of the publication of this notice will be considered by the ERA prior to determining whether to permit the inclusion of any firm in the entitlements program. Filings should be submitted to: Economic Regulatory Administration, Office of Petroleum Operations, Entitlements Program, Room 6128, 2000 M Street, N.W., Washington, D.C. 20461.

Issued in Washington, D.C. March 17, 1981

T. Wendell Butler,

Acting Assistant Administrator, Office of Petroleum Operations, Economic Regulatory Administration.

BILLING CODE 6450-01-M

Cibro Gasoline Corp.; Proposed Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of action taken and opportunity for comment on Proposed Consent Order.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces action taken to execute a Consent and on potential claims against the refunds deposited in

an escrow account established pursuant to the Consent Order.

EFFECTIVE DATE: February 18, 1981.

COMMENTS BY: April 23, 1981.

ADDRESS: Send comments to Edward F. Momorella, District Manager for Enforcement, Northeast District, Economic Regulatory Administration, 10th Floor, 1421 Cherry Street, Philadelphia, Pennsylvania 19102.

FOR FURTHER INFORMATION CONTACT: Herbert Maletz, New York Audit Director, Northeast District, 252 Seventh Avenue, New York, New York 10001, (212) 620–7608.

SUPPLEMENTARY INFORMATION: On February 18, 1981, the Office of Enforcement of the ERA executed a Consent Order with Cibro Gasoline Corporation. Under 10 CFR Section 205.199J(b), a Consent Order which involves a sum of less than $500,000 in the aggregate, excluding penalties and interest, becomes effective upon its execution unless the DOE determines otherwise. By its terms the Consent Order becomes effective only after DOE has requested comments with respect to the Consent Order. Although the ERA has signed and tentatively accepted the Proposed Consent Order, the ERA may, after consideration of comments, withdraw its acceptance and if appropriate, attempt to negotiate an alternative Consent Order.

I. The Consent Order

Cibro Gasoline Corporation (Cibro), with its home office located in Bronx, New York, is a firm engaged in the sale of motor gasoline and is subject to the Mandatory Petroleum Price and Allocation Regulations at 10 CFR, Parts 210, 211, 212. To resolve certain civil actions which could be brought by the Office of Enforcement of the Economic Regulatory Administration as a result of its audit of Cibro, the Office of Enforcement of the ERA, and Cibro entered into a Consent Order, the significant terms of which are as follows:

1. During the period June 6, 1979 through December 30, 1979 (audit period), Cibro allegedly overcharged its end-user and reseller/retailer classes of purchaser in the resale of motor gasoline.

2. It is alleged that Cibro incorrectly computed its maximum legal selling price in its sales of motor gasoline to the classes of purchaser listed above during the audit period. As as result, Cibro charged prices in excess of those permitted under 10 CFR 212.93(a).

3. This Consent Order constitutes neither an admission by Cibro that it has violated the Mandatory Petroleum Price Regulations nor a finding by ERA that Cibro has violated such regulations.

4. The provisions of 10 CFR 205.199J, including the publication of this Notice, are applicable to the Consent Order.

5. Cibro shall pay $15,000.00 in compromise of civil penalties.

II. Disposition of Refunded Overcharges

In this Consent Order, Cibro will refund, in full settlement of any civil liability with respect to actions which might be brought by the Office of Enforcement, ERA, arising out of the transactions specified in I.1. above, the sum of $410,819.00.

In order to accomplish the refund of overcharge of $335,055.00 to end-users, Cibro will issue, during the refund period, either cash payments or credit memorandum to affected customers in these classes of purchaser. Customers of larger volumes will receive refunds based on their pro rata purchases during the audit period; customers of smaller volumes during the audit period will be divided into sub-classes of volumes and paid an equal amount per capita within such sub-class.

In order to accomplish the refund of overcharges of $83,764.00 to reseller/retailers, Cibro will issue, during the refund period, certified checks made payable to the United States Department of Energy and delivered to the Assistant Administrator for Enforcement, ERA. These funds will remain in a suitable account pending the determination of their proper disposition.

The DOE intends to distribute the Cibro refund amount in a just and equitable manner in accordance with applicable laws and regulations. Accordingly, distribution of such refunded overcharges requires that only those "persons" (as defined at 10 CFR 205.2) who actually suffered a loss as a result of the transactions described in the Consent Order receive appropriate refunds. Because of the petroleum industry's complex marketing system, it is likely that overcharges have either been passed through as higher prices to subsequent purchasers or offset through devices such as the Old Oil Allocation (Entitlements) Program, 10 CFR Section 211.67. In fact, the adverse effects of the overcharges may have become so diffused that it is a practical impossibility to identify specific, adversely affected persons, in which case disposition of the Cibro refunds will be made in the general public interest by an appropriate means such as payment of the Treasury of the United States pursuant to 10 CFR 205.199I(a).

III. Submission of Written Comments

A. Potential Claimants: Interested persons who believe that they have a claim to all or a portion of the Cibro refund amounts should provide written notification of the claim to the ERA at this time. Proof of claims is not now being required. Written notification to the ERA at this time is requested primarily for the purpose of identifying valid potential claims to this refund amount.

After potential claims are identified, procedures for the making of proof of claims may be established. Failure by a person to provide written notification of a potential claim within the comment period for this Notice may result in the DOE irrevocably disbursing the funds to other claimants or to the general public interest.

B. Other Comments: The ERA invites interested persons to comment on the terms, conditions, or procedural aspects of this Consent Order.

You should send your comments or written notification of a claim to Edward F. Momerella, District Manager of Enforcement, Northeast District, Department of Energy, 1421 Cherry Street, Philadelphia, Pennsylvania 19102. You may obtain a free copy of this Consent Order by writing to the same address or by calling (215) 597–2633. You should identify your comments on the outside of the envelope and on the documents you submit with the designation, "Comments on Cibro's Consent Order." We will consider all comments which are pertinent as described above and which we receive by 4:30 p.m., Eastern Standard Time, on April 23, 1981. You should identify any information or data which, in your opinion, is confidential and submit it in accordance with the procedures in 10 CFR Section 205.9(f).

Issued in Philadelphia, Pennsylvania on the 23rd day of February 1981.

Edward F. Momorella,

District Manager, Northeast District Enforcement.

BILLING CODE 6450–01–M

Coline Gasoline Corp.; Action Taken on Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of Action Taken on Consent Order

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces notice of filing a Petition for the Implementation

of Special Refund Procedures for refunds received pursuant to a Consent Order.

DATE: Petition submitted to the Office of Hearings and Appeals: March 13, 1981.

FOR FURTHER INFORMATION CONTACT:

Charles L. Croxton, Program Manager for Natural Gas Liquids, Program Operations Division, Office of Enforcement, 2000 M Street, N.W., Room 5204, Washington, D.C. 20461, (202) 653-3541.

SUPPLEMENTARY INFORMATION: On January 8, 1980, the Office of Enforcement of the ERA published notification in the **Federal Register** that it executed a Consent Order with Coline Gasoline Corporation (Coline) of Santa Fe Springs, California on November 19, 1979, 45 FR 1672 (1980). Interested persons were invited to submit comments concerning the terms, conditions, or procedural aspects of the Consent Order. In addition, persons who believe they have a claim to all or a portion of the refund of overcharges paid by Coline pursuant to the Consent Order were requested to submit notice of their claims to the ERA.

Although interested persons were invited to submit comments regarding the Consent Order to the DOE, no comments were received. The Consent Order, therefore, was not modified.

Pursuant to the Consent Order, Coline refunded the sum of $628,480.79 including interest by certified check made payable to the United States Department of Energy. This amount has been placed into a suitable account pending determination of its proper distribution.

The following person submitted a claim to the ERA: Mobil Oil Corporation.

Action Taken

The ERA is unable to identify readily the persons entitled to receive the $628,480.79 including interest or to ascertain the amounts of refunds that such persons are entitled to receive. The ERA, therefore, has petitioned the Office of Hearings and Appeals (OHA) on March 13, 1981 to implement Special Refund Procedures pursuant to 10 CFR Part 205, Subpart V, 10 CFR 205.280 *et seq.* to determine the identity of persons entitled to the refunds and the amounts owing to each of them. Persons who believe they are entitled to all or a portion of the refunds should comply with procedures of 10 CFR Part 205, Subpart V.

Issued in Washington, D.C. on the 13th day of March 1981.

Robert D. Gerring,

Director, Program Operations Division.

[FR Doc. 81-8931 Filed 3-23-81; 8:45 am]

BILLING CODE 6450-01-M

The Powerplant and Industrial Fuel Use Act; Notice and Issuance of an Order Granting Temporary Public Interest Exemptions Pursuant to Section 311

The Economic Regulatory Administration (ERA) of the Department of Energy hereby gives notice of its issuance of an Order granting temporary public interest exemptions, pursuant to the authorities granted it by section 311(e) of the Powerplant and Industrial Fuel Use Act of 1978, 42 U.S.C. § 8301 *et seq.*, (FUA or the Act), and the implementing regulations thereunder (10 CFR § 501.68 and 10 CFR Part 508, from the natural gas use prohibitions of section 301(a)(2) and (3) of the Act to the following powerplants in order to displace high sulfur residual fuel oil:

Docket No.	Petitioner	Generating station	Powerplant identification No.
50845-2443-04-41	Community Public Service Company	Lordsburg	4
51894-1403-01-41	Louisiana Power and Light Company	Nineveh Point	1
51887-8054-01-41	Mississippi Power & Light	Gerald Andrus	1

The Order is set forth following this Notice and has been sent by certified mail to the Petitioners.

The petitioners filed for these temporary public interest exemptions pursuant to 10 CFR Part 508 (Exemption for Use of Natural Gas by Existing Powerplants Under the Powerplant and Industrial Fuel Use Act of 1978, April 9, 1979, 44 FR 21230, hereafter referred to as the Special Rule). A notice of the petitions and proposed order granting these temporary exemptions were published in the **Federal Register** on January 30, 1981 (46 FR 9984), presenting an opportunity for public comments and for interested persons to request a hearing relating to the petitions and the proposed order. All comments that referred to specific petitions were supportive of them.

The powerplants listed above are either prohibited by section 301(a)(2) of FUA from using natural gas as a primary energy source, or are prohibited from using natural gas as a primary energy source in excess of the average base year proportion allowed in section 301(a)(3) of the Act. These temporary exemptions will allow these units to burn natural gas, notwithstanding the prohibitions of section 301(a)(2) and (3) of FUA, to displace consumption of high sulfur residual fuel oil.

Statement of Reasons

Because world oil supplies continue to be unstable, there is an urgent need to use these natural resources wisely.

To the extent that the near-term choice of fuels for certain existing powerplants is limited to petroleum or natural gas, the use of natural gas is preferred over petroleum. The use of natural gas in these powerplants will be a significant step toward reducing our short-term oil consumption and will help the United States reduce its dependence on imported petroleum.

This increased use of natural gas will also protect the Nation from the effects of any oil shortages, and will cushion the impact of increasing world oil prices, which have a detrimental effect on the Nation's balance of payments and domestic inflation rate.

To the extent that increased use of natural gas will accomplish these goals, it will reduce the importation of petroleum and further the goal of national energy self-sufficiency.

The petitioners have demonstrated that these powerplants, for which they are requesting temporary exemptions, are existing units that are either prohibited from using natural gas as a primary energy source by section 301(a)(2) of FUA, or prohibited from using natural gas in excess of the average base year proportion allowed in section 301(a)(3) of FUA. The petitioners have also shown that the proposed use of natural gas as a primary energy source, to the extent that such use would be prohibited by section 301(a)(2) or (3) of FUA, will displace consumption of high sulfur residual fuel oil, and will not displace the use of coal or any other alternate fuel in any facility of the petitioners' utility systems, including the powerplants for which these temporary exemptions are issued.

By establishing these facts, the petitioners have met the eligibility criteria set out in 10 CFR § 508.2. Since the increased use of natural gas is in keeping with the purposes of FUA and is in the public interest, and since the petitioners have demonstrated that they have met the eligibility criteria, ERA is granting these temporary exemptions.

Copies of all comments received during the public comment period will be available for public inspection and copying in the Public Information Office located in Room B–110, 2000 M Street, N.W., Washington, D.C. 20461.

Any questions regarding these temporary exemptions should be directed to Mr. James W. Workman, Director, Powerplants Conversion Division, Office of Fuels Conversion, Economic Regulatory Administration, Department of Energy, Room 3112D, 2000 M Street, N.W., Washington, D.C. 20461, (202) 653–4268.

Decision and Order

The Economic Regulatory Administration (ERA) of the Department of Energy hereby issues this Decision and Order granting temporary public interest exemptions from the prohibitions of section 301(a) (2) and (3) of the Powerplant and Industrial Fuel Use Act of 1978, 42 U.S.C. § 8301 *et seq.*, (FUA or the Act). This Decision and Order is issued pursuant to section 311(e) of FUA, 10 CFR § 501.68 and 10 CFR Part 508 to the petitioners who own or operate the powerplants listed in the table below.

Docket No.	Petitioner	Generating station	Powerplant identification No.
50645–8443–04–41	Community Public Service Company	Lordsburg	4
51664–1403–01–41	Louisiana Power and Light Company	Ninemile	1
51667–8064–01–41	Mississippi Power & Light	Gerald Andrus	1

Duration of Temporary Exemptions

ERA grants these temporary public interest exemptions until December 7, 1981. Upon the request of the petitioners, these exemptions may be extended for an additional period at the discretion of ERA. However, a temporary public interest exemption, including all extensions and the period during which the petitioners were allowed to burn natural gas while their petitions were pending, may not exceed the maximum 5 year period authorized by the Act, or extend beyond June 30, 1985. All requests for extensions must be filed with ERA by September 7, 1981. The temporary exemptions are subject to termination by ERA, upon six months written notice, if ERA determines such termination to be in the public interest.

Effective Date of Decision and Order

This Decision and Order shall become effective on the sixtieth calendar day following its publication in the **Federal Register**. However, in accordance with the policy set forth in the notice implementing this Special Rule (44 FR 21230, April 9, 1979), ERA will take no action with respect to any natural gas used by the exempted powerplants during the pendency period prior to the date this Decision and Order becomes effective.

Terms and Conditions

Pursuant to section 314 of FUA and 10 CFR § 508.6, the temporary exemptions granted under this Decision and Order are conditioned upon, and shall remain in effect, so long as each petitioner, its successors and assigns, complies with the following terms and conditions:

(1) Petitioner will report to ERA for the period during which the petition was pending, and for each subsequent six-month period thereafter (periods ending June 30 and December 31), the actual monthly volumes of natural gas consumed in each exempted powerplant, and an estimate of the number of barrels of each type of fuel oil displaced. The report must be submitted within thirty days of the end of each six-month period.

(2) Petitioner will submit to ERA, within one year after the date this Decision and Order is issued, a system-wide fuel conservation plan to include the period covered by these temporary exemptions, including the means by which the petitioner will measure progress in implementing this plan. If the petitioner has received temporary public interest exemptions under previous orders, the first granted exemption order establishes the due date for the system-wide conservation plan.

(3) If the petitioner seeks to have the exemptions extended, the fuel conservation plan must cover both the initial period covered by these temporary exemptions and the additional period, including the means by which the petitioner will measure progress in implementing this plan.

(4) Petitioner will submit annually to ERA, commencing with the calendar year ending December 31, 1982, a report on progress achieved in implementing the pertinent fuel conservation plan, if the petitioner's exemptions are extended beyond December 7, 1981.

ERA's grant of these temporary public interest exemptions does not relieve an existing powerplant from compliance with any rules or regulations concerning the acquisition or the distribution of natural gas that are administered by the Federal Energy Regulatory Commission or any State regulatory agency or from any obligations the utility may have to its customers.

Issued in Washington, D.C. on March 17, 1980.

Robert L. Davies,

Assistant Administrator, Office of Fuels Conversion, Economic Regulatory Administration.

BILLING CODE 6450–01–M

Triton Oil & Gas Corp.; Action Taken on Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of Action Taken on Consent Order

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces notice of filing a Petition for the Implementation of Special Refund Procedures for refunds received pursuant to a Consent Order.

DATE: Petition submitted to the Office of Hearings and Appeals: March 16, 1981.

FOR FURTHER INFORMATION CONTACT: Charles L. Croxton, Program Manager for Natural Gas Liquids, Program Operations Division, Office of Enforcement, 2000 M Street, N.W., Room 5204, Washington, D.C. 20461, (202) 653–3541.

SUPPLEMENTARY INFORMATION: On July 11, 1979, the Office of Enforcement of the ERA published notification in the **Federal Register** that it executed a Consent Order with Triton Oil and Gas Corporation (Triton of Dallas Texas on June 27, 1979, 44 FR 40548 (1979). Interested persons were invited to submit comments concerning the terms, conditions, or procedural aspects of the Consent Order. In addition, persons who believe they have a claim to all or a

portion of the refund of overcharges paid by Triton pursuant to the Consent Order were requested to submit notice of their claims to the ERA.

Although interested persons were invited to submit comments regarding the Consent Order to the DOE, no comments were received. The Consent Order, therefore, was issued as signed.

Pursuant to the Consent Order, Triton refunded the sum of $78,358.48 by certified check made payable to the United States Department of Energy. This sum was received by DOE has been placed into a suitable account pending determination of its proper distribution.

Action Taken: The ERA is unable to identify readily the persons entitled to receive the $78,358.48 or to ascertain the amounts of refunds that such persons are entitled to receive. The ERA, therefore, has petitioned the Office of Hearings and Appeals (OHA) on March 16, 1981 to implement Special Refund Procedures pursuant to 10 CFR Part 205, Subpart V, 10 CFR 205.280 *et seq.* to determined the identity of persons entitled to the refunds and the amounts owing to each of them. Persons who believe they are entitled to all or a portion of the refunds should comply with the procedures of 10 CFR Part 205, Subpart V.

Issued in Washington, D.C. on the 17th day of March 1981.

Robert D. Gerring,

Director, Program Operations Division.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Project No. 4040-000]

Bountiful City; Application for New Major License

March 18, 1981.

Take notice that Bountiful City (Applicant) filed on January 19, 1981, an application for a new major license [pursuant to the Federal Power Act, 16 U.S.C. §§ 791(a)825(r)] for the constructed Olmsted water power project, FERC No. 4040, located on the Provo River, in Utah County, Utah, near the City of Orem, Utah. The project affects lands of the United States, within the Uinta National Forest. The original license held by Utah Power & Light Company expired on October 20, 1975, and the project is operating under annual license.

Correspondence concerning the application should be directed to: Mr. W. Berry Hutchings, Manager, Bountiful City Light & Power Dept., 198 South 200 West, Bountiful, Utah 84010.

Project Description—Olmsted Hydroelectric Project consists of: (1) a concrete diversion dam having a 15-foot maximum height and an 80-foot length, including a 62-foot long spillway topped by variable height stop-log flashboards; (2) a pond with 52 acre-feet of storage capacity and a water surface elevation ranging between 5,181 and 5,186 feet m.s.l.; (3) a concrete screened water intake structure 104 feet in length along the right bank leading to; (4) a 25,117-foot long 8.5-foot diameter steel or concrete gravity pipeline including (a) a Taintor gate control screening structure and (b) a siltation structure; (5) a wood and/or concrete lined tunnel 950 feet long, 13 feet wide, and 10 feet high opening into; (6) a concrete and steel "pressure box" structure 50 feet long, 50 feet wide, and 60 feet high with trash screens and four Taintor gates connecting to; (7) three 730-foot long steel penstocks varying in diameter from 60 to 48 to 54-inches and a 730-foot long, 6-foot diameter steel penstock; (8) a concrete, brick, and steel powerhouse containing three 2,400-kW generating units and a 5,500-kW generating unit; (9) a tailrace 800 feet long; (10) electrical facilities connecting to a 44-kV switchyard; and (11) appurtenant facilities.

The Applicant proposes to: (1) perform ordinary operation and maintenance; (2) phase out operation of Olmsted Plant by the year 2000; and (3) develop a recreational area for public use surrounding the historic Olmsted Power Plant.

Purpose of Project—All power generated from the Olmsted Power Plant would be used by the Applicant for municipal purposes.

Competing Applications—This application was filed as a competing application to that of Utah Power and Light Company Project No. 596 filed on April 7, 1975, and most recently revised on April 25, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 C.F.R § 1.8 or § 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 14, 1981. the Commission's address is: 825 North Capitol Street, N.E., Washington, D.C. 20426. The application is on file with the Commission and is available for public inspection.

Kenneth F. Plumb,

Secretary.

In the matter, of Columbia Gas Transmission Corporation and Columbia LNG Corporation [Docket No. TA80-2-21 (PGA80-3)], Consolidated Gas Supply Corporation, and Consolidated LNG Company [Docket No. TA80-2-22 (PGA80-5)(IPR80-3) (LFUT80-2) and (RD&D80-2)], Southern Natural Gas Company [Docket No. RP80-136], State of Ohio Ex Rel. William J. Brown, Attorney General [Docket No. RP80-129].

The Attorney General of the State of Ohio (Ohio) filed a complaint in this docket on August 9, 1980, in which numerous allegations were made regarding the LNG facility at Cove Point, Maryland. It was alleged that Columbia Gas Transmission Corporation (Columbia), Columbia LNG Corporation (Columbia LNG), Consolidated Gas Supply Corporation (Consolidated), and and Consolidated System LNG Company (Consolidated LNG) have violated tariff and contract provisions by failing to invoke minimum bill provisions following the cessation of LNG deliveries by Algeria; violated tariff provisions by failing to invoke minimum bill provisions following an accident on October 6, 1979, at the Coved Point facility; engaged in transactions which have resulted in a shifting of the risk of loss to consumers; charged unlawful and excessive rates for deliveries from the Cove Point facility; and, unlawfully overcollected capital costs through their PGA clauses.

On September 15, 1980, separate Answers were filed by both Columbia and its LNG affiliate, and Consolidated and its LNG affiliate, denying all allegations of tariff violations and unlawful activity set forth in the Attorney General's Complaint.

A Motion for Consolidation and Memorandum in Support was filed on November 3, 1980 by Ohio, in which it requested consolidation of the Complaint with proceedings in Docket Nos. TA80-2-21 (PGA80-3) and TA80-2-22 (PGA80-5)(IPR80-3)(LFUT80-2)(RD&D80-2). Ohio argued in support of its Motion that the two proceedings and its Complaint in this docket raised common questions of law and fact, noting a further similarity between the parties. No responses have been filed in this docket in opposition to Ohio's Motion for Consolidation.

On February 17, 1981, Ohio filed a Motion For Leave To File An Amended Complaint, to which was attached the Amended Complaint. The Amended Complaint realleged all counts contained in the original Complaint, with the exception of the allegation that Columbia, Columbia LNG, Consolidated and Consolidated LNG violated tariff provisions by failing to invoke the minimum bill following the October 6, 1979 accident at Cove Point.

The basic issue raised by Ohio is whether the total operations of the Cove Point LNG terminal have been sufficiently continuous with adequate levels of delivery to justify full cost recovery under the Columbia LNG and Consolidated LNG tariffs, or whether the level of service should have triggered the minimum bill provisions in the companies' tariffs. Ohio's Amended Complaint alleges a fraudulent purpose in the delivery by Columbia LNG and Consolidated LNG of a "*de minimis* stream of gas", while recovering the full cost of an "inoperable" Cove Point LNG terminal. This procedure is alleged by Ohio to be in violation of both Opinion Nos. 622 and 622-A, and the public policy. Ohio states that this issue arises as a result of the fact that Sonatrach, the state owned and operated national oil and gas company of Algeria, terminated all LNG shipments to Cove Point on April 1, 1980. To date there has been no resumption of such shipments, which were originally terminated pending the negotiations of an LNG price increase for Sonatrach.

The minimum bill provisions in the tariffs of Columbia LNG and Consolidated LNG also frame the subject matter in the proceedings initiated by Commission order of August 29, 1980 in Docket Nos. TA80-2-21, TA80-2-22 and RP80-136. Therefore, the Commission finds that it is appropriate to consolidate these proceedings to assure consistency in the resolution of related claims and to avoid unnecessary duplication of effort. In addition, the Commission shall grant the Attorney General of the State of Ohio leave to withdraw the original Complaint which was filed on August 4, 1980, pursuant to Section 1.11(d) of the Commission's Rules of Practice and Procedure.

The Commission Orders: (A) The Attorney General of the State of Ohio shall be granted leave to withdraw the complaint filed in Docket No. RP80-129 on August 4, 1980, in accordance with 18 CFR 1.11(d). In addition, the Commission hereby accepts the Amended Complaint filed in this docket on February 17, 1981 by the Attorney General.

(B) The November 3, 1980 request by the Attorney General of the State of Ohio for consolidation of the Complaint, as amended, with the proceedings in Docket Nos. TA80-2-21, *et al.*, shall be granted for purposes of hearing and decision, pursuant to 18 CFR 1.20(b). The scope of these proceedings shall be consistent with both the Commission's August 29, 1980 order in those dockets, and the Commission's order herein.

By the Commission.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8941 Filed 3-23-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 3649-000]

Mitchell Energy Company, Inc.; Application for Preliminary Permit

March 17, 1981.

Take notice that Mitchell Energy Company, Inc. (Applicant) filed on November 3, 1980, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. §§ 791(a)-825(r)] for proposed Project No. 3649 to be known as Mississippi Lock and Dam No. 7 Hydroelectric Project to be located at the U.S. Army Corps of Engineers' Mississippi Lock and Dam No. 7, a navigation project, on the Mississippi River, near the town of Lacrosse, in Winona County, Minnesota. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Mitchell L. Dong, President, Mitchell Energy Company, Incorporated, 173 Commonwealth Avenue, Boston, Massachusetts 02116. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize an existing U.S. Army Corps of Engineers lock and dam. Project No. 3649 would consist of: 1) a proposed powerhouse located just below the existing dam; 2) proposed transmission lines and 3) appurtenant facilities. Applicant estimates the capacity of the proposed generator units to be 12 MW. The project is located on Federal lands.

The Applicant estimates that the average annual energy output would be 77,280,000 KWh.

Purpose of Project—Energy produced at the proposed project would be sold to a local utility.

Proposed Scope and Cost of Studies Under Permit—Applicant has requested a 24-month permit to prepare a definitive project report, including preliminary design and economic feasibility studies, hydrological studies, environmental and social studies and soil and foundation data. The cost of the aforementioned activities along with obtaining agreements with other Federal, State, and local agencies is estimated to be $50,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 18, 1981, either the competing application itself or a notice

of intent to file a competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 17, 1981. A notice of intent must conform with the requirements of 18 C.F.R. § 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 C.F.R. § 4.33(a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR § 1.8 or § 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 18, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3649. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the orginal and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8945 Filed 3-23-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4016-000; Project No. 4020-000]

Arkansas Power & Light Co. and Arkansas Electric Cooperative Corp.; Application for Preliminary Permit

March 18, 1981.

Take notice that the Arkansas Power and Light Company (AP&L) filed on January 11, 1981, and the Arkansas Electric Cooperative Corporation (AEC) filed on January 16, 1981, competing applications [pursuant to Federal Power Act, 16 U.S.C. Sections 791(a)–825(r)] for preliminary permit for a proposed hydroelectric power project that would be known as the Lock and Dam No. 3 Project, FERC Project Nos. 4016 and 4020, respectively. The proposed project is located on the White River in Independence County, Arkansas. The applications are on file with the Commission and are available for public inspection. Correspondence with the Arkansas Power and Light Company, should be directed to: Mr. W. Henry Jones; Manager, Civil Engineering; Arkansas Power and Light Company, Post Office Box 551, Little Rock, Arkansas 72203. Correspondence with the Arkansas Electric Cooperative Corporation, should be directed to: Mr. Louis Fish, Assistant General Manager, Arkansas Electric Cooperative Corporation, 8000 Scott Hamilton Drive, Little Rock, Arkansas 72209. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project No. 4016 would consist of: (1) the existing Lock and Dam No. 3 (the dam is 31 feet high and has a crest length of 750 feet, the lock is 147 feet long and 36 feet wide); (2) a reservoir of negligible storage capacity; (3) a new powerhouse, adjacent to Lock No. 3, having a generating capacity of 8,400 kW; (4) a new switchyard; (5) a new transmission line; and (6) appurtenant facilities. AP&L estimates that the average annual energy output would be 48,000,000 kWh. The proposed Project No. 4020 would utilize the same Lock and Dam No. 3 and its reservoir, and would also include a new powerhouse adjacent to Lock No. 3 having a generating capacity of 15,000 kW. AEC estimates that the average annual energy output would be 80,000,000 kWh. The owner of Lock and Dam No. 3 is the Arkansas College.

Purpose of Project—AP&L proposes to utilize a portion of the energy generated and sell the remainder to the AEC and local municipalities. AEC proposes to utilize all the energy generated for distribution to its members.

Proposed Scope and Cost of Studies Under Permit—AP&L seeks issuance of a preliminary permit for a period of two years and AEC seeks issuance for a period of three years. Both Applicants would investigate project design alternatives, financial feasibility, environmental effects of project construction and operation, project power potential, and all information necessary for inclusion in an application for a license. AP&L estimates the cost of studies under the preliminary permit would be between $20,000 and $50,000 and AEC estimates the cost to be between $30,000 and $50,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of each application may be obtained directly from the respective Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 18, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 17, 1981. A notice of intent must conform

with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protest about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 18, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protest, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4016 and Project No. 4020. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the orginal and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8934 Filed 3-23-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4266-000]

Burton Allen Finberg; Application for Preliminary Permit

March 18, 1981.

Take notice that Burton Allen Finberg (Applicant) filed on February 27, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4266 to be known as Albion Hydroelectric Project located on the Blackstone River in the Towns of Lincoln and Cumberland, Providence County, Rhode Island. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Burton Allen Finberg, 184 University Avenue, Providence, Rhode Island 02906. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed run-of-the-river project would consist of: (1) an existing concrete rollway dam, about 300 feet long and 25 feet high; (2) an existing reservoir with a negligible storage capacity of 235 acre feet at surface elevation of 87.7 feet m.s.l.; (3) a new headrace with gate structure and trashracks at the east (left) dam abutment; (4) a new powerhouse with an installed capacity of 850 kW; (5) a tailrace; and (6) other appurtenances. The Applicant estimates that the average annual energy output would be about 5,180,000 kWh.

Purpose of Project—Project energy would be sold to the Blackstone Valley Electric Company.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of 24 months, during which time he would perform hydraulic, construction, economic, environmental, historic, and recreational studies, and if the proposed project is determined feasible, prepare an application for an FERC license. Applicant estimates cost of studies under the permit would not exceed $43,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Application.—Anyone desiring to file a competing application must submit to the Commission, on or before May 21, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 20, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene.—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10. for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before May 21, 1981.

Filing and Service of Responsive Documents.—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for

Project No. ——. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8936 Filed 3-23-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. EC81-8-000]

Central Maine Power Co.; Application

March 18, 1981.

The filing company submits the following:

Take notice that on March 5, 1981, Central Maine Power Company (Central Maine) filed an application with the Federal Energy Regulatory Commission pursuant to Section 203 of the Federal Power Act seeking an order authorizing it to acquire through merger all of the assets of Carrabassett Light and Power Company (Carrabassett).

Central Maine is an electric utility organized under the laws of Maine with its principal office at Augusta, Maine. It serves approximately 380,00 customers in an area of 10,600 square miles in the central and southern parts of Maine.

Carrabassett is an electric utility incorporated under the laws of Maine and has its principal office at North Anson, Maine. It serves approximately 505 customers in the Towns of Anson and Embden, Somerset County, Maine. Carrabassett currently purchases all of its power requirements from Central Maine under a contract filed with the Federal Energy Regulatory Commission. The territory served by Carrabassett is located adjacent to the Central Maine system and, according to the application, Carrabassett's rates in general are higher than those now charged by Central Maine.

The application states that Central Maine proposes to exchange that number of shares of its common stock which, when multiplied by the Market Value (as defined in the proposed Plan of Merger) of that stock on the closing date equals or most nearly equals the total value of $246,377 for all of the outstanding common stock of Carrabassett, said sum of $246,377 being subject to change to the extent the Net Worth (as defined) of Carabassett shall have changed as of the effective time of the merger.

Central Maine represents that the intergration of the relatively small electric utility system of Carrabassett into the larger intergrated system of Central Maine will result in assuring an adequate supply of electric energy in the territory now served by Carrabassett.

Any person desiring to be heard or to make any protest with reference to said application should, on or before April 3, 1981, file with the Federal Energy Regulatory Commission in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-317-000]

Central Vermont Public Service Corp.; Filing

March 18, 1981.

The filing company submits the following:

Take notice that on March 2, 1981, Central Vermont Public Service Corporation (Central Vermont) submitted for filing a proposed modification of the availability provision of Central Vermont's Rates 8 and 8-A. Central Vermont's Rate 6 has been superseded thereby.

A copy of this filing has been served upon the parties to this proceeding.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before April 3, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket Nos. CS81-59-000, et al.]

Emefco Petroleum Inc., et al.; Applications for "Small Producer" Certificates[1]

March 18, 1981.

Take notice that each of the Applicants listed herein has filed an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.40 of the Regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before April 3, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protest filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will held without further notice before the Commission on all applications in which no petition to intervene is filed within

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 4187-000]

Marc Leon Figueira; Application for Preliminary Permit

March 18, 1981.

Take notice that Marc Leon Figueira (Applicant) filed on February 11, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. §§ 791(a)-825(r)] for proposed Project No. 4187 to be known as Sheridan Creek Project located on a tributary to Sheridan Creek in Shasta County, California. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Marc Leon Figueira, P.O. Box 558, Route #2, Shingletown, California 96088. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a diversion structure; (2) a pipeline; (3) a 25-foot wide and 30-foot long powerhoue containing one generating unit rated at 411 kW; (4) a new one-half-mile long access road; and (5) a 200-foot long transmission line. The project would be operated on a run-of-the-river basis.

The Applicant estimates that the average annual energy output would be one million kWh.

Purpose of Project—The energy generated by the project would be sold to the Pacific Gas and Electric Company.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of 18 months, during which time it would conduct engineering, environmental, economic, and feasibility studies, and prepare an FERC license application. No new roads would be required to conduct the studies.

The cost of the studies to be performed under the preliminary permit is estimated to be $20,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If any agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before May 20, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 20, 1981. A notice of intent must conform with the requirements of 18 CFR § 4.33(b) and (c) (1980). A competing application must conform with the requirements of 18 CFR § 4.33(a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR § 1.8 or § 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protests, or petition to intervene must be received on or before May 20, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTESTS", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4187. Any comments, notices of intent, competing applications, protests, or petitions to interene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the

Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8939 Filed 3-23-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4041-000]

Massachusetts Municipal Wholesale Electric Co.; Application for Preliminary Permit

March 18, 1981.

Take notice that Massachusetts Municipal Wholesale Electric Company (Applicant) filed on January 21, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. §§ 791(a)–825(r)] for proposed Project No. 4041 to be known as the Westville Project located on the Quinebaug River in Southbridge, Worcester County, Massachusetts. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Phillip C. Otness, General Manager, Massachusetts Municipal Wholesale Electric Company, Stony Brook Energy Center, P.O. Box 426, Ludlow, Massachusetts 01056. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize the existing Army Corps of Engineers' Westville dam and the associated reservoir and would consist of a new powerhouse containing a single turbine-generator with a total rated capacity of 1 MW and a transmission line.

The Applicant estimates that the average annual energy output would be 4,300,000 kWh.

Purpose of Project—Energy generated at the project would be utilized by the Applicant for distribution to its customers.

Proposed Scope and Cost of Studies under Permit—The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on results of these studies, Applicant would decide whether to proceed with more detailed studies and the preparation of an application for license to construct and operate the project. Applicant estimates that the cost of the work to be performed under the preliminary permit would be $40,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to the Westville Project No. 3339 filed on August 19, 1980, by Water Power Development Corporation, under 18 CFR (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protest about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR § 1.8 or § 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before April 14, 1981.

Filing and Service of Responsive Documents—Any comments, protests or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4041. Any comments, protests, or petitions to intervene must be filed by providing the orginal and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-8940 Filed 3-23-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. RP81-10-002]

Western Gas Interstate Co.; Notice of Filing

March 18, 1981.

Take notice that on March 6, 1981, Western Gas Interstate Company ("Western") filed Second Substitute Sixteenth Revised Sheet No. 3A to its FERC Gas Tariff, Original Volume No. 1. Said tariff sheet is proposed to become effective on December 2, 1980.

Western states that Second Substitute Sixteenth Revised Sheet No. 3A is being filed in compliance with the Commission's letter order dated December 30, 1980, in Docket No. RP81-10-001 requiring Western to refile revised rates "consistent with the Office of Pipeline and Producer Regulation Order in Docket No. TA81-1-52-001 (PGA81-1a)."

Western states that copies of this filing were served upon Western's transmission system customers and the interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before March 30, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants

parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

ENVIRONMENTAL PROTECTION AGENCY

[PH-FRL 1785-7; OPP 180553A]

Arizona and California; Amendment to Specific Exemption for Fenvalerate on Lettuce

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted an amendment to specific exemptions issued to Arizona and California for the use of Pydrin on lettuce to control *Heliothis* species.

FOR FURTHER INFORMATION CONTACT: Jack E. Housenger, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Room 502C, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7123).

SUPPLEMENTARY INFORMATION: Notice of these exemptions appeared in the **Federal Register** of February 19, 1981 (46 FR 13107). Item 15 has been amended to read as follows:

15. Head lettuce with residue levels of fenvalerate not exceeding 10 parts per million may enter into interstate commerce. The Food and Drug Administration, U.S. Department Health and Human Services, has been advised of this action.

All other terms of the specific exemptions still apply.

Dated: March 13, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

[FR Doc. 81-8889 Filed 3-23-81; 8:45 am]

BILLING CODE 6560-32-M

[OPP 180580; PH-FRL 1785-4]

Arkansas; Issuance of Specific Exemption for Bolero and Propanil in Rice Fields

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted a specific exemption to the Arkansas State Plant Board (hereafter referred to as the "Applicant") for use use of Bolero (thiobencarb) alone or in a tank mixture with propanil to control grasses, aquatic weeds, and boardleaf weeds infesting 200,000 acres of dry-seeded rice fields in 41 Arkansas counties. The specific exemptions are issued under the Federal Insecticide, Fungicide, and Rodenticide Act.

DATE: The specific exemption expires on August 31, 1981.

FOR FURTHER INFORMATION CONTACT: Jack E. Housenger, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Room 502C, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7123).

SUPPLEMENTARY INFORMATION: According to the Applicant, grasses are very competitive with rice and can reduce rice yields by from 25 to 90 percent; the aquatic weed complex can reduce yields from 10 to 25 percent; and broadleaf weeds can reduce grain yields as much as 24 percent. The Applicant claims that currently registered pesticides have limitations resulting in ineffective control. Bolero, which contains the active ingredient (a.i.) thiobencarb, is an unregistered product manufactured by the Chevron Chemical Company. Propanil is currently registered for use on rice and is manufactured by several chemical companies. The Applicant estimates that a total savings of $16 million can be realized from the proposed use of Bolero alone or in combination with propanil through more efficient weed control resulting in increased efficacy of other production inputs and the reduced number of herbicide applications needed.

EPA has determined that residues of thiobencarb and its metabolites should not exceed 0.2 part per million (ppm) on rice grain, 1.0 ppm on rice straw, 0.05 ppm in milk, and 0.2 ppm in eggs, and the meat, fat, and meat byproducts of cattle, goats, hogs, horses, poultry, and sheep from the proposed use. Residues of propanil are not expected to exceed those levels already established from use of the proposed Bolero and propanil tank maxture. These levels have been judged to be adequate to protect the public health.

EPA has required consultations with the State Fish and Game Department and the Office of Endangered Spices, Fish and Wildlife Service, U.S. Department of the Interior, to safeguard against potential hazards to non-target organisms and federally designated endangered and threatened spices.

After reviewing the application and other available information, EPA has determined that the criteria for an exemption have been met. Accordingly, the Applicant has been granted a specific exemption to use the pesticides named above until August 31, 1981, subject to the following conditions:

1. The Applicant is responsible for ensuring that all provisions of this specific exemption are met. It is also responsible for providing information in accordance with 40 CFR 166.5. This information must be submitted to EPA Headquarters through the EPA Regional Office. Information provided in accordance with paragraph (a) of this section must include the exact location of the places of application. A report summarizing the results of this program, as required in paragraph (d), must be submitted by December 31, 1981.

2. The product Bolero 8 EC, manufactured by Chevron Chemical Co., may be applied alone or in a tank mixture with propanil. EPA-registered propanil products, as emulsifiable concentrates containing 3 or 4 pounds a.i. per gallon, which are registered for use on rice, may be used.

3. Bolero 8 EC must be shipped under the most recently accepted labeling in connection with this product's use under an experimental use permit.

4. Bolero 8 EC may be applied at a rate of 4 pints of formulation (4.0 pounds a.i.) per acre as a late pre-emergence or early post-emergence application. Bolero 8 EC may also be used in a tank mixture with propanil at a rate of 3 pints of formulation (3.0 pounds a.i.) of Bolero 8 EC and 3 pounds a.i. propanil per acre and applied as an early post-emergence application. Applications are to be made in accordance with the labeling submitted.

5. A maximum of 100,000 gallons of Bolero 8 EC may be applied to 200,000 acres of dry-seeded rice in the 41 counties specified in the application.

6. Applications may be made with aerial equipment using a minimum of 10 gallons of spray mixture per acre, or with ground equipment using 15 to 20 gallons of spray mixture per acre.

7. All applications will be made by commercial or private applicators certified in this category of pest control.

8. Precautions will be taken to avoid spray drift to nontarget areas. The pesticide will not be applied when weather conditions favor drift.

9. Crops other than rice may not be planted in treated fields for 6 months following treatment.

10. Second-crop (stubble crop) rice may not be treated.

11. Phytotoxicity may occur from this use.

12. Only a single application of Bolero 8 EC (late pre-emergence or early post-emergence) is permitted.

13. A fish/wildlife monitoring program must be carried out. The results of this program must be detailed and forwarded to EPA Headquarters as soon as they become available, but no later than December 31, 1981.

14. All applicable directions, restrictions, and precautions on the proposed labeling for Bolero 8 EC and on the EPA-registered propanil label must be followed.

15. The available data indicate that nontarget aquatic invertebrates and fish larvae could potentially be adversely inpacted from this use pattern. Additionally, the endangered naiad, *Potamilus capax*, would be the federally designated endangered species most likely exposed to this herbicide. The agricultural requirement for frequent flushings as well as the label requirement for rain or flush (irrigation) after treatment would increase the likelihood of Bolero contaminating aquatic environments downstream from rice fields.

Consultations must be held regarding measures to safeguard against potential hazards to nontarget organisms and federally designated endangered and threatened species with the State Fish and Game Department and the Office of Endangered Species, Fish and Wildlife Service, U.S. Department of the Interior, respectively. Bolero must not be used in areas where impact on endangered/threatened species is likely.

16. Residues of thiobencarb and its metabolites resulting from the above application are not expected to exceed 0.2 ppm on rice grain, 1.0 ppm on rice straw, 0.05 ppm in milk, and 0.2 ppm in eggs, and the meat, fat, and meat by-products of cattle, goats, hogs, horses, poultry, and sheep. Residues of propanil are not expected to exceed those levels already established. Commodities with residues not in excess of these levels may enter interstate commerce. The Food and Drug Administration, U.S. Department of Health and Human Services, has been advised of this action.

17. The EPA shall be immediately informed of any adverse effects resulting from the use of Bolero alone or with propanil in connection with this exemption.

(Sec. 18, as amended (92 Stat. 819; 7 U.S.C. 136))

Dated: March 13, 1981.

Edwin L. Johnson,

Deputy Assistant Administrator for Pesticide Programs.

[FR Doc. 81-8887 Filed 3-23-81; 8:45 am]

BILLING CODE 6560-32-M

[PP 8G1838/T289; PH-FRL 1785-4]

Butachlor; Extension of Temporary Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Temporary tolerances have been extended for residues of the herbicide butachlor [*N*-(butoxymethyl)-2-chloro-2',6'diethylacetanilide] in or on the raw agricultural commodities rice at 0.5 part per million (ppm) and rice straw at 3 ppm.

DATE: These temporary tolerances expire April 23, 1982.

FOR FURTHER INFORMATION CONTACT: Robert J. Taylor, Product Manager (PM) 25, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 412E, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7066).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the **Federal Register** of April 29, 1980 (45 FR 28485) that temporary tolerances had been established for residues of the herbicide butachlor [*N*-(butoxymethyl)-2-chloro-2',6'-diethylacetanilide] in or on the raw agricultural commodities rice at 0.5 ppm and rice straw at 3 ppm. These tolerances were established at the request of Monsanto Agricultural Products Co., 1101 17th St. NW., Washington, D.C. 20036. Monsanto Co. has requested an extension of the temporary tolerances to permit the continued marketing of the above raw agricultural commodities when treated in accordance with the experimental use permit (524-EUP-30) which is being extended under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended (92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and other relevant material have been evaluated, and it has been determined that the temporary tolerances are extended on the condition that the pesticide be used in accordance with the experimental use permit with the following provisions:

1. The amount of the pesticide to be used will not exceed the amount authorized in the experimental use permit.

2. Monsanto Co. will immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company will also keep records of production, distribution, and performance, and on request make these records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

These temporary tolerances expire April 23, 1982. Residues remaining in or on the raw agricultural commodities after the expiration date will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary tolerances. These temporary tolerances may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicates that such revocation is necessary to protect the public health.

(Sec. 408 (j), 68 Stat. 516, (21 U.S.C. 346a(j)))

Dated: March 17, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

[FR Doc. 81-8886 Filed 3-23-81; 8:45 am]

BILLING CODE 6560-32-M

[PH-FRL 1785-3; PP 8G2068/T294]

Ethephon; Extension of Temporary Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice

SUMMARY: A temporary tolerance has been extended for residues of the plant growth regulator ethephon [(2-chloroethyl) phosphonic acid] in or on the raw agricultural commodity cottonseed at 0.5 part per million (ppm).

DATE: This temporary tolerance expires June 15, 1982.

FOR FURTHER INFORMATION CONTACT: Robert J. Taylor, Product Manager (PM) 25, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 412E, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7066).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the **Federal Register** of April 17, 1980 (45 FR 26125) that a temporary tolerance had been extended for residues of the plant growth regulator ethephon in or on cottonseed at 0.5 ppm. This extension was requested by Union Carbide Agricultural Products Co., 300 Brookside Ave., Ambler, PA 19002.

Union Carbide has requested an extension of the temporary tolerance to permit the continued marketing of the above raw agricultural commodity when treated in accordance with the experimental use permit (264-EUP-55) which is being extended under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and other relevant material have been evaluated, and it has been determined that the temporary tolerance will protect the public health. Therefore, the temporary tolerance is extended on the condition that the pesticide be used in accordance with the experimental use permit with the following provisions:

1. The amount of the pesticide to be used will not exceed the amount authorized in the experimental use permit.

2. Union Carbide will immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company will also keep records of production, distribution, and performance, and on request make these records available to any authorized officer or employer of the EPA or the Food and Drug Administration.

This temporary tolerance expires June 15, 1982. Residues remaining in or on the raw agricultural commodity after the expiration date will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary tolerance.

This temporary tolerance may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicates that such revocation is necessary to protect the public health.

National Air Pollution Control Techniques Advisory Committee; Open Meeting

Under Public Law 92-463, notice is hereby given that a meeting of the National Air Pollution Control Techniques Advisory Committee will be held on April 29 and 30, 1981, at the Hilton Inn, Washington Room, 1707 Hillsborough Street, Raleigh, North Carolina 27605. The commerical telephone number is (919) 828-0811.

The tentative agenda for the meeting is as follows:

April 29 (Wednesday)—9 a.m.

- Metallic Mineral Processing Plants, New Source Performance Standard (Section 111)
- Gypsum Plants, New Source Performance Standard (Section 111)
- Manufacture of Styrene-Butadiene Copolymers, Control Techniques Guidelines for Volatile Organic Compounds (Sections 101(b) and 103)
- Equipment Leaks from Natural Gas/Gasoline Processing Plants, Control Techniques Guidelines for Volatile Organic Compounds (Section 101(b) and 103)

April 30 (Thursday)—9 a.m.

- Continuation of April 29—As Required
- Fugitive Emissions from Polymers and Resin Manufacture, Control Techniques Guidelines for Volatile Organic Compounds (Sec. 101(b) and 103)
- Coke Wet Quenching, New Source Performance Standard (Section 111)

All meetings are open to the public. Anyone wishing to make a presentation should contact Ms. Mary Jane Clark at the Emission Standards and Engineering Division (MD-13), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711, by April 22, 1981. The commercial telephone number is (919) 541-5571, and the FTS number is 629-5571.

The dockets containing material relevant to metallic mineral processing plants (A-81-03), gypsum plants (A-80-15), and coke wet quenching (A-81-06) are located in the U.S. Environmental Protection Agency, Central Docket Section, West Tower Lobby—Gallery 1, 401 M Street SW., Washington, D.C. 20460. The docket may be inspected between 8 a.m. and 4 p.m. on weekdays, and a reasonable fee may be charged for copying.

Dated: March 19, 1981.

Motor Vehicle Pollution Control; Waiver of Oxides of Nitrogen Emission Standards; Cancellation of Public Hearing

AGENCY: Environmental Protection Agency.

ACTION: Cancellation of tentatively scheduled public hearing.

SUMMARY: This notice cancels a public hearing that EPA tentatively scheduled for March 25, 1981, to consider a request by General Motors Corp. (GM) for a waiver of the 1982 model year oxides of nitrogen (NOx) emission standard for its 4.3 liter (L) light-duty diesel engine family. EPA will consider this waiver request on the basis of information submitted or otherwise included in the record. The record for this waiver request will remain open for written submissions of interested parties until April 3, 1981.

DATES: This notice cancels a public hearing that was tentatively scheduled for March 25, 1981.

ADDRESSES: Parties may submit written information concerning GM's waiver request to the Director, Manufacturers Operations Division (EN-340), U.S. Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460 (Docket Number EN-81-4). Copies of all materials relevant to the waiver request will be available for public inspection during normal working hours (8:00 a.m. to 4:00 p.m.) at U.S. Environmental Protection Agency, Central Docket Section (A-120), Gallery I, Waterside Mall, 401 M Street, S.W., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Deborah Schloss, Attorney/Advisor, Manufacturers Operations Division (EN-340), U.S. Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460, (202) 472-9421.

SUPPLEMENTAL INFORMATION:

I. Background and Discussion

EPA announced in a recent **Federal Register** notice, 46 FR 15893 (March 10, 1981) that it had received a request from GM pursuant to section 202(b)(6)(B) of the Clean Air Act (Act)[1] for waiver of the 1982-1984 NOx emission standard for its 4.3L light-duty diesel engine family.

Section 202(b)(6)(B) of the Act allows any manufacturer to petition the Administrator of EPA for waiver of the 1981-1984 model year NOx standard of 1.0 gram per mile (g/mi). The Administrator, after notice and opportunity for public hearing, may waive the standard for any class or category of light-duty diesel vehicles manufactured during the four model year period up to a maximum level of 1.5 g/mi, if the manufacturer can show that the waiver is necessary to permit the use of diesel engine technology. The waiver may be granted if the Administrator can make the findings specified in section 202(b)(6)(B) of the Act.

In the **Federal Register** notice announcing receipt of GM's waiver application, EPA stated that it had tentatively scheduled a public hearing for March 25, 1981 to consider GM's request for the 1982 model year only.[2] EPA stated that it would cancel the hearing and make its waiver decision on the basis of written submissions and information otherwise contained in the record if no party notified EPA by March 12, 1981 that it wished to appear and present oral testimony. That notice also stated that the comment period would close by April 3, 1981.

EPA has not received notification from any party stating that it wishes to appear and present oral testimony concerning GM's waiver request. Therefore, EPA has cancelled the hearing scheduled for March 25, 1981. Interested parties may still submit written information for the Administrator's consideration until April 3, 1981 regarding GM's request for a waiver of the 1982 model year NOx emission standard for its 4.3L diesel engine family.

II. Procedures for Public Participation

Although EPA will not hold a public hearing to consider GM's waiver request, any party may still submit written data, views, and arguments which EPA will enter into the record upon which the Administrator bases his waiver decision. Interested parties who make written submissions should address considerations set forth in detail by the guidelines for submission of waiver requests, that EPA published in the **Federal Register** (43 FR 30341, (July 14, 1978)). Interested parties should address the following issues in particular:

(1) Whether a waiver is necessary to permit the use of diesel engine technology in the class or category of vehicles or engines for which an applicant requests a waiver;

(2) Whether the waiver would endanger the public health;

(3) Whether the waiver would result in significant fuel savings at least equal to the fuel economy standard applicable under the Energy Policy and Conservation Act (EPCA);

(4) Whether the technology utilized in the class or category for which a waiver is sought: (a) has a potential for long-term air quality benefit, and (b) has the potential to meet or exceed the average fuel economy standard applicable under EPCA at the expiration of the waiver, and;

(5) The level of NOx emissions, not to exceed 1.5 g/mi, which an applicant's diesel vehicle class or category could meet in each of the model years for which an applicant requests a waiver.

The record will remain open until April 3, 1981, for the submission of pertinent written information for consideration by the Administrator in formulating his waiver decision. EPA will make this information available for public inspection at the EPA Central Docket Section, Docket Number EN-81-4.

Dated: March 19, 1981.

Richard D. Wilson,

Acting Assistant Administrator for Enforcement.

BILLING CODE 6560-33-M

[1] 42 U.S.C. § 7521(b)(6)(B), as amended 1977.

[2] EPA will consider GM's waiver request for the 1983 and 1984 model years in separate waiver proceedings.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. A-27]

AM Broadcast Applications Accepted for Filing and Notification of Cut-Off Date

Released: March 20, 1981.

Cut-off Date: April 30, 1981.

Notice is hereby given that the applications listed in the attached appendix are hereby accepted for filing. They will be considered to be ready and available for processing after April 30, 1981. An application, in order to be considered with any application appearing on the attached list or with any other on file by the close of business on April 30, 1981, which involves a conflict necessitating a hearing with any application on this list must be substantially complete and tendered for filing at the close of business on April 30, 1981.

Petitions to deny any application on this list must be on file with the Commission not later than the close of business on April 30, 1981.

Federal Communications Commission.

William J. Tricarico,

Secretary.

AM Broadcast Applications Accepted for Filing and Notification of Cut-Off Date

Released: March 23, 1981.

Cut-off Date: May 1, 1981.

Notice is hereby given that the following applications have been accepted for filing. Because they are in conflict with applications previously accepted for filing and subject to cut-off dates for conflicting applications by either cut-off list or operation of § 73.3516(e) of the Commission's Rules, no application which would be in conflict with any of these applications will be accepted for filing.

Petitions to deny these applications must be on file with the Commission not later than the close of business on May 1, 1981.

Minor amendments to these applications, and to those they are in conflict with, may be filed as a matter of right not later than the close of business on May 1, 1981.

BILLING CODE 6712-01-M

[Docket No. 81-161; Transmittal Nos. 545, 546, 547]

Hawaiian Telephone Co.; Memorandum Opinion and Order

Adopted: March 13, 1981.

Released: March 20, 1981.

In the matter of Hawaiian Telephone Co., CC Docket No. 81-161, Transmittal No. 545, Tariff F.C.C. No. 18, Exchange Network Facilities for Interstate Access; Hawaiian Telephone Co., Transmittal No. 546, Tariff F.C.C. No. 19, Customer Indirect Network Exchange Access; Hawaiian Telephone Co., Transmittal No. 547, Revisions to Tariff F.C.C. No. 11, Foreign Exchange Service. Instituting investigation.

1. Before the Bureau are several petitions requesting rejection or, in the alternative, suspension and investigation of three separate access charge tariffs filed by the Hawaiian Telephone Company (Hawaiian). These include: proposed Tariff F.C.C. No. 18, to be called Exchange Network Facilities for Interstate Access (ENFIA); proposed Tariff F.C.C. No. 19, to be known as Customer Indirect Network Exchange Access (CINEA); and, finally, revisions to Hawaiian's existing Tariff F.C.C. No. 11, Foreign Exchange Service (FX).[1] For reasons explained below, we will deny the petitions against Hawaiian's ENFIA tariff and allow it to become effective. We find, however, that the CINEA and FX tariff filings raise issues of lawfulness and, accordingly, we will suspend them for the full statutory period and institute and investigation.

Background

2. By these three tariff proposals Hawaiian seeks compensation for use of its local exchange network in the provision of interstate MTS/WATS-type and private line services. In order to more fully understand the nature of Hawaiian's three tariff proposals, a brief review of compensation arrangements and recent Commission action in this area is warranted.

A. Current Local Exchange Compensation Arrangements

3. Three different mechanisms have evolved for compensating operators of local telephone exchange facilities for originating or terminating interstate communications. Under the traditional mechanism which dates back to the mid-1940's, compensation occurs among Bell System Operating Companies (BSOCs) and AT&T Long Lines through a process called "division of revenues" and between independent telephone companies and BSOCs through a process called "settlements". The divisions/settlements process was designed to operate as a single system producing consistent results for Bell and non-Bell telephone companies. Under the divisions/settlements process, a telephone company that originates or terminates interstate calls receives compensation from an interstate revenue pool based upon the company's total exchange and interexchange expenses and investments apportioned to the interstate operation. The procedures for determining the interstate exchange and interexchange expenses and investments is based on the Separations Manual.[2] Most

---

[1] United States Transmission Systems, Inc. (USTS) and Southern Pacific Communications Company (SPCC) have filed petitions for rejection or suspension and investigation of Hawaiian's ENFIA, CINEA and FX tariff proposals. General Electric Company and Sears Roebuck & Co. (GE/Sears) filed joint petitions for rejection or suspension and investigation of Hawaiian's CINEA and FX tariff proposals. The General Services Administration (GSA) and Defense Communications Agency of the Department of Defense (DOD), on behalf of the Federal Executive Agencies (FEA), filed a petition for rejection or suspension and investigation of Hawaiian's FX tariff revisions. Also before us are Hawaiian's oppositions to these petitions.

[2] The cost apportionment procedures of the Separations Manual are arrived at by state regulators and the Commission under the mechanism of a Federal-State Joint Board convened pursuant to Section 410 of the Communications Act, 47 U.S.C. 410. The Separations Manual forms a basis for regulatory review of interstate rates by the Commission (based on the costs apportioned to the interstate jurisdiction by the Separations Manual) and for review of intrastate rates by state regulators (based on costs apportioned to the intrastate jurisdiction by the Separations Manual). On the federal side, the Separations Manual is incorporated in Part 67 of the Commission's Rules, 47 CFR 67.1; and depending on the jurisdiction involved it may or

Continued

interstate services, including interstate Message Telecommunications Service (MTS) and Wide Area Telecommunications Service (WATS), are included in the pooling arrangement.

4. A second means of compensating operators of local telephone exchange facilities for interstate communications usage is through the collection of a charge from an interexchange carrier who does not participate in the divisions/settlements process. Such charges, for example, are contained in BSOC Tariff F.C.C. No. 8, commonly known as the Exchange Network Facilities for Interstate Access (ENFIA) tariff. This tariff specifically sets out charges for interconnection services provided to other common carriers (OCC) in their provision of MTS/WATS-equivalent services. This ENFIA tariff resulted from a negotiation process under Commission *aegis* and ultimate agreement on an interim method for developing rates for MTS/WATS-type interconnections with local exchange networks. The Commission accepted the ENFIA agreement and allowed the ENFIA rates to become effective in *Exchange Network Facilities for Interstate Access (ENFIA)*, 71 F.C.C. 2d 440 (1979).

5. A final means of compensation which has developed for local telephone exchange companies is the collection of a separate charge from users of private line services that are connected with exchange facilities at one end, such as foreign exchange service (FX) and common control switching arrangements (CCSA) with off-network access lines (ONALS). Traditionally, both FX and CCSA subscribers have been billed for the open end origination or termination service at the same rate which local subscribers pay for local business exchange service in the area served by the local exchange. Revenues from the private line portion of the FX and CCSA services provided by Bell and non-Bell telephone companies are included in the interstate revenue pool and associated expenses and investments are included in the divisions/settlements computations. However, revenus from the open end service are retained by the carrier who provides the service and that carrier absorbs any associated costs. Although the open end service for interstate FX and CCSA is an interstate service, carriers have usually reported the revenues and any associated expenses and investments as intrastate for purposes of jurisdictional separations. In connection with OCC FX and CCSA services, local exchange carriers provide and bill the open end service connection directly. Local exchange carriers that provide the open end service also provide OCCs with a link between the telephone company's local central office and the OCC switching facility. That link serves essentially the same purpose as the trunk connection between the local central office and the Bell company toll switch. Those facilities are offered at non-uniform rates by various BSOCs pursuant to tariffs filed with this Commission and the associated revenues are excluded from the interstate revenue pool.

B. Commission Proposed Nationwide Tentative Access Charge Plan

6. The Commission's concerns over compensation arrangements stem, in part, from the changing communications industry structure that has resulted from competitive entry and related regulatory policies regarding the provision of interexchange facilities by OCCs. In this connection, a great deal of attention has been paid to compensation arrangements because of the legal obligation imposed upon local telephone companies under Section 201 of the Communications Act, 47 U.S.C. 201, to interconnect their local exchange facilities with interstate services without regard to what interexchange carrier may be providing the interstate service or what kind of interstate service is being offered over such interconnected facilities. This right to interconnection is limited only by the duty to pay a fair and reasonable sum to the local telephone companies for the service.[3]

7. However, as the Commission has recently observed in the *Second Supplemental Notice* of the *MTS and WATS Market Structure* proceeding,[4] the compensation which local exchange operators receive through the three mechanisms described above varies in a manner that does not appear to reflect actual differences in the costs of originating or terminating various services. The issue here is whether these disparities may produce discrimination among competing interexchange carriers and, also, indirectly result in different end user rates which violate Section 202(a) of the Communications Act, 47 U.S.C. 202(a). Moreover, as the Commission also noted in the *Second Supplemental Notice*, the discrimination problem is not confined to differences in compensation mechanisms. It extends to discrimination between message services as a whole and pooled private line services as a whole which results from use of the Separations Manual for the purpose of allocating exchange plant costs among various interstate services. As explained, the Separations Manual contains a combination of procedures designed for the purpose of apportioning message and private line costs between interstate and intrastate jurisdictions, but does not allocate exchange plant costs among various interstate services.

8. In recognition of the immediate need to develop nondiscriminatory exchange access charges for all interstate services, including those provided by the OCCs, the Commission asked for comment in the *Second Supplemental Notice* on a proposed tentative plan for uniform nationwide access charges and an exchange revenue pool.[5] Under this plan access charges would be prescribed for four categories of interstate service (MTS/WATS, FX/CCSA access, private line, and OCC–ENFIA). Although the access charges would be used to determine the compensation interexchange carriers would pay for access service, the amounts received by exchange carriers for the use of exchange plant for interstate service would not depend upon the access charge. Rather, the amount of compensation would depend upon the carriers pro rata share of all investment and expense in plant devoted to interstate service. Thus, the plan would require that access charge revenues be pooled in much the same manner that Bell and non-Bell interstate revenues are pooled under the present contractual arrangement. The pooled revenues would be reallocated among the exchange carriers in order to enable each exchange carrier to receive its interstate exchange plant expenses and a share of the residue that reflects its pro rata share of the interstate exchange plant investment. In this manner, it is anticipated that the end result should not be substantially different from the results that are produced by the current divisions/settlements process. The pooled access charges would include some services, such as ENFIA, that are not now pooled. The exchange pool would also include access charge revenues from carriers in Alaska,

---

may not form part of a state regulatory agency's rules or requirements. The Separations Manual does not specify how revenues are to be divided between the Bell and independent telephone companies. This matter is normally governed by negotiated carrier-to carrier contracts.

[3] See, *MCI Telecommunications Corp.* v. *FCC*, 580 F.2d 590 (D.C. Cir.), *cert. denied*, 439 U.S. 980 (1978).

[4] *MTS and WATS Market Structure*, 67 F.C.C. 2d 757 (1978), *Supplemental Notice*, 73 F.C.C. 2d 222 (1979), *Second Supplemental Notice*, 77 F.C.C. 2d 244 (1980), and *Report and Third Supplemental Notice*, 81 F.C.C. 2d 177 (1980).

[5] This action was taken pursuant to authority in Section 201(a), 47 U.S.C. 201(a), to effectuate a division of revenues among carriers.

Hawaii, and overseas territories or possessions that might not be described as full partners in the existing contractual arrangement.

9. Although the proposed tentative access charge plan would alter the existing divisions/settlements mechanism, the plan has not been designed to affect the existing separations procedures contained in the Separations Manual. As was pointed out in the *Second Supplemental Notice*, there would be no misallocation between the state and interstate jurisdictions if aggregate interstate exchange plant costs derived from the Separations Manual are allocated among interstate services under the proposed plan in a manner that differs from the Separations Manual message and private line allocations used to arrive at an aggregate allocation between interstate and intrastate services. The proposed plan was designed to be used under any Separations Manual partly in recognition of the urgent need for new access charge arrangements and partly in recognition that revisions to the Separations Manual for that purpose would be complex and a time consuming process.

10. Although the Commission's plan does not require revision of the Separations Manual to incorporate a new formula for allocating exchange plant costs among interstate services prior to the prescription of new access charge arrangements, the Commission has convened a Federal-State Joint Board to reexamine rules for the apportionment of exchange plant investment between interstate and intrastate services in light of comments filed in the *MTS–WATS Market Structure* proceeding. See, *Notice of Proposed Rulemaking and Order Establishing a Joint Board (Joint Board)*, 78 F.C.C. 2d 837 (1980). The Joint Board is also to consider recommended technical amendments to the Separations Manual to facilitate the Commission's decision in the *Second Supplemental Notice* to prescribe access charges and to consider deletion or revision of provisions which have been rendered obsolete by recent decisions to deregulate most customer premises terminal equipment. See, *Second Computer Inquiry*, 77 FCC 2d 384 (1980).

C. ENFIA Agreement and Ratemaking Methodology

11. This brings us to the ratemaking methodology under the ENFIA agreement. It is designed to compensate local telephone companies for originating and terminating MTS/WATS-type services on the same basis as they would be compensated under the settlements/divisions process by AT&T Long Lines for originating and terminating MTS and WATS. In this connection, the ENFIA ratemaking methodology relies on use of the cost apportionment procedures of the Separations Manual. Under these procedures, costs associated with private line service are directly assigned to the appropriate jurisdiction, while costs that are common to the provision of more than one switched service, including MTS and WATS, are allocated between jurisdictions on the basis of usage. A substantial portion of MTS and WATS exchange costs allocated to the interstate jurisdiction through this process are derived through the use of the Subscriber Plant Factor (SPF) formula. The SPF formula is applied to certain defined jointly used subscriber plant in the local exchange network utilized by these interstate services.[6] Under the ENFIA ratemaking methodology use of the Separations Manual differs in the following respects: (1) the rate pertaining to the use of local exchange subscriber plant by MTS/WATS-type services is based upon an assumed number of minutes of use per month per line; (2) there is a percentage based phasing in of jointly used subscriber plant costs derived through use of the SPF formula which depends upon the level of combined revenues of all OCCs from MTS/WATS-type services;[7] and (3) the use of the cost procedures of the Separations manual in this fashion compensates the local telephone companies through ENFIA rates, rather than under a settlements or division of revenues process.

12. In ENFIA, the Commission reached no conclusion as to whether the derivation of the ENFIA rates for MTS/WATS-type services were cost based. The Commission stated that it had no evidence to make such a determination and that the parties to the proceeding had not provided any evidence which could demonstrate the relationship of the negotiated compensation to relevant costs. Acceptance of the ENFIA agreement was perceived as a reasonable means of avoiding complex and protracted litigation over methodologies, rate levels, and rate components. However, the Commission added at that time that it would prescribe compensation should the agreement not continue beyond its initial three year term.[8]

13. Among the signatories to the ENFIA agreement is GTE Service Corporation (GTE), an entity owned and controlled by the holding corporation which controls all of the FTE domestic local telephone companies, including Hawaiian. Under the ENFIA agreement, GTE has, among other things, agreed to recommend to its domestic telephone operating affiliates that they follow the ENFIA methodology by using their own specifically identifiable costs, that they use the same percentage based phasing in of jointly used subscriber plant costs derived through the use of the Separations Manual SPF formula, and lastly, that they enter into a standard form contractual arrangement with OCCs who seek ENFIA connections in GTE's service area.

14. It is also significant to note that the scope of the ENFIA agreement did not cover compensation to local telephone companies for open end interstate private line services which are connected with exchange facilities, such as FX and CCSA–ONAL. Costs associated with the use of the local exchange network by private line services, unlike message services, have been traditionally assigned under the Separations Manual directly to either the interstate or intrastate jurisdiction. Based upon this assignment of costs, FX and CCSA subscribers currently pay an intrastate (B–1) charge for access to the local exchange pursuant to state tariffs.

15. Recently, in *New York Telephone Company*,[9] the Commission held that a tariff filed with the New York Public Service Commission (NY PSC) by New York Telephone Company imposing a surcharge which would be levied solely upon interstate FX and CCSA subscribers for use of the local exchange network must be filed with this Commission rather than the state commission. This holding was based upon the Commission's finding that FX and CCSA open end access must be considered as part of an end to end interstate service within the Commission's jurisdiction. For reasons stated in *New York Telephone*

---

[6] The Subscriber Plant Factor (SPF) is defined in paragraph 23.444 of the Separations Manual and can be expressed in formula form as $SPF = .85 + .15SLU + .25SLU \times CSR$. The subscriber line usage (SLU) equals the ratio of interstate holding time minutes to total holding time minutes and the composite station ratio (CSR) is a price variable reflecting the difference between the study area interstate traffic characteristics and the industry wide interstate traffic characteristics. Due to the instability of the CSR from year to year, AT&T has used a value of about 1.2 for the CSR since 1971. With the CSR equal to 1.2, the formula becomes $SPF = 3.25$ SLU.

[7] The ENFIA agreement states that only 35 to 55 percent of the SPF related costs are to be recovered by the ENFIA rate.

[8] The ENFIA agreement expires on February 28, 1982.

[9] 79 F.C.C. 2d 349, *recon. denied* 80 F.C.C. 2d 287, *aff'd* in *New York Telephone Company v. FCC*, 632 F.2d 1050 (1980).

Company, the Commission had not asserted its rate regulation authority over FX and CCSA exchange access where the rates for exchange service charged to FX and CCSA subscribers were the same as those charged local customers. Additionally, in the *Second Supplemental Notice*, the Commission stated that it would allow the present anomalous situation of state tariffs charging for a portion of an end to end service that lies within the interstate jurisdiction to continue until the FX/CCSA situation can be fully resolved through Separations Manual revisions or until such time as the proposed nationwide tentative access charge plan is implemented.[10] Until now no tariffs have been filed with the Commission imposing charges on open end interstate FX and CCSA subscribers for use of local exchange facilities. Hawaiian's FX and CINEA tariff proposals represent the first filings of this kind.

Tariff Proposals

16. The service offerings under Hawaiian's ENFIA, CINEA, and FX tariff proposals, all scheduled to become effective on March 15, 1981, would provide local exchange interconnection services for certain interstate users of Hawaiian's local exchange network facilities in the provision of interstate service. More specifically, the ENFIA offering would establish charges for OCCs, including the international record carriers and other specialized common carriers, assessing Hawaiian's local exchange network in order to provide MTS/WATS-type services, as well as interstate data or record type services. Unlike the ENFIA offering, the CINEA offering would apply to Hawaiian's non-carrier customers and would establish charges for use of Hawaiian's local exchange network via indirect access from a customer's interstate or overseas private line services (whether or not provided by Hawaiian). Finally, under the FX tariff proposal, Hawaiian would replace the local basic exchange (individual business line, individual business rotary line, and private branch exchange trunk) charge segment of the total charge for interstate FX service with an access charge for usage of the local exchange network.[11]

17. Under Hawaiian's proposed ENFIA tariff, the local exchange service provided for an MTS/WATS-type interconnection would include the following: (1) connection of the carriers system to the local exchange network via Voice Grade Central Office Connecting Facilities (VGCOCF), (2) central office switching and trunking and (3) local distribution facilities (or jointly used subscriber plant) including trunking, telephone terminal equipment, station connections, and subscriber lines. Each of these would have a separate rate element. With respect to the VGCOCF rate element, the regulations, rates, and charges would be the same as those contained in Hawaiian's Tariff No. 4. The rates for the second and third elements (use of the local exchange switching and trunking facilities and jointly used subscriber plant) would consist of a flat monthly rate for each ENFIA connection.

18. The local exchange service provided under Hawaiian's CINEA and FX tariffs for private line customers includes the same type facilities as offered under the second and third rate elements of Hawaiian's ENFIA tariff, that is the central office switching and trunking facilities and jointly used subscriber plant. However, under the CINEA and FX tariffs, the charge for these facilities would be expressed as a single rate element providing a flat monthly charge for access by each interstate private line service channel. With respect to the connection from the CINEA customer's premises to the local exchange network, Hawaiian states that this connection would be provided under its local tariff offerings.

19. Hawaiian's ENFIA, CINEA, and FX rates covering the use of the local exchange switching and trunking facilities and jointly used subscriber plant are similarly developed. In each instance, Hawaiian has employed the ratemaking methodology as set forth in the negotiated ENFIA agreement. As for the development of costs associated with the use of Hawaiian's local exchange facilities under the ENFIA, CINEA, and FX tariffs, Hawaiian has relied on its own 1978 separations study for company operations adjusted to be in accordance with the Separations Manual. For each of the three offerings, Hawaiian's cost support material shows the unit costs associated with the local exchange facilities to be identical. However, the ENFIA, CINEA, and FX rates would vary as a result of different minutes of use projections for each of the services as applied to the unit costs for jointly used subscriber plant. The ENFIA monthly rate of $208.43 (exclusive of the charge for the VGCOCF) reflects a projected 3000 minutes of use per ENFIA connection in accordance with the latest figures under the ENFIA settlement agreement. The CINEA monthly rate of $123.00 reflects a projected 1744 minutes of use per CINEA connection derived from a special study conducted by Hawaiian on local business trunk usages. Lastly, the FX monthly rate of $167.00 reflects a projected 2400 minutes of use per FX connection derived from an AT&T mainland study of FX usage of local exchange networks.[12]

Contentions of the Parties

A. Arguments for Rejection of Hawaiian's ENFIA Tariff Proposal

20. SPCC and USTS argue that Hawaiian's ENFIA tariff should be rejected because Hawaiian's use of the ENFIA methodology does not result in the establishment of cost based rates for MTS/WATS-type interconnection service with Hawaiian's local exchange network. They assert that the level of Hawaiian's ENFIA rates, twice that of AT&T's ENFIA rates, shows that Hawaiian's reliance on the ENFIA methodology is unjustified. More specifically, SPCC maintains that the unjust level of Hawaiian's ENFIA rates may be attributed, in part, to the improper allocation of jointly used subscriber plant costs calculated by using the Separations Manual CSR ratio and SPF formula which is asserts were designed only for use in the continental United States. USTS additionally contends that Hawaiian's ENFIA tariff results in non-cost based rates because Hawaiian is in contravention of the ENFIA Agreement by not entering into a carrier-to-carrier contract as recommended by GTE to all its affiliates under the ENFIA agreement. SPCC also claims that Hawaiian's support material fails to comply with § 61.38 of the

[10] The proposed access charge plan would provide for accounting and revenue requirement adjustments to the FX/CCSA classification at the time access service compensation arrangements are prescribed if the Separations Manual revisions for inclusion of some investments and expenses attributable to open end FX/CCSA access service in the interstate rate base and expenses have not yet been adopted.

[11] Additionally, we note that Hawaiian's FX tariff proposal stems, in part, from the Commission's decision in *Hawaiian Telephone Company*, 79 F.C.C. 2d 1062 (1980), ordering Hawaiian to interconnect and provide local exchange service to the Department of Defense (DOD) by allowing extensions of 19 private line interstate communications circuits, provided to DOD by Western Union International, Inc., and American Satellite Company, from the Navy Technical Control Center in Wahiawa Hawaii, to Hawaiian's central office in Honolulu. DOD's purpose in seeking interconnection was to allow the General Services Administration (GSA) to use the excess capacity of its private lines for FTS service. Hawaiian has informed us that it is presently waiting for the FX tariff proposal to become effective before providing this interconnection service. DOD and GSA state that other services are being provided GSA on an interim basis.

[12] Some per minute rate differences are apparently due to rounding in Hawaiian's cost calculations.

Commission's Rules, 47 CFR 61.38. In this regard, it questions the validity of cost figures derived from Hawaiian's 1978 separations study adjusted to be in accordance with the Separations Manual and, especially, Hawaiian's local switching and trunking costs.

21. As further grounds for rejection, SPCC argues that Hawaiian's ENFIA rates are unlawfully discriminatory because they fail to take into account differences in interconnection services provided to OCCs without appropriate cost adjustments. Since there are currently no competitive carriers providing MTS/WATS-type services to Hawaii, SPCC submits that the Commission should require Hawaii to await a decision in the *MTS/WATS Market Structure* inquiry on a method for determining just and reasonable access charges or require Hawaii to develop and implement a non-discriminatory access arrangement based upon a direct study of the costs involved in providing local exchange service to the OCCs. SPCC claims that the sanctioning of Hawaiian's ENFIA rates could, in the future, foreclose effective competition because of the high level of these rates.

B. Arguments for Rejection of Hawaiian's CINEA and FX Tariff Proposals

22. Petitioners seek rejection of the CINEA and FX tariffs under a claim that Hawaiian's use of the ENFIA methodology results in non-cost based access charges that are unlawful under the Communications Act. In this regard, they argue that the ENFIA methodology was neither designed nor accepted in *ENFIA* or under the ENFIA agreement for use in the development of interstate private line access charges. In particular, SPCC asserts that the ENFIA methodology should not be accepted for use in developing private line access charges because it uses the Separations Manual SPF formula which was designed solely to recover from interstate jurisdictions local exchange plant costs associated with MTS and WATS service. GE/Sears further submit that Hawaiian's use of the ENFIA methodology results in access charges that include costs for local exchange facilities which are not used by interstate private line subscribers. They complain that they are already paying for many of these local exchange facilities and that allowing Hawaiian to establish access charges for private line subscribers covering these costs an additional time would be unjust and unreasonable without offsetting adjustments in local revenue requirements, MTS or WATS rates, or station equipment.

23. GE/Sears, SPCC, and FEA additionally argue that allowing Hawaiian's CINEA and FX tariff to become effective at this time would be contrary to the public interest and prejudge Commission action on access charges and related matters in the *MTS and WATS Market Structure* and the *Joint Board* proceedings. In this regard, GE/Sears and SPCC maintain that Hawaiian's access charges are developed in a manner that is contrary to the Commission's interim access charge proposal in the *MTS and WATS Market Structure* proceeding. SPCC further submits that piecemeal implementation of access charges on a state by state basis utilizing differing methodologies and ratemaking philosophies will cause rate churning and confusion to the public. SPCC also contends that the alleged high level of the CINEA and FX rates were designed to force customers to utilize MTS and WATS service provided by AT&T in partnership with Hawaiian and, as such, Hawaiian's tariff proposals must be viewed as being anti-competitive.

24. As further ground for rejection, SPCC and FEA assert that Hawaiian's CINEA and FX tariff proposals would impost a discriminatory surcharge on interstate private line customers who wish to use local exchange service. In this regard, SPCC maintains that Hawaiian's CINEA and FX tariff proposals provide no more service than the basic local telephone service for private lines. Since Hawaiian's local exchange businges line rate structure is presumably lawful and should provide for the recovery of all costs, SPCC asserts that the imposition of a higher rate on one service and class of customers without justifying the differences in the services and their associated costs violates the like services standard of Section 202(a) of the Communications Act, 47 U.S.C. 202(a). Further, since Hawaiian has failed to show that the local business charges are noncompensatory, FEA believes that the local business charges now being paid by foreign exchange customers should not be replaced by the proposed FX charges.

25. GE/Sears additionally argue that Hawaiian has failed to comply with § 61.38 of the Commission's Rules. In this regard, they maintain that Hawaiian's minutes of use studies bear no relationship to actual use of the local exchange facilities by interstate private line traffic in Hawaii, and, moreover, that Hawaiian has failed to address the impact its CINEA and FX traffic proposals would have on traffic patterns and quality of service in Hawaii. They claim that Hawaiian's private line access charges are likely to cause costly shifts in tariff patterns which would adversely effect both tool and private lines services.

26. GE/Sears separately contend that Hawaiian's CINEA and FX tariffs violate Section 410(c) of the Communications Act. Unless changes are made to the Separations Manual through the convening of a Federal-State Joint Board by the Commission under Section 410(c) of the Act, they submit that Hawaiian's CINEA and FX tariffs would effect a unilateral and unlawful change in the Separations Manual by shifting part of Hawaiian's intrastate plant, expenses, and revenue requirements to the interstate jurisdiction. Until any recommended changes are acted upon by the Commission, as the result ofthe Federal-State Joint Board, the argument here is that Hawaiian must abide by the Separations Manual and can recover only those interstate costs which are covered by MTS and WATS or direct assignments of plant to private line services.

C. Arguments for Suspension and Investigation of Hawaiian's ENFIA, CINEA, and FX Tariff Proposals

27. As an alternative to rejection of Hawaiian's ENFIA, CINEA and FX tariffs, petitioners request suspension, for the full statutory period, and investigation bases upon the same grounds as set forth above. Also, as an alternative to suspension and investigation, USTS asks us to convene meetings among interested parties for the purpose of reaching an interim negotiated settlement for the local exchange services proposed by Hawaiian.

D. Hawaiian's Opposition

28. Hawaiian takes the position that its ENFIA, CINEA and FX tariff proposals comply with Commission policy. In this regard, Hawaiian asserts that the consistent use of the ENFIA methodology in developing the proposed ENFIA, CINEA, and FX rates will ensure that costs associated with the use of Hawaiian's local exchange network are shared by all interstate users. Hawaiian further maintains that these tariff proposals should not be looked upon as prejudging Commission proceedings concerned with access charge matters, such as the *MTS/WATS Market Structure* proceeding. It notes that all three tariffs contain a provision which acknowledges that modification,

revision, or withdrawal may be necessary because of future Commission action in such proceedings. Also recognizing that the *MTS/WATS Market Structure* proceeding will address discrimination issues related to the imposition of access charges, Hawaiian asserts that, in the interim, the Commission should look favorably upon Hawaiian's efforts to develop tariff proposals of a consistent basis as a means to avoid any possible discrimination between various interstate users of its local exchange network. Hawaiian additionally submits that its decision to file tariffs rather than enter into carrier-to-carrier contracts was based upon practical considerations stemming from Hawaiian's role as a concurring interstate and international carrier. As for differences in the level of Hawaiian's proposed ENFIA rates and AT&T's ENFIA rates, Hawaiian explains that this results from using its own specific costs which it maintains is consistent with the ENFIA agreement and the Commission's ENFIA decision. With respect to its CINEA tariff, Hawaiian asserts it does not provide interstate private line customers with local exchange service under presently effective tariffs. Similarly, Hawaiian notes that the FX tariff revisions are essential if it is to meet on a timely basis present customer needs, particularly those of FEA, for FX type services. Hawaiian also maintains that the minutes of use studies used in the deveopment of its CINEA and FX rates are the best available indicators for determining usage of the local exchange network by private lines users of its CINEA and FX services. As a separate matter Hawaiian purports to have sifficient capacity to meet any changes in traffic patterns which might be caused by the CINEA and FX tariffs.

Discussion

A. ENFIA

29. Our examination of the material submitted by Hawaiian in support of its ENFIA tariff proposal shows that Hawaiian has not deviated from the ENFIA methodology in the development of its ENFIA charges. In particular, this analysis reveals that Hawaiian has adhered to the ENFIA agreement in its material respect, including rate element consistency, use of the same percentages for phasing in jointly used subscriber plant costs, and assumed minutes of use per line per month for determining the rates associated with MTS/WATS-type interconnection with local exchange facilities.

30. Petitioners maintain, however, that Hawaiian's ENFIA rates are unlawfully high in comparison with AT&T's ENFIA rates. They attribute this alleged unlawfulness to Hawaiian's use of a high CSR ratio in the SPF formula for developing the interstate apportionment of jointly used subscriber plant costs, and, further, Hawaiian's use of its own specifically identifiable costs under the ENFIA methodology rather than Bell system average interstate costs.

31. With respect to the CSR ratio, we find nothing improper in Hawaiian's calculations. In this case, the higher CSR ratio reflects no more than the sizeable distance between Hawaii and the mainland United States. We also find unpersuasive SPCC's contention that use of the ENFIA methodology results in an improper allocation of jointly used subscriber plant costs because the CSR ratio and the SPF formula were designed only for use in the continental United States. We recognize that the rates and services between Hawaii and the mainland United States are not integrated at present and, as such, Hawaiian is not currently subject to the Separations Manual.[13] However, even if it is assumed for present purposes that the CSR ratio and SPF formula were designed only for use in the continental United States, this does not mean that Hawaiian's use of the CSR ratio in the SPF formula to allocate jointly used subscriber costs in accordance with the ENFIA methodology is improper or unlawful or should be investigated. Moreover, at this moment, a Federal-State Joint Board, convened by the Commission in Docket No. 21283. *Integration of Rates and Services, AT&T, et al*, 64 F.C.C. 2, 1033 (1977), has before it a joint motion by AT&T and Hawaiian to accept the current Separations Manual as the basis of rate and service integration between Hawaii and the mainland United States. This represents a change in Hawaiian's position favoring adoption of its Hawaiian II Separations Plan which would have called for a much higher allocation of costs for jointly used subscriber plant.

32. As for Hawaiian's use of its own specifically indentifiable costs under the ENFIA methodology, we note that the Commission in *ENFIA* had approved this practice for independent telephone companies of the GTE system. USTS's argument that Hawaiian violated the ENFIA agreement by filing a tariff suggests that we should now reject Hawaiian's use of specifically identifiable costs because Hawaiian's ENFIA rates have not been negotiated under a carrier-to-carrier contract mechanism. In the *ENFIA* decision, the Commission acknowledged GTE's intent to "recommend" to its affiliates that they enter into carrier-to-carrier contracts in implementing the ENFIA agreement. However, we find nothing in the ENFIA agreement, the decision in ENFIA, or the Communications Act which precludes GTE's affiliates from filing a tariff with this Commission implementing the ENFIA agreement based upon the use of an independent telephone company's own specifically identifiable costs. Additionally, SPCC has failed to provide sufficient basis to question the validity of Hawaiian's specifically identifiable costs, as well as other costs used by Hawaiian in the development of its ENFIA rates. In this regard, we further find that Hawaiian has supplied adequate cost support material under § 61.38 of the Commission's Rules.

33. This leaves the question of whether this filing should be rejected or investigated because the rates assertedly are not cost based. The Commission recognized in *ENFIA* that rates for MTS/WATS-type local exchange service interconnection developed under the ENFIA methodology may not necessarily be cost based or nondiscriminatory. However, it sanctioned use of the negotiated ENFIA methodology on an interim basis so as to enable local exchange carriers to immediately satisfy the court imposed obligation for local exchange carriers to interconnect their facilities with MTS/WATS-type services. This determination was also based upon its recognition that a case-by-case consideration and resolution of the complex costing and discrimination issues associated with such interconnection compensation arrangements could prove to be a costly and time consuming process. Although in the *MTS and WATS Market Structure* proceeding significant strides have been made towards uniformly resolving the costing and discrimination issues surrounding local exchange compensation arrangements for MTS/WATS-type services, as well as other interstate services, the Commission has yet to adopt and implement its proposed access charge plan. Until this occurs, we shall follow the Commission's position in *ENFIA*, that is, to allow independent telephone companies of the GTE system to implement compensation arrangements for MTS/WATS-type local exchange interconnection services

[13] The forward to the Separations Manual states that "These procedures are not *necessarily* designed to apply to * * * Hawaii * * *" (emphasis supplied).

using ENFIA methodology and their own specifically identifiable costs. In this regard, since Hawaiian has complied with the negotiated ENFIA methodology and sufficient reason has not been shown to question Hawaiian's own specifically identifiable costs, we will neither reject not suspend and investigate Hawaiian's ENFIA tariff.

B. CINEA and FX

34. Petitioners argue that rejection of CINEA and FX is warranted because it was improper for Hawaiian to use the ENFIA methodology to develop local exchange access charges applicable to interstate private line services. We recognize that the scope of the ENFIA agreement was limited to the development of compensation arrangements for MTS/WATS-type local exchange interconnection. However, neither the ENFIA agreement nor the ENFIA decision reached any conclusion as to whether application of the ENFIA methodology should be restricted to MTS/WATS-type local exchange interconnection. The parties to the ENFIA agreement recommended only that the Commission address and resolve the special problems associated with local exchange compensation arrangements for interstate private line services. Although in the *MTS/WATS Market Structure* proceeding the Commission is in the process of resolving issues concerning local exchange compensation arrangements for all interstate services, it has not as yet adopted or implemented a proposed access charge plan. At the same time, we also recognize that Hawaiian's CINEA and FX tariffs, unlike Hawaiian's ENFIA tariff, are the first such tariffs before the Commission proposing local exchange compensation arrangments for users of interstate private lines. As such, we are without any prescribed methodology or other standard by which we can make a prima facie determination of the lawfulness of Hawaiian's CINEA and FX tariffs. Since the Commission's authority to reject a tariff filing is limited to a clear violation of the Act, a prior Commission order, or our Rules, we find that rejection of Hawaiian's CINEA and FX tariffs simply because Hawaiian has choosen to use the ENFIA methodology to develop its CINEA and FX rates is not appropriate here. See *Associated Press v. FCC*, 448 F.2d 1095 (D.C. Cir. 1971).

35. Nor are petitioner's other arguments in support of rejection persuasive. We find that Hawaiian has provided adequate support material to comply with § 61.38 of the Commission's Rules. As to the assertion that Hawaiian's FX and CINEA tariff should be rejected because they unilaterally impose a change in the Separations Manual in violation of Section 410(c) of the Act, we note that Hawaiian is not obligated under Part 67 of our Rules to follow the Separations Manual. Moreover, the Separations Manual has not been adopted by the Federal-State Joint Board for rate and service integration between Hawaii and the United States. However, even if Hawaiian were under the Separations Manual, we would not find the proposed tariff revisions unlawful for violation of Section 410(c) or Part 67. The Separations Manual procedures govern the apportionment of costs between carriers and jurisdictions, but do not constrain carriers in the methodologies they may employ for ratemaking purposes. Thus, we are not prepared to conclude at this stage of our consideration that Hawaiian's CINEA and FX tariffs are unlawful.

36. We do, however, find that Hawaiian's use of the ENFIA methodology to develop its CINEA and FX rates raises questions regarding the lawfulness of these rates which warrant investigation. As noted, the ENFIA methodology relies on use of those procedures in the Separations Manual for determining exchange costs associated with MTS and WATS on a per minute basis. Through the application of the SPF formula the Separations Manual assigns significantly greater local exchange plant costs to the interstate jurisdiction than on a relative usage basis (*SLU*). However, the Separations Manual does not assign the costs of local exchange plant used by private line services in this manner. Rather these costs are directly assigned to the appropriate jurisdiction. Traditionally, therefore, charges to private line customers for open end local exchange service have been designed to recover a share of the telephone company's intrastate revenue requirement, as determined by the costs which the Separations Manual directly assigns to the intrastate jurisdiction. In turn, these overall jurisdictional cost assignments fixed by the Separations Manual cannot be modified except through action by a Federal-State Joint Board and the Commission. See, Section 410(c) of the Act and Part 67 of the Commission's Rules. In this case, by its use of the ENFIA methodology, Hawaiian has developed costs for CINEA and FX comparable to the MTS/WATS costs produced by the Separations Manual through application of the SPF formula. This procedure suggests that the costs developed, taken together with other intrastate costs, may be inconsistent with the total jurisdictional costs assigned by the separations process. Should this be the case, Hawaiian's proposed CINEA and FX rates could yield revenues in excess of the company's jurisdictional revenue requirement as determined by jurisdictional separations costs. Therefore, in order to justify the proposed rates, Hawaiian will be expected to establish in the investigation that the costs which it seeks to recover are consistent with the overall jurisdictional costs assigned by the separations process. Compounding this task is the fact that Hawaiian currently does not rely on the cost allocation procedures of the Separations Manual for assignment of jurisdictional costs. Nevertheless, Hawaiian's use of a methodology for purposes of rate development which is grounded in the Separations Manual makes such a showing necessary.

37. Also in need of investigation are Hawaiian's projections of local network usage of 1744 minutes per month for CINEA customers and 2400 minutes per month for FX customers. With respect to the CINEA minutes of use study, we question whether the selection of large toll users as a universe and use of a weighted toll use factor of 50 percent can reasonably reflect local exchange network usage by interstate private line customers. In this regard, we expect Hawaiian to justify the CINEA minutes of use study by providing additional information regarding the nature and number of large toll customers surveyed and further information on the derivation of the weighted toll use factor of 50 percent. As for Hawaiian's projected minutes of use for FX customers, we question Hawaiian's reliance on an AT&T minute of use study in a situation where Hawaiian has a universe of one customer with 11 FX circuits to survey. We anticipate that Hawaiian will provide satisfactory justification for using the AT&T mainland study or provide us with a traffic study based on its own FX circuits.

38. Hawaiian's CINEA and FX tariffs raise other issues of lawfulness as well. We question whether Hawaiian's CINEA and FX tariff proposals would not impose an unreasonable surcharge on interstate private line customers who wish to access the local exchange. In resolving this issue, we expect to consider future developments in the *MTS and WATS Market Structure* proceeding. Furthermore, there is some indication in these tariffs that Hawaiian may recover costs associated with private line usage of its local exchange

network more than once, expecially in the case of CINEA customers where certain local business charges would still remain applicable. This issue relates to our concern, as noted above, with whether any offsetting adjustments are necessary, or have already been made by Hawaiian, to local revenue requirements for use of Hawaiian's local exchange network as a result of additional revenues which would be received under the CINEA and FX tariffs.

39. A further issue is possible unlawful discrimination. Hawaiian has chosen to classify its FX and CINEA customers under separate tariffs and charge these customers different rates for use of its local exchange network. It apparently seeks to justify this classification scheme on the basis of how CINEA and FX customers will access its local exchange network. However, the CINEA and FX tariffs would impose charges only for use of the local exchange network after the CINEA and FX customers have interconnected with Hawaiian's local exchange. This interconnection and means of access appear to be identical for both CINEA and FX customers. Hawaiian's support material reveals no underlying differences in service or costs for the local exchange network service being provided to these customers under the separate tariffs. The rate differences result solely from the different minutes of use projections made by Hawaiian with respect to each of these services. Assuming that the ENFIA methodology is found to be proper for the development of rates for interstate private line usage of Hawaiian's local exchange, Hawaiian will still be required to justify its proposed establishment of two separate tariffs for its interstate private line customers where no cost or service differences are shown. Furthermore, as noted, Hawaiian has developed flat monthly rates, based on average usage, for each customer classification. However, Hawaiian fails to satisfactorily explain why it has not chosen a single average rate applicable to all private line customers or conversely, why it has not chosen a scheme whereby all private line customers pay for actual usage on the same basis.

40. In view of the above matters concerning the lawfulness of Hawaiian's CINEA and FX tariffs, we shall order an investigation and suspend these tariffs for the full statutory period. We are suspending these tariffs for five months because of the substantial and immediate rate impact these tariffs would have on both interstate private line customers and carriers.

41. There is one more matter we wish to address here. We recognize that Hawaiian is under a final Commission order in *Hawaiian Telephone Company* to interconnect its local exchange network with DOD's private line network for FX service in Hawaii which would be used by GSA. Aside from the fact that FEA has indicated, without submitting any detail, that other services are being provided GSA on an interim basis, we do not believe that Hawaiian must wait for the FX tariff proposal to become effective before providing this interconnection service. Tariff changes can be made to its FX tariff allowing interconnection without implementation of the proposed FX rates. DOD would pay for the interconnection service, as do other customers taking service under the FX tariff, at the local exchange business rates currently in effect. If DOD so desires, we expect such tariff changes to be implemented immediately by Hawaiian.

42. Finally, we believe that the questions raised here concerning the lawfulness of Hawaiian's CINEA and FX tariffs can be satisfactorily and promptly addressed and resolved through the use of written comment procedures. Hawaiian will have the burden of proving that its CINEA and FX tariffs are just, reasonable, and not unduly discriminatory under Sections 201 and 202 of the Act. If our investigation shows that Hawaiian's CINEA and FX tariffs are unlawful, we shall consider possible rate prescriptions.

43. Accordingly, it is ordered, That pursuant to authority delegated in § 0.291 of the Commission's Rules, 47 CFR 0.291, and pursuant to Section 4(i), 4(j), 201, 202, 203, 204, 205, and 403 of the Communications Act, 47 U.S.C. 154(i), 154(j), 201, 202, 203, 204, 205, and 403, an investigation is instituted into the lawfulness of Hawaiian Telephone Company's CINEA and FX tariff proposals.

44. It is further ordered, That Hawaiian Telephone Company, Southern Pacific Communications Company, United States Transmission Systems, Inc., General Electric Company, Sears Roebuck & Co., and the General Services Administration and Defense Communications Agency of the Department of Defense, on behalf of the Federal Executive Agencies shall be parties to this proceeding. Any other interested persons who wish to participate as parties may file a notice with the Commission within 30 days of the release of this order, or by filing comments in response to Hawaiian Telephone Company's direct case.

45. It is further ordered, That Hawaiian shall submit its direct case within 45 days of the release of this order. Other parties may file their reply cases or comments within 30 days thereafter. Hawaiian Telephone Company may file its response within 15 days thereafter.

46. It is further ordered, That Hawaiian Telephone Company's CINEA and FX tariff proposals are suspended for a period of five months.

47. It is further ordered, That the petitions to reject, or in the alternative, to suspend and investigate Hawaiian Telephone Company's CINEA and FX tariffs are granted to the extent indicated and otherwise are denied.

48. It is further ordered, That the petitions to reject, or in the alternative, to suspend and investigate Hawaiian Telephone Company's ENFIA tariff are denied.

49. It is further ordered, That this action is effective immediately.

50. It is further ordered, That the Secretary shall cause this Memorandum Opinion and Order to be published in the **Federal Register.**

Federal Communications Commission.

Joseph A. Marino,

Acting Chief, Common Carrier Bureau.

BILLING CODE 6712-01-M

FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License No. 2070]

Boston Overseas, Inc.; Order of Revocation

On March 16, 1981, Boston Overseas, Incorporated, 33 Broad St., Boston, MA 02109, requested the Commission to revoke its Independent Ocean Freight Forwarder License No. 2070.

Therefore, by virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised), § 5.01(c), dated August 8, 1977;

It is ordered, that Independent Ocean Freight Forwarder License No. 2070 issued to Boston Overseas, Incorporated, be revoked with out prejudice to reapplication for a license in the future, effective March 16, 1981.

It is further ordered, that Independent Ocean Freight Forwarder License No. 2070 issued to Boston Overseas, Incorporated be returned to the Commission for cancellation.

It is further ordered, that a copy of this Order be published in the Federal Register and served upon Boston Overseas, Incorporated.

Daniel J. Commiso,

Director, Bureau of Certification and Licensing.

[FR Doc. 81-8866 Filed 3-23-81; 8:45 am]

BILLING CODE 6730-01-M

Colon International, et al.; Independent Ocean Freight Forwarder License Applicants

Notice is hereby given that the following applicants have filed with the Federal Maritime Commission applications for licenses as independent ocean freight forwarders pursuant to section 44(a) of the Shipping Act, 1916 (75 Stat. 522 and 46 U.S.C. 841(c)).

Persons knowing of any reason why any of the following applicants should not receive a license are requested to communicate with the Director, Bureau of Certification and Licensing, Federal Maritime Commission, Washington, D.C. 20573.

Colon International (Jorge A. Colon, d.b.a.), 7856 N.W. 72nd Avenue, P.O. Box 51-4120, Miami, FL 33166

Wesco Shipping (U.S.A.) Ltd., One World Trade Center, Rm. 7967, New York, NY; Officers: Daria Alfonso, President/Director; Y. Violet Cavaco, Secretary/Treasurer

World Forwarders (Nicholas B. Santangelo, d.b.a.), 453 Harmon St., Brooklyn, NY 11237

By the Federal Maritime Commission.

Dated: March 18, 1981.

Joseph C. Polking,

Acting Secretary.

[FR Doc. 81-8867 Filed 3-23-81; 8:45 am]

BILLING CODE 6730-01-M

Notice of Agreements Filed

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street, NW., Room 10218; or may inspect the agreements at the Field Offices located at New York, N.Y.; New Orleans, Louisiana; San Francisco, California; Chicago, Illinois; and San Juan, Puerto Rico. Interested parties may submit comments on each agreement, including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before April 13, 1981. Comments shall include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments should discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreements and the statement should indicate that this has been done.

Agreement No. T-3956-1.

Filing party: Mr. Robert W. Goethe, Assistant Executive Director, Georgia Ports Authority, P.O. Box 2406, Savannah, Georgia 31402.

Summary: Agreement No. T-3956-1, between Georgia Ports Authority and Moller Steamship Co., Inc., as agent for Maersk Line (Lessee), modifies the parties' basic agreement which provides for the one-year lease and exclusive use of certain paved premises located within Container Central at Garden City terminal, Chatham County, Georgia. The purpose of the modification is to include an additional article to the original lease (Article 24), which would allow Lessee to rent additional slots, if available, at a rate of $180 per slot. Article 24 may be invoked by written memorandum signed on behalf of both parties whereupon all terms and conditions of the basic agreement will be applicable to such additional assignments, unless expressly modified in the memorandum.

Agreement No. 10413.

Filing party: Mr. R. J. Finnan, Chief Tariff Publishing Officer, Lykes Bros. Steamship Co., Inc., 300 Poydras Street, New Orleans, Louisiana 70130.

Summary: Agreement No. 10413, between Lykes Bros. Steamship Co., Inc. (Lykes) and Carolina Shipping Company (Carolina), provides that Lykes will appoint Carolina as its agent in respect to services provided by and controlled by Lykes for intermodal traffic destined to or originating from Charleston, South Carolina. Compensation and fees will be as agreed upon from time to time by the parties.

Agreement No. 10414.

Filing party: Robert A. Peavy, Esq., Morgan, Lewis & Bockius, 1800 M Street, N.W., Washington, D.C. 20036.

Summary: Agreement No. 10414, entitled "PRC-USA Eastbound Rate Agreement," has been entered into by American President Lines, Ltd., Lykes Bros. Steamship Company, Inc., Sea-Land Service, Inc., United States Lines, Inc., and Waterman Steamship Corporation. The instant agreement would establish a Rate Agreement in the eastbound trade from ports and points in the People's Republic of China to ports and points in the United States, including Hawaii and Alaska. Membership in the Rate Agreement is open to any party that regularly provides service as a vessel operating common carrier by water serving ports or points in the trade. Any qualified carrier admitted to membership will automatically become a member of the applicable autonomous "Flag Group" which will be determined in accordance with the flag of registry of the vessels it operates. Each "Flag Group"; i.e., U.S., People's Republic of China, or Third-Flag, may maintain separate tariffs apart from those established by the Rate Agreement until such tariffs are superseded by Rate Agreement tariff(s). Any party may take independent action with respect to Rate Agreement or "Flag Group" tariff matters by giving appropriate notice in accordance with the procedures set forth in the agreement.

Dated: March 18, 1981.

By Order of the Federal Maritime Commission.

Joseph C. Polking,

Acting Secretary.

[Independent Ocean Freight Forwarder License No. 1831]

Rocky Ford Moving Vans, Inc., d.b.a. Texas International Port Service; Order of Revocation

On February 24, 1981, Rocky Ford Moving Vans Inc., dba Texas International Port Services, 3811 West Industrial Avenue, Midland, Texas 79702 requested the Commission to revoke its Independent Ocean Freight Forwarder License No. 1831.

Therefore, by virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised), § 5.01(c), dated August 8, 1977;

It is ordered, that Independent Ocean Freight Forwarder License No. 1831 issued to, Rocky Ford Moving Vans Inc., dba Texas International Port Service be revoked without prejudice to reapplication for a license in the future effective February 24, 1981.

It is further ordered, that Independent Ocean Freight Forwarder License No. 1831 issued to Rrocky Ford Moving Vans Inc., dba Texas International Port Service be returned to the Commission for cancellation.

It is further ordered, that a copy of this Order be published in the Federal Register and served upon Rocky Ford

Moving Vans Inc., dba Texas International Port Service.

Daniel J. Connors,

Director, Bureau of Certification and Licensing.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

Bank Holding Companies; Proposed de Novo Nonbank Activities

The bank holding companies listed in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR § 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

Each application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than April 16, 1981.

A. *Federal Reserve Bank of Kansas City* (Thomas M. Hoenig, Assistant Vice President), 925 Grand Avenue, Kansas City, Missouri 64198:

FirstBank Holding Company and FirstBank Holding Company of Colorado, Lakewood, Colorado (industrial banking activities; Colorado): to engage through a subsidiary, Vail FirstBank Industrial Bank, in operating an industrial bank as authorized by Colorado law. These activities would be conducted from an office located in Vail, Colorado, serving the town of Vail, Colorado and the surrounding area.

B. *Federal Reserve Bank of San Francisco* (Harry W. Green, Vice President), 400 Sansome Street, San Francisco, California 94120:

Bankamerica Corporation, San Francisco, California (financing, servicing, and insurance activities; Kansas and Missouri): to engage, through its indirect subsidiary, FinanceAmerica Credit Corporation, a Delaware corporation, in the activities of making or acquiring for its own account, loans and other extensions of credit such as would be made or acquired by a finance company; servicing such loans and other extensions of credit; and offering credit-related life, credit-related accident and disability and credit-related property insurance. Such activities will include, but not be limited to, making loans and other extensions of credit to consumers and small businesses, purchasing installment sales finance contracts, making loans secured by real and personal property, and offering credit-related life, accident and disability and property insurance directly related to extensions of credit made or acquired by FinanceAmerica Credit Corporation.

These activities will be conducted from a *de novo* office located in Overland Park, Kansas, serving the states of Kansas and Missouri.

C. *Other Federal Reserve Banks:* None.

Board of Governors of the Federal Reserve System, March 17, 1981.

Jefferson A. Walker,

Assistant Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

[F-81-2]

Delegation of Authority to the Secretary of Defense

1. *Purpose.* This delegation authorizes the Secretary of Defense to represent, in conjunction with the Administrator of General Services, the consumer interests of the executive agencies of the Federal Government in proceedings before the Mississippi Public Service Commission involving intrastate telecommunications service rates.

2. *Effective date.* This delegation is effective immediately.

3. *Delegation.*

a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the Federal executive agencies before the Mississippi Public Service Commission involving the application of the South Central Bell Telephone Company for an increase in rates for private line telecommunications service. The authority delegated to the Secretary of Defense shall be exercised concurrently with the Administrator of General Services.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

Dated: March 13, 1981.

Ray Kline,

Acting Administrator of General Services.

Health Care Financing Administration

Privacy Act of 1974; New and Altered Systems of Records

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Waiver of advance notice period for a new system of records and an altered system of records.

SUMMARY: HCFA provided notification of an altered system in the Federal Register (46 FR 3989-3991), January 16, 1981. That system is 09-70-0001, Medicare Second Surgical Opinion Experiments. HCFA also provided notification of a proposed new system in the Federal Register (46 FR 7453-7456), January 23, 1981. That system is 09-70-0023, Evaluation of the Home Dialysis Aide Demonstration. Both notices stated that HCFA had requested that the Office of Management and Budget (OMB) grant a waiver of the usual requirement that a new or altered system not be put into effect until 60 days after the report is sent to OMB and the Congress.

OMB granted the requested waivers on February 12, 1981.

Accordingly, effective dates for the systems are February 12, 1981, for altered system 09-70-0001, and February 23, 1981, for new system 09-70-0023 (including the routine uses).

Dated: March 17, 1981.

Paul Willging,

Acting Administrator, Health Care Financing Administration.

BILLING CODE 4110-35-M

Office of the Secretary

Federal Council on the Aging; Long-Term Care Committee; Meeting

The Federal Council on the Aging was established by the 1973 Amendments to the Older Americans Act of 1965 (Pub. L. 93-29, 42 U.S.C. 3015) for the purpose of advising the President, the Secretary of Health and Human Services, the Commissioner on Aging, and the Congress on matters relating to the special needs of older Americans.

Notice is hereby given pursuant to the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C. app. 1, sec 10, 1976) that the Committee will hold a meeting on Wednesday, April 8, 1981 at 9:30 a.m. to 4:30 p.m. in Rooms 403-425A, Hubert Humphrey Building, 200 Independence Ave., S.W., Washington, D.C. 20201.

The agenda will consist of a discussion with Federal officials on the policy implications of the Council's recently published chartbook on information and issues on the need for long term care.

Further information may be obtained from the Federal Council on the Aging, Washington, D.C. 20201. Telephone (202) 245-0441.

FCA meetings are open for public observation.

Dated: March 17, 1981.

Rev. Msgr. Charles J. Fahey,

Chairman, Federal Council on the Aging.

[FR Doc. 81-8814 Filed 3-23-81; 8:45 am]
BILLING CODE 4110-92-M

Privacy Act of 1974; Report of a New System of Records

AGENCY: Office of the Assistant Secretary for Planning and Evaluation (ASPE), Office of the Secretary (OS), Department of Health and Human Services (DHHS).

ACTION: Notification of a New System of Records.

SUMMARY: In accordance with 5 U.S.C. 552a(e)(4), we are issuing public notice of our intent to establish a new system of records: Recipient Survey for the Monthly Reporting and Retrospective Accounting Study, HHS/OS/ASPE, 09-90-0067. We are proposing also to include a routine use with the system in accordance with 5 U.S.C. 552a(e)(11). The proposed new system will provide for data on the nature and extent of the effects of the monthly reporting system on the well-being of AFDC clients. Non-individually identifiable data are used for analysis by the contractor for this evaluation, any agency of government, and any member of the public who wishes to conduct statistical analysis of such data.

We will collect data from 13 local welfare offices in three states and on about 5,000 individuals. The public is invited to submit comments on the routine use of this system of records on or before April 23, 1981.

DATES: We filed a report of a new system of records with the President of the Senate, the Speaker of the House of Representatives, and the Director, Office of Management and Budget (OMB) on March 19, 1981. A request for waiver of the OMB advance notice requirement has been submitted. If OMB does not grant the waiver, the new system will not be implemented until the normal 60-day waiting period has elapsed. However, if OMB does grant the waiver, the system would be implemented on the date the waiver is granted.

The routine use will become effective April 23, 1981, (but not before the system has been implemented) unless HHS receives comments which would result in a contrary determination.

ADDRESS: Address comments to the ASPE Privacy Act Officer, Department of Health and Human Services, 200 Independence Avenue SW., Washington, D.C. 20201. We will make comments received available for public inspection in Room 419E, Hubert Humphrey Building, at the above address.

FOR FURTHER INFORMATION CONTACT: Project Officer, Monthly Reporting Project, Office of the Assistant Secretary for Planning and Evaluation, 200 Independence Avenue SW., Washington, D.C. 20201, telephone number 202-245-1794, Room 457F.

SUPPLEMENTARY INFORMATION: The Assistant Secretary for Planning and Evaluation, Department of Health and Human Services, proposes to initiate a new system of collecting data under the authority of a special Congressional appropriation initiated in fiscal year 1978.

The Monthly Reporting Systems Project being tested constitutes a major change in the way in which welfare clients provide information to state and local agencies. The systems are intended to increase the accuracy of AFDC grant payments and thereby potentially reduce total grant outlays. The evaluation of monthly reporting focuses on four basic issues; the effect of the monthly reporting system on total AFDC caseload and payment; on payment accuracy and error rates; on administrative costs and structures; and on AFDC recipients. Studying the effects on recipients is the only task that will include a system of records with personal identifiers. All other tasks where data are provided to the contractor are State initiated and controlled. Those data are made available to the contractor without any individual indentifiers.

Five thousand individuals in 13 local welfare offices in 3 states are the minimum number of offices and individuals necessary in a study of this type to yield statistically reliable national estimates of the difference between experimental and control cases. This sample size gives a .8 probability of detecting at the 95 percent confidence level a 10 percentage point difference between experimental and control cases, where the value on the variable of interest is 40 percent for the control group.

To evaluate the effects of monthly reporting on participating AFDC clients, it is necessary to interview them to determine the extent and nature of the problems they have with the monthly reporting form; the degree to which the new form increases the time and costs of reporting in terms of providing benefits when needed; the incidence of failure to provide benefits to eligible household; the effects on the quality of nonfinancial services provided to clients; and the way in which the system changes clinet interaction with agency personnel; e.g., are fewer trips made to the welfare office under a monthly reporting system? This is the only area of this project in which information will be collected from the public for analysis. Not only Federal policy makers but both state administrators and client advocates feel particularly strongly that these client effects should be analyzed in detail. Because of the potential behavioral effects induced by the test policies, no other data sources can substitute for face-to-face client interviews.

All personal indentifiers will be removed from the data before it is entered into analysis files to assure that the respondents' confidentiality is protected. Individual respondents will never be identified in any analyses or reports submitted by Abt Associates, Inc. for this project.

A letter to the survey respondents states that participation is voluntary. The Privacy Act Statement will be provided in printed form to all potential respondents so they may have the

opportunity to read the statement and provide their verbal informed consent, prior to any interviews by Abt Associates, Inc. At that time, should the respondent have any questions about the purpose of survey, the interviewer will answer them. Also, the interviewer will read the statement to the client, should the client be unable to read. Standard procedures as described further on will be established by Abt Associates with respect to the handling and use of personal indentifying information which will be gathered in the course of the interview effort.

For the interviewing effort, a separate sheet of paper will contain the names of the respondents to each interview. This will be used for data verification, potential follow-up to obtain missing interview information, and other quality control procedures. All individually identifiable information on the respondent or his or her household will be entered in the Respondent Information Booklet (RIB), but not onto the interview data. The interviews will not contain any personal indentifiers, but will use a unique system of identification which will not identify the individual. The RIB is linked to the interview by this unique identification number only and contains name, address and telephone number of respondent as well as names and birth-dates of household members. No personal information will be entered into an automated data base containing only the aggregated demographic data.

These data will not be disclosed or released to any other agency, organization, or individual except under the routine use requirements of the Privacy Act or as otherwise required by law. All hard copy interview data will be destroyed by Abt Associates, Inc., under the control of the ASPE Project Officer, within 30 days of the conclusion of the contract. Abt Associates, Inc. will retain all other records for the life of the evaluation and then return data void of personal identification to the Office of the Assistant Secretary for Planning and Evaluation.

This system is neither designed nor intended to be used to measure the behavior of any specific individual with respect to any data that are collected as part of the demonstration or evaluation.

The Privacy Act of 1974 allows us to disclose information without the consent of the individual for "routine uses," that is, disclosure for purposes that are compatible with the purposes for which the data are collected. We are establishing one routine use of information in this system. This routine use provides for disclosure in response to congressional inquiries made on behalf of any individual included in the system of records.

Individually identifiable data are maintained at Abt Associates, Inc., the contractor for this evaluation. The contractor safeguards the identifiable data according to the Department's ADP Systems Manual, "Part 6, ADP System Security." Identifiable data on other than magnetic tape or disk are maintained by the contractor in locked cabinets in a limited access area. All hard copy identifiable data will be destroyed by Abt Associates within 30 days of the conclusion of the contract. We further protect magnetic data with special account numbers and passwords.

Since we propose to establish this system in accordance with the requirements of the Privacy Act, we anticipate no adverse effect on the privacy or personal rights of individuals.

Dated: March 18, 1981.

Gerald Britton,

Acting Assistant Secretary for Planning and Evaluation.

09-90-0067

SYSTEM NAME:

Recipient Survey for the Monthly Reporting and Retrospective Accounting Study/HHS/OS/ASPE

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Abt Associates, Inc. 55 Wheeler Street Cambridge, Massachusetts 02138

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The system will include a sample of approximately 5,000 recipients of Aid to Families with Dependent Children (AFDC)/Food Stamp (FS) programs in three states some of whose cases are active in either the monthly or conventional reporting systems and some others, whose cases have been closed after being active at some point during the experimental period.

CATEGORIES OF RECORDS IN THE SYSTEM:

The contractor maintains two sets of files, containing the data the evaluation was designed to collect.

One file, the Respondent Information Booklets (RIB) consists of the names, addresses, telephone numbers, and names and birthdates of household members. It also includes the record of the one-time payment to the respondent. A unique individual identifying number links this file to the other file. Only this unique number permits identification of the individual.

The other file consists of non-individually identifiable information, except for the linking number attached, that include: prior participation in the welfare system and the nature and extent of prior work experience; reporting burden in time and money, promptness and accuracy; receipt of benefits other than their regular check; recipient's understanding of rules and regulations; current circumstances of closed case respondents, and demographics. The file will be retained as magnetic tape and disk.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 1115, Social Security Act, as amended.

PURPOSE(S)

The proposed new system will provide for data on the nature and extent of the effects of the monthly reporting system on the well-being of AFDC clients. This system will determine: (1) how much time, cost, and effort recipients must expend to comply with monthly reporting rules, and the comparable response burden under the pre-existing system; (2) recipient understanding of the experimental and control groups, and recipient attitudes about the two groups; (3) the difference between the experimental and control treatments in the meeting of current need, where "current" refers to the period covered by the payment, and "need" is defined by AFDC program rules; and (4) the extent to which recipients have access to alternative resources over the short term, and are able to budget these various resources.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made on behalf of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING, OF RECORDS IN THE SYSTEM.

STORAGE:

Magnetic tape and disk, paper and card records.

RETRIEVABILITY:

The contractor performs linkage between the data sets through a number common to both the identified data and the non-individually identified data only for purposes of validation of data, matching and management of data collection.

SAFEGUARDS:

The contractor, Abt Associates, Inc., stores the Respondent Information Booklet (RIB) containing individual identifiers separately from the interviews in locked file cabinets whose access will be restricted to authorized Abt Associates personnel only. Interviews with non-individually identifiable information are stored separately in a locked safe. Magnetic data are further protected by special account numbers and passwords.

The contractor conforms to the Department's ADP Systems Manual, "Part 6, ADP System Security." Access to the linkage associated with identifiable data for individuals is subject to the specific approval of the Project Director at Abt Associates, Inc. Information with individual identifiers is used to verify that records and personal statements are in substantial agreement and that critical data are not missing. Should there be apparent discrepancies, the correct situation could be identified through follow-ups. These uses are performed only by persons employed by Abt Associates, Inc. and then only on a "need to know" basis. At the conclusion of the data collection and cleaning period, all files containing RIBs will be destroyed.

Non-individually identifiable data are used for analysis in support of the overall demonstration evaluation. Research topics of the evaluation include: payment and caseload effects; payment accuracy; administrative outcomes and recipient effects. The aggregated data without personal identifiers are available to any member of the public or to any agency of the government.

The Office of the Assistant Secretary for Planning and Evaluation may conduct analyses of non-individually identifiable data, as necessary.

The Government Project Officer may have access to the identifiable records only to monitor the contractor's performance of the evaluation.

RETENTION AND DISPOSAL:

Magnetic files that contain non-individually identifiable information will be destroyed by shredding or degaussing no more than three years after field work on this evaluation or at such time as it is determined that no further validation of the data will be undertaken.

There are no plans for the destruction of the non-individually identifiable data.

SYSTEMS MANAGER(S) AND ADDRESS:

Assistant Secretary for Planning and Evaluation, U.S. Department of Health and Human Services, 200 Independence Avenue, S.W., Washington, D.C. 20201

NOTIFICATION PROCEDURE:

An individual requesting notice as to whether the system of records contains information pertaining to him/her, should write to the Government Project Officer, at the address below, indicting his/her full name, current address and any other addresses since March 1981. Simultaneously, with requesting notification of inclusion in the system of records, the individual may request record access as described in the "Record Access Procedure" Section.

Project Officer, Monthly Reporting Demonstration Project, Room 457F, Office of the Assistant Secretary for Planning and Evaluation, U.S. Department of Health and Human Services, 200 Independence Avenue, S.W., Washington, D.C. 20201.

RECORD ACCESS PROCEDURES:

Individuals who, through the notification procedures set out above, have established that the system of records contains information pertaining to them may request access to those records by writing to the Government Project Officer at the address given above. The Government Project Officer will notify the individual as to the place and time for access to the record(s). If the requestor prefers, and the information requested is not too voluminous, the material may be mailed.

CONTESTING RECORD PROCEDURES:

Contact the Government Project Officer at the address given above, reasonably identify the record, specify the information being contested, the rational for the challenge and supply the information to be substituted.

RECORD SOURCE CATEGORIES:

Information will be obtained from face-to-face interviews, client information systems and recipient case files.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Bureau of Indian Affairs

Bad River Band of the Lake Superior Tribe of Chippewa Indians, Bad River Reservation, Wisconsin

March 11, 1981.

This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 209 DM 8.1.

On August 25, 1980, pursuant to authority contained in the Federal Property and Administrative services Act of 1949, as amended by Public Law 93-599 dated January 2, 1975 (88 Stat. 1954), the below-described property was transferred by the Administrator of General Services to the Secretary of the Interior, without reimbursement to be held in trust for the use and benefit of the Bad River Band of the Lake Superior Tribe of Chippewa Indians, Bad River Reservation, Wisconsin:

SE¼, NE¼, Sec 25, T. 47 N., R. 2 W., 4th P.M., Ashland County, Wisconsin, containing 40 acres more or less.

These lands are to be treated as and receive the same benefits and protection as other trust lands held for the benefit and use of the Bad River Band of the Lake Superior Tribe of Chippewa Indians.

James F. Canan,

Acting Deputy Assistant Secretary—Indian Affairs.

BILLING CODE 4310-02-M

Bureau of Land Management

[M 37604]

Coal Lease Offering by Sealed Bid; Montana

March 17, 1981.

U.S. Department of the Interior, Bureau of Land Management, Montana State Office, Granite Tower Building, 222 North 32nd Street, P.O. Box 30157, Billings, Montana 59107. Notice is hereby given that at 2 p.m., April 22, 1981, in the Conference Room on the 6th Floor of the Granite Tower Building, the coal resources in the tract described below will be offered for competitive lease by sealed bid to the qualified bidder of the highest cash amount per acre. No bid will be considered which is less than $25/acre and no bid will be accepted for less than fair market value as determined by the authorized officer. This offering is being made as a result of an application filed by Decker Coal Company in accordance with the provisions of the Mineral Leasing Act of 1920 (41 Stat. 437), as amended, and the Department of Energy Organization Act of August 4, 1977 (91 Stat. 565, 42 U.S.C. 7101).

Bids received after 2 p.m. on the day of the sale will not be considered. Sealed bids may not be modified or withdrawn unless such modification or withdrawal is received at the above address before 2 p.m., April 22, 1981. The successful bidder is obligated to pay for the newspaper publication of this Notice.

Coal Offered

The tract is located in Big Horn County approximately 4 miles northeast of Decker, Montana, 21 miles northeast of Sheridan, Wyoming, and 40 miles southwest of Ashland, Montana, and contains 440.00 acres:

T. 9 S., R. 40 E., P.M.M.,
Sec. 8, SE¼NE¼, N½SE¼, SW¼SE¼;
Sec. 9, W½NW¼;
Sec. 17, E½SW¼;
Sec. 20, N½NE¼, SE¼NE¼.

The coal resources offered are limited to all strippable reserves of the Anderson-Dietz #1 (D-1) and the Anderson-Dietz #2 (D-2) seams. The U.S. Geological Survey shall make the final determination on whether to mine the Anderson-Dietz (D-2) seam. Geological Survey has reported that the D-1 seam contains an estimated total of 16.5 million tons of strippable reserves and that the D-2 seam contains an estimated total of 5.3 million tons of

strippable coal reserves. The Anderson-Dietz #1 (D–1) seam averages 51 feet thick over the described lands. The coal is subbituminous B and averages (as-received) 9,624 Btu/lb. with 23.67 percent moisture, 0.33 percent sulfur and 3.81 percent ash. The Anderson-Dietz #2 (D–2) seam averages 20 feet thick over the described lands. The coal is subbituminous B and averages (as-received) 9,398 Btu/lb. with 24.06 percent moisture, .30 percent sulfur and 4.69 percent ash. The coal resources are within the Powder River Basin Known Recoverable Coal Resource Area.

Rental and Royalty

The lease issued as a result of this offering will provide for payment of an annual rental of $3.00 per acre or fraction thereof and a royalty payable to the United States at the rate of 12.5 percent of the value of coal mined by surface methods. The value of coal shall be determined in accordance with 30 CFR 211.63.

Detailed Statement of Sale

A detailed statement of the sale, including bidding instructions and the terms of the lease, is available at the office listed above. All case file documents and written comments submitted by the public on fair market value or royalty rates, except those portions identified as proprietary which meet the exemptions stated in the Freedom of Information Act, will be available for public inspection at the Bureau of Land Management Office at the address given above.

Roland F. Lee,

Chief, Branch of Lands and Minerals Operations.

BILLING CODE 4310-84-M

[Serial No. I–15375]

Idaho; Proposed Withdrawal Continuation

March 13, 1981.

The Bureau of Land Management has filed a statement of justification for continuation of an existing Public Water Reserve Withdrawal. The Bureau desires to continue the withdrawal in its entirety for a period of 20 years. The continuation would be made pursuant to the authority contained in Section 204 of the Federal Land Policy and Management Act of October 21, 1976 (90 Stat. 2754; 43 U.S.C. 1714). The following described land is included in the proposed continuation:

Boise Meridian, Idaho

(I–15375)

Public Water Reserve 107, Secretarial Order of Interpretation No. 186

T. 12 S., R. 32 E.,
Sec. 10, SW¼SW¼.
The area described aggregates 40 acres in Power County, Idaho.

The land is segregated from operation of the public land laws, including location for non-mettaliferous minerals under the mining laws. It is otherwise open to the mining and mineral leasing laws. No change in the segregative effect of the withdrawal or use of the lands is proposed.

Notice is hereby given that an opportunity for a public hearing is afforded in connection with the proposed withdrawal continuation. All interested persons who desire to be heard on the proposal must submit a written request for a hearing to the undersigned officer on or before April 23, 1981. Upon determination by the State Director, Bureau of Land Management, that a public hearing will be held, a notice will be published in the **Federal Register** giving the time and place of such hearing. In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the proposed withdrawal continuation may be filed with the undersigned officer on or before April 23, 1981.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. He will review the withdrawal justification to insure that continuation would be consistent with the statutory objectives of the programs for which the land is dedicated the area involved is the minimum essential to meet the desired needs, the maximum concurrent utilization of the land is provided for, and an agreement is reached on the concurrent management of the land and its resources. He will also prepare a report for consideration by the Secretary of the Interior, the President and Congress, who will determine whether or not the withdrawal will be continued and, if so, for how long. The final determination on continuation of the withdrawal will be published in the **Federal Register**. The existing withdrawal will continue until such final determination is made.

All communication in connection with this proposed withdrawal continuation should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, Federal Building, Box 042, 550 West Fort Street, Boise, Idaho 83724.

Vincent S. Strobel,

Chief, Branch of L&M Operations.

BILLING CODE 4310-84-M

[Serial No. I–15377]

Idaho; Proposed Withdrawal Continuation

March 13, 1981.

The Bureau of Land Management has filed a statement of justification for continuation of an existing Public Water Reserve Withdrawal. The Bureau desires to continue the withdrawal in its entirety for a period of 20 years. The continuation would be made pursuant to the authority contained in Section 204(L) of the Federal Land Policy and Management Act of October 21, 1976 (90 Stat. 2754; 43 U.S.C. 1714). The following described land is included in the proposed continuation:

Boise Meridian, Idaho

(I–15377)

Public Water Reserve 107, Secretarial Order of Interpretation No. 131

T. 7 S., R. 36 E.,
Sec. 9, SW¼NW¼, NW¼SW¼.
The area described aggregates 80 acres in Bannock County, Idaho.

The land is segregated from operation of the public land laws, including location for non-metalliferous minerals under the mining laws. It is otherwise open to the mining and mineral leasing laws. No change in the segregative effect of the withdrawal or use of the lands is proposed.

Notice is hereby given that an opportunity for a public hearing is afforded in connection with the proposed withdrawal continuation. All interested persons who desire to be heard on the proposal must submit a written request for a hearing to the undersigned officer on or before April 23, 1981. Upon determination by the State Director, Bureau of Land Management, that a public hearing will be held, a notice will be published in the **Federal Register** giving the time and place of such hearing. In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the proposed withdrawal continuation may be filed with the undersigned officer on or before April 23, 1981.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential

demand for the land and its resources. He will review the withdrawal justification to insure that continuation would be consistent with the statutory objectives of the programs for which the land is dedicated the area involved is the minimum essential to meet the desired needs, the maximum concurrent utilization of the land is provided for, and an agreement is reached on the concurrent management of the land and its resources. He will also prepare a report for consideration by the Secretary of the Interior, the President and Congress, who will determine whether or not the withdrawal will be continued and, if so, for how long. The final determination on continuation of the withdrawal will be published in the Federal Register. The existing withdrawal will continue until such final determination is made.

All communication in connection with this proposed withdrawal continuation should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, Federal Building, Box 042, 550 West Fort Street, Boise, Idaho 83724.

BILLING CODE [illegible]

[Serial No. I-4733]

Idaho; Proposed Withdrawal Continuation

March 13, 1981.

The Bureau of Land Management has filed a statement of justification for continuation of the existing land withdrawal made by Public Land Order No. 5507 of June 23, 1975. The Bureau desires to continue the withdrawal in its entirety for a period of 20 years. The continuation would be made pursuant to the authority contained in Section 204 of the Federal Land Policy and Management Act of October 21, 1976, 90 Stat. 2751; 43 U.S.C. 1714. The following described land is included in the proposed continuation:

Boise Meridian, Idaho

T. 10 S., R. 23 E.,
Sec. 32, SE¼SE¼.
T. 11 S., R. 15 E.,
Sec. 23, NW¼.
T. 12 S., R. 15 E.,
Sec. 4, SE¼NW¼, NE¼SW¼.

The area described aggregates 280 acres in Twin Falls County, Idaho.

The lands, known as the Burger, Castleford and Burley exclosures, have been withdrawn to preserve their cultural and historical values and to permit their continued use for ecological research. The land is withdrawn from appropriation under the public land laws and from grazing under the Taylor Grazing Act, but not from leasing under the mineral leasing laws. It is being proposed that the withdrawal be modified to exclude livestock grazing only inside the fenced exclosures on each tract.

Notice is herey given that an opportunity for a public hearing is afforded in connection with the proposed withdrawal continuation. All interested persons who desire to be heard on the proposal must submit a written request for a hearing to the undersigned officer on or before April 23, 1981. Upon determination by the State Director, Bureau of Land Management, that a public hearing will be held, a notice will be published in the Federal Register giving the time and place of such hearing. In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the proposed withdrawal continuation may be filed with the undersigned officer on or before April 23, 1981.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. He will review the withdrawal justification to insure that continuation would be consistent with the statutory objectives of the programs for which the land is dedicated, the area involved is the minimum essential to meet the desired needs, the maximum concurrent utilization of the land is provided for and an agreement is reached on the concurrent management of the land and its resources. He will also prepare a report for consideration by the Secretary of the Interior, the President and Congress, who will determine whether or not the withdrawal will be continued and if so, for how long. The final determination on the continuation of the withdrawal will be published in the Federal Register. The existing withdrawal will continue until such final determination is made.

All communication in connection with this proposed withdrawal continuation should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, Federal Building, Box 042, 550 West Fort Street, Boise, Idaho 83724.

BILLING CODE [illegible]

[Serial No. I-9100]

Idaho; Proposed Withdrawal Continuation

March 13, 1981.

The Bureau of Land Management has filed a statement of justification for continuation of the existing land withdrawal made by Public Land Order No. 5592 of July 6, 1976. The Bureau desires to continue the withdrawal in its entirety for a period of 20 years. The continuation would be made pursuant to the authority contained in Section 204 of the Federal Land Policy and Management Act of October 21, 1976, 90 Stat. 2751; 43 U.S.C. 1714. The following described land is included in the proposed continuation:

Boise Meridian, Idaho

T. 50 N., R. 5 W.,
Sec. 4, Lot 13

The area described aggregates 37.50 acres in Kootenai County, Idaho.

The lands have been withdrawn for protection of its recreational, natural, scenic, wildlife and watershed values. The land adjoins the Spokane River and is located ½ mile from the community of Post Falls, Idaho. It is segregated from appropriation under the public land laws, including the mining laws, but not the mineral leasing laws. No change in the segregative effect of the withdrawal or use of the lands is proposed.

Notice is hereby given that an opportunity for a public hearing is afforded in connection with the proposed withdrawal continuation. All interested persons who desire to be heard on the proposal must submit a written request for a hearing to the undersigned officer on or before April 23, 1981. Upon determination by the State Director, Bureau of Land Management, that the public hearing will be held, a notice will be published in the Federal Register giving the time and place of such hearing. In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the proposed withdrawal continuation may be filed with the undersigned officer on or before April 23, 1981.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. He will review the withdrwal justification to insure that continuation would be consistent with the statutory objectives of the programs for which the land is dedicated, the area involved is the minimum essential to meet the desired needs, the maximum concurrent

utilization of the land is provided for and an agreement is reached on the concurrent management of the land and its resources. He will also prepare a report for consideration by the Secretary of the Interior, the President and Congress, who will determine whether or not the withdrawal will be continued and if so, for how long. The final determination on the continuation of the withdrawal will be published in the **Federal Register**. The existing withdrawal will continue until such final determination is made.

All communication in connection with this proposed withdrawal continuation should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, Federal Building, Box 042, 550 West Fort Street, Boise, Idaho 83724.

BILLING CODE 4310-84-M

[OR 19341]

Oregon; Proposed Continuation of Withdrawal

The Bureau of Land Management, U.S. Department of the Interior, proposes that the existing land withdrawal made by Public Land Order No. 754 of September 14, 1951, be continued in its entirety as to the following described land for a 20-year period, pursuant to Section 204 of the Federal Land Policy and Management Act of October 21, 1976, 90 Stat. 2751, 43 U.S.C. 1714:

Willamette Meridian

Myrtle Island

T. 24 S., R. 7 W.,
Sec. 20, Lot 9;
Sec. 21, Lot 11.

Containing 28.28 acres in Douglas County, Oregon.

The purpose of the withdrawal is to protect the scientific and educational values of the Oregon myrtle located on Myrtle Island as a timber preservation area. The status of the withdrawal is proposed to be modified from a timber preservation area to a research natural area. The land is currently segregated from operation of the public land laws, generally, including the mining laws and mineral leasing laws. No change in the segregative effect is proposed, except to restore the land to operation of the mineral leasing laws.

Notice is hereby given that an opportunity for a public hearing is afforded in connection with the proposed withdrawal continuation. All interested persons who desire to be heard on the proposal must submit a written request for a hearing to the undersigned on or before April 27, 1981. Upon determination by the State Director, Bureau of Land Management, that a public hearing will be held, a notice will be published in the **Federal Register** giving the time and place of such hearing. In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the proposed withdrawal continuation may be filed with the undersigned officer on or before April 27, 1981.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. He will review the withdrawal justification to insure that continuation would be consistent with the statutory objectives of the programs for which the land is dedicated; the area involved is the minimum essential to meet the desired needs; the maximum concurrent utilization of the land is provided for; and an agreement is reached on the concurrent management of the land and its resources. He will also prepare a report for consideration by the Secretary of the Interior, the President, and Congress, who will determine whether or not the withdrawal will be continued and if so, for how long. The final determination on the continuation of the withdrawal will be published in the **Federal Register**. The existing withdrawal will continue until such final determination is made.

All communications in connection with this proposed withdrawal continuation should be addressed to the undersigned officer, Bureau of Land Management, U.S. Department of the Interior, P.O. Box 2965, Portland, Oregon 97208.

Dated: March 13, 1981.

INTERIOR/FWS-2

SYSTEM NAME:

Travel Records—Interior, FW-2.

SYSTEM LOCATION:

Denver Service Center, U.S. Fish and Wildlife Service, Department of the Interior, P.O. Box 25346, Denver Federal Center, Denver, Colorado 80225. (2) Input documents supplied by all facilities of the U.S. Fish and Wildlife Service. (See Appendix for addresses.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have performed official travel for the U.S. Fish and Wildlife Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains authorizations to perform travel, travel advance records, and vouchers claiming reimbursement for expenses incurred in the performance of travel.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 5701–5709; 5 U.S.C. 5721–5733 and 20 U.S.C. 905(a); 5 U.S.C. 5722 and 5 U.S.C. 5742(b); and 5 U.S.C. 4111(b).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary use of the records is to form the legal basis for the disbursement of federal funds. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a congressional office made at the request of that individual; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; and (5) to Federal, state, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Maintained in manual form in file folders.

RETRIEVABILITY:

Indexed by name of traveler.

SAFEGUARDS:

Maintained in accordance with the provisions of 43 CFR 2.51.

RETENTION AND DISPOSAL:

Made in accordance with FPMR 101–11.4 dated August 1, 1974.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Denver Service Center U.S. Fish and Wildlife Service, Department of the Interior, P.O. Box 25346, DFC, Denver, Colorado 80225.

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Office initiating the travel authorization and individual on whom the record is maintained.

INTERIOR-FWS-3

SYSTEM NAME:

Security File—Interior, FWS-3.

SYSTEM LOCATION:

Office of Safety and Security, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Occupants of critical-sensitive and non-critical sensitive positions.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains notice of level of security clearance granted to the individual or notice of favorable full-field report as well as SF–86 supplied by individual, as appropriate.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 10450.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary uses of the records are to (a) document security clearances granted to individuals, and (b) to document suitability determinations for federal employment. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a congressional office made at the request of that individual; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; and (5) to Federal, State, or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

File maintained in individual folders.

RETRIEVABILITY:

Folders identified by employee name.

SAFEGUARDS:

Folders contained in locked cabinet.

RETENTION AND DISPOSAL:

Destroyed when clearance requirement no longer exists or when employee separates.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Office of Safety and Security, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records

pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Information supplied by individual and the Office of Personnel Management.

INTERIOR/FWS–4

SYSTEM NAME:

Tort Claim Records—Interior, FWS–4.

SYSTEM LOCATION:

(1) Division of Contracting and General Services, U.S. Department of the Interior, Fish and Wildlife Service, Washington, D.C. 20240; (2) regional offices of Fish and Wildlife Service. (See Appendix for regional addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Claimants for damages to personal property or personal injury.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains information regarding the individual who is required to evaluate a claim for damage to personal property or personal injury, i.e., name, address, insurance company, estimates of repair costs, accident reports by Government officials, law enforcement officials, attorneys, hospital and doctors' reports and bills for service, statements from witnesses.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Federal Tort Claims Act (28 U.S.C. 2671–2680).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary use of the record is for evaluation by tort claims officers, attorneys in the Office of the Solicitor, Department of the Interior. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained in paper form, in "Tort Claim files."

RETRIEVABILITY:

By name of claimant.

SAFEGUARDS:

Maintained in compliance with provisions of 43 CFR 2.51.

RETENTION AND DISPOSAL:

Disposed four years after settlement of claim. Record copies held by Office of the Solicitor, Department of the Interior.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Contracting and General Services, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records should be addressed to the System Manager, with respect to records located in the Washington office, and to regional directors with respect to records located in the office for which each is responsible. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access shall be addressed to the System Manager, with respect to records located in the Washington office, and to regional directors, with respect to records located in the office for which each is responsible. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment shall be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Individual submitting claim; investigative reports, including statements from witnesses; medical reports.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Privacy Act does not entitle an individual to access to information compiled in reasonable anticipation of a civil action or proceeding.

INTERIOR/FWS–5

SYSTEM NAME:

National Wildlife Refuge Special Use Permits—Interior, FWS–5.

SYSTEM LOCATION:

Regional offices of the Fish and Wildlife Service.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for special use permits and cooperative farm agreements on Service lands.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains the name, address of cooperative/permittees, types of special uses, period of use, and any special conditions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-ee). See 50 CFR, Parts 29 and 32.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary use of the records is identification of personnel having special use permits and cooperative farming agreements on National Wildlife Refuge. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on paper in files.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Records are maintained in accordance with the provisions of 43 CFR 2.51.

RETENTION AND DISPOSAL:

Special use permits and cooperative farming agreements are usually maintained not more than one year following the period of use.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Refuge Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records shall be addressed to the System Manager, with respect to records located in the Washington office, and to regional directors with respect to records located in regional or field offices. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access shall be addressed to the System Manager, with respect to records located in the Washington office, and to regional directors with respect to records located in regional or field offices. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment shall be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Individual on whom the record is maintained.

INTERIOR/FWS–6

SYSTEM NAME:

Hunting and Fishing Survey Records—Interior, FWS–6

SYSTEM LOCATION:

Division of Program Plans, Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals participating in hunting, fishing and nonconsumptive wildlife activities, and who voluntarily respond to fishing and hunting survey questionnaires.

CATEGORIES OF RECORDS IN THE SYSTEM:

Survey forms and questionnaires containing information on attitudes, interests, participation in, expenditures, and statistics regarding the use of fish and wildlife resources.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Federal Property and Administrative Services Act of 1949, as amended; the Fish and Wildlife Act of 1956 (16 U.S.C. 741a–742l); the Federal Aid in Wildlife and Fish Restoration Acts of 1937 and 1950, as amended, 16 U.S.C. 777–777k, 669–669i.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USES AND THE PURPOSE OF SUCH USES:

The primary use of the records is the development of statistical analyses to assist State and Federal governments in managing wildlife resources. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order, or license, to appropriate Federal, State, local or foreign agencies responsible for investigation or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ASSESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape.

RETRIEVABILITY:

Indexed by identification number.

SAFEGUARDS:

Maintained in accordance with the provisions of 43 CFR 2.51.

RETENTION AND DISPOSAL:

For each survey that uses this system, the records will be maintained until summary analyses are completed, after which the names and address will be destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Program Plans, Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240.

NOTIFICATIONS PROCEDURE:

Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURE:

A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirementsof 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Individual on whom the record is maintained.

Interior/FWS-7

SYSTEM NAME:

Water Development Project and/or Effluent Discharge Permit Application Review—Interior, FWS—7

SYSTEM LOCATION:

(1) Division of Ecological Services, Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240. (2) All regional, area, and field offices of the Division of Ecological Services. (See Appendix for addresses.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who apply for permits from other regulatory agencies including the Corps of Engineers, and the Environmental Protection Agency. (The records contained in this system which pertain to indviduals contain principally proprietary information concerning sole proprietorships. Some of the records in the system which pertain to individuals may reflect personal information, however. Only the records reflecting personal information are subject to the Privacy Act. The system also contains records concerning corporations and other business entities. These records are not subject to the Privacy Act.)

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains some public notices or permit applications from regulatory agencies which give name, address, and description of work that the applicant is requesting authorization to perform. In order to adequately evaluate the proposed project's effect on fish and wildlife resources, additional project information is at times requested and therefore on file. Environmental impact statements and environmental assessments on some proposed projects also are on file.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Fish and Wildlife Coordination Act, as amended (16 U.S.C. 661–666c; 48 Stat. 401).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary use of the records is to review and comment on permit applications. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on paper in file folders.

RETRIEVABILITY:

Indexed by State, name of applicant, and public notice number.

SAFEGUARDS:

Maintain records in accordance with provisions of 43 CFR 2.51.

RETENTION AND DISPOSAL:

Varies in each location but generally held from two to five years and then either sent to Records Center or destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Ecological Services, Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240.

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records shall be addressed to the System Manager, with respect to records located in the Washington office, and to regional directors, with respect to records located in regional or field offices. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access shall be addressed to the System Manager, with respect to records located in the Washington office, and to regional directors with respect to records located in regional or field offices. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment shall be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Regulatory agency from which permit is requested, State, and the individual on whom the record is maintained.

INTERIOR/FWS-8

SYSTEM NAME:

Fish Disease Inspection Report—Interior, FWS—8.

SYSTEM LOCATION:

(1) Division of Fish Hatcheries, Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240. (2) Regional offices of Fish and Wildlife Services. (See Appendix for Regional addresses.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Commercial trout farmers who request that their fish be inspected for known fish diseases. The majority of the commercial trout farmers are business establishments, however, there may be some private individuals involved. (The records contained in this system which pertain to individuals contain principally proprietary information concerning sole proprietorships. Some of the records in the system which pertain to individuals may reflect personal information, however. Only the records reflecting personal information, however. Only the records reflecting personal information are subject to the Privacy Act. The system also contains records concerning corporations and other business entities. These records are not subject to the Privacy Act.)

CATEGORIES OF RECORDS IN THE SYSTEM:

Name and address of requester and information concerning disease.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

16 U.S.C. 42–44, 3054, 3112, 62 Stat. 687, 83 Stat. 281, Fish and Wildlife Act of 1956. 16 U.S.C. 742a–742l; Fish and Wildlife Coordination Act, 16 U.S.C. 661–666c.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary use of fish disease inspection records maintained in the system is to certify the disease status of populations of fish in the case of transferring, marketing, or distribution control. Disclosures outside the Department of the Interior may be made (1) to do the appropriate agency or agencies, whether Federal, State, local or foreign, charged with the responsibility of investigating or prosecuting a violation or potential violation of a statute, regulation, rule, order or license, whether civil, criminal or regulatory: or charged with enforcing or implementating the statute, rule, regulation, order or license violated or potentially violated; (2) to the U.S. Department of Justice when related to litigation or anticipated litigation; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (4) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on Standard Form 3–226.

RETRIEVABILITY;

Indexed by name.

SAFEGUARDS:

Records maintained in accordance with the provisions of 43 CFR 2.51.

RETENTION AND DISPOSAL:

Indefinite.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Fish Hatcheries, Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records shall be addressed to the System Manager, with respect to records located in the Washington office, and to regional directors with respect to records located in the office for which each is responsible. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access shall be addressed to the System Manager, with respect to records located in the Washington office, and to regional directors with respect to records located in the office for which each is responsible. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment shall be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Individual or entity that requests the inspection.

INTERIOR/FWS–9

SYSTEM NAME:

Farm Pond Stocking Program—Interior. FWS—9.

SYSTEM LOCATION:

Regional offices of the Fish and Wildlife Service and National Fish Hatcheries.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for stocking private farm ponds with fish.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, address, size of pond, species of fish requested and other information needed to evaluate application.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Ponds are stocked in conjunction with the Agricultural Stabilization and Conservation Programs of the Department of Agriculture. Fish and Wildlife Coordination Act, 16 U.S.C. 661–666c.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary use of the records is to insure that the stocking policy is maintained and to keep track of where various species have been stocked. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are maintained on 3½ x 9 inch cards.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Records are maintained in accordance with the provisions of 43 CFR 2.51.

RETENTION AND DISPOSAL:

Destroyed after ten years.

SYSTEM MANAGER(S) AND ADDRESS:

Regional directors (See Appendix for addresses).

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records shall be addressed to the System Managers, with respect to records located in regional or field offices. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access shall be addressed to the System Manager, with respect to records located in regional or field offices for which each is responsible. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment shall be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Individual on whom the record is maintained.

INTERIOR/FWS–10

SYSTEM NAME:

National Fish Hatchery Special Use Permits—Interior, FWS–10.

SYSTEM LOCATION:

Regional offices of Fish and Wildlife Service and National Fish Hatcheries where records are maintained.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have made application for special use permits on National Fish Hatcheries.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains the name and address of permittees, types of special uses, period of use, and any special conditions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

16 U.S.C. 460k–3; 16 U.S.C. 664. See 50 CFR 70.71.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary use of the records is to limit and control the use of the property at the National Fish Hatcheries. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ASSESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on paper in files.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Records are maintained in accordance with the provisions of 43 CFR 2.51.

RETENTION AND DISPOSAL:

Destroyed after one year following period of use.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Hatcheries and Fish Resource Management Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240.

NOTIFICATION PROCEDURES:

Inquiries regarding the existence of records shall be addressed to the System Manager, with respect to records located in the Washington office, and to regional directors with respect to records located in the office or facility for which each is responsible. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access shall be addressed to the System Manager, with respect to records located in the Washington office, and to regional directors with respect to records located in the office or facility for which each is responsible. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment shall be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Individual on whom the record is maintained.

INTERIOR/FWS-11

SYSTEM NAME:

Real Property Records—Interior, FWS-11.

SYSTEM LOCATION:

Regional Offices. Area Offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Landowners, tenants and permittees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records consist of individual files, i.e., title file; case file; and correspondence file. Along with this material is the corresponding tract appraisal report. The title file contains title evidence, original instrument of conveyance, copy of acquisition contract, title curative and closing data, title opinions, survey description and plat, payment vouchers, and appraisal summary. The case file contains a copy of the acquisition contract, copy of instrument of conveyance, closing data, survey description and plat, payment vouchers and appraisal summary. The correspondence file contains all general correspondence, negotiator's contacts and all material in connection with relocation assistance, permits or outgrants when appropriate. The appraisal report consists of the property description, local market data including comparable sales information, location maps and an analysis of value.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Land acquisition and disposal authorities are as follows: Migratory Bird Conservation Act, as amended (16 U.S.C. 715 et seq.); Migratory Bird Hunting Stamp Act, as amended (16 U.S.C. 718 et seq.); Fish and Wildlife Act of 1956, as amended (16 U.S.C. 742a et seq.); Fish and Wildlife Coordination Act, as amended (16 U.S.C. 661–666c); Recreational Use of Conservation Areas Act, as amended (16 U.S.C. 460k–460k–4); Colorado River Storage Project Act, as amended (43 U.S.C. 620g); Endangered Species Act of 1973 (16 U.S.C. 1531–1543); National Wildlife Refuge System Administration Act, as amended (16 U.S.C. 668dd–668ee); Act of May 19, 1948 (PL 80–547), as amended (16 U.S.C. 667b–667d); Federal Property and Administrative Services Act of 1949, as amended (41 U.S.C. 471 et seq.); and the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (40 U.S.C. 4001 et sec.).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary uses of the records are (a) transfer of pertinent documents to authorized title companies or abstractors to obtain title evidence for closings; (b) transfer of pertinent documents to Regional Solicitors and the U.S. Department of Justice for title opinions and condemnation purposes; (c) for use of appraisal information in negotiations; (d) for permit and outgrant purposes; (e) reporting lands as excess to the General Services Administration for transfer or disposal. Disclosures outside the Department of the Interior may be made (1) to the Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; and (3) Congressional inquiry.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Title File-in legal size binders. Case and Correspondence Files-in letter size file folders.

RETRIEVABILITY:

By name of individual.

SAFEGUARDS:

Maintained with safeguards in accordance with 43 CFR 2.51.

RETENTION AND DISPOSAL:

Title File-stored as permanent records in GSA records center. Case and Correspondence Files-maintained until case is closed, then retired to GSA records center and destroyed after two years.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Realty, Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240.

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records shall be addressed to the System Manager, with respect to records located in the Washington office, and to regional directors, with respect to records located in the offices for which each is responsible. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access shall be addressed to the System Manager, with respect to records located in the Washington office, and to regional directors, with respect to records located in the office for which each is responsible. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment shall be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Public records, other governmental contracts, community contacts, and named individuals.

INTERIOR/FWS-19

SYSTEM NAME:

Endangered Species Licensee System—Interior. FWS-19.

SYSTEM LOCATION:

(1) Division of Law Enforcement, U.S. Fish and Wildlife Service, Washington, D.C. 20240. (2) Law Enforcement District Offices of the Fish and Wildlife Service (See Appendix for addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who request a license to import or export fish and/or wildlife or products thereof. (The records contained in this system which pertain to individuals contain principally proprietary information concerning sole proprietorships. Some of the records in the system which pertain to individuals may reflect personal information, however. Only the records reflecting personal information are subject to the Privacy Act. The system also contains records concerning corporations and

other business entities. These records are not subject to the Privacy Act.)

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains name, address, date of birth, height, weight, color of hair and eyes, business phone number, occupation and social security number of individual requesting license. Businesses are identified by type, name and title and phone number of principal officer and State of incorporation, if applicable.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Endangered Species Act of 1973 (16 U.S.C. 1531(d); 87 Stat. 884).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary use of the records is to identify licensees authorized to import or export fish and/or wildlife or products thereof. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) publication in the Federal Register, as required by law.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Maintained in folders.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Maintained in segregated area secured by a locking device in accordance with 43 CFR 2.51.

RETENTION AND DISPOSAL:

Indefinite.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service, Washington, D.C. 20240.

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records shall be addressed to the System Manager, with respect to records located in the Washington office, and to Special Agents in Charge, Law Enforcement Districts 1–13, with respect to records located in the district for which each is responsible. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access shall be addressed to the System Manager, with respect to records located in the Washington office, and to Special Agents in Charge, Law Enforcement Districts 1–13, with respect to records located in the district for which each is responsible. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment shall be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Individual on whom file is being maintained.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Under the specific exemption authority provided by 5 U.S.C. 552(k)(2), the Department of the Interior has adopted a regulation, 43 CFR 2.79(b) which exempts this system from the provisions of 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I) and (f) and the portions of 43 CFR Part 2, Subpart C which implement these provisions. The reasons for adoption of this regulation are set out at 40 FR 50432 (October 29, 1975).

INTERIOR/FWS–20

SYSTEM NAME:

Investigative Case File System—Interior, FWS–20.

SYSTEM LOCATION:

(1) Division of Law Enforcement, U.S. Fish and Wildlife Service, Washington, D.C. 20240 (2) Law Enforcement District Offices of the Fish and Wildlife Service (See Appendix for addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Subjects of investigation relative to violation of fish and wildlife laws.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains name and address, place and date of birth plus other available data identifying the subjects of investigation in violation of the fish and wildlife laws as well as other information incidental to these investigations all of which carry criminal sanctions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Assault Act (18 U.S.C. 111), Bald Eagle Act (16 U.S.C. 668–668d), Black Bass Act (16 U.S.C. 851–856), Lacey Act (18 U.S.C. 42–44), National Wildlife Refuge System Administration Act (16 U.S.C. 668dd–668ee), Migratory Bird Hunting Stamp Act (16 U.S.C. 718–718h), Migratory Bird Treaty Act (16 U.S.C. 703–711), Endangered Species Act (16 U.S.C. 1531–1543), Marine Mammal Act (16 U.S.C. 1361–1407), Upper Mississippi Refuge Act (16 U.S.C. 721–731), Bear River Refuge Act (16 U.S.C. 690), Fish and Wildlife Recreation Act (16 U.S.C. 460k–460k–4), Airborne Hunting Act (16 U.S.C. 742j) and Tariff Classification Act (19 U.S.C. 1527).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES.

The primary use of the records is to include all investigative and enforcement information reported to and investigated by the Division of Law Enforcement, U.S. Fish and Wildlife Service. Disclosurers outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regualtion, order or license.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained in file folders.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Maintained in segregated area secured by a locking device in accordance with 43 CFR 2.51.

RETENTION AND DISPOSAL:

Indefinite.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service, Washington, D.C. 20240.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Under the general exemption authority provided by 5 U.S.C. 552a(j)(2). Department of the Interior has adopted

a regulation, 43 CFR 2.79(a), which exempts the system from all of the provisions of 5 U.S.C. 552a and the regulations in 43 CFR, Part 2, Subpart C, except subsections (b), (c)(1) and (2), (e)(4)(A) through (F), (e)(6), (7), (9), (10), (11) and (i) of 5 U.S.C. 5521 and the portions of the regulations in 43 CFR, Part 2, Subpart C implementing these subsections. The reasons for adoption of this regulation are set out at 40 FR 37217 (August 26, 1975). Under the specific exemption authority provided by 5 U.S.C. 552a(k), the Department of the Interior has adopted a regulation, 43 CFR 2.79(b), which exempts this system from the provisions of 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I) and (f) and the portions of 43 CFR Part 2, Subpart C which implement these provisions. The reasons for adoption of this regulation are set out at 40 FR 50432 (October 29, 1975).

INTERIOR/FWS-21

SYSTEM NAME:

Permits System—Interior, FWS-21.

SYSTEM LOCATION:

(1) Division of Law Enforcement, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240. (2) Law Enforcement District Offices of the Fish and Wildlife Service (See Appendix for addresses). (3) Federal Wildlife Permit Office, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for permits to conduct certain activities in areas of fish and wildlife. (The records contained in this system which pertain to individuals contain principally proprietary information concerning sole proprietorships. Some of the records in the system which pertain to individuals may reflect personal information, however. Only the records reflecting personal information are subject to the Privacy Act. The system also contains records concerning corporations and other business entities. These records are not subject to the Privacy Act.)

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains the name, address, date of birth, height, weight, color of hair and eyes, business phone number, occupation and social security number of persons applying for permit. Business agencies and institutions are identified by type, name, title and phone number of principal officer and State of incorporation, if applicable. Contains information on location of the activity and a briefing of the type of the proposed activity. May also include the qualifications, educational background and experience of the applicant.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

16 U.S.C. 668a, 16 U.S.C. 1539, 16 U.S.C. 704–711, 16 U.S.C. 1371, 18 U.S.C. 42–44, and 19 U.S.C. 1527.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary use of the records is to identify holders of permits which authorize otherwise illegal activity having to do with fish and/or wildlife. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) publication in the Federal Register, as required by law.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained in file folders.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Maintained in segregated area secured by a locking devise in accordance with 43 CFR 2.51.

RETENTION AND DISPOSAL:

Indefinite.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Law Enforcement, or Chief, Wildlife Permit Office, U.S. Fish and Wildlife Service, Washington, D.C. 20240.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Under the specific exemption authority provided by 5 U.S.C. 552a(k)(2), the Department of the Interior has adopted a regulation, 43 CFR 2.79(b), which exempts this system from the provisions of 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I) and (f) and the portions of 43 CFR, Part 2, Subpart C which implement these provisions. The reasons for adoption of this regulation are set out at 40 FR 37217 (August 26, 1975).

INTERIOR/FWS-22

SYSTEM NAME:

U.S. Deputy Game Warden—Interior, FWS-22.

SYSTEM LOCATION:

Regional offices of the Fish and Wildlife Service. (See Appendix for addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Applicants for U.S. Deputy Game Warden Commissions.

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains the name, address, date and place of birth, social security number, height, weight, color of hair and eyes of applicants for U.S. Deputy Game Warden Commissions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Fish and Wildlife Act of 1956 (16 U.S.C. 742a–742l; 70 Stat. 1119).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary uses of the records are to indentify holders of and applicants for U.S. Deputy Game Warden commissions. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; and, (5) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained in file folders.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Maintained in segregated area secured by a locking device in accordance with 43 CFR 2.51.

RETENTION AND DISPOSAL:

Destroyed after commission expires.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Personnel Management and Organization, U.S. Fish and Wildlife Service, Room 3455, Main Interior Building, 18th and C Streets, N.W., Washington, D.C. 20240.

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records shall be addressed to the System Manager, with respect to records located in the Washington office, and to regional directors, with respect to records located in the office for which each is responsible. A written signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access shall be addresed to the System Manager, with respect to records located in the Washington office, and to regional directors, with respect to records located in the office for which each is responsible. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment shall be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES;

Individuals on whom the file is being maintained.

INTERIOR/FWS-23

SYSTEM NAME:

Motor Vehicle Permit Log—Interior, FWS—23.

SYSTEM LOCATION:

(1) Division of Personnel Management and Organization, U.S. Fish and Wildlife Service, Washington, D.C. 20240. (2) Regional offices (See Appendix for Regional addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees who require Government Vehicle Operator Permit.

CATEGORIES OF RECORDS IN THE SYSTEM:

Log reflecting employee name, driver's license number, duty station location, date of issue of permit and date permit expires.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Federal Property and Administrative Service Act of 1949, (40 U.S.C. 471), as amended.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary use of the records is a ready reference of names of holders of motor vehicle permits and date when permit must be renewed. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; and, (5) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained as simple log in loose-leaf binder.

RETRIEVABILITY:

Maintained by date and in alphabetical order.

SAFEGUARDS:

Log maintained as information system for personnel staff with normal non-security confidential procedures meeting requirements of 43 CFR 2.51.

RETENTION AND DISPOSAL:

Maintenance of a log on a continuing basis consistent with need of the individual to have a current permit.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Personnel Management and Organization, U.S. Fish and Wildlife Service, Room 3455, Main Interior Building, 18th and C Streets, NW., Washington, D.C., 20240.

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records shall be addressed to the System Manager, with respect to records located in the Washington office, and to regional directors, with respect to records located in the office for which each is responsible. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access shall be addressed to the System Manager, with respect to records located in the Washington office, and to Regional directors, with respect to records located in the office for which each is responsible. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment shall be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Individual on whom record is maintained.

INTERIOR/FWS-24

SYSTEM NAME:

Payroll—Interior, FWS—24.

SYSTEM LOCATION:

Division of Financial and Management Systems, U.S. Fish and Wildlife Service, Main Interior Building, 18th and C Streets, NW., Washington, D.C. 20240.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All paid employees in the Service.

CATEGORIES OF RECORDS IN THE SYSTEM:

Pay, leave and cost distribution records, including deductions for bonds, insurance, income taxes, allotments to financial institutions, overtime authorizations, and shift schedules.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 5101, et seq., 31 U.S.C. 66a.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary uses of the records are (a) fiscal operations for payroll, leave, insurance, tax, retirement and cost

programs; (b) disclosure to the Department of the Treasury for preparation of (1) payroll checks and (2) payroll deduction and other checks to Federal, State and local government agencies, non-governmental organizations and individuals; (c) disclosure to the Internal Revenue Service and to State, Commonwealth, Territorial and local governments for tax purposes; (d) disclosure to the Civil Service Commission in connection with retirement, life insurance and health insurance accounts; (e) disclosure to another Federal agency to which an employee has transferred. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, contract, grant or other benefit; and (5) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained in folders and on computer media.

RETRIEVABILITY:

By employee social security number.

SAFEGUARDS:

Maintained with safeguards meeting the requirements of 43 CFR 2.51.

RETENTION AND DISPOSAL:

One year from date employee separates.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Financial and Management Systems, U.S. Fish and Wildlife Service, Room 3347, Main Interior Building, 18th and C Streets, NW., Washington, D.C. 20240.

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records should be addressed to the System Manager. A written, signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access may be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Individual on whom the record is maintained, and supervisors.

INTERIOR/FWS-25

SYSTEM NAME:

Contract and Procurement Records—Interior, FWS-25.

SYSTEM LOCATION:

(1) Division of Contracting and General Services, Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240. (2) Regional offices of Fish and Wildlife Service. (See Appendix for regional addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals submitting unsolicited proposals or replying to solicitations for bids. (The records contained in this system which pertain to individuals contain principally proprietary information concerning sole proprietorships. Some of the records in the system which pertain to individuals may reflect personal information, however. Only the records reflecting personal information are subject to the Privacy Act. The system also contains records concerning corporations and other business entities. These records are not subject to the Privacy Act.)

CATEGORIES OF RECORDS IN THE SYSTEM:

Contains information regarding the individual which would be required to evaluate contract proposals, i.e., name, age, education, experience, references, and possible other pertinent information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Federal Property and Administrative Act of 1949, as amended 40 U.S.C. 741-745; Fish and Wildlife Act of 1956, 16 U.S.C. 742a-7421; 70 Stat. 1119.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary use of the records is evaluation by contracting officers and technical representatives of operating (requesting) Division or Office placing name and address on bidders list for use in sending out future solicitations. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on paper form, in either the "Bidders Mailing List" file or a "Contract Folder".

RETRIEVABILITY:

By name and contract number.

SAFEGUARDS:

Records maintained in compliance with provisions of 43 CFR 2.51.

RETENTION AND DISPOSAL:

Bidders Mailing List—until individual requests withdrawal or solicitation returned unanswered. Destroyed immediately. Contract Files: Four years after closing of file.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Contracting and General Services, Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240, and regional directors (See Appendix for regional addresses).

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records should be addressed to the System Manager, with respect to records located in the Washington Office, and to regional directors, with respect to records located in the office for which each is responsible. A written, signed request stating that the requester seeks information concerning records

pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access may be addressed to the System Manager, with respect to records located in the Washington Office and to regional directors, with respect to records located in the office for which each is responsible. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment should be addressed to the System Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Individual submitting proposals for consideration.

INTERIOR/FWS-26

SYSTEM NAME:

Migratory Bird Population and Harvest Systems—Interior. FWS–26.

SYSTEM LOCATION:

(1) Office of Migratory Bird Management, U.S. Fish and Wildlife . Service, U.S. Department of the Interior, Patuxent Wildlife Research Center, Laurel, Maryland 20811. (2) Minor portions of the files comprising the system are found in the Washington Office, Regional Offices, and field offices of the U.S. Fish and Wildlife Service; offices of State conservation agencies, and other Federal and State agencies; universities; national, regional and local conservation organizations; and individuals who contribute to the collection of population and harvest information which is eventually transferred to the Office of Migratory Bird Management, Laurel, Maryland, for storage.

CATEGORIES OF INDIVIDUALS COVERED BY THE STYSTEM:

The system contains information on: (1) Persons applying for bird banding permits. (2) Persons issued bird banding permits. (3) Persons reporting upon banded birds encountered in the wild. (4) Persons participating in migratory bird population surveys. (5) Persons submitting harvest data for migratory game birds taken under hunting regulations. (6) Unidentified persons observed in the field hunting migratory game birds.

CATEGORIES OF RECORDS IN THE SYSTEM:

Application forms for bird banding permits, including name, address, and related information to evaluate the application, records and reports on the harvest of migratory birds, including types of birds, location, related data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Migratory Bird Treaty Act of July 3, 1918 (16 U.S.C. 703–711; 40 Stat. 755).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary uses of the records maintained in the system are (a) data are routinely used by biologists and/or law enforcement offices of the U.S. Fish and Wildlife Service, Canadian Wildlife Service, Mexican Department Fauna Silvestre, and State and Provincial Conservation Agencies to further understanding, protection, management and utilization of the North American migratory bird resource; (b) portions of the data files including name and address listings are used for research purposes and for guidance, planning and coordination of research on migratory birds; (c) reports of summarized and analyzed data originating from banding and surveys are analyzed and published by the U.S. Fish and Wildlife Service and other cooperating agencies: studies containing analyzed migratory bird population and harvest data also appear in the technical literature involving the records or the subject matter of the records. Disclosures outside the Department of the Interior may be made (1) to the U.S. Department of Justice when related to litigation or anticipated litigation; (2) of information that may aid investigations or indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license; (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual; (4) to a Federal agency which has requested information relevant or necessary to its hiring or retention of an employee, or issuance of a security clearance, license, contract, grant or other benefit; (5) to Federal, State or local agencies where necessary to obtain information relevant to the hiring or retention of an employee, or the issuance of a security clearance, contract, license, grant or other benefit; (6) to the Canadian Wildlife Service, Environmental Management Service, Department of the Environment, Ottawa, Ontario, Canada K1A OH3 and Mexican Direccion General Fauna Silvestre, Aquiles Serdan 28–70, Pisa, Mexico 3, DF, Mexico, as part of cooperative agreements; (7) routinely or upon request all or portions of the files, including name and address listings, are supplied to cooperators and researchers in other Federal, State, and local agencies; members of national, regional or local conservation organizations, university researchers and private individuals who establish a bona fide need for the information; (8) to contributors of band recovery information related to the bander and banding of the banded bird they reported, likewise, contributors of survey and harvest information are sometimes supplied with reports of populations and harvest surveys to which they had contributed. (Routine uses (1) and (2) apply only to those individuals in nos. (1) and (2) of the above paragraph 'Categories of individuals covered by the system,' and not to individuals who supply voluntary information to aid the Service in migratory bird management and research.)

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records comprising the various files of the system are maintained on paper forms and correspondence, punched and/or interpreted cards, magnetic computer tape, computer printouts or listings, magnetic disc packs, microfilm and microfiche cards. Summarized information is found in unpublished and published reports.

RETRIEVABILITY:

The files comprising the system are indexed in various way depending upon the nature and use of the record. Files may be arranged by type of survey, species of migratory birds, cooperators, time periods, geographical areas, and biological characteristics of the banded, observed, or harvested bird. Most of the files are oriented to the migratory bird resource and its utilization; the identity of the individual person is retained only for edit, banding authority compliance; response, and acknowledgment purposes. In the banding files the identity of the bander is permanently obtainable through interpretation of the permit number. Inasmuch as banding and other surveys of migratory birds and their harvest are based upon statistical sampling of a larger universe, the identity of individuals is usually deleted early in the analysis.

SAFEGUARDS:

Records comprising the system are stored within the fenced and locked premises of the Patuxent Wildlife Research Center, Laurel, Maryland. The records themselves are stored within a locked building and the master computer files are retained in a locked vault. Only authorized individuals have access to these records. Magnetic tape files containing records of banded birds are stored for computer processing at the Washington Computer Center of the Department of the Interior. Current versions of banding tape files are stored in a locked, fire and explosion proof vault. Backup versions are stored in a library that must be entered through two locked doors. All requests for data, beyond those routinely supplied to cooperators, are reviewed by the Assistant Chief, Office of Migratory Bird Management, Laurel, Maryland. Care is taken to insure that the requesting individual has a legitimate need for the information and that the information which is supplied is limited to his specific needs. Furthermore, care is taken to protect the proprietary rights of researchers to first use of data arising from their personal banding efforts; persons requesting data generated by other researchers are instructed to secure clearance for use of the data with the original bander. Policies regarding the release and use of bird banding data are developed in consultation with the Canadian Wildlife Service and other cooperators. Means for developing improved safeguards for the computer record files at Laurel, and policies regarding release of data from the files maintained there is presently under study.

RETENTION AND DISPOSAL:

Some records are maintained only for a few days until the data can be transferred to other media, such as computer tapes or microfilm, for permanent storage. Because of the great scientific value attached to some of the files, such as those comprising the North American Bird Banding Program, source documents of banding are retained indefinitely; this is done to facilitate the possible correction and edit of those records. In contrast, source documents for other files are periodically destroyed by recycling. Computer tabulations are retained for five years or until such time as they have been updated. A system to catalog computer files is being developed; this system will insure that obsolete files are destoryed while insuring the retention of those required for current or future use.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Washington, D.C. 20240.

NOTIFICATION PROCEDURE:

An individual desiring to know whether the system contains information relating to himself may address his inquiry to the System Manager. An individual seeking information about the system should provide his complete name and address, and if possible, indicate the nature of the data file (banding, population surveys, migratory game bird harvests, etc.) in which he is most interested.

RECORD ACCESS PROCEDURES:

Inquiries concerning access to and correction of records in the system may be directed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 42 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment shall be addressed to the System Manager and meet the requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

The files comprising the Migratory Bird Populations and Harvest System evolve from several diverse groups of people. These may be generally categorized as (1) persons applying for authority to band birds, (2) persons granted authority to band birds, (3) persons reporting encounters with banded birds, (4) persons supervising or participating in various population surveys of migratory birds, (5) persons purchasing migratory bird hunting stamps, and (6) persons who hunt migratory game birds or otherwise utilize the migratory game bird resource.

INTERIOR/FWS-28

SYSTEM NAME:

Avitrol Authorization Records—Interior, FWS-28.

SYSTEM LOCATION:

Wildlife Services Office, U.S. Fish and Wildlife Service, 11 North Pearl Street, P.O. Box 150, Albany, New York 12201.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Aerial applicators of Avitrol for treating corn to prevent blackbird damage in cornfields.

CATEGORIES OF RECORDS IS THE SYSTEM:

Contains name, address, home and business telephone number, type of aircraft, New York State applicator's registration number and signature of applicant affirming that he or she has read and understands the Environmental Protection Agency registration label. The applicant also agrees to submit to the State Supervisor, Division of Wildlife Services, prior to treatment, a list of the number and location of fields to be treated.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Act of March 2, 1931 (46 Stat. 1468, 7 U.S.C. 426–426b; Federal Insecticide, Fungicide and Rodenticide Act as amended (7 U.S.C. 135–135k); and Migratory Bird Treaty Act of 1918, as amended (16 U.S.C.) 703–711; 40 Stat. 755.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The primary use of the records is for documentation of the qualifications for aerial applicators of Avitrol-treated grain to prevent blackbird damages while minimizing the hazard to non-target species of birds. Disclosures outside the Department of the Interior may be made, (1) to the U.S. Department of Justice when related to litigation or anticipated litigation, (2) of information indicating a violation or potential violation of a statute, regulation, rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and (3) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Maintained on a letter size form.

RETRIEVABILITY:

Indexed by name.

SAFEGUARDS:

Records are maintained in a standard office filing cabinet and office is locked when personnel are not present.

RETENTION AND DISPOSAL:

Made in accordance with FPMR 101–11.4, dated August 1, 1974.

SYSTEM MANAGER(S) AND ADDRESS:

State Supervisor, U.S. Fish and Wildlife Service, 11 North Pearl Street, P.O. Box 150, Albany, New York 12201.

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records shall be addressed to the System Manager. A written, signed request stating that the requestor seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A request for access shall be addressed to the System Manager. The request must be in writing and be signed by the requester. The request must meet the content requirements of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment shall be addressed to the Systems Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Individual on whom the record is maintained.

INTERIOR/FWS-29

SYSTEM NAME:

Animal Damage Control Non-Federal Personnel Records—Interior, FWS—29.

SYSTEM LOCATION:

(1) Division of Wildlife Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240; (2) regional offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

State employees, cooperative employees paid by a cooperator, and private corporation employees (in Idaho). The number of individuals covered are: State-159, Cooperative-221, Corporation-6 (in Idaho).

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Supervisor's Record of Employees (Non-Federal)—Recruitment forms, medical forms, security records, life and health insurance forms, military service records, motor vehicle exam records, education and skills records, training records, disciplinary and suspension records, letters of commendation; (2) Payroll Records—Time and attendance records, State retirement records, social security records, workman's compensation insurance records, leave records, salary and expense cost records; (3) Travel Expense and Mileage Report; (4) Animal Damage Control Records—Hunter and trapper (district field assistant) records on animals taken, weekly itinerary and report of activity of trappers and hunters.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Act of March 2, 1931 (46 Stat. 1468; 7 U.S.C. 426–426b); Federal Insecticide, Fungicide and Rodenticide Act as amended 67 U.S.C. 135–135); and Migratory Bird Treaty Act of 1981, as amended (16 U.S.C. 703–711; 40 Stat. 755).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND TE PURPOSES OF SUCH USES:

The primary uses of the records are to (a) serve as a tool for the State supervisors in the financial and manpower management of Animal Damage Control programs (b) form the legal basis for the disbursement of funds and (c) forms basis for preparation of statistical reports. Disclosures outside the Department of the Interior may be made, (1) for administrative uses by cooperating Federal, State, county, and local governmental units, and cooperating private organizations and associations, (2) to the U.S. Department of Justice when related to litigation or anticipated litigation, (3) of information indicating a violation or potential violation of a statute, regulation rule, order or license, to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation or for enforcing or implementing the statute, rule, regulation, order or license, and (4) from the record of an individual in response to an inquiry from a Congressional office made at the request of that individual.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM.

STORAGE:

Maintained in folders in files.

RETRIEVABILITY:

By employee name.

SAFEGUARDS:

Records and forms are maintained in a standard office filing cabinet and office is locked when authorized personnel are not present.

RETENTION AND DISPOSAL:

Non-record administrative material disposed 30 days after employment terminates or in compliance with State regulations on disposal of payroll records subject to audit.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Division of Wildlife Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

NOTIFICATION PROCEDURE:

Inquiries regarding existence of records shall be addressed to the Chief, Division of Wildlife management, with respect to records located in the Washington Office, or to regional directors with respect to records located in the office for which each is responsible. A written signed request stating that the requester seeks information concerning records pertaining to him is required. See 43 CFR 2.60.

RECORD ACCESS PROCEDURES:

A written request for access signed by the requester shall be addressed to the appropriate State Supervisor. The request must meet the content requirement of 43 CFR 2.63.

CONTESTING RECORD PROCEDURES:

A petition for amendment shall be addressed to the Systems Manager and must meet the content requirements of 43 CFR 2.71.

RECORD SOURCE CATEGORIES:

Individual on whom record is maintained.

[FR Doc. 81-8871 Filed 3-23-81; 8:45 am]

BILLING CODE 4310-55-M

INTERSTATE COMMERCE COMMISSION

[Volume No. 44]

Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: March 19, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the Federal Register of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contracts carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alaspaugh, and Shaffer.

Agatha L. Mergenovich,
Secretary.

MC 1540 (Sub-17)X, filed March 2, 1981. Applicant: P & J FURNITURE DELIVERY, INC., R.D. 10, Box 466, York, PA 17404. Representative: Gerald K. Gimmel, Suite 145, 4 Professional Dr., Gaithersburg, MD 20760. Applicant seeks to remove restrictions from its lead certificate to (1) change the commodity descriptions (a) from furniture (new or uncrated, in some instances), pianos, etc., to "furniture and fixtures" and (b) from glass products to "clay, concrete, glass or stone products"; (2) allow two-way authority where one-way authority exists between specified points in PA, NJ, and MD, and, points in specified States mainly in the eastern portion of the U.S.; (3) delete the facilities limitation at York, PA on sheet 3; (4) remove the restriction "against the transportation of such commodities when moving as part of household goods movement"; and (5) replace authority to serve specified points with county-wide authority: York, Gettysburg, and Hanover with York and Adams County, PA; and Elizabeth and Hoboken with Union and Hudson Counties, NJ.

MC 9194 (Sub-4)X, filed March 6, 1981. Applicant: AAA TRANSFER, INC., 615 South 90th, Seattle, WA 98108. Representative: Michael D. Duppenthaler, 211 South Washington St., Seattle, WA 98104. Applicant seeks to remove restrictions from its Sub-3F certificate to (1) broaden its commodity description from general commodities (with the usual exceptions and automobiles) to "general commodities (except classes A and B explosives)"; (2) remove the "in containers or trailers" restriction; and (3) remove the "ex-water" restriction.

MC 10955 (Sub-15)X, filed March 3, 1981. Applicant: RENNER MOTOR LINES, INC., 622 West Waterloo Road, Akron, OH 44314. Representative: A. Charles Tell, Suite 1800, 100 East Broad St., Columbus, OH 43215. Applicant seeks to remove restrictions in its lead and Sub-2, 3, 6, 7, 10, 11, 12, 13, and 14 certificates to (1) broaden the commodity descriptions: in Sub-2, 3, and 6 to "petroleum products and equipment" from petroleum products, in containers, grease guns, fittings for oil pumps and grease equipment, in truckloads; in Sub-3 and 14 to "rubber products" from rubber soles and heals, and rubber tire flaps; in Sub-7 and 12 to "molds, machinery, and fabric" from molds, machinery and fabric used in the manufacture of rubber products; Sub-10 to "foodstuffs" from salt, in packages, and pepper, sugar or mineral mixtures in packages, not exceeding 10 percent of the weight of the shipment of salt, when included as an incidental part of a shipment sale; Sub-11 and 12 to "general commodities, except classes A and B explosives" from general commodities with the usual restrictions; Sub-13 to "polyurethane products" from molded polyurethane foam cushions, and (2) broaden the territorial descriptions by substituting county-wide authority in place of specified cities and plantsites, and change from one-way service to radial authority, as follows: lead certificate, between points in Summit County, OH, and points in WV, PA, MD, and DC, and between Summit County, OH (Barberton, OH), and points in WV and PA; Sub-2 between points in McKean County, PA (Bradford, PA), and points in Summit, Richland, Marion and Allen Counties, OH (Akron, Mansfield, Marion and Lima, OH); Sub-3 between points in Portage County, OH (Mogadore, OH), and points in PA, WV, MD, and DC, between KcKean County, PA (Bradford, PA and points within one mile of Bradford, and points in Franklin County, OH, and between Medina County, OH (Wadsworth, OH), and points in PA; Sub-6 between McKean County, PA (Bradford, PA and points within one mile of Bradford), and points in Wyandot County, OH; Sub-7 between Allegany County, MD (Cumberland, MD) and points in Summit County, OH (Akron, OH); Sub-10 between Summit County, OH (Akron, OH), and points in parts of NY and PA, and points in DE, MD, and DC; Sub-11 between Summit County, OH (Barberton, OH), and points in OH; Sub-12 between points in Belmont County, OH (Blaine, OH), and points in WV, PA, MD and DC, between Allegany County, MD (Cumberland, MD), and points in Belmont County, OH (Blaine, OH), between Delmont County, OH (Blaine, OH), and points in OH, except those in five OH counties); Sub-13 between Bucks County, PA (Doylestown, PA), and points in Wayne County, IN (Richmond, IN); and in Sub-14 between Taylor County, WV (plantsite near Grafton, WV), and points in MD, OH and PA.

MC 15770 (Sub-6)X, filed March 13, 1981. Applicant: CALORE FREIGHT SYSTEM, INC., Second Street, High Spire, PA 17034. Representative: Joseph M. Klements, Richardson and Tyler, 84 State Street, Boston, MA 02109. Applicant seeks to remove restrictions in its Sub-5 certificate (1) in order to broaden the commodity description from: *general commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and automobiles, trucks, and buses as described in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, 232, and 766) which at the time are moving on bills of lading of freight forwarders as defined in 49 U.S.C. sec. 10102(8), to "general commodities (except classes A and B explosives)", and (2) remove the freight forwarder bill of lading limitation, to authorize service non-radially between points in 13 eastern States and DC.

MC 22311 (Sub-31)X, filed March 9, 1981. Applicant: A. LINE, INC., P.O. Box 765, Hammond, IN 46325. Representative: Edward P. Bocko, P.O. Box 496, Mineral Ridge, OH 44440. Applicant seeks to remove restrictions in its Sub-12F, 14F, 16F, and 20F certificates to (1) broaden the commodity description from (a) iron, steel, zinc, lead, and products of iron, steel, zinc, and lead, construction materials supplies and equipment to "metal products and construction materials" in Sub-14F; roofing and building materials to "construction materials and building materials" in Sub-16F; precast concrete beams, roof decks, joints, crypts, and panels to "building materials and crypts" in Sub-20F; (2) remove the "except commodities in bulk" restriction in Sub-12F and 14F; (3) eliminate the facilities limitations in Sub-12F, 14F, 16F, and 20F; (4) change city-wide to county-wide authority from Blue Island to Cook County, IL in Sub-14; Joliet to Will County, IL in Sub-14F and 16F; Fort Wayne to Allen County, IN, Kokomo to Howard County, IN, and Centerville to Appanoose County, IA in Sub-14F; and Oshkosh to Winnebago County, WI and Bluffton to Allen County, OH in Sub-20F; (5) expand one-way authority to radial authority between (a) Chicago, IL and points in AR, IN, IA, KS, KY, MO, MI, MN, NE, OH, PA, WV, and WI in Sub-12F; (b) Cook and Will Counties, IL, Allen and Howard Counties, IN, Grand Rapids and Lansing, MI, Columbus and Toledo, OH, Appanoose County, IA and those points in the U.S. in and east of MN, IA, MO, AR, and LA in Sub-14F; (c) Will County, IL and points in MI and OH in Sub-16F; and (d) Winnebago County, WI and

points in IN, IL, IA, KY, MI, MO, MN, ND, OH, PA, SD, TN, and WV; Allen County, OH and points in IN, IL, KY, MI, PA, TN, and WV; and St. Louis, MO and points in IL, IA, LA, MS, TN, and KY in Sub-20F.

MC 31389 (Sub-326)X, filed March 5, 1981. Applicant: McLEAN TRUCKING COMPANY, 1920 West First Street, Winston-Salem, NC 27154. Representative: David F. Eshelman, P.O. Box 213, Winston-Salem, NC 27154. Applicant holds authority to perform regular- and irregular-route operations throughout the United States under its certificates MC 31389 and numerous Sub-Nos. thereunder; MC 71459 (Sub-65, 70, 71, 72, and 74) (acquired in MC-F-13974); MC 2998 and Sub-Nos. thereunder; MC 134308 (Sub-2, 3, 6, 8, 11, and 12) (acquired in MC-F-13761); MC 17006 (acquired in MC-F-71434); MC 22987 and Sub-Nos. thereunder (acquired in MC-F-12066); and under permit MC 3582 (acquired in MC-F-71434). It seeks to remove all exceptions (except classes A and B explosives) in its general commodities authority in its regular and irregular routes in MC 31389 lead certificate and Sub-28, 29, 30, 35, 38, 50, 65, 69, 70, 78, 81, 87, 90-93, 95, 96, 97, 99-101, 103, 105-113, 116, 117, 119, 120, 121, 124, 126, 127, 129, 130, 131, 133-137, 140-148, 150, 152, 154, 156, 160, 161, 164, 165, 167, 168, 170, 173, 175, 177, 179, 181-184, 187, 188, 190-195, 197, 199-204, 206-213, 215, 216, 220, 221, 223, 227-233, 237-241, 243, 244, 245, 246, 249-250, 251, 253, 254, 256-260, 263, 265-269, 271, 272, 273, 277-281, 283, 285, 286, 287, 289-294, 296-301, 303, 304, 305, 307, 317, 322, and 323; MC 2998 lead certificate and Sub-10, 16, 19, 20, 21, 22, 23, 24, and 25; MC 71459 certificate Sub-65, 70, 71, 72, and 74; MC 22987 lead certificate and Sub-4 and 6; MC 134308 certificate Sub-2, 3, 6, 8, 11, and 12; and MC 17006 lead certificate. Applicant also seeks to authorize service at all intermediate points along its authorized regular routes between named points in its lead certificate MC 31389 (eastern one half of U.S.) and Sub-28 (VA), 29 (SC), 30 (NC), 35 (DE), 48 (MD), 87 (KY), 92 (KY), 93 (RI), 95 (OH), 99 (IL), 100 (NC), 105 (NY), 112 (PA), 116 (TX), 120 (TN), 121 (LA), 124 (VA), 127 (NY), 142-146 (New England), 154 (NY), 170 (MN), 179 (TX), 183 (IL), 232 (Midwest), 233 (IL), 235 (KS), 243 (FL), 259 (KY), 263 (PA), 266 (AR), 269 (South), 285 (VA), 287 (GA), 290 (MI), 291 (IL), 293 (OK), 322 (MS), and 323 (AR); lead certificate MC 2998 (MI) and Sub-16 (IN), 22 (OH), and 25 (MI); MC 134308 Sub-2, 3, and 6 (OK); MC 71459 Sub-70 (AZ), 71 (AZ), 72 (West), and 74 (CO), and; lead certificate MC 22987 (CA). Applicant also seeks to broaden the territorial descriptions in its irregular route authorities from one-way authority to radial authority between numerous combinations of specialized origins and points throughout the United States in MC 31389 lead, route 300, p. 28, lines 58-66 and 71; Rt. 300, p. 29, lines 6-7 and 15-16; Rt. 347, p. 33, lines 66-69 and 73-74; Rt. 347, p. 34, lines 5-6 and 9-10; Rt. 419, p. 42, lines 18-19, 22-23, 30, 37, and 46-47; Sub-46; Sub-54; Sub-116, p. 85, lines 51-56, 59-64, and 67-68; Sub-116, p. 86, lines 7-8 and 11-14; Sub-232, p. 106, lines 53 and 64; Sub-232, p. 111, line 61. Sub-247; Sub-317, lines 5, 19-20, 23-24, 27-28, and 38-39; and Sub-323, sheet 5; and MC 2998, lead, sheet 4, and; Sub-15 and 26; and MC 17006, lead, sheet 3; and MC 22987 lead and Sub-2, and; permit MC 3582. Applicant also seeks to remove the restriction against return transportation for compensation on its regular routes in MC 31389 Sub-100, p. 71, lines 59-60, and MC 71459 Sub-72, Rts. 131 and 132, and also seeks to authorize two-way between operations over its regular routes by adding "and return over the same route" in MC 31389, Sub-232, p. 106, lines 54-55; Sub-232, p. 106, lines 36-39 and 42-43; and Sub-232, p. 111, lines 28-30. Applicant also seeks to remove numerous "originating at and/or destined to" restrictions involving named points in designated States in MC 31389 lead certificates, Rts. 166 (TN), 167 (TN), 210 (IL), Rt. 238, p. 23, lines 23-28 and 76-77 (MO/IL), 251 (OH), and Rt. 382, p. 36, lines 20-22 (IL); and Sub-79 (IL); 95 (OH); 103 (MO); 129 (AR); Sub-140, lines 67-68 (TX); 141 (Midwest); 154 (PA); 194 (KY); 208 (GA); 213 (KY); 216 (East); 232, section F (KS); 235 (Kansas City); 263 (East); 266, lines 52-66 (MO); 269 (South); 277 (NC facilities); 273 (St. Louis); 278 (FL); 284 (TX); 287, sheet 3 (IL); 322, sheet 4 (South); and 323, sheets 2, 4, and 7 (MS); MC 71459, Sub-72, Rts. 161A (Los Angeles); 161B (CA); 163 (AZ); 171 (AZ); 186 (NM); 198 (NV); 214 (AZ); Rts. 220-225 (CO); Rts. 234-236 (CO); 240 (CO); 244 (CO); 245 (CO); and Rt. 295 (MN); and MC 2998, lead certificate, sheet 4 (MI), and Sub-22 (OH).

Applicant also seek to remove restrictions limiting service against or to transportation (radially and non-radially) between named points in the involved States in MC 312389, lead certificate, Rte. 38, p. 24, lines 16 and 21 (ID); Rt. 379, lines 45-47 (NC); 701, lines 32-35 (WV); and Rt. 702, lines 60-61, part a (OH); and Sub-35, p. 67, lines 16-19 (NY); 81 (TN); 91 (PA); Sub-116, p. 80, part c (AR); 116, p. 81, lines 45-53 and 58-60 (LA); 116, p. 82, lines 12-13, 20-24, 31-36, 46-50, and 76-77 (TX); 116, p. 83, lines 56-66 (LA); 116, p. 84, lines 15-56 and 60-62 (TX); 118, p. 86, lines 16-19 (LA); Sub-140 (LA); 183 (WI); 186 (VA); 232, part (B) (KS); 243 (FL), and; 276 (GA); and MC 71459, Sub-72, routes 48 (WA); Rt. 231 (UT); Rt. 266, parts a and b (MO); Rt. 320 (TX); Rt. 325 (TX); and Rt. 348 (OK). It also seeks to remove restrictions limiting service to traffic moving to, from, or through named points throughout the U.S. in MC 31389, lead, Rt. 310, lines 29-31; Rt. 323, lines 34-35; Rt. 324, lines 45-48; Rt. 382, lines 16-22; and Part VI, (A), lines 29-30; and Sub-116, p. 74, lines 55-56, 65, and 72-73; Sub-116, p. 80, Part C; Sub-116, p. 81, Part D; Sub-116, p. 83, lines 8-10; Sub-116, p. 84, lines 43-45; Sub-119; 124; 136; and Sub-323, sheets 2, 4, 5, 8, and 9. Applicant also seeks to remove numerous restrictions limiting service to the transportation of traffic moving to or from specific points on the below-listed States in MC 31389, lead certificate. Routes 295-300, p. 28, lines 17-18 (MI); Rt. 363 (B) (Part IV), p. 36, lines 18-20 (OH); Rt. 382, lines 47-51 and 60-61 (OH); Rts. 420-662, Part V (a-y) p. 58-60 (East); Rt. 702, p. 63, lines 60-69 (KY); and Sub-116, p. 77, lines 38-41 (LA); Sub-161 (South/Southwest); Sub-170, lines 11-17 (IL); Sub-232 (Part B) p. 107, lines 73-75 (KS); and Sub-232, p. 111, line 34 (NE); and MC 71459, Sub-72, Rt. 16 (WA); Rt. 20 (WA); Rt. 28 (WA); Rt. 69 (CA); Rts. 131, 132, and 133 (U.S. territories); Rt. 136 (CA); Rts. 140-143 (CA); Rt. 161A (AZ); Rt. 161B (CA); Rt. 272 (KS); and Rg. 299 (WI). Applicant also seeks to remove various directional restrictions (e.g. westbound, northbound traffic) in certificate MC 31389, lead, Rt. 31, lines 61-62; Rt. 174, line 39-41; Rt. 190, lines 18-22; and Rt. 364, line 30-31; and MC 71459, Sub-72, Rts. 10, 160, and 256. Applicant also seeks to remove restrictions limiting service at named points "for purposes of joinder only" in MC 31389, lead certificate Rts. 696 and 697, lines 65-69 (Baltimore, MD/Wash., D.C.); Sub-100 (Franklin, VA); Sub-116, p. 75, lines 16-18 (Fairfield, TX); Sub-116, p. 83, lines 8-10 (Fairfield, TX); Sub-116, p. 84, lines 29-30 (Barney, GA); Sub-116, p. 84, lines 34-35 (Hahira, GA); Sub-116, p. 84, lines 39-40 (Madison, FL); Sub-129 (Little Rock, AR); Sub-170 (Davenport, IA); and Sub-287, Sheet 3 (IL); and MC 71459 Sub-72, Rt. 14 (Bellingham, WA); Rts. 201 and 202 (Kosmos, WA); Rt. 203 (Kelso, WA); Rt. 207 (Bakersfield, CA); Rt. 208 (Aquila, AZ); Rt. 2111 (Klamath Falls, OR); Rt. 212 (Reno, NV); Rt. 213 (Everett, WA); Rt. 214 (Tucson, AZ); Rts. 220-226 (western Hwy. points); Rt. 247 (Ogallala, NW); Rt. 218 (Hwys. 30 and 30A junction); Rt. 249 (Fort Morgan, CO); and Rts. 358-360 (Kingman, AZ). Applicant also seeks to broaden its

commodity descriptions (1) by removing restrictions against transporting commodities in bulk in certificate MC 31389, Sub-79; Sub-116, p. 65, lines 50, 58, and 66; Sub-116, p. 69, lines 6 and 10; Sub-232, p. 108, line 62; and Sub-232, p. 111, line 32; and MC 2908, lead certificate, sheet 4; and Sub-15 and 28; (2) by removing restrictions limiting service to transportation of traffic moving in containers or described vehicles in MC 31389, lead certificate, Rt. 300, p. 28, line 54–55 (sealed containers); Rt. 300, p. 28, line 68–69 (in same truck as pipe); Sub-100, p. 71, line 56 (in hogsheads, etc.); and Sub-232, p. 108, line 63 (in bags, except tank vehicles); (3) by removing restrictions against the transportation of specified commodities, in MC 31389, lead certificate, Rt. 702, p. 63, lines 67–69 (dressed poultry, boxes); Sub-100 (seafood); Sub-116, p. 65, lines 45–46 (liquified petroleum gas); Sub-317, p. 123, lines 17–18 and 26–27 (size and weight commodities); and Sub-232, p. 109, lines 37–38 and p. 110, lines 9–10 (livestock); and in MC 71459 Sub-72, Rt. 136 (size and weight commodities); Rt. 218 (assembled autos); and Rt. 256 (petroleum, livestock, etc.); (4) by broadening the commodity description in MC 31389 lead certificate Rt. 300, p. 29, lines 4–5, to "iron and steel products and materials, equipment, and supplies used in the manufacture and distribution of iron and steel products" from its authority to transport iron and steel articles as described in Appendix V (Groups 2 and 3) in the *Descriptions* case; and (5) by broadening the commodity description in MC 31389, lead, Rt. 300, p. 29, lines 11–12, to "road construction machinery and equipment and materials, supplies and equipment used in the manufacture and distribution of road construction equipment" from road construction equipment as described in Appendix VIII of the *Descriptions* case. Applicant also seeks to remove tacking, interchange, and interline restrictions in MC 31389, (Sub-232), p. 106, lines 21–22; and Sub-232, p. 111, lines 61–67; Sub-273; and Sub-323, sheets 2 and 4; and MC 2908, Sub-22; and MC 71459, Sub-72, Rts. 21, 240, and 262. Applicants seeks to remove restrictions limiting service at named points to pickup or delivery only in MC 31389, lead, Rt. 238, p. 23, lines 48–49; and Sub-232, p. 106, lines 34–36 and 44–46; and MC 71459, Sub-72, Routes 51, 60, 67, 68, 70, and 256; and to remove restrictions against service at named intermediate points in MC 31389, lead certificate, Rt. 238, p. 24, line 32 (Brandenburg, KY); Sub-116, p. 77, lines 38–41 (Corsicana, TX); and Sub-323, sheet 8 (Memphis, TN). Applicant also seeks to remove the following restrictions (1) facilities restrictions in MC 31389, lead certificate, Rt. 350 (Swift and Company); and Rts. 696–697 (E.I. du Pont de Nemours & Co.); (2) seasonal restrictions in MC 71459 (Sub-72), Routes 67–68; (3) restriction against service wholly within Colorado in MC 71459, (Sub-72, Route 181; (4) restrictions limiting service to or against transportation of traffic having a prior or subsequent movement by water, air, or freight forwarder in MC 31389, lead certificate, route 300, p. 29, lines 8–9; and MC 22967, lead certificate and Sub-6; (5) restriction against service at stations on the Boston rail line in MC 31389 (Sub-142–146); (6) to remove the exclusions to the exceptions appearing in the "note" in MC 31389, lead certificate, Route 682, Part V, page 61, lines 7–18 prohibiting transportation of certain traffic; (7) to broaden its territorial authority to county-wide authority in MC 31389, lead certificate, Rt. 419, p. 42, line 56 (Nash County, NC for Rocky Mount, NC); and (8) to broaden its territorial description to "between points in the United States under continuing contract(s) with a named shipper" in permit MC 3582.

Note.—Appliant's ability to tack its authorities will be governed by rules set forth at 49 CFR § 1042.

MC 48054 (Sub-83)X, filed March 13, 1981. Applicant: BROWN EXPRESS, INC., P.O. Box 9244, San Antonio, TX 78204. Representative: Jack Dawson (same as applicant). Applicant seeks to remove restrictions in its Sub-79F certificate to (a) broaden the commodity description from general commodities (with usual exceptions) to "general commodities (except classes A and B explosives)", (b) remove restrictions against service at intermediate points (1) between Dallas, TX, and Oklahoma City, OK; (2) between Dallas, TX, and Indianapolis, IN; (3) between Louisville, KY, and Detroit, MI, in Route (4) between Houston, TX, and junction Interstate Hwy 30 and U.S. Hwy 59, and in Route and (5) between Memphis, TN, and St. Louis, MO, and, (c) remove restrictions that limit service for the purposes of joinder only at the junction Interstate Hwy 30 and U.S. Hwy 59 in (2) and (3); and at Memphis, TN in (5).

MC 57607 (Sub-24)X, filed March 9, 1981. Applicant: LESTER SMITH TRUCKING, INC., 2645 East 51st Avenue, Denver, CO 80216. Representative: David J. Lister, P.O. Box 17039, Portland, OR 97217. Applicant seeks to remove restrictions in its Sub-13 certificate to (1) broaden the commodity description from irrigation and sprinkling systems, and parts and accessories to "machinery and metal products"; (2) authorize radial service in place of existing one-way authority and replace Denver, CO with counties in Colorado which are included within the Denver commercial zone: Between Jefferson, Boulder, Adams, Arapahoe, and Douglas Counties, CO, and points in AR, ID, IL, IN, IA, KS, MN, MO, MT, NE, ND, OK, SD, WI, WY, and points in TX in and north of Palmer, Castro, Swisher, Briscoe, Hall, and Childress Counties, TX.

MC 59583 (Sub-183)X, filed February 26, 1981. Applicant: THE MASON AND DIXON LINES, INC., P.O. Box 969, Kingsport, TX 37662. Representative: Kim D. Mann, 7101 Wisconsin Avenue, Suite 1010, Washington, DC 20014. Applicant seeks to remove restrictions in its Sub-107, 111, 184, 139, 171F and 179 certificates to (1) broaden its commodity description (a) from general commodities (with usual exceptions, those injurious or contaminating to other lading, and livestock) to "general commodities (except classes A and B explosives)," in all certificates, (b) from coffee, tea and meats to "food and related products" in Sub-179, (c) from petroleum products to "petroleum, natural gas and their products", in Sub-134; (2) remove territorial restrictions which limit service to some intermediate points or no intermediate point service, to authorize service at all intermediate points on its described regular routes in the midwest and east; (3) expand the off-route plantsite authority to Scottsboro, AL in Sub-111 and remove the facilities limitation at Seaford, DE and points within 5 miles thereof in Sub-107; (4) eliminate the restriction limiting or prohibiting service at specified points to the transportation of shipments moving from, to and between specified points in Sub-107, 134 and 171F; (5) remove the restriction against the transportation of shipments originating at or destined to points in MI in Sub-171F; (6) eliminate restriction which limits traffic to Baltimore, MD, and Washington, DC, for purpose of joinder only in Sub-107; (7) remove a restriction specifying the commodities of which may be transported from and to Bayonne, Bayway, and North Bergen, NJ, in Sub-134; (8) broaden existing city-wide authority with county-wide authority in the irregular route portion of Sub-179: Washington, Kent, Providence and Newport Counties, RI, for Westerly, North Kingston, South Kingston, West Warwick, Johnston and Newport, RI; New London County, CT, for Stonington, CT; and Middlesex County, MA, for Cambridge, MA; and (9) authorize radial service in lieu of existing one-way

service between various combinations of the following: Points in Washington and Kent Counties, RI, New London County, CT, Boston and Cambridge, MA, and points and counties in RI, CT, MA and NY, under the irregular route authority in Sub-179.

MC 67406 (Sub-6)X, filed March 9, 1981. Applicant: STOKDYK TRUCK LINES, INC., P.O. Box 82, Port Washington, WI 53074. Representative: Richard C. Alexander, 710 North Plankinton Avenue, Milwaukee, WI 53203. Applicant seeks to remove restrictions from its lead and Sub-1 certificates to (1) broaden the commodity description from general commodities, with exceptions to "general commodities (except classes A and B explosives)" in each certificate; and (2) authorize service to all intermediate points between: Oostburg and Milwaukee, WI in the lead; and junction US Hwy 141 and Wisconsin Hwy 57; and junction Wisconsin Hwy 144 and US Hwy 141 in Sub-1.

No. 65530 (Sub-11)X, filed March 2, 1981. Applicant: BLALOCK TRUCK LINE, INC., P.O. Box 734, Charleston, SC 29402. Representative: Wilmer B. Hill, 805 McLachlen Bank Building, 666 Eleventh Street NW., Washington, D.C. 20001. Applicant seeks to remove restrictions in its (Sub-3, 4, and 7F) certificates and (Sub-5F, 6F, and 8F) acquired in MC–F–13654F and MC–F–14298F, certificates not yet issued, to (1) broaden the commodity description from (a) general commodities, with exceptions, to "general commodities (except classes A and B explosives)" in (Sub-3, 5F, 7F, and 9F); (b) paper and film to "pulp, paper and related products and rubber and plastic products" in (Sub-4); (c) fertilizer to "chemicals and related products" in (Sub-6F); (d) agricultural products and cotton seed meal to "farm products and food and related products" in (Sub6F and 8F); (e) bottles to "such commodities as are dealt in or used by manufacturers or distributors of bottles" in (Sub-6F and 8F); (f) wooden telephone, telegraph, and electric power poles to "lumber and wood products" in (Sub-6F and 8F); and (g) cotton and cotton yarn to "textile mill products" in (Sub-6F and 8F); (2) change city-wide to county-wide authority from Charleston to Charleston County, SC, in (Sub-4 and 7F); Laurens to Laurens County, SC, in (Sub-6); Charlotte to Mecklenburg Counties, NC, in (Sub-6F and 8F); Jacksonville to Duval County, FL, in (Sub-7); Savannah to Chatham County, GA, in (Sub-7F and 9F); and Wilmington to New Hanover County, NC, in (Sub-7F); (3) expand one-way authority to radial autority between (a) Transylvania and Henderson Counties, NC, and Charleston, SC, in (Sub-4); (b) Barnwell and Bamberg Counties, SC, and Gastonia, NC, and points within 15 miles of Gastonia; Laurens County, SC, and Mechlenberg County, NC; and Spartanburg County, SC, and points in Gaston, Cleveland, Mecklenburg, Rowan, Lincoln, and Catawba Counties, NC, in (Sub-6F); (c) Charleston County, SC, and Gastonia, NC, and points within 15 miles of Gastonia; Charleston County, SC, and Mecklenburg County, NC; Charleston County, SC, and points in Gaston, Cleveland, Mecklenburg, Rowan, Lincoln, and Catawba Counties, NC, in (Sub-6F); and (4) remove the ex-water restriction from (Sub-4 and 7F).

MC 111231 (Sub-348)X, filed March 6, 1981. Applicant: JONES TRUCK LINES, INC., 610 East Emma Avenue, Springdale, AR 72764. Representative: James H. Berry (same as applicant). Applicant seeks to remove restrictions in its (Sub-247, 248F, and 249F) certificates to (1) broaden its commodity descriptions (a) in the regular route portion of each of the above sub-numbers, and the irregular route portion, in (Sub-247), part (1), from general commodities (with exceptions) to "general commodities, except classes A and B explosives", and (b) in (Sub-247), irregular route portion, from malt beverages, canned goods, and dairy products, dressed poultry and eggs, to "food and related products"; (2) authorize service at all intermediate points where service is limited to specified intermediate points or no intermediate point service in its regular route authority (a) in (Sub-247), between Chicago, IL, and Lincoln, NE, (b) in (Sub-248F), between Oklahoma City, OK, and Texarkana, AR, and (c) in (Sub-249F), between St. Louis, MO, and Denver, CO; (3) change its one-way authority to radial authority in the irregular portion of (Sub-247), between Mankato and St. Paul, MN, and points in 3 cities in NE, between Lincoln, Beatrice and Grand Island, NE, and points in the specified regular-routes, between IL, MN, and IA, and 6 cities in NE, and between points in IL and 2 cities in IA, between Fremont, Grand Island, Hastings, Wahoo, and Lincoln, NE, and 5 cities in IL, between Geneva, Hartington, Wakefield, Fairmont, and Tecumseh, NE, and Chicago, IL; between Hastings, Grand Island, Fremont, Lincoln, Beatrice, and Omaha, NE, and 2 cities in IL, and between 8 cities in IL, and 2 cities in IA, and Omaha and Lincoln, NE; and (4) eliminate the joinder only restriction in (Sub-248F).

MC 111231 (Sub-350)X, filed March 9, 1981. Applicant: JONES TRUCK LINES, INC., 610-East Emma Avenue, Springdale, AR 72764. Representative: James H. Berry (same as above). Applicant seeks to remove restrictions in its (Sub-1, 3, 9, 23, 32, 42, 43, 186, 199, 212 and 293F) certificates to broaden the commodity description from general commodities (with exceptions) to "general commodities (except classes A and B explosives)".

MC 117344 (Sub-286)X, filed February 3, 1981, previously noticed in the Federal Register of February 20, 1981, republished as corrected this issue. Applicant: THE MAXWELL CO., 10300 Evendale Drive, Cincinnati, OH 45241. Representative: James R. Stiverson, 1396 West Fifth Avenue, Columbus, OH 43212. Applicant seeks to remove restrictions in its (Sub-26, 60, 61, 65, 67, 82, 85, 90, 141, 178, 189, 199, 207 and 211) certificates to (1) broaden the commodity description from paints, varnishes, fertilizer, dry chemicals, lacquers, and various other items in bulk, to "commodities in bulk" in all referenced Sub-Nos., (2) authorize radial service in lieu of existing one-way authority in all referenced Sub-Nos. which authorize service from Cincinnati, OH, to points in numerous named States, and (3) eliminate the "in tank vehicle" restriction in (Sub-26, 60, 61, 65, 67, 82, 85, 178, 207 and 211); (4) expand the territorial description in all referenced sub-numbers from Cincinnati, OH to authorize county-wide service at Dearborn County, IN; Boone, Campbell and Kenton Counties, KY, and Butler, Clermont, Hamilton and Warren Counties, OH. The purpose of this republication is to add Part (4), allowing for the territorial expansion of Cincinnati; OH and its commercial zone to county-wide authority.

MC 119702 (Sub-84)X, filed March 4, 1981. Applicant: STAHLY CARTAGE CO., P.O. Box 486, Edwardsville, IL 62025. Representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 Eleventh Street, N.W., Washington, DC 20001. Applicant seeks to remove restrictions in its (Sub-5, -18, -24, -46, -47, -49, and -52) certificates to (1) broaden the commodity descriptions to "commodities in bulk" from anhydrous ammonia, in bulk, in tank vehicles and liquid fertilizer solutions, in bulk, in tank vehicles in (Sub-5), from anhydrous ammonia, in bulk in (Sub-18), from anhydrous ammonia and liquid fertilizer materials, in bulk, in tank vehicles in (Sub-24), from liquid fertilizer solutions, in bulk, in tank vehicles in (Sub-46), from liquid calcium chloride, in bulk, in

tank vehicles, in (Subs-47 and -52), and from liquid and dry fertilizer, in bulk in (Sub-49); (2) replace authority to serve named plantsites or cities with county or commercial zone authority and change one-way authority to radial authority, as follows: between Tazewell County, IL (Pekin, IL), and points in MO, IA, WI, IN, MI, and KY (deleting the restriction against the transportation of anhydrous ammonia, from the plantsite of a named shipper to points in MO, IA, WI, and IN in (Sub-5); between Peoria County, IL (Peoria, IL), and points in IN, MI, MN, MO, OH, SD, and WI and between Des Moines County, IA (Burlington, IA), and points in IL, IN, MI, MN, MO, NE, SD, and WI in (Sub-18); between Morgan County, IL (Meredosia, IL) and points in AR, IL, IN, IA, KS, KY, MI, MN, MO, NE, OH, OK, TN, and WI in (Sub-24); between Peoria County, IL (Peoria, IL) and points in IN (except those on and north of U.S. Highway 40), IA, KY, MI, and OH in (Sub-46); between points in St. Louis, MO, and Morgan County, IL (Meredosia, IL) and points in IL, IA, and MO in (Sub-47); between Whiteside County, IL (Fulton, IL) and points in IA, WI, MN, and IL, and MO (except the St. Louis commercial zone) and between Tazewell County, IL (Pekin, IL) and points in IA, WI, MN, and IL, and MO (except those in the St. Louis commercial zone), in (Sub-49); and between Morgan County, IL (Meredosia, IL) and points in AR, IN, KS, KY, MI, MN, NE, OK, TN, TX, and WI, in (Sub-52); (3) delete the originating at and destined to restrictions in (Sub-24 and 49); and (4) delete the restriction against interlining in (Sub-18).

MC 120737 (Sub-81)X, filed March 12, 1981. Applicant: STAR DELIVERY & TRANSFER, INC., P.O. Box 30, Canton, IL 61520. Representative: James C. Hardman, 33 N. LaSalle St., Chicago, IL 60602. Applicant seeks to remove restrictions from its (Sub-66F and 70F) certificates to (1) change the commodity description from pre-cut log buildings or homes to "lumber and wood products"; (2) delete the named facilities limitations; (3) expand Plymouth, WI, to Sheboygan County, WI, in (Sub-66F); (4) authorize radial authority between specified WI and NC Counties, and, points in the U.S. or described portions thereof and (5) remove the AK and HI exception.

MC 123615 (Sub-9)X, filed March 9, 1981. Applicant: TRANSPET, INC., 700 South Fourth Street, Harrison, NJ 07029. Representative: Edward L. Nehez, 167 Fairfield Road, P.O. Box 1409, Fairfield, NJ 07006. Applicant seeks to remove restrictions in its (Sub-8) permit to (1) broaden its commodity descriptions from floor and floor covering conditioning machines, and materials, supplies, and equipment used in the manufacture and operations of the commodities (except commodities in bulk), to "miscellaneous products of manufacturing, machinery and materials, equipment and supplies used in the manufacture and operations of machinery; and (2) broaden its territorial authority to between points in the U.S. under continuing contract(s) with a named shipper.

MC 124306 (Sub-86)X, filed March 2, 1981. Applicant: KENAN TRANSPORT COMPANY, INCORPORATED, P.O. Box 2729, Chapel Hill, NC 27514. Representative: Francis W. McInerny, 1000 16th Street, N.W. Suite 502, Washington, D.C. 20036. Applicant seeks to remove restrictions in its (Sub-7, 13, 20, 26, 29, 30, 35, 38, 43F, 46F, 49F, 53F, 56, 57, 58F, 62F, 68F, 79F, 80F and 84F) to (A) to broaden the commodity description (1) in (Sub-7) (sheet 1) from petroleum and petroleum products to "petroleum, natural gas and their products" and on sheet 2 from nitrogen fertilizer solutions to "chemicals and related products", (2) in (Sub-13 and 28) from liquefied petroleum gas to "petroleum, natural gas and their products", (3) in (Sub-20) (sheet 2, first item) from dry sodium carbonate, dry sodium chromate, dry sodium bichromate, and dry sodium sulphate to "chemicals and related products," and on sheet 4 (first item) from fertilizer and fertilizer materials to "chemicals and related products", (4) in (Sub-29) from vegetable oils and vegetable oil products (except chemicals) to "food and related products", (5) in (Sub-30, 38, and 80F) from synthetic plastic granules to "chemicals and related products", (6) in (Sub-35) from fertilizer, fertilizer materials, and soda ash to "chemicals and related products", (7) in (Sub-43F and 58F) from dry plastic (other than expanded) and dry polyester resin, respectively to "chemicals and related products", (8) in (Sub-46F and 62F) from chemicals to "chemicals and related products", (9) in (Sub-49F and 56) from terephthalic acid and terephthalic acid and liquid chemicals, respectively to "chemicals and related products", (10) in (Sub-53F and 57) from dimethyl terephthalate to "chemicals and related products", (11) in (Sub-68F and 84F) from petroleum products to "petroleum, natural gas, and their products", and (12) in (Sub-49F) from antifreeze and cleaning compounds to "chemicals and related products", (B) remove in "in bulk, in tank vehicles" restriction in (Sub-7, sheet 1 and sheet 2 (last item), 26, 30, 38, 53F, 58F, 62F, 79F, 80F and 84F), (C) remove the "in bulk" restrictions in (Sub-20 (sheet 2, first item), 29, 49F, 56, and 68F), (D) remove the "in bulk, in tank or hopper vehicles, or dump trucks" restrictions in (Sub-35, 43F, and 46F); (E) remove in (Sub-20) (sheet 4, first item) a restriction reading "restricted against the transportation of liquid fertilizer and liquid fertilizer materials to points in Kanawha and Pleasants Counties, WV"; (F) remove the prior rail removement restrictions in (Sub-20), sheet 3 (last item) and on sheet 5 (fourth item); (G) remove all the commodity restrictions except classes A and B explosives in its general commodities authority in (Sub-20), sheet 5 (fourth item); (H) remove the restriction against service to Alaska and Hawaii in (Sub-79F (part 1) and 80F), (I) change one-way authority to authorize radial authority and in some instances substitute specific counties for named plantsities or cities: (Sub-7) (sheet 1) between Norfolk, VA and points in NC; (sheet 2) between Chesapeake, VA and points in Delaware and 14 named counties in MD; (Sub-13), between Chesapeake, VA and points in GA, AL, KY, TN, WV, NJ, and PA; (Sub-2), (sheet 2, first item) between New Hanover County (Diamond Shamrock Chemical Company at or near Castle Hayne, NC) and points in AL, CT, DE, FL, IN, KY, MD, MA, MS, NH, NJ, NY, OH, PA, RI, TN (with certain exceptions), WV, WI, and DC; (sheet 3, last item) between Wilmington, NC and points in New Hanover County, NC and points in NC and SC; (sheet 4, first item) between Hertford County, NC, and points in DE, GA, MD, NJ, PA, SC, VA, and WV; (Sub-28), between Wake County, NC (Dixie Pipeline Company, near Apex, NC) and points in VA (except Portsmouth and points in its commercial zone); (Sub-29), between Charlotte, NC, and points in AL, AR, CT, DE, FL, GA, IL, IN, KY, LA, ME, MD, MA, MI, MS, MN, MO, NH, NJ, NY, OH, OK, PA, RI, SC, TN, TX, VA, WV, WI, and DC; (Sub-30), between Rowan County, NC (Fiber Industries, Inc., at or near Fiberton, NC) and those ports of entry on the International Boundary Line between the United States and Canada which are located in New York; (Sub-35), between Richmond County, GA and points in SC, NC, VA, WV, KY, and TN; (Sub-38), between Cleveland County, NC and Darlington County, SC (Fiber Industries, Inc., at or near Earl, NC, and Darlington County, SC) and those ports of entry on the United States–Canada Boundary Line which are located in New York; (Sub-43F), between Spartanburg County, SC, and points in DE, PA, NY, NJ, CT, RI, MA, GA; (Sub-46F) (part 2) between GA,

NC, and SC, and points in AL, FL, MD, TN, WV, and DC; (Sub-49F), between Berkeley County, SC, and points in the U.S. in and east of TX, OK, KS, NE, SD, and ND (except SC); (Sub-53), between Davidson County, TN (E.I. du Pont de Nemours & Co., at Old Hickory, TN) and points in NC and SC; (Sub-56), between Morgan County, AL (Decatur, AL) and points in the U.S. in and east of TX, OK, KS, NE, SD, and ND (except AL); (Sub-57), between Davidson County, TN (E. I. du Pont de Nemours & Co., Inc., at Old Hickory, TN) and points in IN and OH; (Sub-58F), between Cumberland County, NC (Rohm and Haas Company at or near Fayetteville, NC) and points in OH, PA, DE, NH, TN, GA, FL, TX, and SC; (Sub-62F), between Kershaw and Orangeburg Counties, SC (Elgin and Orangeburg, SC) and points in AL, AR, CT, DE, FL, GA, IL, IN, IA, KS, KY, LA, ME, MD, MA, MI, MN, MS, MO, NE, NH, NJ, NY, MC, OH, OK, PA, RI, SC TN, TX, VT, VA, NV, and WI; (Sub-68F), between Guilford and Johnston Counties, NC (Friendship and Selma, NC) and points in VA; (Sub-79F) (part 2) between Boyd County, KY (Ashland and Catlettsburg, KY) and points in VA; (Sub-80F), between Darlington County, SC (Darlington, SC) and points in the U.S.; and (Sub-84F), between Richmond, VA and points in NC; and (J) allow for service at ports of entry on the United States-Canada Boundary Line (from those ports of entry on or near the Niagara and St. Lawrence Rivers) which are located in New York, in (Sub-30 and 38).

MC 129226 (Sub-10)X, filed March 12, 1981. Applicant: TO-JON TRUCKING, INC., 460 Brown Court, Oceanside, NY 11572. Representative: Morton E. Kiel, Suite 1832, Two World Trade Center, New York, NY 10048. Applicant seeks to remove restrictions in its (Sub-1, 2, 3, 4, 5, 6F, 7F, 8F, and 9F) permits to (1) broaden the commodity description from stationery to "pulp, paper and related products," in (Sub-1) and from stationery, and filing materials, supplies, and equipment (except commodities in bulk) to "pulp, paper and related products, metal products, rubber and plastic products, lumber and wood products, machinery, and furniture and fixtures" in (Sub-2), (2) remove "except in bulk" restriction in (Sub-2, 5, 6F, and 8F), (3) remove plantsite limitation in (Sub-1), (40 broaden the territorial description to "between points in the U.S." under continuing contract(s) with named shippers in all Subs.

MC 133490 (Sub-16)X, filed March 10, 1981. Applicant: LEES TRUCKING, INC., Route 2, Box 463, North Branch, MN 55056. Representative: Samuel Rubenstein, Post Office Box 5, Minneapolis, MN 55440. Applicant seeks to remove restrictions from its (Sub-1, 3, 6, 8, 12F and 13F) permits to (1) broaden the commodity descriptions (a) from glassware, earthenware and glass, metal and plastic containers to "clay, concrete, glass and stone products, metal products, and rubber and plastic products" in (Sub-12F); (b) from glassware to "clay, concrete, glass and stone products" in (Sub-3); and (c) from pre-cut houses, knocked down, to "lumber and wood products" in (Sub-1, 6, 8, and 13F); and (2) broaden the territorial descriptions in each of its above permits to "between points in the U.S. under continuing contract(s) with named shippers."

MC 133591 (Sub-142)X, filed March 13, 1981. Applicant: WAYNE DANIEL TRUCK, INC., P.O. Box 303, Mount Vernon, MO 65712. Representative: Harry Ross, Jr., 58 South Main St., Winchester, KY 40391. Applicant seeks to remove restrictions from its (Sub-101) certificate to (1) broaden the commodity description from prepared foodstuffs (except in bulk) to "foods and related products"; (2) replace county-wide authority for city-wide authority: Grayson County, TX for Denison; and (3) to change its one-way authority to radial authority between points in Grayson County, TX, and points in WA, OR, CA, NV, ID, MT, UT, AZ, CO, NM, SD, NE, KS, OK, LA, TX, AR and MO.

MC 134637 (Sub-5)X, filed March 9, 1981. Applicant: SILICA TRANSPORT, INC., P.O. Box 232, West Market Street, Guion, AR 72540. Representative: Jack A. Knight (same as applicant). Applicant seeks to remove restrictions in its (Sub-1) permit and (Sub-2F) certificate to (1) broaden the commodity description (a) from silica sand, silica flour, and resin-coated sand to "commodities in bulk and in bags" in (Sub-1) permit and (b) from dry fertilizer; granulated boiler slag, in bulk, in tank vehicles; river sand; fly ash; ferric sulfate, in bulk, in tank vehicles; fly ash, in bulk and poultry meal, in bulk to "commodities in bulk and in bags," in (Sub-2F) certificate, (2) broaden the territorial description to between points in the U.S., under continuing contract(s) with a named shipper in (Sub-1) permit, (3) remove the facilities limitations in (Sub-2F) certificate, (4) replace city-wide authority with county-wide authority: Memphis, TN with Shelby County, TN and Copperhill, TN with Polk County, TN, in (Sub-2F) certificate and (5) replace one-way authority with racial authority between points in AR, Henry County, MO, Polk and Shelby Counties, TN and points in 16 States, in (Sub-2F) certificate.

MC 134817 (Sub-4)X, filed March 12, 1981. Applicant: OWENTON EXPRESS, INC., P.O. Box 328, Carrollton, KY 41008. Representative: Fred F. Bradley, P.O. Box 773, Frankfort, KY 40602. Applicant seeks to remove restrictions from its lead and (Sub-1, 2 and 3F) certificates to (1) remove all exceptions to its general commodity authority, except classes A and B explosives in each certificate; (2) authorize service at all intermediate points between Owenton and Louisville, KY; and (3) delete the "originating at and destined to" restrictions in the lead and (Sub-3F).

MC 135812 (Sub-2)X, filed March 5, 1981. Applicant: PROFESSIONAL DRIVER SERVICES, 1631 Lebanon Road, Nashville, TN 37210. Representative: John M. Nader, 1600 Citizens Plaza, Louisville, KY 40202. Applicant seeks to remove restrictions in its (Sub-1F) certificate to (1) broaden the commodity description from new trucks and new truck chassis to "transportation equipment" and remove the restrictions "in initial movements, in driveaway service, and in secondary movements"; and (2) eliminate the facilities limitation at Toronto, Ontario, CN, and expand the one-way authority to radial authority between (a) Hayward, CA, Allentown, PA, and points in AL, FL, GA, IN, KY, LA, ME, MA, MO, NH, NY, NC, OH, PA, SC, TN, TX, and VA; (b) Chino, CA, Seattle, WA, Indianapolis, IN, Portland, OR and Nashville and Knoxville, TN; (c) Nashville and Knoxville, TN, and those points in the U.S. in and east of WI, IL, MO, AR, and LA; and (d) Buffalo, NY, and points in AL, FL, GA, IN, KY, LA, ME, MA, MO, NH, NY, NC, OH, PA, SC, TN, TX, and VA.

MC 136087 (Sub-8)X, filed March 8, 1981. Applicant: J.C. TRUCKING, INC., 5085 Harlan St., Denver, CO 80212. Representative: Leslie R. Kehl, 1660 Lincoln St., Suite 1600, Denver, CO 80264. Applicant seeks to remove restrictions in its (Sub-6) permit to (1) broaden its commodity description from construction equipment, to "machinery"; (2) broaden its territorial authority to between points in the U.S. under continuing contract(s) with a named shipper; (3) remove the restriction against transportation of traffic between points in a single State.

MC 136989 (Sub-22)X, filed March 9, 1981. Applicant: R.F. BOX, INC., 1110 South Reservoir Street, Pomona, CA 91766. Representative: Paul M. Daniell, P.O. Box 872, Atlanta, GA 30301. Applicant seeks to remove restrictions

in its (Subs-8, 9, 11, 12F, 14, 18, 20F), permits to (1) broaden the territorial description to serve between all points in the U.S., under continuing contract(s) with named shipper's in all above authority; (2) remove commodity exceptions in (Subs-8, 9, 11, 12F, 14, and 20); (3) broaden the commodity description from (a) plastic, plastic film and floor coverings "rubber and plastic products" in (Subs-8, 9, 11, 12, 14), (b) synthetic fiber yarn and floor coverings to "textile mill products" in (Subs-8, 9, 11, 12, 14), (c) drugs, pharmaceuticals, paints, wood stain, wood preservatives, caulking compound to "chemicals and related products" in (Subs-18 and 20); and (4) remove are in tank vehicles exception in (Sub-20F).

MC 138627 (Sub-111)X, filed February 5, 1981, previously noticed in the Federal Register of February 24, 1981, republished as corrected this issue. Applicant: SMITHWAY MOTOR XPRESS, INC., P.O. Box 404, Fort Dodge, IA 50501. Representative: Arlyn L. Westergren, Suite 201, 9202 West Dodge Rd., Omaha, NE 68114. Applicant seeks to remove restrictions in its (Subs-18 and 49) certificates to (1) broaden its commodity description from grain storage equipment, and grain handling equipment, parts and accessories, metal buildings, materials, equipment and supplies, to "machinery and metal products" in (Sub-49); (2) expand its one way authority to radial authority between named points in several southern and midwestern States; (3) to replace specified plantsites and cities with either the city or county-wide authority: a named plantsite at or near Pine Bluff, AR, with Jefferson County, AR; a named plantsite at Sheridan and Pine Bluff, AR with Grant County, AR; and a named facility at West Memphis, AR, with West Memphis, AR, in (Sub-16), and Grand Island, NE, with Hall County, NE; York, NE, with York County, NE; Elm Creek, NE, with Buffalo County, NE; Bluffton, IN, with Wells County, IN; Crawfordsville, IN, with Montgomery County, IN; Webster City, IA, with Hamilton County, IA; Greenville, MS, with Washington County, MS; Middletown, PA, with Dauphin and Westmoreland Counties, PA; Saginaw, MI, with Saginaw County, MI; and Oklahoma City, OK, with Oklahoma County, OK, in (Sub-49); and (4) eliminate the restrictions (a) against service to AK and HI; (b) prohibiting transportation of shipments originating at or destined to a named facility, and (c) against the transportation of commodities in bulk, in tank vehicles, in (Sub-49). The purpose of this republication is to replace, in part (3), a named facility, at West Memphis, AR, with West Memphis, AR (Sub-16), instead of with Crittenden County, AR, as was previously noticed.

MC 138741 (Sub-128)X, filed March 6, 1981. Applicant: AMERICAN CENTRAL TRANSPORT, INC., 2005 North Broadway, Joliet, IL 60435. Representative: Tom B. Kretsinger, P.O. Box 258, 20 East Franklin, Liberty, MO 64068. Applicant seeks to remove restrictions in its (Sub-78F, 80F, 83F, and 87F) certificates to (1) broaden its commodity descriptions from iron and steel articles, to "metal and metal articles, in (Sub-78F and 83F); (2) replace named facilities located at or near Granite City, and Madison, IL with Madison County, IL, in (Sub-78F and 83F), and remove the facilities limitation at Kansas City, MO–KS and (3) change its one-way authority to radial authority between Madison County, IL, and points in AR, IN, KY, MO, KS, TN, and IA in (Subs-78F and 83F), and between Kansas City, KS and points in AR, MO, and OK in (Sub-80F).

MC 140859 (Sub-14)X, filed March 9, 1981. Applicant: WESTERN KENTUCKY TRUCKING, INC., 1245 Center Street, Henderson, KY 42420. Representative: William L. Willis, Suite 706, McClure Building, Frankfort, KY 40601. Applicant seeks to remove restrictions from its Certificate No. MC 140859 (Sub-2, 3F, 6F, and 7F), and its Permit No. MC 110825 (Sub-1) to (1) delete the limitations on the commodity descriptions: in (Sub-2), "restricted against commodities in bulk"; in (Sub-3F), "in bulk"; in (Sub-6F), "in bulk, in tank vehicles"; and in (Sub-7F), "except frozen and in bulk, in tank vehicles"; (2) remove the "originating at and destined to" restrictions in (Sub-2 and 3F); (3) eliminate the facilities limitations in (Sub-2, 3F, 6F, and 7F); (4) expand specified points to county-wide authority: in (Sub-2 and 7F), Owensboro and Henderson to Daviess and Henderson Counties, KY; in (Sub-3F), Melbourne to Campbell County, KY; (5) reduce one-way authority with two-way authority (a) in (Sub-3F and 6F), between specified counties or portions in KY and IL, and, points in IL, IN, MI, OH, VA, and WV, or specified portions thereof; and (6) in MC 110825 (Sub-1), expand the territorial authority to between points in the U.S. under contract(s) with a named shipper.

MC 141832 (Sub-2)X, filed March 5, 1981. Applicant: K.I.T. MOTOR EXPRESS, INC., P.O. Box 4004, Louisville, KY 40204. Representative: Edward J. Kiley, 1730 M Street NW., Washington, DC 20036. Applicant seeks to remove restrictions in its lead permit to (1) broaden the commodity description from transformers, transformer parts, materials and supplies used in the manufacture of transformers of transformers and transformer parts, office and plant equipment, and material handling equipment and supplies (except classes A and B explosives and commodities in bulk) to "machinery, metal products, furniture and fixtures and material handling equipment and supplies"; (2) broaden the territorial scope to between all points in the U.S., under continuing contract(s) with a named shipper; and (3) remove the exception of service to HI.

MC 142703 (Sub-32)X, filed March 9, 1981. Applicant: INTERMODAL TRANSPORTATION SERVICES, INC., P.O. Box 14072, Cincinnati, OH 45214. Representative: Michael Spurlock, 275 E. State Street, Columbus, OH 43215. Applicant seeks to remove restrictions in its lead and (Sub-1, 3F, 6F, 7F, 12F, 15F, 17F, 23F, 24F, 27F, 29F, and 30) certificates to (1) broaden its commodity descriptions (a) from general commodities (with exceptions), to "general commodities (except classes A and B explosives)", in the lead and (Sub-1, 3F, 6F, 7F, 15F, 17F, 23F, 24F, 27F, and 29F), and (b) from scrap metal (except in dump vehicles), to "metal products", in (Sub-30); (2) change its one-way authority to radial authority between Cincinnati, OH, and points in PA, in (Sub-12F); (3) remove the commodities in bulk exception in (Sub-12F); and (4) eliminate the restrictions against traffic having an immediately prior or subsequent movement by rail or water, in each certificate except (Sub-12F and 30).

MC 142994 (Sub-11)X, filed March 11, 1981. Applicant: VIRGINIA COURIER SERVICE, INC., P.O. Box 287, Harrisonburg, VA 22801. Representative: Chester A. Zyblut, 366 Executive Building, 1030 Fifteenth St. NW., Washington, DC 20005. Applicant seeks to remove restrictions from its (Sub-6F) certificate to (1) delete "those requiring special equipment" from its general commodities description; and (2) remove the restriction "against the transportation of articles weighing in the aggregate more than 500 pounds, moving from one consignor at one location to one consignee on any one day."

MC 143209 (Sub-12)X, filed March 9, 1981. Applicant: HOUSTON FREIGHTWAYS, INC., 10010 Clinton Drive, Galena Park, TX 77015. Representative: C. W. Ferebee, 720 N. Post Oak, Suite 230, Houston, TX 77024. Applicant seeks to remove restrictions in MC 63792 (Sub-17) acquired in MC–F–

14320 (issuance of certificate pending) to (1) broaden the commodity description from plastic pipe and plastic tubing to "rubber and plastic products"; and (2) remove the plantsite limitation at Houston, TX and expand the one-way authority to radial authority between Houston, TX and points in AR, AL, CO, TX, OK, KS, LA, NM, FL, MO, WY, UT, GA, and MS.

MC 144144 (Sub-6)X, filed March 13, 1981. Applicant: RAINS TRUCKING SERVICE, INC., P.O. Box 73, DuQuoin, IL 62832. Representative: Donald W. Smith, P.O. Box 40248, Indianapolis, IN 46240. Applicant seeks to remove restrictions in its lead and Sub-No. 1F permits (1) to broaden its commodity descriptions to "machinery, equipment or supplies and miscellaneous products of manufacturing" from inert gas cylinders, playground equipment, gas grills, and gymnasium apparatus in the lead and Sub-No. 1F permits, and (2) to broaden the territorial description to between points in the United States, under continuing contract(s) with a named shipper in its lead and Sub-No. 1F permits.

MC 145088 (Sub-10)X, filed March 9, 1981. Applicant: S & T TRUCKLOAD, INC., P.O. Box 4408, Fort Worth, TX 76106. Representative: Billy R. Reid, 1721 Carl Street, Fort Worth, TX 76103. Applicant seeks to remove restrictions in its Sub-Nos. 2F, 4F and 5F certificates: in Sub-No. 2 to broaden both the commodity and territorial authority to authorize (a) "waterproofing compounds and materials, and oils and greases "from asphalt waterproofing compounds and materials and from lubricating oils and greases; and (b) radial service "between Tarrant County, TX, (Fort Worth, TX) on and, points in the U.S." (c) remove the exceptions of AK and HI (d) delete an except in bulk, in tank vehicle restriction; Sub-No. 4, to broaden the commodity and territorial authority and remove a plantsite restriction to authorize (a) "rubber and plastic products" from rubber and plastic articles and materials"; and (b) radial service "between Dallas County, TX, (for Irving, TX) and, points in the U.S." (c) remove the exception of AK and HI (d) delete an in bulk restriction; Sub-No. 5, to broaden the commodity and territorial authority to authorize (a) "fire control systems and devices, and chemicals, and materials, equipment and supplies used in the manufacture, distribution, installation and operations of such commodities" from fire extinguishers and dry powdered chemicals for fire extinguishers, and materials, equipment and supplies used in the manufacture and distribution of such commodities; and (b) radial service "between Tarrant County, TX, (for Fort Worth, TX), and, points in the U.S." (c) remove the exceptions of AK and HI (d) remove in bulk restrictions.

MC 145108 (Sub-41)X, filed March 9, 1981. Applicant: BULLET EXPRESS, INC., P.O. Box 289, Bay Ridge Station, Brooklyn, NY 11220. Representative: Terrence D. Jones, 2033 K Street, N.W., Washington, DC 20006. Applicant seeks to remove restrictions in its Sub-No. 13F permit to remove the "except commodities in bulk" and "originating at or destined to" restrictions to authorize service between points in the U.S. under a continuing contract(s) with a named shipper.

MC 145180 (Sub-2)X, filed February 17, 1981, previously noticed in the FR of March 2, 1981, republished as corrected in this issue. Applicant: THREE TRANSPORTATION, INC., P.O. Box 1580, Bartow, FL 33830. Representative: Herbert Alan Dubin, 818 Connecticut Ave., NW., Washington, DC 20006. Applicant seeks to remove restrictions in its Sub-No. 1F Certificate to (1) broaden the commodity description from fiberglass and plastic gasoline storage tanks, preconditioners, ducts, and industrial ventilating commodities to "rubber and plastic products, metal products, and building materials", (2) remove the plantsite restriction at Bartow, FL and replace it with county-wide authority to serve Polk County, FL, and (3) change the one-way authority to radial authority between Polk County, FL and points in AL, AR, GA, KY, LA, MS, NC, SC, TN, and VA. The purpose of this republication is to include metal products in the new commodity description.

MC 145468 (Sub-44)X, filed March 9, 1981. Applicant: KSS TRANSPORTATION CORP., Route 1 & Adams Station, P.O. Box 3052, North Brunswick, NJ 08902. Representative: Arlyn L. Westergren, Suite 201, 9202 W. Dodge Rd., Omaha, NE 68114. Applicant seeks to remove restrictions in its Sub-Nos. 14F, 15F, 22F, and 31F certificates to (1) broaden its commodity descriptions from frozen foods, meat products, meat by-products, and articles distributed by meat-packing houses (except hides and commodities in bulk), to "food and related products", in Sub-Nos. 14F, 15F, and 31F, (2) replace its facilities and cities with county-wide authority (a) named facilities at Carrollton, Marshall, and Macon, MO, with Carroll, Saline, and Macon Counties, MO, in Sub-No. 14F, (b) named facilities at Fairmont, MN, Omaha, NE, and Postville, IA, with Martin County, MN, Allamakee County, IA, and Omaha, NE, in Sub-No. 15F, part (a); and Storm Lake and Cherokee, IA, with Buena Vista and Cherokee Counties, IA, in part (b), (c) Mason City, IA, and Independence, MO, with Cerro Gordo County, IA, and Jackson County, MO, in Sub-No. 22F, and (d) named facilities at or near Sioux Falls, SD, with Minnehaha County, SD; (3) change its one-way authority to radial authority between the above named cities and counties and points in various specified eastern and central states, in each sub-number; (4) remove the commodities in bulk exception, in Sub-No. 22F; and (5) eliminate the restriction against traffic originating at named facilities, in Sub-Nos. 15F and 31F.

MC 146309 (Sub-7)X, filed March 13, 1981. Applicant: IRVIN D. BLAIR, d.b.a. D & T TRUCKING CO., 4300 Curtis Avenue, Baltimore, MD 21226. Representative: Walter T. Evans, 7901 Eastern Avenue, Silver Spring, MD 20910. Applicant seeks to remove restrictions in its Sub-Nos. 1F and 5F permits (1) to broaden the territorial scope of its authority to between points in the United States under continuing contract(s) with named shippers in both permits, and (2) to broaden its commodity description from steel pipe and steel billets in Sub-No. 1F and steel articles in Sub-No. 5F to "metal products" in both Sub-Nos. 1F and 5F.

MC 147039 (Sub-4)X, filed March 6, 1981. Applicant: TRANSPORTATION SERVICES, INC., 21055 West Road, Trenton, MI 48133. Representative: H. Neil Garson, Suite 400, 3251 Old Lee Highway, Fairfax, VA 22030. Applicant seeks to remove restrictions in its Sub-No. 3F certificate to broaden the commodity description from automotive parts, materials, accessories, and supplies used in the manufacture of automotive vehicles and parts to "transportation equipment, machinery, metal products, and rubber and plastic products."

MC 147096 (Sub-8)X, filed March 6, 1981. Applicant: MADISON BROTHERS DELIVERY SERVICE, INC., 101 Indiana Avenue, Toledo, OH 43602. Representative: Floyd Madison (same as applicant). Applicant seeks to remove restrictions in its MC-150974F permit and in its MC-147096 (Sub-No. 6F) certificates to (1) broaden the territorial description of the lead permit to "between points in the United States," under continuing contract(s) with a named shipper, (2) broaden the commodity description of Sub-No. 6F certificate by including "aluminum allied products" in addition to aluminum and aluminum products, and (3) broaden

the territorial description in Sub-No. 6F by replacing the named shipper facilities near Jones Mill and Gum Springs, AR with county-wide authority, to serve between Memphis, TN, and points in Hot Spring and Clark Counties, AR, and points in the United States.

MC 140105 (Sub-13)X, filed March 9, 1981. Applicant: ARCADIAN MOTORS CARRIERS, 1100 Sierra Street, P.O. Box 427, Kingsburg, CA 93631. Representative: Lavern R. Holdeman, P.O. Box 81849, Lincoln, NE 68501. Applicant seeks to remove restrictions from its No. MC-143477 (Sub-No. 3F) permit to (1) broaden the commodity description from institutional and industrial maintenance supplies and such commodities as are dealt in by drug, grocery and good businesshouses to "such commodities as are used or dealt in by (a) manufacturers and distributors of institutional and industrial maintenance supplies and (b) drug, grocery and food businesshouses;" (2) eliminating the restriction against commodities in bulk; and (3) broadening the territorial description between points in the United States under continuing contract(s) with the named shipper.

BILLING CODE 7035-01-M

Finance Applications

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties or acquire control through ownership of stock, of rail carriers or motor carriers pursuant to Sections 11343 (formerly Section 5(2)) or 11349 (formerly Section 210a(b)) of the Interstate Commerce Act.

An original and one copy of protests against the granting of the requested authority must be filed with the Commission within 30 days after the date of this **Federal Register** notice. Such protest shall comply with Special Rules 240(c) or 240(d) of the Commission's *General Rules of Practice* (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representative is named.

Each applicant states that approval of its application will not significantly affect the quality of the human environment nor involve a major regulatory action under the Energy Policy and Conservation Act of 1975.

MC-F-14133, filed August 4, 1979. Ralph A. Posnik, Sr., 3601 Wyoming Avenue, Dearborn, MI 48120—Control—Michigan Transportation Company, 3601 Wyoming Avenue, Dearborn, MI 48120 and R & S Transport, Inc., 3601 Wyoming Avenue, Dearborn, MI 48120. Representative: David A. Turano, 100 East Broad Street, Columbus, Ohio 43215. Ralph A. Posnik, the sole stockholder of Michigan Transportation Company and R & S Transport, Inc., seeks Commission authorization for common control of said carriers. Michigan Transportation Company is a motor common carrier pursuant to the certificate issued in No. MC-85934 and subs thereunder. This application is filed pursuant to the condition as set forth in the common carrier application of R & S Transport, Inc. at MC-145747 Sub 2F as published in the **Federal Register** of March 1, 1979 at page 11653.

Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY-3-015

Decided: March 12, 1981.

By the Commission Review Board No. 2, Members Carleton, Fisher, and Williams.

MC 9914 (Sub-17), filed February 19, 1981. Applicant: WARREN TRUCKING COMPANY, INC., P.O. Box 2038, Martinsville, VA 24112. Representative: D.R. Beeler, 1261 Columbia Ave., Franklin, TN 37064, (615)-790-2510. Transporting *furniture and fixtures,* between points in NC and VA, on the one hand, and, on the other, those points in the U.S. in and east of ND, SD, NE, KS, OK, and TX.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-8904 Filed 3-23-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special Rule 247 was published in the Federal Register of July 3, 1980, at 45 FR 45539. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient interest in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP4-72

Decided: March 17, 1981.

By the Commission, Review Board No. 2, Members Carleton, Fisher, and Williams.

MC 37696 (Sub-41) filed February 6, 1981. Applicant: YOUNGBLOOD TRUCK LINES, INC., P.O. Box 1048, Fletcher, NC 28732. Representative: Henry B. Stockinger (same address as applicant). Transporting *general commodities* (except classes A and B explosives), (1) between points in NC, SC and TN, and (2) between points in (1) above, on the one hand, and, on the other, points in the U.S.

MC 117686 (Sub-294) filed November 12, 1980, previously published in the Federal Register issue of February 3, 1981, and republished this issue. Applicant: HIRSCHBACH MOTOR LINES, INC., 920 West 21st St., P.O. Box 155, South Sioux City, NE 68776. Representative: George L. Hirschbach (same address as applicant). Transporting *bananas*, from Galveston, TX and Gulfport, MS, to points in OK and WI.

Note.—The purpose of this republication is to correct the commodity and territorial descriptions, and the filing date of the application, previously noticed as October 14, 1980.

MC 143636 (Sub-12F) filed November 5, 1981, and previously noticed in the Federal Register issue of December 2, 1980. Applicant: RON SMITH TRUCKING, INC., R.R. No. 1, Box 59, Arcola, IL 61910. Representative: Douglas G. Brown, The INB Center, Suite 555, One North Old State Capitol Plaza, Springfield, IL 62701. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *feed ingredients and feed byproducts*, between points in IL, on the one hand, and, on the other, points in IN, IA, KY, MO and WI.

Note.—The purpose of this republication is to correctly reflect the territorial description.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-8908 Filed 3-23-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special rule 247 was published in the

Federal Register of July 3, 1980, at 45 FR 45539.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.gs., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests in the form of the verified statements filed within 45 days of publication of this decision-notice (or, if the application later becomes unopposed) appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notice that the decision-notice is effective. Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP3–202

Decided: March 13, 1981.

By the Commission, Review Board No. 2, Members Carleton, Fisher, and Williams.

MC 134105 (Sub-85), filed December 8, 1981. Applicant: CELERYVALE TRANSPORT, INC., 1706 Rossville Ave., Chattanooga, TN 37408. Representative: James E. Elgin (same address as applicant). Transporting *meats, meat products and meat byproducts,* and *articles distributed by meat-packing houses* (except commodities in bulk), from the facilities of Vernon Calhoun Packing Co., at or near Palestine, TX, to points in the U.S.
